THOMAS J. DORNEY, Clerk.

August 26, 1907.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

Dear Sir—I send you herewith report for the quarter ending June 30, 1907, together with the reports in detail of the Deputy Commissioner of Public Works, Superintendent, Bureau of Highways; Superintendent, Bureau of Sewers; Superintendent of Public Buildings and Offices, Engineer in Charge of Topographical Bureau and the General Bookkeeper.

Assistant Commissioner.

The Assistant Commissioner's report shows that during the second quarter of this year 180 contracts were entered into at a total cost of \$1,356,590.28, as against 55 contracts during first quarter of this year, aggregating \$409,782.49. The contracts for quarter ending June 30 are apportioned as follows:

	Contracts.	Amount.
Bureau of Highways.....	*124	\$1,118,109 96
Bureau of Sewers.....	48	184,658 08
Bureau of Public Buildings and Offices.....	8	53,822 24
Total.....	180	<u>\$1,356,590 28</u>

\* Thirty-four are for repaving.

## Bureau of Highways.

The Chief Engineer of the Bureau of Highways in his statement of the mileage of pavement in this Borough shows 649.69 miles of various classes of pavement, as against 647.08 on March 31, 1907. One hundred and seventeen contracts have been registered by the Comptroller during the second quarter amounting to \$1,093,837.67, and apportioned between the following accounts:

Repaving Bond Fund.....	\$537,776 56
Street Improvement Fund.....	474,681 98
Labor, Maintenance and Supplies.....	81,379 13
Total .....	<u>\$1,093,837 67</u>

One hundred and ten (110) preliminary estimates have been prepared for original improvements to be initiated through the various Local Boards, amounting to \$1,505,700, of which thirty-six estimates were for original asphalt pavement.

The work in the laboratory of this Bureau shows a total number of 566 tests, as follows:

Hydraulic cements .....	371
Asphalt mixtures .....	132
Miscellaneous samples .....	63
	<u>566</u>

—against 109 total tests during the first quarter of this year.

The work performed by the forces of the Repair Division shows 34,049 square yards granite block pavement repaired of a total of 51,980 yards of pavement repaired. This division repaired 49,824 square yards of various kinds of pavement during quarter ending June 30, 1906. They also relaid 61,019 square feet of flagging, as against 29,705 feet during the first quarter, and relaid 5,425 square feet of cement sidewalks.

The macadam repair division shows 26,885 square yards of macadam repaired, also twenty-three miles of dirt roadway repaired and cleaned. This force was employed also in cleaning cesspools, sprinkling macadam pavements, filling in washouts and hauling dirt used in filling. They have also made extensive repairs to planking and hand rail approaches to the numerous bridges under the jurisdiction of the Bureau of Highways.

## Topographical Bureau.

The work of this Bureau consists largely in the preparation of maps for the legal opening of streets, the making of detailed reports on the legal status of streets, which assist the Corporation Counsel to determine the value of evidences of dedication, etc. They also determine the elevation of public streets and the established lines of same. The importance of this Bureau and the fact that the work is steadily increasing will be shown more clearly by the detailed report attached.

## Bureau of Public Buildings and Offices.

The report of the Superintendent of this Bureau for the past quarter shows in detail the amount and number of supply orders to the various public buildings under its jurisdiction, also the amount of moneys expended in fitting up and making repairs to the different public offices, the work of painting and kalsomining of a number of rooms in the Kings County Court House being an instance. Considerable work has been accomplished towards the work on the Eighth Ward market site. A contract was let recently to construct crib bulkheads and was advertised under the percentage bidding system, which proved a great success and gave great satisfaction to the Engineers of this Department.

## Bureau of Sewers.

The report as set forth by this Bureau shows that 37,609 linear feet of sewers of all sizes, or the equivalent of over seven miles, were laid during this second quarter. Of this number 7,867 feet were brick sewers, ranging from 30 to 102 inches in diameter. There remained upon April 1, 1907, forty-one resolutions for sewer improvements, to the value of \$3,601,700, for which plans and specifications had not been completed; thirty-six sewer improvement plans have been completed and forwarded for advertisement, amounting to over \$607,000. The Engineer also reports he has reported upon 143 sewer improvements in reply to petitions for same and to precede the work of paving, the estimated cost of which is \$1,183,000, covering over twenty-seven miles of sewers.

On June 12 bids were received for the construction of the first section of the Gold street relief sewer, part of the \$2,000,000 relief sewer system throughout this Borough. The price on this Gold street section was so much in excess of what was considered a reasonable price that they were rejected and ordered readvertised. The second advertisement resulted in a so much more reasonable figure that the contract was awarded, thus saving to the City over \$130,000.

Plans have been completed and have been advertised for the first half of the "Scott avenue sewer," between the Borough line and Newtown creek.

The report of the Superintendent of Maintenance connected with this Bureau shows work done in maintaining the sewerage system in this Borough. He reports 2,130 permits issued for new sewer connections, 10,459 sewer basins examined, 6,763 sewer basins cleaned, and, in addition to other work, 1,040,923 linear feet of sewers examined.

## Bookkeeper.

The Bookkeeper's report shows in detail the financial transactions of the various Bureaus of this Department, number of orders issued and the accounts to which they are charged.

Respectfully submitted,

DESMOND DUNNE, Commissioner.

## REPORT OF THE TOPOGRAPHICAL BUREAU FOR THE THREE MONTHS ENDING JUNE 30, 1907.

Office of the Assistant Engineer in Charge, }  
June 30, 1907. }

Hon. DESMOND DUNNE, Commissioner of Public Works:

Dear Sir—I transmit herewith the quarterly report for the three (3) months ending June 30, 1907.

The work of the Topographical Bureau consists of matters relating to the determination, the preservation and the changes in the established lines and the established elevation of public streets, parks, etc.; the preparation of maps for the legal opening of streets, etc.; the making of reports on the legal status of streets, etc.; the preservation and maintenance of lines, monuments, records, etc.; and connecting to the several secondary stations in this borough, the traverse lines, monumented street lines and the monumented lines holding the triangulation stations.

The work of this Bureau is directly for the use of the Local Boards, for the Board of Estimate and Apportionment, for the Corporation Counsel's office in the matter of condemnation proceedings for street openings, and for the various other departments of the City. Hence it affects the map of the City, which is the basis of all City improvements, and, therefore, not only the local improvements, such as highways, sewers, etc., but in a greater or less degree, the work of all the other departments of the borough depend upon the work of the Topographical Bureau.

To make surveys and to prepare plans and profiles for all original improvements that are made by the Bureau of Highways; to determine for all contracts let by the Bureau of Highways the amount of excavation, the amount of fill, the number of linear feet of curbing, the number of square feet of sidewalks, the number of cubic yards of concrete, and the number of square yards of asphalt, and to furnish the contractors with line stakes, grade stakes, and monthly estimates.

## A.—FIELD WORK.

## Borough Hall.

During the present quarter the most important and much needed improvement has been made by the installation of a magnet controller in the elevator, and it is expected that this improvement will do away with a great inconvenience caused to the employees and the general public using this elevator, as it has been out of commission many times during the past ten years.

The marble base recently installed on the second and fourth floors adds to the general appearance of these floors.

The three skylights on the main roof have been reconstructed so as to admit proper ventilation in the Bureau of Buildings.

A large and handsome cabinet has been constructed in the main hall of the fourth floor (Bureau of Buildings) for holding stationery and printed forms for the use of the Bureau. This was very much needed, as the Bureau of Buildings is greatly crowded.

## Municipal Building.

The rear portion of the main hall on the second floor has been utilized to form a room fitted up with panel and glass partition to accommodate the Supervisor of Complaints and a number of Inspectors. This was done to relieve the crowding of employees in the Bureau of Highways.

A panel and glass partition has been constructed in room 15 for the convenience of the Superintendent of Highways.

A number of rooms have been plastered, repainted and redecorated.

## Kings County Court House.

Coal vault partly built on the walk and inside walk adjoining this building has been built for the storing of coal, at a cost of about \$2,700.

A number of rooms have been kalsomined and painted, including rooms 14 and 22.

## Kings County Hall of Records.

A number of alterations and repairs have been made in this building, principally along the line of ventilation.

## Kings County Jail.

The main expense attached to this building for the past quarter has been for a number of repairs to plumbing and also for alterations to the large skylight in the main prison, at a cost of \$460.

## Brooklyn Disciplinary Training School.

A number of reports and complaints have been made at various periods by those in charge of this school as to its condition, and the same has been reported on by me. I now intend to prepare a resolution to introduce asking for an appropriation equal to the sum of \$10,000, which is absolutely necessary to put in a fair state of repair the buildings now used for the housing of the boys at that place.

