On motion, approved.

SMALL PARKS

In accordance with the resolution adopted on October 16, the following report of the Chief Engineer was presented, and on motion of the Comptroller, the matter was made a special order for the meeting of September 30.

REPORT No. 2347.

SEPTEMBER 20, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Board of Estimate and Apportionment having instructed me at its meeting held on the 16th inst. to prepare a statement showing the various park projects now pending before the Board, and the estimated cost in each case, I beg to submit the accompanying statement in which there is given, by boroughs, a list of the various projects which have been considered or laid upon the table which are now under consideration and for which resolutions have been received from the Local Boards, but have not yet been considered by the Board of Estimate and Apportionment. I have given in each case the acreage of the proposed new park, or addition to existing park, the assessed value of the property, together with a statement of the probable cost of acquiring same. This statement of cost is necessarily a guess in many instances. In those portions of the City which are well developed, and where there is a fixed standard of values, the assessed value of the property forms a very fair index of what would be the cost of acquisition. In other cases, however, notably that of the proposed Rockaway Beach Park, the present assessed value furnishes little if any guide to what would be the cost of securing the property. In this case the four hundred acres included in the proposed park is now assessed at \$70,000, while I have been informed by those who are familiar with the value of property in that vicinity that the cost would probably be \$1,000,000.

This statement has been hastily prepared in order that it may be laid before the Board at the meeting to be held on the 23d inst., when I understand that the financial side of the park problem will be considered. I am preparing a more extended statement dealing with the present area of parks in the different boroughs, their cost up to the present time, the amount of park lands with respect to population, etc., which I hope to present to the Board at the meeting to be held on the 30th inst.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

NEW YORK, NEW HAVEN AND HARTFORD RAILROAD IMPROVEMENTS.

The following petition was presented to the Board:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the New York, New Haven and Hartford Railroad Company, and of the Harlem River and Port Chester Railroad Company respectfully shows:

I. That the said the Harlem River and Port Chester Railroad Company is a railroad corporation duly organized and existing under and by virtue of the Laws of the State of New York, and more particularly under and by virtue of an act entitled "An Act to incorporate the Harlem River and Port Chester Railroad Company," being chapter 763 of the Laws of 1866, and the acts amendatory thereof, and is the owner of certain lands in the Borough of The Bronx, City of New York, and of a steam surface railroad thereon extending from the Harlem River in an easterly and northeasterly direction in and through the said Borough of The Bronx to the City of New Rochelle in the County of Westchester and State of New York, and that all of the said lands and railroads have heretofore been leased to and are now in the possession of and being operated by the petitioner the New York, New Haven and Hartford Railroad Company.

II. That the said the New York, New Haven and Hartford Railroad Company is a railroad corporation organized and existing under and by virtue of the Laws of the State of Connecticut, and is the owner or lessee of and now operates, under and by virtue of the Laws of said State and of the State of New York, a steam surface railroad from a connection with the New York and Harlem Railroad near Williams Bridge, in the City and County of New York, through the City of Mount Vernon, the Town of Pelham, the City of New Rochelle, and the towns of Mamaroneck, Harrison and Rye in Westchester County, to the boundary line between the States of New York and Connecticut, extending thence through the States of Connecticut, Rhode Island and Massachusetts, and terminating at the City of Boston, in said last named State. That the said the Harlem River and Port Chester Railroad connects with the said the New York, New Haven and Hartford Railroad at a point within the said City of New Rochelle, and that substantially all of the freight carried by the New York, New Haven and Hartford Railroad Company and shipped to the City of New York, or through the Cities of New York and Jersey City, in the State of New Jersey, to Western or Southern States, passes over the said the Harlem River and Port Chester Railroad, to its freight yards at the Harlem river. That the suburban passenger traffic upon the said the Harlem River and Port Chester Railroad and in connection with the elevated and other railroad lines of the Interborough Rapid Transit Company is very large and constantly increasing.

III. That for the corporate purposes of these petitioners, and pursuant to the powers conferred by their respective acts of incorporation and by the Laws of the State of New York, and in order to avoid accidents and to facilitate the use of the road, it is necessary to improve the entire line of the said the Harlem River and Port Chester Railroad, by laying four additional tracks, making six, in all, and by eliminating all grade crossings between the Harlem river and the junction with the New York, New Haven and Hartford Railroad, at New Rochelle. That the said proposed improvements and changes are shown upon a series of eighteen blue prints, submitted to this Honorable Board herewith, and numbered consecutively from one to eighteen, inclusive, each blue print being entitled "Plans Showing Proposed Six Tracking, Harlem River and Port Chester Railroad."

IV. That in order to lay the said four additional tracks and to eliminate all grade crossings, it is necessary and for the public interest that the grades of certain existing streets shown upon the map or plan of The City of New York within the Borough of The Bronx, be changed, and that a portion of Cypress avenue, a certain street in said borough, shown upon such map or plan, hereinafter more particularly described, be discontinued and closed.

V. Wherefore, your petitioners respectfully pray that your Honorable Board will pass such resolution, or resolutions, as may be necessary in order that:
