The President laid before the Board the following communication from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, May 31, 1887.

To the Honorable the Board of Aldermen:

I have the honor to transmit herewith a copy of the reply of the Board of Health to the resolutions adopted by your Honorable Body in reference to the adulteration of food and liquors sold in this city. I have no doubt that the Health Department will act with energy in the execution of the laws and ordinances relating to the food supplies of the city, and any complaints which may be read to be active to the complaints which may be made to me will receive prompt attention.

ABRAM S. HEWITT, Mayor.

New York, May 31, 1887.

Hon. ABRAM S. HEWITT, Mayor:

Sir.—I have the honor to acknowledge your letter of May 28th, enclosing a copy of resolutions adopted by the Common Council, relative to the adulteration of food and liquors sold in this city.

The experience of this Department for many years has been that cases of hurtful adulteration of food and liquor are comparatively rare. The adulterations usually encountered are made in the interest of bulk and cheapness, and the materials used for this purpose are seldom in any other respect hurtful than that they are likely to be indigestible. In the case of liquors, even of imitation wines into which no grape juice enters, it has been found that if the alcohol is eliminated only the fruit syrups of the soda-fountain remain.

For many years the officers of this Department have discharged their duty in this matter vigor-

For many years the officers of this Department have discharged their duty in this matter vigorously and intelligently, and with marked benefits. It is difficult, if not impossible, to find on sale in New York a sample of confectionery with poisonous coloring or flavoring. There has also been a marked improvement in the character of the milk and meat supply of the city; and such adulterations as are known to exist are simply frauds on the purchaser. As frauds they do not come under our puties

our notice.

our notice.

The dangers with which our sense of duty prompt us to cope with most vigorously, are those arising from the sale of contaminated food. This we are doing as well as we are able, considering the insufficient means at our command. I hope in a few days to lay before your Honor a statement of the additions needed in the equipment of this Department, which will include additional milk and food inspectors and a chemist. Those we are now able to employ are faithfully discharging their duties and our records show very satisfactory results, in milk dealers prosecuted and convicted, immature and decayed meat seized and destroyed, decayed fruits and vegetables confiscated and sent to the dumps, etc. We have not thus far deemed it consistent with our duty to attack fraud unless attended with demonstrable danger to health.

I am of the opinion that the statements published by authority of the American Society for the Prevention of the Adulteration of Food, quoted in the resolutions of the Common Council, greatly exaggerate the facts, not as to the prevalence of adulteration, but as to the effect upon the public health of the kind of frauds perpetrated. I shall, however, do all in my power to protect the public health in this matter, and beg to answer you that the vigilance and energy of this Department shall be in no way relaxed.

Respectfully,

Respectfully, JAMES C. BAYLES, President Board of Health.

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

MAYOR'S OFFICE, NEW YORK, June 2, 1887.

To the Honorable the Board of Aldermen:

I return herewith, without my approval, a resolution granting permission to the People's Publishing Company, as proprietors of a daily newspaper known as the "Morning Ledger," to erect and maintain a bulletin-board on the outer edge of the sidewalk in front of No. 3 Park Row.

I am constrained to remind your Honorable Body that no power exists in the Common Council to grant permission to encumber the sidewalks with any structures whatever. If I were to sign this resolution it would be null and void. If your Honorable Body shall see fit to pass it over my veto it will be equally null and void. It will simply impose upon the Superintendent of Incumbrances an additional duty and upon the City the expense of removing the incumbrance. it will be equally null and void. It will simply impose upon the Superintendent of Incumbrances an additional duty and upon the City the expense of removing the incumbrance. I cannot too strongly urge upon your consideration the necessity of refraining from making these illegal grants, as they form the chief obstacle to the execution of the law in a reasonable way, whereby the sidewalks and streets may be kept clear of obstructions. I am aware that the law is violated in that respect in every part of the city and even by the most respectable merchants, publishers and associations. For example, an illegal bulletin-board is maintained in front of the Young Men's Christian Association in Twenty-third street. On the same street, in front of the Eden Musee, are unlawful and very objectionable obstructions. Wherever the citizen attempts to go in the streets he finds his progress impeded by unlawful impediments, which not only disfigure the city but interfere with every department of the City Government in the performance of its duties. I entreat the Common Council, therefore, to set an example of obedience to the law by refusing hereafter to grant privileges to violate the law. violate the law.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted May 24, 1887, giving permission to Antonio Poggi to keep a small portable stand in Park Row, near the starter's box at the terminus of the Third Avenue Railroad, for the reason that the proposed stand would be placed in the public street where traffic is very great, and would be an obstruction to public travel. The courts have decided that the Common Council has no power to authorize encumbrances in the public streets. The resolution is further objectionable inasmuch as it fails to state for what purpose this stend is to be used. public streets. The resethis stand is to be used.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises re-sponsible for the amount of water used or wasted.