The frame building is in a really dilapidated condition, and was so reported upon by the Superintendent of Buildings in 1905. This frame building adjoins the brick building, and for the safety of the latter should be moved back on the plot or demolished entirely. The floors and ceilings in many of the rooms are in a bad condition.

Two of the three boilers have been in commission for forty years, and have been condemned by the City authorities. The frame building is one hundred and thirty-five years old.

## Magistrates' Courts.

Two new courts, the Ninth and Tenth Districts Magistrates' Courts, have been established, the former at Fifth avenue and Twenty-third street and the latter at No. 133 New Jersey avenue.

Alterations to same to conform with the requirements of the Judge, Clerks and public have been made by this bureau, and done in accordance with the requirements of the lease on these two buildings.

An appropriation of \$6,600 was secured and is now all expended for the purposes intended. The money spent was for carpenter work in altering the two buildings, for painting and installation of steam-heating plant (Tenth District Court) and for furniture, carpets and shades.

A number of minor repairs were attended to in the other court buildings.

## Interior Public Baths.

After considerable delay as to the rights of the contractor and the City relative to the construction of the Fourth avenue bath it was finally adjusted, and the work is progressing favorably.

Bids were received during the past quarter for the proposed bath at Hamburg avenue, and the contract awarded to the lowest bidder, George Hildebrand. The contractor is quite ready to proceed with the work, but there may be some slight delay owing to a statement appearing in the public press that this contract would not be registered until such time as the necessary funds were in the hands of the Comptroller.

A new ash hoist has been installed at the Pitkin avenue bath, at a cost of about \$300.

A new concrete floor has been relaid and properly graded for carrying off water in the boiler room in the Montrose avenue bath, at a cost of about \$275.

A sidewalk elevator for the hoisting of ashes has been installed from the boiler room to sidewalk at the Huron street bath.

A number of miscellaneous repairs in the way of plumbing have received our attention during the past quarter.

## Floating Baths.

The five floating baths have been in commission since about the 1st of June, and are being well patronized.

I regret to say that we were unable to secure berth for one of the baths at the foot of Dock street, a site that we have had for a number of years, but we have installed an extra bath at the foot of North First street, it being about the best thing we could do under the circumstances.

## Eighth Ward Market.

Considerable work has been accomplished at this site, and we awarded a few weeks ago a contract to build cribbing work.

A request has been made for an appropriation equal to the sum of \$500,000 for the purpose of erecting market buildings, lighting and power plants.

The following is a list of contracts entered into in the Borough of Brooklyn, The City of New York, from April 1, 1907, to June 30, 1907:

## BUREAU OF SEWERS.

Chief Engineer's Office,  
Mechanics' Bank Building,  
July 19, 1907.

Hon. JAMES DUNNE, Superintendent of Sewers:

Dear Sir—I transmit herewith a report of the operations of the Engineering Division of this Bureau for the quarter ending June 30, 1907.

As will be apparent from the tables attached to this report, 37,609 linear feet of sewers, of all sizes, were laid during the quarter, or the equivalent of 7.123 miles. Five hundred and ten linear feet of this amount did not affect the total mileage of the sewerage system, therefore, during the quarter the sewer system was increased in extent 7.026 miles. This amount was divided among sewers of various sizes, as follows:

	Feet.	Miles.
Pipe sewers, 9 inches to 24 inches in diameter.....	27,045	5.122
Reinforced concrete sewers, 30 inches to 144 inches in diameter.....	2,697	.511
Brick sewers, 30 inches to 102 inches in diameter.....	7,867	1.490
Total.....	37,609	7.123

Of 6-inch house connection drains there were laid 17,858 feet, equal to 3.382 miles. Number of catch basins built during the quarter, 123.

There remained upon April 1, 1907, forty-one resolutions for sewer improvements, for which plans and specifications had not been completed to the value of \$3,601,702. During the quarter plans and specifications have been completed and sent forward for advertising for thirty-six sewer improvements, estimated to cost \$607,700. Plans and specifications for the remainder of the above forty-one resolutions are now in progress.

During the quarter forty-seven sewer improvements were authorized by the Board of Estimate and Apportionment, the estimated cost of which is \$117,100. Plans and contracts have been completed for fifteen of these, the estimated cost of which is \$17,000. Plans for the remainder are under way and will be completed without delay.

There remained on April 1, 1907, four petitions for sewers to be built under private contract. One of these petitions has since been withdrawn. Contracts have been entered into for the other three. Since April 1, 1907, five petitions have been received for sewer improvements to be carried out under private contract. Contracts have been prepared for four of these.

Four changes of plan in the sewerage system have been adopted during the quarter, and three are now under way.

One hundred and forty-three reports upon sewer improvements, in response to petitions for paving and in reply to petitions for sewers, have been made, the estimated cost for same being \$1,183,000, covering 27.6 miles of sewers. Seventy of these reports are in response to petitions for paving, the estimated cost of the sewer improvements being \$360,000. Seventy-three of the above reports are in response to petitions for sewers, the estimated cost of same being \$823,000.

On June 12 bids were received for the construction of the first section of the Gold street sewer. They were so much in excess of what was considered a fair and reasonable price that they were rejected and it is proposed to readvertise at once.

Plans for the first half of the large sewer to be built in St. Nicholas avenue and Scott avenue, between the Borough line and Newtown creek, are now practically completed and will be ready for advertising in a few days.

Three other contracts for relief sewers are now nearly completed and can be advertised before the end of the present month.

Yours respectfully,

E. J. FORT, Chief Engineer of Sewers.

## DEPARTMENT OF PARKS.

## BOROUGH OF THE BRONX.

## REPORT FOR THE QUARTER ENDING SEPTEMBER 30, 1907.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—Herewith is transmitted report of the designs for improvements, work accomplished and finances of the Department of Parks, Borough of The Bronx, for the three months ending September 30, 1907.

Respectfully,

JOSEPH I. BERRY,

Commissioner of Parks, Borough of The Bronx.

## BRONX PARK.

Greenhouses, etc.—The greenhouses have all been cleaned and fumigated and prepared to receive plants to be grown during the fall and winter. Surplus plants were removed to frames and lattice houses. Two houses were prepared for chrysanthemums, and about 1,000 plants were potted in 5-inch and 6-inch pots, to be placed on public display. All palms, crotons, ferns and grasses were repotted and thoroughly cleaned. The propagating houses were emptied of everything and cleaned, benches were repaired and fresh sand placed on same; flues cleaned and repaired and everything made ready for the care of the plants during the winter season. Herbaceous seedlings were transplanted from seed frames to permanent beds in the herbaceous gardens.

All roads and walks in the gardens were hoed, raked and edged, and resurfaced with screenings and fine gravel.

All the frames and sashes of both hot and cold beds were repaired, old soil was removed and fresh soil put in its place. Pansy seed were sown, and when ready to prick out of seed bed, planted in rows in other frames to remain until planted out in beds in the different parks and squares in the spring.

All of the heating boilers and pipes in the greenhouses were thoroughly cleaned, and some changes made in the pipes, so that the houses might be heated to better advantage during the winter.

General Maintenance of Park—During the last quarter the general maintenance of the park has been continued, consisting of cutting the grass, edging paths and roads, cleaning lakes, marking and taking care of tennis courts, cleaning roads, repairing washouts, repairing and resurfacing roads and paths in the northern end of the park and repairing gutters.

## BOTANICAL GARDEN, BRONX PARK.

Footbridge, D. D. Leahy, Contractor—This contract has been completed, and final payment was rendered for same on September 27.

Greenhouses, Boiler House and Steam Trench, Kelly & Kelley, Contractors—The boiler house roof is now being put in place, the concrete gutters along the roof are being built, the chimney is completed and the walls of the steam trench are built and are now being covered over.

Public Comfort Station—Plans and specifications have been prepared for the erection of a public comfort station in the Botanical Garden, and the bids for the work will be awarded during the next quarter.

Museum Cases—A contract has been awarded to Abramson & Engessor for the construction of sixty-three museum cases in the Botanical Museum Building, as the present capacity is entirely inadequate. About forty of these cases are now in place, and the balance will be completed during the early part of the next quarter.

Road System—Plans have been prepared for the completion of the road system in the Botanical Garden, and a contract has been completed for the furnishing of the necessary stone and screenings. The stone has been spread, and the work of rolling and surfacing is now progressing rapidly by park labor.

## ZOOLOGICAL PARK, BRONX PARK.

Concourse and Approaches, John V. Schaefer, Jr., & Co., Contractor—On this contract the telford is now being laid for the roadway. The west approach is completed with the exception of the bronze railing. The wall along the Bronx river is completed, and the balustrade is nearly all in place. The drainage system is now being laid.

Public Comfort Station, Wm. Whisten's Son, Contractor—The rough plumbing in this building has been tested. The marble wainscot is now being laid. The stucco is being placed on the outside of the walls. The steam boiler has been placed in the cellar. The cement floor on the first story has been completed.

