COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 135.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, January 20, 1914.

To the Honorable the Board of Aldermen:

Gentlemen—At a meeting of the Board of Estimate and Apportionment, held January 16, 1914, a resolution was adopted (1) requesting the Legislature of the State of New York not to consider any proposed pension legislation affecting employees in the service of The City of New York until after the Committee on Pensions appointed by the Mayor of The City of New York has reported its findings and recommendations, and the Board of Estimate and Apportionment has approved a proposed pension act; (2) pledging itself (the Board) to an effort to obtain legislation that will combine all municipal pension systems into one if such a combination be practicable, and that if such combination be not practicable still pledging itself to an amendment of the present pension acts so that they will give uniform justice to City employees; (3) *requesting the Board of Aldermen,* the Board of Education and the heads and employees of all City departments to refrain from supporting or advocating any proposed legislation affecting the pension system of The City of New York until after the Committee on Pensions appointed by the Mayor has made its report and recommendations, and until after the Board has approved a proposed pension act to take the place of the various acts now in effect, and (4) directing the Secretary of the Board to transmit a copy of said resolution, together with a copy of the report of the Committee on Salaries and Grades, dated January 15, 1914, to the State Legislature, the Governor of the State, *the Board of Aldermen,* the Board of Education and to the heads of all City departments and offices.

In accordance with the directions contained in said resolution I transmit herewith a certified copy thereof, together with a copy of the report of the Committee on Salaries and Grades, dated January 15, 1914, recommending the adoption of said resolution. Yours very truly. JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, January 15, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board of Estimate and Apportionment on June 26, 1913, the Comptroller presented a report on the general question of pensions for City employees. The report was upon a request of the Board of Aldermen for the authorization of $1,000, to be used by the Special Committee on Pensions of the Board of Aldermen to defray necessary expenses in connection with the formulation of an effective ordinance regulating the pensions of City employees.

This subject had already been investigated at considerable length by the examining force in the Department of Finance. The results of the investigation made by the Finance Department demonstrated the grave need for a comprehensive pension law that would give uniform justice to all persons in the City's service. It was also demonstrated that a satisfactory pension law could not be devised until after a very thorough study of the question and an examination into the various pension methods of other cities and of private corporations. The Comptroller, in his report at the meeting of June 26, gave a brief statement of the pension systems in force in several of the greatest corporations in America. This was done simply as an indication of the field into which inquiry should be made before the adoption of a pension system to take the place of the various systems now in use in the City.

The Comptroller suggested that a Special Committee on Pensions be appointed by the Mayor to investigate for the Board of Estimate and Apportionment the general subject of pensions, and to report definite recommendations for a law that would combine all municipal pension systems into one. The Comptroller recommended a denial of the request for an appropriation for the Board of Aldermen Pension Committee.

The Comptroller's recommendations were adopted by this Board, and the Mayor acting in accordance with the recommendations, appointed a Committee on Pensions consisting of the following: Geoge W. Perkins, Albert De Roode, Eugene H. Outerbridge, Henry Bruere, Francis D. Pollak, James Creelman, Daniel Harris, Joseph Haag, John A. Bolles, Frank L. Dowling, S. Herbert Wolfe, Arthur Williams, Mrs. Frank H. Cothren.

This Committee on Pensions has met several times and a general plan of procedure has been adopted.

The present plan is to bring together all the agencies that have had any experience in investigating pension matters and to have such agencies co-operate with the Committee. The purpose of the Committee is to gather necessary facts, reach conclusions and report as soon as possible.

While this Committee has been trying to devise one uniform pension law out of the chaos of conflicting pension laws we now have, the advocates of special bodies of City employees have been busy in the preparation of other proposed legislation which would only add to our present pension complications.

What we need is not to increase the number of pension acts now on the statute books, but to reduce them, or, rather to combine them into one. The present administration is pledged to a reform of our present pension system, and there is no doubt but that it is ready and anxious to carry out its pledge.

In view of the fact that work is actively being done to formulate a satisfactory pension law, we recommend that this Board of Estimate and Apportionment formally deprecate the introduction of any proposed pension legislation until after the Committee on Pensions appointed by the Mayor has made its report and its recommendations. We recommend that this Board of Estimate formally request the Board of Education and all the City departments to refrain from supporting any proposed legislation regarding pensions until after the Pension Committee has made its recommendations and this Board has acted upon them.

We recommend further that the State Legislature be requested not to consider any proposed legislation regarding pensions affecting employees in the City's service until the Committee on Pensions has made its findings and recommendations and such findings and recommendations have been acted upon by the Board of Estimate and Apportionment.

The Board of Aldermen is represented on the Committee on Pensions, and its representatives will, of course, have a part in the framing of any legislation proposed by the Committee. For that reason the Board of Aldermen should refrain from adopting any pension ordinances. We recommend that the Board of Aldermen be requested not to act upon any pension legislation until after the final report of the Committee on Pensions and the approval by the Board of Estimate and Apportionment of a proposed pension act.

We recommend that the Secretary of this Board be requested to transmit to all departments and bodies concerned a copy of this report, and that the Board adopt the attached resolution memorializing the Legislature in the matter of pensions.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

Resolved, That the Board of Estimate and Apportionment of The City of New York respectfully requests the Legislature of the State of New York not to consider any proposed pension legislation affecting employees in the service of The City of New York until after the Committee on Pensions appointed by the Mayor of The City of New York has reported its findings and recommendations and the Board of Estimate and Apportionment has approved a proposed pension act.

Resolved, further, That this Board pledges itself to an effort to obtain legislation that will combine all municipal pension systems into one, if such a combination be practicable, and that if such combination be not practicable this Board still pledges itself to an amendment of our present pensions acts so that they will give uniform justice to City employees.

Resolved, That this Board of Estimate and Apportionment requests the Board of Aldermen, the Board of Education and the heads and employees of all City departments to refrain from supporting or advocating any proposed legislation affecting the pension system of The City of New York until after the Committee on Pensions appointed by the Mayor has made its report and recommendations, and until after the Board of Estimate and Apportionment has approved a proposed pension act to take the place of the various acts now in effect.

Resolved, That the Secretary of this Board is hereby directed to transmit to the State Legislature, to the Governor of the State, to the Board of Aldermen, to the Board of Education, and to the heads of all City departments and offices a copy of the report of the Committee on Salaries and Grades dated January 15, 1914, submitted to the Board of Estimate and Apportionment with this resolution, and that he is also directed to send a copy of this resolution with a copy of such report.

A true copy of resolution adopted by the Board of Estimate and Apportionment January 16, 1914. JOSEPH HAAG, Secretary.

Which was referred to the Committee on Pensions.

No. 136.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, January 20, 1914.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of three resolutions adopted by the Board of Estimate and Apportionment January 16, 1914, relative to the establishment and abolishment of various grades of positions, etc., in the City departments as follows:

Cal. No.	Department and Positions.	Compensations. Per annum	Incumbents.
71	County Clerk, New York County; Third Deputy County Clerk	$2,500 00	1
	—and the abolishment of position of Custodian at $1,200 per annum for 1 incumbent.		
72	Department of Correction—		
	Deputy Commissioner	5,000 00	1
	Secretary	2,500 00	1
	Private Secretary	2,000 00	1
73	Department of Education, amendment of resolution adopted December 31, 1913, which fixed the salary of the Janitor of the Bushwick High School at $15,540, including night school service, by making provision for the distribution of said amount.		

I also enclose copies of reports of the Committee on Salaries and Grades relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the County Clerk of New York County of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Third Deputy County Clerk	$2,500 00	1

—and that the grade of position, as follows, be hereby abolished:

Title.	Rate Per Annum.	Number of Incumbents.

A true copy of resolution adopted by the Board of Estimate and Apportionment January 16, 1914. JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, January 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On December 20, 1913, the County Clerk of New York County requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the additional grade of position in the office of Third Deputy County Clerk at $2,500 per annum for one incumbent. In connection therewith we report as follows:

The County Clerk states that the present salary of the position is $1,300 per annum and that he has found it impossible to retain any capable man in the position on account of the insufficient salary. He further states the place is one of great responsibility as the incumbent is required to supervise the work of the employees in the general office, as well as those assigned to work throughout the County Court House and the Hall of Records. In addition the Third Deputy represents the County Clerk at all the jury drawings for the County. The County Clerk also states that he can secure a man fully qualified to fill the place provided the salary of the position is fixed at not less than $2,500 per annum. It is proposed to provide the funds for the increase by abolishing of the position of Custodian in the office.

We recommend the adoption of the attached resolution granting the request and also abolishing the position of Custodian. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

No. 137.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Department of Correction of the grade of position, in addition to those heretofore established as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Deputy Commissioner	$5,000 00	1
Secretary	2,500 00	1
Private Secretary	2,000 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment January 16, 1914. JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, January 14, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On January 2, 1914, the Commissioner of Correction requested the establishment of the following grades of positions:

Deputy Commissioner	$5,000 00
Secretary	2,500 00
Private Secretary	2,000 00

In connection therewith we report as follows:

It is proposed to increase the salary of Burdette G. Lewis, Deputy Commissioner, from $4,000 to $5,000 per annum by reducing the salary of the position of Secretary from $3,000 to $2,500 per annum; and that of Private Secretary from $2,500 to $2,000 per annum.

The Commissioner states that the proposed changes are in conformity with the plan of reorganization of the Department.

As the changes proposed will not increase the total sum allowed for salaries in the 1914 Budget we recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

No. 138.

