REPORT FOR QUARTER ENDING SEPTEMBER 30, 1903.

City of New York—Office of the President of the Borough of Manhattan, City Hall, December 10, 1903.

Hon. SETH LOW, Mayor, The City of New York:

Dear Sir—I beg leave to submit herewith, pursuant to section 1544 of the Greater New York Charter, the reports of the various bureaus under my control for the quarter ended September 30, 1903, to which I invite your attention.

Very respectfully,

JACOB A. CANTOR, President.

DOCUMENT "A."

Document "A"—Third quarterly statement, showing titles of appropriations, balances of 1903; balances of 1902 on September 30, 1903; appropriations with balances of 1903 on September 30, 1903; memoranda of requisitions during first six of special and trust accounts with requisitions during first six months, and in third quarter of 1903 and deposited with the City Chamberlain; also statement showing of 1903, of moneys received as security against damage to sidewalks and pavements,

Offices Commissioner of Public Works, Borough of Manhattan, Nos. 13-21 Park Row, New York, December 7, 1903.

Hon. JACOB A. CANTOR, President, Borough of Manhattan:

Dear Sir—In accordance with section 1544 of the Charter, I submit the following report of the business of this Department for the quarter ended September 30, 1903:

Contracts were entered into as follows:

Eighty-seven for paving and repaving, estimated cost, \$896,875.29; seven for sewers, estimated cost, \$55,050.25; five for regulating, grading, flagging, etc., estimated cost, \$21,814.71; three for miscellaneous works, estimated cost, \$255,983; four for public comfort stations, estimated cost, \$99,289; two for receiving basins, estimated cost, \$1,515, making a total of 108 contracts entered into, at an aggregate estimated cost of \$1,330,527.25.

Contracts were completed during the quarter as follows:

Fifty-eight for paving and repaving, cost, \$426,799.39; one for sewer, cost, \$6,190.40; seven for regulating, grading and fencing, cost, \$36,815.80; two for miscellaneous works, cost, \$12,421.99, making 68 contracts completed, at a total cost of \$476,227.58.

The principal items of work done under the regulating, grading and flagging contracts are as follows:

One thousand eight hundred and twelve cubic yards earth excavated, 3,097 cubic yards rock excavated, 8,110 cubic yards filling furnished, 1,300 cubic yards retaining wall built, 31,000 cubic yards mold furnished, 78,000 square feet sod furnished, 3,771 linear feet curbstones furnished and set and 13,966 square feet flagging furnished and laid.

The areas of new pavements laid are:

Sheet asphalt, 12.39 miles; block asphalt, .46 miles; granite blocks, .29 miles; macadam, 1.23 miles, making 14.37 linear miles of new pavements laid during the quarter.

The repair force took up and relaid 75,469 square yards of stone block pavement.

The following permits were issued:

Sixty-two to construct vaults, 60 to repair vaults, 8 to place guy posts, 180 to place tar kettles on streets, 158 to place boilers on streets, 34 to place banner poles on streets, 9 to repair pavement at expense of applicants.

The amount received for vault permits during the quarter was \$69,898.14.

The macadamized and unpaved streets in the upper part of the borough received the usual attention, as shown by the report of the Division of Roads.

During the quarter 55,837 feet of electric main conduits and 668 feet of steam mains were laid, and 28,103 feet of gas mains were overhauled; for electricity, 727 feet of long services were laid, and the total length of trenches opened for mains was 85,335 feet, or 16,161 miles.

Permits were issued for 951 services for electricity and 411 for repairs; 180 permits were issued for gas services and 982 for repairs, making the total number of permits for services 1,131, and for repairs, 1,393. Three hundred and ninety-five openings were made to lay and overhaul electric mains, and 1,807 to lay and repair electric mains, while 100 openings were made to lay and overhaul gas mains, and 3,227 to lay and repair gas mains. Three openings were made to lay and overhaul steam mains and 158 to lay and repair steam mains; 614 were made to lay and overhaul water mains; 281 to lay and repair water mains; 75 to lay and overhaul sewers, and 191 to lay and repair sewers; the total number of openings made, including two for purposes not specified, being 6,953, which does not include openings made by the Bureau of Street Openings and the asphalt paving companies for the purpose of repairing defects due to ordinary wear, nor openings to repair sidewalks, nor openings for temporary incumbrances, such as poles to support banners or derrick guys.

The Bureau of Incumbrances received and attended to 814 complaints of obstructions, made 279 seizures and removals of obstructions, issued 1,258 permits to place building material on streets, 204 permits to cross sidewalks with horses and carts, and 145 permits to erect temporary sheds over sidewalks. In addition to this, the Bureau removed 282 loads of dirt, stone and rubbish and 67 fallen trees and dangerous stumps.

Twenty-eight sewer contracts, involving an expenditure of \$250,000, are in progress; also 4 contracts for repairing sewers, at a cost of about \$70,000. These works will probably be completed before the close of the year.

One hundred and seventy-three permits for new sewers, and 192 for repairs to sewers, have been issued.

The report of the Superintendent of Public Buildings and Offices gives a detailed account of the repairs and alterations made to the buildings in his charge, and of the supplies furnished to the various offices and Courts.

The report by the Superintendent of Public Baths and Comfort Stations shows an attendance at the baths of 1,854,261 males and 567,815 females, making a total of 2,422,076 baths taken during the quarter.

The Rivington Street Bath was visited by 160,510 males and 115,529 females, making a total of 276,039.

President of the Borough of Manhattan, Offices Commissioner of Public Works,
Bureau of Sewers, Nos. 13-21 Park Row,
New York, October 17, 1903.

Hon. GEORGE LIVINGSTON, Commissioner of Public Works:

Dear Sir—In compliance with your instructions, I herewith forward the Quarterly Report of the Bureau of Sewers for the quarter ending September 30, 1903.

Statement No. 1 contains a complete report of the financial transactions during the quarter.

Statement No. 2 is the report of Chief Engineer Loomis, which is a detailed and complete statement of work completed and in course of construction under his immediate supervision.

Statement No. 3 shows the amount of work done and the material used by the laboring force in the cleaning and repairing of basins and sewers during the quarter.

During the quarter the progress of contract work was somewhat delayed owing to the labor strikes and the unusual amount of rainy weather, only one contract being completed and accepted. Five more contracts are practically completed, and when the roadways are properly paved they will be accepted.

Twenty-eight contracts, aggregating about \$250,000, and all chargeable to Street Improvement Fund, are in course of construction, and four repair contracts, involving an expenditure of about \$70,000, will probably be completed before the close of the year. Plans and specifications for seven new contracts, amounting to about \$70,000, have been prepared, and bids are advertised for, to be opened October 20.

A close examination of the report of the work done by the laboring force shows the same good results as were obtained in the previous quarters of 1902 and 1903.

Yours respectfully,

WM. H. MICHALES, Superintendent of Sewers.

Hon. WILLIAM H. MICHALES, Superintendent of Sewers:

Dear Sir—In compliance with your instructions, I hand you herewith a report of the work done under my supervision for the quarter ending September 30, 1903, with a statement of the work done by Mechanics and Laborers.

The present total length of the sewerage system of Manhattan Borough is 2,662,500 feet (504.26 miles), with 6,075 receiving basins.

In the schedule accompanying this report you will find a detailed statement showing the status of the several contracts under charge of this Bureau.

Sewer Contracts.

One sewer contract has been completed, viz.:

Repairs to sewer in Fifty-sixth street, between Eighth and Ninth avenues.

During the quarter the following sewer, basin and repair contracts have been practically completed, but as they have not been formally accepted, owing to the difficulty of getting the asphalt companies to repave the streets on the same, the amount of work done has not been added in the mileage of the sewerage system:

Sewer in Waverley place, between Bank and Perry streets.

Sewer in Exchange place, between William and Broad streets.

Repairs to sewer in Forty-fourth street, at Hudson river.

Receiving basins, southwest corner Park and Mulberry streets; Mulberry street, east and west sides, between Park and Bayard streets; southeast corner Elm and Great Jones streets; northeast corner One Hundred and Twelfth street and Manhattan avenue; southwest corner One Hundred and Nineteenth street and Eighth avenue; northwest corner One Hundred and Fifty-first street and Eighth avenue, and northwest corner Forty-sixth street and Eleventh avenue.

Receiving basins, south side Sixty-sixth street, adjoining wall of New York Central and Hudson River Railroad; northwest corner Lenox avenue and One Hundred and Thirteenth street; southwest corner One Hundred and Twenty-sixth street and Columbus avenue; northwest corner One Hundred and Twenty-seventh street and Convent avenue; southwest corner Central Park West and Sixty-third street, and alterations to basins northeast and southeast corners Seventy-ninth street and Riverside Drive.

There are now in progress contracts for sixteen new sewers, four repairs to sewers and six basin contracts:

Sewer in One Hundred and Thirty-fifth street, between Broadway and Amsterdam avenue.

Sewer in One Hundred and Thirty-sixth street, between Convent and Amsterdam avenues.

Sewer in One Hundred and Thirty-eighth street, between Convent and Amsterdam avenues.

Sewer in One Hundred and Thirty-ninth street, between Convent and Amsterdam avenues.

Sewer in One Hundred and Eighty-fourth street, between Broadway and Amsterdam avenue.

Sewer in Broadway, east and west sides, between Twenty-eighth and Twenty-ninth streets.

Sewer in Jumel place, between One Hundred and Sixty-seventh street and Edgecombe road.

DOCUMENT "I."

President of the Borough of Manhattan, Offices Commissioner of Public Works, Bureau of Public Buildings and Offices,

New York, December 1, 1903.

Hon. GEORGE LIVINGSTON, Commissioner of Public Works:

Sir—In accordance with your instructions, I have the honor to submit the following report of the transactions of this Bureau for the quarter ending September 30, 1903:

Criminal Court Building.

The usual orders were issued for cleaning glass in the windows and doors, and for repairs to plumbing work. The hot water pump had repairs made to the feed and discharge water line; one Marsh pump furnished and erected, as directed. Awning over Grand Jury room in above building was taken down, frames repaired and recovered with new canvas. The contract for the completion of the heating and ventilating and providing of Judge's chambers and toilet-rooms and completion of existing toilet-rooms of the above building is nearly completed. The heating and ventilating system awaits the acceptance of the City, which will be forthcoming, provided the plant meets the test required by the specifications, which will be made immediately.

County Court House.

The usual orders for supply of steam were rendered; cleaning and Engineer's supplies were furnished. The glass in windows and doors was cleaned as customary. The roof and skylight, gutters, etc., were repaired where necessary, gutters re cemented on roof with best quality of roof cement, and roof scraped and painted with one coat of Prince's metallic paint ground in linseed oil.

The electric lighting and call bell system in the above building were repaired and altered.

The interior of the above building was painted in accordance with the terms of a contract dated August 29, 1903, between the City and Louis Wechsler for the sum of \$9,600. The building now presents a cleanly appearance, which has been sadly wanting for years.

Additional work in consequence of the contract was performed to the amount of \$1,413.

The Elevators—The hand rope in the north elevator in the above building was renewed.

City Hall.

The usual cleaning supplies were furnished for the use of the Janitor. The gutters on the north side of the roof of the above building were relined with best quality of charcoal tin, painted one coat on under side and two coats on top with paint composed of the best quality of Prince's metallic ground in linseed oil. Defective tin around flashings near flagstaff and on the hips of the roof were cut out and replaced with new tin of best quality, and copper drainers set where directed.

Mayor's Office—The usual supply of steam was furnished. The chandelier in above office was altered and repaired as directed. Two screen doors furnished and hung according to plans.

City Clerk's Office—One specially constructed rolltop desk was furnished, and counter desks erected in accordance with plans and specifications on file in this Bureau.

Council Chamber—Four 6-light hanging brackets in the above chamber were taken down and cleaned and repaired, and two 18-light chandeliers taken down, re-wired and replaced. The sheathing was removed from the sides of the platform at east end of the chamber, and platform and steps extended at side. Two pair of inner drawers furnished and hung on the south side, and two side lights of beaded glass, with trim furnished at west end, and incidental painting and varnishing thereto, was performed.

Aldermanic Chamber—The wax finish was removed from the surface of the walls from top of wainscoting to bottom of cornice, and the same painted with three coats of white lead and oil (Atlantic brand). Color now harmonizes with mahogany wainscoting.

Brown Stone Building.

The usual Cleaner's and Engineers' supplies were furnished, and the glass in windows and doors cleaned as is customary.

Harlem Court House.

The usual cleaning and Engineers' supplies were furnished. The tanks on the first and second floors were repaired. One Babcock & Wilcox water column installed complete, steam pipes repaired and altered, and one Detroit lubricator, 1 1/4 inches, one 6-inch low pressure steam gauge, one 2-inch pop safety valve and one 2 1/2-inch Jenkins globe valve furnished, and repairs were made to one Kieley pump governor in above building.

Defective pipes in the various rooms and offices occupied by the Sergeants, Judges and Janitors were repaired, and the plumbing put in good condition. The furnaces in the above building were relined with No. 1 fire brick, the arches renewed and the side walls taken down and rebuilt under the supervision of this Bureau.

The hoisting cables on the elevators were renewed.

West Fifty-fourth Street Court House.

The usual cleaning and Engineer's supplies were furnished, and the glass in windows and doors cleaned as is customary. Small repairs were made to the elevator. The plumbing was placed in good condition where necessary. The roof and skylight were repaired and defective parts cast out and replaced with new material of best quality, painted bottom and top. The Clerk's office in the courtroom and the Janitor's apartments were cleaned off and painted; the radiators bronzed and the doors grained and varnished where necessary, and the stone arches at windows of Magistrates' Court were pointed up.

Seventh District Court House.

The usual cleaning and Engineer's supplies were furnished, and the glass in windows and doors cleaned as usual. The roof had the defective parts cut out and replaced with new tin of best quality, and all new work painted bottom and top. Repairs were made to the plumbing where necessary.

First District Court House.

The usual Janitor's supplies were furnished and the glass in windows and doors cleaned as customary. The walls and ceilings were cleaned off and painted as directed.

Fifth District Municipal Court.

One 12-foot flagstaff furnished and put up, and the usual Janitor's and cleaning supplies furnished, and the glass in windows and doors cleaned as usual.

Children's Court.

Repairs were made to the plumbing, and the usual Janitor's and Engineer's supplies furnished and customary cleaning of the glass performed.

Essex Market Court House.

The usual cleaning supplies furnished, plumbing repaired and the glass in windows and doors cleaned.

Jefferson Market Court House.

The usual cleaning supplies furnished, repairs made to the plumbing and the glass in the windows and doors received the customary attention.

Volunteer Firemen's Headquarters.

Repairs were made to the plumbing and gas pumps in the above building, new flashings set, defective tin cut out on the main roof and replaced with new tin of best quality, painted bottom and top.

The Markets.

Fulton Market—Repairs were made to the water pipes and the sewer cleaned. Tompkins Market—Four-inch iron waste pipe line from iron bell traps on the first floor of above market cleaned out and repaired.

Washington Market—The sewer and leader pipes were cleaned out and repairs made to the plumbing.

West Washington Market—The sidewalk was opened, leaders cleaned out and new ones furnished where necessary, defective tin on the roof was cut out and replaced with new tin of best quality, and the same painted bottom and top. New leaders were furnished where necessary.

The usual cleaning supplies were furnished to all of the markets as is customary.

County Jail.

Necessary repairs were made to the plumbing, and the usual cleaning supplies furnished. One eight-day clock, style No. 7, was furnished.

Office of the President of the Borough.

One rug was furnished, and shades were hung where necessary.

Bureau of Buildings.

Two six-gallon wood jacket water coolers and stands were furnished.

Bureau of Public Buildings and Offices.

Supplies have been furnished from the storeroom connected with the Bureau for use of the Janitors of the various public buildings from time to time. The order for the use of horse and wagon for the Superintendent of Bureau was renewed. The following supplies were distributed as needed: Coal and wood for heating, etc.; ice, brooms, pails, soap, waste paper baskets, sapolio, sponges, mop handles, feather dusters, scrubbing brushes, ash cans, etc., for the use of the different public buildings, courts and offices in care of this Bureau. Among the many items of repairs made to the different public buildings, courts and offices not hereinbefore specifically mentioned are plumbing, steamfitting, carpentering, roofing, plastering, mason work, painting, electrical work, repairs to safes and furniture, etc., and for the use of Mechanics in the employ of this Bureau a supply of lumber, hardware, paints, varnish, etc., was furnished.

I also hand you herewith report of the Superintendent of Baths and Comfort Stations.

Very respectfully,

WILLIAM H. WALKER,
Superintendent of Public Buildings and Offices.

DOCUMENT "J."

City of New York, President of the Borough of Manhattan, Offices of the Commissioner of Public Works, Bureau of Public Buildings and Offices, Superintendent's Office, Nos. 13-21 Park Row,

New York, October 20, 1903.

Hon. WILLIAM H. WALKER, Superintendent of Public Buildings and Offices: Dear Sir—Please find herewith submitted report of the Free Floating Baths, Rivington Street Bath and Public Comfort Station for the months of July, August and September, third quarter of the present year.

The floating baths, after the usual repairs, except painting, were placed in commission on the following dates at the locations indicated:

Bath No. 2, June 12, at the Battery.
Bath No. 10, June 13, at East One Hundredth street.
Bath No. 8, June 14, at West Eighty-second street.
Bath No. 12, June 17, at East Third street.
Bath No. 14, June 19, at East Third street.
Bath No. 7, June 20, at West Thirty-fifth street.
Bath No. 9, June 21, at West Thirty-fifth street.
Bath No. 13, June 24, at West Ninety-seventh street.
Bath No. 4, June 26, at East Twenty-fourth street.
Bath No. 15, June 28, at West One Hundred and Fifty-second street.
Bath No. 5, July 2, at East One Hundred and Twelfth street.
Bath No. 1, July 7, at West Thirteenth street.
Bath No. 3, July 16, at Corlears street.
Bath No. 6, July 27, at East Thirty-first street.
Bath No. 7, July 24, moved from West Thirty-fifth street to West One Hundred and Thirty-eighth street.

At the very beginning of the season two Attendants were charged with keeping baths open on Sunday afternoons and charging for admission. Charges were proven and men dismissed from the service, which had a very wholesome and deterring effect for the balance of the season. Outside of the above, but one serious charge has been brought against Attendants of floating baths the entire season.

The summer in the main has been very cool and not conducive to excessive numbers bathing.

Total number of baths taken, males 1,854,261
Total number of baths taken, females 567,815

Total number of baths taken, males and females 2,422,076

Winter quarters have been secured for the baths at the same place as last winter—foot of Twenty-third street, Brooklyn—at the same price, quite a reduction from what was formerly paid.

An order was issued early in the season discontinuing the hiring of bathing suits on the baths. This was to prevent favoritism and partiality among the bathers hiring suits and those bringing their own.

The baths were placed in their winter quarters on the following dates:

Bath No. 4, September 22; Bath No. 3, September 22; Bath No. 5, September 23; Bath No. 6, September 24; Bath No. 13, September 24; Bath No. 14, September 25; Bath No. 1, September 26; Bath No. 12, September 26; Bath No. 8, October 4; Bath No. 9, October 4; Bath No. 7, October 5; Bath No. 10, October 5; Bath No. 2, October 6; Bath No. 15, October 7; and all are now safely in position, with all movable property stored and housed. One skiff was lost by getting loose and drifting away in the night during a heavy storm. Two running lines were stolen. Both of these mishaps were due to the carelessness and inefficiency of new employees. The sinking of Bath No. 1 at East Thirteenth street was also from the same cause. Charges were brought in each case, but as the crime was more the result, somewhat, of inexperience, the men were reprimanded and allowed to return to duty.