Elephant House, Nesbit & Co., Contractors—On this contract much of the limestone has been placed. One iron door has been constructed as a model and has been accepted. The structural iron for the main body of the building is in place, and the work is progressing very satisfactorily.

Concourse Entrance, John V. Schaefer, Jr., & Co., Contractor—On this contract the roof is on, the faience is in place, the exit on the east side is now being built and the rough plumbing is in place and has been tested.

Soda Pavilion—Plans and specifications were prepared and a contract was awarded to Kelly & Kelley for the erection of a soda pavilion in the Zoological Park, near the west approach to Baird court. The work will be begun on this contract early in the next quarter.

Sidewalks in Baird Court—Plans and specifications have been prepared for the construction of granolithic and brick sidewalks, including granite curbing, on the Concourse and Approach to Baird Court. The specifications are now in the hands of the printer and the contract will be awarded in October.

## MOSHOLU PARKWAY.

Filling—The old railroad running across Mosholu parkway has been filled in and a large portion of the swamp lands east of Jerome avenue and north of the parkway have been filled in, about 2,500 yards of fill having been used. The north side of the parkway, leading into the Botanical Garden, near the police station, is now being filled in, the work being done by park labor, and is about two-thirds completed.

Railing—The railing along the parkway, between the bridge over the railroad and that over Webster avenue, has been completed.

The Glen—The glen at the junction of Mosholu parkway and Webster avenue has been cleaned up, the footbridge across the glen has been rebuilt and a path is now being constructed.

Ball Field—On this parkway, to the east of Webster avenue, the ground has been leveled off and a ball ground laid out.

## VAN CORTLANDT PARK.

Comfort Station—Thos. Buckley Construction Company, Contractors. This work is practically completed, the only work remaining to be done being the cleaning up of the concrete floors. Final payment will be rendered early in October.

Bridle Paths, etc.—During the last quarter over 2,000 feet of bridle paths have been constructed, from Mosholu avenue to the Vault Hill road, and over 1,500 feet from Mosholu avenue to the top of the hill near McLean avenue. Both of these paths are 8 feet wide. With this addition, there will be an extent of four miles of bridle paths in Van Cortlandt Park.

Rockwood Drive—This road was very badly torn up by automobiles. The whole of the drive and the driveway along the parade ground and through the old deer paddock has been completely revamped. This does not consist merely of resurfacing, but of practically rebuilding the roadway.

Walks, etc.—A new walk has been built from Two Hundred and Thirty-ninth street to the junction of Two Hundred and Thirty-seventh street with Jerome avenue, and has been graded and leveled, and in that portion of the park nearly one and one-half miles of walks with rubble foundation and screening surface have been built.

A walk has been built from Mount Vernon avenue to Jerome avenue, a distance of about 1,000 feet, and the ground has been raised to the proper level by placing about 600 yards of fill thereon; culverts have been placed at the lowest points of the road; the walk has been surfaced with screenings, and rolled with the steam road roller.

Road System—The northerly side of Gun Hill road has been terraced, from the end of Mosholu parkway to its junction with Grand avenue, and a walk 10 feet wide is now being constructed from the head of Gun Hill road to Grand avenue, near Van Cortlandt lake.

The roads leading from Mosholu avenue to the old buffalo stable, also from the stable up the hill, and from this point to the railroad station, were in a very bad condition, being torn up by automobiles. These roads have all been repaired and resurfaced with trap rock and screenings, and have been rolled with the steam road roller. This repair work extended over more than a mile of road.

Van Cortlandt avenue has been widened to a width of 30 feet near the railroad bridge, for a distance of about 320 feet, and the road has been macadamized.

A path 1,650 feet long has been built from Two Hundred and Thirty-third street and Grand avenue to Two Hundred and Thirty-seventh street, along Jerome avenue; also a path 1,145 feet long from Jerome avenue to Katonah avenue.

Changing Location of Highway—The work of changing the location of the highway at Van Cortlandt station has been completed and renders the underground crossing very much safer than heretofore. Where this road has been widened out, the sides have been terraced and sodded or seeded.

Grading, Filling In, etc.—Considerable grading and filling in has been done in this park during the last quarter. The bank on the west side of Van Cortlandt avenue, near the railroad bridge, has been graded, 210 yards of fill having been removed. At the junction of Vault Hill road and Van Cortlandt avenue, the road has been widened by removing about 410 yards of fill, and a macadam surface placed on same; the bank up from the road has been terraced. About 500 feet of the bank on the north side of Gun Hill road has been terraced. The lawn at the junction of Gun Hill road and Grand avenue has been graded and laid out. At Van Cortlandt avenue 810 feet of bluestone gutter has been taken up and relaid, as it was in a very bad condition. The east side of Broadway has been graded, the surplus soil being removed from same to the west side of the railroad tracks at the south end of the lake, filling in the low lands at that point and grading same.

Nursery—An addition has been made to the old nursery by the resurfacing and regrading of a field north of Two Hundred and Forty-second street and south of the nursery.

General Maintenance—In the Colonial Garden, herbaceous plants have been cultivated, the shrubbery has been pruned, paths and walks have been cleaned, raked and edged, and gutters have been cleaned.

Ball grounds and tennis courts have been laid out, the parade ground and polo field have been kept in good condition for the use of the public by cutting the grass, rolling and sprinkling.

## SPUYTEN DUYVIL PARKWAY.

Retaining Wall—Plans and specifications have been prepared for building about 105 feet of retaining wall on this parkway, and the contract has been advertised and will be awarded early in October. This wall will be built at the large loop near the western terminus of the parkway.

General Improvement—Considerable work has been done in the way of improving this parkway, and the grading, terracing and relaying of a large portion of the gutter. A contract has been awarded to the Thiel Contracting Company for furnishing 50,000 Belgian blocks to complete the gutter along the western portion of the parkway, which blocks are now being delivered, and the work will be done by park labor.

Banks have been graded on the sides of the parkway, and rocks and dirt removed from same; paths have been constructed, parts of the roadway have been repaired, catch and drip basins have all been cleaned out, trees and grass have been kept cut and cultivated and paths have been edged.

Resurfacing—Specifications have been prepared and a contract will be awarded about the middle of October for furnishing broken stone and screenings to resurface the greater portion of this parkway. The improvement is greatly needed, as the parkway is in a very bad condition at present. The work will be done entirely by park labor.

## PELHAM BAY PARK.

Draining Swamp Lands—The work of draining the swamp lands near the athletic field in this park is completed, with the exception of laying the vitrified drainpipe. A contract was awarded to J. P. Duffy Company in August, for furnishing the necessary pipe, and the same is now being delivered and will be laid by park labor.

Shelter Pavilion—A new shelter pavilion has been begun at Orchard Beach, by park labor, and about one-half of the excavation has been completed. The material has been furnished by contract.

Rustic Railing—A substantial rustic railing has been erected along about one-half of a mile of the road leading along Orchard Beach, the work being done by park labor.

Bartow Bridge—On the bridge at Bartow station, being built by the railroad people, the abutments are completed, and the work of filling the approach is now being done.

Prospect Hill Bridge—On this bridge all the stone work and the false work has been completed for the erection of the steel work.

Parkway Bridge—On the Parkway Bridge, near the northerly boundary of the park, the abutments have been completed, and about one-half of the westerly approach has been filled in.

Trenches—Two trenches, each 80 to 90 feet long, and two each 30 feet long, all 4 feet wide and 3½ feet deep, have been dug, and the necessary stone and sand have been hauled on the ground.

Road System—A new roadway 30 feet wide, bordered on one side by a pathway 18 feet wide, to run at present from White Plains road to the Iron Bridge, has been begun, and is under rapid headway. The work consists of earth and rock excavation, filling, the removing of stone walls, trees and underbrush, and of bringing the surface to the required grade.

The roads leading from Hunter to Twin Island have been repaired and graded, and a 75 foot stone wall has been built at the Twin Island Bridge.

General Maintenance—The general maintenance of the park has been continued as usual and consisted of repairing and cleaning tennis courts, baseball diamonds and the athletic field, keeping the benches and bathing houses in repair, carting sand on the bathing beaches, removing rocks and stone, cutting grass, sprinkling roads, edging paths, etc.

## BRONX AND PELHAM PARKWAY.

**Resurfacing**—The whole of this parkway has been resurfaced, including that portion running through Pelham Bay Park to the Eastchester Bay Bridge.

**Top Soil**—From the Eastchester road to the New York, New Haven and Hartford Railroad, along the whole of one side and about one-half of the other side of the parkway, a trench has been opened 6 feet wide and 2 feet deep, and filled with top soil for the reception of plants and shrubs.

**Fountain**—The foundation for a rustic stone fountain on this Parkway has been completed and the work of laying the stone for the fountain is now being prosecuted by park labor.

