To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Replying to yours of the 29th ult., relative to the salary of E. V. Greene, employed as Custodian in the City Clerk's office, I beg to state that when Mr. Greene was originally appointed his salary was \$2,000 per annum, but had to be reduced for

lack of funds when the Legislative Department of the City was changed from the Municipal Assembly to the Board of Aldermen, hence he is not asking for an increase, but a restoration of salary. The duties of Custodian in the City Clerk's office are as follows: The custody of all papers and records connected with the various Departments of the City, as well as the original ordinances and proceedings of the various Boards of Aldermen, the filing of same and the production of these papers when subpoenaed by any court having jurisdiction in Greater New York.

Respectfully,

(Signed) P. J. SCULLY, City Clerk.

May 29, 1905.

To the Board of Estimate and Apportionment:

Gentlemen—When I appeared before you on May 19 in reference to the increase in the salary of Mr. Lawrence F. Hogan, Statistician, and other matters relating to the Department of Education there seemed to be a question in the minds of some of the members of your body as to whether Mr. Hogan, whose transfer to the Bureau of Buildings, Borough of Manhattan, was requested by the Superintendent of Buildings for said borough, desired to be transferred, or to remain in this Department. Mr. Hogan, as I stated, had informed me of his desire to remain in the Department of Education, provided he was given the same salary here as he would receive if transferred to the Bureau of Buildings, Borough of Manhattan, namely, \$1,800 per annum; he has since repeated his statement to the effect that he preferred to remain here on the condition stated, and attached hereto you will find a letter from Mr. Hogan, addressed to me, stating his desire to remain in the Department of Education if his salary is increased to \$1,800.

I therefore respectfully request that the matter of the increase of Mr. Hogan's salary to \$1,800 per annum, to take effect May 10, 1905, as requested in the report adopted by the Board of Education on May 10, 1905, be again taken up for action by you at your next meeting, in justice to him, and in the best interests of the Department of Education.

Very respectfully yours,

(Signed) HENRY N. TIFFT,
President, Board of Education.

Hon. GEORGE B. McCLELLAN, Chairman of the Board of Estimate and Apportionment:

Sir—Mr. James J. O'Connor was appointed an Office Boy in the office of the Chief Engineer of the Board of Estimate and Apportionment on July 1, 1903, at a salary of \$300 per annum. About one year later he was examined for promotion to the grade of Junior Clerk, and was appointed to that position at a salary of \$480 per annum. During the time that he has been employed in this office he has taken charge of all plans and records, has kept the indices of all reports and papers, and has done such other clerical work as was required. I believe that he is entitled to promotion to the grade of Junior Clerk at \$600 per annum.

I do not believe that this change of \$120 in his salary should be considered other than the natural and logical increase in the value of the service of a young man who has entered the employ of the City as a boy and has attended conscientiously to his business, and I believe that the theory of the Civil Service Law is to make such moderate increases automatic in the case of good conduct and efficient service.

As there is no grade of Junior Clerk at \$600 in the Board of Estimate and Apportionment I respectfully suggest that such a grade be created, and would recommend the adoption of the accompanying resolution.

Respectfully,
(Signed) NELSON P. LEWIS, Chief Engineer.

Whereas, The Board of Estimate and Apportionment at a meeting held June 2, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Junior Clerk in the office of the Board of Estimate and Apportionment be fixed at the rate of six hundred dollars (\$600) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Junior Clerk in the office of the Board of Estimate and Apportionment at the rate of six hundred dollars (\$600) per annum.

Alderman Owens moved the adoption of this resolution.
The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Bennett, Boerner, Boyhan, Brenner, Bridges, Coggey, Collins, Culin, Davies, Diemer, Donohue, Doull, Dowling, Doyle, Gass, Gillies, Goodman, Grifenhagen, Grimm, Haenlein, Haggerty, Harburger, Hann, Higgins, Jones, Keely, Kenney, Kevin, Kline, Malone, Marks, Morris, Owen J. The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, May 23, 1905.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

Dear Sir—Request is hereby respectfully made that the salary of Inspector of Sewer Connections in the Bureau of Sewers, Borough of Brooklyn, be placed at twelve hundred dollars (\$1,200) per annum.

In making this request I desire to call attention of the Board to the salaries paid in the different boroughs of the City for this position.

Borough of The Bronx.....	\$1,350 00
Borough of Manhattan.....	1,200 00
Borough of Queens.....	1,200 00
Borough of Richmond.....	1,000 00
Borough of Brooklyn.....	900 00

The Inspectors employed in said position in this Borough claim that the cost of living is as great here as in the other boroughs, and it is so increasing that it is impossible to make proper provision for those dependent on them and maintain a respectable appearance during working hours.

I see no reason why such a discrimination should exist, and for this reason I have made the above request.

Yours respectfully,
(Signed) MARTIN W. LITTLETON,
President, Borough of Brooklyn.

College of The City of New York, No. 17 Lexington avenue, }
New York, June 1, 1905.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Dear Sirs—The Trustees of the College respectfully request that some provision be made whereby an appropriation of \$12,500 may be available to the College in addition to the appropriation of \$313,362 fixed by your Honorable Board for the year 1905.

The appropriation allowed for the year 1905 exceeded in amount the total appropriation of 1904 by \$1,500, yet the attendance at this date is greater by 631 than on the same date last year. Ten new tutors were engaged in February for the remainder of the college year, that is until June 22, 1905, but they cannot be kept during the next term unless an amount is added sufficient to cover their salaries. The present prospect is that the number of applicants for admission next September will be larger than ever, necessitating, if they are admitted, the employment of still more tutors. Moreover, new instructors of higher rank are needed in three departments, additional books must be provided and the amount of most of the items of current expense must be slightly increased.

There is subjoined a statement showing the apportionment of the appropriation made for this year, and the additional amounts asked for. The total of these amounts is twelve thousand five hundred dollars (\$12,500).

