## COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a meeting held in the Mayor's office, City Hall, at 10 o'clock a. m., on Thursday, December 12, 1912.

Present—John Purroy Mitchel, President, Board of Aldermen; Douglas Mathewson, Deputy and Acting Comptroller; Robert R. Moore, Chamberlain, and Henry H. Curran, Chairman, Finance Committee, Board of Aldermen.

The following report was received from the Select Committee of the Commissioners of the Sinking Fund, relative to the allotment of space in the New Municipal Building:

December 3, 1912.

To the Honorable Board of Sinking Fund Commissioners of The City of New York:

On June 12, 1912, and also on June 26, 1912, your honorable Board, following the suggestions contained in reports of this Committee, assigned space in the Municipal Building to various City Departments. The total space in the building available for assignment is 704,815 square feet and of this amount the space assigned to date is 580,508 square feet.

There are still some departments which should be housed in the Municipal Building and to which spaces have not been assigned. A study of the needs of these departments by the architects has been so far completed as to now enable the Board of Sinking Fund Commissioners to complete the allotment of space in the building subject to final disposition of allotment to the Departments of Water Supply, Gas and Electricity and Docks and Ferries. We therefore beg to recommend that the following departments or bureaus be allotted approximate space in the building, namely:

|  |       |
|--|-------|
| Board of Ambulance Service, square feet on the third floor.....                | 1,000 |
| City Clerk, Marriage License Bureau, square feet on the third floor.....       | 2,000 |
| City Clerk, Library, square feet on the fifth floor.....                       | 1,000 |
| City Clerk, offices and filing space, square feet on the twelfth floor.....    | 947   |
| City Clerk, offices and filing space, square feet on the thirteenth floor..... | 4,169 |
| Board of Inebriety, square feet on the third floor.....                        | 1,000 |
| Chief City Magistrate, square feet on the fourteenth floor.....                | 4,169 |
| Commission on Standardization, square feet on the eighth floor.....            | 1,908 |
| Headquarters, National Guard, New York, square feet on the eighth floor.....   | 2,942 |
| Headquarters, Naval Militia, New York, square feet on the ninth floor.....     | 754   |
| Public Recreation Commission, square feet on the third floor.....              | 842   |
| Municipal Art Commission, square feet on the twentieth floor.....              | 1,000 |

Total, square feet ..... 21,731

In addition to the above allotment of space to be made there are questions which have been before your Committee relating to the allotment of space to the Department of Water Supply, Gas and Electricity and the Dock Department. In the first study of space to be allotted the Department of Water Supply, Gas and Electricity that Department was placed on the twenty-third, twenty-fourth and twenty-fifth floors. The total approximate space at its disposal is 55,000 square feet. The question has arisen as to whether the Bureau of the Water Register should not be located on a floor nearer the street rather than with the main offices of the Department of Water Supply, Gas and Electricity. The Commissioner of the Department of Water Supply, Gas and Electricity does not deem the separation of the Bureau of the Water Register from the other offices of his Department as advisable. We recommend that a hearing on this matter be had before the Board.

Your Committee deems that the offices of the Dock Department should be located in the Municipal Building. Commissioner Tomkins of the Dock Department is not decided in his preference as to whether the offices of the Dock Department should remain in the present location, Pier "A," North River, or whether they should be moved into the Municipal Building. He has suggested, however, that if, pursuant to chapter 189 of the Laws of 1883, arrangement may be made whereby the Police Department, joint occupant with the Department of Docks and Ferries, Pier "A," North River, will surrender that portion of the pier used for police purposes at the same time that the Dock Department surrenders its portion of the pier—the pier may be turned over for commercial use and the removal of the Dock Department offices to the Municipal Building would, at least, gain the advantage of an additional dock for public use.

The statute referred to provided that the Dock Department should construct a pier for the use of the Police Department of The City of New York. It was provided in the statute that if, at any time, the Police Department should relinquish its right to use such dock, it would thereupon revert to and be in the control of the Dock Department to the same extent as other piers. The total amount of space which the Dock Department will need is approximately 12,281 square feet and this space may be provided on the twenty-fourth floor of the building if the Board determines to locate the Bureau of the Water Register on the second floor. If, however, the Bureau of the Water Register is to be located with the other offices of the Department of Water Supply, Gas and Electricity, the space where the Dock Department may be located is on the thirteenth and fourteenth floors. This would necessitate the relocation of several of the smaller departments now recommended for allotment.

The Committee respectfully recommends also modifications of space allotment made heretofore to the following departments:

Armory Board—Assigned 1,000 square feet on the third floor, June 26, 1912.

This assignment to be modified to 1,000 square feet on the ninth floor.

Board of Estimate and Apportionment—Assigned 10,206 square feet on the thirteenth floor, June 26, 1912.

Further study of the needs of the Board would indicate that additional space should be assigned, and it is therefore recommended that the total assignment of space on the thirteenth floor to the Board of Estimate and Apportionment be 13,122 square feet instead of 10,206 square feet.

