Correspondence, as follows, was presented on the question of additional facilities on the Second and Third avenue elevated lines:

CITY OF NEW YORK—OFFICE OF THE MAYOR,  
June 12, 1906.

The Rapid Transit Commission, City of New York:

GENTLEMEN—I transmit herewith for your consideration copy of a communication from the Corporation Counsel in reference to the question of a third track on the Third avenue elevated railroad structure.

Respectfully,  
(Signed) GEORGE B. McCLELLAN, Mayor.

June , 1906.

Hon. GEORGE B. McCLELLAN, Mayor:

SIR—I beg to acknowledge the receipt of your communication of January 22, 1906, referring to me for consideration letter of Mr. Lawrence Veiller, Secretary of the City Club, calling your attention to the action of the Interborough Railway Company in constructing on certain portions of the Third avenue elevated structure a third track, which he characterizes as an attempt to steal a franchise. His letter also states that an application for such a franchise was made to the Rapid Transit Commissioners May 31, 1905, and was by them thereafter denied.

On examination I find that an application was made to the Rapid Transit Commission, not merely for a third track on the Third avenue elevated line, but for additional stations and terminals and for many other extensions and modifications of the elevated railroad system. This application, however, was not denied, but its consideration was postponed; the resolution providing therefor stated that "the application of the Interborough Rapid Transit Company for additional facilities on its Second and Third avenue elevated lines, etc., be postponed until after the completion and the beginning of the operation of the Harlem river tunnel section of the Rapid Transit Railroad."

The Rapid Transit Commissioners were evidently desirous of observing how far certain transit difficulties would be solved by the use of the tunnel under the Harlem river before considering any further extension or modification of the elevated railroad system. Whether, however, the third track feature was objectionable to them cannot be determined from the resolution postponing action on the entire plan.

As the tunnel under the Harlem river has now been in use several months, perhaps the Rapid Transit Commission might be prepared to indicate its position with reference at least to the proposed third track, and the situation might thus be made more clear as to many phases of the case. If the Commission should determine that the proposed third track is a public necessity, negotiations might be begun at once to fix the terms for which the franchise would be granted, with a view to giving the traveling public the benefit of its early operation.

If consideration of this matter could be induced independently of the other parts of the application, the attitude of the Interborough Rapid Transit Company on this question would be at once made plain.

Counsel for the Company claims that it now owns a franchise for such a third track, and he bases his claim on a resolution of the Commissioners of Rapid Transit, dated September 2, 1875, fixing the route of the New York Elevated Railroad Company, which was one of the predecessors in title of the Interborough Company. The portion of this resolution upon which he relies is as follows:

"That in the construction of that section or portion of the railroad over and along so much of such route, of connections as extends from \* \* \* the intersection of William and Chatham streets, through Chatham street, the Bowery, Third avenue to East One Hundred and Twenty-ninth street, the structure shall be for three tracks."

The Interborough Company, as if to give color to this claim, embodied in its recent application a reservation that "this application is made without prejudice to existing rights to maintain and use the centre tracks as now constructed and use, etc."

I have considered the whole question involved with care and have reached the conclusion that it is extremely doubtful that either on the ground advanced by counsel for the company, or on any other ground, the New York Elevated Railroad Company, or its successor, ever had a franchise to operate a third track on this structure, or if it may be contended that it had, its franchise has been lost and forfeited, so that the Interborough Rapid Transit Company has no right whatever to operate a third track on the Third Avenue Elevated structure.

In this discussion it is not necessary to detail many considerations which lead to this conclusion. They will be advanced if the City is required to assert its rights in the courts, and if the company appears there without a franchise, it will be permanently enjoined from operating such third track.

The position therefore of the Interborough Company is such that it can only secure a franchise for the suggested third track by pursuing the procedure fixed in the statutes, and upon such terms as shall be deemed to compensate the City for the rights conceded. Of course, the railroad structure is in the possession of the Interborough Company, as successor to the New York Elevated Railroad Company, and a franchise for a third track, if granted at all, can be granted only to that company.

If I were aware of the attitude of the Rapid Transit Commissioners on the question of whether the third track was a public necessity, the course to be pursued by me would be clear.

If the Commission should determine that the convenience of the traveling public requires the third track and that a franchise should be granted therefor, any interference with the work of construction might only postpone the advantage of the additional facility to the public.

I would therefore suggest that the matter be called to the attention of the Rapid Transit Commission at its next meeting, when the Commission may be prepared to pass in some way upon this particular phase of the application now before it. Should the Rapid Transit Commission fail to approve, or should it disapprove the operation of the third track, I shall petition the Court to permanently enjoin the Interborough Rapid Transit Company from the construction or operation of such a line.

Respectfully yours,  
(Signed) JOHN J. DELANY, Corporation Counsel.

STATE OF NEW YORK—BOARD OF RAILWAY COMMISSIONERS,  
ALBANY, June 11, 1906.

ALEXANDER E. ORR, Esq., President, New York State Board of Rapid Transit Commissioners, No. 320 Broadway, New York City:

DEAR SIR—Inclosed herewith you will find recommendations of this Board, adopted on the 6th inst., in the matter of the complaint of the Property Owners' Association of the Twenty-third Ward, Borough of The Bronx, against the Interborough Rapid Transit Company.

Very truly yours,  
J. S. KENNEDY, Secretary.

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS,  
ROOM 5096, NO. 1 MADISON AVENUE, NEW YORK.

In the Matter  
of

The complaint of the Property Owners' Association of the Twenty-third Ward, Borough of The Bronx, against the Interborough Rapid Transit Company.

A complaint of the Property Owners' Association of the Twenty-third Ward, Borough of The Bronx, in reference to the congested condition of travel at certain hours at the One Hundred and Forty-ninth street station of the Third Avenue line of the Manhattan Railway, at which point transfers are given between the elevated and subway railroads, was made to this Board March 16, 1906.

The Board made a thorough investigation of the conditions mentioned in the complaint, and after a public hearing, at which the Interborough Rapid Transit Company and the residents of The Bronx were represented, made recommendations compliance with which would materially relieve the congestion at the One Hundred and Forty-ninth street station.

In addition to the recommendations made, the Board caused conferences to be held between representatives of the people of The Bronx and officials of the railroad company, as a result of which an agreement was reached for a rearrangement of trackage and changes in methods of operation which, if put in effect, would relieve the congestion at One Hundred and Forty-ninth street and materially add to the traffic facilities afforded the people of The Bronx.

The above agreement includes the third tracking of the Second and Third Avenue lines of the Manhattan Railway. This is a matter which is absolutely necessary in order to provide for the present and increasing traffic on these lines, and is one which has previously been recommended by this Board. The present facilities, both subway and elevated, to and from The Bronx during the rush hours, are overtaxed, and immediate relief for these conditions should be furnished.

This Board, recognizing the necessities, approve of the agreement reached at the conference above mentioned, and make the following recommendations, which were the basis of the conference agreement.

#### RECOMMENDATIONS.

1. That the Interborough Rapid Transit Company, operating the Manhattan Railway, extend the spur of the elevated structure now ending near the junction of Willis Avenue and One Hundred and Forty-fifth street, through Willis Avenue to Bergen Avenue to Westchester Avenue, there connecting with the tracks of the elevated extension of the subway system.

2. That a third track be placed on the Second and Third Avenue lines from the Harlem River as far south as practicable.

3. That additional track or tracks be constructed from One Hundred and Twenty-ninth street north to Bedford Park.

4. That when the above-mentioned tracks are constructed an express service shall be installed on the Second and Third Avenue lines which shall be operated during the entire day, a portion of which trains shall be run to and from West Farms.

The Board suggests to the Interborough Rapid Transit Company that it institute an express service, to be operated all day, between West Farms and the City Hall, via the Subway.

While this communication, with its findings, suggestions and recommendations, is primarily intended for the Interborough Rapid Transit Company, a copy is forwarded to the Board of Rapid Transit Commissioners, with the respectful suggestion that such action as is necessary to make these recommendations effective be taken by the Rapid Transit Commission.

For the Board,  
J. S. KENNEDY, Secretary.

No. 32 NASSAU STREET, NEW YORK,  
June 18, 1906.

ALEXANDER E. ORR, Esq., President, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—On the 13th inst. Mr. Burrows sent us by your direction a copy of the recent opinion of the Corporation Counsel in reference to the acts of the Interborough Rapid Transit Company in laying and operating a third track along a part of the Third Avenue Elevated Railway. The learned Corporation Counsel states that, in his opinion, "the Interborough Rapid Transit Company has no right whatever to operate a third track on the Third Avenue elevated structure."

On the 15th inst. Mr. Burrows wrote that you desired our opinion as to one point mentioned by the Corporation Counsel, which is thus stated by him:

"Counsel for the company claims that it now owns a franchise for such a third track, and he bases his claim on a resolution of the Commissioners of Rapid Transit, dated September 2, 1875, fixing the route of the New York Elevated Railroad Company,

which was one of the predecessors in title of the Interborough Company. The portion of this resolution upon which he relies is as follows:

"That in the construction of that section or portion of the railroad over and along so much of such route as extends from the intersection of William and Chatham streets, through Chatham street, the Bowery and Third Avenue to East One Hundred and Twenty-ninth street, the structure shall be for three tracks."

"The Interborough Company, as if to give color to this claim, embodied in its recent application a reservation that 'this application is made without prejudice to existing rights to maintain and use the centre tracks as now constructed and used, etc.'"

"I have considered the whole question involved with care, and have reached the conclusion that it is extremely doubtful that either on the ground advanced by counsel for the company, or on any other ground, the New York Elevated Railroad Company, or its successor, ever had a franchise to operate a third track on this structure, or if it may be contended that it had, its franchise has been lost and forfeited."

We have not been furnished with a complete record of the action taken by the Rapid Transit Commissioners of 1875, nor with any statement of the facts relative to the building of the Third Avenue elevated road; and without carefully examining the history of the enterprise, it would be impossible for us to speak with confidence as to the present rights of the Interborough Company. Such an examination will be laborious and time-consuming, so that it will be out of our power to advise you on the subject upon the 21st inst., as requested.

We think, however, that this need not affect the action of your Commission. In 1898 and again in 1905, your Commission had negotiations with the Manhattan Railway Company, or its lessee, relative to a third track on Third Avenue. It was never suggested in the course of these discussions that the company already possessed a complete right to build a third track. On the contrary, it was always assumed that a grant from your Commission was necessary. And the learned Corporation Counsel, after examining the subject for several weeks, has reached the same conclusion. Under these circumstances we think that until there is some judicial decision on the subject your Commission is bound to assume that the Corporation Counsel is right.

His suggestion is in effect this: If the Rapid Transit Board is likely at an early day to grant a right to lay and operate a third track; and if the Board of Estimate and Apportionment and the abutting property owners or the Court are likely to assent to such grant; then it is hardly worth while for him to begin a serious and difficult litigation. If on the other hand the Rapid Transit Board does not contemplate making such a grant, his course is clear and he will bring suit at once.