**New Roadway**—The work of constructing a new roadway along the southerly boundary of the Parkway has been begun, and four gangs of park laborers are now engaged on the work. Much of the clearing required has been done and considerable of the excavation.

**Gutters**—The construction, reconstruction and paving of gutters on this Parkway has been continued and vigorously pushed by park labor during the last quarter, the gutters on both sides of the main driveway having been relaid for more than one-half the length of the Parkway.

**Footpath**—A footpath has been constructed on this Parkway, 1,200 feet long and 24 feet wide, and the same has been made ready for the screenings surface.

**General Improvement**—The construction of walks and planting of shrubs along the Parkway has been completed as far as the New Haven Railroad, 4,000 shrubs having been planted.

**Catch basins and drains** have been repaired; washouts filled in; bicycle paths and footpaths repaired and edged; gutters cleaned and repaired, and the grass on the lawns along the Parkway has been cut and the trees have been pruned, etc.

## CROTONA PARK.

**Improvement of Grounds North of Municipal Building**—A contract has been awarded to A. L. Guidone for the improvement of the grounds north of the Municipal building for a distance of 300 feet from Third avenue. A low wall is being built and a flight of steps from One Hundred and Seventy-seventh street up to the Tax Office in the Municipal Building.

**Grading, Filling, Etc.**—The northern part of this park, and a considerable portion of the southern part, has been filled in and graded and a part of it sodded. A wall, with coping, 375 feet long and 4 feet high, has been built around the lake south of the Indian pond and the lake has been thoroughly cleaned out.

**General Maintenance**—The tennis courts and baseball diamonds have been kept in repair, marked, edged, etc., and the roads have been repaired with screenings, where necessary, and lawns mowed and cleaned.

## ECHO PARK.

**General Improvement**—About one-half of the Burnside avenue side of this park has been graded and a large amount of filling in has been done near the northerly side; also a portion of the terrace has been sodded, all work being done by park labor.

## CLAREMONT PARK.

**Clay Avenue Entrance**—Considerable work has been done during the last quarter on the improvement of the Clay avenue side of this park. The filling in has been completed and considerable grading has been done, to make ready for seeding and terracing. This work is rapidly approaching completion and should be finished in about two months.

**Walks, Paths, Etc.**—The old path leading from a point near the Mansion down the hill, toward the north, has been completely rebuilt, with a rustic wood railing and substantial gutters on both sides.

A new path has been constructed near the northeasterly corner of the park, leading to the foot of the steps built on Belmont street. All the terraces at this portion of the park have been sodded and gutters have been laid along the new path.

## MACOMB'S DAM PARK.

**Pipe Railing**—A large quantity of pipe railing has been erected in this park, especially along the road leading from One Hundred and Sixty-first street to One Hundred and Sixty-second street.

**Filling In**—The filling in between One Hundred and Sixty-first and One Hundred and Sixty-second streets has been completed, and the New York Central and Hudson River Railroad people are now filling in the bed of Cromwell's creek, which work is being done by them without expense to the City.

**Iron Fence**—A substantial iron fence has been erected along both sides of the New York Central and Hudson River Railroad through the entire park.

## ST. MARY'S PARK.

**Old Passage Road**—A new path 420 feet long and 16 feet wide has been laid on the Old Passage road, from Trinity avenue to One Hundred and Forty-ninth street, and has been filled in with hard stone and dirt and rolled with the steam road roller.

**Music Stand**—The music stand which was commenced in this park during the last quarter by park labor has been completed and presents a very handsome appearance.

**Paths, Walks, etc.**—A new cinder path has been constructed, 158 feet long and 14 feet wide, in the northeastern part of the park.

A new path 557 feet long and 11 feet wide has been laid north of Trinity avenue to St. Mary's street. This path, when completed, will be 761 feet long.

**Filling In**—Considerable fill has been placed in the southeasterly part of this park during the last three months.

## ST. JAMES' PARK.

**Foundation Wall**—Owing to the fact that the grade on Creston avenue was raised to a height of from 2 to 4 feet above the original grade, it has been found necessary to remove the iron fence in this park along said avenue and construct a wall for the fence foundation to conform to the new grade. The fence has been taken down and removed and part of the excavation made for the foundation wall, and about one-half of the stone has been delivered. A contract has been awarded to J. P. Duffy Co. to furnish the cement for this wall, and the work of building the wall will be proceeded with at once by park labor.

## SMALL PARKS.

During the last quarter about 11,000 feet of pipe railing has been erected around the small parks and along the walks in some of the larger parks. A contract has been awarded to the New Jersey Foundry and Machine Company to furnish 10,000 feet more of this railing. The railing is very handsome and substantial, being painted an attractive shade of dark green, and has evoked a great deal of favorable comment from the public.

## GENERAL MAINTENANCE.

The general maintenance and improvement has been carried on as usual in all of the larger and smaller parks and public squares. The usual repairs have been attended to. Tennis courts, baseball diamonds, golf links, polo fields, athletic fields, etc., have been cleaned, marked, edged and kept in good condition for the use of the public.

The usual forestry work has been carried on. A number of dead trees have been removed from Claremont, Crotona and Echo Parks, the wood being sawed in lengths and hauled to the greenhouses and comfort stations to be used for fuel during the winter.

The care of the trees in the city streets has been a harder task this year than it has been in the past two years, the very dry spell during the summer, also several very heavy wind storms, having caused a large number of trees to die and to be damaged by the breaking of branches and uprooting of quite a number. The complaints in regard to dead and dangerous trees and requests to this Department to prune trees average eighteen to twenty a week. To attend to these requests there is an emergency gang of five men, a horse and wagon, with all necessary tools, which is kept busy constantly, and, considering the vast amount of territory to be covered, the work accomplished with the small number of men is very satisfactory.

The spraying of trees has been undertaken on a much larger scale this summer than heretofore, two machines being in use in different sections of the borough.

The work of the pruning gang consists of pruning and cultivating shrubs and trees in the various parks and squares, all of which has been gone over at least once during the past three months.

Considerable hay which has been growing in the park fields was sold at auction during the last quarter, the cutting being done by the purchaser, under the supervision of a Park Inspector.

The work of tree-planting on the borough streets has also been vigorously pushed during the last three months, about one hundred trees having been planted. This work is being done by contract, but is supervised by the Head Gardener. The contractors commenced the work on Aqueduct avenue and Kingsbridge road and are working toward Washington Bridge.

A number of tree guards have been placed around trees in the different streets of the borough.

## IN THE BRONX SHOPS.

The work of construction, reconstruction and repairs in The Bronx shops during the last quarter consisted of the following:

## Building—

2,000 feet of rustic fence at Twin Island Causeway.

500 feet of rustic fence at south end of Crotona lake.

600 feet of rustic fence at Shore road, near Jack's Rock.

550 feet of rustic fence at Claremont Park.

Cutting and trimming trees for same.

## Repairing—

Sprinklers, carts, delivery wagons, buggies, hay rakes, scrapers, mowing machines, road rollers, plows, etc.

J. Aspinwall Hodge, counsel for the New York Electric Lines Company, requested that he be permitted to appear before the committee on behalf of the company he represented.

Which was granted.

##### NEW YORK AND PORT CHESTER RAILROAD COMPANY.

In the matter of the application of the New York and Port Chester Railroad Company for a change in the line of its route, as laid down in the contract dated May 31, 1906, granting a franchise to this company.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,  
December 19, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—An application for a change of the route of the New York and Port Chester Railroad Company has been before the Board of Estimate and Apportionment for some months, and the Board has been unable to take action owing to court proceedings. At the meeting held on the 13th inst. this matter was once more laid over, until the meeting of January 10, when it was predicted by a representative of the company that the legal questions would have been settled.

The City has granted franchises to both the New York, Westchester and Boston Railway Company and to the New York and Port Chester Railroad Company for lines traversing the Borough of The Bronx. There has been a consolidation of these two lines through the medium of the Millbrook Company, a holding corporation which controls both companies and their franchises. It has lately been announced that the New York, New Haven and Hartford Railroad Company owns and has for some time owned the Millbrook Company, so that the apparent competition which it was thought would be the result of the granting of one or both of the franchises for these new lines will not be realized. The terms and conditions prescribed by the City in these franchises would probably have been materially modified had it been known that the roads, if built at all, were to be part of the property of the New York, New Haven and Hartford Railroad. Meanwhile, the City is seriously embarrassed by the uncertainty as to which, if either, of these lines is to be built, and where it is to be located, so that the mapping of the Borough of The Bronx, which is of the utmost importance, cannot be completed. Further than this, the owners of property which would be traversed by one or the other of these lines are in a condition of uncertainty which is most annoying.