Resolved, That the following resolution adopted by the Board of Estimate and Apportionment on December 31, 1913:

"Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salary shall have been established under the provisions of Section 56 of the Greater New York Charter; and

"Whereas, The Special Committe on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Board of Education, therefore be it

"Resolved, That, pursuant to the provisions section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, pending action by the Board of Education on the aforesaid report, the compensation of the Janitor of the Bushwick High School be fixed temporarily, and until further modified, at the rate of $15,540 per annum, said rate to include night school service,"

—be and hereby is *amended by* adding the following words:

—*"the distribution of the total amount so allotted and fixed to be adjusted between the day and evening school activities conducted in the building, as to time and amount, by arrangement between the representatives of the Board of Education and the Department of Finance."*

A true copy of resolution adopted by the Board of Estimate and Apportionment January 16, 1914. JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, January 12, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On December 31, 1913, your Board, pursuant to the provisions of section 56 of the Greater New York Charter, recommended to the Board of Aldermen the fixation of a temporary rate of $15,540 per annum for the Janitor of the new Bushwick High School, Brooklyn, the rate to include night school service. In order that the compensation for night school service may be applied to the particular periods of the year during which such service is performed, it is proposed to amend the resolution by adding the words "the distribution of the total amount so allotted and fixed to be adjusted between the day and evening school activities conducted in the building as to time and amount by arrangement between the representatives of the Board of Education and the Department of Finance."

I recommend the adoption of the attached resolution giving effect to the suggestion. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Which were severally referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the President of the Borough of Brooklyn.

No. 139.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, January 10, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen, City of New York:

Dear Sir—You are hereby notified that Mr. George W. Tillson, of No. 376 Parkside ave., Brooklyn, was appointed on January 1, 1914, as Acting Commissioner of Public Works, Borough of Brooklyn, with authority to sign all orders, vouchers and payrolls, to preside at Local Board meetings, and to perform all other acts of that office. I have also conferred upon him power, in my stead, to perform the duties of Borough President, in my absence, in accordance with section 383 of the Greater New York Charter. This includes authority to act in the Board of Aldermen. Yours very truly, L. H. POUNDS, President, Borough of Brooklyn.

Which was ordered on file.

The President laid before the Board the following communication from the Commissioner of Parks, Brooklyn:

No. 140.

The City of New York, Department of Parks, Borough of Brooklyn, Litchfield Mansion, Prospect Park, Borough of Brooklyn, January 16, 1914.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—Your Honorable Board is hereby respectfully requested to grant permission to this Department to enter into a contract, without public letting, for additional work, on the contract now in progress "for removing old foundations, piles, walks, floors, columns, etc., and excavating and grading at Seaside Park, formerly Dreamland Park, Coney Island, Borough of Brooklyn," at a cost not exceeding five thousand dollars ($5,000).

The necessity of making this request is based upon the following facts:

On July 31, 1913, a contract was awarded by the Park Board to Charles O'Hara, the lowest formal bidder, "for removing old foundations, piles, bulkheads, walks, floors, columns, etc., and excavating and grading at Seaside Park, formerly Dreamland Park, Coney Island, Borough of Brooklyn," at an itemized price bid of seventeen thousand and thirteen dollars ($17,013). The cost of the work is to be paid for out of an appropriation of twenty-five thousand dollars ($25,000) authorized for the purpose by the Board of Estimate and Apportionment on January 16, 1913, and approved by the Board of Aldermen on March 18, 1913.

The contract contemplates the cleaning up and removal of the wreckage left from the fire which destroyed Dreamland Park, Coney Island, some two years ago. The work comprises, in part, the excavation and removal of all earthy materials, dirty sand, loose masonry, etc., to a subgrade of clean sand; the removal of old foundations; the removal of all piles, columns, posts, bulkheads, walks, floors, etc., encountered during the progress of the work; and the grading of the park area after the removal of all unsuitable materials, structures or parts thereof as above mentioned. Payment for the work is to be made on a unit price basis, the approximate quantities of work to be done under the various items being stated in the Engineer's estimate. The Engineer's estimate was prepared from the records of a careful survey made to ascertain, as nearly as possible, the amount of work to be done.

During the progress of the work, a number of piles, bulkheads, floors, walks, etc., in excess of the quantities for these items, enumerated in the Engineer's estimate have been encountered, the location and extent of which were not ascertainable previous to this time, owing to the fact that these structures were buried at depths of two to four feet. It has also been found that the amount of excavating and grading may be slightly increased over the estimated amount, owing to unforeseen conditions. If the requirements of the specifications are to be carried out and the park put into condition for use by the public, as contemplated by the contract, the quantities of work performed will be considerably increased and the cost of the work will exceed the price bid by the contractor by approximately twenty-five per cent. (25%).

The estimated amount of work to be performed, in excess of the Engineer's estimate, in order to complete the contract, together with the cost of same at the contract prices, is as follows:

Item No. 1.	Excavation, 2,000 cubic yards, at 23 cents	$460 00
Item No. 2.	Regulating and grading, 1,000 cubic yards, at 23 cents	230 00
Item No. 4.	Wooden piles, 2,300, at 50 cents	1,150 00
Item No. 6.	Bulkheads, 2,900 linear feet, at 50 cents	1,450 00
Item No. 7.	Walks and floors, 3,600 square yards, at 35 cents	1,260 00
Item No. 8.	Iron and steel columns, over 4 inches in diameter, 50 cents and $1	50 00
	Total cost	$4,600 00

The excess in the various items, as above stated, is the amount of unforeseen work which has developed to date. It is believed that the amount so stated will entirely complete the contract; it is possible, however, that further work may develop as the work progresses, and in such a case the quantities of work may be slightly increased over the quantities above mentioned, but not to an extent exceeding five thousand dollars ($5,000).

The progress of the work is now considerably hampered, owing to the unforeseen work which has developed, and the contractor cannot carry on any work under the item of regulating and grading until all the work under other items of work is completed as called for in the specifications. The contractor has agreed, in writing, to proceed with and complete the additional work, aforesaid mentioned, at the contract prices. These prices are very reasonable, and it will be to the advantage of the City to have the work completed at these prices. There are sufficient funds available to complete the work.

The contract contains a clause limiting the aggregate price to be paid for additional work to five (5) per cent. of the contract price or total cost of the work and materials.

I have been advised by the Corporation Counsel, under date of January 13, 1914, that in order to procure the completion of the contract that application should be made to the Board of Aldermen for permission to enter into a contract without public letting for the work necessary to complete the job beyond the contract price and 5 per cent. in addition thereto.

The alternate way to complete the work will be to prepare plans and specifications and advertise for bids to complete the additional work. The plans and specifications would have to be approved by the Board of Estimate and Apportionment and then advertised in the usual way. The time involved in proceeding in this manner would result in such a delay in completing the work that the park would probably not be ready to use by the public until late in the summer. Further, the cost of the work would undoubtedly be greater than to have the work completed by the present contractor, who already has the necessary plant and equipment on the ground to do the work, and whose prices are very reasonable. As previously stated, the

contractor cannot complete his work until the additional work is performed. If the additional work were to be advertised, it would be necessary to suspend operations on the present contract indefinitely, or to close the contract, before completion, which would greatly complicate the matter.

I am exceedingly desirous of having this park in shape for use by the public before the summer season, and I would urgently request that this matter be acted upon favorably, at the earliest possible moment. Very truly yours,

RAYMOND V. INGERSOLL, Commissioner.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communications from the the President, Borough of Queens:

No. 141.

The City of New York, Office of the President of the Borough of Queens, Long Island City, January 12, 1914.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—For the purpose of placing funds at the disposal of the Department to meet minor and incidental expenses, incurred from day to day, and necessarily connected with the proper administration of this office, I respectfully request that your Board adopt a resolution providing that the President of the Borough of Queens may, upon requisition, draw upon the Comptroller for a sum not exceeding five hundred dollars ($500), and that the said President may, in like manner, receive the draft as often as he may deem necessary, to the extent of the available funds appropriated for contingencies for the office of the President of the Borough of Queens, but no renewal shall be made until the money paid upon a preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers certified by the President covering the expenditure of money paid thereon.

Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens.

The City of New York, Office of the President of the Borough of Queens, Long Island City, January 6, 1914.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—On July 3, 1913, there was referred to your Committee on Salaries and Grades a resolution adopted by the Board of Estimate and Apportionment on June 19, 1913, relative to the establishment of the grade of Flagger in the office of the President of the Borough of Queens for an unlimited number of incumbents, at the rate of $4.50 per diem. No action seems to have been taken since the reference.

I desire to call your attention to the fact that this approval in the Board of Estimate and Apportionment was based upon the fact that the rate requested was the prevailing rate of the building trades for the position, and I would therefore request that you take action with respect to this request as soon as possible, for the reason stated.

Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens.

No. 142.

To the Honorable Board of Aldermen, City of New York:

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 143.

City of New York, Office of the President of the Borough of Manhattan, Municipal Building, January 20, 1914.

By President Marks—

City of New York, Office of the President of the Borough of Manhattan, Municipal Building, January 20, 1914.

To the Honorable Board of Aldermen of The City of New York:

Sirs—I herewith submit a proposition relative to the designation of property for the construction thereon of a building to be used for a women's court, women's jail and house of detention. The same proposition was submitted to the Board on the 16th of December, 1913, and referred to the Committee on Finance. Owing to the fact that the end of the session of the Board was at hand no action was taken, and accordingly I resubmit the proposition in the same form as previously submitted on the above date.

