Please take notice that I, the subscriber, William Lemken, residing at No. 679 Lafayette avenue, Borough of Brooklyn, City of New York, do hereby present to you the following claim, to wit:

I am the owner of the parcel of ground, and the buildings thereon erected, known as No. 173 South street, in the Borough of Manhattan, City of New York, which parcel is bounded as follows:

Beginning at a point on the westerly side of South street, 44 feet and 8 inches southerly from the southwesterly corner of South street and Roosevelt street; running thence westerly 62 feet and 3 inches; thence southerly 19 feet and 9 inches; thence easterly 65 feet and 2 inches to South street; thence northerly along South street 17 feet and 10 inches to the point of beginning. The same being situated nearly directly under the easterly side of the New York and Brooklyn Bridge, and that by reason of the faulty construction of the said bridge, and inefficient inspection and want of careful, skillful management and maintenance of said bridge, refuse matter, such as horseshoes, nails and other pieces of metal, sticks, manure and dirt, fall constantly upon my premises above described, and also during rain storms, water overflows from the roadway of said bridge and falls upon said premises, damaging the same and causing serious danger and inconvenience to the residents therein, and diminishing the value of said property.

And I demand that you remedy the matters complained of herein by preventing said matters and things from falling from said bridge upon my said premises as aforesaid.

AMPHION MUSICAL SOCIETY,
DIVISION AND LEE AVENUES AND CLYMER STREET, }
BOROUGH OF BROOKLYN, April 22, 1901. }

To the Honorable Municipal Assembly:

At a special meeting of the Amphion Musical Society, held Saturday evening, April 20, the undersigned was instructed to formally protest against the resolution now before your Honorable Body to apply the name of "Payton square" to the space formed by the intersection and junction of Lee and Division avenues and Clymer street, Borough of Brooklyn.

This society has been located here for over twenty-three years, and, with other residents, believes that the proposed resolution is unnecessary and absurd, and simply an attempt to obtain free advertising for a theatre, and that its passage would establish a dangerous precedent.

We therefore formally protest against the above resolution.

Yours respectfully,

A. C. HALL, Acting Secretary.

The following Resolutions were adopted by the Board of Public Improvements on the 17th day of April, 1901.

Whereas, At a meeting of this Board, held on the 27th day of March, 1901, resolutions were adopted proposing to alter the map or plan of The City of New York by laying out and continuing Gravesend avenue, south of its junction with Avenue X and Eighty-sixth street, on the line of Shell road, sixty feet in width to Canal avenue; and the extension of West Sixth street, from Neptune avenue to Sheepshead Bay road, in the Thirty-first Ward, Borough of Brooklyn, City of New York, and for a meeting of this Board to be held in the office of this Board on the 17th day of April, 1901, at 2 o'clock P. The laying out and continuing of Gravesend avenue consists in laying out a new street 60 feet in width covering and widening the existing Shell road, between Avenue X and Canal avenue, North; thence the street is diverged southerly so as to connect with West Sixth street on Canal avenue, South.

The extension of West Sixth street consists in laying out a street between Neptune avenue and Sheepshead Bay road 60 feet in width, making thereby a continuous street, from Avenue X to Sheepshead Bay road.

Resolved, That the foregoing resolution, approving of the above-named proposed change in the map or plan of The City of New York, by laying out and continuing Gravesend avenue, adopted by this Board together with a statement of its reasons therefor, be transmitted to the Municipal Assembly for its action thereon.

DEAR SIR—In compliance with chapter 3, article 1, section 23, of the Revised Ordinances of 1897, I have the honor to transmit herewith, for presentation to the Municipal Assembly, statements of all contracts made by The Mayor, Aldermen and Commonalty of the City of New York and the municipalities, corporations, etc., consolidated therewith prior to January 1, 1898, and The City of New York (Greater New York) since January 1, 1898, or directed or authorized by the Common Councils of said corporations and not performed or completed or upon which any moneys remain unpaid on each on December 31, 1900.

These statements show the payments made on account of the various contracts to December 31, 1899, inclusive; the payments on account thereof during the year 1900; the total amounts paid thereon to December 31, 1900; the balances remaining unpaid thereon December 31, 1900, and the funds or accounts against which said contracts are chargeable.

No. 2643.

THE CITY OF NEW YORK,
OFFICE OF THE CITY CLERK, CITY HALL,
NEW YORK, April 18, 1901.

MICHAEL F. BLAKE, Esq., Clerk to the Board of Aldermen:

SIR—I have the honor to transmit herewith documents relative to matters which were adopted by the Council at their meeting on Tuesday, April 16, 1901, as scheduled below:

Int. Nos. 948, 588, 592.

Very respectfully,

P. J. SCULLY, City Clerk.

Which was ordered on file.

The papers above referred to are as follows:

No. 2644.

The Committee on Law Department, to whom was referred the annexed ordinance in favor of providing for the burial of strangers or unknown persons (page 417, Minutes, May 15, 1900), respectfully

REPORT:

That, having examined the subject, they believe the proposed ordinance to be necessary.

