MESSAGES FROM THE MAYOR.

No. 1898.

His Honor the Mayor—Transmitting a Resolution Certifying that an Emergency Exists Which Requires that the City Purchase Supplies for Sale to its Inhabitants.

City of New York, Office of the Mayor, October 18, 1917.

To the Honorable The Board of Aldermen, New York:

Gentlemen—For the past three years the people of this City have been increasingly weighed down by a great burden created by the high cost of living. The increase in food prices has been continuous. Its pressure upon the normal incomes of all citizens is so heavy as to bring want and suffering to thousands of our people.

Shortly before the outbreak of the European war, I organized a Citizens' Committee on Food Supply, which made commendable efforts to relieve the situation. With the comparatively small resources of a volunteer organization, they tried and temporarily succeeded in reducing the cost of important staple commodities. But I was convinced then, as I am now, that only action by the City will secure effective relief.

For three years the City administration has sought at Albany enabling legislation to permit the establishment of an adequate and effective Department of Markets. For three years the Legislature, either blinded to the approaching crisis or influenced by the pernicious lobby maintained by the food monopolists, denied the power requested by the City.

Last winter conditions became so acute that they caused widespread and vigorous agitation. Delegations of distressed men and women came to the City Hall and demanded relief. My sympathy went out to them, and I stated then that the City government had no legal power to act. I informed them that I had made repeated efforts to secure that power and that I would continue to make such efforts. With the concurrence of the Board of Estimate I made application to the Legislature to authorize the City to buy and sell food at cost. This application the Legislature denied when in regular session.

Finally this year, after three years of effort on the part of the City administration and due to the pressure of war conditions and to the impact of public opinion, the Legislature, in extraordinary session, enacted a bill which has become statute law and which contains a grant of power sufficient to secure some accomplishment. This new law, known as Chapter 813 of the Laws of 1917, confers power upon the City, with the consent of the State Food Commission, by such law established, to purchase, store and sell to its citizens food and fuel. In view of the constant rise of prices during the past winter, and in view of their present level, it is clear that an emergency exists sufficient to justify application by the City to the State Food Commission for permission to exercise the power to buy and sell.

Pursuant to the provisions of Chapter 813 of the Laws of 1917, the Board of Estimate and Apportionment has made provision for the transfer of funds and personnel, from existing departments charged with the jurisdiction of public markets, to the new Department of Public Markets provided for by the above-named law; and further pursuant thereto I have on the 15th of October, 1917, appointed the Honorable Henry Moskowitz, Commissioner of the newly-created Department of Markets. That Department is now duly organized and in operation.

For your information, and bearing upon the question of existing necessity and existing opportunity for action, I transmit herewith correspondence between Mr. George W. Perkins, Chairman of the Mayor's Food Supply Committee and Commissioner Moskowitz bearing date of October 16, 1917.

It is clear that the time for action has come.

To that end I as Mayor have transmitted simultaneously with this communication to your Honorable Board a letter to the Honorable John Mitchell, Chairman of the State Food Commission, certifying that the emergency specified in the statute exists, and requesting consent of the State Food Commission for the exercise by the City of power to buy, store and sell food and fuel to its inhabitants through such agencies and in such manner as the City may determine. The agency will, of course, be the newly-established Department of Markets.

I now request your Honorable Board to adopt, pursuant to the provisions of Chapter 813 of the Laws of 1917, a resolution stating that such a necessity for the purchase, storage and sale of food has arisen in this municipality.

I transmit herewith form of resolution approved by the Corporation Counsel.

Respectfully,
JOHN PURROY MITCHEL, Mayor.

Be it resolved and certified, pursuant to the provisions of section 14 of chapter 813 of the Laws of 1917, that on account of the deprivation of necessities of life in The City of New York by reason of a shortage in the supply of and excessive charges for milk, meats, other food and fuel, an emergency exists which requires that The City of New York purchase milk, meats, other food and fuel and provide storage for and sell the same to its inhabitants.

October 17, 1917.

Approved as to form: LOUIS H. HAHL, Acting Corporation Counsel.

(Copy.)

Mr. GEORGE W. PERKINS, Chairman, Mayor Mitchell's Food Supply Committee, New York City:

Dear Sir—I am in receipt of your letter of present date. You properly point out how Mayor Mitchell's Administration has been paralyzed in this matter for three years by the opposition to legislation which was finally enacted at the last regular and extraordinary session.

In the absence of legal power the work of the Mayor's Food Supply Committee has been most commendable. I am deeply impressed with the fact that already your Committee has made arrangements for the purchase of 250,000 bushels of potatoes which will be stored at the Hallenback Building provided for you by Mayor Mitchell and his administration. I believe, however, that 250,000 bushels will not be enough.

I am firmly of the opinion that the Government of the City of New York must be permitted to purchase, store and sell food through such channels as seem best to it, for the purpose of preventing an inordinate rise of price in foods essential to life. I therefore agree with you that at least 2,000,000 bushels of potatoes must be acquired and stored by the city for the purpose of keeping down the price of this essential commodity within reasonable limits. It is also evident to me that the city should not interfere with "the proper functions of the retail dealer or the legitimate wholesale dealer, or the distributor, but rather should help all such dealers in food by coming to their aid whenever they are held up by the speculator and the hoarder of food."

I have requested to-day in a communication to the Mayor that he seek permission from the State Food Commission for the City to purchase, store and sell food and fuel in accordance with the law recently passed.

Pending action by the State Commission on the granting to New York City of the right to buy and sell food I will be obliged if you will adhere to your present plans in connection with the purchase and storage of potatoes.

I am eagerly awaiting reports on the milk situation. The control of the price of milk, so essential to children and almost as universally used by the general community as water, is a matter of immediate and pressing importance. Action is necessary.

Sincerely yours,

HENRY MOSKOWITZ.

October 16, 1917.