We think the suggestion of the Corporation Counsel that the Commission should now take up and dispose of the application of the Manhattan Elevated Railway Company one way or another, is not unreasonable.

Respectfully yours,

BOARDMAN, PLATT & SOLEY,

JOINT RAPID TRANSIT COMMITTEE OF THE BRONX CIVIC ASSOCIATIONS,  
THIRD AVENUE AND ONE HUNDRED AND FORTY-NINTH STREET,  
NEW YORK, June 18, 1906.

ALEXANDER E. ORR, President of the Board of Rapid Transit Commissioners:

DEAR SIR—The Joint Rapid Transit Committee of the Borough of The Bronx most respectfully asks you to accept the recommendations made by the State Railroad Commissioners regarding the third tracking of Second and Third Avenues, and extending the spur from Willis Avenue and One Hundred and Forty-fifth street to Westchester Avenue, and the running of express trains on said line; and to place same before the Board as a substitute for the application made by the railroad company for third tracking. Also to give us a hearing on said application as soon as possible.

Thanking you for your kindness and awaiting your early reply, I am,

Respectfully yours,  
(Signed) JULIUS H. HAAS,  
Secretary.

It was decided to give a hearing on the 28th of June, 1906, at 2 p. m., to all parties interested, on the application of the Interborough Rapid Transit Company, dated the 31st day of May, 1905, action on which was postponed at the meeting on June 1, 1905.

Letter of the New York Connecting Railroad Company was read as follows, and the President was authorized to request the Conference Committee of the Board of Estimate and Apportionment to meet with the Committee on Plans and Contracts at an early day, so that some decision could be had on the application of this company.

THE NEW YORK CONNECTING RAILROAD COMPANY,  
GENERAL OFFICE, BROAD STREET STATION,  
PHILADELPHIA, PA., June 14, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—I beg to acknowledge your letter of the 8th inst., relative to the franchise of the New York Connecting Railroad, now awaiting the action of the Rapid Transit Board, in which you advise me that, since the appointment of the Conference Committee of the Board of Estimate and Apportionment on March 23, and the announcement, on the same date, of your readiness to meet with such Committee, final action on the part of your Board had been deferred; adding that no such meeting or conference had as yet been proposed by the Committee of the Board of Estimate, and that the Mayor, at your session of the 7th inst., had stated that such Committee was waiting for certain information requested of me, in the absence of which it was unable to meet your conferees.

In response, I inclose herewith copies of the entire correspondence had on behalf of the Committee with Mr. McGowan and Assistant Engineer Nichols, from the date of the appointment of the Committee of the Board of Estimate to the present time. The information contained in these letters, which was given to the best of my ability, was, I judge from Mr. McGowan's statements, transmitted to the Committee as it was received. I have not been advised that it was insufficient. Nor have I at any time since its transmission been asked by anyone either to elaborate or in any way to supplement it.

Subsequent to this correspondence, Mayor McClellan requested an appointment with me at his office, which I kept with him two days later, on May 24, Mr. McGowan being present. The discussion at that time related solely to the question of the adequacy of the proposed payments to the City, Mr. McGowan stating that, while a few other details remained open, they were of minor consequence and might easily be adjusted if the views of his Committee as to compensation were met. Nothing was said with reference to further information of any sort desired from the company.

I referred myself to the fact that the files of your Commission would reveal a great deal of information in detail as to our plans for both construction and operation, accumulated during the three years since our application was made. A few days later, recalling an inquiry the Mayor had made at the interview as to the amount of compensation previously demanded by your Board, I sent him, under date of May 29, copies of the correspondence covering the negotiations bearing on that subject, down to the report of your Committee on Plans and Contracts.

I need scarcely add that, if further information from us is considered necessary, the company will very gladly furnish any such information within its ability to present. I earnestly hope, however, that, for the reasons set forth in my letter of the 5th inst., the final action of your Board in the matter will be promptly taken.

Yours truly,  
(Signed) SAMUEL REA, Vice-President.

The following resolution was moved:

Resolved, That the President of this Board, or in his absence the Vice-President, be and he hereby is authorized during the recesses of the Board in July, August and September, to make, in the name of the Board, appointments and promotions on and transfers to and from the staff of the Chief Engineer, to sign vouchers for payments by the Finance Department, and to contract for telephone service and office rental.

Ayes—The President, Vice-President, Comptroller, and Commissioners Langdon, Smith and Ledyard.  
Naye—None.

Application of the New York, New Haven and Hartford Railroad Company was presented as follows and referred to the Committee on Plans and Contracts:

GRAND CENTRAL STATION, NEW YORK CITY,  
June 5, 1906.

To the Honorable the Board of Rapid Transit Railroad Commissioners in and for The City of New York:

The New York, New Haven and Hartford Railroad Company, a steam surface railroad corporation, owning and actually operating a trunk line railroad, whose terminus is within The City of New York, hereby applies to the Board of Rapid Transit Railroad Commissioners, pursuant to the provisions of section 32 of chapter 47 of the Laws of 1891, and the various acts amendatory thereof and supplemental thereto, for the grant of a right or rights, franchise or franchises to construct and operate a railroad or railroads in The City of New York to connect such terminus with the railroad of the Harlem River and Port Chester Railroad Company, a steam surface railroad corporation owning a railroad partly within the said City and engaged in interstate commerce in connection with a trunk line railroad and which has a terminus in said City, and also to fix and determine the route or routes by which the said applicant railroad corporation may so establish and construct and so extend its lines into or within said City, and for authority to construct and operate such railroad or connecting railroad, under, over and across certain lands, waters, rivers, streets, avenues, highways, parkways and public places in said City, with all necessary sidings, platforms, stations and other appurtenances, and to transport passengers or freight, or both, over the same, and to run over the same either passenger trains, or freight trains, or mixed trains, and that the said Board shall fix and determine the locations and plans of construction of the railroad upon such route or routes, the times within which they shall be constructed, the compensation to be made therefor to The City of New York by the said applicant railroad corporation, and such other terms, conditions and requirements as to this Honorable Board may seem just and proper. The route or routes which this Honorable Board is hereby requested to fix and determine, and the extensions of the lines of your applicant and the other facilities for the acquisition of which the said The New York, New Haven, and Hartford Railroad Company hereby makes application, are shown upon a certain map and profiles submitted herewith to this Honorable Board and made a part hereof.

The extensions of the lines of your applicant's railroad within The City of New York, as proposed, will connect the present terminus of its railroad, at or near Woodlawn, in said City, with the railroad of The Harlem River and Port Chester Railroad Company at or near its West Farms Station, also in said City. The aforesaid railroad of The Harlem River and Port Chester Railroad Company is now actually operated by your applicant under a lease for a term of ninety-nine years.

Your applicant is a steam surface railroad corporation created by the General Assembly and existing under and by virtue of the laws of the State of Connecticut, and is duly authorized by chapter 195 of the Laws of 1846 of the State of New York to construct, maintain and operate a railroad within said State of New York, and further shows to this Honorable Board that it has arranged to obtain the money necessary for the construction and operation of the aforesaid extension of its lines within The City of New York, and that in the event of the granting of this application by this Honorable Board, it will make application for such additional consents as are necessary under the laws of the State of New York for such construction and operation, and your applicant agrees that within thirty days after securing such franchises and consents it will begin the construction of the extension of its said lines and will carry the same to a conclusion with all possible diligence.

Your applicant further shows to this Honorable Board that it is ready and willing to make reasonable compensation to The City of New York for the right, franchise and privilege to construct, maintain and operate its said railroad wherever the same shall be constructed and maintained in, upon, over or across any street, avenue, highway, parkway or public place, but respectfully submits that no charge based upon the transaction of its business as a common carrier engaged in interstate commerce should be imposed by the City as a part of the compensation for the franchise. That the extension of its lines as located and shown upon the aforesaid map and profiles will be constructed and operated upon a private right of way owned by your applicant and will not be constructed or operated in any street or public place in The City of New York, save where said railroad crosses the said streets, and that the said extension of your applicant's railroad has been so located as to avoid all grade crossings within The City of New York and to pass under or over all intersecting streets and highways, parkways and public places.

That the convenience and safety of the public will be greatly served by the granting of this application.

Your petitioner desires that the rights and franchises hereby applied for shall be perpetual, and that the rate of compensation therefor shall be subject to readjustment at intervals of twenty-five years, and prays that the same may be granted and the said route fixed and determined and a certificate issued therefor accordingly.

(Signed) THE NEW YORK, NEW HAVEN AND HARTFORD  
RAILROAD COMPANY,

[SEAL.] By C. S. MELLE, President.

Attest: (Signed) JOHN G. PARKER, Secretary.

Statement of Dr. Immanuel Pfeiffer, dated June 21, 1906, making certain suggestions as to operation of the subway, was read and a copy ordered transmitted to the Interborough Rapid Transit Company.

Letter of the Secretary of the Mayor, transmitting a letter of Roger Byrnes of Philadelphia, Pa., on a plan for ventilating the subway was presented, with a report of the Chief Engineer, and a copy of the Chief Engineer's report was ordered transmitted to Mr. Byrnes.

Further correspondence, as follows, on the entrance between the Wall street station and the Empire Building was presented, and in accordance with resolution of the 7th of June, 1906, the Chief Engineer was instructed to proceed to have closed the said entranceway:

Mr. BION L. BURROWS, Secretary, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York:

DEAR SIR—I beg to acknowledge receipt of your letter dated June 8, inclosing copy of resolution passed by the Board at its meeting on June 7, in regard to the entrance between the Wall street station and the Empire Building, of which I have taken due note.

I remain,

Yours truly,  
(Signed) AUGUST BELMONT, President.

THE O. B. POTTER TRUST,  
EMPIRE BUILDING, NOS. 69, 71 AND 73 BROADWAY,  
New York, June 21, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, City:

DEAR SIR—Referring to the communication received from your Board dated June 8, 1906, concerning the entrance between the Empire Building and the Wall street station of the subway, and inclosing a copy of a communication from the Interborough Rapid Transit Company and a copy of resolution adopted by the Board of Rapid Transit Railroad Commissioners on June 7, 1906, would say that we are obliged to protest against the latter part of said resolution, which reads: "leaving the vault space as it is now, a part of the said station," for the reasons stated in a letter to George W. Wickersham, Esq., counsel for the Interborough Rapid Transit Company, dated June 14, 1906, a copy of which is transmitted herewith. We most respectfully suggest a reference of this communication to your counsel before the portion of the resolution objected to is carried into effect.

Very truly yours,  
(Signed) FREDERICK POTTER,  
CLARENCE H. KELSEY,  
Trustees.  
By FREDERICK POTTER.

Communication, as follows, was presented, requesting reassignment of bond of E. P. Roberts, sub-contractor for foundations on section 15, with report of the Chief Engineer thereon:

NEW YORK, March 14, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—Mr. E. P. Roberts, the sub-contractor for foundations on section 15, has completed his work on that section, and we request that a reassignment of his bond be executed to the end that the bond may be canceled.

