

Municipal Library Notes - New Library Catalog

Greetings, valued Municipal Library users!

The Municipal Library's online catalog software will change from Mandarin to Koha this month, providing you a better online search experience. You may find that our catalog search functionality is limited or unavailable on the evening of June 22nd.

With Koha, you'll be able to:

- Access our public catalog via any mobile device
- Save searches so you're alerted when new material arrive
- And much much more!

Thank you for your patience and understanding as we migrate from one software system to the next. We think you'll be pleased with the final product.

For more information about koha, please visit:
