Report for the Quarter Ending March 31, 1879.

DEPARTMENT OF TAXES AND ASSESSMENTS,
COMMISSIONERS' OFFICE,
NEW YORK, April 1, 1879.

Hon. EDWARD COOPER, Mayor, etc.:

SIR—Pursuant to the requirements of section 27 of chapter 335, Laws of 1873, the Commissioners of Taxes and Assessments respectfully

REPORT:

That the books of "Annual Record of the Assessed Valuations of Real and Personal Estate" were duly opened on the second Monday (13th) of January last, pursuant to the provisions of section 8 of chapter 302 of the Laws of 1859, and have remained open since that date for examination by the tax-payers.

As these books are required by law to remain open until the 30th April, no definite statement of results can at present be made as to the corrections to be made by the Commissioners.

On the 1st of February a communication was transmitted by this Department to the Department of Public Parks, containing the information from the Surveyor of this Department in reference to the making of new maps of the territory constituting the Twenty-third and Twenty-fourth Wards of the City of New York, by the Department of Public Parks, for the use of this Department, as provided by chapter 411 of the Laws of 1876.

In the Supreme Court, Special Term, Judge Barrett presiding, the action of the Tax Commissioners has been affirmed in assessing certain property belonging to the New York Elevated Railroad Company as real estate, with respect to the foundations and superstructures thereof; but with respect to the personality, the proceedings must be reversed.

The case has been carried, on appeal, to the General Term of the Supreme Court. In the case of The People, ex rel. the Manhattan Fire Insurance Company and others, appellants, against the Board of Commissioners of Taxes and Assessments of the City and County of New York, where it was claimed that the assessment was illegal, and in conflict with the acts of the Legislature of the State of New York, a decision was made in favor of the said Commissioners, and their proceedings affirmed by the associate judges of the Supreme Court at a General Term thereof, October 31, 1878. It was ordered up on the same date on appeal to the Court of Appeals, where it has been argued, and decision made affirming the proceedings of said Commissioners and sustaining the action of the courts below.

Frequent applications having been made to this Department to furnish copies of any papers in reference to the personal tax lists, and the assessments on personal property, the following communication from the Counsel to the Corporation in reply to the resolution adopted by this Board requesting his written opinion on this subject was received:

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, February 11, 1879.

ALBERT STORER, Secretary of the Department of Taxes and Assessments:

SIR—I duly received your communication of the 1st inst., inclosing a copy of the following resolution, adopted by the Board on that day:

"Resolved, That the Secretary of this Board be and is hereby instructed to address a formal communication to the Counsel to the Corporation, desiring, at his earliest convenience, his written opinion as to whether or not this Board is legally bound to furnish copies of any papers in reference to the personal tax-lists, and the assessments on personal property, as may from time to time be demanded; and also what rules and regulations it would be, in the judgment of the Counsel to the Corporation, prudent and proper for the Commissioners to make in reference to such copies, in view of their obligations to the tax-payers, and the best interests of the city, and the statute in that case made and provided."

Section 107 of the Charter of 1873 contains, among other things, the following provision:

"The heads of all Departments, except the Police Department, and the chief of each and every bureau of said Departments, or any of them, except the Police Department, shall, with reasonable promptness, furnish to any tax-payer desiring the same a true and certified copy of any book, account, or paper kept by such department, bureau, or officer, or such part thereof as may be demanded, upon payment in advance of five cents for every hundred words thereof by the person demanding the same."

I have no doubt whatever that this provision applies to the Department of Taxes and Assessments, and that any tax-payer who offers to pay in advance at the rate of five cents for every hundred words has the right to demand and receive, with reasonable promptness, a true and certified copy of any papers kept by the Department in reference to the personal tax-lists, and the assessments on personal property.

Section 87 of the Charter of 1873 contains, among other things, the following:

"The Department of Taxes and Assessments shall have for its head a President, who shall be so designated in his appointment, and two Commissioners, who together shall possess all the powers and perform all the duties now possessed and performed by the Commissioners of Taxes and Assessments."

In most cases where the charter provides that the affairs of a Department shall be under the control of several Commissioners, it is declared that the head of the Department shall be a Board, consisting of a certain number of Commissioners. In view of the above provision, which seems to be peculiar to the Tax Department, there may be some question whether the duty of furnishing copies of papers is devolved upon the President or upon the Board, consisting of the President and two Commissioners; but there can be no doubt that it is the duty of the President, and I think, also of the Board, upon a proper demand, to furnish copies of papers kept by the Department.