We therefore respectfully petition your Honorable Board in this emergency to grant to the College the additional sum of twelve thousand five hundred dollars (\$12,500) for the year 1905.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

Dear Sir—I would respectfully ask that, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Honorable the Board of Estimate and Apportionment will authorize the issue of Corporate Stock of The City of New York to the amount of three thousand five hundred dollars (\$3,500) for the purpose of installing new boilers in the Jefferson Market Prison. It would be much better to have this work done during the coming summer months, as, even if they could be repaired, the boilers could be made to last for only a short time.

I beg to inclose copy of report made by the Department Inspector regarding this matter, and would respectfully ask the favorable action of your Board.

Very respectfully yours,

Hon. FRANCIS J. LANTRY, Commissioner, Department of Correction:

Dear Sir—After careful inspection, the following report upon the condition of the boiler plant at the Second District Prison is submitted:

Both boilers are in bad shape, and I do not consider that they are worth spending any further money on them for repairs. The ordinary life of boilers of this type is about twenty years, and these, I believe, have been in constant use for thirty years. To install new boilers and connections would cost about \$3,500, and I think it would be a saving to the City. The work can be done during the summer months when not much steam is required. I am of the opinion that when the next boiler inspection is made the maximum pressure will be reduced to such an extent that the boilers will be absolutely useless.

If you desire the work done the specifications can be prepared at once and the entire work completed within ninety days.

Respectfully yours,

(Signed) CHAS. JAMER, Inspector.

May 18, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Francis J. Lantry, Commissioner, Department of Correction, in communication under date of May 11, 1905, requests the Board of Estimate and Apportionment, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to authorize the issue of Corporate Stock to the amount of \$3,500, for the purpose of installing new boilers in the Jefferson Market Prison.

I would report that I have had the boilers at the Second District (Jefferson Market) Prison examined, and the report furnished me agrees with the report of the Inspector of the Department of Correction.

The two boilers that are now in use, I am informed, were installed about twenty-seven (27) years ago; they have been repaired so many times that, in their present condition, in my opinion, it would be more economical to replace them with new boilers than to expend any money on them trying to put them in proper condition, for at the best any repairs made upon these old boilers would only last about a year or so.

The expenditure being necessary I would recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$3,500, for the purpose of installing two (2) new boilers in the Second District (Jefferson Market) Prison.

Respectfully,

(Signed) EUG. E. McLEAN, Engineer.

Sir—Hon. Martin W. Littleton, President of the Borough of Brooklyn, in communication under date of May 23, 1905, requests the Board of Estimate, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to authorize the Comptroller to issue Corporate Stock in the sum of \$60,300, for the work of the Topographical Bureau, Borough of Brooklyn.

Engineer's Estimate.

1. Triangulation work—	
Twenty (20) triangulation towers, at \$600 each.....	\$12,000 00
Inspection and supervision of construction.....	1,500 00
One field party.....	6,000 00
Supervision, office computation, draughting, etc.....	6,000 00
	\$25,500 00

2. Monument work—		
Five hundred granite monuments, at \$4 each.....	\$2,000 00	
Setting and resetting monuments.....	2,500 00	
One field party.....	5,400 00	
Supervision, office computation, draughting, etc.....	4,800 00	
		\$14,700 00
3. Maps for hearings of Local Boards and Board of Estimate and Apportionment.....		
	3,000 00	
4. Street opening work, searches, computation, draughting, etc.....		
	4,800 00	
5. Maps to be placed on file.....		
	4,800 00	
6. General work, requiring 1 Searcher and 2 Draughtsmen.....		
	4,500 00	
7. Contingencies, transportation, supplies, etc.....		
	3,000 00	
Total.....		\$60,300 00

I would report that in a conversation with Mr. George J. Bischof, Assistant Engineer in Charge, relating to the request made by the President, he informs me that the amount asked for, carefully estimated as to total cost of the work he specifies for good results, cannot be reduced. There is no time limit fixed, and his idea is to draw on the fund until it is exhausted. The difficulty in getting men is an important factor.

The work I consider necessary and provision should be made to permit it being started at once. The total estimate for the work as specified does not appear excessive—the nature of the work is such that it is very hard to form a clear estimate. When it can be finished I am unable to state, and the Engineer in charge of the work cannot fix or approximate a time when the work will be completed; but, in my opinion, not more than \$30,000 could be expended before March 1, 1906.

Next year (if no allowance is made this fall in the Annual Budget of Appropriations for 1906) it may be advisable to authorize the issue of an additional amount of stock for this work. Then the force will be established and a closer estimate can be made.

I would therefore suggest that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$30,000 for the work of the Topographical Bureau, Borough of Brooklyn; that is to say, for the making and completing of maps within said borough.

Respectfully,
(Signed) CHANDLER WITHINGTON, Principal Assistant Engineer.

Hon J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:

Dear Sir—I respectfully request, under chapter 409 of the Laws of 1904, the authorization of Corporate Stock in the sum of \$60,300 for the work of the Topographical Bureau, Borough of Brooklyn. In connection therewith I beg to submit a communication from George W. Tillson, Chief Engineer of the Bureau of Highways, attaching recommendation from his Topographical Engineer, Mr. George I. Bischof, setting forth the reasons for this request and the purpose for which the appropriation is to be used.

Mr. J. C. BRACKENRIDGE, Commissioner of Public Works, Borough of Brooklyn:

Dear Sir—I send you herewith copy of a report received by me from Mr. George J. Bischof, Assistant Engineer in Charge, Topographical Bureau, regarding a fund for work in that Bureau.

I think that if possible the appropriation should be made, as the primary triangulation of the City has been completed by the United States Coast and Geodetic Survey, and these towers referred to in Mr. Bischof's letter are needed to complete the secondary triangulation. The general work of that Bureau has been behind for some time for lack of funds, and it would increase the efficiency of that Bureau very much if this appropriation could be had.

