Which was referred to the Committee on Railroads.

By Alderman Flynn—

The Honorable the Board of Aldermen, New York City:

GENTLEMEN—We, representing the D., L. & W. R. R. Co., hereby make application for permission to extend a portion of the retaining-wall of vaults, in Exchange place and William street, one foot beyond the curb of sidewalk, that is, for a length of sixteen feet on Exchange place and fifty feet in William street.

In making this application we wish to call attention to the accompanying plan which shows that the old vaults extended into the street beyond the curb four feet four inches. We have given up to the City three feet four inches of these vaults, making our vaults uniform with the new ones, giving up in all two hundred and forty square feet, while the space occupied by our wall, which we now ask permission for, is sixty-six square feet.

Hoping your Honorable Board will give this your favorable consideration, we remain,

Yours respectfully,

L. C. HOLDEN, Architect.

Commissioner Gallup offered the following as a substitute:

Resolved, That Commissioner Tappen be and he is hereby requested to examine the Police Pension bill which takes effect on the 1st of January, 1893, and to suggest legislative changes for the purpose of more effectually carrying out its purpose, in order that a bill may be prepared and introduced at the opening of the new Legislature.

Debate was had thereon, whereupon, on motion, the matter was laid over.

Commissioner Gallup presented to the Board a statement of the cost of maintaining the flock of sheep in Central Park for the years 1891 and 1892, and offered the following resolution:

Resolved, That in the opinion of this Board it is inadvisable to maintain the sheep in Central Park during the year 1893, and that the same be ordered sold at auction as soon as the Director of the Menagerie shall advise that it is expedient, to the end that the highest price may be obtained. Laid over.

Mr. Simon Stevens appeared before the Board and was heard relative to the proposed regulation for closing the draw of the Third Avenue Bridge, over Harlem river, during certain hours of the day.

Commissioner Tappen offered the following:

The Union Railway Company of New York City having heretofore applied for permission to maintain its tracks upon and across the Madison Avenue Bridge for the purpose of running cars across the said bridge, which cars have been heretofore operated by animal traction, and the said company having determined to operate its cars across the said bridge and upon the rest of its route by electric traction:

Now, for the purpose of enabling said company to effect such change, and for the purpose of securing the proper operation of the bridge as a draw-bridge, when so operated, and for the purpose of securing to the public the greater facilities to be afforded by the use of electric power as a motive power, and for other purposes:

Resolved, That the Union Railway Company of New York City is permitted to maintain its tracks upon and across the Madison Avenue Bridge, and is permitted to run cars, operated by electric power, thereon, and to erect upon the bridge poles fit to carry the wires necessary for the propulsion of the said electric cars upon the bridge, and to construct whatever additional fixtures and wires may be required for such purposes, and is hereby granted full power and authority to run cars to be operated by electric power on the tracks upon and across the Madison Avenue Bridge, provided, however, that the said company shall so construct its tracks, poles, wires, fixtures and appurtenances, and shall so run, manage and operate its cars as not to impair the use of the bridge as a draw-bridge, and public highway; and provided further, said company shall submit a detailed specification for the work to be done to this Department for approval, and further, that this permission shall be subject to any change in the elevation or grade of the bridge and approaches; further

Resolved, That the said Union Railway Company in consideration of the license herein granted and during the life of this permit, shall supply electric power sufficient to operate the motor to turn the draw of the bridge, the power to be supplied during the whole twenty-four hours, it being understood that the Department of Parks shall supply the plant; notice that such supply of power shall be required of the Union Railway Company of New York City shall be given within thirty days prior to the date when such power shall be required; further

Resolved, That should it be found at any time inoperative or inadvisable by said Union Railway Company of New York City to operate its cars by electric traction it may abandon the use of such power and revert to the use of animal power.

Which was adopted by the following vote:

Ayes—Commissioners Dana, Gallup, Straus, Tappen—4.

Commissioner Dana reported that he had recommended to the Board of Estimate and Apportionment that appropriations of \$85,000 and \$75,000 be made to the Metropolitan Museum of Art and the American Museum of Natural History respectively.