At the Rivington Street Bath the plan of sending the children under twelve to the floating baths at Corlears street and East Third street, both near by, was adopted, thus greatly relieving the congested condition there, and reserving the use of the bath somewhat more for the adults.

The number of baths taken at the Rivington Street Bath for the three months just ended is as follows:

Males 160,510
Females 115,529

Total 276,039

Nearly all summer the coal furnished at this bath has been of a very poor quality, and has been a source of extra labor, waste and annoyance. Frequent reports and complaints of same have been made.

The Gegenstroms overhauled and repaired by the last contractor were poorly done, and at present writing are almost as leaky as before repairing, but arrangements have been made with the Huber Company to furnish new tubes at a cost of \$5.50 each, which will be put in by our Engineer and his help, thus reducing the cost from between \$20 and \$30 each originally to \$5.50. We may therefore confidently expect but little more trouble from this source.

The whole interior and exterior of the building is greatly in need of painting, the interior especially so.

I wish in this report to speak in terms of warmest praise and commendation of the conduct of Attendants, both male and female, at this bath, as also of all the other employees. Complaints have been reduced to the minimum, and are now an exception instead of the rule.

There seems to be no necessity for keeping this bath open in the fall and winter months for sixteen hours a day, and the hours are therefore reduced to fourteen, which will result in no inconvenience, and considerable saving.

Borough Hall Park Comfort Station.

There is much to be required at this plant, it being about as much of the time out of order as in.

The ventilating system needs putting in good condition, the fresh air inlet never having been running since I have held my present position. This place is very largely patronized at all hours, and it seems as if it should be put in such condition as to make it fill the purpose of its construction in at least a respectable manner.

The male Attendants are at present giving good satisfaction. The female Attendants have always done so.

Respectfully submitted,

W. W. WEEKS,

Superintendent of Public Baths and Comfort Stations.

DOCUMENT "K."

City of New York, Office of the Superintendent of Buildings for the Borough of Manhattan, No. 220 Fourth avenue,

October 16, 1903.

Hon. JACOB A. CANTOR, President of the Borough of Manhattan:

Dear Sir—I have the honor herewith to submit my report of the operations of this Bureau for the three months ending September 30, 1903.

In connection therewith I would call your attention to the great progress made since my last quarterly report, in the disposition of old violations, which

Violations of Law and Unsafe Buildings

had been allowed to accumulate and encumber the records of this Bureau for many years past.

When I assumed office there were pending, exclusive of fire escape and unsafe building cases, over 4,000 violations. There are now pending in this Bureau only 605 violations, all of them being recent and receiving attention.

As stated in my report to you of June 8, these old violations were frequently a source of unnecessary annoyance and expense to property owners on the transfer of title to real estate, and offered a fruitful field for unlawful exactions on the part of those connected with the Bureau, who might be disposed to avail themselves of such opportunity.

During the present quarter 2,167 new cases have been filed, 5,237 cases have been dismissed, and 757 cases sent to the Corporation Counsel for prosecution, leaving pending in this office 605 violations, 509 fire escape cases and 735 unsafe building cases. Practically all of these are recent cases, in which the time given by the Building Code to the owner to comply with the law has not yet expired, and they constitute the ordinary current business of this Bureau, which is receiving our daily attention.

In the comparative statement on page 8, of the enclosed report, you will notice that for the same quarter in 1902, 978 violations were removed, as against 4,017 in 1903.

The disposition of these old violations has required the constant and intelligent attention of the employees of this Bureau for the past three months, and has involved a large amount of correspondence, many interviews and reinspections, and I am glad to be able to report to you that the business of the Bureau is now entirely up to date and unembarrassed by accumulated matters.

Where formerly it was necessary for architects and builders to wait three or four weeks for the final approval of their plans, this is now accomplished within three or four days, thereby greatly facilitating the progress of construction, and avoiding vexatious and costly delays.

Yours sincerely,

HENRY S. THOMPSON,

Superintendent of Buildings, Borough of Manhattan.

5th. Certificates declaring premises at Fort Hamilton and Chester avenues, Lincoln avenue and Glen street, and Union street, near Franklin avenue, Borough of Brooklyn, public nuisances.

On motion, the following orders were entered:

Whereas, The premises, Lincoln avenue and Glen street, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable, in its present condition, be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the saturated wooden flooring and gutters of cow stalls and saturated earth beneath the same be removed, the site cleaned and disinfected, said stalls be provided with new watertight flooring and gutter, so graded as to discharge all liquids into a cesspool by means of a properly trapped, watertight drain. That the broken and saturated flooring of milk house be removed and replaced by new watertight flooring, so graded as to discharge all liquid into a properly trapped drain; that the manure box be properly repaired and made watertight and same be provided with a tight cover; that proper changes be made in stable so as to provide six hundred cubic feet of air space for each cow, or the number of cows be reduced to four.

Whereas, The premises, Fort Hamilton and Chester avenues, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable, in its present condition, be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that the saturated and broken wooden flooring of cow stalls in main stable and the gutters of said stalls be removed, the site cleaned and disinfected; that said stalls be provided with new watertight floorings and gutters, so graded as to discharge all liquids into watertight and properly trapped drains connected with the cesspools; that all cesspools about the stable be emptied and disinfected; that all manure be removed at least twice a week, that the broken manure boxes be properly repaired and made watertight, and said boxes be provided with tight covers; that the wooden flooring of milk house be made watertight and so graded as to discharge all water into a properly trapped drain connected with a cesspool.

Whereas, The premises, Union street, near Franklin avenue, Borough of Brooklyn, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance, and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable, in its present condition, be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom; that all cows be removed from the premises, and the keeping of cows thereat discontinued; that all manure be removed, and that the premises be thoroughly cleaned and disinfected.

3d. Reports and certificates on overcrowding in the following tenement houses:

On motion, the following preamble and resolution were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the following apartments in tenement houses in The City of New York are so overcrowded that less than four hundred cubic feet of air space is afforded to each occupant in the said houses:

It is ordered that the number of occupants in said apartments be and are hereby reduced as follows:

No. 214. No. 95 Roosevelt street, apartment No. 14, Rocco De Parma, 6 adults, 3 children.

4th. Certificates in respect to the vacation of premises at No. 9 Grand Circle, Borough of Manhattan.

On motion, the following preamble and resolution were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon Lot No. 9, Grand Circle, in the Borough of Manhattan, has become dangerous to life and is unfit for human habitation because of defects in the draining thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants:

Ordered, That all persons in said building situated on Lot No. 9, Grand Circle, in the Borough of Manhattan, be required to vacate said building on or before December 22, 1903, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the drainage thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

5th. Certificates declaring premises Nos. 1926-1928 First avenue, and Nos. 423-425 East Ninetieth street, Borough of Manhattan, public nuisances.

On motion, the following orders were entered:

Whereas, The premises Nos. 1926-1928 First avenue, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and in effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom.

Order No. 9511, No. 1926 First avenue—That the wooden floors of horse stalls and stable and the saturated earth beneath same be removed, the site cleaned and disinfected, and the floors of the stalls be cemented and so graded as to discharge all liquids into a water-tight, properly trapped, sewer-connected valley drain; that each stall be provided with a movable rack.

Order No. 9512, No. 1928 First avenue—That all offensive earth be removed from beneath the stable floor, and the ground space cleaned, disinfected, cemented and so graded and drained as to discharge all surface water and liquid matter into the street sewer by and through a properly trapped, extra heavy iron drain; that the floors of the horse stalls be provided with a valley drain, properly trapped, and connected with the sewer-connected drain.

Whereas, The premises Nos. 423-425 East Ninetieth street, in The City of New York, and the business pursuit specified in this case, being in the opinion of the Board in a condition and in effect dangerous to life and health and a public nuisance and the Board having taken and filed among its records the reports of the Sanitary Superintendent and the Inspectors relating thereto, and what it regards as sufficient proof to authorize its declaration that the premises and business pursuit in this case are in condition and in effect dangerous to life and health and a public nuisance—the Board hereby enters in its records the said premises as a nuisance, and declares the same to be a public nuisance dangerous to life and health, and in respect thereto orders, viz.:

That the use of said premises as a stable in its present condition be discontinued; that the said premises be cleaned; that the filth-saturated soil be removed and replaced with fresh earth, and the surface so graded that all surface water shall be freely discharged therefrom.

Hereafter all manure be kept inside the stable and removed from the premises daily, unless pressed in bales, barrels or boxes, so as to reduce it to not more than one-third the original bulk; that all offensive earth be removed from beneath the stable floor, and the ground space cleaned, disinfected, cemented and so graded and drained as to discharge all surface water and liquid matter into the street sewer by and through a properly trapped, extra heavy iron drain; that the floors of the horse stalls be provided with a valley drain, properly trapped, and connected with the sewer-connected drain.

6th. Reports on application for permits.

On motion, it was

Resolved, That permits be and are hereby granted as follows:

Dr. William Mabon, the Superintendent of Bellevue and Allied Hospitals, reported upon the following:

Out Patient Department—The hours of the gynaecological service in the Out Patient Department were unsatisfactory, and they have therefore been changed from 9 to 11 and 11 to 1 in the morning to 12 to 2 and 2 to 4 in the afternoon.

It is recommended that when the women's dormitories become vacant one of them be converted into a ward for tubercular patients. This will allow of the use of the present phthisis ward for cases of alcoholism.

Dormitory Building—The Supervising Engineer, with the contractor and architect, went over the dormitory building on December 2 to see wherein it was incomplete. Arrangements have been made for finishing the building and correcting the minor defects. The Contract Clerk has moved his office into this building, and it is expected in a few days that the Supervising Engineer and Bookkeeper will also move into it.

Medical Records—The new Medical Records went into effect in Bellevue Hospital on December 1, and on January 1 they will be used in the dependencies.

Uniforms—The uniforms have been supplied, but in a number of them alterations are necessary.

Employees—Case of George Wetherell, Ambulance Driver; Peter Hanley, who died in Ward 26 of aneurism; William G. Abendroth, a Pupil Nurse, and James J. Ryan, Orderly, employed in the reception office at night.

Patients—Reports on George Turner, Sarah Edelsburg and Jeanne Monnet are submitted.

Gouverneur Hospital—Dr. Monroe, a member of the Gouverneur Hospital Staff, was operated upon for appendicitis on December 2, 1903.

On motion, duly seconded, it was

Resolved, That the Superintendent's suggestion that one of the dormitories, at present occupied by women employees, when vacated be converted into a ward for tubercular patients, thus allowing the use of the present ward for cases of alcoholism, be approved, and that the subject be referred back to the Superintendent, with power to carry his suggestion into effect.

On motion, duly seconded, it was

Resolved, That the Board of Trustees, having learned with regret of the death of Peter Hanley, in charge of the Painters at Bellevue Hospital, place on record an expression of its appreciation of his good work for many years in the service of the hospital.

Communications.

A communication was received from Doctor Joseph B. Bissell, Acting Secretary of the Medical Board of Bellevue Hospital, under date of December 2, 1903, enclosing minutes of the regular meeting of the Board held on the 1st of December, 1903.

On motion, duly seconded, the minutes were ordered placed on file.

A communication was received from Doctor Edward Waitzfelder, under date of December 2, enclosing minutes of the annual meeting of the Medical Board of Gouverneur Hospital, held at Gouverneur Hospital on December 1, 1903.

On motion, duly seconded, it was

Resolved, That the resignation of Doctor Harold, House Surgeon at Gouverneur Hospital, be accepted, the same having been duly submitted to the Medical Board of Gouverneur Hospital; further

Resolved, That Doctor Milliken be appointed House Surgeon to fill the vacancy caused by the resignation of Doctor Harold, he having been nominated to that position by the Medical Board; further

Resolved, That Doctor Henderson be assigned to duty as sub-junior upon the recommendation of the Medical Board, said appointment to date from December 4, 1903.

A communication under date of November 30, 1903, was received from Ogden Mills, Acting Secretary of the Advisory Committee on Nursing, enclosing minutes of the meeting held November 30, 1903.

On motion, duly seconded, it was Resolved, That the recommendation of the committee for the establishment of a post-graduate course to Nurses from recognized training schools be and the same is hereby referred to the President and Superintendent for further investigation and report; further

Resolved, That the minutes of the committee be and the same are hereby ordered placed on file.

A communication from Miss Carrie Gray, under date of December 1, enclosing record of attendance of the Visiting Physicians and Surgeons to Fordham Hospital, and a communication from Miss Sarah A. Gainsforth, under date of December 1, inclosing record of attendance of the Visiting Physicians and Surgeons to Harlem Hospital, were received and ordered placed on file.

A communication under date of December 3 was received from the Hon. George L. Rives, Corporation Counsel, enclosing opinion in regard to the proper disposition of check received from the Metropolitan Street Railway Company in payment of an ambulance to replace one destroyed by collision with car belonging to that company.

Upon motion, duly seconded, the same was ordered placed on file. A communication under date of November 20 from Frederick A. Ross, fire expert, stating that the interior fire alarm system of Bellevue Hospital is now in operation, and calling attention to the fact that the hose does not reach above the first floor of the dormitory building, was received and ordered placed on file.

On motion, duly seconded, it was Resolved, That the Superintendent be authorized and instructed to purchase 400 feet of 2½-inch hose for the proper protection of the dormitory building, and further that two fire extinguishers be placed on each floor of said building.

Reports of Committees.

The Superintendent reported that the Continental Hygeia Ice Company were to complete the contract of the People's Ice Company during the remainder of the year, the latter company having gone into the hands of a receiver, who has disposed of the business of the former company.

New Business.

On motion, it was Resolved, That the Board of Trustees approve the proposal of the Continental Hygeia Ice Company to complete the contract of the People's Ice Company during the remainder of the year.

On motion, duly seconded, the following resolution was adopted: Whereas, There is no safe place in the hospital for the storage of the minutes of the Board of Trustees, together with other valuable documents such as deeds, opinions of the Corporation Counsel etc.; therefore be it

Resolved, That the Superintendent be authorized and instructed to purchase a fireproof safe of sufficient size for the storage of these documents.

On motion, duly seconded, the following appointments to medical positions in the Out Patient Department of Gouverneur Hospital were confirmed and approved: Dr. Edward L. Kellogg, No. 104 West Fifty-eighth street, Assistant Surgeon, Out Patient Department, Gouverneur Hospital. Tuesdays, Thursdays and Saturdays, from 2 to 4 p. m. Appointment to date from October 1, 1903.

Dr. C. L. Beil, No. 310 East Forty-third street, Assistant Physician, Out Patient Department, Gouverneur Hospital. Mondays, Wednesdays and Fridays, and Saturdays, from 10 to 12. Appointment to date from October 13, 1903.

Dr. David H. Jones, No. 83 West One Hundred and Third street, Assistant Physician, Out Patient Department, Gouverneur Hospital. Tuesdays, Thursdays and Saturdays, from 10 to 12. Appointment to date from October 13, 1903.

On motion, the Board adjourned.

J. K. PAULDING, Secretary, Board of Trustees.

PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD, HELD IN NO. 320 BROADWAY, ON THURSDAY, 17TH DECEMBER, 1903,

There were present—Alexander E. Orr, President, presiding; John H. Starin, Vice-President; Mayor Seth Low; Comptroller Edward M. Grout; and Commissioners Woodbury Langdon, Charles Stewart Smith and John Claffin. Commissioner Morris K. Jesup sent word asking to be excused on account of absence from town.

Edward M. Shepard and Albert B. Boardman, Counsel; Wm. Barclay Parsons, Chief Engineer; and George S. Rice, Deputy Chief Engineer, also were present.

As previously announced, the Board gave a public hearing on various proposed rapid transit extensions. Wm. Cokeley, Albert E. Davis, James L. Wells, W. W. Niles, Alderman Gass, David Morris, Daniel Sherry, Kasimir Lofink and Charles Baxter spoke in favor of an extension out Westchester avenue to Westchester Village. Joseph B. Bloomingdale, President; Wm. N. Cohen, Counsel; David Steckler, Secretary of the East Side Rapid Transit Association of Manhattan and The Bronx, and James L. Wells, spoke in favor of an east side line, either from Forty-second street north, or from down town, without favoring any particular avenue. W. M. K. Olcott spoke in behalf of the West Side Rapid Transit Association, for a line on the west side, if possible, all the way to Harlem on Seventh or Eighth avenue, or, at any rate, from Forty-second street south to the Battery.

At this point the Mayor withdrew from the meeting.

On the request of the Rapid Transit Subway Construction Company for authority to make a three track viaduct extension from Kingsbridge up Broadway to Van Cortlandt Park, H. H. Brown, A. S. Hutchins and J. B. Dash spoke in favor of the extension, while Calvin Tompkins, President of the Municipal Art Society, opposed it on the general ground that no additional elevated structures should be erected in the City, and on the further ground, in which he was supported by C. B. Meyers, W. W. Niles and a representative of a large property owner in that section, Benjamin F. Manierre, who did not oppose the extension itself, but the use of Broadway for it, that this main thoroughfare from the west side northward, should be saved from the encroachment of an elevated structure, and that another location could be found near by for the extension. Jefferson M. Levy also opposed the extension.

The minutes of the preceding meeting, 10th December, 1903, were read, and it was moved that they be approved:

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Claffin.

Nays—None.

Carried.

Requisition No. 40 of the contractor, on Contract No. 1, was presented as follows:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY, OFFICE OF THE CONTRACTOR, NOS. 13-21 PARK ROW,

NEW YORK, December 15, 1903.

Requisition No. 40.

For work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, to 30th day of November, 1903, as follows:

Total to date \$30,036,000 00
Less previous requisition 29,512,000 00

Balance due \$524,000 00

(Signed) JOHN B. McDONALD, Contractor.

Certificate No. 40.

I hereby certify that the work done and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, for which Requisition No. 40, of date December 15, 1903, is made by John B. McDonald, the contractor, has been done and furnished in accordance with the terms of the contract to the value of five hundred and twenty-four thousand dollars (\$524,000), that such value has been ascertained rela-

tively to the contract value of the whole work, and that no certificate has previously been made for such work and materials.

(Signed)

WM. BARCLAY PARSONS,

Chief Engineer of the Board of Rapid Transit Railroad Commissioners.

The following resolution was moved:

Whereas, John B. McDonald, the contractor, has made requisition on this Board, dated 15th December, 1903, and numbered Requisition No. 40, for work and materials furnished under contract dated February 21, 1900, for the construction and operation of the Rapid Transit Railroad of The City of New York, to 30th day of November, 1903, and amounting to the sum of five hundred and twenty-four thousand dollars (\$524,000); and

Whereas, Wm. Correspondence on the provision of a temporary relocation for the statue of S. S. Cox was presented as follows:

NEW YORK, December 10, 1903.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—I hand you herewith copy of letter which I have just addressed to the contractor in regard to the statue of the late Honorable S. S. Cox, a permanent site for which should be found so that the statue may be properly placed.

Very truly yours,

(Signed)

WM. BARCLAY PARSONS, Chief Engineer.

NEW YORK, December 16, 1903.

JOHN B. McDONALD, Esq., Contractor, Nos. 13-21 Park Row:

MY DEAR SIR—The statue of the late Honorable S. S. Cox is now in a temporary position near its old site, in which position it prevents the finishing of the street surface. I wish you would find some temporary suitable place in this vicinity where this statue can be placed pending a selection by the authorities of a suitable permanent location.

On account of Fourth avenue being widened it is obviously impossible for the statue to be placed in its old position, as it would be directly in the line of traffic. I have referred this matter to the City authorities, who will, as soon as possible, provide a new site. Unless some better site occurs to you, I would suggest that it be moved just north of the line of Eighth street, and placed within the lines of the widening of Fourth avenue, where it can remain without interfering with access to any buildings until such time as the City paves the new street, or a new site for this statue is found.

