## BELLEVUE AND ALLIED HOSPITALS.

REPORT FOR THE QUARTER ENDING DECEMBER 31, 1905.

New York, January 1, 1906.

Hon. GEORGE B. McCLELLAN, Mayor:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to submit the following report upon the hospitals of which they are in charge, for the three months ending December 31, 1905:

## Additional Funds.

The Board of Aldermen passed, on December 12, a resolution appropriating \$50,000 for the expenses of this Department, which was requested last July to meet the deficiency in the accounts for supplies and additions and alterations, caused by the extraordinarily high census at the beginning of the year, and to provide means for the better pay of the hospital helpers, stretcher carriers, etc., and this resolution has been approved by the Board of Estimate and Apportionment only within the last few days. While the appropriation was made too late to provide for the proper payment of the lower grades of hospital employees during 1905, it has prevented a deficit in the funds of the Department for the year, and, as it is available from year to year, may be used during 1906 for the better pay of the helpers and to purchase supplies, and to make alterations and repairs that have been sorely needed, but for which the money has been lacking.

## Supplies for 1906.

The bids on supplies for 1906 show an increase in the cost of all cotton goods, building materials, hardware and coal, while the prices of other supplies are about the same as they were last year, or even a little lower. After public advertisement but one bid was received for the supply of stove coal to Bellevue Hospital, which was \$1.50 per ton higher than what was paid last year. Only one bid was received for the egg coal and also for the stove coal for Harlem Hospital, and the prices asked were again considerably higher than for 1905. The Trustees therefore voted to reject all three bids and to purchase what was necessary in the open market, while preparing to advertise again. In order to secure a better quality of coal, new specifications have been adopted, which require a certain number of heat units in the coal to be supplied, and regulate the price according to the number of such units actually found to be present.

## Economy in Supplies.

Efforts have been made, by requiring a stricter adherence to the specifications for supplies in general, to secure a better grade, and consequently to effect a saving in expense. In the matter of medical and surgical supplies, a closer supervision of their distribution has been carried on during the year, and the members of the medical staff have been interested in the economical use of them. As a result, a set of rules for economy has been drawn up recently and adopted by the different Medical Boards, and the actual saving effected, for one month, was estimated to be as much as \$525.

The General Medical Superintendent has been authorized to investigate the question of installing independent telephone systems in Gouverneur, Harlem and Fordham Hospitals.

Efforts have been renewed recently to have the information slips, accompanying patients brought by the ambulances of other hospitals, filled out more completely.

## BELLEVUE HOSPITAL.

The Trustees have been informed within the last few days, by the Corporation Counsel, of Judge Truax's decision dissolving the injunction restraining them from awarding to the John H. Parker Company the contract for the construction of Pavilions A and B of the new Bellevue Hospital, and denying the motion of Patrick Gallagher to render the injunction permanent. Everything is now ready to proceed with the contract, and the John H. Parker Company will begin work at once by tearing down the brick buildings now occupying the site of the new pavilions, containing the erysipelas wards and other wards of the hospital. The portable pavilion used as a phthisis ward, which also was on this site, has been simply shifted to another position.

## Protection from Fire.

As mentioned in the last report, the Trustees, acting upon a statement made by Mr. Hugh Bonner, formerly Chief of the Fire Department, as an advisory member of the New York City Visiting Committee of the State Charities Aid Association, requested the Board of Estimate and Apportionment to appropriate \$34,334 for the improvement of the fire protection of Bellevue Hospital. The Board of Estimate decided at the beginning of the quarter to appropriate \$21,100 for this purpose, as that sum was considered adequate by the Engineer of the Finance Department, to whom the matter was referred for investigation. Accordingly, work was begun at once upon such changes as could be made without delay, while specifications were being prepared for those that would have to be undertaken by contract.

## Alterations, Improvements, etc.

The new dormitory for men employees, under the pathological laboratory, has been completed and affords room for 16 additional men, with lockers and bath room and toilet accommodations.

A partition has been erected at the end of the library, providing a comfortable apartment for the use of the Protestant Chaplain, whose room was taken for the storage of surgical supplies. Cork strips have been placed in every ward, from door to door, to relieve the patients of the noises caused by persons passing through the wards, and this has effected a great improvement. The Superintendent has been authorized to try the plan of equipping the beds in a certain ward with movable rubber castors, to see whether this will not materially lessen the noise caused in the ward beneath by the moving of beds during ward cleaning. The following improvements will be provided for by the additional appropriation for the expenses of the Department: The purchase of new bath tubs for the hospital wards and of a bandage cutting machine to do the work now done by hand, the installation in the kitchen of gas heaters, racks for general utensils and tables for keeping the food warm, the purchase of two dish-washing machines and the repairing of the roofs and leaders of the hospital, which is greatly needed. It has been decided to purchase warm underclothing, as well as heavy overcoats and shoes for the patients in the phthisis ward.

Quarters have been engaged outside the hospital for the Night Superintendent, and the room vacated by him has been assigned to the two members of the House Staff who previously roomed outside. This arrangement is a much more satisfactory one, as it does away with the difficulty in securing the doctors' services at night, and affords much quieter quarters to the Night Superintendent, who uses his room only during the day.

## Census for the Quarter.

The average daily census of patients in Bellevue Hospital for the fourth quarter has been 787, as compared with 836 the previous year, and the number of admissions has been 6,344, as against 6,742. The total number treated during the quarter was 7,121 this year, and 7,575 in 1904. The smaller census this year is apparently due to the unusually mild weather.

## Changes in the Medical Staff.

There have been no changes in the medical staff of Bellevue Hospital, with the exception of the resignation of Dr. William F. Fluhrer, on December 15, from the position of Attending Surgeon to the Fourth Division. The Trustees, at their meeting of December 20, accepted his resignation with regret, and expressed to him their appreciation of his long and valuable services. At the same meeting he was appointed Consulting Surgeon to the hospital.

## The Training Schools.

Upon the recommendation of the Trustees, the Board of Estimate and Apportionment have decided to purchase, for the sum of \$244,000, a plot of land on the south side of East Twenty-sixth Street, opposite the Bellevue Hospital grounds and immediately adjoining the site of the present Women's Training School building, upon which to erect a new building for a home and training school for women nurses, and an appropriation of \$10,000 has been authorized for architects' fees for the preparation of plans. It is proposed to use the building to train nurses for Bellevue Hospital and to supply pupil nurses to the Department of

Health, which at present employs graduate nurses at salaries of \$40 per month. It is expected that this will save the City from \$30,000 to \$40,000 per year, which would more than meet the interest on the money required for the purchase of the site and erection of the building.

The contract for the alteration and improvement of the premises at No. 212 East Twenty-sixth Street was awarded in October, and the buildings will soon be ready for occupancy. In the meantime the Training School continues to rent two apartments in East Twenty-seventh Street for the use of women pupil nurses. On October 16 regular courses in cooking were begun in both training schools. Two more men's wards, 26 and 27, are now supplied with nurses from the Women's Training School instead of from the Men's Training School. These wards were once before in charge of women graduate nurses, but now both the graduate nurses in charge and the pupil nurses are women.

## Gouverneur Hospital.

The following medical appointments were approved by the Trustees for Gouverneur Hospital on December 27: Dr. Murrhae N. Horowitz, Assistant Physician to Out Patients; Dr. B. J. Bockschitzky, Assistant Physician to Out Patients, clinic of skin diseases; Dr. Meyer Rabinowitz, Assistant Gynecologist to Out Patients; Dr. M. A. Werner and Dr. Max Feldman, Assistant Laryngologists to Out Patients.

On the same date the following appointments were made for temporary service in the clinics named: Dr. R. Abrahams, skin diseases; Drs. A. W. Taves, F. G. Goodridge and A. C. Henderson, general medicine.

It has been decided that on January 1, or as soon thereafter as the completion of the new wing has been carried sufficiently far to allow of the transfer of the out patient department to that side of the hospital, additional men shall be appointed to the out patient staff in order to release the members of the house staff who have been assisting in that department, but whose time will then be sufficiently occupied with the additional work of the new wards.

It is greatly to the credit of the medical staff and of the Supervising Nurse that, in spite of the unfortunate conditions resulting from the dirt and disorder of the building operations, the service has been so well conducted in both the hospital and the out patient department.

## The New Wing.

Owing to the failure of the contractors to hasten the work on the new wing as much as possible, the year closes with that portion of the hospital still unavailable for use, while at the same time there is much confusion and disorder in the old wing as a result of the presence of the workmen. The contractors have been warned that the time for the completion of the contract has expired and that they will be held accountable for past and future delays. They have been notified also that they will be held responsible for keeping the building at a proper temperature during the cold weather, as provided in their contract. The condition of the work on the new wing is as follows:

The exterior has been practically completed. The partitions have been built and plastered throughout, but some patching and painting remains to be done. Most of the work of laying the floors has been done, but the finished floors have not yet been varnished. The plumbing, heating and ventilating, and structural work, and the interior work generally are well advanced, but the progress made has been extremely slow. The materials furnished and the work done have been unsatisfactory in many instances and a great deal still remains to be corrected, in spite of repeated instructions from the architect to the contractors.

The repairing and regrading of the sidewalk at Gouverneur Hospital, for the sum of \$475, was awarded to Messrs. John R. Sheehan & Co., the contractors for the new wing.

## Census for the Quarter.

The average daily census of patients has been 71 for the last quarter, as compared with 100 in 1904. The number admitted during the quarter has been 619 this year as against 966 last year, and the total number treated, 685 as against 1,057. The building operations in progress on the new wing have made it impossible to accommodate as many as in previous years, and many ambulance patients have been taken, therefore, directly to Bellevue Hospital instead of to Gouverneur Hospital.

