COMMISSIONERS OF ACCOUNTS.

REPORT FOR THE YEAR ENDING DECEMBER 31, 1906.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, February 28, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, and the Honorable Board of Aldermen of The City of New York:

SIRS—Section 195 of the Charter reads as follows:

" * * * The accounts of the Chamberlain shall be annually closed on the last day of December, and shall be examined in the month of January in each year by the Commissioners of Accounts. Such Commissioners shall examine the accounts and vouchers of all moneys received into and paid out of the City Treasury during the year ending on the last day of December next preceding such examination, and shall certify and report to the Mayor and Board of Aldermen in the following month of February the amount of moneys received into the treasury during such year, the amount of moneys paid out during the same period by virtue of warrants drawn on the treasury by the Comptroller, the amount of moneys received by the Chamberlain who shall be in office at the time of such examination, if he entered upon the execution of his duties since the last preceding report; the balance in the treasury on the last day of December preceding such examination; the amount of moneys borrowed for or on the credit of the City during such year, and the amount of the bonds of the City issued during such year, with the purposes for which and the authority under which such bonds were issued. Such Commissioners shall also compare the warrants drawn by the Comptroller on the treasury during the year ending on the last day of December preceding such examination, with the several laws and ordinances under which the same shall purport to have been drawn, and shall in like manner certify and report whether the Comptroller had power to draw such warrants; and if any shall be found which, in their opinion, he had no power to draw, they shall specify the same in their report, with their reasons for such opinion."

The magnitude of the work involved in this mandatory provision of the Charter is much greater than was appreciated by the framers thereof, and it has not been found feasible to await the end of the year before making the examination and comparison of vouchers and warrants demanded. As a matter of practice and to fully comply with the requirements of the law, the Commissioners of Accounts employ six Accountants on their staff to perform this duty, and their work is continuous from the beginning to the end of the year.

Certification.

The Commissioners of Accounts do hereby certify that they have complied with the law as quoted above, and that for the year 1906 they have examined 129,381 vouchers paid by the Comptroller, and have examined and compared 129,381 warrants drawn by the Comptroller on the treasury in payment thereof, making a total of 258,762 papers examined; they do further certify and report that in their opinion the Comptroller was duly authorized by the several laws and ordinances to draw the warrants examined and that none was found which was improperly drawn, and finally they do certify and report that they have made from the books of account of

the City Chamberlain a compilation of the moneys received into and paid out of the City Treasury, from which the following condensed statement is prepared:

FILLING-IN PRIVILEGE.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, MARCH 18, 1907,

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON WHITE-HALL SECTION, ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the end of the present filling in rear of the bulkhead wall about 77 feet westerly from the west side of Pier (new) 4, East river, westerly a distance of about 286 feet to the east side of Pier (old) 2, East river, and from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 35 to 45 feet to the old crib bulkhead running along the southerly side of South street. The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, said map being a part of this agreement.

The filling shall be brought to a grade level with the top of the platform resting on the bulkhead wall, and shall extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 5,000 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built at the Whitehall section, on the East river, Borough of Manhattan.

In the estimated amount given the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried offshore toward the bulkhead wall or close row of piles.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the top of the platform resting on the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work or any part of it, is ready to be begun. The Department reserves the right of ordering the contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within sixty calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks.

If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension. It is expected that filling may be deposited over about one half the area at the present time, and that the remaining area can not be filled until the bulkhead wall is completed, which work will probably involve a delay of about six months.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

J. A. BENSEL, Commissioner of Docks.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
