

**Mayor's Office of
Operations**

December 26, 2019

Dear Speaker Johnson,

Local Laws 126, 127, and 128 of 2016 require the Mayor's Office of Operations to conduct an annual review of all forms issued ACS, DFTA, DOE, DOHMH, DSS/HRA/DHS, and DYCD that meet criteria set forth in these laws, and to submit a report to the City Council within 60 days of such review that includes: a list of all forms reviewed, a list of all forms that are eligible for updating to include the demographic information specified in the laws (ancestry and languages spoken; multiracial identification; and sexual orientation and gender identity, respectively) , and for any forms deemed not eligible for updating, an explanation as to why the forms cannot be updated.

The criteria for reviewing the forms, as indicated in the local laws, include:

- Forms that are voluntarily completed by persons seeking social services from designated agencies and the agency's contracted providers of social services;
 - "Social services" (a subset of "human services" as defined in Admin. Code § 6-129), includes but is not limited to: day care, home care, homeless assistance, housing and shelter assistance, preventive services, youth services, and senior centers, and exclusive of other types of human services, such as health or medical services, including those provided by health maintenance organizations; legal services; employment assistance services, vocational and educational programs; and recreation programs.
- Forms that collect the enumerated types of demographic information (specified in each local law);
 - Local Law 126 of 2016 (ancestry groups and languages spoken)
 - Local Law 127 of 2016 (multiracial ancestry or ethnic origin)
 - Local Law 128 of 2016, as amended by Local Law 76 of 2018 (sexual orientation and gender identity and the gender pronoun or pronouns that an individual identifies with and that others should use when talking to or about that individual)
- Whether the agency has the authority to amend or edit (i.e. update) such forms.

In determining whether or not a named agency has the authority to amend or edit (i.e. update) a form, Operations asked each agency to cite any law, regulation, oversight agency, or contractual restriction that would prevent the agency from editing or amending the form. Operations also separately offered agencies an opportunity to comment if they had any practicability concerns with updating such forms to include expanded demographic questions and response options to reflect those which are in the local laws.

The agencies have evaluated all relevant forms against these criteria, and provided them to Operations for review. The results of each agency's findings and Operations' review are included in this report.

In accordance with the requirements of these local laws, the Mayor's Office of Operations will, prospectively, conduct this annual review as new forms are created and evaluated, and as we look forward to continuing to best serve residents of all backgrounds and identities.

Sincerely,

Jeff Thamkittikasem
Director

Mayor's Office of Operations

2019 Report Version Overview

The 2019 Form Review Report improves upon previous iterations with a more easily readable format that also provides more information to the reader about the presence or absence of various demographic question types.

This report lists the 84 forms that qualified for review, which is a decrease from 100 in 2018. While DSS/HRA identified an additional seven forms that qualified for review, there was nevertheless a net decrease due to DYCD creating a new standard Workforce Innovation and Opportunity Act (WIOA) Program Application Form that replaced the 24 forms listed for Train & Earn and Learn & Earn providers in the 2018 Report.

Of the 84 forms reviewed, 28 were deemed eligible for updating, 42 were not within the agency's authority to edit or amend or were issued by another entity, and 14 did not contain demographic questions associated with the local laws to update.

Below is a guide for reading each agency section. Note that each agency section is followed by footnotes with additional detail on any reasons why forms are ineligible.

- For each demographic question type in the tables below, the following classification system is used:
 - **"Yes"** = question is present in the form and eligible for update
 - **"**"** = question is present in the form but not eligible for update
 - **"-"** = question is absent from the form

Note: Where a form asks the service seeker's name and gender but does not explicitly have a gender-pronoun question, this report automatically lists a positive eligibility under "LL-128 Gender Pronouns" since gender pronouns are typically used when interacting with or referring to that service seeker and would otherwise be assumed.

- If the form is not eligible for updating, the reason is included in the "Eligible for Updating?" column. Refer to the footnotes in each section where applicable for more specific information on form update ineligibility.
 - **Does not contain any Demo Data questions** = the form does not contain questions related to the demographic categories associated with Local Laws 126, 127, and 128 of 2016 and therefore updating the form is not applicable.
 - **Not within agency's authority to edit or amend** = the form is issued by the City agency, however demo data questions are at least in part subject to oversight from some other authority (i.e.: state or federal government).
 - **Not a city-issued form** = although the form in question is used by a city agency, the form is issued by another entity, and as such the agency is dependent on the issuer and unable to alter the form contents.

Administration for Children’s Services (ACS)

Forms that qualify for review: 4

Forms deemed eligible for updating: 0

Other notes:

- ACS utilizes contractors for most services provided, and these contractors must use the forms provided by ACS. There are no contractor-issued forms outside of the forms listed below.

¹These ACS forms require New York State Office of Children and Family Services (OCFS) approval to amend. See 18 NYCRR § 320.1 (“Local social services agencies shall use forms required by and furnished by the department unless local equivalents thereof are permitted and approved. . . The use of a local equivalent as a substitute for any such required form shall be approved by the department in advance of its use. Similarly, revisions of a previously approved local equivalent form shall be approved by the department in advance of its use. Approval shall be requested in accordance with the instructions of the department.”) and § 320.4(a) (“Local social services agencies having approved local equivalents of required forms supplied by the department shall be required to resubmit such forms for approval if . . . the department makes revisions in the required form.” ACS made a request to OCFS for approval to revise these forms in summer 2019. OCFS did not grant permission to amend the forms because the forms must be consistent with OCFS’s federal data reporting requirements.

²This form is supplied by the New York State Office of Temporary and Disability Services (OTDA). Under 18 NYCRR § 320.1, a local equivalent form may only be used in its place with the approval of OTDA.

Department of Education (DOE)

Forms that qualify for review: 27

Forms deemed eligible for updating: 10

Other notes:

- DOE does not currently maintain an inventory of every form used by contractors in the City – this is mainly because there are more than 1800 schools, each of which has its own separate contracts. It should be noted that many of these contracts will likely terminate before the DOE is obligated to update forms pursuant to these local laws. For purposes of this report, DOE has focused on intake forms used by some of the larger community based organizations that partner with community schools, as those contracts frequently provide direct services to students and families.
- Excluded from the below list are forms from the Office of School Health, as its forms are used for the provision of health and mental health clinical services, and would not be completed by individuals voluntarily seeking social services.

¹These forms must comply with NYSED Commissioner's Regulation Part 154. While these forms currently contain questions regarding gender identity, LL-128 does not require the agency to collect such information from persons under the age of 14.

²These forms must comply with NYSED Commissioner's Regulation Part 154.

³Language: while these forms currently contain questions regarding languages spoken, NYC DOE's Home Language Identification Survey (HLIS) was approved by NYSED to serve as our version of NYSED's Home Language Questionnaire (HLQ) that is defined in CR Part 154-2.2.k (page 4) and mandated as part of the identification process in CR Part 154-2.3.a (page 8).

⁴While this is a DOE form, it comports with Family Education Rights and Privacy Act of 1974 (FERPA) and related Federal guidance.