Dr. HENRY MOSKOWITZ, Commissioner of Markets, New York City:

My Dear Dr. Moskowitz—Shortly after Mr. Mitchel was elected Mayor he asked certain citizens to go on a committee to study the City's food supply and make recommendations. From time to time this Committee has made various recommendations to the Mayor and to the Governor.

The Mayor appointed this Committee because of the constantly increasing cost of foodstuffs and because the City had no Market Department or Market Commissioner through whom he could work, and because under the City Charter he could not without a special act of the legislature establish a Market Department or appoint a Market Commissioner.

In the winter of 1914-1915 Mayor Mitchel caused a Bill to be introduced at Albany which would have given New York City this power. It was impossible to get the Bill even reported out of the Committee to which it was referred.

During the winter of 1915-1916 another attempt was made to secure legislation, but without success. Thus for two years the legislature effectively balked the City's attempts to secure the legislation that it was obliged to have before it could even begin constructive work on its food problem.

Last winter a Bill was introduced again, and after months of wrangling has recently been passed in the very last days of the legislative session. Meanwhile during the three years that were lost through obstructive tactics in Albany, the Citizens' Committee which the Mayor appointed in 1914 did everything it could do as citizens along educational lines, by recommending substitute foods, by bringing certain articles of food into the City and selling them at cost, etc.

After considering many methods of meeting the practical question of how to reduce the price of food, the New York City Food Aid Committee of which I am also Chairman, came to the conclusion some time ago that effective and immediate relief could only be had through the City having the power, which only the legislature could give it, to buy food direct from the producer and sell it to the consumer through such channels as might seem best. The Food Aid Committee believes that in no other way can the hoarder and speculator in food be effectively coped with. In urging this course it has never been the intention of the Food Aid Committee to interfere with the proper functions of the retail dealer, or the legitimate wholesale dealer or distributor, but rather to help all such dealers in food by coming to their aid when they were held up by the speculator and hoarder of food.

Last winter when the potato situation was so acute in this City, fearing that a similar situation might arise again next winter, and wishing if possible to prepare in advance to prevent it, our Committee went to Maine and bought one hundred carloads of the best seed potatoes to be had in that State. We retailed these to farmers in this State at cost, urging them to increase their acreage of potato planting. In one of the best potato sections in this State in connection with the sale of these seed potatoes I offered to buy all the potatoes raised by the farmers and pay \$1.00 a bushel for same when ready for market this fall. During the spring I made contracts of this kind with nearly four hundred and fifty different farmers upstate, which will probably give us something like 250,000 bushels of potatoes. These are now just beginning to be dug and we are receiving them at \$1.00 a bushel at the railroad stations at which they are delivered. Mayor Mitchel has had the city authorities place the Hallenbeck Building at our disposal as a storage house for a considerable quantity of these potatoes. The first of these potatoes arrived last week and they are now coming along quite rapidly. It is the intention to store them in this building and sell them at cost later on when it is feared potatoes will be higher than now. All this has been done with the approval of Mayor Mitchel who has been eager to have operations in this direction increased; but as the City could not, until, authorized by the legislature, help finance such a transaction, it has been necessary to rely upon private sources for the money, and therefore it was not possible to undertake as large a transaction as should have been undertaken in the interest of the consumers of this City. At least 2,000,000 bushels or more should be acquired by the City in this way.

It has not been the intention to make any money out of the transaction. The hope has been that it might be the nucleus for the City to move rapidly forward with a much larger undertaking as soon as it obtained the proper authority. May I ask that this matter receive your immediate consideration, for valuable time has already been lost if additional potatoes are to be secured for next winter's use.

The new State Food Commission has been given the power by the legislature to grant to the City of New York, on application, the right to buy food direct from the producer and sell it through such channels as it sees fit. If, therefore, you approve of the course initiated, and think purchases should be undertaken on a larger scale by your Department of Markets, you may desire to ask the State Commission for permission to make such purchases.

If you decide to follow some such course the potato contracts and everything that has been done in connection with the matter are at your disposal, and will be turned over to you at cost if you so desire. The present market price of potatoes is above the \$1.00 a bushel named in the 450 contracts.

I bring this potato question to you at this moment because it seems to require immediate action. Will you please let me know whether you wish to take up the transaction, or desire that it be carried on as it is now being undertaken, or that it be discontinued altogether. An early reply will be greatly appreciated.

The milk situation and other phases of the food problem in the City will be touched on in a subsequent report that will be made to you in a day or two. Sincerely yours,

MAYOR MITCHEL'S FOOD SUPPLY COMMITTEE, GEORGE W. PERKINS, Chairman.

Council of the General Organization—Resolution of Protest Against Lengthening the School Day.

Whereas, the lengthening of the school day has worked many hardships upon the students who are forced to seek employment after school hours for maintenance and as a result has forced many of these students to leave school, and

Whereas, the lengthening of the school day will greatly weaken the activity of the clubs and societies in this school, and

Whereas, the various athletic teams find the new conditions entirely unsatisfactory for the training and preparation necessary, and

Whereas, the number of study periods has been increased under conditions in which the student finds it impossible to concentrate on his studies, and

Whereas, the homework has not been decreased and therefore brings about a lack of time for proper recreation after school hours, and

Whereas, the new system, if continued, is likely to impair our health and discourage our school life activity,

Be it resolved that we, the members and officers of the Council of the General Organization, be put on record as being opposed to the new system, and recommending that the school hours of former years again be put into operation, and

Be it further resolved that this resolution be sent to Mayor Mitchel, to the President of the Board of Aldermen, to Dr. Rollins, and to the President of the Board of Education, and

Be it further resolved that copies of the above resolutions be circulated throughout the school for the signatures of the students.

Passed at the regular meeting of the Council, October 16, 1917, by a unanimous vote in its favor.