Very truly yours,
(Signed) WM. BARCLAY PARSONS, Chief Engineer.

Municipal Art Commission, No. 21 City Hall, City:

GENTLEMEN—I am directed by the President of the Rapid Transit Board to transmit to you herewith a copy of a letter by the Chief Engineer of the Board to the contractor who is constructing the Rapid Transit Railroad, with respect to the statue of the late S. S. Cox at Eighth street and Lafayette place. It would seem that a permanent site for this statue, other than its former one, will probably have to be selected.

Yours respectfully,
(Signed) BION L. BURROWS, Secretary.

The following letters of President of the Pennsylvania, New York and Long Island Railroad Company and President of Long Island Railroad Company were presented as follows, and referred to the Committee on Plans:

PENNSYLVANIA, NEW YORK AND LONG ISLAND RAILROAD COMPANY,
December 11, 1903.

To the Honorable the Board of Rapid Transit Railroad Commissioners for The City of New York:

DEAR SIR—Permit me to call your attention to the fact that no provision has been made in the construction of the present rapid transit subway system for suitable connections with the Pennsylvania, New York and Long Island Railroad station to be located between Seventh and Ninth avenues and Thirty-first and Thirty-third streets. Your Honorable Board will, I am sure, appreciate the importance of providing for the movement of the very large number of persons who will arrive at and depart from this station daily.

I have the honor to be,

Yours very truly,
(Signed) A. J. CASSETT, President.

December 12, 1903.

To the Honorable Board of Rapid Transit Commissioners of The City of New York:

DEAR SIR—The Pennsylvania Railroad Company is building a station between Seventh and Ninth avenues, and Thirty-first and Thirty-third streets, Manhattan, for the passenger traffic of the Long Island Railroad, as well as the Pennsylvania Railroad. You have had this whole improvement under consideration in the past, and you are therefore advised of the importance of this undertaking. We feel it our duty to urge your Honorable Commission to make some adequate provision by surface and underground roads for the many millions of passengers who will use this station in connection with the Long Island Railroad.

With the hope that you will give this matter early consideration, because anything that may be done cannot be completed any earlier than the station, I remain,

Yours very truly,
(Signed) W. H. BALDWIN, Jr.

The following opinion of Counsel on power of the Board to sell terminal property acquired by the City for rapid transit purposes was read, and a copy ordered transmitted to the Rapid Transit Subway Construction Company:

NEW YORK, December 14, 1903.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York City:

DEAR SIR—We are in receipt of the letter from the Secretary, dated the 25th ultimo, containing a copy of a letter from Mr. August Belmont, President Rapid Transit Subway Construction Company, to you, dated the 19th ultimo. Mr. Belmont calls attention to the fact that here is nothing in the McDonald contract which provides for the substitution of one terminal property for another. He suggests that such a substitution is or may become desirable, and asks that "some understanding should be arrived at with reference to such matters and a definite policy established."

The Rapid Transit Act was amended by chapter 587 of the Laws of 1901 as follows:

"It shall be the duty of the Board, whenever any property which the City shall have acquired, as provided in this act, shall be unnecessary for rapid transit purposes, to sell and convey the same in behalf of said City, provided, however, that no such sale or conveyance shall be made except with the approval of the Board of Estimate and Apportionment of such City, or, if no Board of Estimate and Apportionment exists, then any other Board or public body thereof on which is imposed the duty of making appropriations of public money for the purposes of its government, and provided further that the proceeds of any such sale or conveyance shall be applied in all respects as the payments of rental to be made by the contractor as provided in this act."

We know of no other statutory provision authorizing the Board of Rapid Transit Railroad Commissioners to sell real property the title to which has invested in the City.

Truly yours,
(Signed) BOARDMAN, PLATT & SOLEY,
EDWARD M. SHEPARD,

Opinion of Counsel on leakage from water mains was read, as follows, and a copy ordered forwarded to the Department of Water Supply, Gas and Electricity:

December 17, 1903.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, City:

SIR—At its meeting on the 10th instant, the Board referred to us the matter of the claim of the Department of Water Supply that the leak in the water main at the southeast corner of Elm and Houston streets was due to Rapid Transit work, and that, therefore, the contractor ought to be required by the Board, at his own expense, to make good the defect. We have examined the opinion in this matter rendered by the Corporation Counsel to the Commissioner of Water Supply on the 5th of October last and the letters of the Commissioner of Water Supply and his Chief Engineer to our Chief Engineer, the report of the Engineer of the First Division to our Chief Engineer, and the communication of the Chief Engineer of the Subway Construction Company to our Chief Engineer. So far as the law of this matter is concerned, we agree in substance with the Corporation Counsel that, where fire hydrants and other water connections were disturbed by Rapid Transit work, the Rapid Transit contractor was bound, under the terms of the contract, to make good the injury done by Rapid Transit work, but that the contractor's obligation does not include the duty of repair or to make good defects happening since their restoration by the contractor and due to some other cause than the manner in which the work of restoration was done by him.

There remains of this case, therefore, simply the question of fact whether or not the leak is due to the imperfect manner in which the contractor did the work, or is due to things happening since he did the work, and not caused by Rapid Transit construction. Upon this question of fact there is a dispute between the Office of the Commissioner of Water Supply and the contractor. It seems to us that so far as the Board is concerned, the decision of our own Chief Engineer on this disputed question must be final.

In the report of Mr. Carr, Engineer of the First Division, made to our Chief Engineer on the 10th inst., he says that "it is impossible to state definitely whether this leak is due to Rapid Transit work or not." Unless the Chief Engineer holds a preponderant opinion that the leak was due to defective or insufficient work on the part of the contractor, we do not think that he would be justified in requiring the contractor to do further work, and this view seems to us to be the more reasonable because the work of the contractor was concluded in the summer of 1901, and the street surface restored and inspected as much as two years ago.

Yours respectfully,
(Signed) EDWARD M. SHEPARD,
BOARDMAN, PLATT & SOLEY.

Opinion of Counsel on the right of the Board to lay out Rapid Transit routes over bridges of the City was read as follows; also an opinion of the Corporation Counsel on this subject:

December 10, 1903

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York City:

SIR—We have considered the question referred to us, whether under the Rapid Transit act, the Board can lawfully propose a route for a municipal rapid transit railroad to include the bridges between the boroughs of Manhattan and Brooklyn. Upon this question there has been submitted to us an interesting and able argument by Messrs. Curtis, Mallet-Prevost & Colt, counsel for the promoters of the plan of a moving platform on the Williamsburg Bridge.

Our conclusion is that, although it is not improbable that the Board has the power to lay out a rapid transit route over any one of the Brooklyn-Manhattan bridges, nevertheless, the better course will be, if the Board think that in any case it may be proper for it to exercise such a power, to ask the Legislature for the slight modification of the act, which would put the power beyond question.

It is to be considered that, in view of the great labor and great expense attending the establishment of a rapid transit route, it is a practical and financial necessity to a contractor to know to a certainty that every part of the route is lawfully authorized; and, moreover, that while any doubt in this regard remains, there is involved the possibility of litigation, not to be set at rest until a decision of the Court of Appeals is secured.

It is not, we think, open to any doubt that, having regard to the underlying theory of the Rapid Transit act and of the amendment to it adopted after the consolidation of Manhattan, Brooklyn and the other boroughs into one city, and also having regard to the practical situation, the Board should have the power. The boroughs are to be treated as one city, and for the whole City there is a single Rapid Transit Board. The bridges are, beyond doubt, highways. It is a practical necessity, and the Rapid Transit statute, as amended since the consolidation, expressly contemplates that there should be continuous routes either under or over the river. There is in the act no exclusion of any existing bridge. It is difficult on theory to see why, if the Rapid Transit Board may, as it unquestionably can, lay out a route over a new bridge to be constructed by a Rapid Transit contractor, it may not likewise lay out a route over a bridge already existing, and which is the property of the City, as a street is the property of the City.

If the Board shall conclude to ask for an amendment of the act to put beyond question its power in this respect, it seems to me unnecessary that we should proceed any further with the legal argument upon the present test of the act.

Very respectfully yours,
(Signed) EDWARD M. SHEPHERD.

December, 1903.

Hon. GUSTAV LINDENTHAL, Commissioner of Bridges:

SIR—I am in receipt of your letter of the 3d instant, in which you inform me that the Board of Rapid Transit Railroad Commissioners has under consideration various routes for rapid transit roads to extend from the Borough of Manhattan to the Borough of Brooklyn, across the Williamsburg Bridge, and perhaps ultimately the Manhattan Bridge. You refer to my opinion of July 17, 1903, in which I stated that rights or franchises to use these bridges for street railway purposes should be made or granted by the Board of Aldermen, with the approval of the Board of Estimate and Apportionment, as provided by the Charter; and you state correctly that this advice was restricted to street railway purposes, by which I intend street surface railroads.

You inquire "whether the Rapid Transit Commissioners have any jurisdiction to locate a route therein of the bridges, connecting the boroughs and within the charge of the Bridge Department, and if such Board has power to determine said route, to what extent would the powers and duties of the Department of Bridges be affected thereby, and how should the Commissioner of Bridges act in regard thereto."

In reply to your inquiry, I would say that section 4 of the Rapid Transit Act (chapter 4, Laws of 1891, as amended by chapter 616, Laws of 1900) provides as follows:

"The said Board" (the Rapid Transit Commissioners) "from time to time may locate the route or routes of such railway or railways from, under, upon, through and across any streets, avenues, rivers, waters and lands within said City, including blocks between streets or avenues, or partly over, under, upon, through and across any streets, avenues and lands within such City, and partly through blocks between streets or avenues, provided that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having control of that portion of the street or lot or, upon which it is proposed to construct or operate such railway or railways, be first obtained."

By section 65 of the Rapid Transit Act (Laws of 1891, chapter 4, section 35, as amended by Laws of 1894, chapter 752, section 9) it is provided:

"No railroad shall be constructed or operated upon the surface of any street, avenue or highway in The City of New York, under the provisions or authority of this act."

Under these provisions of law I am of the opinion that the Rapid Transit Railroad Commissioners have jurisdiction to lay out a route which shall include an elevated railroad passing over any one of the bridges between the boroughs. They would not have the right to lay out a route which should include a road running along the "surface" of the roadway or driveway of the bridge.

Any such route, however, if laid out, would be subject to the approval "of all the local authorities having control of that portion of" the highway, i. e., the bridge which it was proposed to utilize. The phrase "local authorities" would in this case undoubtedly include the Commissioner of Bridges, who would thus be in the position to withhold his consent and any plan of which he did not approve.

Until a definite plan is presented by the Board of Rapid Transit Railroad Commissioners, I am hardly in a position to answer your inquiries as to the extent to which the powers and duties of the Department of Bridges would be affected by the adoption and carrying into execution of such a plan, or how the Commissioner of Bridges ought to act in regard thereto. Should the question be presented in a concrete and practical form, I should be glad to advise you upon being informed fully of the facts.

Respectfully yours,
GEO. L. RIVES, Corporation Counsel.

The Comptroller spoke of the necessity for amendments to the Rapid Transit Act, setting at rest question of jurisdiction over bridges, increasing limitation on amount to be expended for rapid transit purposes, and providing for power to dispose of property acquired for terminals. He moved the following resolution, which was seconded by Commissioner Clafin:

Resolved, That the Counsel of this Board be requested to prepare a summary of the different points involving legislation that were presented to the Legislature last winter, and those that are now required to be brought before that body, and submit to this Board a report, with a view to an agreement on a bill to be presented to the Legislature.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Clafin.

Counsel presented form of grant from the Astor estate of the easement at northeast corner of Forty-second street and Broadway, with report as follows:

December 16, 1903.

Hon. A. E. ORR, President, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

SIR—We at last submit for the approval of the Board the proposed agreement between the Astor Estate and the City, acting by the Board, the President of the Borough, the contractor, Mr. McDonald, and the Interborough Rapid Transit Company, with respect to the station arrangements and facilities at the northeast corner of Forty-second street and Broadway. The arrangement of this agreement has occupied a very large amount of our time and attention, and many drafts have been made. On the whole, considering that the City receives a large value in the easement over and above its money outlay, the agreement is, in our opinion, advantageous to the City and in accord with the direction which the Board has given us in this business. It is proper for us to add that some of the disputed features of this lease have been submitted to the Comptroller, and that so far as, upon such disputed features, we have yielded our judgment, we have done so with his approval.

This agreement was, in its general purview, authorized by this Board by resolution adopted at the meeting held on the 13th of November, 1902.

We submit to the Board the following resolution:
(Resolution.)

(Signed) BOARDMAN, PLATT & SOLEY,
EDWARD M. SHEPARD.

The form of grant is as follows:

This indenture, made this 17th day of December, in the year nineteen hundred and three, between James Roosevelt Roosevelt, Douglas Robinson and Robert H. M. Ferguson as trustees under the will of William Astor, deceased, of the trust in respect of the residuary estate of the said William Astor by said will created for the benefit of John Jacob Astor and remaindermen, hereinafter called the Trustees, parties of the first part, and the City of New York, hereinafter called the City, acting by its Board of Rapid Transit Railroad Commissioners, hereinafter called the Board, with the approval and assent of Jacob A. Cantor as President of the Borough of Manhattan in The City of New York, testified by his execution of these presents, and with the approval and assent of John B. McDonald, contractor, and Interborough Rapid Transit Company, testified by the execution by them respectively of these presents, party of the second part.

Whereas, The Trustees declare that as Trustees as aforesaid they own the plots or parcels of land described as follows:

First—All that certain plot, piece or parcel of land situate, lying and being in the Borough of Manhattan, in The City of New York, and bounded and described as follows, that is to say: Beginning at the corner formed by the intersection of the easterly line of Broadway by the northerly line of Forty-second street and running thence easterly along the said northerly line of Forty-second street one hundred and twelve feet and ten and one-half inches; thence northerly, at right angles to Forty-second street, one hundred feet and five inches to the centre line of the block between Forty-second and Forty-third streets; thence westerly and parallel with Forty-second street one hundred and forty feet and nine and three-quarters inches to the easterly line of Broadway, and thence southerly along the said easterly line of Broadway one hundred and four feet and three inches to the point or place of beginning.

Second—All that certain plot or parcel of land situate, lying and being in the Borough of Manhattan, in The City of New York, and bounded and described as follows, that is to say: Beginning at the corner formed by the intersection of the easterly line of Broadway by the southerly line of Forty-second street and running thence easterly along the southerly line of Forty-second street one hundred and eighty-five feet and six inches; thence southerly at right angles to Forty-second street ninety-eight feet and nine inches to the centre line of the block between Forty-first and Forty-second streets; thence westerly along the said centre line of the block and parallel with Forty-second street six inches; thence southerly and at right angles to Forty-second street and for part of the distance through a party wall ninety-eight feet and nine inches to the northerly side of Forty-first street; thence westerly along the said northerly side of Forty-first street sixteen feet and eight inches; thence northerly and at right angles to Forty-second street sixty-three feet and three inches; thence westerly and parallel with Forty-second street thirty-three feet and four inches; thence northerly and at right angles to Forty-second street thirty-five feet and six inches; thence westerly and parallel with Forty-second street one hundred and seven feet and six inches to the easterly line of Broadway, and thence northerly along the said easterly line of Broadway one hundred and two feet and six inches to the point or place of beginning; and

Whereas, The City, acting by the Board, under and pursuant to the authority of chapter 4 of the Laws of 1891, entitled "An act to provide for rapid transit railways in cities of over one million inhabitants," and acts amending the same, has heretofore entered into a contract with John B. McDonald bearing date the 21st day of February, 1900, for the construction of a rapid transit railroad upon the routes and general plan therefor adopted by said Board and approved by the authorities of the City and by the Appellate Division of the Supreme Court for the First Department, the first section of which railroad mentioned in said contract, upon the routes and according to the general plan adopted as aforesaid, extends from City Hall Park under certain streets and property in said contract mentioned to and under Park avenue to Forty-second street, and thence under Forty-second street to Broadway, and thence under Broadway to Fifty-ninth street, and, pursuant to the provisions of said contract in that behalf, plans have been prepared and have been approved and adopted by said Board for a station and station approaches at the intersection of Broadway and Forty-second street, one part of such station with platform and station approaches being on and adjoining the easterly side of the said railroad and extending in Broadway along said railroad and from said railroad to the easterly side of Broadway and immediately adjoining the plot of land of the Trustees hereinbefore firstly described, and the other part of such station with platform and station approaches being on and adjoining the southwesterly side of the said railroad and extending from said railroad in and along Broadway and Forty-second street and in Forty-second street to the southerly side of Forty-second street and immediately adjoining the plot of land of the Trustees hereinbefore secondly described, with a passage beneath the tracks of the said railroad at the intersection of Forty-second street and Broadway, running substantially parallel to the line of Broadway, such passage to have a width, in the clear, of at least ten feet, arranged so as to include a proper connection between the east and west bound platforms of the said station; and

Whereas, By written instrument, bearing date the tenth day of July, 1902, the said John B. McDonald duly assigned unto Interborough Rapid Transit Company the right or obligation to maintain and operate the said railroad for the term of years specified in the said contract of February 21, 1900, and all rights included in the leasing provisions of the said contract, together with the obligation to provide equipment for the said railroad; and

Whereas, The City is by law duly authorized and empowered to acquire by conveyance or grant any real estate and any rights, terms and interests therein, which, in the opinion of the Board, it shall be necessary to acquire for the purpose of constructing and operating such road, including necessary stations and station approaches, such conveyance or grant to contain such terms, conditions, provisos and limitations as the Board shall deem proper; and

Whereas, The said Board of Rapid Transit Railroad Commissioners deems it proper and by resolution adopted December 17, 1903, has determined that the real property, being part of the plot of land hereinbefore firstly described, and the easements and rights and interests therein and in respect thereof hereinafter described and granted, be acquired for and on behalf of the City for the purposes of said railroad and to that end deems it proper and has determined to acquire the same by grant from the Trustees to the City for the consideration and upon the terms, conditions, provisos, covenants and limitations hereinafter expressed; and

Whereas, The said Jacob A. Cantor, as President of the Borough of Manhattan in The City of New York, is by law vested with the cognizance and control of the licensing of vaults under sidewalks in the said Borough, and deems it proper and for the interest of the City that, as part of the consideration for the granting by the Trustees to the City of the easements and rights and interests aforesaid, there shall be assured to the Trustees, their successors and assigns, and the respective owners at the time being of the plots of land hereinbefore firstly and secondly described, during the period of the construction of the said Rapid Transit Railroad and for so long after the completion thereof as such Rapid Transit Railroad shall be main-

tained and operated for the conveyance and transportation of persons and property, the rights in respect of vaults under the adjacent sidewalks hereinafter particularly described, and it has to this end been further mutually agreed that the said Jacob A. Cantor as such President shall join in the execution of these presents, and in consideration of the grant by the Trustees to the City of the easements and rights and interests aforesaid and to the payments by the Trustees to the City of the several sums in that behalf hereinafter mentioned, execute to the Trustees and their successors and assigns, and the owners of the plots of land aforesaid respectively, the grant hereinafter contained of such rights in respect of vaults upon the terms hereinafter expressed; and

Whereas, In the judgment of the Trustees, the construction and maintenance of the said railroad and stations and platforms and station approaches with means of ingress and egress to and from the same and to and from the said plot of land of the Trustees situated at the northeasterly corner of Broadway and Forty-second street and any buildings now or hereafter thereon and to and from the said plot of land at the southeasterly corner of Broadway and Forty-second street and any buildings now or hereafter thereon, which are hereinafter particularly described, and the execution by the said Borough President of the grant hereinafter contained and the enjoyment by the Trustees and their successors and assigns and the owners at the time being of the lands aforesaid of the rights and privileges which are herein-after described, will result in the substantial improvement of the said lands and buildings of the Trustees, and the substantial benefit of the trust estate and of all persons interested, or who may at any time be interested therein, and that the value of such improvement will be fully equal to the value of the easements and rights and interests in the part of the plot of land hereinbefore firstly described, which is herein-after particularly described, which are sought to be acquired for and on behalf of the City as aforesaid, and the Trustees have agreed to grant unto the City the easements and rights and interests hereinafter described, upon and subject to the said terms, conditions, provisos, covenants and limitations hereinafter expressed; now therefore

This indenture witnesseth, that the Trustees, the said parties of the first part hereto, in consideration of the premises aforesaid and of not more than \$25,000 lawful money of the United States, paid by the City, the party of the second part hereto, and of the conditions, covenants and agreements made by the City and the grant made by the said Jacob A. Cantor as President of the Borough of Manhattan, in The City of New York, which are hereinafter set forth, do hereby grant unto the City, the said party of the second part hereto, its successors and assigns, subject to the rights of existing tenants, and upon and subject to the terms, conditions, provisos, covenants and limitations hereinafter expressed, a permanent and perpetual underground easement and right of way under the surface and through the parcel of land next herein-after described, for the construction, maintenance and operation in perpetuity of a rapid transit railroad in accordance with the routes and general plans for such railroad approved as aforesaid, and in accordance with the provisions of that certain agreement made between The City of New York, acting by the Board, and John B. McDonald, bearing date the twenty-first day of February, nineteen hundred, and of any agreements, not inconsistent with the provisions hereinafter expressed, made or which may be made between the City or its successors, and the said John B. McDonald, or his successors, executors, administrators or assigns, or other person or persons, corporation or corporations, modifying the same, or otherwise as authorized by law, the subway or subways for which rapid transit railroad shall be constructed at the depth below the surface of the streets in front of the parcel of land hereinafter described, and of a height and width, and in the general course or direction, shown upon the maps, plans and specifications referred to in the agreement aforesaid or adopted, or which may be adopted, by the Board pursuant to said agreement and to law, and to pass in part through the parcel of land of the said parties of the first part described as follows; that is to say, under the surface of and through all that certain piece or parcel of land situate in the Borough of Manhattan, in The City of New York, and bounded and described as follows; that is to say: Beginning at the corner formed by the intersection of the easterly line of Broadway by the northerly line of Forty-second street, and running thence easterly along the northerly line of Forty-second street seventy-seven feet; thence in a general northwesterly direction along a curved line drawn with a radius of four hundred feet, and with its convexity towards the said place of beginning, to a point on the easterly side of Broadway which is forty-six feet and five inches northerly, measured along the said easterly side of Broadway, from the northerly line of Forty-second street, and thence southerly along the said easterly side of Broadway forty-six feet and five inches to the place of beginning, which said land lies in Section number 4 (four) and in Block number 995 (nine hundred and ninety-five) on the map known and designated as the Land Map of The City of New York.

Together with the right to maintain and operate a railroad through the said subway so to be constructed in accordance with the provisions of chapter 4 of the Laws of 1891 and its amendments and supplements and Provisions for the operation of the said railroad lawfully made pursuant thereto.

To have and to hold the same unto the City, the said party of the second part hereto, its successors and assigns forever, for the purposes aforesaid, but subject to all existing leases of said parcel of land, hereinbefore firstly described, or any part thereof and to all rights and interests of the following persons, or any of them, to wit: Mark A. Beltaire, Benjamin Lurch, John C. Beltaire, Thomas J. Shanley, Bernard F. Shanley, Michael Shanley, Samuel Marks and Max Solomon, lessees, and their respective representatives and assigns, and tenants, under-tenants or occupants of said premises or any part thereof, under them or any of them, but in no case for a period after the first day of February, one thousand nine hundred and six, and upon the conditions and subject to the covenants and provisions, hereinafter set forth, reserving unto the trustees, their successors and assigns, and remaindermen, but subject to the provisions hereof, the fee of the said land and all rights in and in respect of the same under and above the subway structure of said railroad.

And the City, for itself and its successors and assigns, acting by the Board, with the approval and assent of Jacob A. Cantor as President of the Borough of Manhattan in The City of New York, as aforesaid, in consideration of the premises and grants aforesaid, hath covenanted, granted and agreed, and by these presents doth covenant, grant and agree, to and with the said parties of the first part and their successors and assigns, and with any and all person and persons who shall at any time own, jointly or in common or otherwise, the said plot of land at the northeasterly corner of Broadway and Forty-second street, hereinbefore firstly described, or any part thereof, and with any and all person and persons who shall at any time own, jointly or in common or otherwise, the said plot of land at the southeasterly corner of Broadway and Forty-second street, hereinbefore secondly described, and with each of them, as follows, that is to say:

First—That the City or its successors or assigns, shall and will, at its and their own sole cost and expense, acquire all estates, rights and interests of any and all of the said lessees and their respective representatives and assigns and tenants, under-tenants and occupants until the said first day of February, 1906, of and in and in respect of the said parcel of land, hereinbefore firstly described, which the City or its successors shall require for the construction, maintenance and operation of the said railroad through or upon or over the said parcel of land and for the use and enjoyment of any of the easements, rights and interests by these presents granted, and shall and will bear and pay all costs, damages, charges and expenses of very kind and description which shall be awarded or incurred or be required to be paid for any and all such estates, rights and interests of such lessees, tenants, under-tenants and occupants which shall be so required or be taken for any of the purposes aforesaid, or for or by reason of any matter or thing arising therefrom or connected therewith.

Second—That the City or its successors or assigns, shall and will, at its and their own cost, for so long as a station of the said rapid transit railroad shall be maintained at the intersection of Broadway and Forty-second street, maintain and permit, in good order and condition and suitably and sufficiently lighted and ventilated, but subject to reasonable regulation by the Board, the City, or its representatives, or the company, person or persons operating the said railroad, a station platform on the easterly side of the said railroad with openings for staircases and entrances and exits and extending from the easterly side of said railroad in Broadway along and adjoining the easterly side of the said railroad and to the easterly side of Broadway adjoining the plot of land of the trustees, hereinbefore firstly described, over and throughout the area distinguished on the diagram hereinbefore set forth by yellow coloring, the elevation of which upper surface of which platform shall be substantially uniform and be thirty-seven and twenty-five one hundredths feet or thereabouts above the level of mean high water, and suitable staircases, entrances and station approaches and exits affording sufficient and suitable and convenient means of access

and ingress and egress and passage for persons and property to and from and between such railroad and platform and the street above, and free and sufficient and suitable and convenient means of access and ingress and egress and passage for persons and property to and from and between such railroad and station platform and the said plot of land of the trustees hereinbefore firstly described and any and all buildings now or at any time hereafter thereon, through such openings and doors, gateways or passageways, not situate within the area subject to the easement hereby granted, as the trustees, their successors or assigns, or any person or persons at any time owning the said plot of land or any part thereof adjoining or opposite to such platform, shall at any time make or construct or maintain or use, upon the said plot of land, or upon or through the wall or walls of any building at any time thereon, and that the trustees, their successors and assigns, and any and all persons at any time owning the said plot of land or any part thereof adjoining or opposite to such platform, shall have and enjoy, for so long as a station of the said railroad shall be maintained at the intersection of Broadway and Forty-second street, and upon payment of usual fares and subject to lawful and reasonable regulations, full rights of access and ingress and egress and passage for themselves and all persons and property passing to or from and between the said plot of land or any building at any time thereon and the said railroad and station platform and the street above and to that end, upon payment of usual fares and subject to lawful and reasonable regulations, to freely use any of the means of access and ingress and egress and passage aforesaid, and that the trustees, their successors or assigns or lessees, or any person or persons at any time owning or holding the said plot of land or any part thereof adjoining or opposite to such platform, or their lessees, shall be at liberty at any time to close such openings, gateways or passageways not situate within the area of the easement hereby granted, by doors or gates or otherwise at either end thereof, and to reopen and close the same from time to time in their own uncontrolled discretion.

Third—That the City, or its successors or assigns, shall and will, at its and their own cost and with reasonable diligence after the date hereof, remove so much of the plot of land situated at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described and the buildings thereon and of the foundations and materials thereof as is below the level of the upper surface of the sidewalks along Broadway and Forty-second street adjoining, and as shall be required for the construction of the said rapid transit railroad through that part of the said plot of land required for the purposes of such railroad and easements and rights in respect of which are hereby granted, and which is distinguished on the diagram hereinbefore set forth by green coloring, and for the construction of suitable foundations and supports for any building or buildings, not exceeding twenty stories in height above the basement, now or which shall at any time hereafter be constructed or placed upon the said plot of land hereinbefore firstly described and wholly or partly above the subway or tunnel of the said rapid transit railroad, and shall and will likewise construct in a skillful and workmanlike manner along the easterly boundary line of the subway or tunnel of the said rapid transit railroad, from a point in Forty-second street where a line drawn from a point on the northerly line of Forty-second street distant one hundred and twelve feet and ten and one-half inches easterly from the easterly line of Broadway, if extended southerly at right angles to the said northerly line of Forty-second street, would intersect the northeasterly boundary line of the said subway or tunnel, in a general northerly direction along a curved line drawn with a radius of four hundred feet and with its convexity towards the northeasterly corner of Broadway and Forty-second street and for part of the distance along the easterly boundary line of the part of the plot of land hereinbefore firstly described which is distinguished on the diagram hereinbefore set forth by green coloring, to a point where the said easterly boundary line of the said subway or tunnel intersects the westerly exterior line of the curb of the present sidewalk adjoining the said plot of land on the easterly side of Broadway, as shown on the said diagram, the subway or tunnel wall of the said rapid transit railroad, of such width and depth and with such suitable and sufficient foundations and of such suitable materials and strength as shall be required for all of the purposes of the said railroad, the easterly exterior surface of which subway or tunnel wall shall extend along the said curved line and the elevation of the top of which wall shall be such as shall be required to meet the upper portions of the framework of the said subway or tunnel along Forty-second street and Broadway adjoining the said plot of land, and which wall shall be suitable for use for purposes of support of girders and building columns for the support of any building or buildings not exceeding twenty stories in height above the level of the curb of the sidewalks adjoining, but not imposing thereon any greater weights than those in that behalf hereinafter specified, now or which shall at any time hereafter be constructed or placed upon the said plot of land hereinbefore firstly described and wholly or partly above the subway or tunnel of the said rapid transit railroad, and shall and will likewise construct in a skillful and workmanlike manner and of suitable materials, under and along and connecting with the said subway or tunnel wall, a supporting and retaining wall six feet in thickness extending from the base of such subway or tunnel wall proper to a solid and sufficient foundation at a depth of at least forty feet below the level of the sidewalks of Forty-second street and Broadway adjoining the said plot of land, and from a line under the sidewalk on Forty-second street drawn southwardly along a course at right angles to the northerly line of Forty-second street from a point on that line one hundred and twelve feet and ten and one-half inches easterly from the easterly line of Broadway, to Broadway, and thence under the sidewalk in Broadway to a point opposite to the northerly boundary line of the said plot of land, along the courses and with projections for supports for building columns, substantially as indicated by blue hatching on the diagram hereinbefore set forth, and also foundation walls and supports of materials and dimensions and workmanship and strength suitable and sufficient to sustain without yielding or depression a sufficient number of steel girders of suitable and sufficient character and quality and dimensions and strength for use as supports of such buildings, and shall and will likewise, at its and their own cost and with reasonable diligence, furnish and place in proper positions for use all of such girders, and which subway or tunnel wall and supporting and retaining wall along the easterly line of the said subway or tunnel of the said rapid transit railroad shall contain suitable openings at suitable points and of suitable and sufficient dimensions for pipe connections with sewers, and which subway or tunnel wall and such supporting and retaining and foundation walls and foundation supports and girders shall be so constructed and placed in relation to each other and be so firmly secured that the same shall be suitable and sufficient to support and sustain, without yielding or depression, building columns resting on such girders or walls or supports at or near the points shown on said diagram numbered respectively 1, 2, 3, 4, 4a, 5, 6, 7, 9, 10, 13 and 18, designed to sustain, without yielding or depression, the respective weights following, that is to say: column number 1, three hundred and twenty tons; column number 2, three hundred and ninety tons; column number 3, four hundred tons; column number 4, three hundred and eighty tons; column number 4a, two hundred tons; column number 5, four hundred and ten tons; column number 6, two hundred and eighty tons; column number 7, three hundred tons; column number 9, five hundred and ten tons; column number 10, three hundred and twenty tons; column number 13, five hundred and ten tons, and column number 18, four hundred and ten tons; and which shall be sufficient to sustain, without yielding or depression, any and all buildings not exceeding twenty stories in height above the basement, and not imposing upon the walls and supports and girders aforesaid greater weights or pressures than those in that behalf hereinbefore specified, which may at any time be placed or be thereon, and shall and will cause all of the steel girders and steel work to be furnished by the City, its successors or assigns, pursuant to the provisions herein contained and to be used in any manner for any purpose of support of said buildings, to be suitably and sufficiently water-proofed and protected against rust or corrosion or deterioration of any kind by or by reason of dampness or injurious action or effect of air, water, gases, electricity or other deleterious influence, for the period of five years next after the date hereof, and that the owners of said land and their architects and agents and representatives shall at all times have free access to the same for the inspection thereof, and shall and will also furnish and in a skillful and workmanlike manner and in accordance with any lawful and reasonable requirements of the department or officer of the government of the City having jurisdiction and control or charge thereof, place and connect with the sewer extending under or along the said subway and along or through the said land, easements and rights in respect of which are hereby granted, three iron pipe sewer connections of at least twelve inches diameter, inside measurement, from such sewer through the said supporting and retaining wall, with a slope towards such sewer of one-quarter of an inch in each foot of length, to the outer face of the said supporting and retaining wall, and

cause such sewer pipes to be properly capped, and also provide and properly attach suitable water-proofed ferrules for such sewer connections, and shall and will likewise construct in a skillful and workmanlike manner and of suitable materials the roof of such subway or tunnel from the exterior easterly line of the said subway or tunnel wall over the whole of that part of the plot of land hereinbefore firstly described, easements and rights in respect of which are by these presents granted, and over those parts of Forty-second street and Broadway between that part of the said plot of land and the exterior lines of the curbs of the side walls opposite to and adjoining the same, and repair all damage to the buildings now upon the said plot of land hereinbefore firstly described which shall be caused by any of the work aforesaid, and shall and will restore and replace the sidewalks and curbs in Broadway and Forty-second street adjoining the said plot of land hereinbefore firstly described and provide and construct the necessary foundation supports therefor, and do all work and provide all the materials required for such purposes, and shall and will construct or repair, with suitable materials and in a skillful and workmanlike manner, all walls and flooring and do all work above the roof of said subway or tunnel which shall be needed to restore the said buildings to a condition as good and as suitable for occupation and use by the Trustees, their successors or assigns, and any and all person or persons who may at any time be the owners of the said land hereinbefore firstly described and their lessees, as such buildings are now in; provided, however, that all portions of the aforesaid supporting and retaining wall which can be now constructed to the full depth herein provided for, and all structural work for use in connection therewith herein agreed to be done, which can be now done without unsettling or disturbing the foundations of, or endangering, buildings now standing upon land of the Trustees fronting on the easterly side of Broadway and the northerly side of Forty-second street, shall be now constructed, and that the residue of such wall to the full depth aforesaid shall be constructed, and the residue of all such work done when the Trustees, their successors or assigns, or the owners at the time being of the plot of land hereinbefore firstly described, shall desire to erect a new building or new buildings thereon, and shall so request; and that the City, its successors or assigns, shall and will at all times for so long hereafter as the said railroad shall be operated and until the operation and use thereof for the conveyance and transportation of persons and property shall be lawfully discontinued, at its and their own exclusive cost and expense, maintain in good order and condition the sewer connections and the roof over the said subway, including damp proofing, and all of the said foundations and foundation and retaining walls and supports and columns and girders; which shall be constructed by the City, its successors or assigns, as aforesaid, for support of buildings on or over the said land in which an easement is hereby granted as hereinbefore mentioned, and do all things necessary to that end; and that the Trustees, their successors and assigns, and any and all persons who shall at any time own the plot of land hereinbefore firstly described, shall have the right in perpetuity to make any and all uses of the said land in which easements and rights are hereby granted, not at the time being occupied by the structure of the said subway or in use or required for the purposes of the said rapid transit railroad or appurtenances thereto, provided that such uses are not inconsistent with or injurious to the purposes for which such easements and rights are hereby granted, and shall likewise have in perpetuity the right of using the foundations and walls and supports and columns and girders aforesaid for support of the buildings aforesaid, and that the City, its successors and assigns, shall at all times secure to the Trustees, their successors and assigns, and to any and all persons who shall at any time own the said land hereinbefore firstly described, such right of using the said foundations and walls and supports and columns and girders, and that the Trustees, their successors or assigns, and all persons who may at any time own the plot of land hereinbefore firstly described, shall at all reasonable times have free access to the works to be constructed by the City as aforesaid for purposes of inspection thereof.

Fourth—That the City, or its successors or assigns, shall and will, at its and their own cost, for so long as a station of the said rapid transit railroad shall be maintained at the intersection of Broadway and Forty-second street, maintain in good order and condition, and suitably and sufficiently lighted and ventilated, but subject to reasonable regulation by the Board, the City or its representatives or the company, or person or persons operating the said railroad, a station platform on the westerly and southwesterly sides of and adjoining the said railroad, with openings for staircases and entrances and exits, and extending from the westerly side of said railroad in and along and across Broadway and Forty-second street and to the land of the Trustees on the southerly side of Forty-second street hereinbefore secondly described, over and throughout the area distinguished on the diagram hereinbefore set forth by yellow coloring, the level of the upper surface of which platform shall be substantially uniform and the elevation of which upper surface of which platform shall be substantially thirty-seven and twenty-five one-hundredths feet or thereabouts above the level of mean high water, and suitable staircases, entrances and station approaches and exits affording sufficient and suitable and convenient means of access and ingress and egress and passage for persons and property to and from and between such railroad and station platform and the streets above, and substantial and sufficient walls at the southwesterly terminus of such station platform, with a suitable and sufficient passageway through such walls between the southwesterly terminus of such platform and the space under the sidewalks at the southeasterly corner of Broadway and Forty-second street, which adjoins the said plot of land of the trustees hereinabove secondly described, at the place marked on the diagram hereinbefore set forth "Entrance to building," and sufficient and suitable and convenient means of access and ingress and egress and passage for persons and property through such passageway, and also through the passageway in Forty-second street marked on the diagram hereinbefore set forth "Entrance to building," the easterly line of which passageway shall be seventy-six feet and seven inches, measured along the southerly line of Forty-second street, from the easterly line of Broadway, to and from and between such railroad and station platform and the said plot of land of the trustees hereinbefore secondly described, and all buildings now or at any time hereafter thereon, through such openings and doors, gateways or passageways as the trustees, their successors or assigns, or any person or persons at any time owning the said plot of land or any part thereof adjoining such platform shall at any time make or construct or maintain or occupy or use upon the said plot of land or upon or through the wall or walls of any building at any time thereon, and shall and will restore and replace the sidewalks and curbs in Broadway and Forty-second street adjoining the said plot of land hereinbefore secondly described above such platform and passageways, and provide and construct all necessary foundation supports therefor, and do all work and provide all materials required for those purposes, and that the trustees, their successors or assigns, or any person or persons at any time owning the said plot of land or any part thereof adjoining or opposite to such platform shall have and enjoy for so long as a station of the said railroad shall be maintained at the intersection of Broadway and Forty-second street, and upon payment of usual fares and subject to lawful and reasonable regulations, full rights of access and ingress and egress and passage under Broadway and Forty-second street for themselves and for all persons and property passing to or from and between the said lot of land or any building at any time thereon and the said railroad and station platform and the streets above, and to that end, upon payment of usual fares and subject to lawful and reasonable regulations, to freely use any of the means of access and ingress and egress and passage aforesaid, and that the trustees, their successors or assigns, or lessees, or any person or persons at any time owning the said plot of land or any part thereof adjoining or opposite to such platform or their lessees shall be at liberty at any time to close such openings, gateways or passageways not situate within the area of the easement hereby granted, or any of them, by doors or gates or otherwise at either end thereof, and to reopen and close the same from time to time in their own uncontrolled discretion.

Fifth—That the City, its successors or assigns, shall and will at its own and their own cost, for so long as a station of the said railroad shall be maintained at the intersection of Broadway and Forty-second street, maintain in good order and condition and free from obstruction a passageway beneath the tracks of the said railroad at the intersection of Forty-second street and Broadway, running substantially parallel to the line of Broadway, such passageway to have a width in the clear of at least ten feet, arranged so as to include a proper connection between the station platform on the easterly side of the said railroad and the station platform on the westerly side of the said railroad, and from each of such station platforms to the other of them, with suitable and sufficient means for securing therein constant and sufficient light and ventilation, and with suitable staircases and entrance ways at each end thereof, for the free use and passage of all persons entitled to access to

the said railroad and station, but subject to reasonable regulation, and that the trustees and their successors or assigns, and any and all persons at any time owning or holding the parcels of land hereinbefore firstly and secondly described, or either of them, or any part thereof, shall at all times be entitled, in common with other persons, but subject to like reasonable regulations, to the free use and enjoyment thereof.

Sixth—That the City, or its successors or assigns, shall and will, as soon as the said several stations and station platforms and approaches on the easterly and the westerly and southwesterly sides of the said railroad on Broadway and Forty-second street, and the said passageway under the tracks of the said railroad shall be completed and be ready for use, at its or their own cost provide and cause to be placed and thereafter for so long as a station of the said railroad shall be maintained, at the intersection of Broadway and Forty-second street, maintain in good order and condition on each of the said platforms and near each of the said openings and passageways from the said platforms respectively to each of the said plots of land of the trustees hereinbefore firstly and secondly described, and at other suitable points at such stations, and also at the foot and at the top and on each side of the staircases leading to and from the same, and also at each end of the said passageway under the tracks of the said railroad, suitable and conspicuous signs, suitably inscribed with the name or names at the time being of the hotel or hotels or other buildings upon the said plots of land and each of them, and words and pointers of character and size adapted and sufficient to readily and clearly indicate to all persons the existence and location of such hotel or hotels or other buildings, and of the staircases and passageways to, and the means and direction for reaching the same respectively, from the said station platforms respectively, excepting during periods while the openings for passage from such platforms respectively into such hotels or other buildings shall be closed by the owners or lessees at the time being of the land adjoining such platforms respectively as herein provided.

Seventh—That all of the structures and work to be constructed and done by the City, its successors or assigns, pursuant to the provisions hereinbefore contained or any of them shall be constructed and done in conformity with the requirements of the laws applicable thereto and of the proper municipal authorities, and such structures and work shall be inspected by an engineer to be designated for that purpose by the Trustees, their successors or assigns, and any and all objections by the said Trustees, their successors or assigns, to such structures or work so to be constructed and done by the City, its successors or assigns, shall be made in writing to the Chief Engineer of the said Board within a reasonable time after the completion of such structures or work.

Eighth—And the City for itself and its successors and assigns, acting by the Board, and in so far and so far only as the Board is by law authorized and empowered to act in this behalf for and in behalf of the City, doth hereby further covenant, grant and agree to and with the Trustees and their successors and assigns and with any and all persons who shall at any time own, jointly or in common or otherwise, the said plot of land at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described, that the Trustees and their successors and assigns and any and all person or persons who shall at any time own the plot of land at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described, or any part thereof in consideration of the sum of eleven hundred and eighty-eight dollars paid or to be paid by the Trustees to the City and of the grants hereby made, shall have and enjoy, without the payment of any other or further consideration therefor, the free and unrestricted right, for so long hereafter as the said rapid transit railroad shall be operated and until the operation and use thereof for the conveyance and transportation of persons and property shall be lawfully discontinued, to use for vaults or passageways or other purposes all of the space under the sidewalks on the northerly side of Forty-second street and the easterly side of Broadway, in front of and adjoining the said plot of land hereinbefore firstly described and between the southerly and westerly lines of that plot of land, and two straight lines extended so as to intersect each other, one drawn parallel with and distant thirty feet southerly from the northerly line of Forty-second street, and the other drawn parallel with and distant twenty feet westerly from the easterly line of Broadway, which is or shall not be appropriated or used for the said railroad or station platform or station approaches or staircases or shafts or passageways, and to such depth as they or any of them shall desire, and the free and unrestricted right to construct and maintain and exclusively possess and use and enjoy for the period aforesaid vaults in such spaces, and to use such spaces under the sidewalk aforesaid for any and all purposes.

Ninth—And the City, for itself and its successors and assigns, acting by the Board, and in so far, and so far only, as the said Board is by law authorized and empowered to act in this behalf for and in behalf of the City, doth hereby further covenant, grant and agree to and with the Trustees and their successors and assigns, and with any and all persons who shall at any time own, jointly or in common or otherwise, the said plot of land at the southeasterly corner of Broadway and Forty-second street hereinbefore secondly described, that the Trustees and their successors and assigns and any and all person or persons who shall at any time own the said plot of land at the southeasterly corner of Broadway and Forty-second street, extending along the easterly side of Broadway one hundred and two feet and six inches, and along the southerly side of Forty-second street one hundred and eighty-five feet and six inches, in consideration of the sum of ten thousand nine hundred and twenty-eight dollars and sixty-six cents heretofore paid by the Trustees to the City and of the grants hereby made and the other considerations herein expressed, shall have and enjoy, without the payment of any other or further consideration therefor, the free and unrestricted right, for so long hereafter as the said railroad shall be operated and until the operation and use thereof for the conveyance and transportation of persons and property shall be lawfully discontinued, to use, for vaults or passageways or other purposes, all of the space under the sidewalks on the southerly side of Forty-second street and the easterly side of Broadway in front of and adjoining the said plot of land hereinbefore secondly described, and between the northerly and westerly lines of that plot of land, and two straight lines extended so as to intersect each other, one drawn parallel with and distant thirty feet northerly from the southerly line of Forty-second street, and the other drawn parallel with and distant twenty feet westerly from the easterly side of Broadway, and to such depth as they or any of them shall desire, which is or shall not be appropriated or used for the railroad or station platform or station approaches of the said railroad or staircases or passageways to and from the same, and the free and unrestricted right to construct and maintain and exclusively possess and use and enjoy for the period aforesaid vaults in such spaces, and to use such spaces under the sidewalks aforesaid for any and all purposes.

Tenth—And the said Jacob A. Cantor as President of the Borough of Manhattan, in The City of New York, in consideration of the sum of twelve thousand one hundred and sixteen dollars and sixty-six cents paid by the Trustees to the City and of the grants by the Trustees to the City by these presents made, doth hereby grant, assure and confirm unto the Trustees, and their successors and assigns, and any and all person or persons who shall at any time own the plot of land at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described or any part thereof the free and unrestricted right, for so long hereafter as the said rapid transit railroad shall be operated and until the operation and use thereof for the conveyance and transportation of persons and property shall be lawfully discontinued, or until the spaces hereinafter mentioned shall be required for purposes of the said rapid transit railroad or for other public use, to use for vaults or passageways or other purposes all of the space under the sidewalks on the northerly side of Forty-second street and the easterly side of Broadway in front of and adjoining the said plot of land hereinbefore firstly described and between the southerly and westerly lines of that plot of land and two straight lines extended so as to intersect each other, one drawn parallel with and distant thirty feet southerly from the northerly line of Forty-second street and the other drawn parallel with and distant twenty feet westerly from the easterly line of Broadway, which is or shall not be appropriated or used for the said railroad or station platform or station approaches or staircases or shafts or passageways, and to such depth as they or any of them shall desire, and the free and unrestricted right to construct and maintain and exclusively possess and use and enjoy for the period aforesaid vaults in such spaces, and to use such spaces under the sidewalk aforesaid for any and all purposes; and doth also hereby grant unto the Trustees and their successors and assigns and any and all person or persons who shall at any time own the said plot of land at the southeasterly corner of Broadway and Forty-second street and extending along the easterly side of Broadway one hundred and two feet and six inches and along the southerly side of Forty-second street one hundred and

eighty-five feet and six inches, which is hereinbefore secondly described, or any part thereof, the free and unrestricted right, for so long hereafter as the said railroad shall be operated and until the operation and use thereof for the conveyance and transportation of persons and property shall be lawfully discontinued, or until the spaces hereinafter mentioned shall be required for purposes of the said rapid transit railroad, or for other public use, to use, for vaults or passageways or other purposes, all of the space under the sidewalks on the southerly side of Forty-second street and the easterly side of Broadway in front of and adjoining the said plot of land hereinbefore secondly described and between the northerly and westerly lines of that plot of land and two straight lines extended so as to intersect each other, one drawn parallel with and distant thirty feet northerly from the southerly line of Forty-second street and the other drawn parallel with and distant twenty feet westerly from the easterly line of Broadway, which is or shall not be appropriated or used for the railroad or station platform or station approaches of the said railroad or staircases or passageways to and from the same and to such depth as they or any of them shall desire, and the free and unrestricted right to construct and maintain and exclusively possess and use and enjoy for the period aforesaid, vaults in such spaces, and to use such spaces under the sidewalks aforesaid for any and all purposes; it being, however, expressly understood and hereby provided, that nothing herein contained shall be construed as authorizing the extension of any such vault beyond the line of the curbstone or sidewalk, and that no openings in the sidewalk above any such vault outside of the area or stoop line, shall be permitted or used for ventilating purposes, excepting as required by regulations of the Board of Health, or for other purposes than as coal chutes, and that all openings for coal chutes shall be securely closed when not in use, and that the grant hereby made gives no authority to disturb by excavation or otherwise, or in any way damage or interfere with the proper use of any lamp post, sewer, culvert, receiving basin, house drain, water hydrant or stop-cock, or stop-cock chamber or water pipe, or do anything to prevent the proper use of any hydrant or stop-cock, or expose them to freezing, or to disturb or interfere with any subway, gas or other connections, authorized by the Commissioner of Public Works, and that, if at any time hereafter, the spaces under the sidewalks, rights in and to and in respect of which are by these presents granted, or any part thereof, shall be required by the City for purposes of the said rapid transit railroad or for any public use, the City shall be entitled to resume the possession thereof, or of so much thereof as shall be required for such purposes or public use.

Eleventh—And the City, for itself and successors and assigns, acting by the Board, doth hereby further covenant, grant and agree to and with the Trustees and their successors and assigns, and with any and all persons who shall at any time own, jointly or in common or otherwise, the said plot of land hereinbefore firstly described, or the said plot of land hereinbefore secondly described, or either of such plots of land or any part thereof, that if, at any time hereafter, the use of a station at the junction of Broadway and Forty-second street shall be abandoned and another station or other stations for use for the purposes of the said rapid transit railroad shall be constructed at any place between the easterly side of the Sixth avenue and the westerly side of the Seventh avenue, and between the southerly side of Forty-first street, and the northerly side of Forty-third street, the Trustees and their successors and assigns, and the owner or owners at the time being of the plot of land hereinbefore firstly described and their lessees, and the owner or owners at the time being of the plot of land hereinbefore secondly described and their lessees, shall have and enjoy, and the City, its successors or assigns, shall and will, at its and their own cost, provide and maintain and furnish to them, for so long as a station of the said rapid transit railroad shall be maintained within the limits aforesaid, the like rights and sufficient and suitable and convenient means and facilities of access and ingress and egress and passage for persons and property to and from and between such railroad and such other station or stations and the platforms thereof and the said plots of land and each of them, and any and all buildings now or at any time hereafter thereon, and each of them, as are hereinbefore provided for and agreed upon in respect of the said railroad and stations at the junction of Broadway and Forty-second street, and all of the covenants and provisions in respect of rights and means and facilities of access and ingress and egress and passage and use of stations and station platforms and approaches and entrances and exits and staircases and shafts and passageways herein expressed and contained, and the covenants and provisions contained in paragraph sixth of the numbered paragraphs of this indenture, shall continue in force and be applicable to all of such other stations within the said limits, and the platforms and station approaches and entrances and exits and staircases and shafts and passage ways connected therewith.

And it is hereby further mutually understood and agreed by and between the Trustees and their successors and assigns and the person or persons who shall at any time own the parcels of land hereinbefore firstly and secondly described, or either of them, or any part thereof, and the City, its successors and assigns, that any and every right or privilege for the ingress, egress or passage of property by this instrument, or any article or clause thereof, accorded to the Trustees, their successors or assigns, or to any such person or persons, owners of such land or any part thereof, shall be subject to all general regulations prescribed by the Board or other lawful authorities for the use of the said railroad or the stations thereof for the transportation or passage of property, or otherwise with respect to property.

And it is hereby mutually understood and provided, declared, granted and agreed by and between the Trustees for themselves and their successors and assigns and any and all person or persons who shall at any time own the said plots of land hereinbefore firstly and secondly described, or either of them, or any part thereof, and the City for itself and its successors and assigns, and the said Jacob A. Cantor, President of the Borough of Manhattan in The City of New York, for himself and his successors, that if default shall be made in the fulfillment of any of the conditions or covenants hereinbefore expressed and contained, such default shall not impair the grant of the easements by these presents made by the Trustees to the City, which shall nevertheless remain in force; that if at any time hereafter before the operation and use of the said rapid transit railroad for the conveyance and transportation of persons and property shall be lawfully discontinued, the Trustees, their successors or assigns, or the person or persons who shall at any time own the said plot of land hereinbefore firstly described, or any part thereof, shall, because of requirement for purposes of the said rapid transit railroad or for other public use, or for other reason, be deprived of the use of the hereinbefore described space under the sidewalks on the northerly side of Forty-second street and the easterly side of Broadway adjoining that plot of land, or any part thereof, or the Trustees, their successors or assigns, or the person or persons who shall at any time own the said plot of land hereinbefore secondly described, or any part thereof, shall, because of requirement for purposes of the rapid transit railroad or for other public use, or for other reason, be deprived of the use of the hereinbefore-described space under the sidewalks on the southerly side of Forty-second street and the easterly side of Broadway adjoining the last mentioned plot of land or any part thereof, such deprivation in any such case shall not impair the grant of the easements by these presents made by the Trustees to the City, which shall nevertheless remain in force, but inasmuch as an important part of the consideration of such grant of such easements by the Trustees to the City is the free and unrestricted right of the Trustees and their successors and assigns, and the person or persons who shall at any time own the plot of land hereinbefore firstly described, or any part thereof as aforesaid, to have and enjoy and to use for vaults or passageways or other purposes, without the payment thereof of any other or further consideration than the considerations aforesaid, the above described space under the sidewalks on the northerly side of Forty-second street and the easterly side of Broadway in front of and adjoining that plot of land, and to construct and maintain and exclusively possess and enjoy as aforesaid vaults in such spaces, and to use such spaces under the sidewalks aforesaid for any and all purposes, and the free and unrestricted right of the Trustees and their successors and assigns and the person or persons who shall at any time own the plot of land hereinbefore secondly described, or any part thereof as aforesaid, to have and enjoy and to use for vaults or passageways or other purposes without the payment of any other or further consideration than the considerations aforesaid, the above described space under the sidewalks on the southerly side of Forty-second street and the easterly side of Broadway in front of and adjoining such last mentioned plot of land, and to construct and maintain and exclusively possess and enjoy as aforesaid vaults in such spaces, and to use such spaces under the sidewalks aforesaid for any and all purposes, and the assurance as aforesaid of such rights to the Trustees and their successors and assigns and

the respective persons aforesaid, owners at the time being of the respective plots of land aforesaid, for the period aforesaid, it is further expressly understood, provided, declared and agreed, and the City, for itself and its successors and assigns, doth hereby covenant and agree to and with the Trustees and their successors and assigns and with the persons aforesaid and each of them, that in any and every such case of deprivation, the Trustees, their successors or assigns, or to the person or persons who shall at the time being own the land adjoining the sidewalks of the use of the space under which they shall be so deprived, shall be entitled to such proceedings as may be lawful and proper to directly enforce against the City, its successors or assigns, their rights with respect to such subsurface spaces and vaults therein, and further, that if, at any time hereafter, by reason of any law or ordinance or rule or regulation, the consideration or charge for the granting of licenses for the construction or use of vaults under sidewalks in the Borough of Manhattan in The City of New York shall be increased beyond the rate provided by the ordinance of The City of New York in that behalf now in force, no such law or ordinance or rule or regulation shall be applicable to, or impair or prejudice or affect, the rights in and to and in respect of spaces and vaults under the sidewalks hereinbefore described, or if, by reason of any such law or ordinance or rule or regulation, the continued use of such spaces and vaults by the Trustees, their successors or assigns, or by any of the persons aforesaid, shall be made or declared to be subject to or dependent upon the payment thereof of any consideration beyond the considerations herein expressed, the City, its successors or assigns, will, on demand, pay to the trustees, their successors or assigns, or to the person or persons who shall at the time being own the part of the lands aforesaid adjoining such spaces or vaults, a sum equal to the amount of the payment so required.

And it is hereby mutually understood and provided, declared, granted and agreed by and between the trustees for themselves and their successors and assigns and any and all person and persons who shall at any time own the said plot of land at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described, and their lessees and each of them, and the City, its successors and assigns, that each and all of the covenants by and on the part of the City and its successors and assigns, and by and on the part of the said Jacob A. Cantor, President of the Borough of Manhattan, in The City of New York, and his successors, in respect or for the benefit of the said plot of land at the northeasterly corner of Broadway and Forty-second street, hereinbefore firstly described, and the trustees, their successors and assigns, and the owner of owners and lessee or lessees thereof, which are hereinbefore contained, are and shall have effect not only as personal contracts by the City, its successors and assigns, but also and in addition as imposing binding and enforceable burdens, servitudes and easements upon and against the City, its successors and assigns, and upon the premises and rights hereby granted, and that each and all of such covenants shall attach to and run with the said plot of land hereinbefore firstly described as appurtenant thereto, and enure to the benefit of the trustees and their successors and assigns and to the benefit of the owner or owners and lessee or lessees at the time being of the said land and of each of them, and that the said covenants and each of them shall be enforceable by and in favor and at the suit of the trustees, their successors and assigns, and by and in favor and at the suit of the owner or owners and lessee or lessees at the time being of the said land, and each of them, and that such covenants and each of them shall be construed and given effect accordingly, and that for any breach or threatened breach thereof or of any part thereof the trustees, their successors and assigns, and the owner or owners at the time being of the parcel of land hereinbefore firstly described, and each of them, may, in addition to all other remedies they may have, have relief by injunction against such breach or threatened breach or have relief in damages, or both; and that each and all of the covenants by and on the part of the City and its successors and assigns, and by and on the part of the said Jacob A. Cantor, President of the Borough of Manhattan, in The City of New York, and his successors, in respect or for the benefit of the said plot of land at the southeasterly corner of Broadway and Forty-second street, hereinbefore secondly described, and the trustees, their successors and assigns, and the owner or owners and lessee or lessees, at the time being of the said plot of land, which are hereinbefore contained, are and shall have effect not only as personal contracts by the City, its successors and assigns, but also and in addition shall attach to and run with the last-mentioned land as appurtenant thereto, and enure to the benefit of the trustees and their successors and assigns, and to the benefit of the owners or owners and lessee or lessees at the time being of the said land and of each of them, and that the said covenants and each of them shall be enforceable by and in favor and at the suit of the trustees and their successors and assigns and the owner or owners and lessee or lessees at the time being of the said land and each of them, and that such covenants and each of them shall be construed and given effect accordingly and that for any breach or threatened breach thereof, or of any part thereof, the trustees, their successors and assigns, and the owner or owners at the time being of the parcel of land hereinbefore secondly described, and each of them, may, in addition to all other remedies they may have, have relief by injunction against such breach or threatened breach, or have relief in damages, or both.

And it is further mutually understood and agreed by and between the trustees and their successors and assigns and the person or persons who shall at any time own the parcels of land hereinbefore firstly and secondly described, or either of them, or any part thereof, and the City, its successors and assigns, that all curbs and curb lines and elevations referred to in this instrument are the now existing and established curbs or curb lines and elevations, and that this instrument and every clause thereof shall be construed liberally to effectuate and secure the plans and aims of the respective parties, and that all rights reasonably necessary to that end shall be deemed to be granted and secured hereby. And the City, for itself and its successors and assigns, doth hereby further covenant and agree to and with the trustees, their successors and assigns, and with the person or persons who shall at any time be the owner or owners of the land easements in or in respect of which are hereby granted and with each of them, that when the operation and use of the said railroad for the conveyance and transportation of persons and property shall be lawfully discontinued, the City, its successors or assigns, will, by suitable and sufficient deed reconvey and release to the trustees, their successors or assigns, or to the person or persons at the time being owning the said land, all of the easements and rights and interests by these presents granted; and that if, before the operation and use of the said railroad for the conveyance and transportation of persons and property shall be lawfully discontinued, the use for purposes of said railroad of all stations between the easterly side of the Sixth avenue and the westerly side of the Seventh avenue and the southerly side of Forty-first street and the northerly side of Forty-third street shall be discontinued, the City, its successors or assigns, will pay to the trustees, their successors or assigns, or to the owners at the time being of the plot of land at the northeasterly corner of Broadway and Forty-second street hereinbefore firstly described the value at the time of such discontinuance of the easements in or in respect of that plot of land which are by these presents granted, to be determined as if such easements had been then first acquired by the City, irrespective of any consideration given or allowed by the City for the enjoyment of such easements during any previous period.

In Witness Whereof, The said parties of the first part have hereunto set their hands and seals, and these presents have been executed for The City of New York by the Board of Rapid Transit Railroad Commissioners for The City of New York under and pursuant to a resolution duly adopted by the said Board, and the seal of the said Board has been hereto affixed and these presents signed by the President and Secretary of the said Board and the said Jacob A. Cantor as President of the Borough of Manhattan in The City of New York, hath hereunto set his hand and seal, and the said Interborough Rapid Transit Company hath caused its corporate seal to be hereunto affixed and these presents to be signed by its the day and year first above written.

Counsel reported on suit brought by William J. Reilly for reinstatement as Inspector of Masonry. The opinion of Justice Clarke of the Supreme Court granting an alternative writ in this case is as follows:

By CLARKE, J.

Reilly vs. Orr—The relator prays for an alternative or peremptory writ of mandamus directed to the Board of Rapid Transit Railroad Commissioners and a division engineer, commanding them to restore relator to the position of Inspector of Sewer Construction and to pay him salary accrued since his removal. The respondents allege that relator was suspended and subsequently dismissed for lack of work, his name transmitted to the Municipal Civil Service Commission for reinstatement, and that eighteen days later he was reinstated as Inspector in the Bureau of Sewers, pursuant to section 1543 of the Greater New York Charter. In so far as the application is for a peremptory writ the relator in effect demurs to the facts alleged by respondents. A removal for purposes of economy has been held to be a mere suspension, and by analogy with previous decisions it has been held that a peremptory writ will not be granted under the circumstances set forth (People ex rel. Levenson vs. Wells, 78 A. D. 373). The relator, however, does not insist upon a peremptory writ, but, upon its denial, prays for an alternative writ. He denies that the true ground of his removal was lack of work, and alleges that the cause of his removal was a charge that he had allowed improper materials to be used upon the work, and that he was discharged without an opportunity of making an explanation, in violation of section 1543 of the Charter. As a question of fact is presented the relator may have an alternative writ that the issues raised may be determined in the manner provided by statute (People ex rel. Corrigan vs. Mayor, etc., 149 N. Y. 215; People ex rel. Vanderhoof vs. Palmer, 3 A. D. 389). The new employment alleged does not necessarily bar the relator from contending against the alleged unlawful removal. The alleged reappointment of relator is entirely consistent with the theory advanced by respondents, as reinstatement is obligatory under the statute where there has been a lawful suspension. As, however, the respondents in no way concede that relator was illegally removed nor admit that during the period of suspension the relator was entitled to the office claimed and the salary incident thereto, such plea would not be a complete defense and does not avoid the necessity of determining the issue raised. Motion for alternative writ prayed for is granted.

The following letter of the President, Rapid Transit Subway Construction Company, as to necessity for speedy action in obtaining consents of property owners or the court in the matter of the connection with the Manhattan Elevated Railroad at One Hundred and Forty-ninth street, was read, and the Counsel and Chief Engineer were requested to proceed with all diligence in this work:

December 17, 1903.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York, N. Y.:

DEAR SIR—The resolution of your Board approving the addition to the routes and general plan for a connection between the elevated road and the subway at One Hundred and Forty-ninth street having been approved by the Board of Aldermen, I respectfully urge your Honorable Board to obtain the consents of the owners of abutting property along Westchester avenue, between the Manhattan Elevated and the proposed connection with the subway east of Brook avenue to the end that construction may proceed immediately. The iron for this connection will be ready for erection by January 15, and it is exceedingly important that work on the foundations should be started at once, so that we may be ready to begin putting up the structure as soon as the iron is received.

I remain,

Very respectfully yours,
(Signed) AUGUST BELMONT, President.

Letter of August Belmont, President, Rapid Transit Subway Construction Company, was read as follows:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY, No. 23 NASSAU STREET, NEW YORK CITY.

December 16, 1903.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

DEAR SIR—At the last meeting of your Honorable Board, I note that a resolution was passed, fixing a price for the Pinckney terminal property, in accordance with the bill of October 1, 1903, rendered by this company, and authorizing the payment of interest on the items included in our bill, until payment in full shall be made.

When the bill of October 1 was rendered, we had not yet received our bill for the taxes on this property for 1903, which amounted to \$2,142.42, and this item was not, therefore, included in the bill covered by your resolution, which fixed the price of the Pinckney property.

May I ask that the proper action be taken by your Board to bring about the payment of these taxes on the same basis as the items included in your previous resolution.

I remain,

Yours very truly,

(Signed) AUGUST BELMONT, President.

The following resolution was moved:

Whereas, On the 10th day of December, 1903, this Board adopted a resolution, as follows:

Resolved, That the City acquire from the Rapid Transit Subway Construction Company, for terminals of the Manhattan-Bronx Rapid Transit Railroad, the property on Lenox avenue, between One Hundred and Forty-eighth and One Hundred and Fiftieth streets, referred to in the letter of August Belmont, President of that company, to the President of this Board, dated September 29, 1903, for the price of \$1,032,588.95, with interest on \$969,250.03 thereof at the annual rate of five per cent. per annum, from and after the first day of October, 1903; that the deed or deeds of the said property shall be in full covenant and warranty form to be approved by the President of this Board upon the advice of the Counsel of the Board; that the deed or deeds shall be accompanied by a certificate of good title, free and clear of encumbrance in the grantor or grantors in the said deed or deeds to be given by the Title Guarantee and Trust Company, such certificate to be in form to be approved by the President of this Board, which approval he is authorized to give upon the opinion of the Counsel of this Board; and that upon the due delivery of such deed or deeds to the President of this Board, together with such certificate or certificates, there be paid to the Rapid Transit Subway Construction Company the said sum of \$1,032,588.95, with interest on \$969,250.03 thereof at five per cent. per annum, from and after the first day of October, 1903; and

Whereas, The intent of such resolution was to fix the purchase price as of the 1st day of October, 1903; and

Whereas, Since that date the Rapid Transit Subway Construction Company has paid the taxes for 1903 upon the said property, amounting to the sum of \$2,142.42, which the City would have been required to bear if the transaction had been closed, as was originally intended, on and as of the 1st day of October, 1903; and

Whereas, Under the agreement it is the obligation of the City to meet the expense of such taxes; now, therefore, it is

Resolved, That the said resolution adopted by this Board on December 10, 1903, be and the same hereby is modified so that the purchase price of the property therein mentioned shall be the amount therein mentioned, with interest as therein mentioned, and, in addition, the sum of \$2,142.42, with interest at the rate of five per cent. per annum thereon, from the fifth day of October, 1903.

The following letter of the Chief Engineer was presented, with a request of the Chief Engineer of the Department of Water Supply:

NEW YORK, December 16, 1903.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—I hand you herewith an application from the Chief Engineer of the Department of Water Supply, Gas and Electricity for permission on the part of said Department to alter the roof of the subway at One Hundred and Eighteenth and One Hundred and Twenty-second streets in order to permit the laying of a water main by said Department. Attached to this letter are plans showing how this alteration will be made. I would recommend that permission be given.

Very truly yours,

WM. BARCLAY PARSONS, Chief Engineer.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, OFFICE OF THE CHIEF ENGINEER, NOS. 13 TO 21 PARK ROW,

NEW YORK, December 15, 1903.

WILLIAM BARCLAY PARSONS, Esq., Chief Engineer, Rapid Transit Commission, No. 320 Broadway, New York City:

DEAR SIR—It is desired by this Department to alter the roof of the Rapid Transit Subway at One Hundred and Eighteenth and One Hundred and Twenty-second streets, so that a 12-inch water main can be laid across Lenox avenue at both of these streets. Will you be so kind as to lay the matter before the Rapid Transit Board, and obtain the necessary permission to do this work?

Very truly yours,

(Signed) N. S. HILL, Jr., Chief Engineer.

The following resolution was moved:

Whereas, Application has been made, under date of December 15, 1903, by the Chief Engineer of the Department of Water Supply, Gas and Electricity, for permission so to alter the roof of the subway structure at One Hundred and Eighteenth and One Hundred and Twenty-second streets, at Lenox avenue, that a 12-inch water main can be laid across the avenue at both of these streets;

Whereas, The Chief Engineer, in report dated December 16, 1903, recommends that said permission be given;

Resolved, That this Board hereby grants said permission, and directs the Secretary so to inform the Department of Water Supply, Gas and Electricity.

The following letter of the President to the Board was read and referred to the Committee on Contract:

December 17, 1903.

To the Members of the Board of Rapid Transit Railroad Commissioners:

DEAR SIRS—In view of the recent expression of public sentiment in favor of the construction by the City of another north and south underground rapid transit railroad in the Borough of Manhattan, the Board will be interested to learn of an informal communication bearing upon the same subject which has been made to me by Messrs. Thomas F. Ryan and Paul D. Cravath, representing the Metropolitan Street Railway interests. They have stated that, if there should be adopted routes

and plan of such a new line so devised as to supplement the service to the traveling public rendered by the Metropolitan surface system, and if the terms of the contract prescribed by the Board should not seem unduly onerous, the Metropolitan interests would be a competitor for the contract for its construction and operation. Messrs. Ryan and Cravath informed me that the Metropolitan surface system carries annually about six hundred million passengers; that several of their lines are enormously congested; and that, in their judgment, it is of the greatest importance to the traveling public that the Metropolitan interests shall be enabled to provide some means for relieving the present congestion on the surface lines and for the speedier transportation of their long distance passengers.

The Board will not, of course, in any way commit itself as to its future policy, and much less form an opinion as to the merits of any competitor for a future contract. But, as the Board has repeatedly and publicly stated it is the more ready to consider a proposal for municipal construction if there be reason to believe that there will be two or more competitors for the contract, each able to assume the heavy obligations of the lease which must be included in the contract. It is, of course, conceivable that the interest of the City might be promoted by making a contract, although there should be a proposal from but one party. The Board, however, would, I think, regret to be shut up to any one contractor, however meritorious, and would more favorably consider the plan of a new railroad if there should be two or more probable competitors in sight, thus better enabling the Board to secure the very best possible terms for the City, not only by reducing the municipal investment, but in the other provisions of the contract.

I hope, therefore, that it will be practicable to lay out a north and south line extending at least as far north as the Harlem river, which shall be so arranged as to be the subject of competition by at least the Interborough Company and the Metropolitan Company, and, if possible, by other contractors. The Interborough Company, being the lessee of the Manhattan-Bronx and Brooklyn-Manhattan rapid transit roads, and in control of the elevated railroad system in the boroughs of Manhattan and The Bronx, is able, if it see fit, to include in an offer for a new line a stipulation for important connections and transfers. The surface railroad system of the Metropolitan Company enables that company also, if it will, to tender important connections and transfers.

The Board is more likely, I believe, to consider, and the other authorities and public sentiment are more likely to approve, a new north and south line in Manhattan and The Bronx if there be good reason to expect a competition for the contract, assuring an extensive system of transfers on the basis of a single fare. After the public hearing now contemplated shall have been had, I hope the Board will require the Committee on Contract to consider and report upon the wisdom of adopting routes and a plan for such a north and south line as will be attractive to several competitors.

It is, in my opinion, clear, and that policy of the Board has, I think, the warm support of public sentiment, that the chief arteries of underground rapid transit shall, by their municipal construction and ownership, be effectually controlled in the public interest.

Yours respectfully,

(Signed) A. E. ORR, President.

The President reported that certain commemorative tablets were to be placed in the City Hall station of the Manhattan-Bronx Rapid Transit Railroad, giving the names of those connected with the work, etc. The following resolution was moved:

The Chief Engineer reported that the reconstruction of the building at northeast corner of Broadway and Forty-second street was about completed, and that Wm. Wilson, druggist, could be permitted to return there.

The Secretary was instructed so to notify Mr. Wilson.

Letter of the General Manager of the Union Ferry Company and report of Chief Engineer on subsidence of piles under South Ferry house of that company, were presented as follows:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, CHIEF ENGINEER'S OFFICE, No. 320 BROADWAY,

NEW YORK, December 16, 1903.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—In reply to your inquiry I hand you herewith a report furnished me by the Division Engineer in charge of the Brooklyn extension in regard to the sinking of piles beneath the South Ferry ferry-house.

Mr. Ridgway's report shows exactly what has taken place and that two piles in the building have settled, which, however, will not affect its stability. In order to be sure that the building will not settle, a portion of the floor of the ferry-house is being fenced off.

It is expected that within a week the leak in the top of the subway will be stopped and that the floor can then be supported on top of the piles.

Very truly yours,

(Signed) WM. BARCLAY PARSONS, Chief Engineer.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS, DIVISION ENGINEER'S OFFICE, No. 4 COURT SQUARE, BROOKLYN,

December 15, 1903.

Mr. WM. BARCLAY PARSONS, Chief Engineer, No. 320 Broadway, New York, N. Y.:

DEAR SIR—Referring to the flooding of the north tunnel at the Battery, a report of which was sent to you on December 8, I have to say that the hole was found near the northeast portion of the waiting room of the South Ferry house.

Work was begun at low tide on December 8, filling the hole with bags of clay and sand, a piece of canvas about 18 feet being first spread over the hole. This work was continued at each low tide until a sufficient quantity had been dumped in to practically fill the hole. Air was put on in the tunnel in front of the lock, and pumping was begun about noon on December 11. At 11 p. m. on that day the water had been lowered sufficiently for the lock doors to be opened. A boat was put in and the heading examined on the following day.

It was found that a piece of the canvas and several cartloads of bags had been forced down through the hole into the heading. These are to be removed, the mass above to be held by poling boards. Some grouting and concreting will then probably be done, with the idea of making the mass tight against the escape of the air. About 2,500 bags of sand and clay were dumped into the hole, equivalent to about 2,500 cubic feet. The top of the pile shows above water at low tide.

The water boils up through this mass of filling, due to the escape of the air at the piles supporting the northeast portion of the ferry-house, in a circle about 20 feet in diameter. Two of the piles have apparently settled, one about three inches

and the other about six inches. Our levels show no settlement in the building proper, but as a measure of precaution an area of about 12 feet by 20 feet has been fenced off in the waiting room, as shown by the inclosed sketch. This was done by the ferry people at the contractor's suggestion.

I told you this morning that the entrance to the men's toilet room was shut off, but find I was mistaken. A passageway was left open for this. It is impossible at present to tell how long it will be necessary to keep this area fenced off. It will be a matter of at least a week or probably longer.

Respectfully,

ROBERT RIDGWAY, Division Engineer.

The Chief Engineer reported that certain of the occupants of abutting buildings along the line whose vaults had been taken for the subway desired to occupy the portion of the sidewalk space underneath the sidewalk and above the subway. The following resolution was moved:

Whereas, It will be desirable from time to time to grant requests for permission to occupy the space beneath the sidewalk and the subway;

Whereas, Application has been made to this Board for such permission by Joseph Schmidt, for the premises situated on the northerly side of Fourteenth street, having a frontage on said street, beginning at the point of intersection of the northerly side of Fourteenth street with the easterly side of Fourth avenue, and running thence easterly 80.646 feet along the said northerly side of Fourth avenue;

Resolved, That the officers of this Board be and they hereby are authorized to execute an agreement with the said Joseph Schmidt and the contractor and lessee of the Rapid Transit Railroad of The City of New York, covering the said permission in the form substantially as follows:

Agreement, Made this third day of December, 1903, between Joseph Schmidt, hereinafter called the "Owner," party of the first part, The City of New York, acting by the Board of Rapid Transit Railroad Commissioners for the said City and hereinafter called the "City," party of the second part, John B. McDonald and the Interborough Rapid Transit Company, hereinafter called the "Lessees," parties of the third part.

Whereas, Pursuant to law and to a certain contract made between the City and the said John B. McDonald, dated the 21st day of February, 1900, and various amendments thereto, the said City is constructing a rapid transit railroad under and along certain streets in The City of New York, and especially under and in front of premises situated on the northerly side of Fourteenth street, having a frontage on the said street which begins at the point of intersection of the northerly side of Fourteenth street with the easterly side of said Fourth avenue and running thence easterly 80.646 feet along the said northerly side of said Fourteenth street; and

Whereas, The owner claims to be the owner of the premises hereinbefore described, and has heretofore occupied a certain vault under the said street in front of and abutting his said premises; and

Whereas, The City has, for the purposes of construction and operation of the said railroad, taken possession of the space lately occupied by the said vault, and now holds and will hold such space for the purposes of such construction and operation; and

Whereas, The owner has asked permission to reconstruct and reoccupy so much of the said vault as has not now, and shall not hereafter be occupied for the construction and operation of the said rapid transit railroad; and

Whereas, By the said contract bearing date the 21st day of February, 1900, made between the City and the said John B. McDonald, the said McDonald has agreed to use, maintain and operate for a term of fifty years the said rapid transit railroad when constructed; and

Whereas, By instruments bearing date the 1st day of August, 1902, the said McDonald has, with the consent of the Rapid Transit Board, assigned to the Interborough Rapid Transit Company, a corporation organized under the laws of the State of New York, so much of the said contract of February 21, 1900, as provides for the use, maintenance and operation of the said rapid transit railroad; and

Whereas, The parties of the third part are willing that such part of the said vault should be so occupied if the City and the parties of the third part, their successors and assigns, shall hereafter have the rights, hereinafter mentioned, without any objection by or on the part of the owner or of his heirs, assigns or other successors in interest;

Now, therefore, it is agreed that the owner shall be permitted to reconstruct such part of the said vault above the top of the structure of the subway or tunnel occupied by the rapid transit railroad, but subject, however, to the right which the City and the parties of the third part, and their assigns and other successors in interest have and shall, at all times, have, to enter and use the said vault when necessary for repairs to the structure of the said tunnel or subway,

Provided, however, and it is expressly agreed that the City shall by this instrument be deemed to accord to the owner such right or privilege only as the said Board of Rapid Transit Railroad Commissioners is now entitled in behalf of the City to accord, and that the owner shall, with respect to the portion of the said vault so to be reconstructed and reoccupied, have no right other than or additional to the right, if any, which the said owner had with respect to the said vault at the time of the commencement of the construction of the said rapid transit railroad.

In witness whereof, this agreement has been executed for The City of New York by its Board of Rapid Transit Railroad Commissioners under and by a resolution duly adopted by said Board, and the seal of the said Board has been hereto affixed and these presents signed by the President and Secretary of the said Board, and the said John B. McDonald has hereto set his hand and seal, and the said Interborough Rapid Transit Company has caused its corporate seal to be hereto affixed and attested by its Secretary and these presents to be signed by its President, and the said Joseph Schmidt has hereto set his hand and seal, all the day and year first above written.

In the presence of:

JOSEPH SCHMITT.

Corporation Counsel, 58148, approving form of deed of cession of property at Rossville, S. I. Forwarded for execution.

William Halliday, 58117, requesting a lease of space about 30 by 40 feet within the lines of property recently acquired by the City at Rossville, S. I., with permission to erect boathouse thereat, for a term of ten years, at a rental of \$50 per annum.

The Commissioner recommended that the Commissioners of the Sinking Fund approve of and consent to the granting of a lease to the Raritan Steamboat Company of the present pier belonging to the City recently constructed at Rossville, S. I., upon the following terms and conditions:

First—The annual rental for the first term of five years to be at the rate of \$412 per annum, with the privilege of a renewal term for five years at an advance of 5 per cent. in rental; the cost of said pier was \$8,232.

Second—That said pier shall, during the term of said lease or any renewal thereof, be maintained as an open pier for the use of all persons desiring berths thereat, the berths to be assigned in the order in which applications therefor are made, and it is understood and agreed that no exclusive privilege for the use or occupancy of said pier is to be leased.

Third—That only the legal rates of wharfage shall be charged boats berthed at said dock, and no additional charged boats berthed at said dock, and no additional charge of any sort or description shall be made for the use of any part therefor, nor for derricks and cranes used thereon in the discharge of merchandise except those charges fixed by law.

Fourth—The lessee shall have the privilege of erecting gangways in said pier and erecting a shed thereon in accordance with plans and specifications submitted to and approved by the Commissioner of Docks. Said shed to revert to and become the property of The City of New York at the expiration or sooner termination of the lease of said pier.

The remaining terms and conditions of said lease to be the same as those contained in leases of wharf property now used by this Department.

Harlem Transfer Company, 58097, requesting lease of bulkhead return foot of Park avenue, Harlem river, back to the line of solid filling at One Hundred and Thirty-fifth street, with privilege of maintaining and operating tracks thereon in connection with their yard.

The Commissioner recommended that the Commissioners of the Sinking Fund approve of and consent to the execution of a lease by the Commissioner of Docks of the bulkhead return from the foot of Park, formerly Railroad avenue, Harlem river, back to the line of solid filling at One Hundred and Thirty-fifth street, with the privilege of maintaining and operating tracks connecting with the yard of said company. The said company is at present the lessee of the bulkhead platform foot of Park, formerly Railroad avenue, by virtue of a lease dated June 30, 1902, and approved by the Commissioners of the Sinking Fund. The present lease to be for a period coterminous with the lease of the bulkhead platform at the foot of Park, formerly Railroad avenue, which expires June 30, 1912, at a rental of \$400 per annum. The remaining terms and conditions of the lease to be similar to those now used in leases of such property by this Department.

TRANSACTIONS OF THE DEPARTMENT OF DOCKS AND FERRIES.

Acted upon November 16, 1903.

SCHEDULE NO. 290.

The following communications were received and ordered on file, action being taken thereon as stated, to wit:

Board of Aldermen, 57600, transmitting resolution adopted September 29, 1903, suggesting the location of a recreation pier at the foot of Little street, Borough of Brooklyn. Notified said Board that it would be impracticable to build a recreation pier at that point in consequence of the character of the approach and the short extension that could be constructed into the river.

Corporation Counsel, 58171, transmitting form of deed to be executed by the Central Railroad of New Jersey, conveying property south of Cedar street, on the North river, and form of lease of Piers, new 10 and 11, East river, together with the adjoining bulkhead, and requesting requisition for \$61 expenses for searches incurred. Chief Clerk directed to draw requisition.

Commissioner of Street Cleaning, 56836, requesting the assignment of space for covered dump at the foot of West Thirteenth street, North river. Laid over.

E. A. Stevens, 58095, asking whether he may draw on the Department for \$7,500 on account of the services of an expert in connection with the designing of the Staten Island ferryboats. Referred.

Howard Carroll, 58170, submitting plans for ferry terminal prepared by the various companies for the ferries at the foot of West Twenty-third street. Laid over.

Atlantic Dock Company and New York Dock Company, 58172, declining offers made by the Department for the purchase of property at the foot of Hamilton avenue, in the Borough of Brooklyn. New York Dock Company added that they will sell their portion of the property to the City for the sum of \$20,000, provided their right of way through to Hamilton avenue is preserved. Board of Estimate and Apportionment requested to authorize and institute condemnation proceedings.

Chainmen and Rodmen in the Department, 57835, requesting that their salary be restored to \$1,080 per annum. Laid over.

Richard B. Ross, Stenographer and Typewriter, 57493, requesting that his salary be restored to \$1,200 per annum. Laid over.

William J. Crowley, Transitman, 57552, requesting an increase in salary. Laid over.

Board of Education, 58141, requesting the lighting of the Recreation Pier at the foot of East Twenty-fourth street the same as last winter. Said Board directed to advise the Edison Company what lamps they desired to remain in use.

Alexander & Ash, attorneys for James Shewan & Sons, 58143, suggesting that the Corporation Counsel institute legal proceedings against the owners of the bulkhead between Fourth and Fifth streets, East river, to settle the occupancy of the northerly side of the pier at the foot of East Fourth street by a dry dock. Referred to Corporation Counsel.

Murray & Co., 57729, requesting space on the bulkhead between Piers 4 and 5, East river. Permit granted to occupy space on the northerly half of said bulkhead at \$300 per annum.

William J. McGirr, 57152, requesting revocation of permit for the use of space at Pier 5, East river. Permit revoked.

Thomas B. Blyth, Stenographer and Typewriter, 58067, requesting an increase in salary. Laid over.

Auditor, 58177, submitting statement of vouchers aggregating \$1,153.75. Laid over.

Engineer-in-Chief—

(a) 58173, recommending that the Delaware, Lackawanna and Western Railroad Company, lessees, be directed to forthwith commence repairs to Pier, new 41, North river. Recommendation adopted.

(b) 58174, reporting completion of Contract No. 751, Class 2. Notify Comptroller.

(c) 58175, recommending that the Civil Service Commission be requested to furnish an eligible list from which a Stenographer and Typewriter can be appointed at the rate of \$1,000 per annum. Recommendation adopted.

(d) 58176, submitting form of contract for manilla rope. Form of contract approved, subject to the approval of the Corporation Counsel as to form, and the Secretary directed to have a sufficient number of blank forms of contract printed and proper advertisements inviting estimates inserted in the newspapers designated by law.

Corporation Counsel, 58179, approving form of Contract No. 819 and advertisement therefor.

Queens Borough Gas and Electric Company, 58003, requesting permission to construct a sheet pile bulkhead in the vicinity of Eastern and Thetis avenues, Rockaway Park, Jamaica Bay. Permit granted in accordance with the plans submitted, under supervision of the Engineer-in-Chief.

Cosmas Vilias, 58146, requesting lease for a term of five years at a rental of \$240 per annum of a portion of the marginal street in the vicinity of East Twenty-third street, with privilege of maintaining a stand thereon.

The Commissioner recommended that the Commissioners of the Sinking Fund consent to and approve of the execution of the lease to Cosmas Vilias for a term of five years, at a rental of \$250 per annum, payable quarterly in advance, of a space within the area of the marginal street, wharf or place, between East Twenty-second and East Twenty-third streets, near the westerly side thereof, said area being bounded and described as follows:

Beginning at a point situated in the marginal street, which point is situated at right angles to the bulkhead, measured from a point 80 feet from the intersection of the northerly line of Twenty-third street and the bulkhead line and distant from the bulkhead on a line at right angles thereto a distance of 60 feet, running thence a distance of 12 feet in a westerly direction at right angles to the bulkhead; thence in a southerly direction a distance of 12 feet parallel to the bulkhead line; thence running a distance of 12 feet at right angles to the bulkhead and thence parallel to the bulkhead a distance of 12 feet to the point of beginning.

The lessee to have the privilege of erecting and maintaining upon the above described area a stand for the sale of flowers, newspapers, tobacco, etc., the stand to be erected in accordance with plans and specifications to be submitted to and approved by the Commissioner of Docks.

The remaining terms and conditions of the lease to be similar to those now contained in leases of property by this Department.

Engineer-in-Chief, 58178, recommending that the sureties for L. Sobel be directed to restore the wall on the building between Bloomfield and Little West Twelfth streets, removed by said Sobel in violation of the order given him for the removal of the buildings. Recommendation adopted.

Contract No. 820, for printing and binding the Annual Report of the Department for the year 1902, bids for which were opened by the Deputy Commissioner November 17, 1903, were laid over.

RUSSELL BLEECKER, Secretary.

AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Tuesday, December 8, 1903, at 2 p. m.

Present—Commissioners Ten Eyck (President), Ryan, Windolph and Curtis, and Chief Engineer Smith.

In the absence of the Secretary, Frank H. Warder was designated to act as Secretary.

Minutes of meetings of December 1 and 4, 1903, were read and approved.

The Committee of Finance and Audit reported the examination and audit of estimates contained in Vouchers Nos. 15718 and 15719, amounting to \$68,812.60; bills contained in Vouchers Nos. 15722 to 15733, amounting to \$1,608.84, and bills contained in Vouchers Nos. 15734 to 15765, inclusive, amounting to \$1,318.47, which were approved and ordered certified to the Comptroller for payment by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Construction Committee returned to the Commissioners communication from Coleman, Breuchaud & Coleman, dated November 30, 1903, as to the time for the filling of the basin of the New Croton Dam Reservoir, and Report No. 846 thereon, with the recommendation that the same be filed.

The recommendation of the Committee was adopted.

The Construction Committee returned to the Commissioners communication from H. T. Dykman, dated December 3, 1903, submitting bill for \$1,000, amount advanced by him to pay William S. Mead for right of way over his lands for substituted route of the New York and Harlem Railroad, Mahopac branch, and recommended the adoption of the following preambles and resolution:

Whereas, William S. Mead, of the city of Knoxville, State of Tennessee, in consideration of the sum of one thousand dollars and the further consideration of a right of way over a certain piece of land owned by The City of New York to provide access for him to the adjacent highway, agreed to convey and has conveyed to said City a portion of the land included in the substituted route to be furnished by said City to the New York and Harlem Railroad, Mahopac branch, under an agreement dated October 16, 1903, between The City of New York and the New York Central and Hudson River Railroad Company; and

Whereas, H. T. Dykman, Special Counsel, has, pending the approval by the Board of Estimate and Apportionment of this agreement, advanced to said Mead the said consideration of \$1,000, and recorded a deed from him conveying said land to The City of New York; and

Whereas, The Board of Estimate and Apportionment has now duly approved the agreement with said Mead, and the Corporation Counsel, in a communication dated December 2, 1903, advised the Aqueduct Commissioners that they should take steps to reimburse Mr. Dykman; it is therefore

Resolved, That the accompanying voucher for \$1,000 in favor of H. T. Dykman, being the sum advanced by him to William S. Mead, of Knoxville, Tennessee, for right of way for New York and Harlem Railroad, Mahopac branch, over lands of Estate of Staats E. Mead, designated as Parcel No. 590, be and it hereby is approved and ordered certified to the Comptroller for payment.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Progress report for the week ending December 3, 1903, was referred to the Construction Committee.

The following report for the week ending December 3, 1903, was received and the President directed to transmit same to the Mayor:

NEW YORK, December 8, 1903.

Hon. WILLIAM H. TEN EYCK, President Aqueduct Commission:

DEAR SIR—In regard to the work done on the New Croton Dam and Jerome Park Reservoir Divisions for the week ending Thursday, December 3, 1903, I would report as follows:

New Croton Dam Division.

At the dam, earth and rock excavation on the main dam extension cut have continued, the earth work being confined to the hardpan slopes on the upstream side, where

some trimming has been done. The rock work has continued on the up and down stream toes south of Station 2-|-00 and on the down-stream rock face and toe from Station 2-|-00 to 2-|-60+ and on the bottom above the core wall end north of Station 3-|-00, where the rock has been reached over most of the area to be uncovered.

The rock bottom below the core wall end, south of the main dam section, has been cleaned up at its lowest point, and masonry work was started on it on November 30.

The earth and rock excavation amounted to 1,000 cubic yards, and 540 cubic yards of masonry were laid.

The cold weather has interfered materially with the progress of the work, and on Thursday, December 3, no work was done owing to the snow.

On Old Aqueduct reconstruction, work progressed at Bailey's Brook loop and at five stretches along the line.

Basin clearing work continued in the lower valley.

Work was in progress on Road Line No. 6. Riprap work is in progress on Road 18, and the coffer-dam work on Bridge C, Pier 2, continues.

Practically no work was done during the week at Bridge A, owing to the non-arrival of timber for the false work.

The average force employed by Contractors Coleman, Breuchaud & Coleman was 824 men, being 94 men less than the week previous.

I transmit herewith photographs Nos. 149 and 150, showing the rock bottom of the main dam extension excavation ready for concrete at about Station 3-|-41.

Jerome Park Reservoir Division.

West Side—Excavation progressed in Sections "B," "J" and "K" and Gate House No. 7. Masonry was laid in Aqueduct Division wall. Face wall and Shaft No. 21 connection, some puddled embankment was done.

East Side—Excavation was in progress in Sections "C," "G," "H" and "L." Excavation and laying masonry continued on Aqueduct north, although but little progress was made.

The average force employed was 794 men, being 82 less than the week previous.

Respectfully,

J. WALDO SMITH, Chief Engineer.

The President verbally reported that in response to the request of the Corporation Counsel he had transmitted to him a technical description of Parcels Nos. 590 and 591, being the Mead and Whitlock lands; and also description of right of way granted by the City to William S. Mead, to provide access for him to adjacent highway, together with map showing parcels designated and certain resolutions mentioned in said letter.

Communication from the Mayor, dated December 4, 1903, acknowledging receipt of report for week ending November 26, 1903, was ordered filed.

Communication from the Comptroller, dated December 3, 1903, stating that voucher for \$125 in favor of William H. Fowler had been mislaid, and requesting that a duplicate voucher be issued, was referred to the Secretary, with direction to comply therewith.

Opinion from the Corporation Counsel, dated December 4, 1903, to the effect that the overhead crossing for Road No. 26, town of Lewisboro, should be constructed by the Aqueduct Commissioners, in accordance with the order of the court, was received and ordered filed, and the President directed to furnish the Chief Engineer with a copy of the opinion for his information, and to request him to take steps for the erection of such overhead crossing.

Communication from the Corporation Counsel, dated December 5, 1903, returning, with his approval as to form, contract for overflow and blow-off pipe line from Gate House No. 2, Jerome Park Reservoir, was ordered filed and the following resolution offered:

Resolved, That the forms of contract, plans, specifications, proposal and bond, in triplicate, submitted by the Commissioner of Water Supply, Gas and Electricity on December 2, 1903, and approved by the Corporation Counsel as to form on December 4, 1903, for constructing an overflow and blow-off pipe line and appurtenances from Gate House No. 2 of Jerome Park Reservoir of the New Croton Aqueduct, in the Borough of The Bronx, The City of New York, be and the same are hereby approved and adopted, and the Secretary is hereby directed to prepare, in triplicate, the necessary certificates for the certification of said forms of contract, specifications, proposal and bond by the Aqueduct Commissioners, to be filed in accordance with section 25, chapter 490, Laws of 1883.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The following resolution was also offered:

Resolved, That the President and Secretary be and they are hereby directed to advertise in the "City Record," the Sun and the New York Daily News a notice inviting sealed bids for constructing an overflow and blow-off pipe line and appurtenances from Gate House No. 2 of Jerome Park Reservoir of the New Croton Aqueduct, in the Borough of The Bronx, The City of New York.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

Communication from the Corporation Counsel, dated December 5, 1903, returning, with his approval as to form, contract for sluice gates for Muscote Dam Gate House, was ordered filed and the following resolution offered:

Resolved, That the forms of contract, plans, specifications, proposal and bond, in triplicate, submitted by the Commissioner of Water Supply, Gas and Electricity, on December 2, 1903, and approved by the Corporation Counsel as to form on December 4, 1903, for furnishing, erecting and placing sluice gates, with the necessary lifting machinery, ladders, floor beams and floor plates required at the Muscote Dam Gate House, in the town of Bedford, Westchester County, N. Y., be and the same are hereby approved and adopted, and the Secretary is hereby directed to prepare, in triplicate, the necessary certificates for the certification of said forms of contract, plans, specifications, proposal and bond by the Aqueduct Commissioners, to be filed in accordance with section 25, chapter 490, Laws of 1883.

Which was adopted by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The following resolution was also offered:

HARRY W. WALKER, Secretary.

AQUEDUCT COMMISSION.

Minutes of Adjourned Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Thursday, December 10, 1903, at 1 p. m.

Present—Commissioners Ten Eyck (President), Ryan, Windolph and Curtis.

Reading of the minutes of meeting of December 8, 1903, was deferred.

The Chairman of the Committee on Finance and Audit reported the examination and audit of estimates contained in Vouchers Nos. 15766 and 15767, amounting to \$45,748.63, which were approved and ordered certified to the Comptroller by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Windolph and Curtis—4.

The Construction Committee returned to the Commissioners communication from John Fox & Co., dated November 30, 1903, asking for an extension of the time within which to complete their contract for furnishing 26 sluice gates for New Gate House, Old Croton Dam, with Report No. 849 of the Chief Engineer thereon, with the recommendation that the President be directed to notify the contractors that no formal extension of the time will be necessary, but that the work should be completed as early as possible.

The recommendation of the Committee was adopted.

The Construction Committee also returned to the Commissioners application of George Juengst & Sons, dated November 30, 1903, for permission to place poles for an electric light line on the edge of the City's property, between Purdy Station and New Katonah, with the recommendation that the application, report and accompanying map be transmitted to the Commissioner of Water Supply, Gas and Electricity for an expression of his views on the matter; which was approved and the President authorized to transmit the same.

The President verbally reported that on December 9, 1903, he received from the Comptroller an original and four copies of the agreement bearing date October 16, 1903, between The City of New York and the New York Central and Hudson River Railroad Company in the matter of the substituted route for the New York and Harlem Railroad, Mahopac branch.

Communication from the Corporation Counsel, dated December 9, 1903, submitting list of tenants of the Aqueduct Commissioners in the basin of the Cornell Dam, against whom proceedings to dispossess have been instituted, and asking if there is any reason why the warrants should not be issued, was referred to the Construction Committee to furnish the information requested and for consultation on the whole subject.

Communication from the Comptroller, dated December 9, 1903, inquiring as to any claims for rent affecting the following parcels in the Eighth Cornell Dam supplemental proceedings, viz.: 187, 259, 260, 263, 264, 265, 364, 365, 408, 426 and 485 was received and referred to the Secretary to furnish the information desired.

Communication from the Library Bureau dated December 8, 1903, was received and ordered filed.

The Secretary reported that he had received proposals for indexing the minutes of the Commissioners for the year 1903, and the President was empowered to have the work done if he deems it advisable.

On motion, the President was directed to address a communication to the Corporation Counsel withdrawing the request of the Commissioners, under date of August 12, 1903, for an opinion as to the building of the stone wall boundary fence on the New Croton Division.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

DEPARTMENT OF STREET CLEANING.

MAIN OFFICE OF THE DEPARTMENT OF STREET CLEANING, ROOM 1421, NOS. 13-21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Street Cleaning, at the above office until 2 o'clock P. M., on

TUESDAY, JANUARY 12, 1904.

Borough of The Bronx.

CONTRACT FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR THE FINAL DISPOSITION OF RUBBISH. The time for the completion of the work and the full performance of the contract is five years. The amount of security required is five thousand dollars.

Bids will be compared and the contract awarded at a lump or aggregate sum.

The contractor shall have the right to appropriate the valuable portions of the rubbish.

Each bid must state the price which the bidder will pay to the City of New York per annum during the period of the contract, and this price may be uniform for the whole period or at different rates for each year.

Each bid must be accompanied by a certified check on a solvent banking corporation of the City of New York, payable to the order of the Comptroller of the City of New York for five per centum of the amount for which the work bid for is proposed in any one year to be performed.

The Commissioner of Street Cleaning reserves the right to select from the bids that bid the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of the bids.

Blank forms and further information may be obtained at the office of the Department of Street

Cleaning, the Borough of Manhattan, Nos. 13-21 Park row.

JOHN McG. WOODBURY, Commissioner of Street Cleaning.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

ONE HUNDRED AND NINETEETH STREET—PAVING. from Amsterdam avenue to Eleventh avenue. Confirmed December 28, 1903; entered December 29, 1903. Area of assessment included: Both sides of One Hundred and Nineteenth street, from Amsterdam avenue to Eleventh avenue, and to the extent of half the block at the intersecting and terminating avenues.

—that the same was confirmed by the Board of Assessors on December 28, 1903, and entered on December 29, 1903, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before February 27, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

EDWARD M. GROUT, Comptroller, City of New York—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, December 29, 1903. d30,j13

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessments for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF QUEENS:

FIRST WARD.

LATHROP STREET (THIRD AVENUE)— OPENING, from Newtown avenue to Broadway. Confirmed July 24, 1903; entered December 28, 1903. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line drawn parallel to and distant 100 feet southerly from the southerly line of Broadway with the middle line of the blocks between De Bevoise avenue and Lathrop street; running thence northerly along said middle line of the blocks and its northerly prolongation to its intersection with a line drawn parallel to and distant 100 feet northeasterly from the northeasterly line of Newtown avenue; thence southeasterly along said parallel line to its intersection with the northerly prolongation of the middle line of the blocks between Lathrop street and Rapelje avenue; thence southerly along said prolongation and parallel line to its intersection with a line drawn parallel to and distant 100 feet southerly from the southerly line of Broadway; thence westerly along said parallel line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the

duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, Hackett Building, No. 51 Jackson avenue, Long Island City, Borough of Queens, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before February 26, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum, from the date when above assessment became a lien to the date of payment.

The term of the lease to be for the term of ten years from the date of sale, with the privilege of a renewal term thereof for the further term of ten years, at an increased rental of ten per cent. on the amount bid for the lease of the said premises.

The minimum or upset price at which the lease for the premises above mentioned and described to be sold is appraised and fixed by the Commissioners of the Sinking Fund at the sum of one hundred dollars (\$100) annual rental therefor for a term of ten years from the date of sale, and if renewed for an additional term of ten years at an advance of ten per cent. on the amount bid for the first term.

The sale of the lease of the said premises is made on the following

Terms and Conditions:

The lease for the said premises will contain the following provisions, and the sale of the lease is made subject to and in accordance therewith:

First—All plans for the construction of the railway across city property hereby leased, shall be approved by the Commissioner of Water Supply, Gas and Electricity, before such construction is commenced.

Second—The city reserves the right of way through or across any of the parcels leased for the purposes of inspection, maintenance and repair as well as to lay any additional pipes or conduits that may be required, with the stipulation that during the progress of any work to be undertaken by the city under the tracks, the New York and Long Island Traction Company must and shall support and take care of their tracks at their own risk and expense while the work to be done by the City is in progress of construction.

Third—The grade of the railway shall be changed and such bridges or trestle work shall be built by and at the expense of the Traction Company across Parcel 4 at Valley Stream, as may be required, if the City should hereafter locate Filter Beds on its adjoining property. The maintenance of the bridges, trestles, and embankments shall be at the expense of the lessee.

Fourth—The lease to confer no right as to Parcel 2, which is within the limits of The City of New York, until a further franchise is granted by the city for the construction and operation of a street surface railway over the route for which an application is now pending in the Board of Aldermen, and no abatement of any part of the rental bid will be made by reason of the non-use of such parcel.

The annual rental of the said premises to be payable annually in advance during the term of the lease.

The highest bidder will be required to pay the Auctioneer's fees of twenty-five dollars at the time and place of sale, and also to pay the full amount of his bid or one year's rent of the premises in advance, and the amount so paid for one year's rent shall be forfeited if the successful bidder does not execute the lease when notified that it is ready for execution.

The lease for the premises to be delivered within thirty days from the date of sale, and the term thereof to commence from the day of such sale.

No person will be received as lessee or surety who is a delinquent on any former lease from the Corporation, and no bid will be accepted from any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation as provided by law.

No alteration shall be made in the premises, except with the consent of the Comptroller and the Department of Water Supply, and all alterations which may be so permitted, are to be made at the expense of the lessee.

The lessee shall be required to make all repairs necessary to keep the premises in good tenable condition during his occupancy, and all taxes imposed or levied on the same during the term of the lease or renewal thereof.

The Comptroller shall have the right to reject any bid if deemed to be for the best interest of the City.

By order of the Commissioners of the Sinking Fund under and pursuant to a resolution adopted at a meeting of the Board held December 9, 1903.

EDWARD M. GROUT, Comptroller, City of New York, Department of Finance, Comptroller's Office, December 21, 1903.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public

notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears, of assessments for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF BROOKLYN:

TWENTY-NINTH WARD, SECTION 16.

EAST SEVENTH STREET—OPENING, from Church lane to Caton avenue. Confirmed November 14, 1903; entered December 14, 1903. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the southerly side of Caton avenue and distant 124.75 feet, more or less, westerly of the westerly line of East Seventh street; running thence southerly and parallel with East Seventh street to the northerly side of Church lane; running thence easterly along the northerly side of Church lane to a point distant 139.9 feet, more or less, easterly of the easterly side of East Seventh street; thence northerly and parallel with East Seventh street to the southerly side of Caton avenue; running thence westerly along the southerly side of Caton avenue to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before February 17, 1904, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

CORPORATION SALE OF REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of the City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on Friday, January 8, 1904, at 12 o'clock m., at the Comptroller's Office, No. 280 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York which it has by virtue of a lease from William V. B. Bennett, Supervisor of the Town of Gravesend, to the City of Brooklyn, which lease is dated December 24, 1896, and recorded in the Kings County Register's Office on December 29, 1896, in Section 21, Liber 3 of Conveyances, page 249, in and to all that certain lot, piece or parcel of land situate, lying and being in the Thirty-first Ward of the Borough of Brooklyn, known as and by the number 93 upon the assessment roll for the opening of Neptune avenue, between West Sixth street and Ocean parkway, in the late Town of Gravesend, Borough of Brooklyn, City of New York, which was sold to the Town of Gravesend at a sale for unpaid assessments held on the 24th day of December, 1896, for the sum of \$6.60, and which said lot is therefore leased to the City of Brooklyn for 100 years.

The minimum or upset price at which the interest of the City in and to the said premises to be sold is appraised and fixed by the Commissioners of the Sinking Fund at the sum of ten dollars and thirty-seven cents (\$10.37); the purchaser to pay the auctioneer's fees and one hundred dollars (\$100) for the expenses of examination, advertising, etc. The sale of said premises is to be made on the following terms and conditions:

The highest bidder will be required to pay the full amount of his bid or purchase money and the auctioneer's fee at the time of sale, together with the further sum of one hundred dollars (\$100) for expenses of examination, advertising, conveyance, etc. The quit-claim deed for the above-described premises to be delivered within thirty days from the date of sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved. Maps of said real estate may be seen on application at the Comptroller's Office, Stewart Building, No. 280 Broadway, Borough of Manhattan. By order of the Commissioners of the Sinking Fund, under a resolution adopted at a meeting of the Board held November 18, 1903.

NOTICE TO TAXPAYERS.

DEPARTMENT OF FINANCE—BUREAU FOR THE COLLECTION OF TAXES, NEW YORK, December 1, 1903.

Under the provisions of section 919 of the Greater New York Charter (chapter 378, Laws of 1897).

NOTICE IS HEREBY GIVEN TO ALL persons or corporations who have omitted to pay their taxes, "TO PAY THE SAME IN THE BOROUGH IN WHICH THE PROPERTY IS LOCATED," as follows:

BOROUGH OF MANHATTAN, No. 57 Chambers street, Manhattan, N. Y.

BOROUGH OF THE BRONX, corner Third and Tremont avenues, The Bronx, N. Y.

BOROUGH OF BROOKLYN, Rooms 2, 4, 6 and 8, Municipal Building, Brooklyn, N. Y.

BOROUGH OF QUEENS, corner Jackson avenue and Fifth street, Long Island City, N. Y.

BOROUGH OF RICHMOND, corner Bay and Sand streets, Stapleton, Staten Island, N. Y.

—and that under the provisions of section 916 of said Charter, "IF ANY SUCH TAX shall remain unpaid on the first day of December, it shall be the duty of the Receiver of Taxes to charge, receive and collect upon such tax so remaining unpaid on that day, in addition to the amount of such tax, one per centum on the amount thereof, and to charge, receive and collect upon such tax so remaining unpaid on the first day of January thereafter, interest upon the amount thereof at the rate of seven per centum per annum, to be calculated from the day on which said taxes became due and payable (October 5, 1903), as provided by section nine hundred and fourteen of this act, to the date of payment."

DAVID E. AUSTEN, Receiver of Taxes.

AQUEDUCT COMMISSION.

AQUEDUCT COMMISSIONERS' OFFICE, ROOM 207, STEWART BUILDING, No. 280 BROADWAY, NEW YORK, December 11, 1903.

SEALED BIDS OR ESTIMATES WILL BE received by the Aqueduct Commissioners at the above office until 12 o'clock noon, on

TUESDAY, JANUARY 5, 1904.

No. 1. FOR CONSTRUCTING AN OVERFLOW AND BLOW OFF PIPE LINE AND APPURTENANCES FROM GATE HOUSE No. 2 OF JEROME PARK RESERVOIR OF THE NEW CROTON AQUEDUCT, IN THE BOROUGH OF THE BRONX, THE CITY OF NEW YORK.

The security required will be \$25,000. The work shall be entirely completed to the satisfaction of the Aqueduct Commissioners on or before July 1, 1904.

No. 2. FOR FURNISHING, ERECTING AND PLACING SLUICE GATES WITH THE NECESSARY LIFTING MACHINERY, LADDERS, FLOOR BEAMS AND FLOOR PLATES REQUIRED AT THE MUSCOOT DAM GATE HOUSE, IN THE TOWN OF BEDFORD, WESTCHESTER COUNTY, NEW YORK.

The security required will be (\$3,000) three thousand dollars.

The work shall be entirely completed to the satisfaction of the Aqueduct Commissioners on or before the 1st day of May, 1904.

The work is authorized by chapter 490, Laws of 1883 of the State of New York, and the amendments thereto.

The foregoing is a statement of the nature and extent of the work required. Bidders are required to submit their bids upon the following express conditions, which apply to and become a part of every bid or estimate received. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing statement, and they shall not, at any time after the submission of their bid, dispute or complain of such statement, nor assert that there was any misunderstanding in regard to the nature or amount of work to be done or the materials to be furnished.

The prices submitted are to cover the cost of furnishing all the necessary materials and labor and the performance of all the work set forth in the specifications and form of contract annexed to the contract.

Any bid which fails to name a price, both in writing and in figures, may be held to be informal and may be rejected, and in case of any discrepancy between the price written in the bid and that given in figures, the price in writing will be considered as the bid.

Bidders will be required to complete the entire work to the satisfaction of the Aqueduct Commissioners, and in strict accordance with the specifications annexed to the contract. No extra compensation beyond the amount payable for the work before enumerated, which shall be actually performed and furnished at the prices stated therefor, shall be due or payable for the entire work and materials.

No bid will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ten per centum (10%) of the amount of the security required for the faithful performance of the contract.

Bidders are requested to make their bids or proposals upon the blank form prepared by the Aqueduct Commissioners, a copy of which (with the proper envelope in which to inclose the bid), together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Aqueduct Commissioners and any further information can be obtained at the office of the Aqueduct Commissioners, No. 280 Broadway, The City of New York, where the plans may be seen.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of BARRETTO STREET (although not yet named by proper authority), from Westchester avenue to Edgewater road, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS OF Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 21st day of January, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of January, 1904, at 4 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 30th day of January, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northeasterly pierhead line of the East river with the southerly prolongation of a line parallel to and 100 feet westerly from the westerly line of Tiffany street; running thence northerly and northeasterly along said prolongation and parallel line and its northeasterly prolongation to an intersection with the southerly prolongation of a line parallel to and 100 feet westerly from the westerly line of that portion of Kelly street lying north of Dongan street; thence northerly along said last-mentioned prolongation

and parallel line to an intersection with a line parallel to and 100 feet northeasterly from the northeasterly line of Westchester avenue; thence northeasterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet westerly from the westerly line of Barretto street; thence northerly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet northerly from the northerly line of East One Hundred and Sixty-seventh street; thence easterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet easterly from the easterly line of Barretto street; thence southerly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet westerly from the westerly line of the northeasterly line of Westchester avenue; thence northeasterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet easterly from the easterly line of Southern Boulevard; thence southerly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet northeasterly from the northeasterly line of Hunt's Point road; thence southeasterly along said last-mentioned parallel line to its intersection with the northerly prolongation of a line parallel to and 100 feet easterly from the easterly line of Coster street; thence southerly along said last-mentioned prolongation and parallel line to its intersection with the northeasterly pierhead line of the East river; thence northeasterly along said last-mentioned pierhead line to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Courthouse, in the Borough of Manhattan, in The City of New York, on the 21st day of April, 1904, at the opening of the Court on that day.

Dated Borough of Manhattan, New York, December 18, 1903.

W. W. NILES, Chairman;
JOHN J. NEVILLE,
PIERRE G. CARROLL,
Commissioners.
JOHN P. DUNN, Clerk. d30,j19

KINGS COUNTY.

In the matter of the application of the Board of Education, by the Corporation Counsel of The City of New York, relative to acquiring title by The City of New York to certain lands situate on the southerly side of NOLL STREET, between Evergreen avenue and Central avenue, in the Twenty-seventh Ward of the Borough of Brooklyn, duly selected and chosen as a site for school purposes by the School Board of the Borough of Brooklyn and approved by the Board of Education under and in pursuance of the provisions of chapter 378 of the Laws of 1897 and the various statutes amendatory thereof and other statutes relating thereto.

WE, THE UNDERSIGNED, COMMISSIONERS OF Estimate in the above-entitled matter, appointed pursuant to the provisions of the statutes relating thereto, hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties and persons interested in the lands or premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Education of The City of New York, at Park avenue and Fifty-ninth street, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate and who may object to the same, or any part thereof, may within ten days after the first publication of this notice, December 29, 1903, file their objections to such estimate, in writing, with us at our office in the Franklin Trust Company Building, No. 166 Montague street, in the Borough of Brooklyn, in said city, as provided by statute, and that we, the said Commissioners, will hear parties so objecting at our office on the 12th day of January, 1904, at 2 o'clock in the afternoon, and upon such subsequent days as may be found necessary.

Dated the Borough of Brooklyn, City of New York, December 29, 1903.

MORTIMER S. BROWN,
EDWARD F. LINTON,
Commissioners.
GEORGE T. RIGGS, Clerk. d29,j9

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening AVENUE M, from Ocean avenue to Flatlands avenue, in the Thirty-second Ward, in the Borough of Brooklyn, in The City of New York, as the same has been heretofore laid out.

NOTICE IS HEREBY GIVEN THAT THE bill of costs, charges and expenses incurred by reason of the proceedings in the above-entitled matter, will be presented for taxation to one of the Justices of the Supreme Court of the State of New York, at a Special Term thereof to be held for the hearing of motions, at the Kings County Courthouse in the Borough of Brooklyn, in The City of New York, on the 7th day of January, 1904, at 10.30 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard thereon; and that the said bill of costs, charges and expenses has been deposited in the office of the Clerk of the County of Kings, there to remain for and during the space of ten days, as required by the provisions of section 999 of title 4 of chapter 17, of chapter 378 of the Laws of 1897, as amended by chapter 466 of the Laws of 1901.

Dated Borough of Brooklyn, New York, December 24, 1903.

SECOND DEPARTMENT.

In matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WHITE PLAINS ROAD (although not yet named by proper authority), from Morris Park avenue to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, bearing date the 30th day of December, 1901, and duly entered in the office of the Clerk of the County of New York, at his office in the Borough of Manhattan, in The City of New York, on the 31st day of December, 1901, in the office of the Clerk of the County of Kings, at his office in the Borough of Brooklyn, in The City of New York, on the 31st day of December, 1901, and in the office of the Clerk of the County of Westchester, at his office at White Plains, Westchester County, in the State of New York, on the 17th day of January, 1902, a copy of which order was duly filed in the office of the Register of the County of New York and indexed in the Index of Conveyances No. 168, Annexed Territory, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate and assessment of the loss and damage, if any, or of the benefit and advantage, if any, as the case may be, to the respective

owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 31st day of December, 1901, in the office of the Clerk of the County of Kings on the 31st day of December, 1901, and in the office of the Clerk of the County of Westchester on the 17th day of January, 1902, and a just and equitable estimate and assessment of the value of the benefit and advantage of said street or avenue so to be opened or laid out and formed, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the said respective lands, tenements, hereditaments and premises not required for the purpose of opening, laying out and forming the same, but benefited thereby, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

Further notice is hereby given that by an order of the Supreme Court duly filed and entered in the office of the Clerk of the County of Westchester on the 9th day of December, 1903, in the office of the Clerk of the County of Kings on the 8th day of December, 1903, and in the office of the Clerk of the County of New York on the 11th day of December, 1903, a copy of which order was filed in the office of the Register of the County of New York on the 11th day of December, 1903, the above-entitled proceeding was duly and regularly amended by excluding therefrom the property not required for said street or road, which property is more particularly bounded and described in the petition attached to said order. All parties and persons interested in the real estate affected by this order and having any claim or demand on account thereof, are hereby requested to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, on the fourteenth floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in The City of New York, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice. And we, the said Commissioners, will be in attendance at our said office on the 18th day of January, 1904, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owners, or on behalf of The City of New York.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.
The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
