PETITIONS AND COMMUNICATIONS.

No. 2963.

St. James' Rectory, 23 Oliver St., Manhattan, New York City, February 19, 1913.

The Honorable Board of Aldermen of The City of New York:

Gentlemen—I beg to appeal to your Honorable Board to so regulate under penalties the business of pawnbroking, that pawnbrokers may not receive in pledge for loans any article of wearing apparel for children or of bed furnishings, such as quilts, comfortables, blankets, etc. The passion for drink at times so overcomes wretched parents that in order to satisfy it they strip their shivering little ones almost to the skin of their clothing and rob their not overcomfortable beds of their coverings and pawn them for drink money. A pawnbroker's window tells many a story of the sacrifices which innocent little children must undergo in order that drink-cursed parents might satisfy their unholy cravings. Awake and asleep, these little ones lack means of warmth so that the bottle and the can might be filled. Little dresses, even babies' little white dresses, underwear, shoes, coats, little boys' coats and knickerbockers, hang in array in the pawnbrokers' windows, whilst on the window bases and on the shelves within are stored blankets, quilts, comfortables and the like. This display appeals mutely to the passerby, yet it is only a sign language, and few seem to understand it.

Don't talk of the necessary pledging of the little baby's warm petticoat, in order to purchase the baby's food, for with all New York keenly alive in the exercise of charity, with a vast army of willing workers in the great cause of charity, all imbued with love of God and love of neighbor, no one need want food and clothing; they can be had for the asking, and without the asking, too, when once the sad story of want is known. Much of the clothing given in charity finds its way into our pawnshops, for it is so easy to have this clothing converted into cash for drink. Wagonload upon wagonload of clothing is given to charitable societies for distribution amongst the poor, yet many of our children lack sufficient clothing against the winter's winds, and how can we explain that? There are two ways of disposing of this quantity of clothing; some of it goes to the "ole clo men" and to second-hand dealers for cash, wherewith to help fill the treasuries of these societies, a purpose for which these gifts were never intended by our sympathetic charitable citizens, against which these good citizens themselves must guard. Much of this clothing reaches really undeserving poor and finally lands in our pawn offices. It is against this too easy method of disposal of clothing that I ask your Honorable Board to frame an effective ordinance. Respectfully yours, JAMES B. CURRY, Pastor.

State of New York, Public Service Commission for the First District, Tribune Building, 154 Nassau St., New York, February 19, 1913.

P. J. SCULLY, Esq., Clerk, City Hall, New York City:

Dear Sir—By direction of the Commission I transmit herewith copy of a communication sent yesterday to the Assembly of the State of New York in reply to its resolution requesting a report as to the service conditions of the street surface railways in New York City. This communication contains the information requested by the Board of Aldermen in its resolution adopted January 28, 1913. Yours very truly,

TRAVIS H. WHITNEY, Secretary.

(Copy.)

February 18, 1913.

Hon. ALFRED E. SMITH, Speaker of the Assembly of the State of New York, Albany, New York:

Dear Sir—This Commission acknowledges the receipt of a certified copy of a resolution passed by the Assembly on January 20, 1913, authorizing and directing this Commission to forward to the Assembly a report of its investigations relative to service conditions on street surface railroads under its jurisdiction and its recommendations as to what legislation will enable this Commission most effectively to lessen existing shortcomings in service and facilities.

The resolution of the Assembly recites that the dissatisfaction with the transit facilities afforded by the street surface railways is mainly due to the following factors:

1. Failure to operate sufficient cars in the morning and evening.
2. Overcrowding of cars on the busiest lines.
3. Failure to instruct conductors on the proper transfer slips.
4. Removing crowded cars from service at car barns and switches, instead of transporting passengers to destination.
5. Refusing to stop cars at crossings, thus compelling passengers to wait for five or ten minutes.
6. Refusing to stop cars on the command of passengers.

The first two of the above stated causes of complaint must be regarded as due to physical conditions over which neither this Commission nor the carriers in fact have control. In many parts of the city it is not physically possible to operate in the morning or evening a sufficient number of cars to accommodate the number of passengers who, under existing conditions, must use the surface lines. Especially does this inevitable overcrowding exist on the "busiest lines" to which the resolution refers. Every effort has been made, by increasing the size of cars, the adoption of improved devices permitting the smaller headway, and similar expedients, to increase the number of passengers which can be carried past a given point on those lines during a given time during the "rush hours." A very great advance in this respect has taken place during the tenure of this Commission, but the point of "saturation" has been reached on many of the surface lines, and relief must come through additional rapid transit facilities to handle the "through" traffic.

The four other causes of complaint specified in the resolution of the Assembly present essentially the question of whether the individual employees of the operating companies are sufficiently instructed and disciplined so that they obey regulations of the companies based upon requirements prescribed by this Commission. It is not suggested that any of these causes of complaint exist by reason of any of the rules and regulations of the companies or of this Commission, but only in spite of such rules and regulations. It is simply a question of discipline on the part of the management of the companies in seeing to it that their employees live up to the rules, and this brings in a human element not always within the control of a regulatory body.

After the Commission brought about, on November 1, 1912, the putting into effect of a comprehensive transfer system in the Borough of Manhattan, a great deal of difficulty and confusion was at first experienced, because of ignorance and mistakes on the part of conductors or the unfamiliarity of the passengers with the inevitably complicated plan which had gone into operation. The number of complaints in reference to the matter soon began to fall off gradually and they now have practically ceased. During the past two months the Commission has received only two or three complaints which could be attributed to dissatisfaction with the transfer arrangement. The fact that so very few complaints are now being received would seem to indicate increased effectiveness of the efforts that have been made to instruct conductors as to the proper use of transfer slips.

Refusal to stop cars at crossings and at points indicated by passengers is another source of dissatisfaction which arises in considerable part from the failure of employees to obey regulations. There is, however, a factor which is found to be the most frequent source of this complaint, namely, that the prevalent methods of traffic regulation at street and track intersections unavoidably create confusion of the sort complained of. At points where traffic policemen are maintained no regular stopping point for cars can be observed, for the reason that when a car approaches a crossing it may be signalled by the officer to wait or to pass immediately over the crossing without stopping. When more than one car passes over a crossing at a time it must proceed far enough beyond the intersection to give room for the cars back of it to clear the intersection. At many points it frequently happens that as many as five cars in this manner signalled pass an intersection at one time. This, of course, greatly confuses the passengers as to the places where their cars will stop, and often leads passengers to think that their commands have been ignored by the motorman and conductor. This condition does not exist on streets where the headway is greater than one minute, but under existing traffic regulations it has not seemed possible to devise any remedy for this cause of complaint.

The practice of "turning back" cars or taking them out of service at car barns has received the constant attention of this Commission. No company is permitted to turn back cars unless (1) the regular schedules provide for it at that point, (2) the car bears destination signs indicating the turning-back point, and (3) an adequate number of through cars are operated on the line to accommodate all passengers at all times with seats. Wherever it has come to the notice of the Commission that cars have been turned back contrary to these regulations, the company has been called upon to explain the reason therefor. The practice has been very greatly reduced.

Opinions that have been adopted by the Commission from time to time relative to various phases of the above sources of complaint, are contained in the Reports of Decisions of this Commission, as published from time to time. Very truly yours,

TRAVIS H. WHITNEY, Secretary.

Chauffeurs and Cab Drivers Union, Local 267, I. B. of T., Affiliated with the American Federation of Labor, 305 W. 54th Street, New York.

On Sunday, February 18, 1912, at a summoned meeting of the chauffeurs and cab drivers, Local Union No. 267, International Brotherhood of Teamsters and Chaffeurs, affiliated with the American Federation of Labor, Central Federated Union of New York City and Central Labor Union of Brooklyn, the following resolution was unanimously adopted. Whereas:

Through misrepresentation, juggled figures, irresponsible agitation and an incomprehensive investigation, a preposterous ordinance has been promulgated, and introduced into the Board of Aldermen, regulating the taxicab business, which, if passed, would result in confused and chaotic conditions.

The proper regulation of taxicabs, and the protection of our citizens, hotel patrons and transient passengers, who ride in taxicabs is desired by all who love the fair name of dear old New York; but to hand over our visitors to that "Self Admiration Society," known as the Public Hack Man, would be an appalling calamity.

The reduction of our present taxicab rate, and the abolition of hotel stands would result in the companies placing our members back on a commission basis, and reduce our present wage of $17.50 per week to an average of $14, with a longer workday, and precipitate strikes and much suffering.

We protest against being placed on a par with the Lodon cabby, with his cheese and ale, and servile conditions, whom (Alderman Nicoll and the City Club) picture to us as a mental conception of perfection. We would prefer to remain American citizens, with sufficient remuneration to partake of a sirloin, feed our wives and babies, and pay our rent and live according to the customs of our country; be it therefore

Resolved, That on behalf of our 3,500 chauffeurs who work for a weekly wage for the companies, and are not fortunate enough to own a car, that we respectfully request the Board of Aldermen to defeat the ordinance introduced by Alderman Nicoll, and that a copy of these resolutions be forwarded to Mayor Gaynor, Commissioner Wallace, J. Purroy Mitchel, and all of our Aldermen; and be it further

Resolved, That they be printed in our official magazine, and forwarded to our Joint Executive Council, C. F. U., and A. F. L., for adoption and 5,000 copies distributed to the chauffeurs of Greater New York.

Respectfully submitted, W. H. ASHTON, Vice-President; JOHN P. DALY, Recording Secretary.

Which was referred to the Special Committee on Taxicabs.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the President of the Borough of Richmond.

No. 2967.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, February 18, 1913.

Hon. Board of Aldermen, City of New York:

Gentlemen—For the purpose of purchasing postage stamps, paying express and freight charges and a variety of minor incidental expenses connected with the conduct of the business of this office, it is necessary to have a certain amount of cash on hand, as this class of expenditure can not be met in the usual way, i. e., by the issue of open market orders and voucher through the Comptroller's office. For this reason we desire to make requisition on the Comptroller for money to be advanced by him to provide funds for this purpose, the accounting to be made after the expenditure has been made, as has been the custom for a number of years past, and would ask the favorable consideration of your Board of the following resolution, viz.:

Resolved, That for the purpose of defraying minor incidental expenses contingent to the office of the President of the Borough of Richmond, the said President of the Borough of Richmond, may, by requisition, draw upon the Comptroller for a sum not exceeding five hundred dollars ($500), and may, in like manner, renew the draft as often as may be deemed necessary to the extent of the appropriation set apart for the Administration Division of his office during the year 1913; but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to Comptroller by the transmittal of a voucher or vouchers certified by the President of the Borough of Richmond covering the expenditure of the money paid thereon.

Yours respectfully, GEORGE CROMWELL, President of the Borough of Richmond.

Which was referred to the Committee on Finance.

No. 2968.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, February 21, 1913.

The Honorable the Board of Aldermen, City of New York:

Gentlemen—There has been introduced and referred to your Law Committee an amendment to chapter 5, article 5, section 158 of the Code of Ordinances which, if enacted, will affect the matter of permits for street openings and sewer connections in the Borough of Richmond. This amendment was not introduced at my request or with the knowledge of my office, and will serve no good purpose which will not be better served by an amendment to part 14, article 1, section 12, which I herewith submit for introduction and passage.

The enclosed draft is in a form which has already been approved by the Corporation Counsel, to whom preliminary draft was submitted by me and by him thus amended.

I enclose a form of comparison of chapter 5, article 5, section 158, and part 14, chapter 1, article 1, sections 2 and 12, respectively, of the Code as they now stand, with the proposed amendment now in the hands of the Law Committee, showing the effect that would be produced by its adoption as to sewer connections in this borough.

Yours respectfully, GEORGE CROMWELL, President of the Borough.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

That Part 14, article 1, section 12, of the Code of Ordinances, be amended so as to read as follows:

Part 14—Ordinances affecting generally the Borough of Richmond.

Article 1—Openings of streets and sewers.

Section 12—Sewer inspection fees.

Every sewer connection shall be made under the supervision of a City Inspector of Sewer Connections.

For the purpose of this section, a sewer connection shall consist of all that portion of the house sewer service pipe lying between the main sewer and the house line or vault line (if there be a vault) of the property to be drained by said service pipe.

The fee for such inspection will be three (3) dollars in all cases where such connection does not exceed fifty feet in length; when such connection exceeds fifty feet, an additional fee will be charged for at the rate of five (5) dollars per day, or a proportionate amount thereof for such part of the day as may necessarily be taken up, for inspecting the additional length.

All such fees shall be deposited with the Department of Finance and credited to a special fund entitled "Sewer Inspection and Repair, Borough of Richmond."

This amendment shall take effect immediately.

Section 1, chapter 5, article 5, section 158, Code of Ordinances, provides $10 fee throughout City, but superseded by part 14, chapter 1, section 12, as to Richmond; $3 fee.	Proposed amendment to section 1 provides universal $10 fee for each connection, including Richmond. Supersedes part 14, chapter 1, article 1, section 12, as to Richmond; $3 fee.
Provides that hotels, boarding houses, public buildings covering a greater area than 25 feet by 50 feet each, shall pay proportionately for such additional space.	Cuts out these provisions and includes all in the above flat $10 fee.
Also provides that factories, breweries, distilleries, etc., may be connected, provided their wastes will not deposit sediment or obstruct sewer; fee to be determined by Borough President.	Retains this provision.
Provides penalty of $50 for each offense in discharging substances which deposit or otherwise cause obstructions in sewers from factories, breweries, distilleries, etc.	Section 2 amends by adding provision that fee shall be $10, to be deposited in "Special Fund."
Code of Ordinances, part 14, chapter 1, article 1, section 2, applying exclusively to Richmond provides for application in writing for permit.	
Part 14, chapter 1, article 1, section 12, provides that sewer connections must be made under supervision, and that fee shall be $3, deposited in "Special Fund."	Repeals. (Provides for no inspection.)

No. 2971.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, February 24, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of two resolutions adopted by this Board February 20, 1913, relative to the issues of corporate stock, as follows:

Cal. No. 84—Authorizing issue of $4,000 corporate stock for the preparation of a map of The City of New York, under the jurisdiction of the Chief Engineer of the Board of Estimate and Apportionment.

Cal. No. 85—Authorizing issue of $12,500 corporate stock for the payment of salaries on account of the preparation of drainage and sewerage district plans, under the jurisdiction of the President of the Borough of Queens.

I also transmit herewith copies of reports of the Corporate Stock Budget Committee relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding four thousand dollars ($4,000), to provide means for the preparation of a map of The City of New York, under the jurisdiction of the Chief Engineer of the Board of Estimate and Apportionment, and that, when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, February 20, 1913. JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, January 11, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On December 24, 1912, the Chief Engineer of the Board of Estimate and Apportionment requested approval of an issue of corporate stock in the sum of $4,000, to provide means for the preparation of a map of the entire City of New York, of convenient size, and of maps of the several subdivisions of the City on the same scale. In connection therewith we report as follows:

The topographical maps of the different Boroughs are not all drawn to a uniform scale, nor is there an official map of the entire City.

The Chief Engineer states that an effort is now being made to prepare Borough maps on a uniform scale, which can be assembled, and a map of the entire City made therefrom. In addition to the maps prepared by the several Boroughs, data will have to be obtained from the Federal government and New Jersey, in order that shore lines, railroad terminals, etc., may be accurately plotted. The finished map is to show all adopted streets in full lines and all old roads, etc., in colors.

The amount requested is to be expended in the employment of a draftsman for a period estimated at two years, in obtaining accurate information not shown on the Borough maps, though necessary to show the shore lines, railroad terminals, etc., and lithographing.

The Chief Engineer states that frequent requests are made for such a map, and that this is the only City, in his knowledge, without a complete official map. He also states that the map will be of great value in the work of his office, in connection with public improvements, etc.

We recommend the adoption of the attached resolution approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

No. 2972.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, December 13, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On November 15, 1912, the President of the Borough of Queens requested an issue of $14,655 corporate stock for the preparation of maps and plans of sewerage districts. In connection therewith we report as follows:

The request is based upon the needs of the Borough for services and supplies necessary in the preparation of the maps and plans for the drainage system in the Borough of Queens by the force carried in the Budget for the year 1913 under the title of Personal Service, Salaries, Regular Employees, Care of Sewers and Sewage, No. 3114TCS, Engineering and Inspection. The general apportionment of the total requested is Salaries, $12,500, and Supplies, $2,155. The following schedule shows the proposed expenditures in detail:

		Corporate Stock.
Chief Engineer	$3,000 00	$750 00
Assistant Engineer	2,700 00	1,080 00
Assistant Engineer	1,950 00	1,560 00

Miscellaneous		50 00
		$14,655 00

The total estimated cost of the work for 1913 is $24,955. The entire sum was requested in the annual estimate, but the Budget Committee decided that $12,500 for salaries was properly chargeable to corporate stock, and omitted it from the Budget. The balance, $12,455, which includes a sum considered sufficient to cover the supplies, was allowed in the Budget.

We recommend the adoption of the attached resolution, to the extent of $12,500.

Respectfully, WM. A. PRENDERGAST, Comptroller, JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE McANENY, President, Borough of Manhattan; Corporate Stock Budget Committee.

City of New York, Department of Finance, Comptroller's Office, February 13, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 27, 1913, the Secretary of the Board of Estimate and Apportionment requested modification of the 1913 salary schedule entitled "Personal Service, Salaries, Regular Employees, No. 2121, Standardization." In connection therewith I report as follows:

In the Budget for 1913, provision was made for four Investigators, at $2,400 per annum, in the Commission on Standardization. It was the intention to have each of those four positions filled by persons having the experience and qualifications necessary to enable them to do field work in the preparation of standard supply specifications. It was also the desire to have the positions filled by persons taken from the lists of the Municipal Civil Service or by transfer from some other City Department so that persons having the required qualifications could be secured.

The Commission has secured by transfer from the Board of Water Supply Mr. George B. Pettit, a Clerk at $2,100 per annum, and Mr. Frazee L. Belnap, an Assistant Engineer at $2,250 per annum, to fill two of those positions. Mr. Pettit has had considerable experience in the framing of specifications for the Board of Water Supply, and is otherwise qualified for the work. Mr. Belnap has been engaged in the actual handling of supplies at one of the largest depots of the Board for a number of years.

Request is, therefore, made to modify the schedule to provide for a Clerk at $2,100 and an Assistant Engineer at $2,250 per annum in place of two Investigators at $2,400 per annum, carrying the $450 difference as an unassigned balance.

Provision was also made in the 1913 Budget for an Investigator at $2,000 per annum. The Commission has secured the services of Mr. Edward V. Roure, under the Municipal Civil Service Law as a Price Expert at $2,000 per annum. Request is made to change the line item in the schedule from Investigator at $2,000 to Price Expert (Investigator) at $2,000 per annum, in order to include the incumbent's title under the rules of the Municipal Civil Service Commission. Your board is also requested, pursuant to the provision of section 56 of the Greater New York Charter, to recommend to the Board of Aldermen the establishment of the grade of position of Price Expert at $2,000 per annum.

The following shows the line item changes in detail:

Code No.	Schedule Line.	Schedule Transfer. Decrease.	Schedule Transfer. Increase.	Cash Transfer. Decrease.	Cash Transfer. Increase.
2121	Investigator, 4 at $2,400	$4,800 00	.....	$4,800 00	.....
	Assistant Engineer at $2,250	.....	2,250 00	.....	2,250 00
	Clerk at $2,100	.....	2,100 00	.....	2,100 00
	Investigator, 1 at $2,000	2,000 00	.....	2,000 00	.....
	Investigator (Price Expert), 1 at $2,000	.....	2,000 00	.....	2,000 00
	Balance unassigned	.....	450 00	.....	450 00
		$6,800 00	$6,800 00	$6,800 00	$6,800 00

I recommend the adoption of the attached resolutions modifying the salary schedules and recommending to the Board of Aldermen the establishment of the grade of Price Expert at $2,000 per annum for one incumbent.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Title	Rate Per Annum.	Number of Incumbents.
Price Expert	$2,000 00	1

No. 2974.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, February 4, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On January 20, 1913, the President of the Borough of Richmond requested the establishment, in his office, pursuant to the provisions of section 56 of the Greater New York Charter, of the position of Chemist and Bacteriologist at $1,800 per annum. In connection therewith we report as follows:

In the 1911 Corporate Stock Budget an authorization of $30,000 was made for the construction and maintenance of an experimental sewerage disposal plant at West New Brighton, in the Borough of Richmond. The building for the plant has been erected, and equipment for the conducting of experiments will be installed. One of the features of the plant will be a laboratory where technical chemical and bacteriological analyses will be made. In August, 1911, the position of Chemist, at $1,500, was established for the office of the President, but no Civil Service lists were called for until recently, for the reason that the plant was not ready for operation.

The President states that he has made application to the Municipal Civil Service Commission for a certification to fill the position of Chemist, but cannot secure a suitable man for less than $1,800. The work to be done requires a knowledge of bacteriology, in addition to the usual qualifications of a Chemist, and the President, therefore, proposes the title of Chemist and Bacteriologist. The rate of $1,800 for the position is reasonable.