It is difficult to escape the conclusion that the City is being trifled with in this matter, and as it is very desirable to have some further light on the situation before the meeting of January 10 next, to which date the consideration of the change of the route of the Port Chester road was adjourned, I would recommend the adoption of the resolution herewith submitted, calling upon the New York, New Haven and Hartford Railroad Company to submit to the Board of Estimate and Apportionment, on or before January 1, 1908, a statement in writing which will indicate the relation between it and these different companies, and its intention as to the construction and operation of either one or both of these lines.

I also submit herewith a report of the Engineer in Charge of the Division of Franchises, which deals with this subject in somewhat greater detail.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,  
December 19, 1907.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—There is pending before the Board at the present time an application of the New York and Port Chester Railroad Company for a change of route, and the only reason that action has not been had before, the matter having been investigated and a report made by this Division, is that the Board is restrained by an injunction.

When the application of the New York and Port Chester Railroad Company was made to the Board for this change of route, by which it proposed to practically take over the route of the New York, Westchester and Boston Railway, between One Hundred and Seventy-seventh street and the City line, it was represented that the franchises to both companies were owned by the Millbrook Company, a recently organized holding corporation, and that it was the intention of such company to construct but one of the roads, there being no necessity for two.

At the time of making the investigation, I conferred frequently with Mr. Allen Wardwell, of the firm of Stetson, Jennings & Russell, representing Millbrook Company, and made inquiry of him as to whether the interest of the Millbrook Company was in any way allied with the New York, New Haven and Hartford Railroad Company, and was assured by him that in so far as he knew personally, there was no interest; he, however, declined to state positively in regard to the matter, but informed me that Mr. Marsden J. Perry, the President of both the New York, Westchester and Boston Railway Company, and of the New York and Port Chester Railroad Company, could answer such question, and I, thereupon, requested that an interview be arranged with Mr. Perry; this was promised me on three different occasions, but I never met Mr. Perry, and have received no written communication from him in regard to the matter.

It now appears from published reports, having all the evidence of authoritative statements, that Millbrook Company has been owned by the New York, New Haven and Hartford Railroad Company ever since its incorporation on or about November 3, 1906, and that in consequence, it was in the interest of such road that the application for the change of line in the name of the New York and Port Chester Railroad Company was made. I believe that this puts an entirely different phase upon the question, and that before granting any such change of line, a full understanding should be had by the Board of the manner in which the New York, New Haven and Hartford Railroad proposes to use the franchises, which it is now purported to have acquired through its ownership of the Millbrook Company.

It will be remembered that when the applications for both the Westchester Road and the Port Chester road were before the Board, it was upon the understanding that each would be an independent, high-speed, electric railroad, connecting the towns and villages along the Sound shore in the State of New York from the Connecticut line to the Harlem river, and that by granting such a franchise, the City would insure competition in railroad traffic. If, however, these franchises are to be used by the New Haven Railroad as an adjunct of its existing line, it would seem that before granting the application now before the Board, a full understanding of the manner in which this railroad or railroads are to be used by the New Haven Company would seem necessary; that the Board should have authoritative statement from the President of the New Haven Company of its connection with or ownership of the Millbrook Company, and of its intentions in regard to the construction and operation of a railroad upon the lines of one or the other of the routes laid out by the Port Chester and Westchester Roads, not only through the City limits, but also beyond. It may be the intention of the Company to utilize either one or the other of the franchises granted from some point in either New Rochelle or in Mount Vernon, where it can make a convenient connection with its own line to One Hundred and Seventy-seventh street, in which case, I believe, that the proposed form of agreement now on the minutes of the Board granting the application of the Port Chester Company would not adequately protect the interests of the City. Again, this matter has lain in abeyance practically since August, 1906, and little or no construction work has been done since that time.

The very fact that no definite plans have been decided upon for the construction of either one or both of these roads has retarded the making of maps for the district east of the Bronx river, and has to a certain extent nullified certain of the conditions proposed in the grant for the two routes, in relation to the cession of streets by the railroad company made necessary by its construction.

Again, pursuant to section 6 of the Railroad Law, notices have been served upon property owners from the Harlem river to the City line that a railroad has been laid out, and proposed to be constructed along certain lines. This in a manner is a cloud on the property, and prevents a fair sale of the same in the open market. It would seem, therefore, that the City should do all in its power to prevent further delay in the adoption of maps and in the building of either of these roads.

I would, therefore, suggest that the Board adopt a resolution calling upon the New York, New Haven and Hartford Railroad Company, or any of its allied interests, to make a full statement in regard to its ownership and control of Millbrook Company, or the franchises granted to the New York, Westchester and Boston Railway Company, and the New York and Port Chester Railroad Company, and of its intentions in regard to the construction of these lines.

A resolution for adoption is submitted herewith, requesting the New York, New Haven and Hartford Railroad Company to submit its statement on or before January 1, 1908, as the application of the New York and Port Chester Railroad Company was, at the meeting of December 13, 1907, laid over until January 10, 1908, and will be placed on the calendar for that day.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Resolved, That the New York, New Haven and Hartford Railroad Company be and it hereby is directed to submit to this Board, on or before January 1, 1908, a statement in writing, setting forth in full all facts relative to the ownership and control by itself or any of its allied interests of the Millbrook Company, the New York, Westchester and Boston Railway Company and the New York and Port Chester Railroad Company, individually or collectively, or the franchises granted to the New York, Westchester and Boston Railway Company or the New York and Port Chester Railroad Company, and of its intentions in regard to the construction and operation of the lines of the two last-named companies.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx, Queens and Richmond—14.

#### NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY.

In the matter of the occupation of certain lands and lands under water by the New York Central and Hudson River Railroad Company on Twelfth avenue, from Sixtieth to Seventy-first street, Borough of Manhattan, upon which a report was submitted to the Board at its meeting of April 12, 1907, and the matter referred to the Corporation Counsel for opinion on the questions raised in the report.

The Secretary presented the following:

Law Department—Office of the Corporation Counsel, )  
New York, December 10, 1907. )

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—I have had under examination the several matters referred to this office for opinion by your Board in a communication addressed to my predecessor by its Secretary, under date of April 12, 1907, transmitting a report from the Division of Franchises respecting "the use and occupation of certain portions of Twelfth avenue and Sixtieth to Seventy-first street, inclusive, by the New York Central and Hudson River Railroad Company."

The report in question, after referring to an ordinance adopted by the Board of Aldermen on April 30, 1847, and approved by the Mayor on May 6, 1847, granting to the Hudson River Railroad Company permission "to construct a double track of rails with suitable turnouts along the line of the Hudson river from Spuyten Duyvil creek to near Sixty-eighth street, occupying so much of the Twelfth avenue as lies along the shore; thence winding from the shore so as to intersect the Eleventh avenue at or near Sixtieth street; thence through the middle of Eleventh avenue to about Thirty-second street;" quotes in part Chapter 714 of the Laws of 1887, which (amongst other things) provided that

"It shall be lawful for, and the New York Central and Hudson River Railroad Company are hereby authorized, to cause a parapet wall to be erected and thereafter maintained upon the line bounding their terminal yard on the North river on the east, on the westerly line of Eleventh avenue from the southerly line of Sixtieth street to the southerly line of Sixty-first street, and thence northerly, on the easterly property line of said company, and until it intersects the northerly line of Seventy-second street, at a point distant 611.5 feet westerly from Eleventh avenue; and all the portions of the streets between the said wall and the North or Hudson river, including Twelfth avenue, are hereby discontinued upon the map or plan of the city and closed."

It appears that the railroad company has constructed the wall authorized by the act of 1887 from a point between Sixtieth and Sixty-first streets to the north side of Seventy-second street, and is occupying as a railroad yard the entire area bounded by such wall on the east, the Hudson river on the west, Sixtieth street on the south and the northerly line of Seventy-second street on the north. It is stated in the report that the railroad company has not taken any proceedings to acquire the title to the portions of the closed and discontinued streets included within the area indicated; neither does it pay any compensation or taxes for the use thereof; the premises having been designated as City property pursuant to an opinion of Hon. Francis M. Scott, Corporation Counsel, rendered to the Department of Taxes and Assessments under date of May 14, 1895, in which, amongst other things, he held that

"The streets and avenues discontinued and closed by the provisions of this act (chapter 714, L. 1887) should be marked on the maps as discontinued and closed.

The lines of such streets and avenues should, however, be preserved on the maps. The property within the lines of the streets and avenues should be designated as the property of the Mayor, Aldermen and Commonalty of The City of New York, and should not be assessed for taxation. The City does not lose its legal title to the riparian rights at the westerly extremities of the streets by force of the statute."

The report in question also refers to the construction by the railroad company, without apparent legal authority, of its wall across Seventy-second street, which has thereby been physically closed, and quotes further from the foregoing opinion of the Corporation Counsel the following, viz:

"In relation to the territorial extent of the improvement it is to be noted, first, that the act in question is a local act, and may not contain in its text a subject not indicated in its title; secondly, it is an act to promote the private interests of the railroad corporation, and in derogation of the public rights theretofore vested in the municipal corporation. It is therefore to be strictly construed.