Yours very truly,

Attest: (Signed) ALBERT H. BUCK, Assistant Secretary.

NEW YORK, June 21, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—I am advised by counsel, Mr. G. L. Rives, that he is to present to the Board a request received from the Rapid Transit Subway Construction Company for the reassignment of the bond of Mr. E. P. Roberts, the subcontractor for foundations on Section 15, of the Manhattan-Bronx Railway. This is to report that Mr. Robert's work has been satisfactorily completed.

Very truly yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That this Board consents to the reassignment of the bond of E. P. Roberts, as subcontractor, pursuant to the request of the Rapid Transit Subway Construction Company and others, dated March 14, 1906, notwithstanding the fact that said consent is not signed by the City Trust, Safe Deposit and Surety Company of Philadelphia, said company having been dissolved.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.

Carried.

The following letter was read:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,  
No. 23 NASSAU STREET, NEW YORK CITY,  
June 14, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners,  
No. 320 Broadway, New York City:

DEAR SIR—I have just been advised that the City Trust, Safe Deposit and Surety Company of Philadelphia, a surety on the bond given by John B. McDonald, a contractor with other sureties in the penal sum of \$5,000,000, to secure the performance of the contract for the construction and equipment of the rapid transit railroad, has been dissolved by a decree of the Court of Common Pleas, No. 5, of the County of Philadelphia, State of Pennsylvania, entered June 24, 1906, and that prior to such dissolution the said company reinsured all of its risks with the Empire State Surety Company of New York. I enclose a copy of the circulars transmitting this information issued by the Receiver of the City Trust, Safe Deposit and Surety Company. I have, therefore, to request that your Board will pass the appropriate resolution authorizing the substitution of the Empire State Surety Company of New York, in lieu of the City Trust, Safe Deposit and Surety Company of Philadelphia as surety to the extent of \$250,000 on the said construction bond.

I remain,

Yours truly,  
(Signed) AUGUST BELMONT, President.

The following resolution was moved:

Resolved, That this Board hereby consents to and authorizes the substitution of the Empire State Surety Company of New York in lieu of the City Trust, Safe Deposit and Surety Company of Philadelphia, as surety to the extent of two hundred and fifty thousand dollars (\$250,000), upon the bond given by John B. McDonald, as contractor, in the penal sum of five million dollars (\$5,000,000), to secure the performance of the contract for the construction and equipment of the Rapid Transit Railroad, which contract bears date the 21st day of February, 1900.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.

Carried.

Truly yours,  
 (Signed) BOARDMAN, PLATT & SOLEY.  
 G. L. RIVES.

Mr. Boardman called attention to the fact that serious opposition had been encountered before the Commissioners appointed to hear and determine as to whether Route No. 9 should be laid out, and that it seemed necessary for the City to employ experts to testify before the Commission.

The following resolution was thereupon moved:

Resolved, That the President of this Board be and he hereby is authorized to employ two experts to testify for the City in the proceeding before the commissioners appointed by the Appellate Division to hear and determine as to Route No. 9.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith and Ledyard.

Nays—None.

Carried.

Mr. Boardman reported that Martin W. Littleton, attorney for certain property owners in opposition to the proposed Third avenue additional transit route, had requested an adjournment of the motion to confirm the report on that route in the Appellate Division, First Department. It was decided not to grant the request for postponement.

Counsel presented bills for advertising notices of application for the appointment of commissioners to hear and determine as to the White Plains route and the Jerome avenue route, amounting to \$5,545.75, which bills were ordered approved.

Letter of the New York Central and Hudson River Railroad Company was read as follows, with report of counsel thereon:

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,  
 GRAND CENTRAL STATION,  
 NEW YORK, June 11, 1906.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Commissioners of The City of New York, No. 320 Broadway, New York City:

DEAR SIR—Chapter 109 of the Laws of 1906, entitled "An Act to terminate the use of streets, avenues and public places in The City of New York, in the Borough of Manhattan, by railroads operated by steam locomotive power at grade," became a law March 26, 1906.

While much of the language of this statute is general in form, it was drawn, introduced and passed for the specific purpose of causing the tracks of this company south of Fifty-ninth street, in Eleventh and Tenth avenues and other streets, to be placed in a subway. With the general purpose of the bill as expressed in its title this company is in hearty accord, as evidenced by the fact that it has been making agreements with The City of New York for several years last past having for their purpose the elimination of the use of streets and avenues at grade, and has expended, and is now expending, large sums of money in carrying out these agreements.

This company, however, felt it to be its duty to oppose the enactment into law of the bill as introduced, and it appeared, by its general counsel, before the committees of the Legislature, the Mayor and the Governor, giving its reasons for such opposition.

In brief, it opposed the passage of the bill in the form in which it has become a law, on the grounds that many of its provisions were of at least doubtful validity; and that the one remedy proposed is, for operating and traffic reasons, not practicable, or, if not wholly impracticable, would result in great injury to the railroad company and its shippers who have located upon its line. It was contended by the railroad company that if either the one remedy to which, under the bill which has become a statute, your consideration must be directed is not practicable, or if the bill or any of its material provisions is invalid, the statute would necessarily be ineffectual, and that the object sought could not be attained under it. That this would be the result if the remedy is impracticable is apparent; and it would be none the less true if the statute is not a valid law, for the City, on the one hand, could not enter into a binding contract under such a statute, and on the other hand the railroad company could not enter into such a contract, under which the expenditure of large sums of money must necessarily be involved. For these reasons the acceptance of a bill which would be free from these objections was urged on behalf of this company.

That there was force in these contentions, or some of them, was practically admitted by many of those who had occasion to act officially upon the bill. The Chairman of the Committee on Affairs of Cities in the Senate, in reporting the bill, said:

"This bill was framed to meet a public emergency. But it is a very radical bill. On account of its drastic terms I fear it will lead to endless litigation. This will delay the improvement that is so much needed. Also I believe that in passing this bill we are establishing a dangerous precedent—that the Legislature should arbitrarily determine how a great piece of engineering work must be done. We have not sufficient competent engineering knowledge to be able to determine such a purely technical question. However, it seemed to be impossible to amend the bill, and I shall not oppose it."

The Mayor of The City of New York in accepting the bill filed a memorandum, of which the following is a copy:

"Memorandum to accompany Assembly bill No. 236, Int. 236, entitled: 'An act to terminate the use of streets, avenues and public places in The City of New York, in the Borough of Manhattan, by railroads operated by steam locomotive power at grade.'"

"There is no question in my mind that some legislation is desirable in order to terminate the use of the public streets by steam railroads operating at grade in the Borough of Manhattan. While many of the provisions of the proposed bill are open to criticism, and while there are some doubts as to whether its enactment will accomplish the object which is sought, I consider that it is a step in the right direction, and therefore have no hesitation in accepting it on behalf of The City of New York."

"It has been suggested that in case the bill proves to be defective in certain provisions it will be possible to seek relief next year from the Legislature and have the act amended so that it may finally prove to be effective. I see no reason, however, why the proponents of the bill should wait a year before attempting to correct such defects as the bill may contain. It seems to me that it would be more advisable, after a careful consideration of the objections that have been urged against the bill, to propose amendments and present them to the present Legislature, in order that the City may obtain without delay a statute of sounder constitutionality and more certain effectiveness."

A few days after the bill became a law we learned through the newspapers that it had been called to the attention of your Board by its counsel, Mr. George L. Rives. Thereupon the general counsel of this company, Mr. Ira A. Place, called upon Mr. Rives and stated to him that, notwithstanding the objections to the form of the bill, the attitude of the company and of its officers would be to at all times facilitate the work of your Board in carrying out the duties imposed upon it by this act.

Since that time I understand that the Chief Engineer of your Board, Mr. George S. Rice, has had a conference with Mr. William J. Wilgus, our vice-president, on the subject, and has asked for certain information which has been furnished, and that Mr. Rice and Mr. Wilgus have each appointed a representative to confer in regard to details.

What, if any, progress has been made under the statute in question, except as outlined above, I am not advised, and I am writing this letter to assure you officially of the position of the company in the matter, and to confirm the statement of Mr. Place in regard thereto. It is a matter of much importance, not only to the company but to the City and to its transportation interests, and the company desires that nothing shall be left undone which its officers can do to facilitate the right solution of all the questions involved. As indicated in the interview with Mr. Rives, heretofore mentioned, the company does not waive any of its rights, and particularly it does not waive its rights to at any time question the validity of the statute or of any act done or sought to be done under it. The statute undoubtedly imposes upon your Board the duty of making such investigation of the situation as will enable it to determine what ought to be done, and if it is then found that additional legislation is required such legislation can be intelligently considered.

Assuring you that we stand ready to co-operate with your Board in its investigation, I am,

Yours respectfully,  
 (Signed) W. H. NEWMAN, President.

June 14, 1906.

BION L. BURROWS, Esq., Secretary, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—I am in receipt of your letter of the 13th inst. enclosing a copy of a letter from Mr. Newman to Mr. Orr, dated 11th inst., with respect to the operation of chapter 109 of the Laws of 1906.

As stated, I had an interview with Mr. Place, the General Counsel for the Company, about the 1st of May, in which we discussed the duties imposed upon the Rapid Transit Board by chapter 109 of the Laws of 1906. I stated that I thought the first thing to be done was to have the physical conditions examined and to have plans prepared by the Engineers of the Board for putting the tracks underground, as required by the language of the act, and that I thought the Company ought to facilitate Mr. Rice and his assistants in this matter. Mr. Place very readily agreed that everything in this regard should be done, and I believe it has been.

Until some definite report comes from the Engineers in reference to a plan for subsurface tracks I do not know that there is anything for counsel to do.

Faithfully yours,  
 (Signed) G. L. RIVES.

The Chief Engineer stated that he had already submitted, informally, to the engineer of that company plan for the construction of the subway, as required by the statute.

Letter of the Secretary of the Board of Estimate and Apportionment, enclosing certified copy of resolution of the Board of Estimate and Apportionment and approval of the Mayor to the additional rapid transit route known as the Southern Boulevard and Westchester Avenue Amended Route, was presented, as follows:

BOARD OF ESTIMATE AND APPORTIONMENT,  
 OFFICE OF THE SECRETARY, ROOM 79, NO. 280 BROADWAY,  
 June 18, 1906.

To the Honorable the Board of Rapid Transit Railroad Commissioners, New York City:

GENTLEMEN—I transmit herewith certified copy of resolutions adopted by the Board of Estimate and Apportionment June 8, 1906, and approved by the Mayor June 14, 1906, approving of the plans and conclusions of your Honorable Board and consenting to the construction of a railway or railways in accordance therewith, and known as the "Southern Boulevard and Westchester Avenue Amended Route."

Respectfully,  
 (Signed) JOSEPH HAAG, Secretary.