We recommend adoption of the attached resolutions, approving the request and for the abolishment of the now unnecessary grade of Chemist. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment in the office of the President of the Borough of Richmond, of the position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Chemist and Bacteriologist	$1,800 00	1

—and that the position of Chemist, at the rate of $1,500 per annum, for one incumbent, be hereby abolished.

To the Board of Estimate and Apportionment:

Gentlemen—On February 5, 1913, the Commissioner of Docks requested the establishment in the Department of Docks and Ferries of the grade of position of Hydrographer, at $1,800 per annum, for an additional incumbent. In connection therewith we report as follows:

The grade is established for three incumbents, and the Commissioner states that another Hydrographer is needed for the work of the Engineering Bureau. The funds for the additional grade are to be provided by dropping a vacant position of Topographical Draftsman, at the $1,800 rate.

The Commissioner states that the requested grade is to be filled by appointment, and that no increase in salary is involved.

We recommend the adoption of the attached resolution approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Docks and Ferries of the grade of position, in addition to those heretofore established, as follows:

To the Board of Estimate and Apportionment:

Gentlemen—On May 15, 1912, the Corporation Counsel requested the establishment of the additional grades of Clerk in his office, at $1,350 and $1,650 per annum, for an unlimited number of incumbents. On June 5, 1912, your committee in a report stated, in part, as follows:

> The Corporation Counsel states that there are now no intermediate grades of Clerk established for his office between $1,200 and $1,500 per annum and between $1,500 and $1,800, and that by the establishment of the $1,350 and $1,650 grades for an unlimited number of incumbents it will permit him to make promotions at the rate of $150 per annum instead of at $300, under the present establishment.
>
> Acting on this report your board recommended the establishment as requested.

On October 22, 1912, the Board of Aldermen returned the resolution, with a request that a limitation be placed on the number of incumbents.

On January 29, 1913, the Corporation Counsel requested that the grades be fixed for five incumbents, respectively.

In view of the foregoing we recommend the adoption of the attached resolution amending the resolution of June 27, 1912, to limit the number of incumbents to five in each grade. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on June 27, 1912, as follows:

> "Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Corporation Counsel of the grades of positions, in addition to those heretofore established, as follows:

The Vice-Chairman laid before the Board the following communications from the President of the Borough of Queens:

No. 2977.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 18, 1913.

To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Pursuant to subdivision 8 of section 188 of the Greater New York Charter, application is hereby made for an issue of special revenue bonds to an amount of forty-seven hundred ($4,700) dollars, proceeds whereof to be expended by the President of the Borough of Queens, without public letting, for the purchase of one automobile, hire of the necessary chauffeur, maintenance and storage of same for the balance of the year 1913.

As there will be over $2,000,000 worth of public improvements going on in this Borough this coming year, namely, the improving of highways and building of sewers, it is absolutely necessary for the proper transaction of business that the Consulting Engineer of this Borough keep in touch with the various works under his supervision and direction.

With the present transit facilities in this Borough it will be impossible for the Consulting Engineer to give proper and prompt attention, in the City's interest, to the multifarious problems that are continually presenting themselves throughout the Borough, as at present he has no means of transportation of this nature, and, were he to depend on train or trolley, he would be compelled at times to walk four or five miles to reach certain points after disembarking from the trolley or train.

May I, therefore, request that your Honorable Board give this application your early consideration, as it is very urgent that the Consulting Engineer obtain this automobile as soon as possible, in order that he may have the use of same in the early spring, when the different contracts will be commenced, or well under way.

Resolution herewith enclosed. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Resolved, That pursuant to subdivision 8, section 188, of the Charter of The City of New York, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding forty-seven hundred dollars ($4,700), proceeds whereof to be expended by the President of the Borough of Queens, without public letting, for the purchase of one (1) automobile and for the operation and maintenance thereof for the year 1913.

No. 2978.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 18, 1913.

To the Honorable Board of Aldermen, New York City:

Gentlemen—In accordance with the provisions of section 188 of the Greater New York Charter, it is respectfully requested that your Honorable Board approve of and recommend to the Board of Estimate and Apportionment the necessary authorization for the issue of special revenue bonds to an amount not exceeding twenty thousand dollars ($20,000), for the rebuilding of a sea wall on the westerly side of the Boulevard, from a point about 100 feet south of Jamaica ave. to a point about 200 feet north of Temple st., 1st Ward, Borough of Queens.

On October 19, 1912, a like application was made to your Honorable Board, on which the Committee on Finance reported that the same required no further consideration, and recommended that the same be ordered on file.

Since making this application this sea wall, which acts as a retaining wall to the adjacent road, has actually failed, and, to prevent the street from caving in, the same should be given immediate attention, if not, I will be compelled to close off this part of the street to the public traffic, which will necessitate the stopping of trolley cars, etc.

I would therefore request that your Honorable Board give this application favorable consideration, as a recent inspection reveals the fact that the action of the elements has resulted in a deformation of the wall to such an extent that the only thing supporting it is the jamming of some of the bottom stones, and, should one of these stones become loosened, it is possible that there might be a general collapse of the wall and the Boulevard pavement. Such a collapse would result in carrying away the Boulevard area as far inshore as the car tracks or to the centre of the street.

Resolution enclosed herewith. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Resolved, That pursuant to the provisions of section 188 of the Greater New York Charter, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding twenty thousand dollars ($20,000), proceeds whereof to be expended by the President of the Borough of Queens, for the purpose of rebuilding sea wall on the westerly side of the Boulevard, from a point about 100 feet south of Jamaica ave. to a point about 200 feet north of Temple st., 1st Ward of the Borough of Queens.

Which were severally referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the Department of Finance:

No. 2979.

City of New York, Department of Finance, Comptroller's Office, February 21, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—Section 900 of the amended Greater New York Charter provides as follows:

> "Sec. 900. For the purpose of enabling the board of aldermen to impose the annual taxes it shall be the duty of the comptroller of said city to prepare and submit to said board, at least one week before the first day of March in each and every year, a statement setting forth the amounts by law authorized to be raised by tax in that year, on account of the corporation of the city of New York, as hereby constituted, or for city purposes within said city as created by this act, and purposes for which said city is liable, and on account of the counties of New York, Kings, Queens and Richmond, and also an estimate of the probable amount of receipts into the city treasury during the then current year from all the sources of revenue of the general funds, including surplus revenue from the sinking funds of the mayor, aldermen and commonalty of the city of New York and of any of the municipal and public corporations, or parts of municipal and public corporations by this act consolidated with the municipal corporation known as the mayor, aldermen and commonalty of the city of New York, other than the surplus of revenues of any such sinking funds for the payment of interest on the city debt of the municipal corporation known as the mayor, aldermen and commonalty of the city of New York, or the like debts of the municipal and public corporations by this act consolidated as aforesaid, and the said board of aldermen is hereby authorized and directed to deduct the total amount of such estimated receipts from the aggregate amount of all the various sums which, by law, it is required to order and cause to be raised by tax in said year, for the purposes aforesaid, and to cause to be raised by tax such sum as shall be as nearly as possible but not less than the balance of such aggregate amount after making such deductions, by fixing a tax rate in cents and hundredths of a cent upon each dollar of assessed valuation."

Section 902 of the amended Greater New York Charter provides as follows:

> "In the statement submitted by the comptroller to the board of aldermen, as above provided in this chapter, he shall each year include and state specifically the sum or sums necessary to be raised to pay during the current year the salaries of the county officers and the other county charges and expenses in the counties of New York, Kings, Queens and Richmond, respectively, and the board of aldermen is hereby authorized and directed to levy upon and collect from the taxable property within each of said counties, respectively, the sum or sums so necessary to be raised to pay the salaries of county officers and other county charges and expenses of such county; to the end that each of said counties shall ultimately bear and pay all expenses necessary to be incurred within the county for county as distinguished from city purposes."

First. The Budget in detail for the year 1913.

Second. The amount of county charges and expenses in the counties of New York, Kings, Queens and Richmond, respectively, included in said Budget, as well as the amount of county charges and expenses paid during the year 1912 from the proceeds of special revenue bonds, which amounts together are to be raised respectively by levy upon taxable property within each of said counties, as provided by section 902 of the Charter.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous fiscal year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5 Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriaion made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
   pays any salary to,
   gives any consideration for services (financial or otherwise) by,
   has any business dealing with, or
   secures goods or merchandise (directly or indirectly) from
any officers or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction, except that for abnormal or atypical children a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in Section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth, or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution shall give to the Comptroller on forms prescribed by him notice of the reception or discharge of any person for whose care City or County funds are to be received within twenty-four hours after his arrival at or discharge from the institution.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

No. 2980.

Office of Chief City Magistrate, Board of City Magistrates, Second Division, City of New York, 44 Court St., Brooklyn, New York, February 21, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers St., New York:

Dear Sir—On behalf of the Board of City Magistrates of the Second Division of The City of New York I hereby respectfully request that special revenue bonds to the amount of $5,000 be issued to provide for the alteration of the court building at the corner of Myrtle and Vanderbilt aves., occupied by the Domestic Relations Court. The business of that court has so largely increased and the need for additional accommodation being so very urgent we find that the pressing need for relief calls for immediate action. The building is owned by the City, and in order to equip it properly for the public uses to which it is devoted it is necessary to alter the first floor and to build an addition to the present extension.

I trust that your honorable body will give this matter your prompt attention.

Yours very truly, OTTO KEMPNER, Chief City Magistrate.

City of New York, Office of the President of the Borough of Manhattan, City Hall, February 7, 1913.

Honorable Board of Aldermen, City Hall:

Gentlemen—In connection with the Grand Central improvements, the Public Service Commission has approved certain changes in the subway station at that point, which involve the extension of the mezzanine floor within the subway station, and the removal of the present sidewalk on the north side of 42d st., for a distance of about 80 feet west of Vanderbilt avenue.

It was the original intention of the Commission to have this sidewalk restored to its present position; but inasmuch as the Board of Estimate and Apportionment has already, by resolution, ordered the widening of the roadway of 42d st. at this point, and the consequent narrowing of the sidewalk, the Engineers of this department have had under consideration with the Engineers of the Public Service Commission the advisability of replacing the sidewalk in its new position now, so as to avoid the additional expense and annoyance consequent upon replacing it after the street has been ultimately widened.

The Rapid Transit Subway Construction Co., which is doing the station alteration work, has offered to make the necessary alterations in the sidewalk for $3,000, and this estimate has been approved by the Chief Engineer of the Public Service Commission, and the Consulting Engineer of this department.

Your Board has already exempted several similar contracts in connection with street widening operations in which the amount allowed was the actual cost of the work, plus 10 per cent. As the cost of this work is so small, the expense of accounting and keeping records of detailed inspection would be unduly large compared with the amount involved. Furthermore, the necessary work to accommodate the street widening would be so closely related with the mezzanine construction that it would be practically impossible to keep separate accounts of the cost.

I recommend, therefore, that the offer of $3,000, made by the Rapid Transit Subway Construction Co., to do the work, be accepted, and I transmit herewith a resolution, the adoption of which will authorize me to proceed with the letting of the necessary contract.

The proposed new mezzanine is urgently needed to relieve the pressure of subway traffic at this point. You are, therefore, urged to give this application your prompt and favorable consideration. Respectfully,

GEORGE McANENY, President, Borough of Manhattan.

Alderman Diemer moved the adoption of this resolution.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Loos, McCann, McCourt, McGarry, Marks, Martyn, Meagher, Molen, Moore, Morrison, Muhlbauer, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, Wilmot; the Vice-Chairman—62.

City of New York, Department of Education, Brooklyn, N. Y., November 20, 1912.

Hon. WILLIAM H. PENDRY, 1012 Gates Avenue, Brooklyn, New York:

My Dear Alderman Pendry—I am glad to learn that you are going to take up the matter of trying to establish an ordinance having for its purpose the protecting of children from danger from vehicles during school fire drills, and I hope that this time you will be successful.

I have many complaints from the twenty schools under my supervision of difficulties experienced in trying to prevent automobiles and other vehicles from breaking through the lines of school children who are passing to and from school in these compulsory fire drills. Last term we had the driver of an automobile taken to court, but it seems that there is no law broken, unless the vehicle is exceeding the legal speed limit. The necessity of the ordinance you propose seems clear.

Yours very sincerely, GRACE C. STRACHAN, District Superintendent.

Board of Education, Park avenue and 59th street, New York, November 26, 1912.

Hon. WILLIAM H. PENDRY, No. 1012 Gates avenue, Brooklyn:

Dear Sir—I beg to acknowledge receipt of your communication of the 14th inst., relative to the ordinance with reference to protecting children from vehicles during fire drills in public school buildings, and I am very glad to know that you intend to again introduce an ordinance making it a misdemeanor for drivers of vehicles to drive through the lines during these drills.

I am firmly convinced of the need of an ordinance of this kind, as a great many drivers have little regard for the safety of the children participating in these drills and very frequently drive right through the lines. This has been the experience of most of the members of the Committee on Care of Buildings.

On October 9, 1912, "Fire Prevention Day," while I was giving a fire drill at Public School 84, Brooklyn, the chauffeur of one of the delivery wagons of James A. Hearn & Son deliberately drove through the line of children, and when requested to stop said "that he would not stop for those children." I called this particular case to the attention of James A. Hearn & Son and the driver was suspended for one day. This is only one of many cases of the kind.

If you deem it necessary, I will be pleased to see the Mayor and give him my personal experience while giving these fire drills in the various public school buildings.

Respectfully yours,

GEO. C. MILLER, Chairman, Committee on Care of Buildings.

The City of New York, Department of Education, Local School Board, District No. 35, Borough of Brooklyn, November 16, 1912.

Hon. WILLIAM H. PENDRY, Alderman, 61st District, 1012 Gates avenue, Brooklyn, N. Y.:

Dear Alderman—At the suggestion of Local School Board No. 35, you were kind enough to introduce a resolution in the Board of Aldermen making it a punishable offense to interfere with fire drills. We understand that resolution, although adopted by the Board, has been vetoed by the Mayor.

We earnestly ask you to again press this matter in order that the children of our schools may not have their lives endangered while crossing streets during their fire drills.

We have been informed that those interfering with these fire drills have been discharged in court on the ground that they have been guilty of no offense, and that was the reason why we urged the adoption of such an ordinance.

We would suggest that if a canvass were made of the Principals, District Superintendents or Local School Boards it would show that the wrong sought to be remedied is not a fanciful one, but a real one, and the passage and enforcement of such an ordinance would in a very short time eliminate this very great evil.

The fire drills, when held under the combined influence of the Fire Department and the Local School Boards, have constantly been interfered with by people breaking through the lines of children as they were passing out. Such a happening in the event of a real fire would utterly demoralize the rapid dismissal. This interference, apparent on the most formal fire drills, is to be more noticeable when held by the Principals alone without the presence of superior authority. Such interference impels the Principals to complain to the Local School Boards, which find themselves unable to obtain any relief.

If you think it necessary we would be pleased to address the Mayor direct on this proposition, but my own opinion is that the proper way to accomplish this reform is through the instrumentality of our legislative representatives.

Very sincerely yours,

M. DRENNAN, Chairman, Local School Board No. 35.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, ROBERT F. DOWNING, JOHN DIEMER, JOHN S. GAYNOR, JAMES HAMILTON, C. AUGUSTUS POST, HENRY F. GRIMM, FRANCIS P. KENNEY, Committee on Finance.

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, January 13, 1913.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City of New York.

Sir—I request that your Board, pursuant to subdivision 8, section 188 of the Charter, recommend to the Board of Estimate and Apportionment the issue of Special Revenue Bonds for improvements in this Department, in the Borough of Manhattan, as follows:

Repairing incinerator on pier at 47th st. and North River	$2,000 00
Electric lighting of Stables A and E	2,700 00
Raising of outer dumping boards at 107th st. and East River	2,000 00
Replacing runway to dumps at 30th st. and North River	2,000 00

Respectfully, WM. H. EDWARDS, Commissioner.

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, January 27, 1913.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City of New York:

Sir—I can give you the following information as to the estimated costs of the several pieces of work as mentioned in my letter to you of January 13, 1913:

Incinerator at 47th st. and North River has been repaired several times and the Master Mechanic states that $2,000 will make the necessary repairs.

The electric lighting of Stable "A" has been roughly estimated by the Department of Water Supply, Gas and Electricity to cost $1,200 and of Stable "E" $1,500, making $2,700 for the two stables. Stable "A" has only a temporary lighting system and at Stable "E" the present open wiring system has been condemned by the Department of Water Supply, Gas and Electricity.

The Master Mechanic estimates the cost of raising the outer dumping boards at 107th st. and East River to be $2,000, also that the runway at 30th st. and North River can be replaced for $2,000. This runway must be removed, as the pier is to be repaired and lumber in this runway is not fit to be used again. Respectfully,

WM. H. EDWARDS, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Finance, to which was referred on January 21, 1913 (Minutes, page 198), the annexed request from the Chief City Magistrate, First Division, for $1,900 special revenue bonds to pay for transcripts of stenographers' minutes furnished the District Attorney, New York County, respectfully

REPORTS:

That the details of this application are set forth in the letter of request. The Committee believes an appropriation should be made for the purpose indicated, but inasmuch as this is entirely a matter of estimate, considers that $1,000 will be sufficient for the present, at least.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars ($1,000), the proceeds whereof to be used by the Board of City Magistrates, First Division, for the purpose of paying for transcripts of stenographers' minutes furnished to the District Attorney, New York County. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

Board of City Magistrates, First Division, City of New York, 300 Mulberry Street, Manhattan, New York City, January 16, 1913.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—Request is hereby respectfully made for an issuance of special revenue bonds, to the extent of nineteen hundred dollars ($1,900), to pay the Stenographers employed in the City Magistrates' Courts, First Division, for transcripts of minutes of examinations furnished to the District Attorney of the County of New York, during the year 1913.

Hitherto compensation to the Stenographers for such services was paid out of the contingent fund of the District Attorney's office, but no allowance was made for the same in the budget for 1913 for the office of the District Attorney of New York County.

The Stenographers are legally entitled to compensation for this extra service, and it is necessary that funds be provided to meet the cost of same.

Respectfully submitted, WM. McADOO, Chief City Magistrate.

Attest: Philip Bloch, Chief Clerk.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—The Board of Aldermen adopted a resolution on November 19, 1912, requesting the Board of Estimate and Apportionment to authorize an issue of Special Revenue Bonds in the sum of seven thousand dollars ($7,000), the proceeds whereof to be used by me for the purpose of painting and cleaning the Melrose Avenue Viaduct, all obligations contracted thereunder to be incurred on or before December 31, 1912. The Board of Estimate and Apportionment on December 12, 1912, adopted a resolution authorizing the issue of Special Revenue Bonds for the purpose aforesaid.

On December 27, 1912, I awarded the contract for doing this work to the Altrades, Inc., 34 W. 33d st., which company, through its President, refused to execute the contract. There not being sufficient time before the expiration of the year to advertise and relet another contract I am unable to use the money appropriated under the provisions of the resolution passed by your Board. I therefore respectfully ask that the Board of Aldermen request the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds in the amount of seven thousand dollars ($7,000), in order that I may let another contract for this work. Very truly yours,

CYRUS C. MILLER, President.

REPORTS:

That the attached supplementary statements explain the reasons for this request.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of eight thousand five hundred dollars ($8,500), the proceeds whereof to be used by the President of the Borough of The Bronx, for the purpose of installing a new and exposed system of plumbing in the interior public bath at 156th st. and Elton ave., Borough of The Bronx.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—I have the honor to request that your Board recommend to the Board of Estimate and Apportionment the adoption of a resolution authorizing the Comptroller to issue revenue bonds in the sum of eight thousand five hundred dollars ($8,500), for the purpose of installing a new and exposed system of plumbing in the Interior Public Bath at 156th st., and Elton ave., this Borough, and doing such work of refinishing and repairs as will again place the bath in a usable condition. The plumbing work in this bath is in very bad condition and a new system should be installed without delay. The hot water pipes leading from the heaters to the showers and tubs on both floors leak so much that iron bands were placed around the pipes every few feet, and this failing, it has been necessary to shut off the water supply to several of the showers and they cannot now be used. The present system of piping is built in the walls, with the result that a leak is discovered only when the water has collected back of the marble tiling and forced its way through the weakest joints, and upon search the leak is usually found at a considerable distance from where the water appeared on the walls or ceilings. This necessitates removing much of the marble work and as a consequence it has been cracked or broken and serious expense entailed.

Very truly yours, CYRUS C. MILLER, President.

February 6, 1913.

Honorable CYRUS C. MILLER, President of the Borough of The Bronx, Borough Hall, Bronx:

Dear Sir—Relative to your application for a special revenue bond issue of $8,500, the proceeds to be used for the purpose of installing a new and exposed system of plumbing in the interior public bath at 156th st., will you kindly inform me for the Committee if this was applied for in the 1913 budget. If so, and the application was rejected, can you give us the reason. If the application was not made, what is the reason that the need could not have been foreseen at that time

Will you please let us have a detailed estimate showing how you arrive at the amount asked for Very respectfully, HENRY H. CURRAN.