Commissioner Tappen offered the following:

Whereas, The minutes fail to show that on October 19, 1892, the President was authorized, when appearing before the Board of Estimate and Apportionment, to change the amount of the appropriations recommended for the Metropolitan Museum of Art and the American Museum of Natural History for the year 1893, from fifty thousand dollars each to eighty-five thousand dollars and seventy-five thousand dollars respectively; therefore,

The proposed regulation requiring the closing of the draws of the Harlem River Bridges during certain hours of the day was taken up and considered.

Mr. Simon Stevens was heard in relation thereto.

Commissioner Tappen offered the following preamble and resolution as a substitute for that offered by him on the 2d instant:

Whereas, By the River and Harbor Act of Congress, approved September 19, 1890, the Secretary of War was directed to cause the low bridges now crossing the Harlem river to be replaced by draw-bridges, twenty-four feet high in the clear above the high water of spring-tides, at the expense of the owners thereof; and provides that the Secretary of War shall prescribe the time and regulations for the opening and operating of the draws in said new bridges, but that said draws shall not be required to be opened at any time other than between ten o'clock in the forenoon and five o'clock in the afternoon, and

Whereas, Many thousands of passengers and vehicles of all descriptions and a great number of street surface cars daily cross the bridges over the Harlem river, and

Whereas, The frequent and irregular opening of the draws of the bridges at Madison avenue and Third avenue at all hours causes great inconvenience and delay to passengers, public and private vehicles and to the lawful and necessary use of the said bridges as important public highways, and are thereby against the best interests of the City of New York, therefore

Resolved, That from and after the 1st day of December, 1892, the draws of the bridges at Madison and Third avenues be not opened or operated between the hours of six and ten in the morning and four and seven in the afternoon, except when otherwise ordered by the Secretary of War.

On motion, the matter was laid over until a full meeting of the Board.

Communications were received from the Presidents of the Metropolitan Museum of Art, the National Academy of Design and the New York Chapter of the American Institute of Architects, reporting favorably as to the artistic merit of the group of the fountain proposed to be presented to the City, commemorative of the discovery of America by Columbus.

On motion, the fountain was accepted and the matter was referred to the Landscape Architect for recommendation as to a suitable site.

Commissioner Gallup called up the following resolution offered by him and laid over on the 23d instant and move: its adoption:

Resolved, That Commissioner Tappen be and he is hereby requested to examine the Police Pension Bill which takes effect on the 1st of January, 1893, and to suggest legislative changes for the purpose of more effectually carrying out its purpose in order that a bill may be prepared and introduced at the opening of the new Legislature.

The President put the question whether the Board would agree with the said resolution, which was adopted by the following vote:

Ayes—Commissioners Dana, Gallup, Tappen—3.

The President from the Auditing Committee presented the following report:

The Engineer's estimate of the nature, quantities and extent of the work is as follows:

CLASS I.
Labor of removing the existing Pier and Dumping-board thereon.
CLASS II.
Mud Dredging, about..... 20,000 cubic yards
CLASS III.
Crib Dredging, about..... 16,000 "
CLASS IV.
Dredging Crib-work not filled in with stone, about..... 1,200 "

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

(1.) Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for each class of the work before mentioned, which shall be actually performed at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced on or about January 25, 1893, or within five days after notification from the Engineer-in-Chief of the Department of Docks that the premises are in such condition that the work can proceed, and the entire work is to be fully completed on or before the expiration of three months after the date of said notification from the Engineer-in-Chief or within as many days thereafter as the dumping-board on the pier may be in use or occupied by the Department of Street Cleaning, or by the Department of Docks, one month after the date of notification from the Engineer-in-Chief, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the structures to be removed under the contract, except such portions hereinafter specified which are to be delivered to the Department of Docks, will become the property of the contractor, and bidders must estimate the value of such material when considering the prices for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on, until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent in writing of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, so will, upon its being so awarded, become bound as sureties for its faithful performance in the sum of one thousand five hundred (\$1,500) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTI-
MATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

NEW YORK.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1890), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the paving, repavement or repairs.

Commissioner of Public Works
