P. J. SCULLY, Esq., City Clerk, New York City:

Dear Sir—Preambles and resolution, adopted May 7, of the Board of Aldermen of New York City, in relation to the means of ingress and egress at the Eighty-ninth street, Third avenue, station of the Manhattan Railway (leased to and operated by the Interborough Rapid Transit Company), have been received.

The matter will be investigated by this Board, after which we will communicate with you further.

Very truly yours,

Hon. P. J. SCULLY, City Clerk, City Hall, New York:

Dear Sir—On April 16, a resolution (1852) was introduced in the Board of Aldermen and referred to the Committee on Streets, Highways and Sewers, authorizing this society to erect drinking fountains at certain named points. Will you please add to that list of sites the following location: "West side of Vanderbilt avenue, just north of Forty-fourth street."

Thanking you for your courtesy in this matter, believe me,

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Commissioner of Public Charities:

No. 1999.

Department of Public Charities,
Foot of East Twenty-sixth Street,
May 9, 1907.

Hon. P. F. MCGOWAN, President, Board of Aldermen:

Dear Sir—The undersigned Commissioner of Public Charities very respectfully requests that permission be granted to the said department to purchase without public letting, two automobiles at a cost not to exceed \$3,000 each, complete; one for the use of the Commissioner mainly in the Boroughs of Manhattan, The Bronx and Richmond, and the other for the use of the Second Deputy Commissioner in the Boroughs of Brooklyn and Queens.

In my opinion the business of the Department will be greatly facilitated if this permission is granted, particularly as large building operations are to be carried on in the near future looking to the necessary improvement and upbuilding of the Department.

Respectfully submitted,

ROBERT W. HEBBERD, Commissioner.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Board of Coroners:

No. 2000.

Coroners' Office, Borough of Manhattan,
Criminal Court Building,
May 9, 1907.

The Honorable Board of Aldermen, City of New York:

Gentlemen—The frequent delays experienced by the Coroners of the Borough of Manhattan in reaching cases requiring their official attention was the subject matter for discussion at a recent meeting of the Coroners, and it was finally resolved that your Honorable Board of Aldermen be requested to consider favorably an application that Special Revenue Bonds be issued sufficient in amount to equip this department with two automobiles and two chauffeurs.

The law requires that when a person is mortally wounded that the Coroner forthwith proceed to the side of the wounded person in order to ascertain if any other person is responsible for the injuries received. To reach the side of the injured person without unnecessary delay is the aim of the Coroner, so he may obtain the dying declaration which will furnish the public prosecutor tangible proof of some person's connection with the crime.

Relatives of persons meeting with sudden deaths are desirous of securing the remains at once, which cannot be granted until the Coroner or his physician has viewed the body, and it is with a desire that this privilege may be speedily granted that we seek better means of transportation through the introduction of an automobile service.

This department is open day and night, and the great difficulty encountered by the Coroner in answering his night calls with speed and dispatch will be overcome if our request is approved by your Honorable Board.

Trusting that your Honorable Body will pass favorably upon this application, we remain,

Respectfully yours,

JULIUS HARBURGER, President;
GEORGE F. SHRADY, JR.,
PETER P. ACRIELLI,
PETER DOOLEY,

Board of Coroners, Borough of Manhattan.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Building Code Revision Commission:

No. 2001.

Office of the Building Code Revision Commission,
Room 11, City Hall,
New York, May 11, 1907.

Hon. P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen, City Hall, New York City:

My Dear Sir—Permit me to transmit herewith copy of the resolution adopted by the Building Code Revision Commission at a meeting held Thursday, May 9.

Kindly bring it to the attention of the Board of Aldermen, and oblige.
Sincerely yours,
W. A. GRAMER, Secretary.

Resolved, That the Board of Aldermen be requested, pending the work of this Commission, not to pass any ordinance amending the Building Code, and that the Secretary be instructed to communicate with the Board of Aldermen to this effect and request the Board to submit to this Commission a copy of all pending proposed ordinances and copies of any future proposed ordinances affecting the Building Code, in order that the same may be considered by this Commission.

Which was ordered on file.

The President laid before the Board the following communication from the Public Administrator:

No. 2002.

To the Honorable the Board of Aldermen:

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting ordinance:

No. 2003.

Board of Estimate and Apportionment, City of New York,
Office of the Secretary, No. 277 Broadway,
May 11, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 10, 1907, authorizing the issue of \$200,000 Corporate Stock to provide means for the completion of the rebuilding of the Queens County Court House, Long Island City, Borough of Queens, together with copy of communication from the President, Borough of Queens, and report of the Comptroller, to whom the matter was referred on February 15, 1907, for conference with said President.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
JOSEPH HAAG, Secretary.

The City of New York,
Office of the President of the Borough of Queens,
Long Island City, April 29, 1907.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman, Board of Estimate and Apportionment, New York:

Dear Sir—On May 25, 1906, Corporate Stock was allowed the President of the Borough of Queens in the sum of \$250,000 for the purpose of rebuilding the Queens County Court House, at Long Island City, which was based on plans and specifications prepared by the Architect employed by the President.

After the bond issue had been passed, certain changes were made necessary, which changes, together with the increase in the cost of various materials required in the construction, brought the cost of the completed building considerably in excess of the amount available. The specifications were, therefore, revised and the contract was finally awarded to cover the rebuilding of the exterior alone, at a price which covered the amount available.

At a meeting of the Board of Estimate the matter of bond issue to complete this building was referred to a Special Committee composed of the undersigned, and has been thoroughly discussed by the Engineer of the Department of Finance and the Architect of the building.

After mature consideration we find that an additional sum of \$200,000 will be required to complete the building, and we, therefore, recommend the issue of Corporate Stock in that sum for the use of the President of the Borough of Queens in completing this building.

Respectfully,
H. A. METZ,
Comptroller of The City of New York.
(Signed) JOSEPH BERMEL,
President of the Borough of Queens.

May 2, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Joseph Bermel, President of the Borough of Queens, in communication under date of April 29, 1907, requests the Board of Estimate and Apportionment to authorize an additional issue of Corporate Stock in the sum of \$200,000 for the completion of the Queens County Court House at Long Island City, Borough of Queens. I would report:

On May 25, 1906, the Board of Estimate and Apportionment appropriated \$250,000 to carry on and complete this work, that amount being President Bermel's full estimate of the entire cost.

The plans and specifications prepared for the work were, in my judgment, much more elaborate and decorative than the circumstances warranted; but the work was advertised, bids were opened on February 21, 1907, and the contract for the shell of the building was awarded at \$237,000, leaving practically nothing of the original appropriation for the completion of the building.

Since the City is committed to the project, there would seem to be no other course than to proceed to finish and fit the building for occupancy.

The Architect estimates the additional amount required to be \$200,000, and my examination of the plans and specifications leads me to think it will cost as much as that, exclusive of proper furnishing.

I therefore recommend that, pursuant to section 47 of the amended Greater New York Charter, the Comptroller be authorized to issue an additional Corporate Stock to the amount of \$200,000 for the completion of the rebuilding of the Queens County Court House, Long Island City, Borough of Queens.

Respectfully,
CHANDLER WITHINGTON, Chief Engineer.