City of New York, President of the Borough of The Bronx, 3d ave. and 177th st., February 17, 1913.

Hon. HENRY H. CURRAN, the Committee on Finance, Board of Aldermen, City of New York:

Dear Sir—I beg to acknowledge receipt of your letter of the 6th inst., addressed to the President of the Borough in regard to his application for a special revenue bond issue of $8,500, the proceeds to be used for the purpose of installing a new and exposed system of plumbing in the interior public bath at 156th st. and Elton ave., and asking to be informed if this sum was applied for in the 1913 budget. In reply you are advised that no application was made in the 1913 budget for this money, for the reason that it being new work it was thought that the same should be paid for by an issue of corporate stock. Under date of November 18, 1912, the President requested the Board of Estimate and Apportionment for an issue of $8,500 corporate stock for this purpose, and on January 23 the Board denied the request, on the ground that the work to be done was in the nature of maintenance and should not be charged to Corporate Stock. I beg to inform you, however, that similar work performed by the Borough of Manhattan was paid for by an issue of corporate stock.

The sum of $7,000, the amount requested for plumbing, is an approximate estimate given by the Edward J. McCabe Company, 1238 Lexington ave., who did similar work in a number of baths in Manhattan.

The sum of $350, the amount requested for preparing the plans and specifications and supervising the work, was estimated by Charles G. Armstrong & Son, Consulting Engineers and Architects, who performed similar work in the Borough of Manhattan.

The sum of $1,200 is required for interior and exterior painting of the bath.

Very truly yours, THOMAS W. WHITTLE, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 523), the annexed request from the Acting Borough President of the Borough of Brooklyn for $4,000 special revenue bonds for highway materials, respectfully

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary. The department has furnished a detailed statement which is hereto attached.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of four thousand dollars ($4,000), the proceeds whereof to be used by the President of the Borough of Brooklyn for the purpose of meeting deficit in account known as "Materials, No. 3034, Highway Materials, Roadways, Viaducts and Streets."

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, February 6, 1913.

Hon. Board of Aldermen, New York City:

Gentlemen—In the preparation of the Budget for 1913 for our Bureau of Highways, one of the Examiners in the Department of Finance inadvertently left out an item of $4,000 for materials for that bureau.

It is very essential that we receive this money, so when the weather conditions will allow, we will be able to commence operations on our highways.

I therefore respectfully request that an appropriation of $4,000, special revenue bonds, be awarded to this office for our account as follows:

"Materials, No. 3034, Highway Materials, Roadways. Viaducts and Streets, $4.000."

Thanking you in advance for your consideration of this matter, I remain,

Yours very truly, L. H. POUNDS, Acting Borough President.

MEMORANDUM FOR FINANCE COMMITTEE OF THE BOARD OF ALDERMEN.

February 17, 1913.

Memorandum for Finance Committee of the Board of Aldermen.

In the Matter of the Request for $4,000 Special Revenue Bonds for the President of the Borough of Brooklyn for Purchasing Highway Materials.

In our budgetary request we asked for 1,500 tons of asphalt, at $20 per ton	$30,000 00
We require these 1,500 tons of asphalt for asphalt repairs to be made by our Municipal Asphalt Plant during 1913. The request was cut by an Examiner in the Finance Department, through an error, to.....	24,750 00
This cut was made after the $30,000 had been approved by the Budget Committee of the Board of Estimate. This cut leaves a deficiency of	$5,250 00

The last contract for asphalt, which was let in December, 1912, was awarded at a price of $19.75 per ton, and it is estimated at this time that the price of the asphalt will be a little lower than this figure, or a little more than $19 per ton. Instead, therefore, of requesting $5,250 in revenue bonds, we are asking for but $4,000 to make up the deficiency for this material.

It is essential that a contract be let at this time for the entire 1,500 tons, in order to take advantage of the price and to avoid the expense of another advertisement. In order, therefore, to meet the urgent need for this money for asphalt, a request is now pending before the Board of Estimate for a transfer of money from another highway material account to the above account, which will enable us to purchase this asphalt immediately.

The request for the revenue bonds is made to reimburse the highway material account from which the before mentioned transfer was made, and it is for that reason that the revenue bonds are requested for highway materials, and not for asphalt.

The Board of Estimate has reduced all the material accounts for this bureau by a considerable extent, and the labor accounts to a much less extent. It is essential, therefore, in order to have sufficient materials to employ the labor force, to obtain more money for the purchasing of materials, and these $4,000 in revenue bonds will help us to purchase these necessary materials.

The resolutions passed with the budget prevent us from transferring moneys from the labor account to the material account, so that if the materials are used up before the labor accounts are exhausted, it will be impossible for us to continue the work.

W. H. SCHNEIDER, Chief Engineer.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Loos, McCann, McCourt, McGarry, Marks, Martyn, Meagher, Molen, Moore, Morrison, Muhlbauer, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, White; President Miller, by Thomas W. The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 532), a request from the Board of Education for $3,700 special revenue bonds to pay Inspectors and Draftsmen employed in 1912, respectfully

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary. It was anticipated that a transfer of funds could be secured to cover this deficit, but such transfer has been refused. These men must be paid for work performed.

The Committee therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three thousand seven hundred dollars ($3,700), the proceeds whereof to be used by the Board of Education for the purpose of paying salaries of Inspectors and Draftsmen employed during 1912.

The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 533), the annexed request from the Commissioner of Docks for $12,000 special revenue bonds for music on recreation piers, respectfully

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The details of the application are fully set forth in the letter of request. A similar amount was granted last year.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twelve thousand dollars ($12,000), the proceeds whereof to be used by the Department of Docks and Ferries for the purpose of providing music on recreation piers.

City of New York, Department of Docks and Ferries, Pier "A," North River, New York, February 3, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—In the Budget for this Department for the year 1913 the sum of $25,000 is provided for music on the recreation piers during the 1913 season. Last year an additional appropriation of $12,000 was granted for the purpose of providing dance music in the afternoon on six of the piers for three days each week. With the appropriation of $25,000 it will be necessary to eliminate the afternoon music, and the best that can be done would be to have music in the evening on but three days each week for the same period as was covered last year. Some funds have been provided for the Public Recreation Commission for children's dancing, but our understanding is that this work will be entirely independent of this Department and at another portion of the year.

Considerable pressure will be brought to bear by the Parks and Playgrounds Association and others, urging, on behalf of the children, that the dance music be repeated on the recreation piers this year as was done last year. During the 1912 season 74,585 children participated in these afternoon folk dances, and, without the additional funds, I am unable to meet the demand.

Pursuant to the provisions of subdivision 8, section 188 of the Charter, I ask that resolution be adopted by your Board requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the sum of $12,000, to provide additional funds for furnishing music on the recreation piers during the 1913 season, in order that the same conditions may prevail this year as were in force during last year.

I might call attention to the fact that during the season of 1910 and 1911 $50,000 was appropriated for this purpose. Yours respectfully,

CALVIN TOMKINS, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 533), the annexed request from the Commissioner of Water Supply, Gas and Electricity for $23,500 special revenue bonds for driven wells, Borough of Queens, respectfully

REPORTS:

That the details of this application are fully set forth in the letter of request and the map hereto attached. It is calculated that such wells will supply sufficient water for five years, by which time the Catskill water will be available. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-three thousand five hundred dollars ($23,500), the proceeds whereof to be used by the Department of Water Supply, Gas and Electricity for the purpose of sinking driven wells upon a strip of land in the Borough of Queens, now held under lease for a period of five years from the Long Island Railroad Company, adjoining the Flushing Pumping Stations.

All obligations contracted for hereunder to be incurred on or before December 31, 1913.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, February 6, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall:

Dear Sir—Pursuant to the directions of the Board of Estimate and Apportionment this department, some months ago, prepared a schedule of amounts required to permit of the construction of certain works necessary for the improvement of the water supply system. These amounts were subdivided so as to show the estimated yearly expenditure.

Among the items included in this schedule was one of $23,500, this amount being the estimated cost of developing an additional water supply from driven wells in the Borough of Queens. The department plans provided for the sinking of these wells upon lands now held under lease for a period of five years from the Long Island Railroad Co. The property adjoins the Flushing pumping stations.

After due consideration by the Corporate Stock Budget Committee the Comptroller, acting as chairman of the said committee, submitted a report to the Board of Estimate and Apportionment, advising that in his opinion the use of corporate stock money for amounts on leasehold property was irregular, and suggested that such funds as the department desired for this purpose should be obtained by an issue of special revenue bonds. In the department's application for the lease of this land from the railroad company it was fully set forth that the purpose for which this land was to be used was to secure an additional supply of water, which the department had learned from test was available, and which could be easily secured from driven wells operated from the Flushing stations. The estimated cost of sinking the wells and the purchase of the necessary equipment and pumping facilities is $23,500.

The supply of water which these wells, to be located upon the railroad property, will yield will permit of the extension of the department's distribution system to locations where the department has been unable to serve, owing to lack of water. The additional supply will also considerably increase the pressure where it is now inadequate for proper fire protection.

I would, therefore, respectfully request that this communication be submitted at the next meeting of the Board of Aldermen, and that you also urge early consideration of same. The department has completed its plans and specifications and is ready to advertise this work and award the contract immediately upon the funds becoming available. Yours truly, HENRY S. THOMPSON, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

No. 194—(Int. No. 2882).

The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 534), the annexed request from the Commissioner of Water Supply, Gas and Electricity for $2,050 special revenue bonds to meet deficits in salaries of certain employees in said department, respectfully

REPORTS:

That Deputy Commissioner Bennett appeared before the Committee and stated

that these salaries were omitted from the Budget notwithstanding that all of these men have been employed at least one year, and some of them for ten years. A partial provision can be made for them by reason of existing vacancies, but this amount is needed to complete the sum required. The Committee believes this omission to have been an inadvertence and recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand and fifty dollars ($2,050), the proceeds whereof to be used by the Department of Water Supply, Gas and Electricity for the purpose of paying salaries of certain employees in said department omitted from the Budget for the year 1913.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, February 11, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I respectfully ask that the Board of Aldermen request the Board of Estimate and Apportionment to authorize the issue of $2,050 of revenue bonds in order that certain employees of this department may be paid from the 1st of January.

In the Water Registers' Bureaus the following deficiencies in appropriation exist: 1 Clerk, at $1,350; 1 Clerk, at $1,050; 3 Inspectors at $1,350; 1 Inspector, at $1,200; 1 Clerk, at $300, for whom a total of $1,600 is necessary, as a part of their salaries can be obtained from existing vacancies in that schedule.

