### MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 2548.

City of New York, Office of the Mayor, October 6, 1903.

To the Honorable the Board of Aldermen of The City of New York:

The enclosed communication from the Police Commissioner in relation to bids for the new station house for the Seventy-fifth Precinct will, with the documents attached, explain itself.

I join the Commissioner in asking for the adoption of the preamble and resolution which he submits.

SETH LOW, Mayor.

Police Department of The City of New York,

No. 300 Mulberry Street,

September 28, 1903.

Hon. SETH LOW, Mayor of New York:

Sir—I transmit herewith copy of opinion of the Corporation Counsel, in regard to additional work, exceeding in estimated cost the sum of \$1,000, which is required on the station house for the 75th Precinct, now under contract with Thomas G. Carlin, and in accordance with this opinion I respectfully request that you will ask the Board of Aldermen to pass a resolution—the draft of which is herewith inclosed—authorizing this work to be done by Thomas G. Carlin without competitive bids under public letting. If this resolution is passed a delay of many weeks will be avoided in the construction of this building, which is very greatly needed.

Four bids have been obtained for doing this work, and Thomas G. Carlin submitted the lowest of the four. They are submitted herewith.

Very respectfully,

F. V. GREENE, Police Commissioner.

Whereas, Contract was entered into with Thomas G. Carlin by the Police Commissioner for the Police Department of The City of New York, dated May 28, 1903, for the construction of a station house for the Seventy-fifth Precinct, for the sum and price of \$88,800, and it appearing from reports of the architect for the said building (R. Thomas Short) that it is necessary to perform additional work on account of the character of the ground where the foundations of said building are to be dug and built, and that four estimates for such work have been received by the Police Commissioner, the lowest being that of the said contractor, Thomas G. Carlin;

Resolved, That permission be and is hereby given to the Police Commissioner to accept the estimate of Thomas G. Carlin for extra work required in the construction of a station house for the Seventy-fifth Precinct, in a sum not to exceed \$3,700, and to award contract for the same without advertising for competing bids.

Law Department—Office of the Corporation Counsel,  
New York, September 22, 1903.

Hon. FRANCIS V. GREENE, Police Commissioner:

Sir—I am in receipt of a communication dated August 17, 1903, transmitting for my consideration and advice contract with Thomas G. Carlin, dated May 28, 1903, for the construction of a station house for the 75th Precinct, together with a copy of said contract and the correspondence in regard to the same.

From your letter and the correspondence enclosed therewith it appears that the architect for the erection of this building, at the request of your predecessor in office, and pursuant to an authorization by resolution of the Board of Estimate and Apportionment, procured a City Surveyor to make an examination and soundings to ascertain the necessary character of the foundation for the station house, and that such Surveyor, presumably by an oversight or carelessness, failed to properly discover the actual existing conditions.

The plan or map, therefore, accompanying the contract, and to which the latter refers, was erroneously drawn and failed to indicate the real depth to which the character of the ground requires that the foundations be dug and built.

You further state that the additional work now thereby necessitated, exclusive of the waterproofing, may run as high as \$2,000, and that the cost of the latter may amount to as much as \$600.

In view of this state of facts, you request my opinion (1) whether the contractor, under the terms of the contract, can be required to perform this additional work without extra compensation, and (2) whether, if he cannot, the City has any recourse against the architect or the City Surveyor. You also ask my advice as to whether, in the event of this additional work being deemed a proper matter for a supplemental contract, you may award the same by treasury order, or must follow the method of public letting.

It is my opinion that the City, upon the facts presented by your letter and the correspondence therewith enclosed, cannot hold the architect in any way responsible for the additional work necessitated by the Surveyor's error.

The former acted simply as the agent of the City in securing the Surveyor's services, and is in no sense responsible for the latter's mistake.

In regard to the Surveyor's responsibility to the City, it is undoubtedly true that, if it could be proved that the latter was guilty of either bad faith or wilful negligence the City could hold him responsible for the damage suffered by it in consequence. But the facts presented by you fall far short of presenting evidence to justify such a conclusion, and in the absence of such evidence of wilful neglect or carelessness the City could expect nothing from a suit against the Surveyor.

The question as to the contractor's obligation, if any, to perform this additional work under the contract without extra compensation is one of more uncertainty.

Section 5 on page 26 of the specifications attached to the contract, under the heading "Mason Work," reads as follows:

"The contractor shall excavate to the depth shown on section for cellar, foundation walls, piers, areas, etc., or to such depth as may be found necessary to acquire suitable bearings for footings. It is presumed that a suitable foundation may be found at the depth marked."

And sections 15, 17 and 18 on page 24 of the contract fortify in some measure at any rate this language as against the contractor.

But it is my opinion, in view of the very material variance between the plan accompanying the contract and the actual existing conditions, and the very substantial additional cost necessitated thereby, that whether the City might or might not technically require this additional work to be done by the contractor without extra compensation it would be practically impossible in the absence of other evidence than that before me to sustain such action in the courts, even if its somewhat doubtful equity did not make it inadvisable for the best interests of the Department.

I therefore advise you that the work in question may properly be contracted for by supplemental contract, but that as the latter clearly calls for an expenditure exceeding the amount of \$1,000, you must either let the supplemental contract after public advertisement as provided in section 419 of the Charter, or secure an appropriate resolution from the Board of Aldermen to enable you to award it without competitive bids and a public letting.

Respectfully yours,

(Signed) G. L. RIVES, Corporation Counsel.

Respectfully,

A. EMERSON PALMER, Secretary, Board of Education.

The President laid before the Board the following communication from the Fire Commissioner:

No. 2553.

Headquarters Fire Department City of New York,  
Nos. 157 and 159 East Sixty-seventh Street,  
Borough of Manhattan, October 5, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen, City Hall, Borough of Manhattan:

Sir—The new fire alarm telegraph system in the Borough of Richmond, which has been in process of construction since the beginning of the year, will be completed and ready to go into operation by October 20, 1903. To place it in commission and maintain it from that date until the end of the present year it is estimated that the sum of \$3,000 will be necessary to provide for the payment of the salaries of one Chief Operator, six Telegraph Operators, three Linemen and two Batterymen, and for incidental expenses, such as horse hire, care fares, telephone rentals and the repairing of damage that may be caused by storms.

In the estimate of 1904, the original of which was submitted to the Board of Estimate and Apportionment on August 19, 1903, and a duplicate to your honorable on the same date, the sum of \$23,700 has been asked for the purpose of making provision for the expenses of the system for the coming year, and the request now made is with the view of having sufficient funds placed at the disposal of the Department to meet the necessities of the case for the period of more than two months, which must elapse before the appropriation for 1904 will become available.

I have therefore the honor to request that, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, your honorable body request the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$3,000 to meet the expense of providing an adequate working force for the operation of the fire alarm telegraph system in the Borough of Richmond from October 20, 1903, until December 31, 1903, and for necessary incidental expenditures connected therewith.

I inclose draft of resolution designed to accomplish the object in contemplation, and in view of the urgency of the matter the prompt action of your Honorable Board will be greatly appreciated.

Yours respectfully,

THOS. STURGIS, Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of three thousand dollars (\$3,000), for the purpose of providing means for the payment of salaries and incidental expenses connected with the opera-

tion and maintenance of the fire alarm telegraph system in the Borough of Richmond.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Comptroller:

No. 2555.

State of New York, Comptroller's Office,  
Albany, October 1, 1903.

To the President of the Board of Aldermen of New York:

Sir—Your attention is called to the provisions of chapter 413, Laws of 1897, which require the Loan Commissioners in each county to exhibit to the Board of Supervisors thereof at its annual meeting all mortgages in their charge, together with their books of accounts, minutes and vouchers, so that such board may ascertain whether the moneys committed to the charge of such Commissioners are still outstanding as satisfactory loans and whether the money collected either as principal, interest or rent on property owned by the State has been duly accounted for and disposed of by them according to law, and which further require such board at its annual meeting to examine all such mortgages, books of accounts, minutes and vouchers and to give to such Commissioners such directions as to taking additional security from the borrowers as it shall deem proper and necessary. Such statute further requires such board to certify to the Comptroller as to the sufficiency of the securities for the money loaned and as to whether or not the moneys collected by such Commissioners on account of the principal or interest of such mortgages and the rent on property owned by the State has been duly accounted for and disposed of by them according to law and as to what directions it has given to such Commissioners as to taking additional security. Compliance with these provisions is respectfully requested.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 2556.