Approved:
(Signed) H. A. Metz, Comptroller

AN ORDINANCE providing for an issue of Corporate Stock in the sum of two hundred thousand dollars (\$200,000) to provide means for the completion of the rebuilding of the Queens County Court House, Long Island City, Borough of Queens.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 10, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding two hundred thousand dollars (\$200,000), for the purpose of providing means for the completion of the rebuilding of the Queens County Court House, Long Island City, Borough of Queens, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock

of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two hundred thousand dollars (\$200,000), in addition to the amount heretofore authorized, the proceeds whereof to be applied to the purposes aforesaid."

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Trustees of Normal College:

No. 2004.

Normal College of The City of New York,
Park Avenue and Fifty-ninth Street,
New York, May 13, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—In my letter of the 9th inst., I asked you what action had been taken by the Board of Aldermen relative to an issue of Special Revenue Bonds in the sum of \$25,000 for the purpose of providing additional funds for the payment of salaries and the purchase of necessary supplies for the Normal College, which matter was transmitted to you on April 8, by President Winthrop. I am now in receipt of a letter from your Secretary, dated May 11, stating that this matter is not of record.

In order that there may be no further delay, I send you herewith a copy of President Winthrop's letter of April 8, and a certified copy of the report and resolution adopted by the Board of Trustees of the Normal College on March 27, 1907.

Respectfully yours,
A. EMERSON PALMER, Secretary, Board of Trustees.

To the Board of Trustees of the Normal College:

The Executive Committee respectfully reports that the amount allowed for salaries in the Budget of the Normal College for the current year is \$225,000, which amount is far too small for the actual needs of the institution. Careful consideration has been given to the question of securing additional funds, which are an absolute necessity. The register in the High School Department was reported by the Acting President on February 20, 1907, as 2,056, and it is estimated that there will be six hundred admissions from the examination to be held in June next. At present a number of substitutes are employed, not to take the place of Teachers who are absent, but to render regular service, for the reason that it is cheaper to employ a substitute than to make a regular appointment. This is a makeshift which your Committee thinks ought not to be continued unless absolutely necessary.

A careful estimate of the amount required for salaries for the remainder of the year 1907, indicates that at the end of the year there will be a deficit of \$21,557.39 in the salary account, and as there will probably be four hundred additional pupils in the High School in the term beginning in September, an additional expenditure of several thousand dollars will be required for text-books and other supplies. It will be necessary, therefore, to provide additional funds to an amount not less than \$25,000 in order to properly conduct the work of the college during the remainder of the current year, and it is recommended that the Board of Aldermen be applied to for an issue of Special Revenue Bonds to the amount of \$25,000.

The following resolution is submitted for adoption:
Resolved, That, in accordance with the provisions of subdivision 8 of section 188 of the revised Charter, the Board of Aldermen be, and it is hereby respectfully requested to authorize the issue of Special Revenue Bonds to the amount of twenty-five thousand dollars (\$25,000) for the purpose of providing additional funds for the payment of salaries and the purchase of necessary supplies for the Normal College of The City of New York.

W. N. WILMER, Chairman, Executive Committee.

A true copy of report and resolution adopted by the Board of Trustees on March 27, 1907.

A. EMERSON PALMER, Secretary, Board of Trustees.

New York, April 8, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—Inclosed please find an attested copy of a report and resolution adopted by the Board of Trustees of the Norman College at a meeting held on March 27, 1907, requesting the Board of Aldermen to authorize the issue of Special Revenue Bonds to the amount of \$25,000 for the purpose of providing additional funds for the payment of salaries and the purchase of necessary supplies for the Normal College.

The report referred to is, I think, self-explanatory, and you will readily see that it is absolutely necessary to provide additional funds in order to carry out the work of the college during the current year. However, I shall be happy to furnish the Board of Aldermen, or any Committee, additional and more detailed information, if desired.

Trusting that you will use your good offices to secure early action upon this matter, I remain,

Very truly yours,
EGERTON L. WINTHROP, JR.,
Chairman, Board of Trustees.

Reports of Committee on Finance—

No. 1803.

The Committee on Finance, to whom was referred on April 2, 1907 (Minutes, page 50), the annexed resolution in favor of an issue of \$15,000 Special Revenue Bonds for repairs to floating baths, Borough of Manhattan, respectfully

REPORTS:

Superintendent Walker appeared before the committee and stated that these free floating baths must be ready to be opened by June 15. The committee believes that the allowance for this should have been made out of the Budget money, as it has become an annual charge, but as the Borough President claims that unless bonds are issued for same he will not have the money with which to fit up these floating baths, your committee, recognizing the absolute necessity for them, feels compelled to report favorably upon this appropriation.

They, therefore, recommend that the said resolution be adopted.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not to exceed fifteen thousand dollars (\$15,000), the proceeds to be used for the purpose of repairing the fourteen (14) free floating baths, Borough of Manhattan.

REPORTS:

Commissioner Bense appeared before the committee and stated the purposes for which this appropriation was required. This is the annual Corporate Stock allowance

for the maintenance and improvement of the property of this department, and if this allowance is made the department will have received nearly two millions of dollars less than was appropriated for the same purposes for 1906. The details of the application are set forth in the annexed report, and the committee recommends the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of seven million four hundred thousand dollars (\$7,400,000) for the uses and purposes of the Department of Docks and Ferries.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 5, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, and section 180 of the Charter, and the recommendation of the Commissioners of the Sinking Fund by resolution adopted March 13, 1907, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding seven million four hundred thousand dollars (\$7,400,000) for the uses and purposes of the Department of Docks and Ferries, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding seven million four hundred thousand dollars (\$7,400,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 1824.

The Committee on Finance, to whom was referred, on April 9, 1907 (Minutes, page 70), the annexed ordinance in favor of an issue of Corporate Stock, \$71,000, for acquisition of property for use of the Street Cleaning Department, respectfully

REPORTS:

The details of this application are fully set forth in the accompanying letters and reports, and in addition Deputies Reilly and Edwards appeared before the committee and explained same. The object of the appropriation is to purchase nine lots at Avenue B and Eightieth street for stable purposes for this department. The department now uses these premises under lease which expires during the summer, and has received notice from the owner to either vacate or purchase same. The committee believes the purchase of necessary premises at reasonable price to be in line with good business policy, and as the amount seems to be reasonable for same, the committee recommends the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of seventy-one thousand dollars (\$71,000), to provide means for the acquisition of property for the use of the Department of Street Cleaning, located on the northwesterly corner of Eightieth street and Avenue B, or East End avenue, Borough of Manhattan, for the examination of the title and for surveys of said property.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 5, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding seventy-one thousand dollars (\$71,000), to provide means for the acquisition of property for the use of the Department of Street Cleaning, located on the northwesterly corner of Eightieth street and Avenue B, or East End avenue, Borough of Manhattan, for the examination of the title and for surveys of said property; and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding seventy-one thousand dollars (\$71,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 1855—(G. O. No. 280.)

The Committee on Finance, to whom was referred on April 16, 1907 (Minutes, page 134), the annexed request of the Department of Education for \$25,000 Special Revenue Bonds for a fire alarm system for Brooklyn Public Schools, respectfully

REPORTS:

Mr. Adams, Chairman of the Committee on Education, appeared before the Committee, and stated that most of the schools in the Borough of Brooklyn were without any fire alarm system, and it is necessary for the proper protection of the children that such be installed. He has received several bids for this work, which are set forth in the accompanying letter, and from same it appears that the amount of \$25,000 will be required. The Committee, therefore, recommends the adoption of the annexed resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-five thousand dollars (\$25,000), for the purpose of providing means for the installation of fire alarm boxes and apparatus in sundry school buildings in the Borough of Brooklyn.

