BOARD OF WATER SUPPLY.

MINUTES OF THE MEETING OF THE BOARD OF WATER SUPPLY OF THE CITY OF NEW YORK, HELD OCTOBER 22, 1909.

Present—Commissioners John A. Bensel, President; Charles N. Chadwick and Charles A. Shaw.

Real Estate Claims.

On motion of Commissioner Chadwick, the following resolution was unanimously adopted (9049):

Whereas, The Board of Water Supply of The City of New York, under and by virtue of chapter 724 of the Laws of 1905, and the acts amendatory thereof, has instituted proceedings to condemn certain lands situate in the Towns of Olive, Hurley, Marbletown, Kingston and Woodstock, Ulster County, N. Y., such lands being generally known as Ashokan Reservoir, and described on maps of the same filed in Ulster County Clerk's office, designated as Maps of Sections 1 to 18, both inclusive, and Highway Section, Ashokan Reservoir; and

Whereas, The Citizen Standard Telephone Company is the owner of certain easements and rights of way in said Ashokan Reservoir territory, over and upon which it has constructed and now maintains a telephone line, which said easements and rights of way are to be taken by The City of New York in said condemnation proceedings, by reason of which the said company will be obliged to remove said telephone lines and obtain other rights of way and easements for the construction of a new line, to replace a certain section of said lines so removed.

Whereas, A portion of the lands lying in said Ashokan Reservoir territory are highways which will be obliterated by the construction of said reservoir, and it is the intention of The City of New York, by said Board of Water Supply to construct new highways in place of those obliterated, and a map known as Map of the Highway Section was filed in Ulster County Clerk's office on the 7th day of July, 1908, which map shows the several highways which are to be obliterated, and the route of the new highways to be substituted therefor; and

Whereas, The said above mentioned telephone lines are constructed on and over a portion of said highways so to be obliterated; and

Whereas, Said Board of Water Supply made due application to the Supreme Court by its petition, praying said Court to approve the route of said new highways as shown on said map and described in said petition, and that Commissioners of Appraisal be appointed to ascertain and appraise the compensation to be made to any party who may sustain damage by reason of the change in said highways; and

Whereas, Said Court by its order duly granted on the 13th day of March, 1909, and entered in Ulster County Clerk's office on the 16th day of March, 1909, duly approved the route of said new highways as shown on said map, and described in said petition and appointed Sidney Harris, C. Gordon Reel and James T. McKenna Commissioners of Appraisal for the purposes aforesaid, and said Commissioners duly took and filed their oaths as required by said act; and

Whereas, The said the Citizen Standard Telephone Company duly presented to said Commissioners its claim for damage sustained by it by reason of its being compelled to remove said telephone line, construct a new line and obtain easements and grants of rights of way for the construction of such new line; and claims for loss of business caused by the removal of such lines, which claims are now pending before said Commissioners of Appraisal;

Now, therefore, the said the Citizen Standard Telephone Company does, on payment to it of the award to be made by said above mentioned Commissioners of Appraisal, forever release and discharge The City of New York from any and all claims for damage sustained or to be sustained by said company by reason of The City of New York having by said above mentioned condemnation proceedings taken the easements and rights of way heretofore granted to said company in Ashokan Reservoir territory, and also from all claims for damage sustained or to be sustained by said company by reason of it obtaining or being obliged to obtain easements or rights of way for the construction of a telephone line in place of those taken by The City of New York; the said Board of Water Supply of The City of New York and The City of New York, in consideration of said above release and discharge, do hereby consent that the Citizen Standard Telephone Company and its respective successors and assigns may construct, erect and perpetually maintain and operate one line of poles for telephone purposes with wires, stays, guys, braces and other necessary appliances, and may trim any trees near said line so as to keep the wires thereof clear of the limbs, branches or foliage at least two feet in, upon, over and along those portions of the new highways shown on the aforesaid map of said Highway Section, filed July 7, 1908, as aforesaid, described as follows:

Beginning at a point where Highway No. 2, as shown on said map, meets the State road about one-half mile from Boiceville, and thence running on said Highway No. 2 to Highway No. 1, then on said Highway No. 1 to Highway No. 18; then on Highway No. 18 to a point near Station 30 of said Highway No. 18; then leaving said Highway No. 18 and following approximately a line described as follows: north eighty-five degrees sixteen minutes, east fifteen hundred and seventy-five feet; thence south fifty-one degrees twenty-seven minutes, east sixteen hundred and thirty-seven feet; thence north eighty-five degrees forty-two minutes, east nine hundred and thirty-two feet; thence north sixty-nine degrees thirty-one minutes, east seventeen hundred and seventy-two feet; thence south eighty-five degrees twenty-six minutes, east sixteen hundred and thirty-five feet; thence north thirty-six degrees eleven minutes, east twenty-three hundred and fifty-four feet; thence north seventy-seven degrees twenty-eight minutes, east forty-three hundred and thirty-three feet; thence south seventy-five degrees fifty-five minutes, east twenty-six hundred and twenty-nine feet; thence north seventy-six degrees fifty-nine minutes, east seventeen hundred and seventy-six feet to a point near Station 87 of Highway No. 15; thence on said Highway No. 15 to Highway No. 17; then on said Highway No. 17 to Highway No. 12; then on said Highway No. 12 to Highway No. 11; then on said Highway No. 11 to the Plank road at the point where the same leaves the property of New York City at the easterly extremity of the Ashokan Reservoir.

Also, beginning at the point where Highway No. 4 crosses the road from West Hurley to Woodstock; thence along and on the northerly side of said Highway No. 4 to Highway No. 8; then along the easterly side of Highway No. 8 to Highway No. 9; then along the easterly side of said Highway No. 9 to Highway No. 10; then along the easterly side of said Highway No. 10 to the Ulster and Delaware Plank road at the point where the road to Vandale now leaves the same.

Provided, however, that the poles which shall be erected shall be set not nearer than fifteen feet to the centre line of the graded portions of said highways, and all poles shall be set on said highways, unless for the purpose of avoiding curves and obstructions, it may be necessary to leave said highways, in which cases such line may be erected and maintained over such lands of The City of New York adjoining said highways (suitable for the erection and operation of such line) as shall be approved by the Supervising Engineer of said Board of Water Supply of The City of New York.

This resolution and consent shall not be effective until the above described route for said telephone line shall have been approved by an order of the Supreme Court.

On motion of Commissioner Chadwick, the following resolution was unanimously adopted (9049):

Whereas, The Board of Water Supply of The City of New York, under and by virtue of chapter 724 of the Laws of 1905 and the acts amendatory thereof, has instituted proceedings to condemn certain lands situate in the Towns of Olive, Hurley, Marbletown, Kingston and Woodstock, Ulster County, N. Y., such lands being generally known as Ashokan Reservoir, and described on maps of the same filed in Ulster County Clerk's office, designated as maps of Sections 1 to 18, both inclusive, and Highway Section, Ashokan Reservoir; and

Whereas, The Hudson River Telephone Company and the American Telephone and Telegraph Company are the owners of certain easements and rights of way in said Ashokan Reservoir territory, over and upon which they have constructed and now maintain telephone and telegraph lines, which said easements and rights of way are to be taken by The City of New York in said condemnation proceedings, by reason of which the said company will be obliged to remove said telephone and telegraph lines, and obtain other rights of way and easements for the construction of a new line to replace a certain section of one of said lines so removed, which is owned jointly by said telephone companies;

Whereas, A portion of the lands lying in said Ashokan Reservoir territory are highways which will be obliterated by the construction of said reservoir, and it is the intention of The City of New York, by said Board of Water Supply, to construct new highways in place of those obliterated, and a map known as Map of the Highway Section was filed in Ulster County Clerk's office on the 7th day of July, 1908, which map shows the several highways which are to be obliterated and the route of the new highways to be substituted therefor; and

Whereas, The said above mentioned telephone and telegraph lines are constructed on and over a portion of said highways so to be obliterated; and

Whereas, Said Board of Water Supply made due application to the Supreme Court by its petition, praying said Court to approve the route of said new highways as shown on said map and described in said petition, and that Commissioners of Appraisal be appointed to ascertain and appraise the compensation to be made to any party who may sustain damage by reason of the change in said highways; and

Whereas, Said Court, by its order, duly granted on the 13th day of March, 1909, and entered in Ulster County Clerk's office on the 16th day of March, 1909, duly approved the route of said new highways as shown on said map and described in said petition, and appointed Sydney Harris, C. Gordon Reel and James T. McKenna Commissioners of Appraisal for the purposes aforesaid, and said Commissioners duly took and filed their oaths as required by said act; and

Whereas, The said Hudson River Telephone Company and the American Telephone and Telegraph Company duly presented to said Commissioners their claims for damage sustained by them by reason of their being compelled to remove said telephone and telegraph lines, construct a new line, and obtain easements and grants of rights of way for the construction of such new lines, and claims for loss of business caused by the removal of such lines, which claims are now pending before said Commissioners of Appraisal;