Respectfully,
(Signed) GEO. W. TILLSON, Chief Engineer.

Mr. GEO. W. TILLSON, Chief Engineer:

Dear Sir—I respectfully recommend that the Board of Estimate be at once requested to provide funds to the amount of \$60,300 for the work of the Topographical Bureau, Borough of Brooklyn, by the issuance of Corporate Stock, under authority of an amendment to the Charter, known as chapter 409, Laws of 1904. This money could have been used advantageously for some time past, and its need has now become urgent, therefore I respectfully urge that the necessary steps for obtaining the money be taken immediately. It is estimated that these funds will be required as follows:

1. Triangulation Work—		
Twenty (20) triangulation towers, at \$600 each.....	\$12,000 00	
Inspection and supervision of construction.....	1,500 00	
One field party.....	6,000 00	
Supervision, office computation, draughting, etc.....	6,000 00	
		\$25,500 00
2. Monument Work—		
500 granite monuments, at \$4 each.....	\$2,000 00	
Setting and resetting monuments.....	2,500 00	
One field party.....	5,400 00	
Supervision, office computation, draughting, etc.....	4,800 00	
		14,700 00
3. Maps for hearings of Local Boards and Board of Estimate and Apportionment.....		
	3,000 00	
4. Maps to be placed on file.....		
	4,800 00	
5. Street Opening Work—		
Searches, computation, draughting, etc.....	4,800 00	
6. General work, requiring 1 Searcher and 2 Draughtsmen.....		
	4,500 00	
7. Contingencies, transportation, supplies, etc.....		
	3,000 00	
Total.....		\$60,300 00

This appropriation is needed in addition to what we now have, in order that the work of the Topographical Bureau can be handled expeditiously and to the best advantage.

For two successive years, under this amendment of the Charter of the City, the Board of Estimate and Apportionment made appropriations for the Topographical Bureaus of the boroughs of The Bronx, Queens and Richmond. I understand that in this matter these boroughs have thus far received, respectively, \$65,000, \$225,000 and \$185,000, making a total appropriation of \$465,000. Brooklyn so far has received nothing from this fund.

Without going into too much detail, I may truly say that the appropriation for the Borough of Brooklyn is very much needed at the present time. To the work of the Topographical Bureau is added an urgent demand for work in connection with the triangulation of the City, that was arranged for by the Board of Estimate and Apportionment, and which is carried out under the supervision of Engineers of the United States Coast and Geodetic Society. The permanent value of this triangulation work

needs not be further alluded to at this time. For the old City of Brooklyn there are many street lines that are not well determined. Besides, there were a great many changes in the map made both by resolutions and by making improvements on the ground which have obliterated valuable landmarks for lines of streets. Unless means are provided for, these deficiencies will become permanent and the work of destruction will be further continued. The maps of the newer sections of Brooklyn covering what was formerly known as the Kings County Towns, were in many places left in an incomplete condition. This applies to both missing block dimensions and angles, and a great want of precise locations on the ground. When to these is added the fact that the changes and improvements made in Brooklyn before 1898 were under the supervision and control of private surveyors, it becomes apparent that much valuable information which should be in the possession of the City is not a matter of record, and therefore not accessible to the City or to the general public. It is important that the map of the City should be completed and all deficiencies supplied at the earliest possible moment.

Very respectfully,
(Signed) GEO. J. BISCHOF, Assistant Engineer in Charge.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of thirty thousand dollars (\$30,000) to provide means for the work of the Topographical Bureau of the Borough of Brooklyn:

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 2, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. CHARLES V. FURNES, President, Board of Aldermen:

Dear Sir—An injunction having been granted by Judge Lacombe, in the case brought by the Weston Electrical Instrument Company against the City for the use at the Penitentiary, Blackwell's Island, of Keystone electrical measuring instruments, it will be necessary to remove such instruments and to replace them with others which will not infringe on the patents held by the Weston Company.

The Corporation Counsel has succeeded in having the said injunction suspended until June 12, 1905. As it will be impossible to advertise, open bids and have the work of removing and replacing the instruments done in the short time allowed I would therefore respectfully request that your Honorable Board will permit me to enter into a contract with the Walker Electric Company, without public letting, to remove fifteen Keystone electrical measuring instruments at the Penitentiary and to replace them with fifteen of a different make for the sum of fourteen hundred and forty-nine dollars (\$1,449).

As it is of the greatest importance that the electric service at the Penitentiary should not be interrupted I would most respectfully urge upon your Board the necessity for your favorable action in the matter.

Very respectfully yours,
FRANCIS J. LANTY, Commissioner.

In connection herewith Alderman Baldwin offered the following:

Resolved, That, in pursuance of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand four hundred and forty-nine dollars (\$1,449), the proceeds whereof shall be applied by the Commissioner of Correction to remove fifteen Keystone electrical measuring instruments at the Penitentiary, Blackwell's Island, and to replace them with fifteen of a different make, and further, that the Commissioner of Correction be authorized to enter into contract, without public letting, for the replacing of said instruments, the change therefor being made necessary by injunction of the United States Supreme Court.

We would therefore respectfully request that it be passed as soon as possible.

AN ORDINANCE to Acquire Lands as a Site for the New Coney Island Hospital, in the Borough of Brooklyn.

The lands so to be acquired are situated in the Borough of Brooklyn, and are bounded and described as follows:

The Vice-Chairman laid before the Board the following communication from the County Judge of Queens:

No. 2041.

Whereas, Burt J. Humphreys, County Judge, Queens County, and others, have presented a petition praying the issue of Corporate Stock for the purpose of raising

money to copy and preserve dilapidated, torn and mutilated records in the office of the County Clerk of the County of Queens, pursuant to an order of the Supreme Court dated on the 23d day of July, 1904.

Resolved, That the Board of Estimate and Apportionment of The City of New York be and it is hereby requested to authorize the Comptroller of The City of New York to issue Special Revenue Bonds, under the provisions of the Greater New York Charter, in the amount of ten thousand dollars (\$10,000), the proceeds thereof to be appropriated and applied to the recopying and preservation of the records directed to be recopied and preserved by an order of the Supreme Court dated on the 23d day of July, 1904.

To the Board of Aldermen of The City of New York:

The petition of the undersigned residents of the Borough of Queens in the County of Queens, City and State of New York, respectfully shows:

That many of the indices of deeds and mortgages, as well as other records in the office of the County Clerk of the County of Queens, are in a torn and dilapidated condition, and loose in the bindings, and the Supreme Court by an order duly made on the 23d day of June, 1904, pursuant to chapter 518 of the Laws of 1901, amended by chapter 435 of the Laws of 1904, ordered and directed the Clerk of said County to recopy such records and preserve them in new books, a copy of which order is hereto annexed, marked exhibit A.

That the City of New York in pursuance of the requirements of the said order appropriated \$10,000 for the prosecution of the work of recopying the said records and that said appropriation became available on January 1 of the present year.

That the Clerk of Queens County has been prosecuting the work of recopying with commendable diligence and marked efficiency and, as we are informed and believe, the sum of \$10,000 is entirely inadequate to complete the recopying directed to be done by said order and to complete the work will require \$30,000 more at least.

That your petitioners use these records in their daily business and suffer much inconvenience, delay and uncertainty because of the dilapidated condition of these records and hereby petition your Honorable Board to authorize the issue of ten thousand dollars of Corporate Stock of The City of New York, the proceeds thereof to be appropriated to continue the said work of recopying the records directed by said order to be copied and preserved.

And your petitioners will ever pray.

On reading and filing the report of Marquis D. Gould and Frederick C. Which was ordered on file.

The Vice-Chairman laid before the Board the following communications from the Department of Water Supply, Gas and Electricity, transferring resolutions:

No. 2045—(S. O. No. 130).

Department of Water Supply, Gas and Electricity,
Commissioner's Office, Nos. 13 to 21 Park Row,
City of New York, June 12, 1905.

Hon. TIMOTHY P. SULLIVAN, Acting President, Board of Aldermen, City Hall:

Dear Sir—For the immediate organization and assignment to duty of an emergency force to the seven repair stations of this Department, located in the boroughs of Manhattan and The Bronx, application is hereby made for an appropriation of \$46,200. Although every precaution is taken by the Department Engineers in supervising the laying of mains and setting of hydrants, it frequently happens that breaks appear, and past experience has shown that these accidents, in most cases, occur at night or on Sunday, when the men are released from duty, and many hours elapse before they can be assembled and dispatched to the point where the break has occurred.

On the 16th day of January and 30th day of March, 1905, application was made to the Board of Estimate and Apportionment for an appropriation sufficient to pay for the employment of two extra watches, consisting of the following force:

- 1 Assistant Foreman.
- 2 Caulkers.
- 3 Laborers.
- 1 horse and cart.

No action has been taken by the Board of Estimate and Apportionment on these requests.

In my previous applications I called attention to the break in a water main at Eighty-sixth street and Broadway on December 14, 1904, which occurred at 2.45 A. M., and the water continued to flow into the subway, and resulted in the shutting down of all train service. Between the time of the accident and repair about four hours elapsed before the Department men could shut off the water. The serious accident of yesterday, resulting from a break in the 48-inch main at Forty-first street and Park avenue, I think will convince you of the necessity of having on duty, at all hours, a full force of men to meet any emergency that may arise in this respect, and I ask that immediate consideration be given to this application and that your Honorable Board authorize the issue of Special Revenue Bonds, pursuant to chapter 466, section 188 of the Laws of 1901.

Very respectfully,

FRANK J. GOODWIN, Deputy and Acting Commissioner.

Resolved, That, upon the annexed communication, the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty-six thousand two hundred dollars (\$46,200), the proceeds whereof shall be applied to the immediate organization and assignment to duty of an emergency force to the seven repair stations of the Department of Water Supply, Gas and Electricity, in the boroughs of Manhattan and The Bronx.

Which was made a Special Order for 2.30 o'clock P. M.

No. 2046—(S. O. No. 131).

Department of Water Supply, Gas and Electricity,
Commissioner's Office, Nos. 13 to 21 Park Row,
City of New York, June 12, 1905.

Hon. TIMOTHY P. SULLIVAN, Acting President Board of Aldermen:

Dear Sir—The Board of Aldermen is respectfully requested to authorize me to purchase at once coal to the amount of \$5,000, in the open market, without the taking of proposals and the letting of bids in the usual manner, as provided for by the Charter.

This is distinctively a case of emergency. In the published notice in the City Record, calling for bids on June 7, it was stated that bids would be opened at 2 o'clock, whereas the printed contract form stated that bids would be opened until 12 o'clock P. M. Because of this typographical error, a readvertisement was necessary and new bids have been called for, to be filed on June 21.

These new bids cannot be passed upon and a contract let until about July 1. In the meantime, some of the water-pumping plant must be shut down unless your Board authorizes the immediate purchase of about 1,200 tons of coal, amounting to about \$5,000. This emergency purchase will not affect the whole contract, which will be for about 76,000 tons.

Respectfully,

FRANK J. GOODWIN, Deputy and Acting Commissioner.

Resolved, That, in pursuance of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to purchase, without public letting, about 1,200 tons of coal, amounting to about \$5,000, for use in the Borough of Brooklyn.

Which was made a Special Order for 2.30 o'clock P. M.

Subsequently Alderman Dowling called up the Special Order and moved its adoption.

The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected failing to vote in favor thereof.