Corporate stock in the amount of $450,000 was appropriated for the purchase of a site, and the construction thereon of a building to be used for a women's court, women's jail and house of detention, to be erected under the jurisdiction of the President of the Borough of Manhattan. After full consultation with the Judges and all of those interested in this branch of the work it was determined that the best location for such a building would be on a site owned by the City and located on W. 30th st., between 6th and 7th aves. This site is seventy-six (76) feet on the street by one hundred (100) feet in depth, and is not sufficiently large to accommodate a building of the size needed. It will accordingly be necessary to acquire one additional lot 25 by 100 feet immediately adjoining the City property, and I would herewith request that your Board designate the said piece of property for the purpose above mentioned. The description of the property to be acquired is as follows: "All that certain lot, piece or parcel of land, with the buildings and improvements thereon erected, situate, lying and being in the Borough of Manhattan, City of New York, bounded and described as follows, to wit: Beginning at a point on the northerly side of 30th st., which point is distant 275 feet easterly from the corner formed by the intersection of the northerly side of 30th st. with the easterly side of 7th ave., and running thence northerly and at right angles to 30th st. 98 feet 9 inches; thence westerly and parallel with 30th st. 25 feet; thence southerly and parallel with 7th ave. 98 feet 9 inches to the northerly side of 30th st., and thence easterly along the northerly side of 30th st. 25 feet to the point or place of beginning."

Maps in triplicate, covering the above described property, will be filed with your Board this afternoon. Respectfully yours,

MARCUS M. MARKS, President, Borough of Manhattan.

The President laid before the Board the following communication from the President, Borough of Richmond:

No. 144.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, January 8, 1914.

Mr. LEWIS NIXON. Acting Commissioner of Public Works and Consulting Engineer, Borough Hall, New Brighton, N. Y.:

Dear Sir—I hereby designate you to fill, in addition to your duties as Consulting Engineer, those of Commissioner of Public Works in the office of the President of the Borough of Richmond, under the office title of Acting Commissioner of Public Works, and, in accordance with the provisions contained in the last paragraph of section 383 of the Greater New York Charter, I hereby further designate you to act for me, in my place and stead, as necessities may require, due to absence from the city or otherwise, as Acting President of the Borough of Richmond and as a member of the Board of Estimate and Apportionment and of the Board of Aldermen of The City of New York. Very truly yours,

C. J. McCORMACK, President of the Borough of Richmond.

City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, January 8, 1914.

Hon. GEORGE McANENY, President of the Board of Aldermen, City Hall, New York City:

Sir—I send to you herewith copy of letter just written to Mr. Lewis Nixon, Acting Commissioner of Public Works and Consulting Engineer in this Borough, whom I have designated to act for me in my stead, as occasion may require, for presidential duties in our local office and as acting member of the Board of Estimate and Apportionment and of the Board of Aldermen. Yours respectfully,

C. J. McCORMACK, President of the Borough of Richmond.

Which was ordered on file.

The President laid before the Board the following communication from the Commissioner of Correction:

No. 145.

Department of Correction of The City of New York, Commissioner's Office, 148 E. 20th St., New York, January 14, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen, City of New York:

Dear Sir—Enclosed herewith find copy of resolution adopted by the Board of Aldermen on January 21, 1913, authorizing the Commissioner of Correction to draw upon the Comptroller, by resquisition, for a sum not exceeding one thousand dollars ($1,000) in order that the provisions of chapter 471, Laws of 1879, and section 108 of chapter 429, Laws of 1896, may be properly carried out. As it is necessary that the Board of Aldermen should pass a similar resolution for the current year, I would respectfully request that you have one prepared and presented at an early date.

Trusting that this matter will be given prompt attentio, I remain,

Yours very respectfully, KATHARINE BEMENT DAVIS, Commissioner.

Resolved, That for the purpose of enabling the Commissioner of the Department of Correction to carry out the provisions of chapter 471, Laws of 1879, and section 108 of chapter 429, Laws of 1896, relative to donations to discharged prisoners, the said Commissioner of Correction may, by requisition, draw upon the Comptroller for a sum not exceeding one thousand dollars ($1,000), and may in like manner renew the draft as often as she may deem necessary, to the extent of the appropriation set apart for donations to discharged prisoners during the year 1913, but no such renewal shall be made until the money paid upon the preceding draft shall have been accounted for to the Comptroller by the transmittal of a voucher certified by the said Commissioner of Correction covering the expenditure of money paid thereon.

The President laid before the Board the following communication from the Commissioner of Water Supply, Gas and Electricity:

No. 146.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, January 14, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen:

Dear Sir—In the Budget allowances for this year provision was made for the purchase of two automobile trucks, one to be assigned to the distribution system, Borough of Queens, and the other to the Brooklyn watershed. The amount to be expended is not to exceed $4,000

The truck assigned to the Borough of Queens is to be used for transporting the men between their station and locations where their services are required for the repair of breaks, and for conveying tools, equipment and repair parts of pipes and hydrants. It will also transport material required by the different repair companies. In the past horses and wagons have been used, but on account of the long distances to be traveled, together with unfavorable weather conditions retarding the progress of the wagons, it is considered advisable that an automobile truck be used for this purpose. It is to the City's interests that where breaks occur they be repaired in the least possible time, in order that claims for damage to private property resulting from escaping water may be avoided or reduced to a minimum.

The automobile truck desired for the Brooklyn watershed is to be used for transporting material and the men assigned to well work on the island. Considerable time is lost by the men assigned to this work being required to wait for material and they are delayed in waiting for railroad trains, which at present are the only means of travel between the different points where their services are required. At present horses and wagons are used, but this means of transportation is very slow.

Owing to the fact that it is impossible to prepare contract specifications for automobiles upon which competitive bidding could be secured, as they would necessarily include certain parts which are now covered by patent rights and which the City could not lawfully appropriate as its own idea of construction, I would respectfully request that you present this matter at the next meeting of the Board of Aldermen. I would request that authority be granted me to purchase these two automobile trucks without public letting. Attached hereto is a draft of resolution relative to this matter.

Yours truly, HENRY S. THOMPSON, Commissioner.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to purchase two automobile trucks, one to be assigned to the distribution system, Borough of Queens, and the other to the Brooklyn watershed, the expense thereof not to exceed $2,000 for each automobile truck.

The President laid before the Board the following communication from the Tenement House Commissioner:

No. 147.

Tenement House Department of The City of New York, Borough of Manhattan, January 14, 1914.

Hon. GEORGE A. McANENY, President, Board of Aldermen, City Hall:

Dear Sir—I respectfully request permission under section No. 419 of the Greater New York Charter to let the following contract without public letting:

Building Shelving in Municipal Building on the 19th Floor..... $1,500 00

My reason for this request is that the Sinking Fund Commission cancelled the lease of the premises occupied by this Department at No. 44 East 23d street on November 30 and it was necessary to have shelving placed in the new quarters so that the records of the Department would not be piled in a heap and that the Public's business would not be unnecessarily inconvenienced.

Enclosed find resolution for introduction.

Respectfully, JOHN J. MURPHY, Commissioner.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Tenement House Commissioner be and he is hereby authorized and empowered to enter into a contract, without public letting, for the erection of shelving in the quarters occupied by the Tenement House Department in the Municipal Building at an estimated cost of fifteen hundred dollars ($1,500).

Be it ordained, by the Board of Aldermen of The City of New York, as follows:

Sec. 1. There shall be in The City of New York a Department of Purchase, the head of which shall be the Commissioner of Purchase, to be appointed by the Mayor and subject to his power of removal. The Department of Purchase shall have management and control of the purchase of all supplies used by the several Borough Presidents, departments, offices, boards, courts, commissions and institutions of The City of New York, or by any of the courts held or counties included within the territorial limits of said city, or otherwise paid for out of the funds appropriated by said city, subject, however, to such specifications as may be prescribed by the Board of Estimate and Apportionment. No supplies shall be purchased by the several Borough Presidents, departments, offices, boards, commissions and institutions of The City of New York, or by any of the courts or counties within the territorial limits of said city other than through the Department of Purchase, except where the Board of Estimate and Apportionment may either specifically or by the adoption of general rules otherwise provide, and except where such supplies are incident to the performance of a contract for labor and material. The Commissioner shall appoint such subordinates and employees as may be necessary to perform the work of the Department and as may be authorized pursuant to law. All supplies shall be purchased by and through the Department of Purchase except as hereinbefore provided. All supplies furnished involving an expenditure of more than one thousand dollars shall be purchased on contracts awarded upon bids submitted after public advertisement, under the provisions of section 419 of the Greater New York Charter. No supplies furnished, involving an expenditure of more than two hundred dollars and not more than one thousand dollars, shall be purchased except on an order of purchase awarded upon bids submitted without public advertisement, provided that requests for bids for supplies shall have been made to at least three responsible persons or corporations separately engaged in the regular business of furnishing supplies of the class required, and that all other bids from all responsible bidders shall have been duly considered in making such award. All supplies furnished, involving an expenditure of two hundred dollars or less, may be purchased in the same manner, or upon an order of purchase, without first obtaining bids therefor. All bids shall be recorded in a book of continuing record giving the names of bidders, the amounts of the bids and dates upon which the bids were made, and the unit prices and quantities purchased. A list of all such supplies so to be purchased shall be posted in a conspicuous place in the office of the Department of Purchase two days in advance of the time set for such purchase. Emergency purchases may, however, be made without such two days' notice, under such rules and regulations as may hereafter be adopted by the Board of Aldermen.