Now, therefore, the said Hudson River Telephone Company and the American Telephone and Telegraph Company, on payment to them of the award to be made by said above mentioned Commissioners of Appraisal, forever release and discharge The City of New York from any and all claims for damage sustained or to be sustained by said companies or either of them by reason of The City of New York having by said above mentioned condemnation proceedings taken the easements and rights of way heretofore granted to said companies or either of them in said Ashokan Reservoir territory, and also from all claims for damage sustained or to be sustained by said companies or either of them by reason of their obtaining or being obliged to obtain easements or rights of way for the construction of a telephone and telegraph line in place of those taken by The City of New York; the said Board of Water Supply of The City of New York and The City of New York, in consideration of said above release and discharge, do hereby consent that the Hudson River Telephone Company and the American Telephone and Telegraph Company, and their respective successors and assigns, may construct, erect and perpetually maintain and operate one line of poles for telephone and telegraph purposes, with wires, stays, guys, braces and other necessary appliances, and may trim any trees near said line so as to keep the wires thereof clear of the limbs, branches or foliage at least two feet in, upon, over and along those portions of the new highways shown on the aforesaid map of said Highway Section, filed July 7, 1908, as aforesaid, described as follows:

Beginning at the point where Highway No. 2, shown on said map, crosses the Old Shandaken road, and thence running on said highway southeasterly about one mile to the point where the present line of said companies leaves the property owned by The City of New York; then beginning at the point where Highway No. 3, shown on said map, joins the present State road, near the Olive Post Office, and running thence easterly on said highway to Highway No. 4; then on said Highway No. 4 to the point where said highway joins the road leading from West Hurley to Woodstock; then still on said Highway No. 4 and on the southerly side thereof to Highway No. 8, as shown on said map; then on the westerly side of said Highway No. 8 to Highway No. 9, as shown on said map; then on the westerly side of Highway No. 9 to Highway No. 10, as shown on said map; then along the westerly side of said Highway No. 10 to the point where said Highway No. 10 joins the present Ulster and Delaware plank road, said route being shown also on said map annexed hereto and which forms a part of this consent;

Provided, however, that the poles which shall be erected shall be set not nearer than fifteen feet to the centre line of the graded portions of said highways, and all poles shall be set on said highways, unless for the purpose of avoiding curves and obstructions it may be necessary to leave said highways, in which cases such line may be erected and maintained over such lands of The City of New York adjoining said highways (suitable for the erection and operation of such line) as shall be approved by the Supervising Engineer of said Board of Water Supply of The City of New York.

This resolution and consent shall not be effective until the above described route for said telephone and telegraph line shall have been approved by an order of the Supreme Court.

THOS. HASSETT, Secretary.

The underground conduit above referred to is the underground conduit laid by the Company in the Ocean parkway under an greement entered into between the Commissioner of the Department of Parks of the City of Brooklyn and the Company on August 4,1897, which agreement was held by the Court of Appeals on December 17, 1907, in People *ex rel.* Flatbush Gas Company against Bird S. Coler *et al.* (190 New York Reports, 268), not to have given the Company the privilege of laying or erecting conduits or conductors for the purpose of supplying electricity to private consumers.

Sec. 2. The grant of this privilege is in consideration of and subject to and conditioned upon the performance and observance of the following conditions which shall be complied with by the Company:

First—The said right to lay, construct, maintain and operate the said conduit, wires, conductors and connections for furnishing and supplying electricity in the above described territory shall be held and enjoyed by the Company, its successors and assigns, for a period of twenty-five (25) years from December 17, 1907, with the privilege of renewal of said contract for a further period of twenty-five (25) years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said conduit, wires, conductors and connections, constructed, maintained and operated under and in pursuance of this contract.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but the annual sum to be paid by the Company to the City under such renewal shall not be less than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shal be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable, but no annual sum thus fixed shall in any event be less than the sum required to be paid by the Company to the City during the last year of this original contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum to be paid thereunder shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said apraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of five hundred dollars ($500) for the privilege hereby granted within thirty (30) days after the signing of this contract by the Mayor.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or any law of the State of New York.

Sixth—Upon the termination of this original contract, or if the same is renewed, then upon the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the conduits, wires, conductors, connections and street lamps laid, erected and located by the Company, and including all property laid, erected or located by it in the streets or avenues, shall become and be the property of the City, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If the Board shall so elect, upon the termination of this grant for any cause, the plant, stations and property erected and located by the Company in the Borough of Brooklyn and used exclusively to supply electricity to the territory described in section 1 of this contract, but which are not situated in any street or avenue thereof, including the buildings, plants, stations, meters, house fittings and all property not situated in the streets or avenues so used by the Company in the generation, conversion and distribution of electricity to street lamps and public and private buildings in said territory, shall become and be the property of the City on payment to the Company of the value of the same, as fixed by three disinterested freeholders, appointed and paid in the same manner and with the same powers as appraisers appointed upon any renewal of this original contract, as above set forth, but such valuation shall in no case be greater than the value of such property as shown by the last report submitted by the Company to the Board, as required by the terms of this contract, and shall not include any compensation for any value which such property may have by reason of this grant. If, however, at the termination of this grant for any cause, as aforesaid, the City, by the Board, shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove its conduits, wires, conductors and connections from all the streets and avenues and restore said streets at its own cost and expense.