Affirmative—Aldermen Baldwin, Bennett, Boerner, Boyhan, Bridges, Callahan, Chambers, Coggey, Culkin, Davies, Diemer, Donohue, Dowling, Doyle, Gass, Gillies, Goodman, Griffenhagen, Grimm, Gunther, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, Higgins, Jones, Keely, Kenney, Kevin, Kline, Koch, McCarthy, Malone, Marks, Meyers, Morris, Owen J. Murphy, Owens, Poole, Richter, Robinson, Stapleton, Sturges, Tolk, Twomey, Ware, Wentz, Wirth, President Haffen and the Vice-Chairman—52.

On motion of Alderman Dowling the above vote was reconsidered and the paper returned to the list of Special Orders.

The Vice-Chairman laid before the Board the following communication from the Far Rockaway Fire Department:

No. 2052.

By President Cassidy—

Whereas, The Board of Estimate and Apportionment, at its meeting held January 27, 1905, authorized the issue of Corporate Stock, the proceeds of which are to be applied to the repaving of streets and avenues in The City of New York under certain provisions and conditions; and authorized a part of said proceeds, to wit, the sum of three hundred and fifty thousand dollars, to be apportioned and set apart for repaving streets in the Borough of Queens, under the same provisions and conditions; and

Whereas, The President of the Borough of Queens has requested that fifty thousand dollars of the proceeds of said Corporate Stock be used for the purpose of paying for labor to be employed in remacadamizing or repaving certain old highways, streets, roads, boulevards and avenues, or parts thereof, in borough, which are as follows:

Jackson avenue and Flushing Causeway, from Long Island City line to Flushing creek.

Broadway, from Flushing creek to easterly line of the Borough of Queens.

Lawrence street and College Point Causeway.

Myrtle avenue, from Brooklyn and Jamaica road to Brooklyn city line.

Thomson avenue, from Jackson avenue to Grand street.

Hempstead and Jamaica road, from Fulton street to easterly line of the Borough of Queens.

Whereas, The President of the Borough of Queens is of opinion that if this work is done by men employed by the City directly, and not through a contractor, the result will be a great saving to the City in reducing the cost of said repaving, of remacadamizing, from about ninety cents per square yard to about sixty cents per square yard; and

Whereas, This Board has been advised by letter from the Corporation Counsel, dated May 16, 1905, that the work may legally be done in the manner requested by the President of the Borough, provided the authority so to do is obtained pursuant to section 419 of the Greater New York Charter by a vote of three-fourths of the members elected to the Board of Aldermen; now therefore be it

Resolved, That in case the said resolution by vote of three-fourths of the members elected to the Board of Aldermen be adopted this Board does hereby consent that the said work hereinbefore described be done otherwise than by contract with the lowest bidder let after advertisement, and that men be employed by the President of the Borough of Queens at an expenditure, however, not exceeding \$50,000, all of which work and expenditure to be upon the above-mentioned old highways, streets, roads, boulevards and avenues; and it is further

Resolved, That the following provisions and conditions in the above-mentioned resolutions of this Board adopted at a meeting held January 27, 1905, be waived and not applied in this particular case, which said provisions and conditions are as follows:

Provided, however, that no contract shall be made for repaving any street or avenue unless the Borough President having charge thereof submits to the Comptroller with such contract evidence showing that the original pavement on such street or avenue was laid at the expense of the abutting property owners or by local taxation or by bond issues paid by the locality before consolidation unless the Board of Estimate and Apportionment shall otherwise determine upon presentation to it of the facts and circumstances affecting such street or avenue.

BOARD OF REVISION OF ASSESSMENTS.

A meeting of the Board of Revision of Assessments was held in the Council Chamber, City Hall, on Thursday, June 8, 1905, at 11.05 o'clock A. M.

Present—N. Taylor Phillips, Deputy and Acting Comptroller; George L. Sterling, Assistant and Acting Corporation Counsel.

The reading of the minutes of meetings of May 11 and 25, 1905, was dispensed with.

BOROUGH OF BROOKLYN.

The assessment list for regulating, grading, paving with asphalt pavement, curbing and recurring and laying cement sidewalks in Osborn street, between Sutter and Blake avenues, and objections referred back to the Board of Assessors at meeting of April 27, 1905, for further consideration, and the hearing thereof postponed at meetings of May 11 and 25, 1905, were presented by the Deputy and Acting Comptroller, having been returned by the Board of Assessors, under date of May 4, 1905.

A memorandum was received from the Corporation Counsel dated June 6, 1905, to whom the matter was informally referred by the Board of Revision of Assessments for examination as to certain questions raised by Messrs. Moore, Ashley & Linton, attorneys, in behalf of their client, as to making an award for damages to his property by reason of the alleged change in the grade of the said street.

On motion of the Assistant and Acting Corporation Counsel, the objections filed in said matter were overruled and the assessment list was confirmed, all the members present voting in the affirmative.

BOROUGH OF MANHATTAN.

The assessment list for sewer in Broadway, west side, between Nagle avenue and One Hundred and Eighty-first street, and in One Hundred and Eighty-first street, between Broadway and Fort Washington avenue, and objections, referred back to the Board of Assessors at meeting of March 2, 1904, with instructions to consult with the Corporation Counsel in regard to the questions raised in the several objections, were presented by the Deputy and Acting Comptroller, having been returned by the said Board under date of May 26, 1905, together with communication of the Corporation Counsel in said matter, dated May 19, 1905.

Mr. Tobias, attorney, representing Mr. Joseph A. Flannery, attorney; Messrs. Lexow, MacKellar & Wells, attorneys, and Mr. Eugene L. Bushe, attorney, appeared in opposition to the assessment on the ground that the presence of the railroad in the street necessitated the building of two sewers therein, thus increasing the cost to the property owners, and further that although the railroad is greatly benefited by the sewer it has not been assessed for the expense thereof.