"I am therefore of the opinion that the improvement is authorized to be extended only to the southerly line of Seventy-second street, as expressed in the title of the act, and not to the northerly line, as expressed in the body of the act."

The report in question states the practical situation to be substantially as follows:

Total area of land and land under water, the fee of which is in the City, and now occupied by the railroad company.....	1,474,450
Under lease of Dock Department, for which a rental of \$32,500 per annum is paid by company.....	717,940
Area of land within the limits of streets occupied by the company without compensation .....	756,510

It will thus be seen that the railroad is at present, and has been for twenty years last past, occupying over three hundred City lots, or something less than twenty acres without compensation to the City.

In Seventy-second street the area of the portion legally opened and now occupied by the railroad company without apparent authority is 69,600 square feet.

Accompany the report is a map purporting to exhibit:

1. The original high-water line.
2. The portions of the streets discontinued and closed by the act of 1887 in pink.
3. The land under water belonging to the City which is not covered by water grants, all street areas having been reserved from such grants in yellow.
4. The boundaries of the parcels of City property leased to the New York Central and Hudson River Railroad outlined in green.
5. The portion of Seventy-second street legally opened and not closed by the act of 1887, but now occupied by the railroad company apparently without authority, outlined in pink.
6. Piers and slips constructed by the railroad company, by a red line.

The uncolored portions lying westerly of the original high-water line denote the various grants of land under water made by the City.

I am requested, amongst other things, to advise you:

"1. As to the authority of the Board to require the railroad company to make application for permission to occupy the discontinued and closed portions of the several streets, in order that a proper compensation may be fixed for such occupancy."

I am of opinion that it is not within the power of your Board to pass upon any application which may be filed for such permission to occupy this property; but that the custody and disposition of the premises are committed by the Charter (section 245) to the Commissioners of the Sinking Fund.

I am further requested to advise you:

"2. As to the right of the City to make a claim for past use and occupation of the discontinued and closed portions of the several streets and of the effect of the Statute of Limitations upon such a claim."

I am of the opinion that the City is not precluded from asserting its claim for such past use and occupation of those discontinued and closed portions of the several public streets in this railroad yard (so far as not comprised within the leases which your report mentions), but that the extent of such claim is limited by the Statute of Limitations to a recovery of the reasonable value of such occupation during a period not exceeding six years immediately preceding the beginning of the action.

It is proper in this connection to observe that by the terms of the lease, dated May 1, 1880, mentioned by the report in question, there was leased by the City to the railroad company

"All the lands under the waters of the North or Hudson river belonging to the said parties of the first part which are situated and lie in the City, County and State of New York, and are included and contained between and within the following boundaries, viz:

- "1. The southerly line of Sixty-fifth street produced and extended westerly in a straight line into the North or Hudson river to the pier line in said river established in the year 1867 by the Board of Commissioners of the Central Park and finally established and approved by the Legislature of the State of New York by chapter 288 of the Laws of 1868.
- "2. The said pier line.
- "3. The southerly line of Seventy-second street produced and extended westerly in a straight line out into the said North or Hudson river to the said pier line and
- "4. The existing shore or bulkhead of the said river between the said line of Sixty-fifth street and the said line of Seventy-second street.

The said lines being those colored dark red on the map hereto annexed and the lands hereby demised being those colored pale red and orange on the said map, which map is hereby made a part of this indenture."

It appears by reference to the map thereto annexed (particular reference being had to the fourth dimension above quoted), that the greater portion of the former beds of Sixty-eighth, Sixty-ninth, Seventieth and Seventy-first streets and practically all of Twelfth avenue, north of Sixty-fifth street, are comprised within the premises demised. It follows that the territory in respect of which the City may assert its claim for compensation within the six-year period prior to the institution of approximate action is limited to that portion of the railroad yard lying south of the southerly line of Sixty-fifth street and west of the railroad wall (the course of which has hereinbefore been indicated) and north of the centre line of Sixtieth street; including in addition the minor portions of the intersecting streets between Sixty-fifth street and Seventy-second street, which lie in-shore of the "(then) existing shore or bulkhead of the said (North) river," as set forth in the fourth course or dimension of the 1880 lease, as delineated upon the map hereinbefore mentioned. The tenancy of the railroad company under this lease will terminate the 28th of April, 1910.

I am likewise requested to advise you

"3. As to the proper procedure of the Board of Estimate and Apportionment in relation to that portion of Seventy-second street, included between the wall on the easterly line of the railroad companies right-of-way and the Hudson river, apparently illegally closed and occupied by said company."

I am of opinion that such action as may be requisite for the restoration to public use as a street of that portion of Seventy-second street, included within the railroad yard, must be taken by the President of the Borough of Manhattan, upon whom, by the charter (section 383), is devolved the removal of incumbrances in the public streets of such borough; for in respect of such occupancy, I am in entire accord with the before-quoted opinion of my predecessor. There could be no objection, however, to the adoption by your Board, of a resolution expressing its views in the premises, and officially directing the attention of the Borough President to the matter.

I have not expressed any opinion respecting the instrument in writing, dated June 21, 1887, and found in the Lenox Library by the Engineer in charge of your Division of Franchises, for the questions which it presents do not seem to me to have any bearing upon the inquiries contained in your communication.

I have caused to be prepared and herewith enclose the following:

1. Copy ordinance of May 6, 1847, under which the Hudson River Railroad Company originally obtained the right to lay its tracks on Eleventh and Twelfth avenues;
2. Copy of the agreement of the Hudson River Railroad Company, dated August 12, 1847, accepting the foregoing ordinance;
3. Lease, Mayor, Aldermen and Commonalty, dated June 22, 1874, demising to the Railroad Company the premises bounded by the southerly line of Sixty-fifth street the centre of Sixtieth street the proposed bulkhead on the westerly shore of the North river and the pier line as established by the Commissioners of Central Park and approved by chapter 288, Laws of 1868.

4. Lease, Mayor, Aldermen and Commonalty, dated May 1, 1886, demising to the Railroad Company the premises between the southerly line of Sixty-fifth street, the southerly line of Seventy-second street, and then existing shore or bulkhead of the Hudson river and the pier line established by the Commissioners of Central Park and approved by the Legislature by chapter 288 of Laws of 1868.

5. Copy of chapter 714, Laws of 1887.

6. Copy of opinion of Hon. Francis M. Scott, then Counsel to the Corporation, dated May 4, 1895, addressed to the Department of Taxes and Assessments.

It is proper in conclusion to say that it developed during the early stage of the examination by this office into this matter that the Public Service Commission, First District, had under investigation the not unrelated matter of the franchise of this corporation to operate its trains in Eleventh avenue and other public streets of the City not closed or discontinued, and not included within this yard; and that I am in receipt of a communication under date of November 25, 1907, transmitting resolutions adopted by that Commission on November 15, 1907, providing for the condemnation, pursuant to chapter 109, Laws of 1906, of such franchises of this railroad corporation. The report transmitted with your communication is herewith returned.

Respectfully yours,

GEORGE L. STERLING, Acting Corporation Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,  
December 19, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the investigation of a complaint from the West Side Taxpayers' Association concerning the use and occupation of portions of Twelfth avenue, in the Borough of Manhattan, by the New York Central and Hudson River Railroad Company, it was found that the said company has for some time been occupying property of The City of New York without paying to the City any compensation therefor, and that it has constructed and is maintaining a wall across Seventy-second street without legal authority. These facts were laid before the Board and were referred to the Corporation Counsel for advice as to what action the City could take to recover proper compensation for the use of its property by the railroad company, and for a determination as to whether or not the company could maintain the wall across Seventy-second street. The Corporation Counsel has under date of December 10, 1907, rendered an opinion, from which it would appear that the Commissioners of the Sinking Fund could lease to the railroad company the right to use the property referred to, which is unquestionably owned by The City of New York. It is also shown that the company has no right whatever to maintain the wall across Seventy-second street, and that it could properly be removed by the President of the Borough as an encumbrance. The Corporation Counsel states that the City could probably recover only for the use of public property by the railroad company for the six years prior to the making of this claim, compensation for earlier use being barred by the statute of limitation.

In order that the company may be required to pay for the property it is using at as early a date as possible, I beg to present for the consideration of the Board resolutions calling upon the railroad company to make applications to the Commissioners of the Sinking Fund for the use of the portions of the street now occupied by it without proper authority, requesting the Comptroller to appraise the value of the lands and lands under water used by the railroad company for a period of six years prior to January 1, 1908, and also requesting the Corporation Counsel to make a demand upon the company for payments due for the use for the last six years of this property, and in case the company does not agree to make such payments, that he institute proceedings to recover from the company.

