Miscellaneous.

The regular routine work of maintaining the monuments of the Borough in good condition, reference the same when they were likely to be disturbed by building operations and resetting the same, also examining and supplementing monuments in the course of regular improvements, were attended to during the quarter.

During this quarter the calculations for the sections where contracts were given out and work was under way have been pushed with extreme vigor. This work necessitated frequent shifts to the most urgent case, in order to prevent a delay in the contractor's work due to a lack of monument points. The following is a list of the most important contracts:

Morris Park avenue, Baychester avenue, Gun Hill road and City Island avenue.

Surveys have been made around the easterly portion of Morris Park Racetrack, i. e., along Pelham parkway, from White Plains road to Williamsbridge road; along White Plains road, from Gun Hill road to Morris Park avenue; Muliner avenue, from parkway to Bear Swamp road, and along Bear Swamp road, from White Plains road to Walker avenue. This work was done according to the new precise method, with most excellent results.

Surveys have been made along Eastern boulevard, connecting the Triangulation Stations, Crosby and parkway. Also along Fort Schuyler road, connecting Crosby and Westchester Court House. These surveys were made to establish the lines of the extension of Westchester avenue, and incidentally to establish the fixtures of Sections 51 and 53 (Tremont terrace, Benson estate, Haight estate and Seton estate, being the local fixtures, and not determined in the new triangulation system of co-ordinates).

The lines of Bear Swamp road had to be determined for the intersection of Morris Park avenue (under contract), so that a great amount of field work was necessary for the small amount actually used, but the map work on Sections 36, 37 and 41 is greatly advanced thereby.

The work on City Island avenue has been pushed and the investigations and field work embraced the entire street system.

1 (c). The Making of Surveys, Searches, Maps, Technical Descriptions, Profiles, etc., for the Commissioner of Estimate and Assessments in the Matter of Acquiring Title by the City to Avenues, Streets and Other Public Property.

This work consists of making (a) rule maps, (b) surveys for damage maps, (c) draft damage maps, (d) draft benefit maps, (e) final copies of damage and benefit maps, (f) franchise maps, (g) profiles of avenues and streets, (h) inspection and testimony, and (i) auction sale maps.

—the said boundaries being more clearly shown by a broken red line on the map or plan attached to this contract, dated March 21, 1908, signed by W. K. Rossiter, Vice-President, and Henry E. McGowan, Engineer of the Company, and made a part hereof.

The underground conduit above referred to is the underground conduit laid by the Company in the Ocean parkway under an greement entered into between the Commissioner of the Department of Parks of the City of Brooklyn and the Company on August 4,1897, which agreement was held by the Court of Appeals on December 17, 1907, in Peonle *ex rel.* Flatbush Gas Company against Bird S. Coler *et al.* (190 New York Reports, 268), not to have given the Company the privilege of laying or erecting conduits or conductors for the purpose of supplying electricity to private consumers.

Sec. 2. The grant of this privilege is in consideration of and subject to and conditioned upon the performance and observance of the following conditions which shall be complied with by the Company:

First—The said right to lay, construct, maintain and operate the said conduit, wires, conductors and connections for furnishing and supplying electricity in the above described territory shall be held and enjoyed by the Company, its successors and assigns, for a period of twenty-five (25) years from December 17, 1907, with the privilege of renewal of said contract for a further period of twenty-five (25) years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said conduit, wires, conductors and connections, constructed, maintained and operated under and in pursuance of this contract.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but the annual sum to be paid by the Company to the City under such renewal shall not be less than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shal be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable, but no annual sum thus fixed shall in any event be less than the sum required to be paid by the Company to the City during the last year of this original contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum to be paid thereunder shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said apraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of five hundred dollars ($500) for the privilege hereby granted within thirty (30) days after the signing of this contract by the Mayor.

2. The further sum of one hundred and fifty dollars ($150) for the privilege of operating during the year ending December 16, 1908, within thirty (30) days after the signing of this contract by the Mayor.

3. During the period between December 17, 1908, and December 16, 1912, an annual sum which shall in no case be less than one hundred and fifty dollars ($150), and which shall be equal to one (1) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of one hundred and fifty dollars ($150).

4. During the succeeding five years of this original contract an annual sum, which shall in no case be less than two hundred and fifty dollars ($250), and which shall be equal to two (2) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of two hundred and fifty dollars ($250).

5. During the succeeding five years of this original contract an annual sum, which shall in no case be less than four hundred dollars ($400), and which shall be equal to three (3) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of four hundred dollars ($400).

6. During the succeeding five years of this original contract an annual sum which shall in no case be less than five hundred dollars ($500), and which shall be equal to four (4) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of five hundred dollars ($500).