Sec. 2. The Sinking Fund Commission shall assign for the Department of Purchase such quarters for offices and storerooms as may be necessary for the proper operation of its duties.

Sec. 3. This ordinance shall take effect June 1, 1914.

REPORTS:

That it has investigated with great care the subject matter of the resolutions. The Committee first addressed itself to the question of their legality and has received in response to a request of the Chairman of the Committee the following opinion from the Corporation Counsel:

City of New York, Law Department, Office of the Corporation Counsel, Hall of Records, January 12, 1914.

Hon. WILLIAM D. BRUSH, Chairman, Committee on General Welfare, Board of Aldermen, City Hall:

Sir—I acknowledge receipt of your communication of January 7, 1914, which reads as follows:

"Will you please advise me if the Board of Aldermen has the power to adopt resolutions like the following:

"Resolved, That permission be and the same is hereby given to John Jones to erect, place and keep three storm doors within the stoop line in front of premises 17 W. 17th st., Borough of Manhattan, provided the said storm doors shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

"Resolved, That permission be and the same is hereby given to John Jones to parade a man with an advertising sign through the streets and thoroughfares of the Borough of Manhattan, under the supervision of the Police Department; such permission to continue only for the period of thirty days from the receipt hereof from his Honor the Mayor.

"Resolved, That permission be and the same is hereby given to John Jones to place and keep a booth within the stoop line in front of 17 W. 17th st., provided the said booth shall be erected so as to conform in all respects with the ordinance in such case made and provided, not to be used for advertising purposes; the work to be done at his own expense, under the direction of the President of the Borough. Such permission to continue only during the pleasure of the Board of Aldermen.

"Resolved, That permission be and the same is hereby given to John Jones to place and keep a sign to extend not more than three feet from the house line in front of premises 17 W. 17th st., in the Borough of Manhattan, provided the said sign shall be placed so as to conform in all respects with the provisions of section 260 of Part I. of the Code of Ordinances of The City of New York; such permission to continue only during the pleasure of the Board of Aldermen.

"Resolved, That permission be and the same is hereby given to John Jones to erect, place and keep a barber pole within the stoop line in front of premises 17 W. 17th st., in the Borough of Manhattan, provided the said barber pole shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

"Resolved, That permission be and the same is hereby given to John Jones to erect, place and keep an awning or marquise within the stoop line in front of premises 17 W. 17th st., in the Borough of Manhattan, provided the said awning or marquise shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

"Resolved, That permission be and the same is hereby given to John Jones to place and keep a show case within the stoop line in front of No. 17 W. 17th st., provided the said show case shall be erected so as to conform in all respects with the ordinance in such case made and provided; such permission to continue only during the pleasure of the Board of Aldermen.

"Are such resolution as these prohibited by section 50 of the Charter? Has the Board of Aldermen already given its permission, so far as storm doors, signs, barber poles, awnings, marquises and show cases are concerned, by general ordinance, so that such resolutions as these, if not actually vaid under section 50, are merely surplusage, as regards the Board of Aldermen? Does the Police Department possess the power to regulate the parading of men with advertising signs? Is there under section 50 a double prohibition as to booths, unless such booths are for the sale of newspapers, periodicals, fruit and soda water, or for the blacking of boots?

"I am anxious to have your reply, if it be possible, by noon of Saturday, January 10, at the latest. If you could oblige me to this extent, I shall most deeply appreciate it."

Answering the first question: Section 50 of the Greater New York Charter confers upon the Board of Aldermen power to regulate the use of streets for certain purposes and declares as follows:

"The board of aldermen shall not pass any special ordinance in relation to any of the matters mentioned in this section. All ordinances in relation thereto shall be general ordinances which may either apply throughout the whole city or throughout specified portions thereof, and shall provide for the enforcement thereof as specified in section fourty-four of this act as amended. Nothing herein contained shall be construed to prevent the board of aldermen from providing by special ordinance for the erection or maintenance on the streets or waters within The City of New York of fountains, public comfort stations, urinals, public baths, or other like structures maintained by the public authorities; for the establishment of which the said board is hereby empowered to provide. All general ordinances relating to authorized structures, encroachments or obstructions in or upon the streets or sidewalks by persons other than the authorities of the City of New York, or other public authorities, shall fix a definite license fee for every such authorized structure, encroachment or obstruction, according to the character, extent and duration thereof, and shall provide for the issuing of revocable licenses therefor, which shall be according to an established form and shall be regularly numbered and duly registered as shall be prescribed by the board of aldermen."

And by section 44 it is provided in part that the Board of Aldermen

"may from time to time ordain and pass all such ordinances, rules, regulations and by-laws, applicable throughout the whole of said City or applicable only to specified portions thereof, as to the said board of aldermen may seem," etc.

It would seem to result from the foregoing provisions that it is not competent for your Board to adopt resolutions of the kind indicated in your letter for the reason that they are special in their nature, whereas general enactments are contemplated by the Charter.

As to the second question: The Board of Aldermen has already by general ordinances dealt with the following subjects, namely: storm doors, signs, barber poles, awnings or marquises and show cases. See these sections of Cosby's Code of Ordinances of 1913, namely, 260, 263, 260b, 144, 252, 253, 259a.

As to the third question: I take it that this query has reference to the subject matter of the second of the forms of resolution contained in your letter. I am not aware of any provision of law that vests the Police Department with power to regulate the matter of a man walking the streets and carrying an advertising sign.

Of course, the police would have the right—and, indeed, it would be their duty—to prevent such use of the streets by one bearing an advertising sign as would result in an obstruction of a public highway within the meaning of the Penal Laws.

But I understand your question to relate to the former rather than to the latter phase of this matter.

If, on the other hand, you have in mind a parade or procession of men bearing advertising signs, it would seem that the Police Department would have such jurisdiction as is prescribed in section 1547 of the Charter.

As to the fourth question: I am not sure that I grasp the meaning of this question. Under the provisions of law already referred to, the Board of Aldermen are forbidden to permit the erection of booths within stoop lines except for certain purposes and with the consent of the owner of the premises. According to this clause, such booth must be, first, for one or more of the purposes specified, and for no other; and, second, the consent of the owner of the premises must be obtained. If I have misapprehended the scope of this inquiry I shall be pleased to give it further consideration upon being more fully advised.

Yours respectfully, ARCHIBALD R. WATSON, Corporation Counsel.

It thus appears that every one of these eight kinds of special resolutions is illegal and void, as special legislation prohibited by section 50 of the Charter, and your Committee, therefore, recommends that they all be placed on file.

The Committee in its investigation and discussion has, however, gone beyond the mere question of the impropriety of the Board of Aldermen assuming to adopt resolutions which have been pronounced illegal by the Corporation Counsel. The eight different street matters will still exist, and the question remains as to how they will be regulated.

As to the first six, to wit, awnings, marquises, showcases, storm doors, signs and barber poles, it appears from the opinion of the Corporation Counsel that all of these encroachments are already authorized by general ordinances of the Board of Aldermen, and that the shopkeeper, who would erect such encroachments, need ask the permission of nobody at all, except that of the President of the Borough, in so far as the Borough President requires such permission. Therefore, your Committee believes that the thousands of shopkeepers in this City will receive a positive benefit from this proposed action of the Board, because, in the future, they will not be required to go to the annoyance of asking permission from the Board of Aldermen, which permission is neither valid nor required. The shopkeepers will be saved all this trouble of hunting up the Alderman of the District and waiting upon the fortnight's outcome of a resolution of the Board.

Booths are already authorized by section 50 of the Charter for the sale of newspapers and periodicals, fruit and soda water and for the blacking of boots, and it is certain that the mere presence of a telephone or window in the booth does not make it illegal, and, furthermore, the burden is upon anyone asserting that a particular booth is illegal, to prove its illegality. A newstand license, through the usual channels, covers this matter.

As to the sandwich or sign men, so-called, which the Board has heretofore sought to regulate by special resolution, bestowing upon each of these poor fellows the title of a 'parade," they may in the future come and go through the streets of the City without let or hindrance, save as they become nuisances by obstructing pedestrian traffic, thereby amenable to the jurisdiction of the Police Department—which power the Department already possesses and exercises. It may be that in the future the Board should enact a general ordinance covering the activities of these sandwich men, but your Committe suggests that until the need appears it would not be the part of the wisest legislation to foist unnecessary statutes upon the public. When the need appears, the Board has the power to regulate by law or general ordinance, which the Police Department must then follow.

His Honor the Mayor has offered his co-operation in these matters, and the Police Commissioner has agreed to issue a general order through the Police Department, informing officers of that Department that shopkeepers, occupants of booths, and sandwich and sign men, no longer need a certified copy of resolution of the Board of Aldermen, in order to avail themselves of these privileges. This will make the path smooth for these classes of citizens and save them from annoyance from the police, based upon ignorance of the present state of the law.

Your Committee believes that the Board, by taking this step, will accomplish two things of great credit to itself as a legislative body; first, the doing away with special legislation that is and always has been manifestly illegal and beyond the charter powers of the Board, and, second, by conferring upon the classes of citizens affected by these matters a substantial benefit, by allowing them to avail themselves of the privileges of the general laws and ordinances without being compelled to obtain illegal permits from the Board of Aldermen.

Board of Education, The City of New York, Office of the President, 500 Park Ave., January 17, 1914.