No others appearing in opposition after notice, on motion of the Assistant and Acting Corporation Counsel, the said assessment list was referred back to the Board of Assessors with instructions to reduce the amount of the present assessment by 15 per cent. pro rata, and that the assessment as so reduced be confirmed, all the members present voting in the affirmative.

BOROUGH OF BROOKLYN.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, curbing and paving with asphalt pavement, Pitkin avenue, between Stone avenue and Powell street, with objections and applications for awards for damages by change of grade, of Rachel Weinberg and others, filed by Moore, Ashley & Linton, attorneys, received from the Board of Assessors under date of May 26, 1905.

No one appearing in opposition after notice, on motion of the Deputy and Acting Comptroller, the objections filed in said matter were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

BOROUGH OF THE BRONX.

The assessment list for regulating, grading, setting curbstones, flagging the sidewalks, laying crosswalks, building approaches and placing fences in Denman place (East One Hundred and Sixtieth street), from Cauldwell avenue to Prospect avenue, and objections of Peter P. Decker and others, filed by A. C. Hottenroth, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of May 26, 1905.

Mr. Hottenroth, attorney, appeared by representative and requested that the consideration of the assessment be postponed, which was denied.

On motion of the Assistant and Acting Corporation Counsel, the objections filed were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

The assessment list for regulating, grading, curbing, flagging, laying crosswalks and laying macadam pavement in Oak Tree place, from Lafontaine avenue to Hughes

avenue, and objections of Edwin C. O'Gorman, A. Luebke and others, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors, under date of May 26, 1905.

No one appearing in opposition, after notice, on motion of the Assistant and Acting Corporation Counsel, the objections filed were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

BOROUGH OF BROOKLYN.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading and paving with asphalt pavement St. Paul's place, between Fort Hamilton avenue and Church avenue, setting and resetting curb, laying cement sidewalks, where not already done, and relaying flagging where necessary, and objections filed by Sheehan & Collin, attorneys for the Brooklyn Union Elevated Railroad Company and the Brooklyn Heights Railroad Company, having been received from the Board of Assessors, under date of May 26, 1905.

Messrs. Sheehan & Collin, attorneys, appeared and objected to assessing any portion of the expense of the work upon the property of their clients, for the reason that the lands of the railroad companies are held to a limited public use and can be used for no other than railroad purposes, and consequently cannot be benefited for such purposes by the improvement in question.

On motion of the Assistant and Acting Corporation Counsel, the objections were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

The assessment list for grading and paving with asphalt pavement Caton avenue, from the right of way of the Brighton Beach railroad to St. Paul's place, setting and resetting curb and laying cement sidewalks, where not already done, and objections filed by Sheehan & Collin, attorneys for the Brooklyn Union Elevated Railroad Company and the Brooklyn Heights Railroad Company, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors, under date of May 26, 1905.

Messrs. Sheehan & Collin, attorneys, appeared in opposition to the assessment against the property of their clients, on the ground that it has been included without authority of law and contrary to the terms of the resolutions of the Local Board of the Flatbush District and the Board of Estimate and Apportionment; also that the lands of the companies are held to a limited public use and can be used for no other than railroad purposes and therefore are not benefited by the improvement.

On motion of the Assistant and Acting Corporation Counsel, the objections were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

The assessment list for regulating and paving with asphalt pavement Croke avenue, from Brighton Beach Railroad tracks to Parade place, setting or resetting curb, flagging or relaying and laying cement sidewalks, and objections filed by Sheehan & Collin, attorneys for the Brooklyn Union Elevated Railroad Company and the Brooklyn Heights Railroad Company, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of May 26, 1905.

Messrs. Sheehan & Collin, attorneys, appeared in opposition to the assessment against the property of their clients, on the ground that it has been included without authority of law and contrary to the terms of the resolutions of the Local Board of the Flatbush District and the Board of Estimate and Apportionment; also that the lands of the companies are held to a limited public use and can be used for no other than railroad purposes, and therefore are not benefited by the improvement.

On motion of the Assistant and Acting Corporation Counsel, the objections were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

McCarty & Baldwin, attorneys, was heard in opposition to the amount of the assessment charged against the property of their client, as being largely in excess of the benefit derived by it from the work, and also objected to the charge for interest and the other expenses incident to the work, and to the inadequacy of the award made for damage to the property.

Mr. Guernsey was heard and objected to the limited area of the assessment, as it should extend to the middle of the blocks, and to assessing the amount of the awards for damages upon the property, and also claimed that the railroad property should be assessed for the benefit derived by it.

No others appearing in opposition, on motion of the Assistant and Acting Corporation Counsel the objections filed against the assessment were overruled, and the assessment list was confirmed, all the members present voting in the affirmative.

The Secretary was instructed to communicate with the Department of Docks and Ferries and state that the Commission could not approve the change of title from Diver's Tender and Rigger to Diver's Tender and Boatman, for the reason that it could not authorize the use of dual titles, and to suggest that the titles of the foregoing persons be changed to Diver's Tender, that being the title for

their position now included in the Non-Competitive Class in the Department of Docks and Ferries; to state further that the change of title of Thomas J. Larkin and Edmund K. Stephens from Watchman to Messenger could not be approved; that the other changes of title asked for were approved.

On motion, it was

Resolved, That "General Regulations" of the Civil Service Commission be and they are hereby amended by including therein, after Regulation II., the following:

The Assistant Chief Examiner.

"The duties of the Assistant Chief Examiner shall be to prepare questions in examinations and to rate candidates' papers; to supervise actively and assist in directing the work of the other Examiners; to aid the Chief Examiner in the work of conducting examinations, and to administer the office and perform the duties of the Chief Examiner when he is absent from the office."

Examiner Byrne presented for the consideration of the Commission a plan for the introduction of the new experience paper which is to be filed by candidates in the office of the Commission in place of the experience paper heretofore submitted to candidates upon the day of their examination. The plan was approved by the Commission, and the Secretary was instructed to put same into operation.