No. 1936.

The Committee on Finance, to whom was referred on April 30, 1907 (Minutes, page 614), the annexed request of the President of the Borough of The

Bronx for \$6,500 Special Revenue Bonds for the purchase of steam rollers, respectfully

REPORTS:

Borough President Haffen and Chief Engineer Briggs appeared before the Committee, and stated that on account of the increased paving area it was necessary to have additional steam rollers to keep the pavements in proper shape. They now have four in the Borough, and from their statements the Committee believes these two additional ones to be necessary. It, therefore, recommends the adoption of the annexed resolution.

Resolved, That, in pursuance of subdivision 8 of section 188 of the amended Greater New York Charter the Board of Estimate and Apportionment be and hereby are requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of six thousand five hundred dollars (\$6,500), the proceeds whereof to be applied to the purchase of two steam rollers for use in the Borough of The Bronx.

JOHN R. DAVIES, B. W. B. BROWN, J. E. BUNTING, JOHN DIEMER, PH. HARNISCHFEGGER, THOS. J. MULLIGAN, JAMES W. REDMOND, Committee on Finance.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Brown, Bunting, Callahan, Carter, Collins, Cronin, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Ellery, Everson, Farrell, Freeman, Griffenhagen, Haggerty, C. No. 1939.

The Committee on Finance, to whom was referred on April 30, 1907 (Minutes, page 617), the annexed ordinance in favor of an issue of Corporate Stock, \$1,600,000, for bridge over the Harlem river at Madison avenue, respectfully

REPORTS:

The details of this application are fully set forth in the accompanying letters and reports, and Commissioner Stevenson and Engineer Johnson appeared before the committee and urged the adoption of the ordinance. The bridge contemplated is to take the place of the present structure over the Harlem river which connects Manhattan and The Bronx at One Hundred and Thirty-eighth street. The present structure was built about 25 years ago, but on account of the enormous traffic which passes over it daily it has become entirely inadequate for that locality. The structure to be built will be about four times as wide, and is expected to do away with the present congestion at that point. The committee, therefore, recommends the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one million six hundred thousand dollars (\$1,600,000) for the purpose of providing means for completing the construction of the bridge across the Harlem river at Madison avenue and the approaches thereto.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 26, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one million six hundred thousand dollars (\$1,600,000) for the purpose of providing means for completing the construction of the bridge across the Harlem river at Madison avenue and the approaches thereto, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one million six hundred thousand dollars (\$1,600,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 1940.

The Committee on Finance, to whom was referred, on April 30, 1907 (Minutes, page 619), the annexed ordinance in favor of an issue of Corporate Stock, \$100,000, for the improvement of the New York Zoological Park in Bronx Park, respectfully

REPORTS:

The details of this application are fully set forth in the accompanying letters and reports, and Secretary Grant, of the Zoological Society, appeared before the Committee and urged the adoption of the ordinance. The Society planned to use this money for the purpose of improving the park service within the zoological area, and also to erect an administration building and a zebra house. Pretty nearly two millions of people visited this park in 1906, some days totaling 50,000, and from this interest the Committee believes this to be a meritorious work, and one which should be encouraged, and therefore recommends the adoption of this ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred thousand dollars (\$100,000) for the purpose of providing means to pay all necessary expenses for the construction of parks by providing for the development and improvement of the New York Zoological Park in Bronx Park and the construction of buildings therein.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 26, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one hundred thousand dollars (\$100,000) for the purpose of providing means to pay all necessary expenses for the construction of parks by providing for the development and improvement of the New York Zoological Park in Bronx Park, and the construction of buildings therein, said amount to be expended upon plans and specifications approved by the New York Zoological Society and the Commissioner of Parks, Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred thousand dollars (\$100,000), the proceeds whereof to be applied to the purposes aforesaid, and to become available October 1, 1907."

The Committee on Finance, to whom was referred on May 7, 1907 (Minutes, page 692), the annexed ordinance in favor of an issue of Corporate Stock, \$20,000, for purchase of a new steamboat for the Department of Correction, respectfully

REPORTS:

The details of this application are set forth in the annexed letters and reports, and in addition Commissioner Coggey appeared before the Committee and urged the adoption of this ordinance, stating that the Federal authorities had revoked the license for the boat which had been used for carrying passengers and freight between the Hart's Island Reform School and the mainland at City Island. Since the shutting down of this service there has been considerable hardship on the island, especially in connection with the perishable supplies, and also because the Keepers' children could not go over to school, and workmen could not be had regularly from City Island. The Commissioner also stated that the boat he proposes to purchase is to be bought through public letting. The Committee believes this to be necessary, and the price for a proper boat to be reasonable, and therefore recommends the adoption of the ordinance.

The Committee on Finance, to whom was referred on April 30, 1907 (Minutes, page 624), the annexed recommendation for an issue of Special Revenue Bonds, \$2,800, to provide proper accommodations for Coroners, Borough of Brooklyn, respectfully

REPORTS:

Superintendent Lawrence appeared before the Committee and explained that the Coroners' office is to be installed in the Municipal Building, and to properly partition and furnish these offices it would require this appropriation. The Committee on Finance, to whom was referred on May 7, 1907 (Minutes, page 694), the annexed request of the President of the Borough of Queens for \$4,000 Special Revenue Bonds for repairs to the Queens County Jail, respectfully

REPORTS:

The bad condition of the locks and bars in this jail have become notorious, and as immediate measures must be taken to better conditions, the Committee recommends the adoption of the annexed resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of four thousand dollars (\$4,000), the proceeds whereof to be applied by the President of the Borough of Queens to repairing locks and levers, replacing steel bars where necessary, providing new heavy window screens, repairing stairways and ceilings and repainting the interior of the Queens County Jail.

The Committee on Finance, to whom was referred, on May 7, 1907 (Minutes, page 696), the annexed request of the Sheriff of Richmond County for \$1,200 Special

Revenue Bonds, to replenish his Budget allowance for salaries of Court Officers, respectfully

REPORTS:

Sheriff Barth appeared before the Committee, and stated that, owing to the fact that the number of terms of the Supreme Court for Richmond County had been increased since the 1st of January, that the \$400 allowance which he received in the Budget for Court Officers had already been spent, and there are still five terms to be held during the year 1907. He employs six Officers and pays them at the rate of \$2 each day employed. These men not only attend court, but serve all papers, and, owing to the unexpected heavy business in this county, \$400 has already been spent. The Committee believes this to be necessary, and therefore recommends the adoption of the resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twelve hundred dollars (\$1,200), the proceeds whereof shall be applied, in addition to the amount of four hundred dollars (\$400) allowed in the Budget for 1907, to the payment of the salaries of Court Officers by the Sheriff of Richmond County, the same being made necessary because of the additional terms of court held in said county.

The Committee on Finance, to whom was referred on April 16, 1907 (Minutes, page 200), the annexed resolution in favor of an issue of Special Revenue Bonds, to meet expense of moving and sorting records in the office of the County Clerk, County of Kings, respectfully

REPORTS:

That Deputy County Clerk Tokaji appeared before your Committee and stated that this money is needed to continue the dusting, cleaning and sorting of all of the records in the office of the County Clerk of the County of Kings. The Deputy assured your Committee that this amount would be the last that would be required by this office for this purpose, and in view of this fact your Committee favors the application.