## HARLEM HOSPITAL.

The building at present occupied by Harlem Hospital having changed hands recently, the new owners were at first unwilling to lease it, but they have finally offered to do so at annual rental of \$7,500, either party having the right to terminate the agreement upon sixty days' notice. This arrangement seems to the Trustees to be as fair as can be expected for the short term remaining until the new hospital building shall be available, and accordingly the Sinking Fund Commission has been requested to approve of it.

The annex building also, which is used for the out patient department and the maternity and children's wards of the hospitals, has changed hands recently, and the new owner at first asked a prohibitive rental of the City. The Trustees instructed the General Medical Superintendent to see him personally and endeavor to agree upon some equitable price, and as a result it was decided to renew the lease until April 1, 1906, at a monthly rental of \$85.

## Census for the Quarter.

The average daily census of patients at Harlem Hospital for the fourth quarter has been 48 as compared with 51 in 1904. The number of admissions has been 742 as compared with 594, and the total number treated, 823, as against 678. Although the average daily census has been slightly smaller than it was last year the total number of patients treated has been much larger, as shown by the above figures, and the hospital has been heavily taxed to accommodate so many. The completion of the new hospital will afford great relief.

## The New Hospital.

The state of the work on the new Harlem Hospital, between One Hundred and Thirty-sixth and One Hundred and Thirty-seventh Streets, on Lenox Avenue, is as follows: The exterior of the building has been practically completed and presents a very pleasing appearance. Inside of the hospital a good deal of the flooring still remains to be laid and there are a great many details necessary for its completion that have not been attended to. The contractors have been very slow in carrying on the work, and it will be a number of months before the new building can be occupied, although it is greatly needed, the one in use at present being inadequate in both size and arrangement.

The contractors have been notified that they have exceeded the term of their contract and will be held accountable to the City for the delay in the completion of the building. They have been notified also that they will be held responsible for keeping the building at a proper temperature during the cold weather, as provided in their contract.

Bids for balconies for the hospital were opened for the second time on December 11, but before the Trustees had awarded the contract they received a communication from the lowest bidder who claimed that by mistake he had bid on only half of the work to be performed. As his bid was considerably lower than both the next one above it and the architect's estimate of the cost of the work, and his claim seemed, therefore, to be a bona fide one, the Trustees decided to release him by rejecting all bids. This will delay the erection of the balconies still further, but it will in no way affect the completion of the rest of the building. It has been decided to make the width of the balconies 8 feet instead of 6 feet as they were originally planned, in order that there may be plenty of room to allow patients to be rolled out in their beds to enjoy the open air.

The ambulance station and power house both have been closed in and the roofs are being sheathed. The chimney of the power house has been carried up to the second band course above the roof and the floor arches inside of the building are nearly completed and the interior work generally is well started. Preparations are being made to place the boilers and fixtures for the power plant. Work on the ambulance station is about as far advanced as on the power house and it is expected that both buildings will be completed during the next year.

The laying out of the grounds of the hospital has been awarded to Mr. J. H. Freedlander, the architect for the ambulance station and power house, and consulting architect for the hospital.

## FORDHAM HOSPITAL.

In spite of the milder weather the census for the past quarter has been higher than it was for the corresponding quarter of 1904. The hospital has at times been greatly crowded and it will be a relief when it is possible to move into the new building. The average daily census of patients has been 51 for the quarter as compared with 42 in 1904. The number of admissions has been 264 as compared with 279, and the total number in the hospital during the quarter has been 319 as against 326.

The pavilion erected on the grounds last year, which accommodates 12 patients, has been connected with the hospital by a covered passageway. This pavilion proved very useful during the latter part of the summer and autumn, but it was thought improbable that it could be kept sufficiently warm to accommodate patients regularly during the winter. However, with the unusually mild weather, it has been possible to keep it well warmed by stoves and it has been used for the open air treatment of pneumonia, as well as for general cases.

## The New Hospital.

Excellent progress has been made by the contractors in charge of the work of constructing the new Fordham Hospital, which, the Trustees have every reason to believe, will be ready for occupancy some time during the coming autumn.

The exteriors of all the new buildings have been completed except in a few details and the interior work is being carried on rapidly. The pipe tunnel is practically finished. In the first three stories of the hospital building the partitions have been set, the sleepers have been laid, the walls and ceilings furred and most of the sashes have been hung. The ward wings have been plastered. The heating, ventilating, plumbing and electrical work is all well advanced, but the fixtures have not been installed yet.

The construction of the nurses' home is further advanced, the furring and plastering being nearly complete and the floors laid. The standing trim, picture molding, base, etc., is in position and the interior presents a more finished appearance than that of the hospital building.

The construction of the laundry building and the power house is nearing completion and the boilers, machinery, etc., have been installed, although the connections have not been completed. The construction of the ambulance house, stable and morgue building is well advanced, and also the heating, ventilating, electrical and plumbing work.

The tunnel connecting the power house, the nurses' home and the hospital building has been built. The entire drainage system has been run, and also all of the necessary water mains and fire lines.

The contractors have been notified that they will be held responsible for keeping the buildings at the proper temperature in cold weather.

Respectfully submitted,

JAMES K. PAULDING, Secretary.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