A letter was presented from the Commissioner of Public Works, dated April 27, stating that the Laborer whose assignment to perform the duties of a Watchman was complained of by the Civil Service Reform Association had been reassigned to appropriate duties, and that the vacancy in the position of Watchman had been filled by the selection of a person from the eligible list. The Secretary was instructed to notify the Reform Association of the same.

A letter was presented from the Secretary of the Borough of Manhattan, dated April 27, requesting that the reassignment to duty of Archibald C. Henderson and William H. Randall, Inspectors of Regulating, Grading and Paving, be approved as of April 1 and 8, respectively. It appeared that the said Inspectors had been restored to duty on those dates without a certification from the preferred list by the Commission. As their names appeared first and second on said preferred list their assignment on the dates mentioned was approved, and the Secretary was instructed to pass their pay-rolls from that time.

A letter was presented from the Tenement House Commissioner, dated April 28, stating that owing to the insufficiency of his appropriation it would be impossible for him to retain all the employees in his Department for the balance of the year, and asking as to the proper course of procedure, under the Civil Service Law, to reduce the force of employees in his office. In conclusion, the Tenement House Commissioner stated that he had asked the Corporation Counsel for an opinion on the subject. The Secretary stated that he had replied to the letter from the Tenement House Commissioner and advised him that the Civil Service Law required that all veterans be retained in the service in preference to other employees, for the instructions as to the proper method of laying off the other employees in his office, he suggested waiting for the opinion of the Corporation Counsel.

The supplementary pay-roll of the Department of Health, for services rendered during the month of April by John Delson, Laboratory Assistant, appointed temporarily under the provisions of Rule XII., paragraph 3, was ordered returned without approval, for the reason that the sixty days' employment allowed by the said rule expired on April 9. The Secretary was instructed to communicate with the Health Department and state that the pay-roll could only be approved for services rendered prior to April 9.

A letter was presented from the Corporation Counsel, dated May 2, stating that the President of the Borough of Queens had requested his consent to the transfer of Miss Miriam T. Frank, third grade Stenographer and Typewriter, to the position of fourth grade Stenographer and Typewriter in his Department, and stating that he had increased Miss Frank's salary to \$1,200, to take effect upon the date of her transfer. The Secretary was directed to communicate with the Corporation Counsel and state that the transfer could not be approved at the increased compensation, unless Miss Frank's salary was actually increased in his Department and her name appeared upon his pay-roll at the rate of \$1,200 per annum; that if such was the case, the Commission would approve the transfer upon President Cassidy's request.

A letter was presented from the Corporation Counsel, dated May 2, stating that upon May 1, 1902, when the designations and salaries of all persons in the City service were revised and fixed by the Board of Estimate and Apportionment and the Board of Aldermen, the title of some of the Typewriters in the Law Department was changed to "Stenographer and Typewriter," although the young women affected were not stenographers, and for that reason were at a great disadvantage when it became necessary to take a promotion examination. The Corporation Counsel requested, in order to correct the injustice which had been done them, that the Commission change their title back to "Typewriting Copyist."

On motion, it was

Resolved, That the designation of the following-named employees of the Law Department:

Miss Mary Doran Byrnes.
 Miss Minnie E. Flood.
 Miss Catherine H. Duffy.
 Miss Josephine McGown.
 Miss Margaret T. Pyne.

—be changed from Stenographer and Typewriter to Typewriting Copyist, such change to take effect upon the date of the adoption of a resolution by the Board of Estimate and Apportionment and the Board of Aldermen fixing the salaries of these persons.

A letter was presented from the Corporation Counsel, dated May 4, stating that Miss Ella L. Garland, Stenographer and Typewriter in his office, who was to have competed for promotion to the third grade, was ill upon the day of the examination and unable to appear; and requesting that Miss Garland be permitted to take the examination for promotion to fifth grade Stenographer and Typewriter to be held on Monday, the 8th inst., with the understanding that if she succeeded in passing same her name be placed on the list for promotion to third grade Stenographer and Typewriter, in accordance with the percentage received by her in the more difficult examination. The request was granted.

A letter was presented from the Secretary of the Board of Education, dated May 1, requesting that the following examinations for promotion be held:

Third to fourth grade Clerk.
 Fourth to fifth grade Clerk.
 Ninth to tenth grade Clerk.

The request was granted, and the Secretary was instructed to proceed with the same.

On motion, it was

Resolved, That the examination for the position of Assistant Registrar of Records, Health Department, be and the same is hereby indefinitely postponed.

A letter was presented from Samuel B. Cooper, No. 295 East Seventh street, requesting that the records of the Commission be changed to show that he was suspended from the position of Temporary Clerk in the Finance Department because he was at the same time employed as a Teacher in the evening schools. The Secretary stated that a notice had been received from the Finance Department to the effect that Mr. Cooper had been dismissed for absence without leave. The Secretary was directed to communicate with the Department of Finance and inquire whether the notice sent to this office was correct.

A communication was presented from Mr. John Beet, No. 217 Sixtieth street, Brooklyn, protesting against the requirement of a knowledge of French and German in the examinations for Registrar of Records, Tenement House Department, and Assistant Registrar of Records, Department of Health, and requesting that those requirements be withdrawn. The letter was referred to the President for an answer.

A communication was presented from Joseph A. Tallon, No. 161 East One Hundred and Twenty-fourth street, requesting that he be restored to eligibility for appointment to the position of Janitor at any salary over \$600 per annum. It appearing that Mr. Tallon declined appointment at \$700 per annum and at \$739.20 per annum, his request was denied.