Dear Sir—Pursuant to the authority vested in me by section 383 of the Greater New York Charter, I hereby designate you as Acting President of the Borough of Manhattan for the purpose of representing me in the Board of Aldermen at the meeting to be held Tuesday, October 23, 1917. Very truly yours,

Honorable FRANK L. DOWLING, President of the Board of Aldermen, City of New York.

Dear Sir—Pursuant to the provisions of section 383 of the Greater New York Charter and opinion of the Corporation Counsel, dated January 15, 1908, based thereon, I have designated James Butler, Assistant Commissioner of Public Works, to act as member of the Board of Aldermen of the City of New York, in and for the President of the Borough of Queens, at a meeting of the Board of Aldermen, advertised to be held in the City Hall, Borough of Manhattan, New York City, on this date at 1:30 p. m. President, Borough of Manhattan—Request for Authority to Purchase Wood Paving Blocks without Public Letting.

City of New York, Borough of Manhattan, President of the Borough, Municipal Building, October 19, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen.

Dear Sir—Permission is hereby requested to purchase by open market order, without public letting, a quantity of wood paving blocks at a cost not to exceed \$3,500.

The blocks are required for immediate use for repairs to street pavements and the work in some instances is so urgent and necessary that further delay in making the repairs would develop serious conditions.

The necessity for immediate purchase of these wood blocks is due to the fact that the Contractor to whom the contract was awarded on May 21, 1917, for furnishing them has failed to make any deliveries and there is not now sufficient time to advertise and make a new contract.

Your favorable consideration is respectfully requested. Yours very truly,

MARCUS M. MARKS, President, Borough of Manhattan.

Commissioner of Parks, Borough of Brooklyn—Request for Special Revenue Bonds, \$1,000, to Replenish Certain Accounts.

Department of Parks, Litchfield Mansion, Prospect Park, Borough of Brooklyn, New York City, October 20, 1917.

To the Honorable Board of Aldermen, City Hall, Manhattan:

Gentlemen—Supplementing my previous request of July 16, 1917, to your honorable Board for the issuance of revenue bonds in the amount of \$1,000, \$500 of which is to reimburse account No. 1298, Educational and Recreational Supplies, and \$500 to reimburse account No. 1301, General Plant Supplies, it is necessary at this time to modify our previous request which has not as yet been acted upon by your Board, on account of the exceedingly high prices which this Department has been compelled to pay for purchases made from these accounts. It will be necessary to change our former request to the amount of fifteen hundred dollars (\$1,500), seven hundred dollars (\$700) to reimburse account No. 1298, Educational and Recreational Supplies, and eight hundred dollars (\$800) to reimburse account No. 1301, General Plant Supplies.

I would urgently request immediate action by your Board on these funds, as it will be impossible for the Department to make further necessary purchases from these accounts which have been exhausted and are urgently needed to carry on the work.

Very truly yours,

RAYMOND V. INGERSOLL, Commissioner.

Secretary, Board of Standards and Appeals—Certified Copy of Resolution Relative to Establishment of Grade of Position of Plumber in City Departments.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, October 22, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment October 19, 1917, relative to the establishment in City Departments of the additional grade of position, as follows:

Position.	Rate of Compensation.	Incumbents.
Plumber.....	\$6 per diem	Unlimited

I also transmit herewith copy of report of the Committee on Salaries and Grades relative thereto. Yours very truly,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, recommends to the Board of Aldermen the establishment in City departments of the grade of position, in addition to those heretofore established, to be effective as of July 1, 1917, as follows:

Title.	Rate Per Diem.	Number of Incumbents.
Plumber.....	\$6 00.	Unlimited

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 19, 1917.

JOSEPH HAAG, Secretary.

October 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On September 19, 1917, the Local Union No. 463, United Association of Plumbers and Steamfitters transmitted a communication setting forth that since July 1, 1917, the prevailing rate of wages for journeyman plumbers has been \$6 per diem, and that said rate has been paid by all members of the Master Plumbers' organization since that date. The communication includes a request that the Plumbers employed in City departments be paid the \$6 rate from July 1 last. The Bureau of Personal Service reports thereon as follows:

"The journeymen plumbers employed by the City are paid \$5.50 per diem. The request involves an increased annual cost of \$6,800.

"Investigation shows that a very large majority of journeymen employed in the City have been receiving \$6 per diem since July 1, 1917. Mr. Alexander Brown, Executive Clerk of the Association of Master Plumbers, states that on May 1, 1917, the association notified all architects, builders and general contractors and the heads of all City departments that on and after July 1 the standard charge for the services of a plumber and helper would be \$11 per diem; that this rate was based on the fact that the Master Plumbers would on July 1 recognize \$6 as the union and prevailing rate for a day's work for a journeyman plumber.

"Mr. Brown further states that there are nearly 1,000 Master Plumbers in the five boroughs; that they employ a large majority of licensed journeyman plumbers in the City at the \$6 rate and that at the present time it is difficult to secure the services of a plumber at that rate.

"There appears to be no doubt that the prevailing rate for journeymen plumbers has been \$6 per diem since July 1, 1917."

In view of the foregoing facts we recommend the adoption of the attached resolution approving the \$6 per diem rate for Plumbers, effective as of July 1, 1917, and to provide the necessary funds. Respectfully,

ALBERT E. HADLOCK, Deputy and Acting Comptroller; JOHN PURROY MITCHELL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the Central Purchase Committee:

No. 1905 (S. O. 284).

Central Purchase Committee—Request for Permission to Purchase Coal, without Public Letting, for Various Departments.

City of New York, Central Purchase Committee, Municipal Building, October 19, 1917.

Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—Request is hereby made for permission to purchase without public letting, coal required for consumption during the months of January, February and March, 1918, by the following departments: Bellevue and Allied Hospitals, Department of Public Charities, Department of Correction, Department of Health, Fire Department, Police Department, Department of Plant and Structures, Department of Street Cleaning, Department of Parks, Manhattan and Richmond; Department of Parks, Bronx; Department of Parks, Brooklyn; Department of Parks, Queens; Department of Docks and Ferries, Department of Water Supply, Gas and Electricity, Armory Board.

The situation which has compelled us to seek this permission since April of this year persists and it is extremely doubtful that bids will be received from reliable dealers if we are required to advertise. If the permission is granted at this time the successful bidders will be required to deliver coal in accordance with a specification assuring the City of a good quality. Purchases made in accordance with the permission granted by your Honorable Board throughout this year have been of great advantage to the City and it is desired that this advantage may be secured toward the early months of the coming year. Respectfully yours,

LEONARD M. WALLSTEIN, Secretary, Central Purchase Committee.

City of New York, Central Purchase Committee, Municipal Building, October 22, 1917.

Honorable Board of Aldermen, City Hall, N. Y.:

Gentlemen—Referring to the attached request for permission to purchase without public letting coal, I beg to state that the Corporation Counsel has rendered an opinion to the effect that the Board of Aldermen at this time may waive public letting on the schedule for coal which is to be paid for out of appropriations for 1918.

Owing to the extraordinary coal conditions which have developed in the past few days, it is urgent that we secure bids immediately. We therefore ask that your Honorable Board grant this permission at your meeting to-morrow, Tuesday, October 23, 1917. Respectfully yours,

CENTRAL PURCHASE COMMITTEE, F. X. A. PURCELL, Acting Director.

In connection with the foregoing communication Alderman McCann offered the following resolution which on his motion was made a Special Order for next meeting.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen. No. 1790—Commissioner of Parks, Brooklyn: Request for Special Revenue Bonds, \$1,000.00, to Meet Estimated Deficiencies in Certain Accounts.

Sir—In accordance with your request that the above matter be investigated, the Bureau of Contract Supervision reports as follows:

This request was made on July 16, 1917, when some funds were still available in the accounts for which bonds are requested, but it was evident that the balance in each account would be insufficient to carry the department during the remainder of the year.

Owing to the adjournment of your Board for the summer this request was not acted on, and as no other funds were available and as it was necessary to keep the department in operation, supplies, such as toilet paper, water, ice, bathing supplies, axle grease, kerosene, have been purchased, for which vouchers aggregating approximately \$1,000.00 are held in the department awaiting an appropriation of funds.

Additional sums will also be required in the accounts to carry the department through the remainder of the year.

The Commissioner has, therefore, revised his request to read as follows:

Code 1298 Educational and Recreational Supplies.....	\$700 00
Code 1301 General Plant Supplies	800 00
	\$1,500 00

There are no funds available in the department for transfer to these accounts at this time and it is improbable that any balances will be left in any accounts for transfer at the end of the year. Very truly yours,

TILDEN ADAMSON, Director.

Report of the Committee on Finance in Favor of Filing Request of the Commissioner of Parks, Borough of Queens, for Special Revenue Bonds, \$7,935, to Pay Wages of Laborers, Etc.

The Committee on Finance to which was referred on September 18, 1917 (Minutes, page 191), the annexed request of the Commissioner of Parks, Borough of Queens, for Special Revenue Bonds, \$7,935, to pay wages of laborers, etc., respectfully

REPORTS:

That being advised that there are sufficient funds available for transfer by the Board of Estimate and Apportionment, it recommends the request be placed on file.

FRANCIS P. KENNEY, F. H. STEVENSON, CHARLES P. COLE, CHARLES DELANEY, JOHN T. EAGAN, FRANK A. CUNNINGHAM, MICHAEL STAPLETON, Committee on Finance.

The City of New York, Department of Parks, Borough of Queens, Sept. 11, 1917. Hon. FRANK L. DOWLING, President of the Board of Aldermen, City Hall, New York City.

Dear Sir—Application is hereby made for an issue of Revenue Bonds in the amount of \$7,935, to the Department of Parks, Borough of Queens.

Of this sum \$280 is required for 56 days for one painter; \$155 is required for 31 days for a second painter, to fill out the quota of days allowed us in the budget for 1917. This number was reduced by action of the Board in increasing the per diem rate to be paid to painters from \$4.00 to \$5.00.

These days were decreased temporarily, with the understanding that we were to be given them again at a later date, when required.

Of the balance, \$5,000 is requested for 3,000 days of Laborers at \$2.50 and \$2,500 for 1,000 days of Climbers and Pruners at \$2.50 per diem.

This sum is required to provide for the routine work of the Department.

The emergencies in connection with war gardens early in the year, together with the vacancies in the Department caused by enlistment of members of the force for military purposes, and other emergencies due to the war have practically used up our available funds.

I would respectfully request early action on this application, in order that the work of the Department may not suffer.

I have the honor to remain, Respectfully, JOHN E. WEIER, City of New York, Board of Estimate and Apportionment, Municipal Building, October 15, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen, City.

Dear Sir—I am in receipt of your letter of the 27th ult., for information on the request of the Commissioner of Parks, Queens, for an issue of \$7,935 Special Revenue Bonds to pay the wages of laborers, painters, etc.

In reference thereto I will state that an investigation made by this Bureau within the past few days has resulted in establishing the fact that the sum of \$5,000 will be adequate to comply with this request.

The Commissioner has agreed to this amount and accordingly there will be presented to the Board of Estimate and Apportionment a report and recommendation of a resolution to transfer \$5,000 from Code 3039, Salary and Wage Accruals.

I would, therefore, request that you take no action on the issue of the Special Revenue Bonds, as the above transfer of \$5,000 will enable the Commissioner to carry on the department work. Very truly yours,

EDWARD FEENEY, Acting Assistant Director.

Which report was accepted.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$6,550, to Meet Anticipated Deficits, Bellevue and Allied Hospitals.