Seventh—The Company shall construct and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials, where such permits are required by the Charter of the City. In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company, whether the same be under streets and avenues or in private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

The Company shall, within six months after the signing of this contract, prepare a map showing in detail the location of its underground conduits, the number of ducts in the same, the subsurface structures laying adjacent to or crossing over, under or through said underground conduits, and the size of the same, and such other information as the President of the Borough of Brooklyn may desire. Eleventh—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twelfth—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Thirteenth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Such value shall be fixed with due regard to the reversion of such conduits to the City at the termination of this contract or renewal thereof. If, however, the City, by the Board, so determines it may at any time after March 1, 1914, require the Company, by an instrument under seal entered into between the City and the Company, to surrender to the City the said conduits and their appurtenances free of all cost, in consideration of the City allowing the Company to use all the space necessary for its corporate purposes in said conduits so surrendered free of any and all charges, whether for rental or for maintenance, from the date of the surrender of said conduits and their appurtenances to the date of the expiration of this contract or any renewal thereof.

Any agreements made by the Company with any duly authorized individual or other corporation, whether under the provisions of this contract or otherwise, whereby said duly authorized individual or other corporation is granted or given the right or permission to use said conduits and their appurtenances, shall not in any manner affect the right of the City to acquire or take over the conduits and their appurtenances belonging to the Company, free and clear of any and all incumbrances whatsoever.

This provision shall not in any way affect the City's right to the reversion of all the property of the Company in the Ocean parkway and other public streets and places upon the expiration of this contract or any renewal thereof, or upon the happening of any of the other contingencies herein provided for.

Sixteenth—Should the City at any time acquire the conduits of the Company or construct a system of conduits for the accommodation of wires and conductors theretofore strung and constructed above the surface of the street, the Company agrees that upon being directed to do so, it will remove its overhead wires and place them in said conduits, under the supervision of the proper municipal authorities, paying for the use of such conduits, except as otherwise expressly agreed in this contract, a reasonable rental to be fixed by the Board.

The provisions of section 63 of the Transportation Corporations Law fixing a penalty for failure of any electric company to extend its service to an applicant, and of this subdivision of the contract requiring the payment of interest on deposits made by consumers, may, in the event of the refusal of the Company to comply with any order of the Board, on complaint made in regard thereto, be deducted from the security fund to be deposited with the Comptroller, as hereinafter provided, and the Comptroller is authorized to deduct the amount from the said fund and pay the same to the claimant, on being directed to do so by the Board.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than 2 feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

WEDNESDAY, DECEMBER 15, 1909,

at 11 a. m., in lots and parcels and in manner and form as follows:

Lot No. 1—Two two-story and basement brick buildings and appurtenances thereto known as Nos. 157 and 159 Eleventh street.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 15th day of December, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened December 15, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. WEDNESDAY, DECEMBER 29, 1909,

at 12 o'clock m. at the Brooklyn Real Estate Exchange, No. 189 Montague street, in the City of Brooklyn, the following described real estate belonging to and being part of the Common Lands of the Town of Gravesend, located in the Borough of Brooklyn, being known and distinguished as Boulevard Lot No. 10 on the map of the Common Lands of the Town of Gravesend, and bounded and described as follows, viz.:

Beginning at a point on the westerly side of Ocean parkway, distant 1,024 feet southerly from the southwesterly corner of Ocean parkway and Sheepshead Bay road, which point of beginning is where the westerly side of Ocean parkway is intersected by the southerly line of Lot No. 11, as shown on a map of Common Lands at Coney Island, belonging to the Town of Gravesend, surveyed 1878, William Kowalski, City Surveyor, running thence westerly along the southerly side of Lot No. 11 as laid down on said map at right

angles to said Ocean parkway 200 feet to the easterly side of West First street; thence southerly along the easterly side of West First street 100 feet to the northerly side of Lot No. 9 as laid down on said map; thence easterly along the northerly side of said Lot No. 9 and at right angles to Ocean parkway 200 feet to the westerly side of Ocean parkway; thence northerly along the westerly side of Ocean parkway 100 feet to the point or place of beginning, being Lot No. 10 on the above mentioned map, excepting so much as was taken for the widening of West First street.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened December 8, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened December 3, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