They therefore recommend that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof shall be applied to meet the expenses in moving and sorting the various records in the office of the County Clerk of Kings County, in the Hall of Records, in the Borough of Brooklyn.

Reports of Committee on Salaries and Offices—

No. 1771.

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 747), the annexed resolution in favor of the establishment of certain grades and positions in the Police Department, respectfully

REPORTS:

The committee after extended consideration of the salary resolution affecting the Police Department, has decided to recommend increases of salaries in three positions, and the creation of two new positions. Following the report of the Finance Committee upon the Budget for 1907, and the action of the Board of Aldermen upon that report, this committee concurs in the proposed increase of salary of the First Deputy to \$6,000. The committee concurs also in the action of the Board of Estimate and Apportionment in increasing the salary of the Assistant Bookkeeper from \$2,400 to \$2,700, and the salary of the three incumbents of the position of Stenographer and Typewriter from \$720 to \$900. These Stenographers are men, and are employed in the office of the Deputies. The committee also approves of the creation of the new place of Law Clerk at \$1,200, to assist the Deputy in charge of trials, and of Typewriting Copyist at \$600, to take the place of a \$1,400 Patrolman now doing the work. The committee disapproves of the other items of the resolution. The adoption of the accompanying substitute resolution is recommended.

Resolved, That the Board of Aldermen hereby concurs in resolution of the Board of Estimate and Apportionment establishing the following grades of positions in the Police Department:

Under Rule 21 consideration of this report was deferred. Subsequently Alderman Sullivan moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said substitute resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Brown, Bunting, Carter, Cronin, Davies, Dinwoodie, Doull, Dowling, Ellery, Everson, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. No. 1746—(G. O. No. 285).

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 737), the annexed resolution in favor of fixing salaries of positions under President of the Borough of Manhattan, respectfully

REPORTS:

The Committee has given extended consideration to the accompanying resolution, which provides an increase of \$1,000 in the salary of Mr. Jos. O. B. Webster, the Engineer of Street Openings, Borough of Manhattan. Mr. Webster has been for many years in the employ of the City, and is recognized as an official of integrity and great industry. Complaints have been made from time to time that there have been delays in his office in the preparation of maps for street opening proceedings. The Committee is of the opinion that the difficulty lies in the fact that Mr. Webster has no assistant engineer, and tries to do all the work himself, with the aid of his force of draughtsmen. The Committee believes that he should have an assistant who should be qualified to act as an understudy for the Engineer. In order that this matter might be brought to the attention of the Board of Estimate and Apportionment, the Committee recommends that this report be transmitted to that Board. The Committee is convinced that the character of Mr. Webster's personal services to the City warrants the increase in salary, and therefore recommends the adoption of the usual substitute resolution.

(SUBSTITUTE.)

Resolved, That the Board of Aldermen hereby concurs in resolution of the Board of Estimate and Apportionment establishing the grade of position under the jurisdiction of the President of the Borough of Manhattan:

	Incumbent.	Per Annum.
Engineer of Street Openings.....	1	\$5,000 00

—to take effect when this resolution is approved by the Mayor.

(ORIGINAL.)

Whereas, The Board of Estimate and Apportionment at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the grade of position of Engineer of Street Openings in the office of the President of the Borough of Manhattan, in addition to those already existing therein, with salary at the rate of five thousand dollars (\$5,000) per annum, for one incumbent, to take effect April 1, 1907.

Resolved, That the Board of Aldermen hereby concurs in said resolution, and fixes the salary of the above position as set forth therein, to take effect April 1, 1907.

No. 1754.

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 740), the annexed resolution in favor of fixing salaries of positions in the Department of Water Supply, Gas and Electricity, respectfully

REPORTS:

Before taking final action upon the accompanying resolution affecting the Department of Water Supply, Gas and Electricity the Committee desires its amendment in certain respects by the Board of Estimate and Apportionment. It is represented to the Committee that it is the intention of the Commissioner to appoint to the position of Chief Clerk and Auditor, at \$4,000, when created, Mr. Beardsley, who is now the general Bookkeeper, at a salary of \$3,000, and that in addition to his present duties Mr. Beardsley will assume those of Chief Clerk. This arrangement would result in the combination of two positions, with salaries of \$3,000 and \$2,700, respectively, involving a saving of \$1,700. It may well be doubted whether in case Mr. Beardsley ceases to hold the position the same arrangement could be maintained as to his successor. The Committee thinks, therefore, that the resolution should be framed so as to cover Mr. Beardsley only. Similarly it has been demonstrated to the Committee that Mr. Cozier, the Deputy Commissioner of the Borough of Brooklyn, is an exceptional official and is deserving of an increase from \$4,500 to \$5,500. The Committee thinks that as a general rule \$5,000 would be a proper maximum salary for the position, but is willing to have the salary of \$5,500 made to apply to the present incumbent only. The Committee desires also that the resolution should be amended so that it should take effect when approved by the Mayor. The mere omission of the date as now stated would be sufficient.

In order that the resolution may be amended in the three respects indicated above, the Committee recommends that it be returned to the Board of Estimate and Apportionment.

Whereas, The Board of Estimate and Apportionment at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the following grades of positions in the Department of Water Supply, Gas and Electricity, in addition to those already existing therein, to take effect April 1, 1907:

	Incumbents.	Per Annum.
Draughtsman	1	\$2,400 00
Chief Clerk and Auditor.....	1	4,000 00
Deputy Commissioner, The Bronx.....	1	4,000 00
Water Registrar, The Bronx.....	1	3,000 00
Superintendent of Ponds and Reservoirs, Brooklyn.....	1	2,500 00
Deputy Commissioner for the Borough of Brooklyn.....	1	5,500 00
Secretary to the Commissioner.....	1	3,500 00

—and the establishment of the position of Chief Inspector of Electric Lighting and Conductors, in said Department, with salary at the rate of twenty-four hundred dollars (\$2,400) per annum, for one (1) incumbent, to take effect April 1, 1907.

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein, to take effect April 1, 1907.

REPORTS:

The accompanying resolution provides an increase of \$300 in the salary of the Hydrographer in the Department of Docks and Ferries. The incumbent has received the present salary for eight years. The office was defined at the hearing given by the Committee as that of a "Water Surveyor." The Committee recommends the adoption of the usual substitute resolution.

(SUBSTITUTE.)

Resolved, That the Board of Aldermen hereby concurs in the resolution of the Board of Estimate and Apportionment, establishing the following grade of position in the Department of Docks and Ferries:

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 749), the annexed resolution in favor of fixing the salary of the position of Stenographer and Typewriter in the office of the Municipal Art Commission at \$1,200 per annum, respectfully

REPORTS:

The accompanying resolution provides for an increase of \$150 in the salary of the Stenographer to the Art Commission. From a letter received from the Assistant Secretary of the Commission, the Committee has learned of the unusual clerical and stenographic work performed by the incumbent, and is convinced that the increase is warranted. The Committee recommends the adoption of the accompanying substitute resolution.

The Committee on Salaries and Offices, to whom was referred, on April 23, 1907 (Minutes, page 600), the annexed resolution, in favor of granting twenty-four hours' leave of absence to honorably discharged soldiers, sailors or marines, respectfully

REPORTS:

The committee has given careful consideration to the accompanying resolution, and has heard a committee of representatives of the veteran organizations, and has communicated with the heads of the Fire and Police departments, which are especially concerned in the resolution. The Police Commissioner has advised the committee that he considers the resolution a proper one, while the Secretary of the Fire Department has sent the committee a report from Chief Croker, in which he "strongly disapproves." Under the circumstances the committee has prepared and submits for adoption a substitute resolution, which speaks for itself as far as its purpose is concerned, and which does not attempt to make leaves of absence compulsory, but leaves the matter entirely to the discretion of each department head.

Report of Committee on Public Health—

Nos. 1559 and 1720—(G. O. No. 292).

LEONARD L. JACOBSON, M. D., JOSEPH F. ELLERY, JOHN J. FARRELL, F. J. O'NEILL, HARRY L. LEVERETT, JAMES LAWLOR, Committee on Public Health.

The Committee on Public Health, to whom were referred on February 5 and March 19, 1907 (Minutes, pages 411 and 714), the annexed ordinances in relation to regulating the sale of milk in The City of New York, respectfully

REPORTS:

That they have carefully considered all the matters referred to in said proposed ordinances, and have held four public hearings, which were very largely attended by medical men, milk dealers, dairymen and the general public. At said public hearings several new proposed ordinances were submitted to your committee as substitutes for the ordinances referred to your committee. Your committee has also made a personal investigation of the conditions under which milk is supplied to and sold in this City, and have consulted with various authorities. Your committee has reached the conclusion that no milk or cream should be sold in this City unless such milk or cream comes from certified herds and has been duly inspected, and your committee further believes that all milk or cream not coming from such herds complying with the bacteriological standard proposed in the accompanying ordinance, should be pasteurized under the supervision of the Department of Health.

Your committee therefore recommends the adoption of the following substitute ordinance:

(SUBSTITUTE.)

AN ORDINANCE regulating the sale of milk in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. On and after the first day of June, 1907, no milk or cream shall be sold at retail, or offered for sale at retail, in The City of New York, except as hereinafter provided, unless it comes from herds certified as free from tuberculosis, and unless the milk or cream has been certified by the Department of Health as containing not more than 500,000 bacteria to the cubic centimeter.

Sec. 2. All milk and cream not from certified herds, or not conforming to the said bacterial standard, shall be pasteurized by exposure for at least twenty minutes to a temperature of 167 degrees Fahrenheit, or by exposure for at least thirty minutes to a temperature of 158 degrees Fahrenheit, under the supervision of the Department of Health, and sealed with a label showing said process, as hereinafter provided.

(a) Identification of Dairy—For the purpose of enforcing this ordinance, it shall be unlawful to ship milk or cream into this city, except in closed cans or bottles on which the name and location of the dairy are distinctly marked, and it shall be unlawful to offer raw milk or cream for sale unless it is certified as hereinafter provided, and unless it is sold in bottles or from cans on which the name of the dairy is distinctly marked.

All milk pasteurized as aforesaid shall be placed in clean cans or bottles, each of which cans or bottles shall be stamped or sealed under the supervision of the Department of Health, in such a manner that said cans or bottles cannot be opened when once so sealed, without breaking said seal.

(b) Certification of Herds—By certified herds shall be meant herds of which each and every cow and ox has been tested within six months with tuberculin and proved free from tuberculosis, and to which no cows or oxen have been added, except such as have been certified as free from tuberculosis after the application of the tuberculin test.

(c) Certification to be Filed—Certificates of such tuberculin tests, with the charts showing the reaction on each animal, shall be filed with the Department of Health by the Inspectors who have made the tests, and upon the Board of Health approving the reports of the tests of any particular herd, the Department shall issue to the owner of said herd a certificate showing the freedom of his herd from tuberculosis. In lieu of the examination of any herd by the Inspectors of the New York City Department of Health, the said Board, in its discretion, may accept similar certification from the authorities of the State in which the dairy is located, provided that such certification is accompanied by the charts, showing the application of the tuberculin test and the reaction in the case of each animal of the herd.

(d) Bacterial Standard—In order to enforce the bacterial standard of 500,000 bacteria to the cubic centimeter, it shall be the duty of the Department of Health to take samples in the city, at least once a month, of the milk and cream of each dairy shipping its product to the city for the retail trade, and said Department shall have bacterial examinations of said samples made at its laboratories.

(e) Order to Pasteurize—In case any sample of milk or cream from any dairy shows more than 500,000 bacteria to the cubic centimeter, or in case the herd of any dairy is not certified as free from tuberculosis, the Board of Health shall at once forbid the sale of milk or cream from that dairy, unless it is pasteurized as required by this ordinance.

(f) Certification of Milk—When the herd of any particular dairy has been certified as free from tuberculosis, and when the milk and cream of said herd, as offered for sale in this city, has been found to contain less than 500,000 bacteria to the cubic centimeter, on examination of at least three samples taken from three different cans or bottles the Department of Health may certify said milk and cream and allow it to be sold raw for the space of one month under a label showing the certification of the Department. Such certification may be renewed from month to month, provided at least three bacterial examinations of the milk and cream of said dairy show the maintenance of the degree of purity set by the bacterial standard hereby established, and provided, further, that the herd has been certified as free from tuberculosis within six months of the issuance of the certification.

(g) Purity Not to be Presumed—No milk or cream shall be presumed to come within the required bacterial standard unless three samples, taken from different cans or bottles, within the city, within the month, shall show counts of less than 500,000 bacteria to the cubic centimeter.

(h) Milk Commission Certification—It is provided, further, that this ordinance shall not be construed to forbid the Department of Health to authorize the sale of raw milk or cream that has been certified by the Milk Commission of the County Medical Society as coming from herds free from tuberculosis, and as having not more than 30,000 bacteria to the cubic centimeter.

(i) No Restriction of Health Board's Power—Nothing in this ordinance shall be construed to limit or abridge the power of the Board of Health to revoke permits for the sale of milk and cream because of unsanitary conditions in dairies or creameries, or milk shops, or for any other cause that may make the sale of any particular milk or cream a menace to the public health.

Sec. 3. Penalties—For any violation of this ordinance the permit of the offender may be temporarily revoked, and for a second offense such offender's permit shall be revoked, and he shall also be liable to punishment as for a misdemeanor.

Sec. 4. Repealer—All ordinances or parts of ordinances inconsistent or conflicting with the foregoing provisions are hereby repealed.

(ORIGINAL, INT. No. 1720.)

Resolved, by the Board of Aldermen, as follows:

1. On and after June 1, 1907, no raw milk or cream shall be sold at retail, or offered for sale at retail, in The City of New York, unless it comes from herds certified as free from tuberculosis, and unless the milk or cream has been certified by the Department of Health as containing not more than 500,000 bacteria to the cubic centimeter.

2. All milk and cream not from certified herds, or not conforming to the said bacterial standard, shall be pasteurized by exposure for at least twenty minutes to a temperature of 167 degrees Fahrenheit, or by exposure for at least thirty minutes to a temperature of 158 degrees Fahrenheit.

(a) Identification of Dairy—For the purpose of enforcing this ordinance, it shall be unlawful to ship milk or cream into this city except in closed cans or bottles on which the name and location of the dairy are distinctly marked, and it shall be unlawful to offer raw milk or cream for sale unless it is certified as hereinafter provided, and unless it is sold in bottles or from cans on which the name of the dairy is distinctly marked.