Department of Finance—City of New York,  
October 1, 1903.

P. J. SCULLY, Esq., City Clerk:

Sir—I return herewith certified copy of resolution adopted by the Board of Aldermen on July 31, 1903, and approved by the Mayor August 12, 1903, granting permission to the Columbia Machine Works and Malleable Iron Company to lay tracks on Atlantic avenue, near the corner of Chestnut street, in the Twenty-sixth Ward, Borough of Brooklyn.

The Corporation Counsel in communication of September 29, 1903, to the Comptroller (copy of which is likewise inclosed) states:

"In my opinion the resolution of the Board of Aldermen above referred to has no validity and therefore no proceedings can properly be taken by the Board of Estimate and Apportionment in relation to it."

Yours respectfully,

J. W. STEVENSON, Secretary, Board of Estimate and Apportionment.

(Copy.)

Law Department, Office of the Corporation Counsel,  
New York, September 29, 1903.

Hon. EDWARD M. GROUT, Comptroller:

Sir—I have received your letter of September 25, 1903, relating to a resolution of the Board of Aldermen adopted July 31, 1903, which purports to give permission to the Columbia Iron Works and Malleable Iron Company to lay a railroad track on Atlantic avenue, in the Borough of Brooklyn. Accompanying your letter are the following papers: Report of Eugene E. McLean, Engineer of the Department of Finance; a copy of the resolution of the Board of Aldermen referred to and a draft of resolutions which the Engineer's report recommends shall be submitted to the Board of Estimate and Apportionment for its action.

You request me to examine these resolutions and communicate with you regarding them.

In my opinion the resolution of the Board of Aldermen, above referred to, has no validity and therefore no proceedings can properly be taken by the Board of Estimate and Apportionment in relation to it.

My reasons are these:

1. The Charter of The City of New York requires that the grant of a right to use the streets for the purposes of laying railroad tracks therein shall be made by ordinance.

2. It does not appear that the provisions of sections 30, 39 and 40 of the Charter which apply to the granting of such rights have been complied with.

I desire to call attention to another matter which arises in this connection. By section 45 of the Charter a grant of the right to construct and operate railways in the streets can be granted only to corporations thereunto duly authorized. Whether a grant of the right described in the resolution in question can be made to a manufacturing corporation, which I assume the Columbia Iron Works and Malleable Iron Company to be, is open to doubt. No such difficulty, however, would be presented if the application for the desired franchise were made by the Long Island Railroad Company, with whose tracks the proposed railway is to be connected, as appears by the resolution of the Board of Aldermen.

I return you the papers enclosed in your letter.

Respectfully yours,

(Signed) G. L. RIVES, Corporation Counsel.

Resolved, That permission be and the same is hereby given to the Columbia Machine Works and Malleable Iron Company to connect its premises on the northeast corner of Atlantic avenue and Chestnut street, in the Twenty-sixth Ward, in the Borough of Brooklyn, by a switch, as shown upon the accompanying diagram, with the tracks of the Long Island Railroad Company in Atlantic avenue, so that cars for carrying freight may be loaded and unloaded upon the premises of the said Columbia Machine Works and Malleable Iron Company without causing interference with traffic or pedestrians in the carriageway or on the sidewalks of Atlantic avenue at the point named; the said switch to be laid only in front of the premises owned by the Columbia Machine Works and Malleable Iron Company, to be of a pattern approved by the President of the Borough of Brooklyn, and to be laid and maintained flush with the surface of the street, provided the said Columbia Machine Works and Malleable Iron Company shall pay to The City of New York as compensation for the privilege such amount as may be determined as an equivalent therefor by the Board of

Estimate and Apportionment; all the work of laying the switch, paving between the rails of the same, and the two feet outside thereof, to be done at the expense of the said Columbia Machine Works and Malleable Iron Company, under the direction of the President of the Borough of Brooklyn; such permission to continue only during the pleasure of the Board of Aldermen.

