## THE CITY OF NEW YORK.

## FOR CHARITABLE INSTITUTIONS.

## Conditions Governing Payments to Charitable Institutions.

The appropriations in this Budget are made subject to the following conditions:

1. The accounts and records of all charitable institutions receiving public moneys shall be so kept as to show all receipts, disbursements and population in such form as shall be satisfactory to the Comptroller. Records must show the addresses of parents, guardians or nearest relatives of inmates and other information designed to facilitate inquiry into their financial inability to make provision for dependents in the institutions.
2. Moneys received from the City Treasury shall be used by such institutions for recurring expenses of "care, support, education and maintenance."
3. All institutions receiving public moneys and all their books of record and accounts shall at all reasonable times be open to the visitation, inspection and examination of duly authorized representatives of the Department of Finance and at all proper times the Department of Public Charities shall have access to the record of inmates.
4. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments to any charitable institution for which an apportionment has been made, he shall in his discretion suspend payments and give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to cease making further payments, and upon the determination of said Board that such payments shall terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon end.
5. Except where appropriations are made in bulk and not upon the per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the Commissioner of the Department of Public Charities as proper charges upon the City. Except in emergency cases in hospitals, the Commissioner of Charities shall not accept as proper charges against the City inmates capable of paying for their own support or for whose care adequate provision can be made in public hospitals. *The City shall not be liable for any payment to charitable institutions in excess of the apportionment which may have been made to such institutions, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.*
6. All institutions receiving money from the City are required to state specifically the amount so received, as from the City Treasury, in their printed annual reports.
7. No money shall be paid to any private charitable institution which pays any salary to or gives any consideration, financial or of any kind, for services to, or that has any business dealing with, or secures goods or merchandise, directly or indirectly, from any officer or trustee or member of its Board of Managers.
8. That charitable institutions for children now carried in the Budget and not sending their inmates to the Public Schools, and not sharing in the Corporate School Fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institutions, shall be paid a per capita of 7 cents per day, five school days in the week, for each child receiving such instruction of four years of age and over during ten months in the year. This money to be paid under the authorization of section 230 of the Charter, but under the general conditions relating to institutions receiving Corporate School money, as provided in section 1154.
9. Magistrates are requested to transfer dependent, and, when judicious, no proper guardianship children, and all cases coming to their attention in the courts where no crime is proven against the child to the Commissioner of Charities, who can commit to institutions. Magistrates are earnestly requested not to commit a dependent child to an institution on a court commitment.
10. The Commissioner of Charities is instructed to take such steps, either by appeal to the national authorities or by proper bills to the Legislature, as to provide

that the children of emigrants abandoned within one year after arrival in this City be returned to the country whence they came.

11. In determining the acceptance of patients in private hospitals as proper charges (see Rule 5) the Commissioner of Charities shall first consider the nature of the service actually rendered to the patients by the hospitals. The records of the institutions and the bed-card notes showing the treatment given shall be received as the essential evidence in deciding acceptances or rejections.

12. No dependent child under 16 years of age shall be accepted as a proper charge upon the City and no money will be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children, under the supervision of the State Board of Charities, and has been placed in this Budget by the action of the Board of Estimate and Apportionment. This order has no relation to the class of children of such mental and physical condition as those cared for in the City Institution at Randall's Island.

13. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows:

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