Bureau of Fire Prevention and Municipal Explosives Commission—Assigned 19,624 square feet on the eighth floor, June 26, 1912.

It has been found possible to reduce the area required for the offices of the Bureau of Fire Prevention and Municipal Explosives Commission. The Committee recommends that this be modified to an allotment of 16,682 square feet on the eighth floor.

Department of Public Charities—Assigned 9,194 square feet on the twelfth floor, June 26, 1912.

It is found feasible to reduce the area to be assigned this Department to 8,247 square feet on the twelfth floor, and your Committee recommends such reduction.

Board of City Record—Assigned 4,288 square feet on the thirteenth floor, June 26, 1912.

Board of Assessors—Assigned 4,650 square feet on the thirteenth floor, June 26, 1912.

In order to consolidate vacant spaces on this floor and to provide some additional filing space for Board of City Record, it has been found necessary to rearrange these departments, and your Committee recommends that the above allotments be modified to Board of City Record, 4,516 square feet on the thirteenth floor, and Board of Assessors, 4,545 square feet on the thirteenth floor.

With the allotments of space as made in June, 1912, and as herewith recommended, provision is made for all the City Departments or Bureaus which it is contemplated will occupy the building. The remaining vacant and unassigned floor spaces are as follows:

|                          | Location. | Area,<br>Square<br>Feet. |
|--------------------------|-----------|--------------------------|
| Second floor .....       | North     | 568                      |
| Third floor .....        | South     | 690                      |
| Third floor .....        | South     | 720                      |
| Third floor .....        | South     | 336                      |
| Fourth floor .....       | South     | 1,224                    |
| Fifth floor .....        | South     | 11,446                   |
| Ninth floor .....        | North     | 2,191                    |
| Ninth floor .....        | Centre    | 900                      |
| Thirteenth floor .....   | Centre    | 4,767                    |
| Sixteenth floor .....    | Centre    | 2,063                    |
| Twentieth floor .....    | Centre    | 2,335                    |
| Twenty-first floor ..... | South     | 2,378                    |
| Twenty-fifth floor ..... | South     | 6,994                    |
| Total .....              |           | 36,612                   |

There are no matters left for the Committee for its immediate consideration, except the disposition of the above spaces and an application which has been received from Dr. George F. Kunz of the American Museum of Safety.

This museum now occupies about 2,300 square feet at the Engineering Building, 29 West 39th street. The museum contains an exhibit of safety appliances used in connection with the various trades and public service corporations. It is the opinion of Dr. Kunz that a space of approximately 20,000 square feet will eventually be required, but that for some time 10,000 square feet would provide all necessary facilities. Whether the City should house this museum is a question of policy for your Honorable Board to determine.

Your Committee recommends that the remaining vacant spaces be held unassigned to provide for as yet undeveloped requirements due to unforeseen growth, temporary boards or commissions, and the accommodation of such privileges as barber shop, tobacconist, etc., as may be admitted to the building by your Honorable Board.

Respectfully submitted,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; R. R. MOORE, Chamberlain; ....., Commissioner of Water Supply, Gas and Electricity, Committee.

December 3, 1912.

## BOARD OF ESTIMATE AND APPOINTMENT.

### Franchise Matters.

**PUBLIC NOTICE IS HEREBY GIVEN THAT** at a meeting of the Board of Estimate and Apportionment held October 10, 1912, the following petition was received:

**To the Board of Estimate and Apportionment:** The petition of New York, Westchester and Boston Railway Company respectfully shows as follows:

Your petitioner has constructed and is engaged in operating its railroad in The City of New York, in accordance with a certain ordinance adopted by the Board of Aldermen of said City on the 26th day of July, 1904, approved by the Mayor on August 2, 1904, as amended by resolution of the Board of Estimate and Apportionment, adopted July 14, 1905, approved by the Mayor July 21, 1905, and by several subsequent contracts between New York, Westchester and Boston Railway Company and The City of New York, none of which amendments, however, alter or amend that portion of said ordinance to which this petition is addressed.

That in and by said ordinance it is provided, in section 2, paragraph 12, as follows: "Twelfth—The roadbed within the limits of The City of New York shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. For any failure to comply herewith the railway company shall be liable for a penalty of fifty dollars (\$50) per day."

That the railroad of your petitioner is wholly upon private right of way, except where it crosses over or under streets, avenues and other public places. That the construction of petitioner's roadbed is of such quality and nature that the requirements of said provision of said ordinance are wholly unnecessary, and do not serve any useful public purpose, or offer any advantage to the traveling public or to the City.

The roadbed throughout is ballasted with stone, and your petitioner verily believes that it is wholly unnecessary to water the same, and that no dust will arise in the absence of watering.

That it will be a serious hardship and inconvenience to your petitioner if it is obliged to comply with said section 2, paragraph 12 of said ordinance without any corresponding benefit to the public or to the City.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rent or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in

the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