In the appropriation for Commissioner's and Deputies' offices there is necessary $450 to provide for a Clerk at $1,350 and one at $1,200, the balance of whose salaries can be taken from two vacancies now existing at $1,050 each. Yours truly,

HENRY S. THOMPSON, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Loos, McCann, McCourt, McGarry, Marks, Martyn, Meagher, Molen, Moore, Morrison, Muhlbauer, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, White; President Miller, by Thomas W. Whittle, Commissioner of Public Works, and the Vice-Chairman—63.

The Committee on Public Letting, to which was referred on January 6, 1913 (Minutes, page 31), a request from the Trustees of Bellevue and Allied Hospitals for authority to purchase fresh fruits and vegetables during 1913, at a cost not to exceed $11,200, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary, in order that proper care may be exercised in the selection of these supplies. This permission is an annual one and has been found to work excellently in the past. The Committee believes this method to be to the best interest of the City and therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Trustees of Bellevue and Allied Hospitals be and they are hereby authorized and empowered to purchase, without public letting, the fresh fruits and vegetables required during the year 1913 for the employees in the various hospitals of the department, at a cost not to exceed eleven thousand two hundred dollars ($11,200).

The Committee on Public Letting, to which was referred on January 6, 1913 (Minutes, page 33), the annexed resolution in favor of authorizing the President of the Borough of Queens to purchase an automobile, without public letting, at a cost not to exceed $1,650, respectfully

REPORTS:

That it is customary for departments to seek permission to purchase automobiles without public letting on the plea that proper specifications cannot be drawn which will enable all classes of automobiles to enter the competition, and that the drawing of specifications would result in confining the bidding to one make of car. The permission to buy in the open market, it is claimed, saves the cost of advertising and preparation of specifications. On the other hand, the Committee is informed that the Police Department has been successful in making such purchases by public letting. In this case the element of time enters, however, and for that reason the Committee recommends the adoption of the accompanying resolution.

Resolved, That the Board of Aldermen, deeming it for the public interest so to do, pursuant to the provisions of section 419 of the Greater New York Charter, hereby authorizes the President of the Borough of Queens to purchase in open market, without public letting, an automobile and parts thereof at an aggregate cost not exceeding sixteen hundred and fifty ($1,650.00) dollars.

The Committee on Public Letting, to which was referred on January 28, 1913 (Minutes, page 308), the annexed request from the Department of Water Supply, Gas and Electricity for permission to contract, without public letting, with Columbia University, for testing of electrical appliances, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary, so that a disinterested test may be made which shall be satisfactory to all parties concerned. This work has been done heretofore at Columbia University under similar permission.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized and empowered to enter into contract with Columbia University for testing electric meters, at an expenditure of fifteen hundred dollars ($1,500), without advertising for competitive bids or proposals, in accordance with the provisions of section 419 of the Greater New York Charter.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, January 22, 1913.

Hon. JOHN PURROY MITCHEL, President, the Board of Aldermen, City of New York:

Sir—This Department for several years past has had a contract with Columbia University, by which the Department can obtain the services of the University Laboratory in testing electric meters for private consumers, in order to check the charges of the companies and also for testing electrical appliances submitted for use in electrical installations throughout The City of New York; further, for testing lighting in this City.

This contract enables the Department to obtain the services of an impartial referee with only academic affiliations, in matters which are apt to cause dispute and possible contention between the manufacturing and contracting interests and this Department.

Advertising for bids in this case would not prove beneficial to the City. I would therefore apply for permission to let this contract without public letting. This has been the procedure for several years past and the Board of Aldermen has acceded to our request in each instance.

The amount of the fee we pay the University is $1,500. A copy of the proposed form of contract is forwarded with this letter. Very respectfully,

HENRY S. THOMPSON, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Loos, McCann, McCourt, McGarry, Marks, Martyn, Meagher, Molen, Moore, Morrison, Muhlbauer, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, White and the Vice-Chairman—62.

No. 198—(Int. No. 2578).

The Committee on Public Letting, to which was referred on January 14, 1913 (Minutes, page 117), the annexed resolution in favor of authorizing the Commissioner of Water Supply, Gas and Electricity to repair engines, boilers, etc., without public letting, at a cost not to exceed $30,000, respectfully

REPORTS:

That the reasons for this application are set forth in the letter of request. This permission is one which is granted annually, and has always worked for the best interests of the City.

The Committee recommends that the said resolution be adopted.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby empowered to expend a sum of money not to exceed thirty thousand dollars ($30,000) during the year 1913, for the repair of engines, boilers, and appurtenances, the money to be apportioned as follows:

Manhattan and The Bronx	$10,000 00
Brooklyn	15,000 00
Queens	2,000 00
Richmond	3,000 00

JOHN DIEMER, ROBERT F. DOWNING, JESSE D. MOORE, ABRAM W. HERBST, F. H. WILMOT, FRANK J. DOTZLER, JOHN F. WALSH, Committee on Public Letting.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, January 8, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—For the coming year it is anticipated that the expense of replacing damaged parts of the pumping machinery and keeping same in proper repair will be $30,000. Each previous year the department had obtained the authority and consent of the Board of Aldermen to purchase such repair parts as are required, and to also incur such other expense as may be necessary to repair the engines, boilers and other appurtenances in the pumping stations without the formality of advertising for competitive bids for this labor and material.

As stated in previous letters, the department does not know when an accident may occur to the pumping engines or what parts may be damaged. It is imperative, therefore, that the department be in such a position that the engines may be repaired and put in proper working condition with the least possible delay. In the high elevations of the Boroughs of Manhattan and The Bronx, and entirely throughout the other Boroughs, all the water is pumped, so that interruption in the supply, which would naturally follow any serious break in the pumping machinery, would result in great inconvenience to the people. There would also be great danger should a large fire occur.

I would, therefore, respectfully ask that the Board of Aldermen authorize the expenditure by this department during the year 1913 of the sum of $30,000, without public letting, to be apportioned among the Boroughs as follows:

Manhattan and The Bronx	$10,000 00
Brooklyn	15,000 00
Queens	2,000 00
Richmond	3,000 00

Hereto I attach a draft of resolution, which I would ask you to kindly submit at the next meeting of the Board of Aldermen. Yours truly,

HENRY S. THOMPSON, Commissioner.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution:

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Bolles, Boschen, Bosse, Carberry, Cummuskey, Cunningham, Curran, Delaney, Devine, Diemer, Dixson, Dotzler, Dowling, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gaynor, Gelbke, Gilmore, Grimm, Hannon, Herbst, Igstaedter, Kenneally, Kenney, Levine, Loos, McCann, McCourt, McGarry, Marks, Martyn, Meagher, Molen, Moore, Morrison, Muhlbauer, Nugent, O'Connor, O'Neil, O'Rourke, Pendry, Post, Pouker, Schmidt, Shipley, Smith, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, White and the Vice-Chairman—62.

The Committee on Public Letting, to which was referred on February 11, 1913 (Minutes, page), the annexed request from the Commissioner of Public Charities for permission to purchase botanical and agricultural supplies, without public letting, to an amount not to exceed $6,500, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be advisable. The Department of Parks has found from an experience of years that the best results are obtained by making such purchases in the open market.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is authorized and empowered to purchase in the open market without public letting, trees, shrubbery and privet, for which appropriations have been granted to the department, not to exceed the following amounts:

No. 1015	Botanical and agricultural supplies, Borough of Manhattan	$2,500 00
No. 1016	Botanical and agricultural supplies, Borough of Brooklyn	2,000 00
No. 1017	Botanical and agricultural supplies, Borough of Richmond	2,000 00

GENERAL ORDERS.

No. 369—Int. No. 2870.

The Committee on Finance, to which was referred on February 11, 1913 (Minutes, page 527), the annexed communications from the Board of Estimate and Apportionment and Secretary to the Borough President of Manhattan in relation to site for court house at 2d st. and 2d ave., respectfully

REPORTS:

That these communications are self explanatory. The original boundaries were furnished this Board by the Office of the Borough President.

The Committee recommends that the accompanying ordinance be adopted.

AN ORDINANCE selecting a site for court house purposes in the Borough of Manhattan.

Be it Ordained, by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby selects as a site for a court house the property beginning at a point distant 107.50 feet from the northeasterly corner of 1st st. and 2d ave., as measured along the easterly line of 2d ave.; thence continuing northerly along the easterly line of 2d ave., distance 104.50 feet, which point is the intersection of the easterly building line of 2d ave. with the southerly building line of 2d st.; thence easterly along the southerly line of 2d st., distance 100 feet; thence southerly and parallel with the last course but one, distance 104.50 feet; thence westerly and parallel to the last course but one, distance 100 feet to the point or place of beginning.

All this land is known as Lots Nos. 5, 6, 7 and 8 in Block No. 443, section No. 2 of the land map of the Borough of Manhattan, and be the dimensions more or less.

Sec. 2. The Corporation Counsel is hereby authorized and directed to institute condemnation proceedings for the acquisition of said property.

Sec. 3. This ordinance, however, shall not preclude the acquisition of the above described property by purchase from the owner, or the respective owners thereof, at a price authorized by the Board of Estimate and Apportionment.

Sec. 4. This ordinance shall take effect immediately.

HENRY H. CURRAN, ROBERT F. DOWNING, JOHN DIEMER, FRANCIS P. KENNEY, JAMES HAMILTON, FRANK J. DOTZLER, C. AUGUSTUS POST, HENRY F. GRIMM, Committee on Finance.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, January 17, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—Under date of November 12, 1912, your Honorable Board adopted an ordinance selecting a site for a court house in the Borough of Manhattan in the following form:

"AN ORDINANCE selecting a site for Court House purposes in the Borough of Manhattan.

"Be it Ordained by the Board of Aldermen of The City of New York, as follows:

"Section 1. The Board of Aldermen hereby selects as a site for a Court House the property located at the southeast corner of 2d ave. and 2d st., in the Borough of Manhattan, being one hundred and three and one-half (103½) feet on 2d ave. and one hundred (100) feet on 2d st.

"Sec. 2. The Corporation Counsel is hereby authorized and directed to institute condemnation proceedings for the acquisition of said property.

"Sec. 3. This ordinance, however, shall not preclude the acquisition of the above-described property by purchase from the owner, or the respective owners thereof, at a price authorized by the Board of Estimate and Apportionment.

"Sec. 4. This ordinance shall take effect immediately."

This ordinance became operative under the provisions of section 40 of the Greater New York Charter.

A survey of the site sought to be acquired (made for the President of the Borough of Manhattan) shows a slight discrepancy on the westerly boundary thereof as recited in the above ordinance. It would seem, therefore, that the same should be amended or a new ordinance adopted, containing a proper description of the site.