Hon. DANIEL R. COLEMAN, Chairman, Committee on Salaries and Offices, Board of Aldermen:

My Dear Alderman—I understand that on Monday, the 19th instant, the action of the Board of Education and of the Board of Estimate in approving an advance of $500 in the salary of the Assistant Secretary of the Board of Education, Mr. Fred H. Johnson, comes before your Committee. I hope that I may be able to see you before the item is considered, but lest it should be impracticable, as I expect to be engaged in the trial of a case in court, I desire, with as much emphasis as I can, to urge you to report this matter favorably.

Mr. Johnson is now getting $3,500 a year. Since I have become President I have had the best opportunity that anyone possibly can have to know his work. Not by reason of special pleading, but as a matter of absolute fact, I attest that his services are worth far more than the amount asked for. He has been of invaluable service to me as President, and has without stint given up his time, day and night, including Sundays and other holidays, in devotion to the work of the Board of Education. He is loyal, intelligent and efficient in the highest degree. The work that has been put upon him entails expenses that he has not been able to be reimbursed for. I should personally and officially feel that a great error was done, an error not at all in accord with economy, if he should be denied this increase. Yours very truly,

T. W. CHURCHILL, President, Board of Education.

City of New York, Office of the President of the Borough of Manhattan, Municipal Building, January 5, 1914.

Hon. GEORGE McANENY, President, Board of Aldermen:

Dear Sir—I enclose herewith a resolution the purpose of which is to amend the resolution adopted by the Board of Aldermen on May 8, 1913, in which the Board of Estimate and Apportionment was requested to authorize the Comptroller to issue special revenue bonds for the operation of the Municipal Building. The only change made in the resolution is that under the amendment funds from this source may be available during the year 1914. The resolution as originally adopted made the revenue bond issue available for 1913 only.

This money is needed to provide for the operation of the elevators in the Municipal Building until such time as they are completed and we can appoint operators from the Civil Service list. Just at the present time the date of their completion seems to be rather indefinite, and we must continue their operation under the plan of monthly orders to the contractor. This is the only charge which will be made against this revenue bond issue and it will only continue until such time as we can put on our own men.

An allowance for elevator operation was included in our Budget for 1914. Charging to the revenue bond account, of course, will result in a saving of Budget funds except that operation by the contractor is somewhat more expensive than if we were permitted to place our own men on the job.

I beg to request that you place the matter before the Board at its first meeting as we desire to issue an order to the Wetherill Company for the month of January as soon as possible.

Very truly yours, NAT OLDS, Secretary to the President.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bartscherer, Bedell, Benninger, Boschen, Bosse, Burden, Burns, Chorosh, Cole, Curran, Delaney, Diemer, Donnelly, Dostal, Dotzler, Dowling, Duggan, Dujat, Eichhorn, Ferguson, Eagan, Esterbrook, Fink, Folks, Gaynor, Hamilton, Hannon, Hogan, Jacobson, Kenney, Kline, Kochendorfer, Levy, McGarry, Moore (Chas. Whereas, The public has been for many years inconvenienced by the long stairways between the 155th st. station of the elevated railway system and the Viaduct and 8th ave, the length of the stairways causing inconvenience and suffering to many persons, especially to those physically weak, and to women and children; and

Whereas, The subject of the installation of an escalator between 8th ave, the station and the Viaduct, has been under consideration by the Public Service Commission since 1908, without result to the present time; and

Whereas, The President of the Borough of Manhattan, in the year 1912, offered to provide, on the part of the Borough, one-half of the cost of installation of an escalator at the aforesaid point; and

Whereas, The Interborough Railway Company is now proposing to construct a new station, without the provision of an escalator; therefore, now be it

Resolved, That the Board of Aldermen of The City of New York, recognizing the public necessity for this means of relief of the great and increasing public inconvenience, urges upon the Public Service Commission for the First District, and upon the President of the Borough of Manhattan, the desirability of an early agreement upon the cost of an escalator, and an order upon the Railway Company to install same.

Coroner's Office, City of New York, Borough of Richmond, New Brighton, N. Y., January 16, 1914.

Hon. JOHN J. O'ROURKE, 72d Aldermanic District, New York City:

Dear Sir—The Coroner's Office of the Borough of Richmond respectfully asks your aid in presenting to your honorable body a resolution authorizing the purchase of an automobile for the use of this department.

No doubt you are well aware of the urgent need of this request, but for your further information I beg to submit the following facts:

As you know, there are sixty-eight square miles of territory that the Coroner must cover in the Borough of Richmond in the least possible time. A greater part of the territory is inaccessible by transit facilities, and after one o'clock at night all transit facilities to the inner parts of the island are practically shut down and the only means of satisfactory transportation expeditiously would be by an automobile.

We have on Staten Island many large manufactories, notably the Proctor & Gamble Soap Works employing 400 men, Milliken Brothers Iron Works employing 600 men, the Linoleumville Manufacturing Company employing 700 men, the S. S. White Dental Works employing about 600 men, the De Jonge Paper Mills, several shipbuilding companies, in all of which the work is more or less of a hazardous nature and serious accidents are frequently occurring. Many of these concerns are located in extreme parts of the island, and in case of accident the only prompt way for the Coroner to get to the scene is by aid of an automobile.

In the summer time Staten Island is a mecca for thousands of summer excursionists who visit our numerous bathing beaches and there are constantly occurring fatalities at these resorts. In drowning cases it is not very pleasant for bodies to lay on the beach to be gazed at by thousands of people awaiting the arrival of the Coroner. It has frequently happened, however, that bodies have lain several hours owing to the inability of the Coroner to arrive on the scene because of lack of traveling conditions.

In addition to this, Staten Island, owing to its location, is a receiving basin for drowned bodies from New Jersey, North River, East River and the Boroughs of Manhattan and Brooklyn, and during the course of a year the Coroner is called upon to care for quite a number of these unfortunates. Aside from these drowning cases which usually come from distant shores, within the borough proper the Coroner has some three hundred cases yearly to look after.

Still another duty incumbent upon the Coroner is the taking of antemortem statements of persons injured through accident, or assaulted, or whose condition is so dangerous as to warrant the Coroner interviewing them for the purpose of ascertaining whether there were any suspicious circumstances surrounding the cause of their injuries, or illness in an alleged poisoning case, all of which necessitates his traveling about the borough as quickly as possible to dwelling houses, hospitals and the public highways, as in most all cases the antemortem statement of an injured person is of the gravest importance in assisting the Coroner in his investigation and the jury in arriving at their verdict.

In view of the facts here presented, and your own personal knowledge of the conditions as they at present exist, I think you will agree with me that for the prompt and efficient conduct of the office of the Coroner in this borough an automobile is a necessity, and believing that this administration is desirous of doing business in an efficient manner, I feel certain that your honorable Board will lend its assistance toward making the Coroner's office of the Borough of Richmond up to date and businesslike by granting this request. Yours respectfully,

JAMES L. VAIL, Coroner.

Whereas, The Honorable Board of Aldermen at a regular meeting assembled on February 4, 1913, by unanimous vote passed a resolution recommending to the Honorable Board of Estimate and Apportionment that all Civil Service Inspectors supervising the construction of public improvements be placed on an annual salary schedule graded according to seniority in service, merit and fitness; and

Whereas, The heads of the following City Departments where these Inspectors are employed (to wit: Armory Board; Departments of Bridges, Education, Parks and Water Supply, Gas and Electricity; President, Borough of Manhattan; President, Borough of The Bronx; President, Borough of Brooklyn; President, Borough of Queens; President, Borough of Richmond), should request the Honorable Board of Estimate and Apportionment to substitute annual for per diem rates; and

Whereas, This and other inequities to these Inspectors have been called to the attention of the heads of the several Departments where they are employed, by the report of the former Commissioner of Accounts, dated October 20, 1904, on the subject of prevailing rate of wages in The City of New York, copy of which report is attached hereto and made part of this resolution, and notwithstanding the lapse of time, these matters have not been remedied by the heads of the Departments above mentioned, and the glaring discrimination against these Inspectors still continues, some being paid at an annual and others at a per diem rate of salary in spite of the fact that all are Civil Service employees; and

Whereas, No advantages of any nature are received by such per diem Inspectors other than their pay, and they are not paid for overtime work at the regular rate; and

Whereas, Such discrimination is against the best interests of The City of New York, as it breeds gross discontent among such Inspectors, because of the inequality and inadequacy of salaries, and the like; therefore, be it

Resolved, That the Board of Aldermen recommends to the heads of the following City Departments, to wit: Armory Board; Departments of Bridges, Education, Parks and Water Supply, Gas and Electricity; President, Borough of Manhattan; President, Borough of The Bronx; President, Borough of Brooklyn; President, Borough of Queens; President, Borough of Richmond; that the Civil Service Inspectors employed in said Departments supervising public improvements, be placed on a graded annual salary schedule according to seniority in service, merit and fitness, as per resolution of February 4, 1913, of this Board, and respectfully requests that immediate action favorable to this resolution be taken.

Office of the Commissioner of Accounts, 280 Broadway, New York, October 20, 1904.

Subject—The Prevailing Rate of Wages in The City of New York, for Certain Classes of Workmen and Mechanics.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—On the 5th day of the present month, your Honorable Board passed the following resolution:

"Resolved, That the Commissioners of Accounts, through the Mayor, be requested to make an examination, not only from the testimony of labor unions, but from official publications and direct investigations, and report to the Board the facts concerning the prevailing rate of wages for the different trades employed by the City; such information being necessary in the preparation of the budget."

This resolution did not reach us until October 10, and the limit of time allowed in which to make the investigation was manifestly too short to admit of covering the entire field of labor contemplated therein.