(b) Certification of Herds—By certified herds shall be meant herds of which each and every cow and ox has been tested within six months with tuberculin and proved free from tuberculosis, and to which no cows or oxen have been added except such as have been certified as free from tuberculosis after the application of the tuberculin test.

(c) Certification to be Filed—Certificates of such tuberculin tests, with the charts showing the reaction on each animal, shall be filed with the Department of Health by the Inspectors who have made the tests, and upon the Board of Health approving the reports of the tests of any particular herd, the Department shall issue to the owner of said herd a certificate showing the freedom of his herd from tuberculosis. In lieu of the examination of any herd by the Inspectors of the New York City Department of Health, the said Board, in its discretion, may accept similar certification from the authorities of the State in which the dairy is located, provided that such certification is accompanied by the charts showing the application of the tuberculin test and the reaction in the case of each animal of the herd.

(d) Bacterial Standard—In order to enforce the bacterial standard of 500,000 bacteria to the cubic centimeter, it shall be the duty of the Department of Health to take samples, in the City, at least once a month, of the milk and cream of each dairy shipping its product to the City for the retail trade, and said department shall have bacterial examinations of said samples made at its laboratories.

(e) Order to Pasteurize—In case any sample of milk or cream from any dairy shows more than 500,000 bacteria to the cubic centimeter, or in case the herd of any dairy is not certified as free from tuberculosis, the Board of Health shall at once forbid the sale of milk or cream from that dairy unless it is pasteurized as required by this ordinance.

(f) Certification of Milk—When the herd of any particular dairy has been certified as free from tuberculosis, and when the milk and cream of said herd as offered for sale in this city, has been found to contain not more than 500,000 bacteria to the cubic centimeter, on examination of at least three samples taken from three different cans or bottles, the Department of Health may certify said milk and cream and allow it to be sold raw for the space of one month, under a label showing the certification of the department. Such certification may be renewed from month to month, provided at least three bacterial examinations of the milk and cream of said dairy show the maintenance of the degree of purity set by the bacterial standard hereby established, and provided, further, that the herd has been certified as free from tuberculosis within six months of the issuance of the certification.

(g) Purity not to be Presumed—No milk or cream shall be presumed to come within the required bacterial standard unless three samples, taken from different cans or bottles, within the city, within the month, shall show counts of not more than 500,000 bacteria to the cubic centimeter.

(h) Milk Commission's Certification—It is provided further that this ordinance shall not be construed to forbid the Department of Health to authorize the sale of raw milk or cream that has been certified by the Milk Commission of the County Medical Society as coming from herds free from tuberculosis.

(i) No Restriction of Health Board's Power—Nothing in this ordinance shall be construed to limit or abridge the power of the Board of Health to revoke permits for the sale of milk and cream because of unsanitary conditions in dairies, or creameries, or milk shops, or for any other cause that may make the sale of any particular milk or cream a menace to the public health.

3. Penalties—For any violation of this ordinance the Department of Health shall forthwith warn the offending dealer or revoke his permit; for a third violation the said Board of Health shall revoke the dealer's permit.

4. Repealer—All ordinances or parts of ordinances inconsistent or conflicting with the foregoing provisions are hereby repealed.

(ORIGINAL, INT. No. 1559.)

Resolved, by the Board of Aldermen, as follows:

Except as hereinafter provided, no raw milk shall be sold at retail in The City of New York. All milk sold at retail in said city shall hereafter be pasteurized or sterilized; provided, however, that the foregoing provisions shall not apply to the sale of milk at retail in sealed bottles, provided said milk is bottled in a sanitary dairy in The City of New York under the personal supervision of an Inspector or Inspectors of the Department of Health of said city, and provided further that all such milk so bottled shall be first tested and passed as wholesome milk by said Inspector, and that said Inspector shall place upon each bottle of said milk so inspected a stamp or seal so constructed that said bottle cannot be opened when so sealed without breaking said seal, and which said seal shall have printed or otherwise displayed thereon the words "Department of Health of The City of New York," together with the name of the Inspector who seals said bottles, and the word "Inspected," followed by the date of inspection; and be it further provided that in all cases where such inspected milk is sold in bottles, the person or seller causing said milk to be so bottled shall pay to the City Chamberlain for the use of the Department of Health of said City the sum of two cents for each bottle so inspected and sealed for the purpose of defraying the cost of stamps and the other expenses of said department connected with the making of said inspection and stamping or sealing; and be it further provided that in case any Inspector of said Department of Health shall fraudulently or negligently fail to perform his full duty in the making of said inspection so that he shall allow impure milk to be sold in such bottles by reason of such negligence or such fraud, such Inspector shall be deemed guilty of a misdemeanor, and the offender shall also be liable to pay a penalty of fifty dollars; and be it further

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 2013.

City of New York—Office of the Mayor, }
May 14, 1907. }

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—In the death of Charles Haynes Haswell, for nearly thirty years a faithful, earnest and energetic servant of The City of New York, and for many years prior to that an engineering officer in the United States Navy, we have sustained a loss which it is my painful duty to call to the attention of your Honorable Board.

Mr. Haswell was born in this City in 1809, and would have reached the age of ninety-eight on the 22d day of this month. He was appointed a United States Naval Engineer in 1836, was Chief Engineer in 1845, a rank which he held until 1851, and during which time he brought our early steam navy to the highest point of efficiency in its history.

Mr. Haswell's services to the City are almost as conspicuous as his services to the national government. He died as a result of an accident at a time when, in spite of his advanced age, he was in full possession of his faculties, and was one of the City's most valuable servants.

He was the oldest civil employee in this country, if not in the world. He was the only living man who cruised on the "Clermont," and had planned to take an active part in the Hudson-Fulton celebration of 1909.

The unexpected ending to this most useful life is a matter which I bring to the notice of your Honorable Board for such action as you may deem fitting.

Respectfully,

GEO. B. McCLELLAN, Mayor.

In connection therewith Alderman Dowling offered the following resolution:

No. 2014.

Whereas, It has pleased Divine Providence to call to rest

Charles Haynes Haswell,

the great engineer, who for thirty years has faithfully served this City with a modesty equal to his genius; and

Whereas, His world-wide reputation as the first engineer who applied steam to war vessels, the first Chief Engineer of the United States Navy, the author of the most comprehensive compendium of engineering science that could be compiled, which to-day is the leading authority in every land on the subjects of which it treats, is even greater than the modesty and love for his native city which impelled him to endure a comparatively obscure station in the later years of his life; be it

Resolved, That this Board of Aldermen of The City of New York deem it their duty to record their appreciation of the brilliant career of this noble and most efficient public servant, as well as of his civic virtues and beautiful moral character.

But a few days short of the great age of ninety-eight years when he succumbed to an accident, he practically died in harness, setting a splendid example to his fellow countrymen and proving that vigor is not wanting in virtuous old men.

Resolved, further, That this Board offers its hearty condolences to the family of the illustrious dead, whom we deplore, and that a copy of this preamble and resolutions, properly engrossed and duly authenticated by the City Clerk, be transmitted to the surviving relatives of the deceased, and as a further mark of respect that this Board do now adjourn.

Which was adopted by a rising vote.

The matter of engrossing the resolution was referred to the Committee on Printed and Engrossed Ordinances and Resolutions.

And the President declared that the Board stood adjourned until Tuesday, May 21, 1907, at 10.30 o'clock a. m.

P. J. SCULLY,

City Clerk and Clerk of the Board of Aldermen.

POLICE DEPARTMENT.

April 29, 1907.

The following proceedings were this day directed by the Police Commissioner:

On reading and filing eligible list of the Municipal Civil Service Commission, dated April 17, 1907;

Ordered, That Dewitt C. Cooley, of No. 37 Castleton avenue, Tompkinsville, Staten Island, be and is hereby appointed Fireman on the steamboat "Patrol," with compensation at the rate of \$900 per annum.

Whereas, James C. Pritchard, employed on probation as Patrolman April 1, 1907, stated in error that the date of his birth was March 22, 1883, instead of March 21, 1886, the correct date, according to certificate from Rev. L. J. Evers, pastor of St. Andrew's Roman Catholic Church, by which it would appear that the said Pritchard was of age when employed on probation, but not of age when certified to this Department, and the Municipal Civil Service Commission having been requested, in communication from the Police Commissioner, dated April 27, 1907, to return the said Pritchard to the eligible list pending their examination as to his eligibility;

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS, NEW YORK, May 8, 1907.

NOTICE IS HEREBY GIVEN, IN ACCORDANCE with section 432 of the Charter of The City of New York, that petition, signed

by property owners and residents of the Newtown District for Local Improvements to change the map of The City of New York, at Maspeth, in the Second Ward of the Borough of Queens, by removing therefrom that portion of Shafter street and Sophie street extending from Flushing avenue to the Bushwick branch of the Long Island Railroad, has been filed in this office, and is now ready for public inspection, and that a meeting of the Board of Local Improvements of the Newtown District for Local Improvements will be held in the Borough office, Hackett Building, Long Island City, on the 23d day of May, 1907, at 10.30 a. m., at which meeting said petition will be submitted to the Board.

The reasons for this change are as follows: "This property is now owned and occupied by two large manufacturing interests requiring a large area for the operation of their business, and employing, when in full operation, at least one thousand hands.

"There is no possibility of any future demand for the opening of this portion of these two streets, owing, first, to the fact that they would have to cross the Long Island Railroad property, and the expense of such crossing, owing to the present grade crossing law, would be prohibitive, and as there is now a crossing at Garrison street on one side of this property and at Metropolitan avenue on the other side, there would be no reason for additional crossings between these two points; second, the (attached) map of this section of the City will indicate that these two streets are not necessary, and do not lead to any continuous thoroughfares, and hence any request for street opening on this basis is eliminated.

"This particular section is essentially a manufacturing district, and the proximity of the railroad, making it possible for manufacturers to have a siding on their own property, enabling them to handle their product with the least possible expense, makes it altogether desirable that these streets be taken from the map, as they would only be required in case the property were desirable for building dwelling houses, when small lots of ground would be necessary, fronting on intersecting streets.

"It will of course be plain to you that the establishing of manufacturing enterprises of this character in the section indicated is the very best method of advancing the general interests of the neighborhood and bringing home builders to this section, thereby adding largely to the general growth of the Borough and increasing the assessed value of the neighboring property."

JOSEPH BERMEI,
President.

HERMAN RINGE,
Secretary.

May 14, 1907.
Notice is hereby given that the public hearing on the above petition has been adjourned from May 23, 1907, to Tuesday, May 28, 1907, at 10.30 a. m., at which time the meeting of the Newtown Local Board will be held.

JOSEPH BERMEI,
President.

HERMAN RINGE,
Secretary.

PUBLIC NOTICE IS HEREBY GIVEN THAT AT A MEETING OF THE BOARD OF ESTIMATE AND APPORTIONMENT, held April 5, 1907, the following petition was received:

To the Board of Estimate and Apportionment:

The petition of New York and Port Chester Railroad Company respectfully shows and alleges upon information and belief:

That heretofore and on or about the 11th day of June, 1906, a contract dated May 31, 1906; was entered into by and between The City of New York and your petitioner, which contract was duly executed by George B. McClellan, Mayor of The City of New York, on behalf of The City of New York, and by New York and Port Chester Railroad Company by J. B. Stewart, its president, on the 11th day of June, 1906.

That in and by said contract, among other things, The City of New York granted to your petitioner, subject to certain conditions and provisions therein set forth, the right to cross certain streets and highways therein described, and the right and privilege to construct, maintain and operate a railroad with all connections, turn-outs, switches and cross-overs necessary for the accommodation and operation of said railroad, by means of electricity or by any mechanical motive power which may be lawfully employed upon the same except steam locomotive power in, upon and across certain named streets, avenues, parkways, highways and public places situated in the Borough of The Bronx, City, County and State of New York, upon a route therein particularly set forth and described in section 1 of the said contract, being the route shown on a certain map entitled "Survey, map and profile of the line and route of the railroad of the New York and Port Chester Railroad Company in The City of New York, State of New York," adopted by the Board of Directors of the said company on the 8th day of February, 1904, and signed by W. C. Gotshall, President; W. C. Gotshall, Chief Engineer, and Francis Blanchard, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 6th day of May, 1904, or any lawful amendment which may be consented to by the Board of Estimate and Apportionment or its successors in authority.

That on the 2d day of April, 1907, this petitioner, by a vote of two-thirds of its directors, at a meeting of the Board of Directors, regularly held pursuant to due notice, changed and altered the route of that part of its main line situate, lying and being between the Harlem river and the northern boundary line of The City of New York, and changed its southern terminus from a point at or near the intersection of Southern Boulevard and Willis avenue, in the Borough of The Bronx, to a point at or near the intersection of One Hundred and Thirty-second street and Willis avenue, to a point on the Harlem river at or near the point where Alexander avenue extended intersects the north bank of the Harlem river; and also changed and altered the route of its branch line from its connection with its main line near Adams street and Morris Park avenue to Clason's Point, in said County; and also adopted a map and profile of the whole of its route as thus amended, and authorized its President, Chief Engineer and at least two-thirds of the directors, which map and profile are entitled "Survey, map and profile of the New York and Port Chester Railroad Company for New York County, New York, Sections I, II, and III, respectively;" and thereafter, on the 4th day of April, 1907, the said map and profile of the said route as amended and adopted for the entire route of your petitioner in the County of New York was by your petitioner filed in the office of the County Clerk of the County of New York, and thereupon the route of your petitioner's road became and was lawfully amended in conformity with the said map and profile as filed. That said amended route became and now is the lawful route of this petitioner located in all respects in conformity with law.

PUBLIC NOTICE.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK.

AT A MEETING OF THE BOARD OF Estimate and Apportionment, held April 12, 1907, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The Fort George Street Railway Company has, under date of July 3, 1906, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railroad upon and along St. Nicholas (or Eleventh) avenue, between the Dyckman street station of the Interborough Rapid Transit Railroad and West One Hundred and Ninetieth street, Borough of Manhattan; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 66 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws, this Board adopted a resolution on July 6, 1906, fixing the date for public hearing thereon as September 28, 1906, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "Sun" and the "World," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Fort George Street Railway Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Fort George Street Railway Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Fort George Street Railway Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

FORT GEORGE STREET RAILWAY COMPANY. Proposed Form of Contract.