The only conditions necessary to entitle a person to have copies of such papers is, that the party applying should be a tax-payer, and should pay, or offer to pay, in advance, five cents for every hundred words of the copy. I think that when any person applies for a copy of any paper, inquiry should be made of him whether he is a tax-payer, and if he states that he is, such statement can easily be verified by the books of the Department. If it appears that he is a tax-payer, he should then be informed of the sum which it is necessary for him to pay in advance to obtain a copy, and such payment having been made, the copy should be prepared and certified by the President or one of the Commissioners, or by such other officer of the Department as may be authorized so to do by resolution of the Board, to be a true one, and should be delivered with such promptness as may be reasonable under the circumstances of each case.

It seems to me the proper and prudent course in this matter would be for the Board to adopt a general rule or regulation, providing that whenever any person applies for a copy of any paper, stating that he is a tax-payer, if it shall appear by the records of the Department that he is a tax-payer, the President or either of the Commissioners shall be authorized to cause a copy of any such paper to be prepared, certified, and delivered to the applicant, provided that payment in advance, at the rate of five cents for each hundred words, shall have been made.

On several occasions during the administration of Comptroller Green, my attention was called by him to the fact that lawyers were demanding an inspection of the books of the office, for the express purpose of hunting out information, upon which to bring suits against the city, and I was

asked by him the question whether he could legally refuse an inspection, on the ground that it would be prejudicial to the interests of the city to give the information. I then informed him that the law did not make him the judge as to when and under what circumstances public records and documents should be open to inspection, nor authorize him to investigate the motives which actuated the applicant in seeking the information.

The rule is made imperative, that public records and documents shall always be open to the inspection of tax-payers, and the advantages of the system, as tending to give publicity to the transactions of the public officials, and thereby prevent frauds, are supposed to counterbalance the disadvantages, of which there are doubtless some.

I am, Sir, yours respectfully,

W. C. WHITNEY, Counsel to the Corporation.

The Committee of Ways and Means, at Albany, under special instructions from the House to inquire into the subject of the taxation of corporations, whether these corporations did not escape in large part from paying taxes on their personal property, and what legislation, if any, was needed to make our tax laws more efficient, has called upon this Department for certain information bearing upon this important subject, which has been furnished accordingly in a report made to said committee by the Tax Commissioners, entitled "Record of Personal Property of Corporations, etc., as returned to Department of Taxes and Assessments, 1878," published in pamphlet form, and which is herewith transmitted.

Respectfully submitted,

JOHN WHEELER, }
JOHN N. HAYWARD, } Commissioners
GEO. B. VANDERPOEL, } of

Life Insurance Companies do not pay a personal property tax, for the reason that the accumulations of each company are held for the benefit of the assured. Their capital, with the exception of those designated by this mark *, is wholly invested in government bonds.

There are several millions of dollars of real estate owned in fee by the different Life Insurance Companies throughout the city, the location of which is unknown to the Commissioners, and assessed as similar property in its respective location, and taxes paid upon it by the corporations owning such property, which now stands upon the record books of this Department in the names of the previous owners.

Whereas, In the general sorrow for the death of this great and good man, it is the mournful duty of the people of this city to participate, and to testify, in an appropriate manner, their sense of the loss they have sustained—a loss that will be equally experienced by the people of this State and nation. In all the relations the deceased held towards the people during his long eventful and useful public life, and they were more varied and important, probably, than those of any other public man now living, honesty, capability, and industry characterized his motives and actions, and he has been summoned by the Great Architect of the Universe to the rewards promised the fervent Christian, the good citizen, the honest public official, and the courageous soldier, leaving to posterity a record that will be held up for the emulation of future generations of the wise, the brave, the pure, and the good; be it therefore

Resolved, That as an evidence of the sorrow for the death of Major-General John A. Dix, now pervading the people of this city, that the flags be displayed at half-staff on all the public buildings in this city on the day set apart for solemnizing the funeral ceremonies; that the owners of private buildings in this city, and the masters or owners of the shipping in the harbor be requested to display their flags at half-mast on that day, and that a Special Committee of five members of this Common Council be appointed to carry into effect the provisions of this resolution, and to represent the government and people of this city on the solemn and sorrowful occasion of paying the last tribute of respect to the remains of the deceased; and be it further

Resolved, That as a further mark of respect for the memory of the deceased, this Board do now adjourn.

And the President pro tem. appointed as such Committee, Aldermen Roberts, Burns, Houghton, Perley, and Stewart,

The coal must be of the best quality of white ash, furnace, egg, stove, and nut sizes, clean and in good order, two thousand two hundred and forty (2,240) pounds to the ton, and must be delivered in the bins of the several school buildings at such times and in such quantities as required by the Committee on Supplies.

The proposals must state the mines from which it is proposed to supply the coal (to be furnished from the mines named, if accepted), and must state the price per ton of two thousand two hundred and forty (2,240) pounds.

The quantity of the various sizes of coal required will be about as follows, viz.: Eight thousand one hundred (8,100) tons of furnace size, nine hundred and fifty (950) tons of stove size, three hundred and fifty (350) tons of egg size, and six hundred (600) tons of nut size.

The oak wood must be of the best quality, the stick not less than three (3) feet long. The pine wood must be of the best quality, Virginia, and not less than three (3) feet six (6) inches long. The proposal must state the price per cord of one hundred and twenty-eight (128) cubic feet, solid measure, for both oak and pine wood, and also the price per cut per load for sawing, and the price per cut per load for splitting, the quantity of oak wood to be split only as required by the Committee on Supplies.

The wood will be inspected and measured under the supervision of the Inspector of Fuel of the Board of Education, and must be delivered at the schools as follows: Two-thirds of the quantity required from the 1st of June to the 15th of September, and the remainder as required by the Committee on Supplies; said wood, both oak and pine, must be delivered sawed, and, when required, split, and must be piled in the yards, cellars, vaults, or bins of the school buildings, as may be designated by the proper authority. The contracts for supplying said coal and wood to be binding until the first day of June, 1880. Two sureties for the faithful performance of the contract will be required, and each proposal must be accompanied by the signatures and residences of the proposed sureties. No compensation will be allowed for delivering said coal and wood at any of

the schools, nor for putting and piling the same in the yards, cellars, vaults, or bins of said schools. Proposals must be directed to the Committee on Supplies of the Board of Education, and should be indorsed "Proposals for Coal," or "Proposals for Wood," as the case may be. TO CONTRACTORS.

PROPOSALS FOR FURNISHING SMALL COBBLE, RIP-RAP AND BROKEN STONE, AND SAND.

SEALED PROPOSALS FOR FURNISHING these materials, indorsed as above, and with the name or names of the person or persons presenting the same, and the date of presentation, and addressed to "The President of the Department of Docks," will be received at this office until 12 o'clock M., of

MONDAY, MAY 5, 1879.

at which time and place the bids will be publicly opened by the head of said Department and read. The award of the contract or contracts will be made as soon as practicable after the opening of the bids.

The Engineer's estimate of the quantities to be furnished is as follows:
Class 1—Small Cobble and Rip-rap Stone for Bulkhead or River Wall, to be deposited in place by Contractor.

A. About 13,500 cubic yards of Small Cobble Stone.

B. About 14,500 cubic yards of Rip-rap Stone.

Class 2—Broken Stone for Concrete.

About 2,400 cubic yards of broken stone.

Class 3.—Sand.

About 1,000 cubic yards of sand.

Proposals may be made for one or more of the above three classes.

The above material to be furnished in accordance with specifications, and to be delivered as called for by orders from the Engineer-in-Chief.

The small cobble and rip-rap stone for the bulkhead or river wall is to be delivered and properly deposited around and between the piles, and in front and rear of the work, at such points on the North river, south of Fourteenth street, as may be designated by the Engineer. The small cobble only is to be placed between the piles, and the rip-rap is to be placed in front and rear of the foundation, and is to be properly mixed with small cobble.

The broken stone and sand are to be unloaded and delivered by the contractor upon the scows of the Department, or upon piers or bulkheads, at such point or points along the North river water-front, south of Fourteenth street, as shall be designated, from time to time, by the Engineer.

All material will be measured, in bulk, on board the vessels of the contractor, at the place of delivery.