There were, however, forwarded to us with the copy of the resolution, certain papers which had been sent to the Board of Estimate and Apportionment, set-

ting up claims for an increase of wages as to several classes of the City's employees, the said claims being based upon the Labor Law of the State, under which the City must py all "Laborers, Workmen and Mechanics" employed by the corporation such rate of wages as prevails in the locality where they are engaged.

We, therefore, determined to confine our examination to the concrete cases presented to us, and while we cannot pretend to have settled the question conclusively, even as to the few classes of workmen considered, we may be able to render some assistance to your Honorable Board in arriving at a conclusion.

The papers considered, in one form or another, set up claims on behalf of the following classes of City employees: Steam Engineers, Inspectors of Masonry and Construction, Carpenters, Plumbers, Calkers and Tappers.

The Law in the Case.

The amendment to the "Labor Law" which pertains to the present inquiry, became effective on May 12, 1899, and reads in part as follows:

"The wages to be paid for a legal day's work as hereinbefore defined to all classes of such laborers, workmen or mechanics * * * shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality within the State where such public work on, about or in connection with which such labor is performed in its final or completed form, is to be situated, erected or used. * * *"

In a case which came before the Court of Appeals involving the principle of the prevailing rate of wages which is sought to be established by this statute, in so far as it applied to a contractor engaged in work for the City, the Court held that the Act was unconstitutional:

"Because it invades the rights of liberty, and property, in that it denies to the City and the contractor the right to agree with their employees upon the measure of their compensation, and compels them in all cases to pay an arbitrary and uniform rate of wage which is expressed in vague language difficult to define or ascertain, and subject to constant change from artificial causes."—166 N. Y. Reports, February, 1901; People ex rel. Rodgers vs. Bird S. Coler, Comptroller.

In a later decision, in the case of an employee of the City of New York suing for increased compensation, under the provisions of the same act, the Court of Appeals held that the "provision of the Labor Law as to prevailing rate of wages, so far as it relates to state or municipal employees, is constitutional."—177 N. Y., 271, January, 1904; Ryan vs. The City of New York.

In thus declaring, however, the Court did not withdraw or modify its former characterization of that clause in the Statute embodying the prevailing rate of wages, principle, as "expressed in vague language, difficult to define or ascertain."

In emphasizing the conclusion of the Court on this point, we do so only to show the difficulty we have labored under, in our endeavor to comply with the instructions of your Honorable Board.

Entirely apart from the statute law, however, with its language difficult of definition, we think it may be stated as an expression of opinion from which no official of the City Government will dissent, that the great City of New York does not desire to compensate any of its employees whether designated as "Laborers, Workmen or Mechanics," or by any other title, at a less rate than is paid by the most liberal employer within its broad domain, for the same or a similar service rendered.

There are some difficulties in the way of determining whether in any given case, a less rate is paid, for the reason that both as to City employees and those of private employers, different grades of ability or of occupation are recognized, in the same calling, demanding different rates of compensation, and these differences are not in all cases recognized by the rules of labor organizations.

To illustrate our meaning more clearly: five members of Eccentric Engineers' Association No. 2, appeared before us at a special hearing to consider the claim that all men employed by the City and designated as Engineers on the pay rolls, should receive the minimum wage of $4 per diem.

We have a record of the statements made and the questions asked and answered at this hearing taken stenographically.

The question of classification or grading of Engineers on the basis of the nature of the work they were called upon to perform was discussed and the following queries and replies show the position taken by the Committee:

Q. Do you gentlemen, in your association, distinguish or recognize any difference in the class or character of work that engineers perform?

A. No, sir. We can be changed from one place to another—it makes no difference where—if employed by the City, and the City says go to such and such a department, you go there or go out.

Q. Is it not true that a number of men employed by the City and classed as Engineers, who do not receive the amount of wages which you contend is the standard—are men employed—not in running an engine, but in operating a steam boiler merely?

A. I wish you could find that for me—I am looking for a snap of that kind myself.

Q. What we are trying to find out is whether you consider that there should be any difference in the wages of the different classes of "Engineers," or if it is your contention that when a man is classed as an engineer, no matter what sort of an engine he operates, or if, as in some cases we know of, he attends only to steam heating apparatus, he should receive the same wages—do you class them.

A. We do not class them—how can we class them?

Q. We merely asked if you did. One complaint made to the Board of Estimate and Apportionment is that the rate of wages paid is not uniform throughout the departments of the City. We have found in our investigation that such is apparently the case, and it is accounted for by the fact that the nature of the service performed varies. You do not recognize such differences, but they are recognized both by the heads of City departments and by private employers, and the grading is practically established by different rates of pay.

A. Engineers' work is Engineers' work and the law—the minimum for that work is $4 a day and that is what we want.

Q. Then you do not want a classification?

A. No, we do not want a classification. The trouble is this: the minute I get fifty cents more than any other man, then some other man is looking for my place. So long as we are receiving the prevailing rate of wages and every Engineer is getting the same, there is no discussion and no one is seeking somebody else's place.

Further along the question of locality where the service was performed came up for consideration, the Labor Law providing that such consideration should be had in determining the prevailing rate of wages.

It is manifest we think that the term "locality" is not a definite one and the Committee of Engineers were not entirely unwarranted in insisting that a proper interpretation would be to include the entire City of New York as one "locality."

And so it is, in a broad sense, but unfortunately for their contention there is another law more definite in its phraseology which we do not believe has been superseded or amended by the Labor Law, and this is found in the Charter of The City of New York.

A part of section 56 reads as follows:

"It shall be the duty of the board of aldermen, upon the recommendation of the board of estimate and apportionment, to fix the salary of every officer or person whose compensation is paid out of the City Treasury, other than day laborers * * * salaries need not be uniform throughout the several boroughs, but may, in the discretion of the board of estimate and apportionment, be made to consist of two elements; first, remuneration for work done, which shall be the same throughout all the boroughs for positions of like character; second, an additional sum based upon an estimate of the prevailing rentals and expenses of living in the borough where the services rendered are performed, and which may vary in the several boroughs."

The Committee of Engineers further furnished us with evidence, supplied by the State Labor Bureau, which shows the wages paid to 3,671 Steam Engineers in the first three months of the present year.

These tables show that of the entire number employed 2,112, or more than 57 per cent., were receiving a wage of $4 a day or more, while to the remainder the wages were variable, ranging from $3.75, $3.50, $3.25, $2.75 and on down to as low a rate as $2 a day.

The argument of the Committee was, that as the tables referred to showed so large a percentage receiving $4 a day or more, such sum should be considered "the prevailing rate of wages" for the entire City, and we submit it, as we agreed to do, for your consideration.

It is a fact, however, that the tables are made up by Boroughs, and that the 57 per cent. receiving $4 or more are employed mostly in Manhattan; only 220 of the 2,112 paid such wages are to be found in all the remaining Boroughs.

If it should be considered a sound argument it would seem, under the Labor Law, and the Charter, to be applicable, so far as the City is concerned, to Manhattan Borough alone.

By applying the same line of reasoning to the tables for the other Boroughs we would arrive at the conclusion that the "prevailing rate" was not more than $3.25 for Brooklyn, not more than $3 for Queens and Richmond, and exactly $2.50 for The Bronx Borough.

But we doubt the soundness of the argument, and are impressed with the fact that the wages rate depends upon the nature of the service rendered, and, to an extent, upon the immediate locality where it is performed. This is in apparent harmony with the requirements of the Charter, providing that those shall be the determining factors in fixing salaries, which, of course, is only another name for wages.

Our Method of Procedure.

We first drew from the City payrolls the names of every employee in the various Departments, of the classes to be investigated, where the claim has been made that the prevailing rate of wages was not paid.

Inspectors were then sent to those Departments with a formulated list of questions to be answered, eliciting information on the following points:

1. How many hours constitute a day's work, exclusive of the lunch hour?
2. Does Saturday until 12 m. constitute a full day's work?
3. When paid by the hour, are men paid at the regular rate only for the actual number of hours employed?
4. When paid at the daily, weekly or yearly rate of payment, are men paid for legal holidays; are they paid full time, including vacations and absences without leave, regardless of the number of days actually on duty?
5. Are men paid for overtime, and if so, at what rate?
6. Are men receiving compensation of any nature which might qualify or explain the lack of uniformity in the wage rate in the various Departments of the City, or does any circumstance explain the alleged difference between the rate paid by the City and that claimed as the prevailing rate?

In order to make a fair comparison between the wages paid by the City and those paid by private persons for the same class of labor information was sought from a number of private employers, both as to the nominal rate paid and as to the other compensations, if any, on the same line as that indicated in our inquiries of City Departments.

In making up our list of private employers to be interviewed it did not seem feasible to include more than ten or a dozen in the same line of trade, because of a lack of time, but in each case we divided the list between members of the Building Trades Employers' Association and independent or unorganized employers. In the case of the former, because it seemed proper to infer that they came into more immediate contact with organized labor, and in the case of the latter, because it was assumed that they represented more nearly an average of both organized and unorganized labor.

Results of the Investigation. "Inspectors of Masonry and Construction."

The officials of the following City Departments, where this class of mechanics is employed, were interviewed: Aqueduct Commission, Armory Board, Bridges, Education, Parks, President, Borough of Manhattan; President, Borough of The Bronx; President, Borough of Brooklyn; Rapid Transit Commission, Water Supply, Gas and Electricity.

The result of our questioning may be summed up as follows:

First—Eight hours constitutes a day's work.