7. During the last five years of this original contract an annual sum, which shall in no case be less than than six hundred and fifty dollars ($650), and which shall be equal to five (5) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of six hundred and fifty dollars ($650).

All annual sums as above shall be paid into the treasury of the City on February 1 of each year, and shall be for the amount due to December 31 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before February 1 in each year for the year ending December 31 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or any law of the State of New York.

Third—The said annual charge or payments shall continue throughout the whole term of the privilege hereby granted, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any electric or other company providing for payments for similar rights or franchises at a different rate, and no transfer, sale, assignment, lease or sublease of the rights or franchises hereby granted, or of any part thereof, shall be valid or effectual for any purpose unless the said transfer, sale, assignment, lease or sublease shall contain a covenant on the part of the transferee, purchaser, assignee or lessee that the same is subject to all the conditions of this contract, and that the transferee, purchaser, assignee or lessee assumes and will be bound by all of said conditions, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said transferee, purchaser, assignee or lessee waives any more favorable conditions created by said statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, in the same territory in which the Company is authorized to operate by this contract.

Fifth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statute relating to the consolidation, merger or sale of corporations or otherwise, to any person or corporation whatsoever, nor shall the Company, its successors or assigns, in any manner consolidate or pool its stock, business or interests, or enter into any agreement for a division of business, interest or territory, or to prevent competition or a reduction in rates, or acquire, own or make use of or in any manner exercise control over any of the plants, privileges, franchises or stock, or use, own, control or operate any of the property, works, plants or appliances of any such persons or corporations without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of this original contract, or if the same is renewed, then upon the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the conduits, wires, conductors, connections and street lamps laid, erected and located by the Company, and including all property laid, erected or located by it in the streets or avenues, shall become and be the property of the City, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If the Board shall so elect, upon the termination of this grant for any cause, the plant, stations and property erected and located by the Company in the Borough of Brooklyn and used exclusively to supply electricity to the territory described in section 1 of this contract, but which are not situated in any street or avenue thereof, including the buildings, plants, stations, meters, house fittings and all property not situated in the streets or avenues so used by the Company in the generation, conversion and distribution of electricity to street lamps and public and private buildings in said territory, shall become and be the property of the City on payment to the Company of the value of the same, as fixed by three disinterested freeholders, appointed and paid in the same manner and with the same powers as appraisers appointed upon any renewal of this original contract, as above set forth, but such valuation shall in no case be greater than the value of such property as shown by the last report submitted by the Company to the Board, as required by the terms of this contract, and shall not include any compensation for any value which such property may have by reason of this grant. But the provisions of this paragraph shall not apply to the buildings, plant or other property of the Company in the Twenty-ninth Ward of the Borough of Brooklyn, and shall only apply to such plant or other property as may be erected and operated exclusively to supply the territory described in section 1 of this contract.

If, however, at the termination of this grant for any cause, as aforesaid, the City, by the Board, shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove its conduits, wires, conductors and connections from all the streets and avenues and restore said streets at its own cost and expense.

Seventh—The Company shall construct and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials, where such permits are required by the Charter of the City. In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company, whether the same be under streets and avenues or in private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

The Company shall, within six months after the signing of this contract, prepare a map showing in detail the location of its underground conduits, the number of ducts in the same, the subsurface structures laying adjacent to or crossing over, under or through said underground conduits, and the size of the same, and such other information as the President of the Borough of Brooklyn may desire. Copies of this map are to be filed in the office of the Board of Estimate and Apportionment, in the office of the President of the Borough of Brooklyn, in the office of the Commissioner of Water Supply, Gas and Electricity and in the office of the Commissioner of Parks for the Borough of Brooklyn.

The Company shall, where it has opened any street or avenue for the purpose of laying or repairing any conduits or connections, or erecting lamps or for any other purpose, properly restore said pavement and maintain the same for a period of one year, all at its own expense. If the Company shall, after five (5) days' notice from the President of the Borough of Brooklyn, neglect to so restore or maintain said pavement, then the President of the Borough of Brooklyn shall be authorized to do so at the expense of the Company, and the cost of such restoration and maintenance shall be a proper charge against and may be deducted from the security fund hereinafter provided for.

Eighth—The electric plant, conduits, wires, conductors, connections and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner, and with the most modern and improved appliances. The Company shall not construct any overhead wires, conductors or connections, or erect any poles for that purpose.

The supply of electricity furnished by the Company shall always be sufficient for public and private consumers and shall be continuous for twenty-four hours in each day during the term of this contract, or any renewal thereof, except for interruption from unavoidable causes over which the Company shall have no control.