The Committee on Finance to which was referred on October 2, 1917 (Minutes, page 8), the annexed request of the Board of Trustees of Bellevue and Allied Hospitals for Special Revenue Bonds, \$6,550, to meet anticipated deficiencies, respectfully

REPORTS:

That having examined the subject, it believes these funds to be necessary, and recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of six thousand five hundred and fifty dollars (\$6,550), the proceeds whereof to be used by the Board of Trustees of Bellevue and Allied Hospitals for the purpose of meeting anticipated deficiencies all obligations contracted for hereunder to be incurred on or before December 31, 1917.

FRANCIS P. KENNEY, F. H. STEVENSON, CHARLES P. COLE, CHARLES DELANEY, JOHN T. EAGAN, FRANK A. CUNNINGHAM, MICHAEL STAPLETON, Committee on Finance.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, September 27, 1917.

Hon. FRANK A. DOWLING, President, Board of Aldermen, City Hall, New York:

Sir—Under date of May 26, 1917, the Trustees of Bellevue and Allied Hospitals requested the Board of Aldermen to authorize an issue of special revenue bonds in the sum of \$360,750, to meet the anticipated deficits in the appropriations for 1917. No action was taken on some of the items as the needs were not considered urgent at the time. A review of the accounts indicates that there is now an urgent need for additional funds in the following accounts:

Code No. 2071—Forage and Veterinary Supplies	\$550 00
Code No. 2076—Refrigerating Supplies	1,000 00
Code No. 2086—Materials	5,000 00

The Trustees therefore request your Board to authorize an issue of special revenue

bonds to meet the anticipated deficits in these appropriations. The deficit is due to inadequate appropriations granted in these codes and also the increased cost of supplies. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees. City of New York, Board of Estimate and Apportionment, Bureau of Contract Supervision, Tilden Adamson, Director, Municipal Building, October 22, 1917.

No. 1865—Board of Trustees, Bellevue and Allied Hospitals—Request for Special Revenue Bonds to Meet Anticipated Deficiencies.

Hon. FRANCIS P. KENNEY, Chairman Finance Committee, Board of Aldermen:

Sir—As requested in your communication of October 4, 1917, I have caused an examination to be made into the request of Bellevue and Allied Hospitals for \$6,550, in special revenue bonds to meet deficiencies in various appropriations for the year 1917, as mentioned below:

Code No. 2071, Forage and Veterinary Supplies..... \$550 00

The appropriation made for this purpose was exhausted on September 15, due to the increased cost of forage, particularly oats. Based upon present prices and the consumption for the first nine months of the year, or about \$150 per month, it is quite probable that the department will require about \$550 for the rest of the year.

Code No. 2076, Refrigerating Supplies..... \$1,000 00

The balance in this fund early in September was approximately \$970. The depletion of this account is attributed to the increased cost of Aqua Ammonia and Anhydrous Ammonia, and also to the advanced cost of ice delivered to Harlem, Gouverneur and Neponsit Hospitals. Based upon experience for the first nine months of the year, the department will require \$897 for Aqua and Anhydrous Ammonia and Calcium Chloride, besides \$1,542 for ice to be delivered to Neponsit, Harlem, Gouverneur and Fordham Hospitals. It therefore appears that the \$1,000 requested is necessary.

Code 2086, Materials..... \$5,000 00

The appropriation made for materials is exhausted. The department has submitted about 140 items of materials which it is stated will be required for the rest of the year. An examination has been made and it has been found that the items requested are not in stock.

Pending the completion of the examination, it is suggested that the Board of Aldermen grant the request. Respectfully,

TILDEN ADAMSON, Director.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, \$12,000, to Replenish Account, "Donations to Spanish War Veterans."

The Committee on Finance, to which was referred on October 16, 1917 (Minutes, page 58), the annexed request of the Commissioner of Public Charities for Special Revenue Bonds, \$12,000, to replenish the account "Donations to Spanish War Veterans," respectfully

REPORTS:

That, having examined the subject and basing its conclusions on the annexed report of the Bureau of Contract Supervision, it recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twelve thousand dollars (\$12,000), the proceeds whereof to be used by the Commissioner of Public Charities for the purpose of replenishing the account "Donations to Spanish War Veterans," all obligations contracted for hereunder to be incurred on or before December 31, 1917.

FRANCIS P. KENNEY, F. H. STEVENSON, CHARLES P. COLE, CHARLES DELANEY, JOHN T. EAGAN, FRANK A. CUNNINGHAM, MICHAEL STAPLETON, Committee on Finance.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, October 9, 1917.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—Request is hereby made for an authorization of special revenue bond funds in the sum of \$12,000 to meet an anticipated deficiency in the account Code 1989, Donations to Spanish War Veterans.

It was estimated early in the year that we would need \$46,000 in addition to our original appropriation of \$20,000 to enable us to take care of the requests for relief of Spanish War veterans and their families.

On March 26 we requested an authorization of \$20,000. This was granted by you early in April.

Again on June 14 it was necessary for us to request an additional \$26,000. An authorization was made in the sum of \$16,000 in July.

We are basing our request upon our experience for the present year. At the present time there is a balance of \$8,573.50 in this account, and at the present rate of the requests for relief this amount will last only until the first of November.

In view of the above, may I request that this matter be given early consideration.

Very truly yours, JOHN A. KINGSBURY, Commissioner.

City of New York, Board of Estimate and Apportionment, Bureau of Contract Supervision, Municipal Building, October 22, 1917.

No. 1888—Commissioner of Public Charities—Request for Special Revenue Bonds, \$12,000, to Replenish Account "Donations to Spanish War Veterans."