Second—Saturday until 12 m. does not constitute a full day's work, Inspectors being paid only for the time actually employed, excepting only those employed by the Board of Education and the Rapid Transit Railroad Commission, who receive a full day's pay for Saturday, whether they work the full eight hours or not.

Third—Inspectors are paid only for the hours they actually work, excepting in the case of the Board of Education and the Rapid Transit Railroad Commission, where they are paid from the time they report for duty, whether employed or not.

Fourth—Inspectors are not paid for legal holidays, unless at work, except in the case of the Board of Education and the Rapid Transit Railroad Commission, where they are paid the same as if at work.

Fifth—Men are paid for overtime at the regular rate.

Sixth—No advantages of any nature are received by the Inspectors of Masonry and Construction other than their pay.

Certain employers of labor, both of those who are members of the "Building Trades Employers' Association," and others who are not affiliated with that organization, were visited, and a similar list of questions submitted.

We found that no such position as "Inspector of Masonry and Construction" is recognized by them; that, as a rule, the smaller builder or contractor does his own inspection as the work progresses, and that the larger contractors and builders have in their employ Foremen or Superintendents who make regular inspection of the condition of work in progress, and are paid a regular annual salary of several thousand dollars.

The contention that the duties of Foreman of Bricklayers are identical with those of Inspectors of Masonry is not borne out by the statements of parties referred to in the petition of the "Association of Inspectors of Masonry and Construction."

Mr. C. F. Bond, of 136 Liberty st., general contractor, who is reported as employing Foremen of Bricklayers at $6, has but one man employed at that rate; all others are paid $5.20 per diem. He informed our representative that their duties were not those of any inspector, but were to see that the bricklayers did not shirk their work or perform it in a slovenly manner.

The George A. Fuller Co., contractors, 945 Broadway; Holbrook, Cabot & Daly, 44 Union square; P. J. Brennan, 1931 Broadway, and Deisler & Stevenson, 1133 Broadway, report substantially the same as Mr. Bond.

Mr. John O'Connor, Chief Construction Inspector, in the Bureau of Buildings, Manhattan, informed our representative that the duties of an Inspector of Masonry are classed as higher than those of a Foreman Bricklayer, and more on a plane with those of a General Foreman or Superintendent for a contractor.

From the foregoing it will be seen that the position of "Inspector of Masonry and Construction" is not recognized by the building and contracting trade, and would seem to establish the fact that the "Association of Inspectors of Masonry and Construction of The City of New York" is an association of men formed within the several departments of the City Government, and has no affiliation with any outside society, nor is it represented by any similar body of organized labor.

13		Engineers on annual salaries ranging from $720 to $1,400.

The substance of the answers to our special inquiries at the several Departments may be summed up as follows:

First—Eight hours constitute a full day's work for per diem men, with the exception of the Engineers in employ of the National Guard, which latter are, generally speaking, on duty or subject to call, at all hours. From April 1 to September 30, their specific hours are from 9 a. m. to 4 p. m., 5 days in each week, and from 9 a. m. to 8 p. m. the two other days. From October 1 to March 31, the specific hours of duty of the Armory Engineers are from 8 a. m. to 11 p. m.; also the Brooklyn Disciplinary Training School, where ten hours constitute a day.

Saturdays after 12 o'clock, noon, and all other holidays are paid for in full, excepting in the case of per diem or per hour men, who are paid only for the time actually employed.

In the matter of compensation for working over time, no extra compensation is paid by the Department of Health, Public Charities, Bellevue and Allied Hospitals and Brooklyn Disciplinary Training School, the Departments of Fire, Bridge, Docks and Ferries, Parks, Water Supply, Gas and Electricity, the Borough Presidents of Manhattan, The Bronx, Brooklyn and Queens do pay for over time work, but only at the regular rates of compensation. In the Department of Correction, over time work is paid for at double the regular rates of pay.

In passing, we may say that it has come to our notice in examining the accounts of several of the departments, that as to Laborers, Workmen and Mechanics, other than those especially referred to in this report, the rule of paying for overtime work, in general force among private employers, at one and a half or double rates of pay, prevails therein to a greater or less extent.

Such practice seems to be prohibited by the Labor Law, which, on this subject, reads:

> Sec. 3. "This section does not prevent an agreement for overwork at an increased compensation except upon work by or for the State or a municipal corporation."

With the exception of some of the Engineers employed in some of the hospitals and institutions of correction, who are allowed compensation in addition to wages paid, namely, board and lodging, it is stated that no special advantage or extra remuneration is permitted. Generally speaking, those who are furnished with maintenance receive a wage of fifty cents a day less than others performing a like service who do not receive maintenance.

The Engineers in charge of steam heating plants who are paid $3.50 a day do not receive meals and lodging, while those receiving $3 a day, as a rule, do.

Special Mention.

In Ludlow Street Jail, under control of the New York County Sheriff, two "Engineers" are employed, one at $1,000 and one at $800 per annum.

Of these an official in the Sheriff's office says:

> "Carroll, the $1,000 man, is well satisfied with his pay; title of "Engineer" misleading, has charge of a small steam heating plant, never over 1¼ pounds pressure—not licensed—no Civil Service examination—gets meals. Through May, June, July and August duties nominal—no heat required except occasionally to dry the building."

The $800 Assistant Engineer is said to belong to a labor union. Complaints of being underpaid come from him.

Private Employers of Stationary Engineers.

Private employers of Steam Engineers have been interviewed on the same lines as were the heads of City departments to determine the prevailing rates of pay, with the following results:

Pile Driving Engineers.

Interviewed John Monks & Son, 82 Beaver st., and Henry Steers, 17 Battery place, engineering contractors, operating pile drivers. Our queries were thus answered:

Eight hours constitutes a day's labor; men do not have a half holiday on Saturdays; if men work on legal holidays or overtime they are paid double time or time and a half, according to the man's experience and the emergency of the work; the wages paid are $21 a week, and in exceptional cases $24, but the former is the prevailing rate.

Engineers of Hoisting Engines.

Inquiries of one Brooklyn and two Manhattan employers of Hoisting Engineers as to rates of pay, established $5 as the uniform rate for a day of eight hours, with work and pay for one-half day on Saturday.

Engineers in Charge of Steam Heating Plants.

Inquiries at several of the office buildings in Manhattan and Brooklyn, where steam heating plants are installed, to determine the wage rate of engineers engaged in operating their plants, established the fact that no uniform rate existed.

In Manhattan, the annual salaries of engineers at five buildings considered were as follows: $780, $840, $900, $960, $1,080, $1,200, $1,500, $2,000, $2,500. In one of the five, engineers were on weekly pay some at $18 and others at $27.50.

In Brooklyn, five representative office buildings were visited, showing annual salaries at $600, $720, $1,200, $2,000; weekly wages at $18, $20, $25, $35, and daily wages at $3, $3.50, $5 and $7.

Plumbers and Gas Fitters.

According to the payrolls of June 30 last, there were in the employ of the City a total of 32 Plumbers and Gas Fitters. These men were distributed in the different departments and bureaus, as shown below, the wages paid by the City being also shown:

Department of Parks.

Manhattan, 2 men at $4.50 per diem; Brooklyn and Queens, 4 men at $3.50 per diem; The Bronx, 2 men at $4.50 per diem.

Borough Presidents.

Manhattan, 1 man at $4 per diem; Queens, 2 men at $4.50 per diem.

Bellevue and Allied Hospitals.

Manhattan and The Bronx, 1 man at $840 per annum, 1 man at $600 per annum.

Department of Education.

Brooklyn, 1 man at $4.50 per diem; 1 man at $30 per week.

Police Department.

Manhattan, 3 men at $3.75 per diem.

Fire Department.

Manhattan, 1 man at $3.50 per diem; 2 men at $1,064 per annum.

Department of Water Supply, Gas and Electricity.

Brooklyn, 4 men at $4 per diem, 1 man at $3.50 per diem.

Department of Street Cleaning.

Manhattan, 3 men at 3.75 per diem; Brooklyn, 1 man at $3.75 per diem.

Department of Public Charities.

Brooklyn, 2 men at $3.50 per diem.

Our inquiries among nine private employers of plumbers and gas fitters shows substantially that the same wage rate obtains throughout the trade, and that it agrees with the claims made by the Plumbers and Gas Fitters Union (Local No. 1), namely, $4.50 per diem.

There are some advantages enjoyed by the Plumbers and Gas Fitters in the employ of certain departments of the City which might be said to approach an equalization with outside employers, whose wages on their face are higher. How far these advantages go towards equalization, we cannot precisely determine, but the facts learned are submitted for what they are worth.

The two Plumbers employed by Bellevue and Allied Hospitals are provided with their meals, and may be excused from duty for satisfactory reasons without losing their pay for the time lost.

In the Fire Department, the Plumbers employed may be excused from duty for good reason without losing pay.

In the Department of Street Cleaning, the Plumbers work only seven hours on Saturday instead of the legal eight-hour day, and receive pay for a full day.

Generally speaking, Plumbers as well as other mechanics employed by the City departments are not subjected so strictly to rules regarding time allowance as are those employed by private employers, and, on certain occasions, by resolution of the Board of Aldermen, they have been paid for legal holidays.

Concerning special advantages enjoyed by any class of City employees, which in greater or less degree affect a seeming disparity in compensation, as compared with wages paid to employees of private concerns, only those department officials who possess full knowledge of the subject can speak authoritatively.

Caulkers and Tappers.

The CITY RECORD, under date of June 30 last, shows that there were employed by the City at that time a total of 74 Caulkers and 7 Tappers.