A letter was presented from Miss Georgina P. Fitch, Typewriting Copyist in the employ of the Department of Education, dated April 29, requesting that her pay-roll for services rendered at the rate of \$750 per annum, from March 18, 1903, to December 3, 1903, be approved by the Commission. The Secretary stated that Miss Fitch's salary had been increased to \$750 per annum by the Board of Education on January 22, 1903, but that the increase could not be recognized for the reason that she had been but four months in the service of the Department. The Board of Education did not again increase her salary to \$750 per annum until December 3, 1903, from which date her

pay-roll was approved by the Commission. It appearing that Miss Fitch's salary was not regularly fixed at the rate of \$750 per annum by the Department of Education until December 3, 1903, the Secretary was instructed to communicate with her and state that the Commission was without power to certify her pay-roll at that amount prior to that date.

A communication was presented from B. W. Homans, No. 206 East Sixteenth street, requesting that his name be restored to the eligible list for Assistant Engineer, Aqueduct Commission, the same having been dropped for the reason that the candidate failed to report to a notice sent him by the Aqueduct Commission on March 14, 1905. It appearing from the statement of the candidate that he was abroad when notice was addressed to him and therefore that the same did not reach him, his request was granted.

A communication was presented from William Brooks, No. 771 East One Hundred and Fiftieth street, alleging a violation of the Civil Service Law in the Department of Parks, Borough of The Bronx. The matter was referred to Examiner Byrne for investigation.

A letter was presented from the State Civil Service Commission, making inquiry as to several statements contained in the annual report of the Commission for the year 1904. The Secretary stated that he had answered the communication giving the information requested. The letter was ordered filed.

The request of George C. Weigold, No. 510 Lenox avenue, that his name be placed upon the eligible list for Patrolman, was presented for consideration. It appeared that the candidate was but twenty-nine years and nine months of age when the eligible list was promulgated, but that his name was not placed thereon, for the reason that his percentage was but 69.20. His papers were subsequently re-examined, and, upon the recommendation of the Examiners, his mark was increased to 70.70 per cent. He had in the meantime, however, attained the age of thirty years. After carefully considering the matter, the Commission ruled that if it was the opinion of the Examiners that the candidate was entitled to a mark of 70.70 on his examination he should be given the benefit of that mark from the time of the promulgation of the list, at which time he was but twenty-nine years of age, and entitled to be placed upon the list. The Secretary was instructed to place the candidate's name on the list for Patrolman in accordance with his percentage.

The Commission then adjourned to meet on Wednesday, May 10, at 9.30 A. M.

Attest:

HENRY BERLINGER, Secretary.

MUNICIPAL CIVIL SERVICE COMMISSION.

New York, May 10, 1905.

A meeting of the Civil Service Commission of The City of New York was held at the Commission's offices, No. 61 Elm street, on Wednesday, May 10, 1905, at 9.30 A. M. There were present Commissioners Appleton and Talley.

The minutes of the meetings held April 4, 5, 7 and 12 were approved.

On the recommendation of the Committee on Reinstatements, the reinstatement of Thomas J. Shelly in the position of Clerk in the Department of Docks and Ferries was approved, he having resigned from a similar position on May 11, 1904.

The request of Kenneth D. Be it Ordained by the Board of Estimate and Apportionment of The City of New York as follows:

Section 1. The Board of Estimate and Apportionment of The City of New York hereby grants to the Atlantic Telephone Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to lay, erect, construct and maintain suitable wires or other conductors with the necessary poles, pipes, conduits and appliances in or over, across and under the streets, avenues, highways, parks and public places within the territory comprised in the Borough of Manhattan, the Borough of The Bronx, the Borough of Brooklyn, the Borough of Queens and the Borough of Richmond, and each of them as now constituted (or within the limits of The City of New York), for the following objects or purposes, to wit, for conducting and distributing electricity in the operation of telephone, telegraph and teleautograph lines within the territory bounded as aforesaid.

Sec. 2. The grant of this franchise is subject to the following terms and conditions:

First—The right, privilege and franchise herein granted shall be held and enjoyed by said Atlantic Telephone Company, its lessees, successors or assigns, for a term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant or franchise for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise. Such revaluation shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the Atlantic Telephone Company, its successors or assigns; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party. They shall have the right to examine the books of the Atlantic Telephone Company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties.

Second—The Atlantic Telephone Company shall not make a charge for telephone service within the Borough of Manhattan, in The City of New York, in excess of the following rates, namely:

(a) Five cents per call where there is no guarantee by a subscriber to pay a fixed sum per annum.

(b) Sixty-six dollars (\$66) per annum for unlimited service where the telephone instrument is located in a private residence.

(c) One hundred and eight dollars (\$108) per annum for unlimited service where the telephone instrument is located in a place of business.

Third—Payment for this franchise shall be made to The City of New York by the Atlantic Telephone Company, its successors or assigns, in the manner following: It shall pay to the said City of New York for the first two years a sum equal to one per centum; for the next three succeeding years a sum equal to two per centum, and for the remaining twenty years thereafter a sum equal to four per centum, upon the gross sum received by the said Atlantic Telephone Company during said years for telephone, telegraph or teleautograph service rendered to its commercial or domestic customers within the territory bounded as aforesaid, and the Atlantic Telephone Company shall furnish and install in the various municipal offices, for the use of City employees, free telephones to a number not to exceed five hundred telephones; that the telephone service of such telephones shall be free. The aforesaid sum shall be paid into the Treasury of The City of New York on November 1 in each year; provided, however, that the first payment shall only be made for that portion of the above sum as the time from the signing of this ordinance by the Mayor to September 30 next preceding shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment.

Fourth—The said Atlantic Telephone Company, its successors or assigns, shall maintain the business for which it was incorporated, and construct, maintain and operate its wires, conduits, poles, pipes, conduits and appliances in, on, over, across and under the streets, avenues, public parks and places within the territory above described, under the supervision and control of all of the authorities of The City of New York who have jurisdiction in such matters under the Charter of said City.

Fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel of said City at the request of the Board of Estimate and Apportionment.

Sec. 3. This grant shall not become operative until said Atlantic Telephone Company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