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—The Bureau of Contract Supervision, to which you referred this request on October 18, 1917, reports thereon as follows:

The budget of the Department of Charities for the year 1917 included an appropriation of \$20,000 under "Code 1989, Donations to Spanish War Veterans." Additional appropriations of special revenue bonds of \$20,000 and \$16,000 on May 4, 1917, and August 14, 1917, respectively, make the total of appropriations for this code up to the present time \$56,000.

On October 19, 1917, there had been expended \$54,515.50 of this amount, leaving a balance on hand of \$1,484.50. The rate of expenditure averages approximately \$5,800 per month. For the balance of the year it is estimated that \$12,000 will be necessary to provide for the care of Spanish War Veterans.

The appropriation should be made available as soon as possible. Respectfully,

TILDEN ADAMSON, Director.

Which was laid over.

Report of the Committee on General Welfare in Favor of Adopting Resolution to Request the State Commissioner of Education to Institute an Investigation into the School Conditions in This City.

The Committee on General Welfare, to which was referred on February 6, 1917, (Minutes, page 305) the annexed request of the Conference of Organized Labor to the Board to hold hearings and to invite the Board of Education and city officials to answer why the demands for better educational facilities have not been respected respectfully

REPORTS:

As a result of its investigation your Committee finds the following conditions existing in the public schools system and submits the reasons therefor and suggests the ways in which they can be remedied.

First—There is a condition of congestion in the school buildings, both High and Elementary, that is a disgrace to the City of New York.

The number of children on part time in the elementary schools is increasing. In December, 1913, it was 32,104. On October 1, 1917, the number was 36,000. Including this number there were over 125,000 children out of a total register of 739,000 receiving less than five hours of schooling. In 1914 there were 115,955.

In the high schools there are only 39,000 sittings for a registration of 71,000 pupils. Every high school, with the exception of one or two in outlying boroughs, is running on a double shift program. There are more than 10,000 high school pupils under instruction in elementary buildings, and one of the city training schools is housed in the building built for an elementary school.

Second—This condition is due directly to the lamentable failure and neglect to build new school buildings.

There isn't to-day a single new elementary school building under construction. None will be started for two or three months. This is the first time in the history of the greatest city that such a condition has existed.

The records of the Department of Education and the Finance Department disclose a steady and continuous decrease in the total appropriations for school construction since 1902. During the four years, 1902-5, the grants for school buildings, additions and sites total \$42,138,430.00. During the years 1906-9 the amount was \$26,872,745.00, and during the years 1910-13 there were \$23,900,135.00; during the past four years the appropriations totaled from \$16,000,000.00 to \$17,000,000.00.

Third—The Board of Education has manifested a shocking lack of energy and insistence in demanding proper financial provisions for new buildings.

The record shows that on December 29, 1915, the Board requested an appropriation of \$6,471,730.00 for new school buildings and additions as urgently needed. This request was renewed in February, 1916. No appropriation was made. Finally, in April 12, 1916, the Board of Education found it necessary to rescind this request and to substitute one for alterations of buildings to enable them to be operated upon the so-called Gary Plan.

On February 28, 1917, the Board of Education requested an issue of corporate stock to the amount of \$7,359,273.00. The Board of Estimate granted \$4,659,036.00 in June and suggested that the remainder of the request for new school buildings be withdrawn and that there be substituted a request for a lesser sum for the alteration of 51 school buildings for the operation of the Gary plan. This procedure the Board of Education followed and within one month thereafter the additional funds were made available.

There is no evidence that the Board of Education insisted upon the importance of providing new buildings which this investigation has disclosed are urgently needed.

Fourth—There is disclosed an astounding failure to construct new buildings with funds available. This is directly chargeable to neglect on the part of the Board of Education to plan a building program to cover a period of years.

The result is inability to start buildings because of lack of sites for the particular buildings for which funds are available to slow progress in determining what school buildings shall contain, and to the high cost of school construction which results in bids in excess of appropriations and to the unfortunate policy of the Board of Estimate in prescribing the exact moneys that shall be available for particular school buildings.

This Committee condemns the neglect of the Board of Education to use the funds available for new schools and the policy of the Board of Estimate in segregating funds for particular buildings, thereby preventing the Board of Education from awarding contracts in sums greater than the appropriations as segregated for other buildings upon sites already in its possession.

The Board of Education has over \$7,000,000 now available for the construction of new buildings. More than \$3,000,000 of it since May, 1916, but it has not yet contracted for the expenditure of a single dollar of this vast sum.

Other reasons that have contributed to slow progress in building schools have been difference of opinion between the Board of Education and Board of Estimate as to the purpose and kinds of buildings, for the construction of which funds should be applied, and to the fact that funds have been appropriated for buildings far in advance of the acquisition of sites, while other sites valued in excess of \$2,000,000 lie unimproved. A few instances are cited:

On May 19, 1916, the sum of \$1,530,422.00 was appropriated for the new building at 179th street and Third avenue, The Bronx, and for a new building for Schools No. 20 and 135, Brooklyn. This money has not been expended because it has been necessary to acquire the sites.

On the same date, the sum of \$543,474 was set aside for a new building on the site of Dumont Ave., then owned by the City. The Board of Estimate prescribed that this money must be expended for a combination, High and Elementary School. The Board of Education insisted that it be used for a High School no agreement could be reached and for months nothing was done. Finally, it was agreed to transfer this money to the construction of a new building for Elementary purposes on a site to be acquired in the neighborhood. The site for a High School then in the possession of the Board has been left unimproved. For a year and a half and probably for many months longer, this appropriation will lie unused.

On June 13, 1913, the sum of \$239,550 was appropriated for a new building at Coney Island. The site was not then in the possession of the Board of Education. Litigation is still delaying its acquisition. Nevertheless this money is being reserved for this particular building.

Many other instances of similar reserved appropriations have been spread upon the records of this Committee.