Whereas, The Board of Rapid Transit Railroad Commissioners did, pursuant to law, duly determine and establish a route and general plan of construction of an additional rapid transit railway June 1, 1905, being more particularly described as "Southern Boulevard and Westchester Avenue Route," and transmitted to the Board of Estimate and Apportionment certified copies of same; and

Whereas The said route and general plan were duly approved and consented to by the Board of Estimate and Apportionment on the 14th day of July, 1905, and by the Mayor on the 28th day of July, 1905; and

Whereas, The Board of Rapid Transit Railroad Commissioners did, by resolution adopted May 17, 1906, revoke the said route and general plan as set forth in resolutions of said Board adopted June 1, 1905; and

Whereas, The Board of Rapid Transit Railroad Commissioners of The City of New York, pursuant to the provisions of chapter 4 of the Laws of 1891 and acts amendatory thereof, has duly determined upon a route, or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in said City in addition to the already existing lines, and did, by resolution of May 17, 1906, adopt such route or routes and general plan, being more particularly described as "Southern Boulevard and Westchester Avenue Amended Route"; and

Whereas, Thereafter said Board of Rapid Transit Railroad Commissioners did transmit to the Board of Estimate and Apportionment of The City of New York a copy of the plans and conclusions for said amended route or routes, as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 1st day of June, 1906, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by resolution duly adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions, to wit, the 8th day of June, 1906, at 10.30 o'clock a. m., and has proceeded with such consideration; and

Whereas, The plans and conclusions are duly set forth in the resolutions of said Board of Rapid Transit Railroad Commissioners, adopted May 17, 1906, and which resolutions are as follows:

[Southern Boulevard and Westchester Avenue Amended Route Resolutions.]

Now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 8, 1906.

(Signed) JOSEPH HAAG, Secretary.

The foregoing resolution is hereby approved.

(Signed) GEO. B. McCLELLAN, Mayor.

Dated New York, June 14, 1906.

I hereby certify that the foregoing is a true copy of the original consent of The City of New York, as filed in this office.

(Signed) JOSEPH HAAG, Secretary.

The Secretary reported that the President had signed and transmitted to the Board of Estimate and Apportionment, as authorized at the meeting of the 7th of June, communication as follows, transmitting routes and plans of the so-called Bensonhurst, Bath Beach and Coney Island route:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
 NO. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized, pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquiries and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and after such inquiries, and investigations it did duly determine, by resolutions adopted on the 22d day of March, 1906, by the concurrent vote of six of its members, that a certain rapid transit railway in said resolu-

tions described, was necessary for the interest of the public and the City, and it duly determined and established the route thereof and the general plan of construction; and it transmitted to your Board certified copies of the route and general plan so determined and established.

The said route was situated wholly within the Borough of Brooklyn, and began at a point in Fourth avenue, at which connections (without grade crossings) could conveniently be made with the projected subway running under Fourth avenue from Flatbush avenue to Fort Hamilton. From thence the said route ran under Fortieth street and New Utrecht avenue to Eighty-sixth street, then through Eighty-sixth street to a point between Twenty-third and Twenty-fourth avenues, where it emerged from the ground and became an elevated railway, and continued thence over Eighty-sixth street and Stillwell avenue to Coney Island.

The said route and general plan were transmitted to your Board on the 22d day of March, 1906, for its approval.

Your Board not being satisfied in regard to the terminal of the route at Coney Island, committees of conference were appointed, and the result of their discussions was to provide for a loop at Surf avenue instead of a stub end, as originally contemplated. In accordance with this conclusion the Board of Rapid Transit Railroad Commissioners has rescinded the route and general plan adopted as aforesaid on the 22d day of March, 1906, and adopted a new resolution by the concurrent vote of six of its members, determining that the railway therein described is necessary for the interest of the public and the City, and determining and establishing the route thereof and the general plan of construction. Certified copies of the resolution adopting the new, or amended, route and general plan so determined and established are herewith transmitted.

The route so established is identical with the route as submitted to your Board as aforesaid on the 22d day of March, 1906, except for the provisions relative to a loop at Coney Island. The reasons which have actuated this Board in adopting said route are sufficiently set forth in the communication heretofore transmitted.

The approval and consent of your Board to the amended route and general plan now transmitted is therefore requested.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 7th day of June, 1906.

(Signed) A. E. ORR, President.

(Signed) BION L. BURROWS, Secretary.

Letter of the Secretary of the Board of Estimate and Apportionment, enclosing certified copy of resolution of the Board of Estimate and Apportionment and approval of the Mayor to the additional rapid transit route known as the Bensonhurst, Bath Beach and Coney Island Revised Route, was presented as follows:

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE SECRETARY, ROOM 79, NO. 280 BROADWAY,  
June 20, 1906.

To the Honorable the Board of Rapid Transit Railroad Commissioners, New York City:

GENTLEMEN—I transmit herewith certified copy of resolutions adopted by the Board of Estimate and Apportionment, June 15, 1906, and approved by the Mayor June 18, 1906, approving of the plans and conclusions of the Board of Rapid Transit Railroad Commissioners, consenting to the construction of a railway or railways in accordance therewith, and known as the "Bensonhurst, Bath Beach and Coney Island Revised Route."

Respectfully,  
(Signed) JOSEPH HAAG, Secretary.

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York, constituted pursuant to the provisions of chapter 40 of the Laws of 1891, and the acts amendatory thereof, has duly determined upon a route or routes and general plan of construction of a rapid transit railway, for the conveyance of persons and property, to be established in said City, in addition to the already existing lines, and did, by resolution of June 7, 1906, adopt such route or routes and general plan, being more particularly described as "Bensonhurst, Bath Beach and Coney Island Revised Route"; and

Whereas, Thereafter said Board of Rapid Transit Railroad Commissioners did transmit to the Board of Estimate and Apportionment of The City of New York a copy of the plans and conclusions for said route or routes as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 8th day of June, 1906, at a meeting of said Board of Estimate and Apportionment, duly held on such day; and

Whereas, Said Board of Estimate and Apportionment, by resolution duly adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions, to wit, the 15th day of June, 1906, at 10.30 o'clock a. m.; and has proceeded with such consideration; and

Whereas, The plans and conclusions are duly set forth in the resolutions of said Board of Rapid Transit Railroad Commissioners, adopted June 7, 1906, and which resolutions are as follows:

Now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 15, 1906.

(Signed) JOSEPH HAAG, Secretary.

The foregoing resolution is hereby approved.

(Signed) GEO. B. McCLELLAN, Mayor.

Dated New York, June 18, 1906.

I hereby certify that the foregoing is a true copy of the original consent of The City of New York, as filed in this office.

Report of the Chief Engineer on request of the New York and Jersey Railroad Company, dated the 21st of May, was presented as follows, and the following resolution was moved:

June 18, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—The New York and Jersey Railroad Company has submitted plans for the construction of sewers in connection with its Sixth avenue extension. These plans have been approved by the President of the Borough, the officers of the Sewer Department and the Commissioner of Public Works.

The plans are satisfactory to me, with the exception that at the stations the sewers encroach unnecessarily upon the vault space outside the stations, and I should consider it an advantage if the sewers had been placed in all such instances close to the station walls, thereby saving vault space as well as excavation work. This undoubtedly will appeal to the company itself.

The company also asks the Board's approval of the specifications and contract for the reconstruction of sewers in West Eighteenth street, which, after examination, I have found to be satisfactory. I find that the construction of this sewer is also subject to the specifications of the Bureau of Sewers, Borough of Manhattan, and to the approval of the Chief Engineer. This work is, therefore, abundantly protected to insure first class material and workmanship.

Very truly yours,  
(Signed) GEORGE S. RICE,  
Chief Engineer.

Whereas, The New York and New Jersey Railroad Company, by communication dated the 21st of May, 1906, submitted plans for the reconstruction of sewers affected by the Sixth avenue extension of that company, which is being constructed in accordance with certificate of this Board dated February 2, 1905, said plans being numbered 2179 A to H inclusive and 2179 J to S inclusive, and requested the approval of such plans and also the approval of specifications and contract for the reconstruction of sewers in West Eighteenth street, also transmitted therewith;

Whereas, The Chief Engineer of this Board in his report dated the 18th of June, 1906, approves said plans and the said contract and specifications, suggesting, however, the advantage of placing the said sewers close to the station walls, thereby saving vault space as well as excavation work;

Resolved, That this Board hereby approves the plans of the New York and Jersey Railroad Company, Nos. 2179 A to H inclusive and 2179 J to S inclusive, also specifications and contract for the reconstruction of sewers in West Eighteenth street, on the understanding, however, that the said company will place said sewers as recommended by the Chief Engineer.

Ayes—The President, the Vice-President, the Comptroller and Commissioners Langdon and Smith.

Nays—None.

Report of the Chief Engineer was presented as follows:

June 14, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—Last Sunday afternoon a slip of ground occurred at the face in the south heading of the Brooklyn tunnel, which allowed sufficient water to enter to cause a flood, and which was accompanied by a slight blow-out.

The recent advance of the shield in this particular heading has been slow owing to the rock encountered in the bottom of the excavation. The immediate cause of the slip was the shock due to the blasting of the rock. The water has now been pumped out, the air pressure restored and but a slight delay to the work will be occasioned by this accident.

Very truly yours,  
(Signed) GEORGE S. RICE,  
Chief Engineer.

Report of the Chief Engineer was presented as follows:

June 20, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—A letter to you from Strauss & Charig, owners of premises at the northwest corner of Fulton and Bridge streets in Brooklyn, dated May 24, has been referred to me.

According to an agreement dated June 15, 1905, between the Board, the Rapid Transit Subway Construction Company and Strauss & Charig, Strauss & Charig are to have show-windows facing the station platform and an entrance to their premises in return for an easement and right of way for the construction, maintenance and operation of a stairway through a part of the building. Certain parts of the work at or near this building are to be done by its owners and part by the Subway Construction Company in connection with the Hoyt street station. The time for executing the work is stipulated in the agreement to be between May 1 and October 1, 1906.

There has been some friction between the contractor for Strauss & Charig and the Subway Construction Company's sub-contractor as to the proper distribution of the work. I met the parties on the ground yesterday and their differences are now being adjusted, and I have no doubt that hereafter they will work harmoniously together.

Very truly yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer was presented as follows:

June 21, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—This is to report that on Thursday, June 14, the draw span of the old Harlem Ship Canal Bridge was moved from its position and taken to Two Hundred and Seventh street, where it was set in place as a part of the new Two Hundred and Seventh Street Bridge, the draw being turned by steam from its own boiler the night of the same day. On Saturday, June 16, the new draw span erected by the sub-contractors at the foot of Two Hundred and Fifteenth street was put in place at the Ship Canal Bridge, and one roadway of the bridge opened for traffic at 5:35 a. m., June 17.

Very truly yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer was presented as follows and a copy ordered transmitted to the Comptroller:

NEW YORK, June 21, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—At the meeting of the Board on June 7 the Deputy Comptroller stated that he and the Comptroller were of the opinion that possibly an overhead trolley wire, independent power, would be valuable in case of fire or other emergency in the subway as furnishing independent means for moving cars, and I understood that I was required to make a report on this matter.

