BOARD OF ASSESSORS.

Office Board of Assessors,
No. 320 Broadway,
New York, January 29, 1907.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—In submitting our annual report for 1906 we desire briefly to direct attention to the progress made. During that year assessments amounting to \$5,248,595.34 have been apportioned and advertised, as against \$4,131,608.43 in 1905, an increase of \$1,116,986.91. The actual confirmations in 1906 amounted to \$3,619,362.52, as compared with \$3,596,976.45 in 1905. There is a large amount now on hand apportioned and advertised, upon which hearings are being held, and which will be confirmed within a short time.

During the year 425 claims for damages caused by changes in the grade of streets, under the provisions of the Charter, affecting fifty-four assessment lists, have been disposed of. These claims amounted to \$614,400, and awards thereon amounting to \$31,340 have been made. The property affected was situated in all parts of the City, and in each case where a legal claim was shown to exist the Board visited and made a personal inspection of the damaged premises. In such cases hearings were held and testimony taken as to the amount of damage, while in many cases where the claims were subsequently disallowed testimony was taken upon the question as to whether or not there was a legal claim.

As you are aware, many claims arising under special statutes for damages alleged to have been caused to property by the construction of bridge approaches and other structures in the streets are filed with this Board. At hearings thereon the claimants appear by attorney and the City is represented by an Assistant Corporation Counsel. During the past year two or three days a week have been devoted to such hearings, and the Board has visited the property for which such claims were made. Many of these claims have been disposed of by the making of awards—as many as the attorneys representing claimants and the Corporation Counsel's office could conveniently present. This branch of the work, which has grown up during the last three years, requires much of the Board's attention and takes up a considerable portion of its time, as well as that of the office force. The claims are frequently for large amounts, much testimony is taken, real estate experts are introduced as witnesses by both sides, and the matters require careful consideration.

As will be seen from the report, there are five assessments in which it is necessary, under the provisions of special laws, to lay an installment each year, as follows:

Thirty-first Ward improvement, to be laid in forty installments.
New Utrecht assessment, to be laid in fifty installments.
Eighth Ward improvement, to be laid in ten installments.
Prospect Park assessment, to be laid in ten installments.
Long Island City improvement, to be laid in twenty installments.

Although the amount of money involved is comparatively small, the apportioning of these annual installment assessments requires an immense amount of work. For instance, in the Long Island City improvement assessment 15,119 parcels are affected, necessitating 30,238 entries in the assessment lists after the computations for each parcel have been made. These assessments are all based on special laws, passed probably upon the theory that it would benefit poor property owners to pay their assessments in installments. As a matter of fact, the system seems most effective in saddling a long series of unpaid installments upon unsuspecting buyers, who, thinking the

improvements have been paid for, give more for the property. These laws invariably contain a provision that the installment for each year shall become a lien only in the year for which it is levied, and a search does not disclose the fact that these impending liens exist. Furthermore, many of these installments are for such small amounts—thousands being for less than one dollar—that it is doubtful whether the return to the City compensates it for the expense and trouble of keeping the accounts. The twenty-ninth installment of the Prospect Park assessment has been laid, leaving eleven remaining. A bill has been introduced in the Legislature, we understand, canceling the remainder, probably in recognition of the idea that it is scarcely equitable or worth while to continue the imposition of the annual installment.

This system of installment assessments, it seems to us, is wrong in principle and bad in practice, and any future attempts to provide for them by legislative enactment should be carefully watched.

Respectfully,

ANTONIO ZUCCA,
PAUL WEIMANN,
JAMES H. KENNEDY,
Board of Assessors.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department or his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