Ninth—The Company shall, upon being directed to do so by the Commissioner of Water Supply, Gas and Electricity, extend its wires and conductors and furnish light, heat or power to any public building or street lamp.

Tenth—The Company shall file with the Board on or before the 1st day of February in each and every year a map, plan or diagram, showing the boundaries of the territory in which it is authorized to operate by this contract upon which shall be plainly marked in appropriate colors the wires and connections laid and erected by it up to December 31 of the second preceding year, and during the year ending December 31 next preceding. This map, plan or diagram shall have a statement thereon of the number of miles of conductors and connections laid and erected up to the 31st day of December of the second preceding year, and of the number of miles of conductors and connections laid and erected during the year ending on the 31st day of December next preceding the date of filing of the same, in the words and figures following, viz.:

Number of miles of conductors and connections laid and erected up to December 31, 19 : miles, feet.

Number of miles of conductors and connections laid and erected during the year ending December 31, 19 : miles, feet.

—and shall be certified by the Secretary of the Company. Copies of this map, plan or diagram shall also be filed in the office of the President of the Borough of Brooklyn, in the office of the Commissioner of Water Supply, Gas and Electricity, and in the office of the Commissioner of Parks for the Borough of Brooklyn.

Eleventh—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the

Company and in such manner as the proper City officials may prescribe.

Twelfth—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Thirteenth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Provided, that the duct space required to be furnished shall not be more than one duct in every conduit of four (4) ducts laid, nor shall the total space required to be furnished exceed a space equal to two (2) ducts each three (3) inches in diameter.

Fifteenth—The Company agrees that if at any time during the term of this contract or any renewal thereof, the City shall lay out and undertake the construction and maintenance of a general system of electrical subways in the Borough of Brooklyn, and for that purpose shall deem it advisable to acquire the conduits herein authorized to be laid and maintained, or shall be required to acquire the same, the Company shall by a valid deed in writing and under seal, surrender to the City all its right, title and interest in and to such conduits and their appurtenances upon payment to it of the value of such underground conduits as fixed by appraisers appointed and paid in the same manner and having the same powers as appraisers appointed upon any renewal of this contract as hereinbefore provided. Such value shall be fixed with due regard to the reversion of such conduits to the City at the termination of this contract or renewal thereof. If, however, the City, by the Board, so determines it may at any time after March 1, 1914, require the Company, by an instrument under seal entered into between the City and the Company, to surrender to the City the said conduits and their appurtenances free of all cost, in consideration of the City allowing the Company to use all the space necessary for its corporate purposes in said conduits so surrendered free of any and all charges, whether for rental or for maintenance, from the date of the surrender of said conduits and their appurtenances to the date of the expiration of this contract or any renewal thereof.

Any agreements made by the Company with any duly authorized individual or other corporation, whether under the provisions of this contract or otherwise, whereby said duly authorized individual or other corporation is granted or given the right or permission to use said conduits and their appurtenances, shall not in any manner affect the right of the City to acquire or take over the conduits and their appurtenances belonging to the Company, free and clear of any and all incumbrances whatsoever.

This provision shall not in any way affect the City's right to the reversion of all the property of the Company in the Ocean parkway and other public streets and places upon the expiration of this contract or any renewal thereof, or upon the happening of any of the other contingencies herein provided for.

Sixteenth—Should the City at any time acquire the conduits of the Company or construct a system of conduits for the accommodation of wires and conductors theretofore strung and constructed above the surface of the street, the Company agrees that upon being directed to do so, it will remove its overhead wires and place them in said conduits, under the supervision of the proper municipal authorities, paying for the use of such conduits, except as otherwise expressly agreed in this contract, a reasonable rental to be fixed by the Board.

Seventeenth—The rates to be charged by the Company shall never be in excess of the following, and it is agreed that the same may be altered or changed by the Board as hereinafter provided.

Any consumer or person who desires to be connected with the conductors of the Company can apply to the Board to compel the Company, in compliance with the provisions of this contract, to connect with and furnish electricity to such consumer or person, and all orders of the Board made on the request of any such consumer or person shall be complied with by the Company.

The provisions of section 63 of the Transportation Corporations Law fixing a penalty for failure of any electric company to extend its service to an applicant, and of this subdivision of the contract requiring the payment of interest on deposits made by consumers, may, in the event of the refusal of the Company to comply with any order of the Board, on complaint made in regard thereto, be deducted from the security fund to be deposited with the Comptroller, as hereinafter provided, and the Comptroller is authorized to deduct the amount from the said fund and pay the same to the claimant, on being directed to do so by the Board.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