After a thorough investigation of the subject, I have come to the conclusion that an instalment of an overhead trolley wire, with independent power, would not be desirable in the subway for the following reasons:

An overhead trolley wire would constitute an additional danger in case of fire; as it would be liable to become short-circuited, and be more dangerous than the third rail on account of its position and liability to fall down through the destruction of its support. In case of fire the first step to be taken is to immediately turn off all power in that portion of the subway where it occurs, and necessarily this would apply to a trolley wire as well as to a third rail.

An improvement in the present system of furnishing power by the third rail in case of fire would be to subdivide the sections by additional switches, so that after a fire has been located the power could be turned on in all sections not affected, and the cars could continue running on all the tracks and in all sections except that portion immediately affected by such fire. This could be taken care of by the proper switching arrangement in connection with the third rail as easily as by an addition of an overhead trolley wire.

Very truly yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

Letter addressed to the Vice-President of the Board was presented as follows, with report thereon of the Chief Engineer. It was understood that the matter would be transmitted to counsel for opinion.

THE WEST END ASSOCIATION,  
No. 607 WEST END AVENUE,  
NEW YORK, June 7, 1906.

Mr. JOHN H. STARIN, Pier 18, North River, New York City:

MY DEAR MR. STARIN—In reference to the conversation I had with you the other day about the curbing around the little parks in the centre of Broadway, between Sixtieth and One Hundred and Twenty-second streets, I would call your attention particularly to those at Eighty-ninth street on both the north and south sides, and between Sixty-second and Sixty-third streets. These are about the worst, although the rest are bad.

About two years ago I informed Mr. Rice fully on this subject, and he replied as soon as the filling in over the tunnel had had time to settle he would order the contractor to reset the curbing and refill the roadway, but up to date nothing has been done, although our association has frequently called his attention to the matter.

If you can do anything to compel the contractor to do his duty in this matter, you will have the thanks of all the West Siders.

Very truly yours,  
(Signed) J. L. BROWER.

NEW YORK, June 21, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—I desire to call the Board's attention to the fact that, extending for a period of about three years to date, numerous complaints have reached the Board and this office as to the bad condition of the parkways, walks, surfaces, fences and curbs, all of which have received due consideration. Replies were sent to the complaining parties, and in several instances to the Park and other Departments, all of the same general tenor, i. e., to the effect that the parkways, their curbs, fences, walks and surfaces had been put in good order by the contractors, satisfactory to the Chief Engineer, and that the Department having jurisdiction should care for their maintenance.

On July 30, 1903, Mr. Parsons, Chief Engineer, wrote to Mr. William R. Wilcox, then Commissioner of Parks, notifying him that the park surfaces on the Boulevard were being restored, and asked that a representative of the Park Department inspect the work from time to time to see that it was done to his satisfaction. While I find no reply from Mr. Wilcox to this letter, an inspector or representative of the Park Department was about the work and reported, from time to time, to the engineers in charge that the soil and sodding were being done satisfactorily. This fact appears in letter of Mr. Parsons to Mr. Wilcox of September 9, 1903.

In this same letter Mr. Parsons wrote that "in the course of another fortnight" (the contractors) "will have the majority of the parks resodded and everything completed, except as to trees." He also states "when these parkways are completed it is impossible for our contractors to be responsible for their maintenance," etc., etc., and asks that Mr. Wilcox "be good enough to direct the proper party in your Department to take charge of the parkways, as each one is finished."

On September 23, 1903, Commissioner Wilcox replied to Mr. Parsons. He disclaimed jurisdiction over the parkways, with one or two exceptions (beyond the matter of tree planting), saying the parkways were under the jurisdiction of the Commissioner of Public Works or his successor; whereupon Mr. Parsons wrote on September 24, 1903, to Borough President Cantor, notifying him of the completion of the parkways, with the exception of trees, and that it was impossible for the rapid transit contractor to be responsible for their care and maintenance after the same had been restored. On October 5, 1903, President Cantor, through Commissioner Livingston, replied to this letter, stating that he had asked the Commissioner of Police to direct the Patrolmen on Broadway to see that no damage is done to the park spaces.

I have endeavored to place this matter before you as clearly as possible. The correspondence is voluminous, and only copies of the more important communications are submitted.

I will again remark, however, that all work other than tree and shrub planting was satisfactorily done by the contractor. The only question that now seems to remain is, whether sufficient notice has been given to the departments having jurisdiction over these parkways to relieve the contractor and the Rapid Transit Board of further responsibility in the premises? This, however, is not meant to include the question of tree and shrub planting, now receiving proper attention after considerable delay on the part of the contractor.

From another point of view it may be claimed by the Departments having jurisdiction over the parkways that they cannot be accepted in part, and that until the trees are finally planted the responsibility for their maintenance still rests with the Board or its contractor; in which event it would remain for the contractor to maintain all parts until the ultimate completion of the whole is brought about.

Judging from past experience, complaints will continue, and I therefore make this report for your consideration, thinking possibly the matter might properly be submitted to counsel for advice.

Unquestionably, the surface of the parks, as a rule, is in bad condition, as are the walks and fences.

Very truly yours,  
(Signed) GEORGE S. RICE.

Letter of R. J. Caldwell, dated the 14th of June, stating that a subway express train reaching the Grand Central Station at 3.34 p. m., southbound, on that day, Conductor No. 071, passed a red light signal at that point, was presented and referred to the Interborough Company and the Chief Engineer for their information.

Mr. Rives presented the following opinion of the Corporation Counsel on the jurisdiction of the Rapid Transit Board over construction, equipment, maintenance and operation of the Rapid Transit Railroad:

June 19, 1906.

Hon. JOHN F. AHEARN, President, Borough of Manhattan:

SIR—I am in receipt of a communication from George L. Rives, Esq., Counsel to the Rapid Transit Commission, calling my attention to the arrest of an employee of the Rapid Transit Subway Construction Company, engaged in doing work upon the subway at Broadway and One Hundred and Thirty-seventh street, under a permit issued by the Rapid Transit Commission.

It appears the construction company recently began an excavation at Broadway and One Hundred and Thirty-seventh street for the purpose of exposing the subway station wall to make repairs to the waterproofing. A police patrolman, claiming that the permit issued by the Rapid Transit Commission was not sufficient, and that a permit from the Department of Highways was required, ordered the work stopped. The work was stopped, and after consultation with the Engineer of the Rapid Transit Commission, who advised that no other permit than that issued by the Commission was required, the work was resumed. Upon this, a police patrolman learning that the work had been resumed under the first-mentioned permit, arrested Chief Inspector C. de Wyrall and took him to the West One Hundred and Twenty-fifth street police station, where he is now held.

This arrest now brings up in a very pointed way the question of the authority of the City officials over the subway and subway work.

It is claimed by counsel for the Rapid Transit Commission that under the law the contractor is not subject to the control of any City authority other than that of the Rapid Transit Commission, and that a permit from the Commission is all that is necessary to authorize the opening of the streets by such contractor. If the various City departments that have to do directly or indirectly with the control of the City streets could require the subway contractors to obey their orders, it is claimed endless and intolerable confusion and delay in construction would result, and counsel ask whether I cannot now advise the President of this Borough and the Commissioner of Police that no permit from the Highway Department or the Borough President's office is necessary, where a contractor has a permit from the Rapid Transit Commission to do work in connection with the Rapid Transit Railroad.

The right of the various City departments to inspect or control the operations of a subway contractor has been at different times the subject of discussion since 1900. The Rapid Transit Act contains the following provision:

"Every such contract shall also provide that the person, firm or corporation so contracting to construct said road or roads shall, at his or its own cost and expense, equip, maintain and operate said road or roads \* \* \* upon such terms and conditions as to the rates of fare to be charged and the character of service to be furnished and otherwise as said Board shall deem to be best suited to the public interest, and subject to such public supervision and to such conditions, regulations and requirements as may be determined upon by said Board."

The contract provides that full and sufficient equipment, including all boilers, engines, wires, subways, machinery and devices of every nature whatsoever, used for the generation or transmission of motive power, including all power houses, are to be provided by the contractor (page 157). The general plans of the equipment must be submitted to the Board and approved by it, and the construction of the equipment must be similarly approved (page 158). The contractor must keep the equipment in thorough repair and restore and replace every part thereof which may wear out or cease to be useful (page 169). The Board and its engineers and subordinates have the right to inspect the equipment and all parts thereof at any time (page 173). If the contractor neglects to supply adequate equipment the Board may require the defect to be made good; and if the contractor does not "forthwith"

comply with the notice the Board may take possession and remedy the defect, charging the cost to the contractor (page 174). The equipment is to be always adequate to the requirements of the travelling public (page 174). A detailed inventory is to be filed with the Board every six months (page 175).

Under the Rapid Transit Act the City has a lien upon the equipment to secure payment of the contractor's obligations, and the contract provides expressly that this lien shall extend to and cover after acquired equipment (page 175).

It is contended by counsel for the Commission that the general powers of the Department must give way before the special powers conferred on the Rapid Transit Board by the Rapid Transit Act.

"If this were not so" (say counsel to the Commission) "any orders given by the Board might conceivably be nullified by the Department, possibly paralyzing the operations of the railway. No danger to the public interests need follow from this; for if the officers of this or any other Department find improper or dangerous conditions existing they may notify the rapid transit commission, whose powers are undoubted, and who would doubtless act promptly in every proper case."

The Interborough Rapid Transit Company, in a communication to the Board of Rapid Transit Railroad Commissioners, dated June 13, 1905, protested against the action of the Electrical Bureau of the Department of Water Supply, Gas and Electricity of The City of New York in asserting jurisdiction on the part of the Bureau over electrical work in the power houses or sub-stations of the subway division of the Interborough Rapid Transit Company, saying:

"This company has always entertained and adhered to the view that its underground railways and all electrical features thereof were directly under the jurisdiction of your Board; and that this jurisdiction was not divided with, or duplicated by, the Electrical Bureau of the City. It has been our belief that the general scheme of the electrical underground railways provided for by the Rapid Transit Act does not contemplate joint or divided jurisdiction between your Board and any City department; and that as the volume, character and exigencies of the electrical work connected with subway operation are such as to make the control by your Board far more appropriate and efficient than the supervision of any City bureau could probably be, your jurisdiction should be, and it has been, regarded as exclusive."

"Unless otherwise advised the company will adhere to this view, and takes this opportunity of calling your attention to the same."

The question of the rights of the City, through its proper officers, to interfere in the operation of the subway railroad, by virtue of the City's power of control over the street, was passed upon in the case of Interborough Rapid Transit Company vs. The City of New York, 47 Misc. Reports, page 223. This was a motion for an injunction pendente lite, restraining the defendant, The City of New York, from removing or interfering with advertising signs, newsstands and automatic vending and weighing machines in the stations of the Rapid Transit Railroad operated by the plaintiff. Judge Bischoff, in granting the motion for the injunction, said:

"Concededly, the authority of the Borough President, or of the Superintendent of Incumbrances, to remove private property from the owner's possession, must be confined to cases where the City has control of the place in which the property is placed, and the contention of the defendants is that this railroad is a street or highway within the City, subject, as such, to supervision by the City's officials and to their control in the manner in which it shall be maintained."