They therefore recommend that the said ordinance be adopted.

AN ORDINANCE to provide for the burial of strangers or unknown persons who may die in any of the public institutions of The City of New York.

Be it enacted by the Municipal Assembly as follows:

Section 1. The Commissioners of Public Charities and the Commissioner of Correction are hereby instructed and required to advertise in the CITY RECORD, on the day succeeding the death of any stranger or unknown person who may die in any of the institutions under their charge, a notice giving a full description of such person, and a statement of all the property found in his or her possession at the time such person became an inmate of any such institution, together with such other information as, in the opinion of the officers in charge of any such institution, would be most likely to lead to the identification of the person so dying.

Sec. 2. Hereafter all the interments in the city cemetery on Hart's Island shall be in trenches, to be numbered consecutively, commencing with number one; every such trench shall contain one hundred and fifty bodies, and no more, and each coffin shall be numbered by figures to be made of iron or other metal, or branded into the lid or cover of said coffin so as to be indelible, in the manner shown in the annexed diagram, viz.: Each trench shall be constructed running in a direction from east to west; shall be of a size sufficient to contain the said number

of one hundred and fifty bodies, which shall be laid therein in the order following, to wit: No. 1 at the northeast corner; No. 2 adjoining, and so on in regular order until No. 25 is deposited, when a layer of earth shall be placed on the twenty-five coffins thus deposited; No. 26 shall then be placed at the southeast corner, directly in the rear and in a line with No. 1; No. 27 adjoining, and so on until No. 50 is interred, which will be directly in the rear and on a straight line with No. 25; then covered with a layer of earth similar to those numbered from 1 to 25, thus completing the first stratum of coffins in the trench. No. 51 shall then be placed directly over No. 1, No. 52 over No. 2, and so on until No. 75 is interred over No. 25, then covered as before from 1 to 25; No. 76 being placed directly over No. 26, and so on in the regular order until No. 100 is interred directly over No. 50, thus completing the second stratum of coffins. No. 101 shall then be placed directly over Nos. 1 and 51, and so on in regular order until No. 125 is placed directly over No. 75. This half of the trench shall then be permanently covered. No. 126 shall then be placed directly over Nos. 26 and 76, and so on in regular order until No. 150 is placed directly over Nos. 50 and 100, when the trench shall be considered full and finally covered. A new trench, to be numbered trench No. 2, shall then be commenced and filled in the manner above described, and succeeded by trench No. 3, and so for the future in this and all other of the city cemeteries. At the head of each tier of coffins shall be placed a proper and durable board or stone, with the numbers corresponding with the numbers on such coffins placed therein, with figures made of iron or other durable metal, or branded thereon in such a manner as to be indelible. Each trench, when completed, and the number placed at the head of each tier of coffins, shall be inclosed by a substantial fence, leaving a space sufficient to pass between it and the head-boards, to admit of the passage of two persons, to afford an opportunity to inspect each head-board to ascertain the numbers thereon.

Sec. 3. A register of burials shall be kept by the superintendent or other person in charge of the city cemetery, which shall be so arranged that the name of each person interred shall be numbered to correspond with the numbers on the head-boards of the tiers of coffins deposited in each trench, and shall be accessible at all reasonable times, for the inspection of the public or the use of any person desiring to ascertain the particular place in which any person may be buried. A duplicate copy of such register shall be kept in the offices of the Commissioners of Public Charities and Commissioner of Correction.

Sec. 4. All ordinances of the former municipal and public corporations consolidated in The City of New York inconsistent or conflicting herewith are hereby repealed.

Sec. 5. This ordinance shall take effect immediately.

ADOLPH C. HOTTENROTH, CHARLES H. EBBETS, FRANK J. GOODWIN, DAVID L. VAN NOSTRAND, BENJAMIN J. BODINE, Committee on Law Department. Which was referred to the Committee on Public Health.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 25, 1900.

To the Honorable the Municipal Assembly of The City of New York:

GENTLEMEN—Since January 1, 1898, the Board of Assessors of The City of New York have illegally levied assessments under an act entitled "An Act in relation to local improvements in the Town of Flatbush, and the acquisition of the rights of a plank road company in said town," being chapter 161 of the Laws of 1889, in that said assessments were levied in bulk, and not in installments, and that in laying the same the provisions of said act and its amendments and modifications were not complied with.

By the Greater New York Charter it is provided that all the powers and duties conferred or charged upon the Common Council of the City of Brooklyn shall be exercised by the Municipal Assembly of The City of New York except where otherwise provided by the Charter (sec. 46). Among the powers formerly authorized to be exercised by the Common Council of the City of Brooklyn were the following:

"Sec. 15. Whenever the attorney and counsel of the city shall be of opinion that any proceeding or assessments for local improvements are invalid and void by reason of irregularity in the conducting or laying the same, he shall forthwith report such opinion, and the reasons therefor, to the common council, and the common council shall enter an order in their minutes of proceedings declaring such assessments invalid and void, and the said assessments shall thereupon be held and deemed to be invalid and void, and the said common council are hereby authorized and empowered to cause the amount of such assessments to be reassessed and to have new proceedings taken and reassessments made, in the same manner as the original proceedings and assessments should have been made, and such new proceedings and reassessment shall have the same effect as the original proceedings and assessments would have had had they been properly taken and made."