I enclose herewith copy of a communication addressed to the Board of Estimate and Apportionment by the Secretary of the Borough of Manhattan, in which the description of said site, based upon the survey, is set forth. Very truly yours,

JOSEPH HAAG, Secretary.

P. S.—The original of this letter was sent to the office of the City Clerk of the Board of Aldermen on January 17, 1913.

City of New York, Office of the President of the Borough of Manhattan, City Hall, January 14, 1913.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, New York City:

Dear Sir—Enclosed I beg to hand you survey of the court house site at 2d st. and 2d ave., the technical description of which is as follows:

Beginning at a point distant 107.50 feet from the northeasterly corner of 1st st. and 2d ave., as measured along the easterly line of 2d ave., thence continuing northerly along the easterly line of 2d ave., distance 104.50 feet, which point is the intersection of the easterly building line of 2d ave. with the southerly building line of 2d st.; thence easterly along the southerly line of 2d st., distance 100 feet; thence southerly and parallel with the last course but one, distance 104.50 feet; thence westerly and parallel to the last course but one, distance 100 feet to the point or place of beginning.

All this land is known as Lots Nos. 5, 6, 7 and 8 in Block No. 443, section No. 2 of the land map of the Borough of Manhattan, and be the dimensions more or less.

Will you please have appear on this week's calendar an amendment to the resolution passed some weeks ago asking the Corporation Counsel to initiate condemnation proceedings Very truly yours,

(Sgd) LEO ARNSTEIN, Secretary of the Borough of Manhattan.

City of New York, Office of the President of the Borough of Manhattan, City Hall, February 15, 1913.

Honorable HENRY H. CURRAN, Chairman, Finance Committee, Board of Aldermen, New York City:

Dear Sir—A notice has been received at this office asking that an appearance be made at a meeting of the Committee on Finance, in reference to No. 2870, correcting ordinance selecting a site for court house at 2d st. and 2d ave.

It so happens that I have another engagement on City business at two o'clock on that day, and I will, therefore, not be able to appear before the Committee.

Dr. Patterson, who is also acquainted with the facts in this matter, is opening bids in the Council Chamber at two o'clock, and if any information is needed he could probably be reached; but I do not think that you will require any information other than a statement of the fact that this ordinance is merely a correction of one adopted by you some weeks ago locating the court house at 2d ave. and 2d st. At that time the description of the property was taken from the map, and upon survey proved to be several inches out of the way. As this will be a condemnation proceeding, it was deemed wise to correct the description, and the ordinance now submitted to you is for this purpose. Very truly yours,

LEO ARNSTEIN, Secretary of the Borough of Manhattan.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Becker, Bedell, Boschen, Bosse, Brush, Carberry, Cole, Cummuskey, Cunningham, Curran, Delaney, Devine, Dowling, Downing, Drescher, Eagan, Eichhorn, Fink, Gaynor, Gelbke, Grimm, Igstaedter, Kenney, Lieberman, Loos, McCann, McCourt, Marks, Martyn, Morrison, Mulligan, Nugent, O'Neil, O'Rourke, Pendry, Post, Pouker, Reardon, Schmidt, Shipley, Stevenson, Walsh, Weil, Wendel, Weston, Wilmot; President Miller, by Thomas W. The Committee recommends that the accompanying resolution be adopted.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment, held this day, the following resolutions were adopted:

Whereas, The Brooklyn and North River Railroad Company has under date of January 8, 1912, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a double-track street surface railway upon and along Flatbush avenue extension, from Fulton street to Nassau street, Borough of Brooklyn, and upon and over the Manhattan Bridge and its approaches to and connecting with existing tracks in Canal street, Borough of Manhattan; and

Whereas, Section 172 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 11, 1912, fixing the date for a public hearing thereon as May 9, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in "The Times" and "New York Press," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to The Brooklyn and North River Railroad Company, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by The Brooklyn and North River Railroad Company, containing the form of the proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to The Brooklyn and North River Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This Contract, made this day of 19 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Brooklyn and North River Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and the Coney Island and Brooklyn Railroad Company did, on December 15, 1911, enter into a so-called participating agreement, as follows:

The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and Coney Island and Brooklyn Railroad Company (called participating companies) agree to unite in organizing New Company for purpose of constructing and operating a line running generally from North River via Canal street, Manhattan Bridge and Flatbush Avenue Extension to Fulton street—called Local Railroad—and between termini of Bridge, called Bridge Line.

Capital to be sufficient for construction and equipment of line and to be subscribed for in following proportions by participating companies:

Brooklyn Heights R. R. Co. and Nassau Electric R. R. Co., 25 per cent.

Metropolitan Street Railway Co., 25 per cent.

Third Avenue R. R. Co. and Dry Dock, East Broadway and Battery Railroad Company, 25 per cent.

Coney Island and Brooklyn Railroad Co., 25 per cent.

Fare to be five cents for one continuous ride, except that fare on Bridge Line only will be three cents, with two tickets for five cents.

For fare of five cents on Local Railroad each passenger to be entitled to one transfer to intersecting lines of participating companies, and intersecting lines of participating companies to issue transfers to Local Railroad on payment of five-cent fare. No transfers to be issued upon transfers by Local Railroad, and none by participating companies.

Inasmuch as the principal portion of the business of the Local Railroad is likely to be traffic represented by transfers issued or received on said Local Railroad, and issued or received by said participating companies, in addition to the traffic now carried by said participating companies exclusively, but likely to be diverted to said Local Railroad, and any satisfactory division of receipts from such traffic and of the expense of hauling such traffic is impossible of determination in advance between the New Company and each of the participating companies, therefore, in order to procure the co-operation of all of said participating companies the following arrangement is agreed upon, to wit:

Each participating company shall retain the fares collected upon its lines and represented by transfers to the Local Railroad, and shall have the right to redeem the transfers received by it from the Local Railroad at the minimum rate of 1⅔ cents per transfer thus redeemed.

If, however, at the end of any year's operation any of the participating companies should not be satisfied that the aforesaid minimum rate for the redemption of transfers received by it from the Local Railroad is sufficient, then the New Company shall increase the redemptive value of such transfers to a rate that may be equitable, but not to exceed two cents for transfers thus redeemed, and provided said increased rate thus established shall leave remaining a profit of at least ten (10) per cent. on the stock of the New Company from the operations of its railroad, and in the event that there should be any difference between any such participating company and the New Company as to the rate at which such transfers received from the Local Railroad by the participating companies should be redeemed, such difference shall, at the option of either party, be determined by arbitration in the usual manner, but such arbitration shall not fix the aforesaid redemptive rates at less than 1⅔ cents nor more than two cents per transfer.

Edward A. Maher, General Manager for the Receiver, Third Avenue Railroad Co.; S. W. Huff, President, Coney Island and Brooklyn Railroad Company; T. S. Williams, President, The Brooklyn Heights Railroad Company; C. D. Meneely, Vice-President, The Nassau Electric Railroad Company; Adrian H. Joline, Douglas Robinson, as Receivers Metropolitan Street Railway Company; Edward A. Maher, General Manager for Receiver, Dry Dock, East Broadway and Battery Railroad Company.

December 15, 1911.

Whereas, The New Company provided for in said agreement has been organized by a certificate of incorporation filed in the Office of the Secretary of State on December 30, 1911, under the name of the Brooklyn and North River Railroad Company;

Now, therefore, in consideration of the making of such participating agreement by the said companies, and of the terms thereof, particularly those which relate to the through operation of cars by the New Company from North River, Borough of Manhattan, to Fulton street, Borough of Brooklyn, and the issue and receipt of transfers for a single fare of five (5) cents, and for the purpose of enabling such through operation, issue and receipt of transfers, and in further consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the following rights and privileges:

First—To construct, maintain and operate a double track street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers and property in the Boroughs of Manhattan and Brooklyn, in the City of New York, upon the following route, to wit:

Beginning at a point in Flatbush Avenue Extension at its intersection with Fulton street; thence in and upon Flatbush Avenue Extension to its intersection with Nassau street; thence in, upon and across Nassau street to the northerly side thereof, to a point where connection can conveniently be made with the tracks upon the Manhattan Bridge to be used by the Company, all in the Borough of Brooklyn.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route. Provided, however, that nothing in this contract shall be construed as permitting the construction or existence of more than a double track street surface railway in any portion of the route above specified.

The said route, with turnouts, switches and crossovers, hereby authorized, is shown upon a map entitled:

"The Brooklyn and North River R. R. Co. Map showing proposed railways of the Brooklyn and North River R. R. Co., in the Boroughs of Brooklyn, Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated January 3, 1912,"

—and approved by Edward A. Maher, President, and Henry J. Kolb, Civil Engineer; a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the other provisions of this contract, may be permitted by resolution of the Board.

Second—To operate the cars of the Company on two tracks when constructed upon the Manhattan Bridge and approaches thereto; such tracks to be assigned to the Company by the Commissioner of Bridges, beginning at a point on the northerly side of Nassau street, where connection can conveniently be made with above tracks in Nassau street; thence upon and along land acquired for the Manhattan Bridge terminal in the Borough of Brooklyn, to the approach to the Manhattan Bridge; thence upon and along said approach to the Manhattan Bridge; thence upon and along the Manhattan Bridge to the approach thereto in the Borough of Manhattan; thence upon said approach to land acquired for the Manhattan Bridge terminal in the Borough of Manhattan; thence upon and along said land to Canal street, and there connecting with the existing tracks or tracks to be substituted therefor in Canal street.

The said route is more particularly shown on the map hereinbefore referred to.

The routes described in paragraphs first and second of this section are to be operated by the Company as a part of a continuous route running from the intersection of Flatbush avenue and Fulton street, in the Borough of Brooklyn, along the Flatbush avenue extension to and across the Manhattan Bridge and its approaches to Canal street, in the Borough of Manhattan, and by means of trackage agreements with other companies along Canal street and other streets to the Desbrosses Street Ferry at the North River.

The said continuous route is shown by red and blue lines on the map hereinbefore referred to.

Third—To operate a local service between the termini of the Manhattan Bridge upon the two tracks referred to in Section 1, Second.

Sec. 2. The grant of the right or privilege to construct, maintain and operate said railway in and upon Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street, is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six (6) months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within said six (6) months, or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—Nothing in this consent shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right or privilege upon the same or other terms and conditions in and upon said Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street,

and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a franchise therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company upon said Flatbush Avenue Extension.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company, upon said Flatbush Avenue Extension, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted, and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon said Flatbush Avenue Extension, or any portion thereof, over which such corporation or individual may receive a right or privilege, and to use therefor the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company and shall have the right to continue such operation until this contract, or the right to use such property under the terms of this contract granted said corporation or individual by the City, shall expire. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums as shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One fit and impartial person shall be chosen by the Company; one fit and impartial person shall be chosen by such corporation or individual, and the two so chosen shall choose a third fit and impartial person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators, as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator, as herein provided, or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Supreme Court upon the application of either party.