This contract made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City acting for and in the name of said City under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Fort George Street Railway Company, incorporated for the purpose of building, maintaining and operating a street surface railroad (hereinafter called the Company), party of the second part, witnesseth: In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a street surface railroad by electrical system, together with the necessary wires and other equipment for the purpose of conveying persons and property in the Borough of Manhattan, City of New York, upon the following route:

Beginning at a point about seven hundred feet south of the intersection of Dyckman street and Nagle avenue, running thence by double track in a southerly direction through, upon and along St. Nicholas avenue to its intersection with West One Hundred and Ninetieth street, all in the Borough of Manhattan, in the City, County and State of New York.

Said route, together with turnouts, switches, stands and crossovers hereby authorized, are shown upon a map entitled:

"Map showing proposed route of the Fort George Street Railway Company, to accompany amended petition to the Board of Estimate and Apportionment. Dated October 16, 1906. Original petition dated July 3, 1906,"—and signed by R. E. Simon, President, and A. E. Kalbach, Consulting Engineer.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within two months thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law, to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine, unless the period shall be extended by the Board of Estimate and Apportionment.

Second—This consent is upon the express condition that the Company within sixty days after the signing of this contract by the Mayor and before anything is done in the exercise of the rights conferred thereby, shall enter into a traffic agreement with the Interborough Rapid Transit Company whereby passengers entering the cars of either the Company or the Interborough Rapid Transit Company (subway) shall be entitled to a continuous passage on both of the said lines upon the payment of a single fare of five cents; such agreement shall be for a period of at least twenty-five years.

Third—The said right to construct, maintain and operate a street surface railroad as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five years, upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Company, its successors or assigns. The Company shall, however, not have the right to exercise such privilege of renewal until it has entered into a traffic agreement with the Interborough Rapid Transit Company, or its successors, in the operation of the Rapid Transit Railroad (subway), as above, for said renewal period.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than that sum required to be paid during the last year in this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract, within the streets and highways of the City, shall become the property of the City, without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

At the termination of this grant as above, the City, at the election of the Board, shall have the right to purchase all the property of the Company not within the streets or avenues, at its fair market value, exclusive of any value which such property may have by reason of this contract. Such valuation shall be determined in the same manner as revaluation for a renewal of this contract, as herein provided. If, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The Company, its successor or assigns, shall pay to the City for the right to construct, maintain and operate a street surface railway on the route herein described, the following sums of money:

1. Five thousand dollars (\$5,000) in cash, within thirty (30) days after the signing of this contract by the Mayor.

2. During the first five years of this contract an annual sum, which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three per cent. of the gross receipts of the Company, if such percentage shall exceed a sum of five hundred dollars (\$500).

During the remaining twenty years of this contract an annual sum, which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The payment of such minimum sums shall begin from the day on which the contract is signed by the Mayor.

The terms hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract, and no renewal shall provide for a further renewal.

Such minimum annual sums shall be paid into the Treasury of the City of New York on November 1 of each year, and shall be for the amount due to September 30, next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1, in each year, for the year ending September 30, next preceding. The fiscal year shall end on September 30, next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with. The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to the City for the rights and privileges hereby granted, and it shall be construed as providing for the payment by the Company, its successors or assigns, for said right and privilege of a percentage of gross receipts within the meaning of any general or special statute, or of any ordinance of the City.

Any and all payments to be made by the terms of this contract to the City, by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or by any law of the State of New York.

Sixth—The annual charges or payments shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchise at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any part of the route mentioned herein, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving, or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad and of the cost of keeping the tracks and track equipment in repair, as the number of

cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railroad which may necessitate the use of any portion of the railroad which shall be constructed under this contract.

Ninth—The railroad to be constructed under this contract may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the New York City Interborough Railway Company or by the underground electric system now in use by the lines of the New York City Railway Company. Provided, however, that the Board of Estimate and Apportionment, or its successors in authority, after five years from the date of this contract, may, upon giving to the grantee, its successor or assigns, six months' notice in writing, require it or them to operate the railroad upon the whole or upon any portion of its route by underground electrical power substantially similar to the system now in use on the lines of the New York City Railway Company in the Borough of Manhattan, above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways.

When the change shall have been made to the underground system, all wires for the transmission of power or otherwise, shall be placed in conduits underneath or alongside of the railroad. The Company shall provide two conduits, not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company and by the City.

This provision shall in no way be taken as a limitation on the Police powers of the City, as provided in sections 525 et seq. of the Greater New York Charter.

Tenth—The Company shall commence construction of the railroad herein authorized within three months from the date upon which the consents of the property owners are obtained, or upon the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed, and shall complete the construction of the same within twelve months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Eleventh—The said railroad shall be constructed, maintained and operated, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City.

Twelfth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railroad and property of the Company shall be maintained in good condition throughout the term of this contract.

The Company shall remove the stub-end terminal at St. Nicholas avenue, north of West One Hundred and Eightieth street, hereby authorized, upon six (6) months' notice in writing from the Board of Estimate and Apportionment.

Thirteenth—The rate of fare for any passenger upon such railroad shall not exceed five cents, and the Company shall not charge any passenger more than five cents for one continuous ride from any point on said railroad, or a line or branch operated by it, its lessees or assigns in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York.

Transfers shall be given between the Interborough Rapid Transit Company (subway division) and the Company at the Interborough Rapid Transit Railway station at Dyckman street for a single fare of five cents, as required by traffic agreement between said companies.

The rate for the carrying of property over the said railroad upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Fourteenth—The cars of the Company shall be run both day and night as often as the reasonable convenience of the public may require, or as may be directed by the Board, but at no time shall the headway at any point on the railway be more than twenty minutes between the hours of 5 o'clock p. m. and midnight.

Fifteenth—The Company shall attach to each car run over the said railroad proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railroad shall be equipped with both hand and power brakes.

Seventeenth—All cars which are operated on said railroad shall be heated during the cold weather in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, when so required by the Board of Estimate and Apportionment.

Nineteenth—All cars operated on said railroad shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the route hereby authorized, which are now either unpaved

or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railroad, or any portion thereof, remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed, shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay to the City any sum or sums that the City may pay, either as a result of a judgment against it or by way of settlement or compromise, for any injuries either to person or property arising from failure of the Company to pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, as hereinbefore provided.

Twenty-second—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets on account of the construction or operation of the railroad, shall be made at the sole cost of the railroad company and in such manner as the proper City officials may prescribe.

Twenty-third—The Company hereby agrees not to issue stock other than has been heretofore issued until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock reasonably required for the purposes of the Company. The stock of the Company shall not be issued in excess of the amount so certified.

The Company shall not increase its capital stock above the \$25,000 now authorized, without the consent in writing of the Board of Estimate and Apportionment, stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stocks to be issued, or the amount of the authorized increase of the capital stock of the Company, the Board of Estimate and Apportionment may take and hear testimony under oath, and examine the books and papers of the Company, and require verified statements from the officers thereof pertaining to the value of the property and of the franchise owned or operated by the Company. Such determination shall be made within sixty (60) days after the final submission of the papers or of the final hearing on the application for the issue or increase of capital stock.

Twenty-fourth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall on or before November 1 of each year make a verified report to the Comptroller of the City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Twenty-sixth—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, except for those defaults or defects for which penalties are hereinafter provided, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-seventh—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-eighth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven thousand dollars (\$7,000) either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the

said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of twenty-five dollars (\$25) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provision relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of seven thousand dollars (\$7,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