Fifth—In an attempt to solve the problem of housing the children in larger numbers in present school buildings, the Board of Education has extended a makeshift of duplicate school plan masquerading it as the Gary plan. The results have been: no material reduction in the number of children on part time but condemnation by parents and educators because of the extension of the plan before it had demonstrated its value in the schools selected for experiment.

The plan was begun as an experiment on a large scale in 12 schools in The Bronx, selected in June, 1915. Additions to four of these schools were necessary to the proper operation of the plan. Although the money for these additions was granted in July, 1915, not a single one of the four additions is ready to-day, 15 months later.

In spite of this fact, and as long ago as September, 1915, the Mayor and the Comptroller urged upon the Board of Education the extension of that plan to all of the Elementary School Buildings in the City. The Board of Education resisted such proposal until it found that it was not possible to secure funds for school buildings except upon the condition that the plan would be operative in the school buildings for which money was to be provided. At the same time, a Board of Education favorable to the extension of the plan was procured by the questionable procedure of the Mayor in pledging in advance of reappointment, members of the Board of Education, to favorable action upon recommendations for extending the so-called Gary plan. Testimony has been submitted to this Committee which shows further that members of the Board of Education have conveyed to Superintendents and Principals the impression that failure to support the extension of this plan in the schools would mean certainty that they would not be considered for advancement. The records of this Committee disclose evidence of such correspondence with Superintendents of Schools, candidates for promotion to higher positions.

We cannot condemn too strongly such methods of forcing extension of this plan, generally in the public schools and of creating in the high places in the Department opinion favorable to the plan by offer of preferment or of hints of punishment.

Sixth—The extension of this plan of schooling has been accomplished in spite of condemnation of such extension by Dr. William H. Maxwell, Superintendent of Schools; in spite of opposition by the Board of Superintendents, in spite of objections of parents, individually and through their organizations. The Board of Education has put the plan into operation in 33 school buildings. Plans to have it in operation in 53 by the first of January and is committed to its extension to 123 schools.

At every hearing held by the Committee, parents were emphatic in their protest against extension of the plan before it had proved its value.

Dr. Maxwell has declared that "there are in this plan some features, which, if wisely guarded, would be of great service to our schools; but forced upon us as they have been, without due consideration and without adequate preparation, they have worked incalculable injury to the schools and to the children of this City."

He specifies the details of such injury. He reports that tests made under his direction in 1915 "showed (1) that, in the so-called Gary schools, the pupils did not make as rapid progress in the fundamental studies as in an equal number of the traditional schools; (2) that the number of over-age children increases more rapidly in the Gary schools than in the traditional schools; (3) that the children leave school more frequently from the higher grades in the Gary school than in the traditional schools; (4) that it costs the City more to educate a child in a Gary or duplicate school than in a traditional school."

These considerations, however, have been ignored by the Board of Education, and by the Board of Estimate. The facilities provided in the original experiment with the plan are not being provided to the same extent as the plan is being extended throughout the city. Only as many and as varied facilities are being provided in school building after school building as are necessary for the accommodation of children. The needs of the particular neighborhood are not considered in determining the amount of funds that shall be granted to provide facilities.

The astounding fact was disclosed from the testimony of school officialism that the estimates of costs for the extension of the plan for 51 school buildings, were determined, not upon the basis of any visit to the individual schools or upon the basis of consultation with the principals but upon the basis of a particular formula devised by Superintendent Wirt and applied to school after school by the working force of the Committee on Education of the Board of Estimate and Apportionment. We submit further comments on the plan and its operation in the schools of this City made by the Superintendent of Schools, Dr. Maxwell.

"It is not the extension of the facilities for hand and eye work that I fear may injure the work of the schools in reading, writing, spelling, arithmetic, grammar, geography and history, but it is inherent weakness of the Gary or duplicate school plan itself. That inherent weakness is that the children who are not reciting in class are either being mentally bored and wearied in the auditorium or physically tired out in the gymnasium or playground and so rendered unfit for the ordinary work of the class room. Add to this the confusion of constant changing of large bodies of pupils from place to place, and you may faintly imagine how far a duplicate school is from that ideal of the 'calm air of delightful studies' which Milton fixed for all times in the minds of English-speaking peoples as the ideal home of mental training."

Seventh—There is conclusive evidence that the Board of Estimate through the exercise of its power to segregate funds has dictated School policies in violation of every principle of sound school administration.

The manner in which the extension of the Gary plan has been forced is a case in point. We have also ascertained that the Board of Estimate and Apportionment has compelled retrenchment in evening schools. Has endeavored to compel the closing of the Jamaica Training School for Teachers, has forced the Department of Education to consolidate schools and to reduce the number of principals. To send special teachers to service in the class room in lieu of regular teachers and to abandon many school activities.

This has been accomplished by indicating to the officials of the department, the basis upon which Departmental Budgets are made up and amount of appropriations determined. Such a procedure transfer to fiscal authorities determination of educational policies which is both unfortunate and unwarranted, and which the best interests of the public school children of this City demands shall be abandoned.

Eighth—We find a deplorable reduction in evening school service and what is particularly to be condemned in view of the importance of the Americanization of foreigners, a steady and continuous reduction in the service, the evening elementary schools are rendering in the task of instructing foreigners in English.

Where there were in operation in 1913, 102 evening elementary schools, there are in operation to-day, only 82. Where there were sessions, four nights a week, in 1913, there are sessions now but three nights. Where there were 900 teachers rendering service in classes for English to foreigners, there are now about 700. All of this, is evidence of a desire to save money at the expense of evening school instruction which this Committee believes is most unfortunate, particularly at this time.

In conclusion, your Committee submits for adoption, the following:

Resolved, That in view of the deplorable conditions in the public schools disclosed in the investigation made by the Committee on General Welfare, from the testimony of President Willcox, Ex-President Churchill and Superintendent Snyder, of the Board of Education, this Board requests the State Commissioner of Education and the State Department of Education to institute immediately a thorough investigation of these conditions and to extend the investigation of the Gary plan or duplicate school plan system already in contemplation to a far-reaching inquiry into the responsibility for conditions in the public schools of the City of New York.