Which was ordered on file.

To the Board of Estimate and Apportionment and the Board of Aldermen:

The Committee on Finance of the Board of Trustees of the College of The City of New York, pursuant to the action of said Board, on September 21, 1903, hereby reports that there will be required for the payment of the salaries of the President, professors and officers of the said college, for the obtaining and furnishing of scientific apparatus, books for the students and other necessary supplies, for repairing and altering the college buildings, and for the support, maintenance and general expenses of said college, during the year 1904, the sum of three hundred and twenty-five thousand dollars (\$325,000), in accordance with the accompanying schedule.

The reasons for asking for an amount in excess of that allowed for the year 1903 are many. Vacant professorships will have to be filled, and, owing to the increasing number of candidates for admission, a large number of new tutors and instructors will be required. Text-books and new apparatus have to be purchased, and owing to the condition of the college buildings, many minor repairs have to be made to fit the buildings for occupancy until the new buildings are completed.

In view of the facts stated above, the Board of Estimate and Apportionment and the Board of Aldermen are earnestly petitioned to appropriate the amount mentioned herein.

Resolved, That copies of the foregoing request, duly authenticated by the members of the Committee on Finance of the Board of Trustees, be transmitted to the Board of Estimate and Apportionment and the Board of Aldermen.

## BOARD OF EXAMINERS.

September 29, 1903.

Present—Messrs. William J. Fryer, Warren A. Conover, William C. Smith, Charles D. Purroy, Charles G. Smith, Charles Buck and Walter Cook (Chairman).

Meeting called to order at 2 p. m.

Minutes of meeting of the 22d instant, on motion, approved as read.

Appeal No. 196. On presentation of report and on motion, appeal was denied. Chief Purroy reporting that fireproof shutters are necessary on the rear windows of the rear building No. 549 Pearl street.

Appeal No. 200. On presentation of report and on motion, appeal was approved.

Appeal No. 201 of 1903. New Building 649 of 1903, southeast corner of Twenty-ninth street and Broadway, Manhattan, Messrs. Clinton & Russell, architects and appellants.

That it is unlawful to erect pent houses as shown on plans, on buildings not conforming with the law regarding buildings constructed under 150 feet, or 12 stories high.

The provisions of the Building Code do not apply to a pent house erected on and covering a portion of the roof of a building constructed strictly in compliance with the law.

To allow the construction of a pent house covering a portion of the roof on the 12-story building, without having the same considered as a complete extra story, the building being fireproof.

The building itself covers a lesser percentage of the lot than the Building Code allows, in order to obtain a greater amount of light and ventilation than is required by law, and therefore the area of the roof is less than the area could be made. The area covered by the pent house, not including the space that is lawfully allowed to be enclosed for the enclosure of tanks, is 40 per cent. of the roof, or 35 per cent. of the roof that would be actually lawful.

The height of this building is 150 feet to the highest point of the main roof beams; but this building is built better than the Building Code requires, in that all the floor surfaces throughout the entire building are of cement or tile, etc., and no wood flooring is anywhere used throughout the entire building. The construction of the pent house will be as follows:

Wherever brick walls surrounding the pent house can be carried up, they will be so carried up to their proper height. The other enclosure walls of the pent house will be of iron construction, filled in with hollow terra cotta tile, laid up in cement and covered with sheet metal on the outside.

(1) The floor will be made of cement.

(2) All sash doors, frames and trim will be covered with metal.

(3) Proper skylights will be provided and glazed with wire glass.

A stand pipe will extend into the pent house, with hose connection.

The entire pent house will be constructed absolutely fireproof.

Four elevators will run up to level of main roofs.

The location of this pent house is back from the street lines, and the high man-

sard roof which rises above the main roof entirely conceals this pent house from view from the streets.

On motion, approved.

Appeal No. 202 of 1903. Fireproof Shutter case 33 of 1903, No. 2076 Second avenue, Manhattan, H. J. Ferris, appellant.

On motion, referred to Chief Purroy for examination and report with recommendation.

Adjourned.

JAMES GAFFNEY, Clerk.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