I also transmit herewith a report of the Engineer in charge of the Division of Franchises upon this subject which treats of the matter in more detail.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,  
December 19, 1907.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment held January 18, 1907, a communication from the Eleventh Avenue Track Removal Committee of the West Side Tax Payers' Association, dated January 2, 1907, and signed by H. G. Schneider, Secretary, requesting the Board to investigate the use and occupation of portions of Twelfth avenue and Sixtieth to Seventy-first street, inclusive, by the New York Central and Hudson River Railroad Company, was presented and referred to the Bureau of Franchises for investigation.

At the meeting of April 12, 1907, you transmitted to the Board a report of this division setting forth that the streets above referred to had been closed and discontinued and a wall constructed by the railroad company along the easterly line of its right of way from a point between Sixtieth and Sixty-first streets to the northerly side of Seventy-second street, pursuant to authority conferred by chapter 714 of the Laws of 1887; that the several streets thus closed were all legally opened streets; that the portions of these streets lying westerly of the said wall are occupied by the railroad company without any compensation or taxes being paid therefor, except where portions of such streets are included within the boundaries of two parcels of land under water leased to the company by two certain leases dated, respectively, June 22, 1874, and May 1, 1886; and that the wall had been constructed across Seventy-second street without apparent legal authority. It was suggested in the said report that before any action be taken by the Board the matter should be referred to the Corporation Counsel for an opinion on certain questions of law. Such reference of the matter was made, and at the meeting of December 13, 1907, an opinion dated December 10, 1907, was received from G. L. Sterling, Acting Corporation Counsel, and referred to the Chief Engineer. The questions of law referred to the Corporation Counsel and the opinion thereon are as follows:

1. "As to the right of the Board to require the railroad company to make application for permission to occupy the discontinued and closed portions of the several streets in order that a proper compensation may be fixed for such occupancy."

In relation to this the Corporation Counsel says:

"I am of the opinion that it is not within the power of your Board to pass upon any application which may be filed for such permission to occupy this property; but that the custody and occupation of the premises are committed by the Charter (section 205) to the Commissioners of the Sinking Fund."

Said section 205 of the Charter provides for the sale or lease by the Commissioners of the Sinking Fund of any City property, except parks, wharves and piers and land under water, and also confers authority upon said Commissioners to sell and convey the right, title and interest of the City in and to lands lying within any street, avenue, etc., that has been discontinued and closed, in whole or in part, by lawful authority, to the owner of lands fronting on such street, etc., provided, however, that such portions of the streets are not needed for public use.

Inasmuch as preparation has been made by the Public Service Commission for the First District for the institution of proceedings to extinguish the franchise rights of the New York Central and Hudson River Railroad Company in Eleventh avenue and other streets of the City not closed or discontinued, and not included within the railroad yard in question, which upon their consummation will undoubtedly affect this portion of the railroad, it would seem to be inadvisable to sell or convey to the railroad company, as the owners of the abutting property, the property within the lines of the streets so discontinued and closed. In the future these closed and discontinued streets may be needed for public use, and it may then be desirable to reopen them, which can be done at a nominal expense if the City retains the fee.

I would therefore suggest that the City, by the Commissioners of the Sinking Fund, lease such portions of Twelfth avenue, from the southerly line of Sixtieth street to the southerly line of Seventy-second street, and of Sixtieth to Seventy-first street, inclusive, as are included between the above mentioned wall on the easterly line of the company's right-of-way and the easterly line of the parcels of land under water, occupied by the railroad company under the two leases above referred to, from the Dock Department.

I find that the area of such property, after correcting the figures in my previous report from the information furnished by the Corporation Counsel, amounts to about 500,000 square feet, or 200 City lots of an area of 2,500 square feet each, all of which is shown in red color on the map attached, dated December 19, 1907.

2. "As to the right of the City to make a claim for past use and occupation of the discontinued and closed portions of the several streets, and the effect of the Statute of Limitations upon such a claim."

Regarding this, the Corporation Counsel holds:

"I am of the opinion that the City is not precluded from asserting its claim for such past use and occupation of those discontinued and closed portions of the several public streets in this railroad yard (so far as not comprised within the leases which your report mentions), but that the extent of such claim is limited by the Statute of Limitations to a recovery of the reasonable value of such occupation during a period not exceeding six years immediately preceding the beginning of the action."

I would therefore suggest that the Corporation Counsel be requested to serve immediate notice of claim on the railroad company for the use and occupation of the property within the streets hereinbefore described for a period of six years prior to date of such claim, and in case of failure to obtain a settlement, to institute appropriate action for the recovery of such sums as may be appraised by the Comptroller.

Further, that the Comptroller be requested to cause an appraisal of the value of the property of The City of New York included within the lines of the several streets aforementioned, and lying between the said railroad wall and the easterly line of the above mentioned leases of land under water, of June 22, 1874, and May 1, 1886, and that he forward such appraisal to the Corporation Counsel, as soon as possible. The approximate area of the property thus occupied, for which a claim should be made, is 500,000 square feet, equivalent to 200.0 City lots.

3. "As to the proper procedure of the Board of Estimate and Apportionment in relation to that portion of Seventy-second street included between the wall on the easterly line of the railroad company's right-of-way and the Hudson river, apparently illegally closed and occupied by said company."

In relation to this the Corporation Counsel says:

"I am of opinion that such action as may be requisite for the restoration to public use as a street of that portion of Seventy-second street included within the railroad yard, must be taken by the President of the Borough of Manhattan, upon whom by the Charter (section 383) is devolved the removal of encumbrances in the public streets of such Borough. \* \* \* There could be no objection, however, to the adoption by your Board of a resolution expressing its views in the premises, and officially directing the attention of the Borough President to the matter."

As Seventy-second street, although legally opened, for a distance of about 700 feet west of the easterly line of the railroad's right-of-way is yet unimproved, and at present such improvement does not appear to be necessary, and as the removal of the wall constructed across the same would serve no purpose in the interest of the City, the only object of the present report on this phase of the case being to obtain a recognition of the City's fee of the land, and a fair rental for use and occupation, I would recommend no action by the Borough President under section 383 of the Charter.

Two courses of action in this matter would therefore appear to be open to the City, namely: First, to close that portion of Seventy-second street lying westerly of the said wall, and convey the fee of the closed portion to the railroad company for a suitable compensation, as was done in the case of several streets in the Borough of The Bronx which were discontinued and closed, and the fee thereof conveyed to the Harlem River and Port Chester, and the New York, New Haven and Hartford Railroad companies, and in the case of Thirty-second street, Borough of Manhattan, the fee of portions of which was conveyed to the Pennsylvania, New York and Long Island Railroad Company. It does not seem that such action is either necessary or desirable, as the City would thus lose its rights to a portion of this street, which in the future and under changed conditions may and probably will be needed for the use of the public. Second, the alternative course of action, and the one which I would suggest, is that the railroad company be directed to apply for a lease of the property lying within the lines of Seventy-second street, between the easterly line of the railroad's right-of-way and the pier line established and approved by the Legislature of the State of New York, by chapter 288 of the Laws of 1868, which lease should be subject to cancellation by the City at will. In case the railroad should fail to apply for the lease, and to accept the same, the Borough President could then be requested to act and remove the wall, and the railroad company, under the original consent, contained in the ordinance approved by the Mayor May 6, 1847, can be required to build a bridge over its railroad. As the land is partly upland and partly land under water, the lease for the latter would come under the jurisdiction of the Dock Department.

	Square Feet.
Area upland .....	55,000
Area land under water.....	14,600
Total.....	69,600

—all of which is outlined by red color on the map attached.