"The Rapid Transit Act (L. 1894, chap. 752, section 63, as amended by Laws of 1895, chap. 519, sec. 30) provides that this railroad shall be the City's property, 'and shall be and be deemed to be a part of the public streets and highways of said City, to be used and enjoyed by the public upon the payment of such fares and tolls and subject to such reasonable rules and regulations as may be imposed and provided for by the Board of Rapid Transit Railroad Commissioners in said City.'

"It is elsewhere quite unmistakably provided by this act (sections 9, 34) that whatever control is reserved to the City, over the lessee's possession of the railroad, is vested in the Board of Rapid Transit Commissioners, and, to this extent, the characterization of the railroad as a part of the streets and highways of the City is evidently not a characterization for all purposes. Generally, the streets are subject to the control of the municipality through its officers; in this particular instance the statute, which denominates this railroad a street, limits the general application of the term, and in view of the peculiar nature of the subject to be controlled, places the control in a specially selected body, acting for the municipality. The contention that these stations are within the control of the officers having supervision of the streets, generally, involves, equally, the proposition that these officers may exercise control over the maintenance of the tracks between the stations, and this is clearly subversive of the intention to be gathered from the statute, which provides a consistent plan for the construction, maintenance and supervision of this railway property."

"In ordinary acceptance, and tested by the conditions out of which the regulations for the control of streets arise, this railroad is not a street, but simply a railroad. It is a highway upon which the public have the right to travel upon payment of a fixed fare or toll, and, as such, its construction was for a City purpose (Sun Publishing Company vs. Mayor, 152 N. Y., 257), but it was not essential to the constitutionality of the statute, which devoted the City's money to this purpose, that any particular and then existing ministerial officers of the City should have control of this highway as an ordinary street. Provision was made for a competent body of agents to exercise the necessary incidental control of the property in behalf of the City, while the property was in the possession of the City's lessee, and, as I find the meaning of the statute to be, the control to be exercised by those agents—the Rapid Transit Board—is exclusive, so far as the character of this highway, as a street, affects the question."

Again, in the case of Haefelin vs. McDonald, 96 App. Div. 213, the Court said, at page 219:

"The only control that the City or its officers or agents had in relation to this contract was the right to approve or disapprove of the general plans for the construction of the road when adopted by the Rapid Transit Railroad Commissioners. Neither the City nor its agents had authority to prescribe the form of the contract, or the conditions under which the railroad was to be constructed, or to control the action of the Rapid Transit Railway Commissioners or the contractors with whom the Commissioners had made a contract. The municipal corporation was not a contracting party, except so far as it was bound by the express provisions of the contract made on its behalf by the Rapid Transit Railway Commissioners acting under the legislative mandate."

In view of these decisions and the language of this act I am of the opinion, and so advise you, that the Board of Rapid Transit Commissioners alone has control with respect to the construction, equipment, maintenance and operation of the subway railroad, and further that a permit from such Board is all that is required to enable a contractor to open the streets for work in the subways.

For the convenience of your office I would recommend that an arrangement should be made whereby the Board of Rapid Transit Commissioners notify your Department of each permit so issued.

Respectfully yours,  
(Signed) JOHN J. DELANY, Corporation Counsel.

Report of the Chief Engineer was presented as follows:

June 18, 1906.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—In my report upon improving the conditions in the subway during the summer, submitted to the Board on March 22, I recommended that ventilating chambers be constructed, and provided with fans and louvres; that openings be cut in the vault lights at subway stations, and provided with gratings; and that experiments be entered into with a view to determining upon a proper method of cooling the subway air.

A supplementary agreement has now been agreed upon with the Interborough Rapid Transit Railroad Company covering the construction of the ventilating chambers and providing openings in the vault lights at stations. The carrying out of this work is rapidly progressing.

With regard to the cooling experiments, a plan has been prepared and submitted by Mr. John E. Starr, our Consulting Expert, outlining a plant to be installed at the Brooklyn Bridge station. This plant consists of:

First—Four 8-inch wells to be driven down through the floor of the subway at the north end of the station and guaranteed to supply 400 gallons of water per minute, to be used in cooling the air, together with the necessary suction pipes and pumps to lift the water from the wells and carry it to the proper places on station platforms.

Second—Four fans with a combined capacity of 150,000 cubic feet per minute.

Third—Two pipe coolers with sufficient cooling surfaces to cool 150,000 cubic feet per minute 15 degrees Fahr.

Fourth—Air ducts leading from the coolers over the station platforms in order to distribute the cool air at all points.

This plant is to be divided into two separate units. One to be located east of the centre line of the station to provide cooling for the east island platform, and the other to be located west of the centre line to provide cooling for the west island platform.

The cooling is to be wholly obtained from the ground water pumped from the wells. It is expected that the temperature of the water will be between 52 and 62 degrees Fahr. Such a plant will prove very economical in operation.

It is estimated that the cost of installing this plant will be about \$35,000, and work can be completed and the plant put in operation within five weeks from the time the orders are given to proceed.

At the Fourteenth street station we desire to prepare plans for and install an experimental plant, along other lines, because ground water probably cannot be obtained here in sufficient quantities to enable us to duplicate the Brooklyn Bridge plant. A probable expenditure of \$35,000 will also be required at this station.

We expect these experiments to indicate to us economical means for accomplishing the cooling, which we know can be obtained, at large cost, by the ordinary methods of refrigeration.

The Interborough Company, through its own expert, has prepared plans for a refrigerating plant to be installed at the Times Square station, to be used to cool both the Times square and Grand Central stations.

It consists of:

First—An ammonia refrigerating plant, to be installed in the sub-subway under the Times square station. The sub-subway to be ventilated to the street by gratings in the sidewalk, thus providing for the escape of ammonia fumes directly to the outside air.

Second—Brine tanks and brine distributing mains for cooling the brine and distributing it to the proper points on the Times square and Grand Central stations.

Third—Brine coolers and fans located at the same place, for cooling the air and circulating it, without the aid of ducts.

It is estimated that this plan will cost about \$45,000, and that it can be put in operation early in August. The Interborough Company propose to pay for this work themselves.

There is no question about the effectiveness of such a plant. Simply by providing the proper amount of refrigeration any degree of cooling which may be desired can be obtained.

The objections to the method are: The relatively high cost of operation and the use of anhydrous ammonia in the subway. While there is no great danger in the use of ammonia, there is always a chance of leakage. The consequences resulting from the liberation of ammonia fumes would be more serious in the subway than in any other place where ammonia plants are now installed. This fact must not be lost sight of. On account of it I would disapprove of the installation of a permanent ammonia plant at any point in the subway; I will, however, approve the temporary plant.

All of the above work is of an experimental character; it may, or may not, ultimately become part of the subway equipment. It is believed the experiments will not only determine the solution of the heat problem in the present subway, but should indicate the most economical method of overcoming like difficulties in future subway work.

On this account the results of the experiments will be equally valuable to the Interborough Company and to the Board.

Furthermore, we should be free, as far as possible, to follow such experiments along such lines as might be indicated to us as the work progresses, without unnecessary deference to the opinions of the Interborough Company.

I, therefore, respectfully recommend:

(1) That the plan proposed by the Interborough Company covering the work at the Times square and Grand Central stations be approved, it being understood that they are to pay all costs of the work.

(2) That the Board approve, authorize, and—if it is possible to do so—provide for the expenditure of not more than \$75,000, to be used in paying for the experimental plants at the Brooklyn Bridge and Fourteenth street stations.

Further, if the Board cannot provide the necessary money, that it request the Interborough Company, in view of the importance of the experiments to them, to advance the money for the experiments at the above stations, they to be reimbursed by the Board, as an extra under the contract with John B. McDonald.

Respectfully yours,

(Signed) GEORGE S. RICE, Chief Engineer.

It was understood as to the experiments proposed to be carried on by the Interborough Company that a definite statement from the Interborough Company should be obtained before the approval of the Board could be granted.

Mr. Rives reported that suit had been begun against the Interborough Company, as directed by the Board, to restrain that company from disposing of the electric energy for the Rapid Transit Railroad to outside companies.

The Board then adjourned.

BION L. BURROWS, Secretary.

#### BOARD OF ESTIMATE AND APPORTIONMENT.

##### PUBLIC NOTICE.

BOARD OF ESTIMATE AND APPORTIONMENT, No. 277 BROADWAY, NEW YORK CITY.

NOTICE IS HEREBY GIVEN THAT THE Board of Water Supply of The City of New York, pursuant to chapter 724 of the Laws of the State of New York enacted in the year 1905, has made such surveys, maps, plans, specifications, estimates and investigations as it deemed proper, in order to ascertain the facts as to what sources for an additional supply of pure and wholesome water for The City of New York exist and are most available, desirable and best for the said supply and has reported to the Board of Estimate and Apportionment with recommendation as to what action should, in its opinion, be taken with reference thereto, which report, with a map, plan and profile accompanying the same, bears the date of June 13, 1906, and is entitled "Map and profile showing manner of obtaining from Schoharie Creek an additional supply of water for The City of New York," which said map is on file in the office of the Board of Water Supply of The City of New York, at No. 299 Broadway, in New York City.

Notice is also given that the Board of Estimate and Apportionment of The City of New York has resolved that the 6th day of July, 1906, at 10:30 o'clock in the forenoon, and Room 16 in the City Hall, in The City of New York, be fixed as the time and place for a public hearing upon the said report and that notice be given on such public hearing by publication in the newspapers designated by the Board of City Record as official City papers, excluding all borough papers, and in all papers published in the counties affected which are designated as "official papers" for the publication of official notices, if any, and if there be none such, then in any two papers published in the counties so affected, and that the Secretary of the said Board of Estimate and Apportionment be directed to give such notices as are provided for in said statute and as he may be advised by the Corporation Counsel.

Of all of the foregoing you are hereby duly notified.

Dated JUNE 22, 1906.

JOSEPH HAAG,  
Secretary.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to lay out Carroll street, between Rogers avenue and Nostrand avenue, in the Borough of Brooklyn, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on July 6, 1906, at 10:30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on June 22, 1906, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 443 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes

to change the map or plan of The City of New York by laying out Carroll street, between Rogers avenue and Nostrand avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at a point on the easterly side of Rogers avenue distant 255 feet 7 inches southerly from the corner formed by the intersection of the easterly side of Rogers avenue with the southerly side of President street; thence easterly parallel with President street 700 feet to the westerly side of Nostrand avenue, which point is distant 255 feet 7 inches southerly from the corner formed by the intersection of the westerly side of Nostrand avenue with the southerly side of President street; thence southerly at right angles with the last mentioned line and along the westerly side of Nostrand avenue as now laid out 70 feet, which point is distant 255 feet 7 inches northerly from the corner formed by the intersection of the westerly side of Nostrand avenue and the northerly side of Crown street; thence westerly and parallel with Crown street 700 feet to a point 255 feet 7 inches from the corner formed by the intersection of the easterly side of Rogers avenue with the northerly side of Crown street; and thence northerly along the easterly side of Rogers avenue as now laid out 70 feet to the point or place of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 6th day of July, 1906, at 10:30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 6th day of July, 1906.