HARRY ROBITZEK, Chairman; JAMES R. FERGUSON, JOHN T. EAGAN, CHARLES A. McMANUS, WILLIAM T. COLLINS, CHARLES H. HAUBERT, SAMSON FRIEDLANDER, Committee on General Welfare.

Board of Education, The City of New York, 500 Park Avenue, October 17th, 1917.

Hon. HARRY ROBITZEK, Chairman, Committee on General Welfare, Board of Aldermen, City Hall.

Dear Sir—Mr. Willcox has asked me to send you the enclosed copies of correspondence with District Superintendent Perry. Very truly yours,
ESTHER A. WEINSTEIN, Secretary to Mr. Willcox.

(Copy.)

October 18, 1916.

Hon. WILLIAM G. WILLCOX, President, Board of Education, 500 Park Avenue, New York:

Dear Sir—You have been quoted as saying that the vacancy in the Board of Superintendents will be filled only by one who is avowedly in favor of the "Gary" or duplicate plan and that no one avowedly opposed to the plan will be considered. I think you will grant that it is but fair to the district superintendents that they should know directly whether or not this is the attitude of the Board of Education and its President. I hope therefore that you will advise me if the above quotation correctly states your opinion.

As to definitions, I assume that one "avowedly in favor of the Gary plan" means one who desires to see that or some related duplicate plan immediately extended to all schools where there is present or prospective part-time and that one "avowedly opposed to the plan" is one who believes that it should not be thus extended until further demonstration of its value is had under a limited number of experiments carried on under favorable conditions. Respectfully yours,

A. C. PERRY, Jr., District Superintendent.

October 20, 1916.

Dr. A. C. PERRY, JR., District Superintendent, Elmhurst, New York:

Dear Dr. Perry—I have your letter of the 18th inst., stating that I have been quoted as saying that the vacancy in the Board of Superintendents will be filled only by one who is avowedly in favor of the Gary or duplicate plan, and that no one avowedly opposed to this plan will be considered for the position. I have made no such statement, and I should not presume to anticipate the action of the Board of Education by any such announcement.

I have no hesitation, however, in expressing my individual opinion that the Board of Education, charged as it is with the duty and responsibility of directing the policies of the school system, is thoroughly committed to an alternate and intensive use of the school plant and equipment as the only practical method of supplying adequate accommodation for our rapidly increasing school population, and of supplying, at the same time, the modern advantages generally recognized as essential for any well equipped school. In carrying out this policy, the Board will naturally select for responsible positions those who are ready whole heartedly to co-operate in the undertaking and who may be trusted to use all of their ability and influence to make it a success, and I do not think that anyone who is not ready loyally to support and further this avowed policy of the Board of Education has any right to claim or expect such recognition. Very truly yours,

PRESIDENT OF THE BOARD OF EDUCATION.

Which, on motion of Alderman Robitzek, was made a General Order for the day.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances Relating to "Posts and Poles."

The Committee on General Welfare to which was referred on October 2, 1917 (Minutes, page 12), the annexed ordinance to amend section 145 of Article 13 of Chapter 23 of the Code of Ordinances, relating to "posts and poles" Respectfully

REPORTS:

That, having examined the subject, they believe the proposed amendment to be desirable.

It therefore recommends that the said ordinance be adopted.

AN ORDINANCE to amend subdivision 3 of section 145 of article 13 of chapter 23 of the Code of Ordinances, relating to "posts and poles."

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. Subdivision 3 of section 145 of article 13 of chapter 23 of the Code of Ordinances, relating to "posts and poles," is hereby amended to read as follows: -

3. *Ornamental lamp-posts.* Ornamental posts, surmounted by lamps, may be erected within stoop lines on sidewalks, near the curb, in front of hotels, churches, theatres, railroad stations, and places of business, apartment houses and [other] places of public assemblage, in any street or public place. The boat service in the Department of Public Charities has been provided for until October 31, 1917, with the understanding that the completion of the new storehouse on Blackwells Island would permit the discontinuance of the service between Manhattan and Blackwells Island. However, owing to the delay in delivering material for the completion of the storehouse, it will be impossible to discontinue the boat service before December 31.

In view of these facts, I would urge your Honorable Body to take favorable action on this request. Very sincerely yours,

JOHN A. KINGSBURY, Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, October 10, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—I am in receipt of your communication of the 4th inst., calling attention to the following item in the City Record of that date:

"Page 6645—No. 1867, Request of Commissioner of Public Charities for \$8,951, special revenue bonds, to continue boat service in department until December 31, 1917."

You request that I investigate the matter and report my conclusions in time for the next meeting of the Committee.

Owing to the pressure of budget work, the report of this Bureau on this work has been delayed. The elevator connections with Blackwell's Island Bridge will not be completed before December 31st of this year, and for that reason this issue of revenue bonds is necessary and is for a continuation of the force now employed on the steamboats of the Department of Public Charities. Yours very truly,

GEORGE L. TIRRELL, Director.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burns, Burden, Browne, Cassidy, Collins, Colne, Cox, Crane, Cunningham, Curley, Delaney, Diemer, Dixon, Donnelly, Drescher, Eagan, Falconer, Farley, Ferguson, Ferrand, Florea, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hogan, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McManus, Molen, Moore, Mullen, O'Rourke, Palitz, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; President Connolly, by James Butler, Assistant Commissioner of Public Works; President Mathewson, by John G. Borgstede, Commissioner of Public Works; President Pounds, by Edmund W. Voorhies, Commissioner of Public Works; President Marks, by John H. Boschen, Assistant Commissioner of Public Works; the Vice-Chairman—68.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, or any part thereof, to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