I submit herewith resolutions for adoption, in accordance with the foregoing suggestions.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The New York Central and Hudson River Railroad Company has been using and occupying, for a period of years, certain lands and lands under water, the fee of which is vested in the City of New York, and for such use and occupation the company has paid no compensation; and

Whereas, The lands and lands under water used and occupied by the company are more particularly described and set forth in a report this day submitted to this Board by its Chief Engineer; and

Whereas, Pursuant to the provisions of the Greater New York Charter the Commissioners of the Sinking Fund are possessed of the right and power to lease and have the jurisdiction over the leasing of property, the fee of which is in the City of New York, other than land under water, the leasing of which latter property is vested in the Commissioner of Docks and Ferries, after approval by the Commissioners of the Sinking Fund; and

Whereas, The Acting Corporation Counsel, in an opinion dated December 10, 1907, after an examination of this subject and of the rights of the railroad company in the premises, has advised this Board accordingly, and pursuant to such opinion, it is

Resolved, That the New York Central and Hudson River Railroad Company be and it hereby is directed to make application to the Commissioners of the Sinking Fund within thirty (30) days after the date of the adoption of this resolution, for permission to use and occupy the discontinued and closed portions of the several streets and to the Commissioner of Docks and Ferries, within the same period, for permission to use and occupy the lands under water; and be it further

Resolved, That the Comptroller be and he hereby is requested to appraise the value of the use and occupation by the railroad company of such lands and lands under water for the period of six (6) years from January 1, 1902, to January 1, 1908, and immediately upon the determination and approval by him of such valuation, submit same to the Corporation Counsel, together with any data he may possess upon which such appraisal and valuation was based; and be it further

Resolved, That the Corporation Counsel be and he hereby is requested to make formal demand forthwith upon the New York Central and Hudson River Railroad Company for the payments due for the past use and occupation of such lands and lands under water as may be justly and fairly due the City of New York for the six years prior to the date of such formal demand, and for such sum as may be determined to be due the City, after the lands in question have been appraised and such appraisal approved by the Comptroller of the City of New York and the result of such appraisal submitted to the Corporation Counsel; and be it further

Resolved, That should the railroad company fail to neglect to make the payment deemed to be fairly and justly due as a result of the appraisal hereinabove mentioned within thirty (30) days after the date of the formal demand for such payment, the

Corporation Counsel be and he hereby is requested to institute proceedings for the recovery of such moneys and to take whatever steps he may deem wise and expedient; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to transmit copies of these resolutions and the report of the Chief Engineer, hereinbefore mentioned, to the Commissioners of the Sinking Fund and the Commissioner of Docks and Ferries for their information and guidance.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx, Queens and Richmond—14.

The full minutes of the meeting of this day will appear in the CITY RECORD at a later date.

JOSEPH HAAG, Secretary.

### DEPARTMENT OF FINANCE.

**NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.**

**IN PURSUANCE OF SECTION 1018 OF THE** Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for **OPENING AND ACQUIRING TITLE** to the following named place in the **BOROUGH OF THE BRONX:**

**TWENTY-FOURTH WARD, SECTION 11.**

**OAK TREE PLACE—OPENING**, from Lafontaine avenue to Hughes avenue. Confirmed December 9, 1907; entered December 23, 1907. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northwesterly line of Adams place with a line parallel to and 100 feet northeasterly from the northeasterly line of East One Hundred and Eighty-second street; running thence

southeasterly along said parallel line to its intersection with the northeasterly prolongation of a line parallel to and 100 feet southeasterly from the southeasterly line of that portion of Hughes avenue lying southwest from East One Hundred and Eighty-second street; thence southwesterly along said last-mentioned prolongation and parallel line to its intersection with a line parallel to and 100 feet southwesterly from the southwesterly line of East One Hundred and Eighty-first street; thence northwesterly along said last-mentioned parallel line and its prolongation to its intersection with a line parallel to and 100 feet northwesterly from the northwesterly line of Monterey avenue; thence northeasterly along said last-mentioned parallel line and its prolongation to its intersection with a line parallel to and 100 feet northwesterly from the northwesterly line of Quarry road; thence northeasterly along said last-mentioned parallel line to its intersection with a line drawn at right angles to Adams place from the point of beginning; thence southeasterly along said right-angled line to the point or place of beginning.

The above entitled assessment was entered on the date hereinafter given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m.; and all payments made thereon on or before February 21, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

## NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following named avenue in the BOROUGH OF THE BRONX:

## TWENTY-THIRD AND TWENTY-FOURTH WARDS, SECTION 11:

**TOWNSEND AVENUE—OPENING,** from East One Hundred and Seventy-sixth street to East One Hundred and Seventy-eighth street. Confirmed November 11, 1907; entered December 10, 1907. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

On the north by the southerly side of Mount Hope place, from the easterly side of Jerome avenue to the westerly side of Walton avenue; on the south by the northerly side of Elliot place, from the easterly side of Jerome avenue to the westerly side of Walton avenue; on the east by the westerly side of Walton avenue, from the northerly side of Elliot place to the southerly side of Mount Hope place, and on the west by the easterly side of Jerome avenue, from the northerly side of Elliot place to the southerly side of Mount Hope place.

The above entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m.; and all payments made thereon on or before February 8, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

## NOTICE OF SALE OF LANDS AND TENEMENTS, WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF RICHMOND, FOR UNPAID TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, No. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, August 10, 1907.

UNDER THE DIRECTION OF HERMAN A. METZ, Comptroller of The City of New York, the undersigned hereby gives public notice pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the Borough of Richmond, on which taxes have been laid and confirmed according to law by The City of New York for the years 1899, 1900, 1901, 1902 and 1903, including taxes on the real estate of corporations for the said years and taxes on the special franchises of corporations for the years 1900, 1901, 1902 and 1903, and which now remain due and unpaid:

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid, on which the assessments have been laid according to law by the said City of New York for the years 1899, 1900, 1901, 1902, 1903 and 1904, and which now remain due and unpaid, are required to pay the amount of the said taxes and assessments so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York.

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction, in Room 129, Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York, on

WEDNESDAY, NOVEMBER 20, 1907,

at 10 o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the said taxes or assessments, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given that a detailed statement of such taxes and assessments and the ownership of the property taxed and on which such taxes and assessments remain unpaid, is published in a pamphlet and that copies of the said pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Boroughs of Manhattan and Richmond, and will be delivered to any person applying for the same.

DANIEL MOYNAHAN,

Collector of Assessments and Arrears of The City of New York.

The foregoing sale will continue on

WEDNESDAY, JANUARY 15, 1908,

at 10 o'clock a. m., in Room 129, Borough Hall, Borough of Richmond.

DANIEL MOYNAHAN,

Collector of Assessments and Arrears.

## DEPARTMENT OF STREET CLEANING.

MAIN OFFICE OF THE DEPARTMENT OF STREET CLEANING, ROOM 1403, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Street Cleaning at the above office until 12 o'clock m., on

FRIDAY, DECEMBER 27, 1907,  
Borough of Manhattan.

CONTRACT FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR LOADING AND TRIMMING DECK SCOWS AND OTHER VESSELS OF THE DEPARTMENT, AND FOR THE PRIVILEGE OF SORTING AND PICKING OVER AND APPROPRIATING CERTAIN OF THE REFUSE AT THE DUMPS.

The time for the completion of the work and the full performance of the contract is by or before one year.

The amount of security required is Five Thousand Dollars.

The period of this contract will be one (1) year of fifty-two (52) weeks, beginning on the Monday following the date of the contract.

Bidders will write out the price in their bids or estimates, in addition to inserting the same in figures, and this price will be the compensation to be paid to The City of New York by the contractor per week, in advance, for the privilege and work at all the dumps and the incinerators of the Department of Street Cleaning in the Borough of Manhattan.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller of The City of New York, for five per centum (5%) of the amount for which the bidder proposes to perform the work for one year.

From the bids or estimates so received the Commissioner may select the bid, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of said bids.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13 to 21 Park row.

FOSTER CROWELL,

Commissioner of Street Cleaning.

## SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of EAST TWO HUNDRED AND THIRTY-THIRD STREET (although not yet named by proper authority), from Bronx river to Hutchinson river; also the PUBLIC PLACE at the intersection of East Two Hundred and Thirty-third street with Morris Park avenue, and the PUBLIC PLACE at the eastern terminus of East Two Hundred and Thirty-third street and Hutchinson river, in the Twenty-fourth Ward, Borough of The Bronx, The City of New York, as amended by an order entered herein discontinuing the above-entitled proceeding, so far as the same affects that part of East Two Hundred and Thirty-third street lying between the westerly side of Baychester avenue and Hutchinson river.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of January, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 13th day of January, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 20th day of January, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises, situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street with the centre line of the Bronx river; running thence northerly along the centre line of the Bronx river to its intersection with a line parallel to and distant 1,500 feet northerly from the northerly line of East Two Hundred and Thirty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 500 feet easterly from the easterly line of Baychester avenue; thence southerly along said last-mentioned parallel line to its intersection with the easterly prolongation of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street; thence westerly along said prolongation and parallel line to the point or place of beginning; as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 27th day of February, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, December 6, 1907.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us, at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 26th day of December, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 6th day of January, 1908, at 3 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 30th day of December, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments, and premises, situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the easterly line of Park avenue with a line parallel to and distant 100 feet northerly from the northerly line of East One Hundred and Sixty-fifth street; running thence easterly along said parallel line and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Cauldwell avenue; thence southerly along said last parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of East One Hundred and Sixty-fourth street; thence westerly along said last parallel line to its intersection with the easterly line of Brook avenue; thence northerly along the easterly line of Brook avenue and the easterly line of Park avenue to the point or place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 10th day of March, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, November 29, 1907.

ARTHUR KNON,  
Chairman;  
P. E. DOLAN,  
WILLIAM I. BROWN,  
Commissioners.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