The time for the delivery of the articles, materials and supplies and the performance of the contract is until May 1, 1907.

The amount of security will be Fifty Thousand Dollars (\$50,000).

The bids will be compared on the basis of the Engineer's approximate estimate of the amount of coal required at each point of delivery, which is as follows:

One thousand one hundred (1,100) gross tons of broken coal, to be delivered at the Norwood avenue yard, East New York, or alongside the Long Island Railroad Company's dock, Long Island City.

Five thousand five hundred (5,500) gross tons of No. 2 buckwheat coal, to be delivered at the Norwood avenue yard, East New York, or alongside the Long Island Railroad Company's dock, Long Island City.

Eleven thousand (11,000) gross tons of broken coal, to be delivered at the old or new Ridgewood Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

Thirty-six thousand five hundred (36,500) gross tons of No. 1 buckwheat coal, to be delivered at the old or new Ridgewood Pumping Station switch, or alongside the Long Island Railroad Company's dock, Long Island City.

Nineteen thousand five hundred (19,500) gross tons of No. 2 buckwheat coal, to be delivered at the old or new Ridgewood Pumping Station switch, or alongside the Long Island Railroad Company's dock, Long Island City.

Two thousand (2,000) gross tons of No. 1 buckwheat coal, to be delivered at the Gravesend Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

One thousand five hundred (1,500) gross tons of No. 1 buckwheat coal, to be delivered at the switch near New Utrecht Pumping Station, or alongside the Long Island Railroad Company's dock, Long Island City.

Three thousand (3,000) gross tons of pea coal, to be delivered alongside Wallabout dock, foot of Clinton avenue, Brooklyn.

In comparing bids, charges of the Long Island Railroad Company for freight and hoisting will be considered and added to the prices submitted by the bidders for broken and buckwheat coal, delivered alongside the Long Island Railroad Company's dock, Long Island City. Charges of the Long Island Railroad Company for freight and hoisting are as follows:

To Ridgewood Pumping Station, East New York, 55 cents.

To Norwood avenue yard, East New York, 55 cents.

To Gravesend Pumping Station, 60 cents.

To switch near New Utrecht Pumping Station, 60 cents.

All the anthracite coal required shall be from one of the companies specified in paragraph 5 of the specifications, and the contractor in his bid must specify the company or companies from which he proposes to furnish the coal.

The bidder will state the price of each item or article contained in the specifications, per ton, by which the bids will be tested.

The bids will be compared and a contract awarded to the lowest bidder for all the articles, materials or supplies specified and contained in the annexed specifications and schedule.

Delivery will be required to be made from time to time and in such quantities and places as may be directed by the Commissioner or the Chief Engineer.

Blank forms may be obtained at the office of the Department of Water Supply, Gas and Electricity, the Borough of Manhattan, Nos. 13 to 21 Park row, at Room 25, Municipal Building, Borough of Brooklyn.

The Board of Assessors has levied and assessed the foregoing assessments in fifty equal annual installments.

The "Third Installment" in each case is now due and payable and hereafter for forty-seven years an amount equal to one of the aforesaid annual installments with interest shall be assessed upon the lots or parcels of land benefited by said improvements. These assessments were confirmed by the Board of Revision of Assessments on June 30, 1904, and the "Third Installment" entered on June 27, 1906, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents.

Unless the amount of the third installment in each case shall be paid within sixty days after said date of entry, interest shall be charged, collected and received thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles and Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 27, 1906, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

**CORPORATION SALE OF REAL ESTATE.**  
PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

**WEDNESDAY, JULY 18, 1906,**  
at 12 o'clock m., at the Comptroller's Office, No. 220 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York in the following-described property, which it has by virtue of a lease from Cornelius Ferguson, Supervisor of the Town of New Utrecht, to the City of Brooklyn, which lease is recorded in the Register's Office of

Kings County, in Liber 1715, page 143, section 18:  
All those lots situate in the former Town of New Utrecht, now in the Borough of Brooklyn, City and State of New York, known and designated by the Assessment Nos. 104 and 108 on the map of the Commissioners for the opening of Ninety-second street, from the Shore road to Seventh avenue, in the former Town of New Utrecht, which was sold September 7, 1886, for one hundred years to the Town of New Utrecht for the sum of \$8.10.

The minimum or upset price at which the said land shall be sold and is hereby appraised and fixed at the sum of seventeen dollars and seventy-four cents (\$17.74). The purchaser, in addition thereto, to pay the auctioneer's fees and the further sum of one hundred dollars (\$100) for the expense of examination, advertising, etc. The sale of said premises is to be made on the following

**TERMS AND CONDITIONS.**  
The highest bidder will be required to pay the full amount of his bid or purchase money and the auctioneer's fee at the time of sale, together with the further sum of one hundred dollars for expenses of examination, advertising, conveyance, etc. The quit-claim deed for the above-described premises to be delivered within thirty days from the date of sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved.  
By order of the Commissioners of the Sinking Fund, under a resolution adopted at a meeting of the Board held June 20, 1906.

By direction of the Comptroller, the sale of the property, which is within the area of Sullivan street, Rogers avenue, President street and Nostrand avenue, in the Borough of Brooklyn, will take place on

**TUESDAY, JULY 17, 1906,**  
at 12 m., at the Real Estate Exchange Salesroom, situated at No. 189 Montague street, in the Borough of Brooklyn, and will be sold for the highest marketable price at public auction on the following

**TERMS AND CONDITIONS.**  
The highest bidder will be required to pay ten per cent. of the amount of his bid, together with the auctioneer's fees, at the time of the sale; the balance of the purchase price to be paid upon the delivery of the deed, which shall be thirty (30) days from the date of the sale. The purchaser may, at his option, have remain on the property two-thirds of the purchase price on bond and mortgage for five years, with interest at the rate of five per cent. per annum, payable semi-annually, the mortgage to contain the customary thirty days' interest and ninety days' tax and assessment and insurance clauses. The bond and mortgage may be paid off at any time within the term thereof on giving thirty days' notice to the Comptroller. The bond and mortgage will be prepared by the Corporation Counsel, and the sum of \$12.50 will be charged for drawing, acknowledging and recording the same.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such resale. The right is reserved to reject any and all bids.

Said land, with buildings thereon, is sold subject to the use by the Kings County Penitentiary free of rental or other charges of any nature until April 11, 1907.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

**PUBLIC NOTICE IS HEREBY GIVEN** that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the

buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, in the

#### Borough of Manhattan.

All the buildings, parts of buildings, etc., situated and erected upon property owned by The City of New York and acquired for school purposes, bounded and described as follows:

Beginning at a point on the southerly line of West Forty-eighth street distant 325 feet westerly from the westerly line of Eighth avenue, and running thence southerly and parallel with Eighth avenue 100 feet 5 inches to the northerly line of the lands of Public School 17; thence westerly along the northerly line of the lands of Public School 17 150 feet; thence northerly and again parallel with Eighth avenue 100 feet 5 inches to the southerly line of West Forty-eighth street; thence easterly along the southerly line of West Forty-eighth street 150 feet to the point or place of beginning.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

**MONDAY, JULY 16, 1906,**

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description, within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion, as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against any and from all damages and costs to which it, they, or any of them, be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

#### NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

**IN PURSUANCE OF SECTION 1005 OF THE** Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for the following streets and parks in the BOROUGH OF THE BRONX:

# **TWENTY-FOURTH WARD, SECTIONS 11 AND 12.**

**BRIGGS AVENUE—OPENING.** from East One Hundred and Ninety-fourth street to Kingsbridge road. Confirmed January 15, 1906; entered June 19, 1906. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northwesterly line of Webster avenue with the northeasterly line of East One Hundred and Eighty-ninth street; running thence northwesterly along said last-mentioned line to its intersection with the southeasterly line of the Grand Boulevard and Concourse; thence northwesterly along said last-mentioned line to its intersection with the southwesterly line of Kingsbridge road; thence easterly in a straight line to a point formed by the intersection of the northwesterly line of East One Hundred and Ninety-fourth street with a line parallel to and 100 feet northwesterly from the northwesterly line of Valentine avenue; thence northeasterly along said parallel line to its intersection with a line parallel to and 100 feet northeasterly from the northwesterly line of East One Hundred and Ninety-eighth street; thence southeasterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet southeasterly from the southeasterly line of Bainbridge avenue; thence southwesterly along said last-mentioned parallel line to its intersection with a line parallel to and 100 feet northwesterly from the northwesterly line of East One Hundred and Ninety-fourth street; thence southeasterly along said last-mentioned parallel line to its intersection with the northwesterly line of Webster avenue; thence southwesterly along said northwesterly line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 18, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

## **CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.**

**PUBLIC NOTICE IS HEREBY GIVEN** that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, in the

### **Borough of Manhattan.**

All the buildings, parts of buildings, etc., situated and erected upon property owned by The City of New York, acquired for school purposes, and bounded and described as follows:

Beginning at a point formed by the intersection of the southerly side of East Eighty-second street and the westerly side of Avenue A; thence easterly along the southerly side of East Eighty-second street 98 feet; thence southerly and parallel with Avenue A 25 feet 8 inches; thence westerly and parallel with East Eighty-second street 98 feet, to the westerly side of Avenue A; thence northerly along the westerly side of Avenue A 25 feet 8 inches to the point or place of beginning, said property being known as No. 1546 Avenue A, Borough of Manhattan, City of New York.

By direction of the Comptroller the sale of the above-described building and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

**FRIDAY, JULY 13, 1906,**

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

### **TERMS AND CONDITIONS.**

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description, within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoves and area walls shall be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall

then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal shall be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide necessary thereto and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them, be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down or removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

## SUPREME COURT—FIRST DEPARTMENT.

### FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, by the Counsel to the Corporation, relative to acquiring title, wherever the same has not been heretofore acquired, to all the lands, tenements, hereditaments, property rights, terms, easements and privileges not owned by The Mayor, Aldermen and Commonalty of The City of New York, or any rights, titles and interests therein, not extinguishable by public authority, embraced within the lines of the GRAND BOULEVARD AND CONCOURSE AND NINE TRANSVERSE ROADS, from a point on East One Hundred and Sixty-first street, in said city, at the intersection of said street and Mott avenue, northerly to Moshulu Parkway, as laid out and established by the Commissioner of Street Improvement of the Twenty-third and Twenty-fourth Wards of The City of New York, pursuant to the provisions of chapter 130 of the Laws of 1895.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our last partial and separate report, estimate of assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 21st day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of July, 1906, at 3 o'clock p. m.

