BOROUGH OF QUEENS.

REPORT OF THE PRESIDENT FOR THE YEAR ENDING DECEMBER 31, 1906.

Office of the President of the Borough of Queens, }
Long Island City, February 20, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, City of New York:

Sir—In accordance with the provisions of section 383 of the Greater New York Charter, I respectfully beg to submit herewith a report of the business and transactions of this department for the year ending December 31, 1906.

I take advantage of the opportunity offered to bring to your attention, among other matters, the enormous increase in population of the Borough of Queens, and how to adequately provide for the still greater numbers that will undoubtedly come with the completion of the Blackwell's Island Bridge and tunnels now in course of construction.

One of the greatest problems confronting the borough government is to keep pace, in the matter of improvements, with the phenomenal increase in population, an idea of which can be secured from the fact that 4,070 plans for new buildings, showing an estimated cost of construction of \$17,003,216, were filed in the Bureau of Buildings during the year 1906; alterations aggregating \$1,297,763, bringing the total of new work planned to \$18,300,979.

Many new sections have been laid out and developed, the majority of which work was done in a manner suited to the needs of the property, but without regard to the official topographical layout, and it has been found practically impossible that every new section thus opened up be given necessary improvements, yet I feel that in all future public matters relating to the Borough of Queens, it would be only fair and just that the matters above mentioned be borne in mind.

In this connection I might add that while in the natural course of official business numerous complaints and delegations of citizens and taxpayers have vividly emphasized the absolute necessity of improvements which, if circumstances permitted, should be made, the various bureaus under my jurisdiction have invariably placed the fact before the general public in a careful and tactful manner, and thus demonstrated to them that no efforts were being spared to do everything possible to ameliorate conditions.

The Topographical Bureau, as may be noted from its report, is making great advances towards the completion of a topographical map for the entire borough, and it is hoped to have such a map completed early in the year 1908; this will eventually result in the ability to initiate improvements for those sections of the borough which at the present time are retarded in securing public improvements by the lack of the necessary authority which the map in question will give.

The Bureau of Highways has done commendable work in maintenance, repairs and reconstruction of paved, macadamized and unpaved streets, particularly in sections where the lack of sewers to carry off storm water necessitated the greatest amount of skill to keep the streets in a passable and safe condition after storms.

Experiments have been made to lay the dust on certain macadamized roads extensively used by vehicles of all descriptions, and it is hoped that some system will be perfected during the coming year whereby this evil can be overcome.

The Bureau of Sewers has been during the past year, and will continue to be, one of the most important branches of our borough government, and while a great many of the problems presented to it have been disposed of to the entire satisfaction of the general public, there is still a stupendous amount of work to be accomplished to meet the unusual conditions at present prevailing in this borough.

The Bureau of Buildings has been conducted with skill and dispatch; however, it is self-apparent that to meet the conditions already referred to in this report, its working force will have to be reasonably increased at an early date.

The Bureau of Street Cleaning has accomplished very creditable work, notwithstanding the peculiar conditions it is subjected to at times by the extreme burdens placed upon it, particularly during the summer months, when the floating population at summer resorts in the Borough of Queens has added greatly to its labors.

The Bureau of Public Buildings and Offices, which has to contend with the conditions, in my estimation, peculiar and true of this Borough alone, among a widely scattered location of the various public buildings within its jurisdiction, has endeavored and fully succeeded in making a fine showing.

In connection with the last preceding paragraph, too much stress cannot be laid upon the absolute necessity of a borough hall for this borough, a matter of vital importance, and one which would add materially to the greater despatch and efficiency of co-operation of the various bureaus.

A reference to the report of the Bureau of Public Buildings and Offices will show at a glance why certain bureaus which are now located in private and public buildings widely scattered throughout the borough should be under one roof.

Respectfully submitted,

JOSEPH BERMEI,

President of the Borough of Queens.

BUREAU OF STREET CLEANING.