Third—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Fourth—The Company shall commence construction of the railway herein authorized within six (6) months from the date upon which the consents of the property owners are filed with the Board, or from the date of the order of the Appellate Division of the Supreme Court, made pursuant to section 174 of the Railroad Law, confirming the determination of the commissioners appointed thereunder that such railway ought to be constructed, and shall complete the construction and place the same in full operation within twelve (12) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court, or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Fifth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued, such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Sixth—The portion of said railway in the Borough of Manhattan and upon the Manhattan Bridge and its terminals shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan; or by electric storage battery power; provided that any other power may be used, except locomotive steam power, horse power or overhead electric power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York. The portion of said railway in the Borough of Brooklyn, except upon the Manhattan Bridge and its terminals, may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of Brooklyn; or by electric storage battery power; provided that any other power may be used, except locomotive steam power or horse power, which may be lawfully used, approved by the Board and consented to by the abutting property owners in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Seventh—No wires for the transmission of power, except trolley wires, shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two (2) conduits not less than three (3) inches in diameter each, for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Eighth—The Company shall at all times keep the streets and avenues upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Ninth—As long as said railway, or any portion thereof, remains in any street or avenue, the Company shall pave and keep in permanent repair that portion of the surface of the street or avenue in which the said railway is constructed, between its tracks, the rails of its tracks, and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to make pavement or repairs after the expiration of thirty (30) days' notice to do so from the President of the Borough of Brooklyn, said President may make the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Tenth—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues, the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Sec. 3. The grant of the right or privilege to operate cars upon two (2) tracks of the Manhattan Bridge and the approaches thereto, upon the route hereinbefore described, and to use other equipment owned by the City upon said bridge is subject to the following conditions, which shall be complied with by the Company:

First—The Company shall use only such tracks and terminal facilities as shall be assigned to the Company by the Commissioner of Bridges, and nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, or to affect the right of the Commissioner of Bridges to assign the same or other tracks and terminal facilities to such individual or other corporation.

Such tracks, terminal facilities and all electrical equipment necessary for the operation of cars thereon shall be originally installed at the expense of the City, and shall remain the property of the City, but the Company shall pay the cost of keeping and maintaining such tracks and electrical equipment in good order and repair, and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars, and the Company shall renew any or all tracks and electrical equipment used by it upon the bridge and its terminals when directed by the Commissioner of Bridges, and in such manner as may be prescribed by him. If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars; such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, sidings or platforms on the bridge, in order to facilitate operation of cars by the Company, said Company shall do all the work and furnish all the labor, material and tools necessary for effecting such changes, which shall all be made under the control and direction of the Commissioner of Bridges, and no such changes or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

If, however, the tracks, terminal facilities and appliances herein mentioned are used by any other individual or corporation, then the Company shall bear only such proportion of the cost or work required by the terms and conditions of this subdivision as the use of such track, terminal facilities and appliances by the Company bears to the entire use of such tracks, terminal facilities and appliances.

Second—Before beginning the operation of the cars, the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate, and a sketch showing clearance dimensions, weight on axles and wheel spacing, or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company, and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges, or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution therefor of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement and headway thereof, the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platform and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and, upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Third—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make any alterations or changes in the construction, operation or management of the bridge, or to affect in any way the control of said Commissioner over such bridge as provided by the Charter of the City.

Sec. 4. The grant of the said rights and privileges to construct, maintain and operate a street surface railway in and upon Flatbush Avenue Extension from Fulton street to the northerly side of Nassau street upon the route hereinbefore described, and upon the Manhattan Bridge and approaches thereto upon the route hereinbefore described, are both subject to the following conditions, which shall be complied with by the Company:

First—The said rights and privileges shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of fifteen (15) years upon a fair revaluation of the right and privilege to operate over such continuous route and for the right to use the tracks owned by the City upon the Manhattan Bridge and the approaches thereto, and the terminal loop or other terminal facilities which are the property of the City and used by the Company.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding fifteen (15) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of fifteen thousand dollars ($15,000) in cash within three (3) months after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five (5) years, an annual sum which shall in no case be less than four thousand dollars ($4,000), but which shall be equal to three (3) per cent. of its gross receipts if such percentage shall exceed the sum of four thousand dollars ($4,000).

During the remaining term of five (5) years, an annual sum which shall in no case be less than seven thousand dollars ($7,000), but which shall be equal to five (5) per cent. of its gross receipts if such percentage shall exceed the sum of seven thousand dollars ($7,000).

The gross annual receipts mentioned above shall be the gross receipts from all sources within the limits of the City, less the sum or sums paid for the redemption of transfers issued, pursuant to this contract, by the Company to the intersecting or contiguous lines of the companies which are parties to the participating agreement dated and executed December 15, 1911, hereinbefore referred to, viz.:

The Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company, the Metropolitan Street Railway Company, the Third Avenue Railroad Company, the Dry Dock, East Broadway and Battery Railroad Company and Coney Island and Brooklyn Railroad Company, or the successor companies of either or any of them.

The rate for such redemption shall not in any case exceed two (2) cents for each transfer so issued and redeemed.

(c) For the use of the tracks owned by the City upon the Manhattan Bridge and the approaches thereto, the sum of five cents for each round trip, or the sum of two and one-half cents for each single trip of each and every car operated upon the bridge.

The number of cars shall be certified by the Commissioner of Bridges to the Comptroller once each month, in such form as shall be designated by the Comptroller.

(d) The Company shall pay to the City four (4) per cent. per annum upon the cost of any terminal loops or other terminal facilities which are the property of the City and used by the Company; provided, however, that if such terminal facilities are used by any other company or companies, then the Company shall pay only such portion of four (4) per cent. per annum as shall be proportionate to the use of such facilities by the Company. The Commissioner of Bridges shall determine such amounts due the City and certify the same to the Comptroller.

The annual charges shall commence on November 13, 1912.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said agreement, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Sixth—The rate of fare for any passenger upon the railway hereby authorized shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control to any other point thereof or any connecting branch thereof within the limits of the City.

The rate of fare upon the Manhattan Bridge between the termini thereof shall in no case exceed three (3) cents for each single fare. The Company shall, however, at all times sell and have for sale tickets at the rate of two tickets for five (5) cents, each of which shall entitle a passenger to transportation across the said bridge between the termini thereof.

It being the intention and of the essence of this contract:

1. That the railway hereby authorized shall be operated by the Company as part of a continuous line from Fulton street, Brooklyn, to Desbrosses Street Ferry, Manhattan, under the franchise, rights and privileges herein granted and on the route herein specified, and from the termination of the route herein specified at the terminal of the Manhattan Bridge, in the Borough of Manhattan, to Desbrosses Street Ferry, in said Borough, by way of Canal street and other necessary streets, under trackage agreements with such of the companies named in the participating agreement hereinbefore referred to, or the successor companies of either or any of them, as hold valid franchises to operate on said Canal street and such other necessary streets.

2. That transfers shall be exchanged for a single fare between the through or continuous line of railway to be operated as above, and the intersecting lines in the Borough of Manhattan, and intersecting or contiguous lines in the Borough of Brooklyn, of such participating companies and the successor companies of either or any of them.

—it is further provided that the rate of fare for any passenger from any point on such

through or continuous line operated by the Company to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Manhattan which intersects such through or continuous line, and to any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of said through or continuous line, and from any point on any line of any of the participating companies and the successor companies of either or any of them operating in the Borough of Manhattan, which intersects such through or continuous line operated by the Company, and from any point on any line of any of the participating companies and the successor companies of either or any of them in the Borough of Brooklyn, which intersects or is operated on a route or routes within five hundred feet of the Brooklyn terminus of the said through or continuous line operated by the Company to any point on such through or continuous line operated by the Company, shall not exceed five (5) cents, and for this purpose transfers shall be issued and received by the Company and the participating companies and the successor companies of either or any of them upon payment of said single fare of five (5) cents. But neither the Company nor any of the participating companies shall by this contract be required to issue transfers upon transfers or more than one transfer for said single fare of five (5) cents, nor shall the Company be required by this contract to issue transfers upon the payment of said single fare of three cents or to any passenger tendering a ticket, as above provided, for transportation upon the local service between the termini of the Manhattan Bridge.

The Company shall carry free upon the railway hereby authorized during the term of this contract, all members of the Police and Fire Departments of the City when such employees are in full uniform.

Seventh—No cars shall be operated upon the railway hereby authorized other than passenger cars, cars for the transportation of express matter and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway. Provided that no cars for the transportation of express matter shall be operated between the hours of 6 oclock a. m. and 8 oclock p. m. daily, and that the Board may further limit the operation of such cars as public convenience may require.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board and may be fixed by the Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, and no greater sums shall be charged for such services than provided for by it.

Eighth—(a) The Company, within three (3) months after the signing of this contract by the Mayor, shall itself execute and procure the execution by the other companies of trackage agreements for the use of such tracks of the companies named in the participating agreement hereinbefore referred to or the successor companies of either or any of them on Canal street and other streets in the Borough of Manhattan as may be necessary for the through operation of its line between Fulton street, Borough of Brooklyn, and Desbrosses Street Ferry, Borough of Manhattan, and shall within the same time file sworn copies of such agreement with the Board.

(b) The Company shall commence through or continuous operation of the railway from Fulton street, Borough of Brooklyn, to Desbrosses Street Ferry, Borough of Manhattan, within the time fixed by this contract for the completion of construction and commencement of operation of the railway herein authorized, and shall continue such through or continuous operation throughout the entire term of this contract, whether original or renewal.

(c) The Company shall carry passengers on its through or continuous line and issue and receive transfers to and from the lines of the participating companies or the successor companies of either or any of them, for a single fare of five (5) cents, as provided by subdivision sixth of this section.

In the event of the failure of the Company to do or perform any of the acts or requirements contained in this subdivision and designated as a, b and c, respectively, and within the time specified, the franchise, rights and privileges hereby granted shall cease and determine and such *ipso facto* forfeiture shall not be waived, prevented or affected in any way by the inability of the Company to procure the execution by any participating company or the successor companies of either or any of them of the trackage agreements, the invalidity of such agreements when executed, the failure or refusal of any participating company or the successor companies of either or any of them to issue or receive transfers, or by the invalidity of the participating agreement dated and executed December 15, 1911, and hereinbefore referred to.

Ninth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter during the term of this contract be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Tenth—All cars which are operated on said railways shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eleventh—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars ($10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-first—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 5. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 6. This grant is also upon the further and express condition that the provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Section 7. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