Second—That the abstracts of our said estimate of assessment, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 31st day of July, 1906.

Third—That, pursuant to the notice heretofore given when we filed our estimate of damage, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows: viz:

Commencing on the southwest at the intersection of Third avenue and the southeasterly bulkhead line of the Harlem river; thence continuing northerly, northerly and northeasterly along said bulkhead line of the Harlem river to the northerly side of the bridge across Spuyten Duyvil Creek; thence northeasterly along Broadway, including 100 feet westerly thereof to the southerly line of West Two Hundred and Fortieth street; thence easterly along the southerly line of West Two Hundred and Fortieth street and of Van Cortlandt Park South, and continuing easterly along the southerly line of Gun Hill road to the westerly side of the Bronx river; thence southerly along the westerly side of the Bronx river to Pelham avenue; thence westerly along Pelham avenue to the Southern Boulevard; thence southerly along the westerly line of the Southern Boulevard to East One Hundred and Eighty-ninth street; thence westerly along the northerly line of East One Hundred and Eighty-ninth street to Prospect avenue; thence southerly along Prospect avenue, including 100 feet easterly thereof to Crotona Park; thence southerly on a straight line in continuation of said Prospect avenue, including 100 feet easterly thereof, through Crotona Park, and connecting with the easterly line of Prospect avenue, including 100 feet easterly thereof on the southerly side of said Crotona Park; thence southerly along the easterly side of Prospect avenue, including 100 feet easterly thereof to the Southern Boulevard at its intersection with the southerly corner of One Hundred and Forty-ninth street; thence southerly along the Southern Boulevard, including 100 feet easterly thereof to St. Ann's avenue; thence southerly along St. Ann's avenue, including 100 feet easterly thereof to the northerly bulkhead line of the Bronx Kills; thence westerly along said northerly bulkhead line of the Bronx Kills, and continuing along the northerly bulkhead line of the Harlem river to Third avenue, the point and place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to our last partial and separate report, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 23d day of November, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our last partial and separate report, estimate of assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

#### FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made for the discontinuance and closing of WEST ONE HUNDRED AND FIFTY-FIRST STREET, from the easterly side of Riverside Drive Extension to the United States bulkhead line, Hudson river, in the Twelfth Ward, in the Borough of Manhattan, in the City of New York.

**NOTICE IS HEREBY GIVEN THAT WE,** the undersigned, were appointed by an order of the Supreme Court, bearing date the 28th day of May, 1906, and entered in the office of the Clerk of the County of New York on the 29th day of May, 1906, Commissioners of Estimate and Assessment, for the purpose of ascertaining and determining the compensation which should justly be made to the respective owners, leasees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments, premises, rights, easements or interests therein taken, affected, damaged, extinguished or destroyed by and in consequence of the discontinuance or closing of that part of West One Hundred and Fifty-first street, from the easterly side of Riverside Drive Extension to the United States bulkhead line, Hudson river, in the Twelfth Ward, in the Borough of Manhattan, in the City of New York, as shown on a certain map duly certified and filed as follows: One copy thereof in the office of the Register of the County of New York on or about the 3d day of August, 1905; one copy thereof in the office of the Corporation Counsel on or about the 3d day of August, 1905, and one copy thereof in the office of the President of the Borough of Manhattan on or about the 7th day of August, 1905, and which said portion of West One Hundred and Fifty-first street so discontinued and closed, had been legally acquired as a public street by the Mayor, Aldermen and Commonalty of The City of New York, in proceedings duly confirmed by the Supreme Court, and for the purpose of performing the trusts and duties required of us by chapter 1006 of the Laws of 1895, and by the Greater New York Charter, revised.

All parties and persons interested in any lands, tenements, hereditaments, premises, rights, easements or interests therein taken, affected, damaged, extinguished or destroyed by and in consequence of the discontinuance or closing of the said West One Hundred and Fifty-first street, from the easterly side of Riverside Drive Extension to the United States bulkhead line, Hudson river, in the Twelfth Ward, in the Borough of Manhattan, in the City of New York, and having any claim or demand on account thereof, are hereby required to present the same to us, duly verified, the undersigned Commissioners of Estimate and Assessment, at our office, fourteenth floor, Nos. 90 and 92 West Broadway, Borough of Manhattan, in the City of New York, with such affidavits or other proof as the owners or claimants may desire, within ten days after the date of this notice, and we, the said Commissioners, will be in attendance at our said office on the 13th day of July, 1906, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or

other time and place as we may appoint, we will hear such owners and claimants in relation thereto, and examine the proofs in support of such claim or claims and such additional proofs and allegations as may then be offered by such owner or claimants or on behalf of The City of New York.

#### FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening EAST ONE HUNDRED AND SEVENTY-SECOND STREET (although not yet named by proper authority), from Jerome avenue to Morris avenue, as the same has been heretofore laid out and designated as a first-class street or road in the Twenty-fourth Ward of The City of New York; in re applications for damages to Lots Nos. 24, 25, 26 and 28 in Block 2821, caused by the abandonment, discontinuance and closing of Fourth avenue (Belmont street), between Grand Boulevard and Concourse and the boundary line of the village of Mount Eden; in re application for damages to Lot No. 28 in Block 1198, caused by the abandonment, discontinuance and closing of Eighth avenue and Walnut street, between Jerome avenue, Townsend avenue and East One Hundred and Seventy-second street.

**WE, THE COMMISSIONERS OF ESTIMATE AND ASSESSMENT** in the above entitled proceeding, having been directed as follows:

First—By order bearing date the 18th day of August, 1902, and entered in the office of the Clerk of the County of New York on the 18th day of August, 1902, to ascertain and determine the compensation, if any, which, upon proofs of all the facts, should justly be made and legally awarded to Mirocleto Franchetti for the loss and damage, if any, sustained by or in connection with the premises known as old Lot No. 28 in old Block 1198, and now known as new Lot No. 74 in new Block 2846, by reason of the closing, discontinuance and abandonment of Eighth avenue and Walnut street, between Jerome avenue, Townsend avenue and East One Hundred and Seventy-second street.

Second—By order bearing date the 4th day of August, 1903, and entered in the office of the Clerk of the County of New York on the 4th day of August, 1903, to ascertain and determine the compensation, if any, which, upon proofs of all the facts, should justly be made and legally awarded to Henry C. Berghoff, for the loss and damage, if any, sustained by or in connection with the premises known as Lot No. 28 in Block 2821, by reason of the closing, discontinuance and abandonment of Fourth avenue (Belmont street), between Grand Boulevard and Concourse and the boundary line of the village of Mount Eden.

Third—By order bearing date the 4th day of August, 1903, and entered in the office of the Clerk of the County of New York on the 4th day of August, 1903, to ascertain and determine the compensation, if any, which, upon proofs of all the facts, should justly be made and awarded to August Ellinghaus, for the loss and damage sustained by or in connection with the premises known as Lot No. 25 in Block 2821, by reason of the closing, discontinuance and abandonment of Fourth avenue (Belmont street), between Grand Boulevard and Concourse and the boundary line of the village of Mount Eden.

Fourth—By order bearing date the 3d day of August, 1903, and entered in the office of the Clerk of the County of New York on the 3d day of August, 1903, to ascertain and determine the compensation, if any, which should justly be made and legally awarded to Thomas J. McAuliffe, for the loss and damage, if any, sustained by or in connection with the premises known as Lot No. 24 in Block 2821, by reason of the closing, discontinuance and abandonment of Fourth avenue (Belmont street), between Grand Boulevard and Concourse and the boundary line of the village of Mount Eden.

Fifth—By order bearing date the 4th day of August, 1903, and entered in the office of the Clerk of the County of New York on the 4th day of August, 1903, to ascertain and determine the compensation, if any, which, upon proofs of all the facts, should justly be made and legally awarded to John J. Sippel, for the loss and damage, if any, sustained by or in connection with the premises known as Lot No. 26 in Block 2821, by reason of the closing, discontinuance and abandonment of Fourth avenue (Belmont street), between Grand Boulevard and Concourse and the boundary line of the village of Mount Eden.

All the foregoing premises are more particularly described in the petitions on which the said orders were based and filed therewith in the office of the Clerk of the County of New York, and are shown on the damage maps attached to our abstract of estimate and assessment.

And having also by the provisions of chapter 1006 of the Laws of 1893, to ascertain and deter-

mine the benefit and advantage to the lands, tenements and hereditaments and premises which shall be benefited by the discontinuance, closing and abandonment of the aforesaid Fourth avenue (Belmont street), Eighth avenue and Walnut street.

We, therefore, the undersigned, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

Sixth—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan in The City of New York, on or before the 9th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting and for that purpose will be in attendance at our said office on the 11th day of July, 1906, at 4 o'clock p. m.

Seventh—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan in said City, there to remain until the 10th day of July, 1906.

Eighth—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx in The City of New York, and being all that part of former Fourth avenue (Belmont street) and Walnut street, within the block bounded by Grand Boulevard and Concourse, Sheridan avenue (Main avenue), Belmont street and the boundary line of the village of Mount Eden.

All that part of Walnut street bounded by Hawkstone street, Walton avenue, Belmont street and Grand Boulevard and Concourse.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening of the PUBLIC PARK, bounded by Avenue I, Avenue J, East Thirty-eighth street and East Thirty-ninth street, in the Thirty-second Ward, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objection thereto, do present their said objections in writing, duly verified, to us at our office, in the office of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 6th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 17th day of July, 1906, at 3 o'clock p. m.

Second—That the abstract of our said estimate of damage, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, there to remain until the 27th day of July, 1906.

Third—That, provided there be no objections to our abstract of damage, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 17th day of September, 1906, at the opening of the court on that day.

Fourth—In case, however, objections are filed to said abstract of damage, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have heretofore appeared in this proceeding, as well as by publication in the City Record and the corporation newspapers printed and published in the Borough of Brooklyn, in The City of New York, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, The City of New York, June 27, 1906.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of SECOND STREET (although not yet named by proper authority), between York and Franklin avenues, in the First Ward, Borough of Richmond, City of New York.

**WE, THE UNDERSIGNED, COMMISSIONERS** of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 11th day of July, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said

office on the 17th day of July, 1906, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 16th day of July, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly line of the Staten Island Rapid Transit Railroad and a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin avenue; running thence easterly along said southerly line of the Staten Island Rapid Transit Railroad to its intersection with the northerly prolongation of a line parallel to and distant one hundred (100) feet east of the easterly line of York avenue; thence southerly along said northerly prolongation and parallel line to its intersection with the easterly prolongation of a line parallel to and distant one hundred (100) feet south of the southerly line of Third street; thence westerly along said easterly prolongation and parallel line and its westerly prolongation to its intersection with a line parallel to and distant one hundred (100) feet west of the westerly line of Franklin avenue; thence northerly along said last mentioned parallel line to the point or place of beginning, as such streets are shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house in the Borough of Brooklyn, in The City of New York, on the 10th day of October, 1906, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, May 25, 1906.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Council, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