Bureau of Street Cleaning, Borough of Queens,
Office, No. 48 Jackson Avenue,
Long Island City, January 25, 1907.

LAWRENCE GRESSER, Esq., Commissioner of Public Works, Borough of Queens:

Dear Sir—In accordance with the provisions of section 1544 of the Greater New York Charter, I respectfully beg to transmit herewith report of the transactions of the Bureau of Street Cleaning for the year ending December 31, 1906.

While the increased building operations during the past year have brought a consequent increase in population, the Bureau with very little increase over the previous year's Budget has ably met all requirements.

The number of collections of ashes and garbage has been increased all over the borough to the general satisfaction of the people; more miles of streets have been swept, and many other than paved streets have been cleaned of rubbish, paper and decaying matter, thus adding to sanitary conditions as well as cleanliness.

The summer beaches and picnic grounds have done a very large business, and, while bringing a gratifying prosperity to our people, have added greatly to our labors.

Our crematories were in a very bad state of repair, and, within the limit of our regular appropriation, they have been repaired and two of them have been altered to burn rubbish and paper, thereby avoiding the use of coal with its resultant expense and black smoke, which was a cause of complaint from adjoining property owners and residents generally.

As we need paper and rubbish for fuel, I am enforcing the separation of ashes, garbage and refuse so that our dumps are now clean and not a source of complaint.

I trust to be able to alter the three remaining crematories to burn paper and rubbish and thus require little or no coal for fuel, saving two thousand dollars (\$2,000) or more for coal annually; I have at all times urged the public to make complaint to this office in writing, and have thus been able to modify and correct conditions.

During the past six months few complaints have been made, which is gratifying as an indication of good will and industry on the part of our working force.

Very respectfully,

LUCIEN KNAPP, Superintendent.

The following tabulated statement shows the amount of different materials collected and disposed of during the year 1906; loads are figured as of carts of one and one-half cubic yards and weighing each approximately an average of one ton for garbage and ashes and one-half ton for refuse.

Loads at Barren Island.....	2,093

Dumps are under the control of this bureau and secured from owners by permission of the Board of Health. Snow was removed from all streets where traffic would otherwise be impeded. From ferry approaches and railroad depots it was dumped in open lots, Flushing creek, East river and Rockaway Bay.

Miles of streets swept and cleared of snow where necessary, 75.

During the summer months the force in the Fifth District (the Rockaways) is materially augmented by the addition of trucks and teams, and one tug and two scows, the same being necessary owing to the extraordinarily heavy business of this district during the summer season, due to the popularity of the Rockaways as a health and pleasure resort.

Jamaica, N. Y., January 10, 1906.

Hon. LAWRENCE GRESSER, Commissioner of Public Works, Borough of Queens:

Dear Sir—I herewith present the following annual report of the transactions of the Bureau of Public Buildings and Offices, Borough of Queens, for the year ending December 31, 1906.

Respectfully submitted,
MATHEW J. GOLDNER, Superintendent.
Statement.

The following is a statement of the buildings under the control of the Bureau of Public Buildings and Offices, Borough of Queens, and a brief summary of how occupied, repairs made, etc., during the year of 1906:

Queens County Court House (Owned), Court Square, First Ward, Long Island City—The portions of this building not destroyed by fire have been protected from the weather and plans have been approved for the reconstruction of the building. The jail and administration building have received considerable attention during the year. Extensive repairs have been made to the plumbing and the interior of the jail thoroughly painted. This building is occupied by the Sheriff, District Attorney and Commissioner of Jurors.

Hackett Building (Borough Hall), Jackson and Fifth Streets, Long Island City—Occupied by the Department of Taxes and Assessments, Assessments and Arrears, Deputy Receiver of Taxes, offices of the President of the Borough of Queens, Bureau of Highways, Bureau of Sewers, Bureau of Buildings, Department of Water Supply, Gas and Electricity, office of the Bureau of Licenses and offices of the Commissioner of Public Works.