The foregoing are the quantities which have been estimated approximately for the construction of the bulkhead or river wall proposed to be built during the year. They form, however, no part of the contract, and persons bidding are cautioned that the Department of Docks does not hold itself responsible that any of them shall strictly obtain in the construction of the work, and reserves the right to terminate the contract at any time after the delivery of the following quantities, to wit:

Class 1.—A. 4,500 cubic yards.

B. 5,000 cubic yards.

Class 2.—800 cubic yards.

Class 3.—350 cubic yards.

Any bidder for this contract must be well prepared for the business, and the bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of seven thousand dollars, in case the whole contract shall be awarded to him; or in the sum of five thousand dollars for the contract for small Cobble and Rip-rap Stone only; or in the sum of one thousand five hundred dollars for the contract for Broken Stone only; or in the sum of two hundred dollars for the contract for Sand only.

This contract is to cease and terminate on the 27th day of December, 1879, and fifty dollars per day is fixed as the liquidated damages, and will be exacted for each day that the delivery of any part of the said materials shall be delayed for ten days after the receipt of the necessary order therefor, Sundays and holidays not to be excepted.

Bidders will state in their proposals the price per cubic yard for either or all of the above three classes of materials respectively, by which the bids will be tested. The price is to cover all expenses of every kind, involved in or incidental to the delivery, including any claim that might arise through delay from any cause in the receiving of the material by the Department.

Bidders will write out the price bid, in addition to inserting the same in figures.

If the lowest bidder or bidders neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they shall accept, but shall refuse or neglect to execute the contract and give the proper security for forty-eight hours after notice that the same is ready for execution, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their proposals their names and places of residence, the names of all persons interested with them therein; and no other person be so interested, the proposal shall distinctly state the fact; also that the bid is made without any connection with any other person making any estimate for the same purpose, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by section 6, of chapter 574, Laws of 1871, and by section 27 of chapter VIII, of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons

for whom he consents to become surety. The adequacy and sufficiency of the sureties offered are to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the proposals is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the material, can be obtained upon application at the office of the Department, Room No. 6.

The contract is to be fully completed on the fifteenth day of August, 1879. Within thirty days, Sundays and holidays included, after the date of the execution of the contract, about one hundred and seventy lineal feet of Coping Stones, under Class "L," and about forty lineal feet of Coping Stones, under Class "M," are to be completed and delivered in accordance with the terms of the contract. Within sixty days, Sundays and holidays included, after the date of the execution of the contract, a further quantity, amounting in the aggregate to about two thousand cubic feet of Headers and Stretchers divided between the several classes, as ordered by the Engineer-in-Chief, is to be completed and delivered in accordance with the terms of the contract. The damages to be paid by the contractor for each day that the contract, or any part thereof, as specified above, may be unfulfilled after the said several times above specified have expired, Sundays and holidays not to be excepted, are by a clause in the contract fixed and liquidated at fifty dollars per day.

Bidders will state in their proposals the price per cubic foot of the stone to be furnished in conformity with the annexed specifications, by which the bids will be tested. This price is to cover all expenses, of every kind, involved in or incidental to the delivery, including any claim that might arise through delay, from any cause, in the receiving of the material by the Department.

Bidders will write out the amount of their estimate for doing this work, in addition to inserting the same in figures.

Should the lowest bidder or bidders neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to him or their bid or proposal, or if, after acceptance, he or they should refuse or neglect to execute the contract and give the proper security for forty-eight hours after notice that the contract is ready for execution, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on until it is accepted and executed.

Bidders are required to state in their proposals their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the proposal shall distinctly state the fact; also that the bid is made without any connection with any other person making an estimate for the same purpose, and that it is in all respects fair, and without collusion, fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and that he is unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

SEALED BIDS OR ESTIMATES FOR REPAIRING the hull and joiner work, and for repairing the engine and boilers of Steamboat Bellevue, or for either, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9 o'clock A. M., of Tuesday, the 29th day of April, 1879. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate" for repairing the hull and joiner work, and the engine and boiler, or for repairing either, as the case may be, and with his or their name or names, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The award of the contract will be made as soon as practicable after the opening of the bids.

The entire work will be required to be finished within fifteen (15) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal sum of an amount equal to one-half of the amount of the bid.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him, or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 2 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.