The City departments evidently look upon these as distinct trades, although the men themselves are organized into a union known as the "Caulkers and Tappers Union," which, on behalf of its members, demands a uniform wage rate of $3.50 per diem. This would suggest that from the union point of view the term "Caulkers and Tappers" is a compound designation, somewhat similar to "Plumbers and Gas Fitters."

The distribution of Caulkers and Tappers in the several departments, together with the wages paid, is shown below:

Department of Water Supply, Gas and Electricity.

Manhattan, 40 Caulkers at $3 per diem, 1 Tapper at $1,320 per annum; 1 Tapper at $1,200 per annum.

Brooklyn, 24 Caulkers at $3 per diem, 3 Tappers at $1,200 per annum.

Queens, 3 Caulkers at $3 per diem, 1 Tapper at $3.50 per diem, 1 Tapper at $1,000 per annum.

Department of Street Cleaning.

Manhattan, 4 Caulkers at $3.50 per diem; Brooklyn, 1 Caulker at $3.50 per diem.

Fire Department.

Manhattan, 1 Caulker, at $988 per annum.

The several communications submitted to us by representatives of organized labor unite in alleging that $3.50 per diem is the prevailing rate of wages for "Caulkers and Tappers."

This claim has been partially investigated by us through inquiry among ten large contracting concerns in this City, who agree substantially as follows:

Since July 1, 1903, most of the "Caulkers and Tappers" employed by them have been receiving $3.50 per diem. At times, higher wages have been paid when the demand for men in this line was greater than usual. It seems to be accepted generally among the large employers, however, that $3.50 per diem is the "prevailing rate of wages" in this trade, using that expression in a broad sense.

Our previous comments as to special advantages accorded to City employees in the matter of pay when not actually engaged in work need not be reiterated as to "Caulkers and Tappers," for they are of general application.

Carpenters.

A table appended hereto, compiled from the CITY RECORD of July, 1904, enumerates with location of employment and rate of wages, a total of 204 Carpenters of various grades employed by The City of New York.

A summary of the tables shows: 51 at $4.50 per day; 102 at $4 per day; 10 at $3.60 per day; 10 at $3.50 per day; 5 at $3 per day; 1 at $1,500 per year; 2 at $1,350 per year; 2 at $1,064 per year; 12 at $1,050 per year; 2 at $936 per year; 3 at $900 per year; 1 at $720 per year; 2 at $600 per year; 1 at $420 per year. Total, 204.

Recapitulation.

147 Carpenters, 50 Ship Carpenters, 6 Rustic Carpenters, 1 Foreman Carpenter. Total, 204.

The standard minimum rate of wages for Carpenters, all classes, adopted by the United Brotherhood of Carpenters and Joiners of America, is $4.50 per day, and "no work shall be executed under any condition on Saturday between the hours of 12 o'clock noon and 5 p. m."

The heads of the City Departments where Carpenters are employed have been interviewed for the purpose of obtaining specific information bearing upon the rate of wages and have answered our queries substantially as follows:

Eight hours constitute a day's work, except in the Brooklyn Disciplinary Training School, where ten hours' labor is required.

Men employed by the week, month or year are paid full time for the Saturday half holiday and other holidays when authorized by the Board of Aldermen; in the Police and Fire Departments this privilege is extended to per diem employees, who are required to work but four hours on Saturdays though paid for eight, and in the Street Cleaning Department, where the Saturday hours of labor are seven.

In all Departments where the rate of pay is by the hour, only the time of actual employment is paid for.

In emergency cases men are paid for overtime at regular rates in the Department of Parks, Bureau of Highways for The Bronx, Brooklyn and Queens, Department of Docks and Ferries, Fire Department, Department of Water Supply, Gas and Electricity, Department of Street Cleaning and Aqueduct Commission, and at double rates in the Department of Bridges, Police Department, Department of Correction and Bureau of Highways, Borough of Manhattan. Overtime work is not paid for in the Department of Charities, Health Department and in the Brooklyn Disciplinary Training School.

Carpenters in the City employ are receiving no advantage which might be regarded as extra remuneration, except four in the Department of Charities, Brooklyn (Home for Aged and Infirm), who are allowed meals and lodging in addition to their annual salaries of $936.

A number of private employers of Carpenters were consulted to ascertain the rate of wages paid, with results as follows:

Ship Carpenters.

Eight hours constitute a day's work; men work a full day on Saturday; men are not paid for legal holidays unless they work; men are paid double time for overtime work; the per diem rate of pay is $3.50; there is no grading or sub-classification of Ship Carpenters.

Carpenters.

Those working for Building Trades Association employers, are paid $4.50 per day of 8 hours; Saturday for 4 hours, double pay for overtime, and no pay for holidays unless they work.

Those working for independent employers are paid from $3 to $3.50 per day of 8 hours; double time for overtime; for four hours on Saturday, and not paid for legal holidays.

Rustic Carpenters.

No such special designation is known to the trade at large.

In Conclusion.

We call the attention of your Honor to the wording of the resolution of the Board of Estimate and Apportionment calling for this examination, which suggests an inspection of "official publications" as an aim to securing facts relating to the subject. It has been found that such publications as we have had access to, covering a period so remote as to be of no practical assistance in determining the motted question, which adds force to the words used by the Court of Appeals in characterizing the law as an attempt to compel the payment of a rate wage difficult to ascertain and subject to constant change.

The State Labor Bureau collects data of undoubted value if it could be collated and distributed for use soon after it was obtained, but its latest publication is for the year 1902, and we learned early in our investigation that it would be of no use to us at the present time, as several changes in the rate of wages had since become effective. It is possible that if it is desired that we pursue the investigation some arrangement might be made with the State officials whereby we could obtain advance information, but even then it would of necessity be from six to eight months removed from the date when the data were in practical force and effect.

We further note that the resolution calls for information as to "the prevailing rate of wages for the different trades employed by the City."

As it is further explained that such information is necessary in preparing the budget which must be completed during the present month, we will be pleased to have definite instructions from your Honor, before detailing our examiners to other work, whether we shall continue the investigation on the present or any other line, or may consider that we have complied with the request contained in the resolution referred to, so far as was possible. Respectfully submitted,

JOHN C. HERTLE and WILLIAM HARMAN BLACK, Commissioners of Accounts.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

Part of the White Plains Road Rapid Transit Railroad.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter referred to as the "Commission") hereby invites proposals to construct Section No. 1 of Route 18, a part of the White Plains Road Rapid Transit Railroad

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 1. Beginning at a point in the Borough of The Bronx in the block bounded by West Farms road, Devoe avenue, East 180th street and Bronx street about eighty-five (85) feet east of the centre line of Bronx street, where a connection can be made with the tracks of the Interborough Rapid Transit Company's Storage Yard, and extending thence easterly and northeasterly over the Bronx River and private property in the said block, Devoe avenue, East 179th street, private property, Lebanon street and private property to a point in Bronx Park avenue between Lebanon street and East 180th street, curving thence northeasterly over Bronx Park avenue and private property to a point in East 180th street between Bronx Park avenue and Morris Park avenue; extending thence northeasterly and northerly over private property west of and alongside the tracks of the New York, Westchester and Boston Railroad and over Unionport road and private property to Birchall avenue; and extending thence northerly along Birchall avenue and White Plains road to a point in White Plains road about two hundred and eighty-five (285) feet north of the centre line of Burke avenue.

The general plan of construction calls for an elevated and surface railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

The contractor will not be required to provide or lay tracks or ties, nor to do station finish work except such station finish work as is specifically required to be done, as provided in the form of contract, and indicated in the drawings.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by the work or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and drawings; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter referred to as the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the Schedule of Unit Prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 9th day of February, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement, based upon estimate of the Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad—Route No.* 18, *Section No.* 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check for the sum of Fifteen Thousand Dollars ($15,000) payable to the order of the Comptroller of the City and drawn upon a National or State bank or trust company satisfactory to the Commission, having its principal office in The City of New York. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for One Hundred Thousand Dollars ($100,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted, until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of the City equal in market value to the amount withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such; if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

BY EDWARD E. MCCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. j19,f9

INVITATION TO CONTRACTORS.

Part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") hereby invites proposals to construct Section No. 2 of Route 16, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are brieffy as follows:

Section No. 2. Beginning at a point in Jerome avenue, in the Borough of The Bronx, about forty-five (45) feet north of the northerly building line of East 182d street and extending thence northerly along and over Jerome avenue to point near East 198th street; thence through property owned by the City to a point in Jerome avenue, near East 204th street; thence along and over Jerome avenue to a point near the southerly building line of Woodlawn road.

The general plan of construction calls for an elevated and surface railroad. The details of the construction of the Railroad and appurtenances are more particularly indicated on the contract drawings.

The Contractor will not be required to provide or lay any tracks or ties, nor to do station finish work except such station finish work as is specifically required to be done as provided in the form of contract.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the Railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by the work or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and drawings; must visit the location of the work and inform themselves of the conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between the City, acting by the Commission, and the Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit Prices in the Contractor's proposal. The Contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the Contractor will be made monthly, as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 16th day of February, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement, based upon estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent, as near as practicable, of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad—Route No.* 16, *Section No.* 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check for the sum of fifteen thousand dollars ($15,000), payable to the order of the Comptroller of the City, and drawn upon a national or state bank or trust company satisfactory to the Commission, having its principal office in The City of New York. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for one hundred thousand dollars ($100,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the Contractor's Proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of the City equal in market value to the amount withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, to the amount it shall pay any other con-

tractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