This building is leased by the City. During the past year the interior of the building has been thoroughly renovated and new office partitions and considerable new office furniture and fixtures have been installed, adding to the comfort and convenience of the public and occupants.

St. Mary's Lyceum, Long Island City (Leased), Fifth Street, Long Island City—Occupied by the First District Municipal Court and by the First District Magistrate's Court.

A courtroom has been arranged in the building during the year for the use of the First District Municipal Court. Interior repairs have been made as required and necessary supplies furnished.

Building No. 48 Jackson Avenue, Long Island City (Leased)—Occupied by the Bureau of Street Cleaning. Necessary interior repairs have been made and Janitors' supplies furnished.

Building, Jackson Avenue and Court Square, Long Island City (Leased)—Occupied by the Topographical Bureau.

Drawing tables and filing cases have been erected in this office and small supplies furnished.

Old Court Building, Broadway and Court Streets, Astoria, Long Island City—Owned by the City and occupied by a caretaker. Unfit for public use.

Town Hall, Newtown (Owned)—Occupied by the Municipal Court, Second District, and the Police Department.

All exterior and interior repairs have been made as required, including quite extensive repairs to the plumbing and the heating apparatus.

Town Hall, Flushing, Long Island (Owned), Broadway and Linden Street, Flushing—Occupied by Parts 1 and 2 of the Supreme Court, by the Second District Magistrate's Court and the local Superintendent of Highways. The building has been thoroughly repaired and two courtrooms have been fitted up at considerable expense for the use of the Supreme Court. All necessary furnishings and supplies have been provided.

Town Hall, Jamaica, Long Island (Owned), Fulton Street and Flushing Avenue, Jamaica—Occupied by the Court of Special Sessions, Municipal Court of the Third District, Coroner's Court and offices, Bureau of Public Buildings and Offices, Local Superintendent of Highways, Fire Alarm Station and the Police Department.

This building is in good condition, having recently been thoroughly overhauled. Supplies have been furnished the various offices as required; also Janitors' supplies.

County Clerk and Surrogate's Office Building (Owned), Fulton Street, Jamaica—Occupied by the County Clerk and Surrogate.

The building, both interior and exterior, is in fair repair. Owing to the great volume of business now transacted in the office of the County Clerk, the portion of the building set aside for his office is entirely inadequate, and action should be taken at once to enlarge this office, as at present it is a source of great inconvenience to persons having business to transact. During the past year several filing cases and book racks have been removed to the top floor of the building in order to gain more room on the main floor.

City Magistrate's Court Building, Far Rockaway (Owned), Central Avenue, near Mott Avenue, Far Rockaway, N. Y.—Occupied by the Third District Magistrate's Court and the local Superintendent of Highways.

This building requires extensive repairs and the exterior is badly in need of paint. Temporary repairs have been made during the year as required and all necessary supplies furnished.

In addition to the above, since the destruction of the Queens County Court House by fire, a court room has been fitted up on the upper floor of the Long Island City Police Station House for the use of the County Court. The courtroom is cared for by this bureau and all supplies furnished.

The necessity of a suitable borough building, where all branches of the City government under the jurisdiction of the President of the Borough, etc., may be located under one roof, is apparent to all, not alone as a matter of convenience, but from an economical standpoint. The fitting up of offices in leased buildings is expensive and unsatisfactory, and where bureaus under the jurisdiction of the President of the Borough are remote from each other it is a source of great annoyance to a large number of citizens.

This bureau has been seriously handicapped on account of insufficient appropriations, and it has been almost impossible to make necessary repairs to buildings, keep the same clean and furnish the supplies required.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for bonds or stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the bonds or stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit. All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the bonds or stock awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held July 8, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

THURSDAY, AUGUST 29, 1907,

at 12 o'clock m., on the premises, on the following

TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete, after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract. Said bond must be filed within forty-eight hours after the sale.

All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes at the main pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel and to reject any or all bids.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for the City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the bid or estimate, made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears, to the City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