(Tit. X., chap. 583, Laws 1888.)

"Sec. 18. In any case where an assessment for local improvement has been heretofore levied and confirmed, and the whole or a part of which remains unpaid, the common council shall have power (if they shall be satisfied that injustice has heretofore been done to the parties assessed), to direct a new assessment to be levied for the amount remaining unpaid, with the interest thereon. They may enlarge and extend the district heretofore assessed as they may deem just and equitable, and the board of assessors, in levying and assessing said new assessments, shall credit to all parties

who may have paid the previous assessments the amount so paid by them respectively, and their property shall be liable only for the balance, if any, of the new assessment, over and above the amount so paid by them respectively, and all proceedings for levying, confirming and collecting said new assessment shall be as is now provided by law."

(Tit. XIX., chap. 583, Laws 1888.)

By chapter 356 of the Laws of 1894 all the territory comprised within the Town of Flatbush, in the County of Kings, was annexed to the City of Brooklyn, and was thereby made subject to and governed by the same laws, ordinances, rules and regulations of said city as constituted at the time of the taking effect of that act.

I am of opinion that the assessments under chapter 161 of the Laws of 1889, enumerated in the schedule marked "A," annexed to the inclosed proposed ordinance, laid by the Board of Assessors of The City of New York since January 1, 1898, and which were laid in full, and not in installments, are invalid, illegal and void, in that the Assessors failed to comply with the requirements of the act itself; and I advise you that it is your duty in the premises to declare such assessments invalid and void and to direct that the Comptroller cancel the same of record.

I herewith inclose an ordinance for adoption to accomplish that purpose, which I advise you it is your duty to ordain.

Respectfully yours,

JOHN WHALEN, Corporation Counsel.

The President put the question whether the Board would agree with said report and adopt said ordinance

Which was decided in the affirmative by the following vote:

In connection with the foregoing report, Alderman Schneider submitted the following communication from the Commissioner of Bridges, and asked that the same be read and made a part of the record:

No. 2674—(S. O. 199.)
 DEPARTMENT OF BRIDGES—CITY OF NEW YORK,
 COMMISSIONER'S OFFICE, PARK ROW BUILDING, MANHATTAN,
 NEW YORK CITY, N. Y., April 22, 1900.

Hon. WM. F. SCHNEIDER, JR., Chairman of the Aldermanic Committee on Bridges and Tunnels:
 SIR—I beg leave to acknowledge receipt of copy of resolutions relating to the bridge over Newtown creek, at Vernon avenue, adopted by the Board of Aldermen at its meeting held on the 16th instant, and in response to request therein contained, the information called for is herewith furnished.

1st. What will be the difference in cost to the City between the high and low level bridge?
 Answer For the structure..... \$316,000 00
 For the property..... 257,000 00

Total difference in favor of low level..... \$573,000 00

2d. What are the reasons that prompt the Department of Bridges to favor and advocate the high instead of the low level bridge?

Ans. The record kept of vessels passing through said bridge shows an average of 72 openings in each 24 hours, necessitating the closing of the bridge for traffic an average of 7 hours each day. An average of 31 of these openings were for masted vessels, calling for an average closing of said bridge for traffic of 3 hours in each 24, or a difference of 57 per cent. between the openings required for masted vessels and for low level vessels.

The interruption to traffic caused by the Long Island Railroad is fully as often and as long as that caused by the bridge; and with the elevated approach this interruption will be completely obviated.

3d. What is the consensus of opinion in the Borough of Queens on the question?

Ans. This question, it seems to me, is fully answered by the petition presented to the Board of Aldermen by the citizens, taxpayers and business concerns of the Borough of Queens, and read at the meeting of said Board on the 16th instant.

4th. Is it true that the projected high level bridge is urged by the Long Island Railroad Company, and that it is advocated because it will benefit said corporation?

Ans. The Long Island Railroad Company has never, directly or indirectly, indicated its preference; and as the street underneath the viaduct will be open to traffic, the railroad company will have to guard the same crossings which it guards to-day; and though the railroad, in common with other citizens, must be of necessity benefited from the increased facility of communication between Brooklyn and Queens, it does not derive any direct benefit from this improvement.

5th. If it does benefit the Long Island Railroad, to what extent will it facilitate railroad travel and benefit the people generally?

Ans. The reply to the last question is an answer to this, so far as the railroad is concerned. As to the other portion of the question, "and benefit the people generally," I may say that in the year 1899 nearly 125,000 vessels of all descriptions passed through Vernon Avenue Bridge. This number will be vastly increased as the years go by, because the business interests and improvements along the creek are increasing very rapidly; and the facilities for the uninterrupted use of the creek by these vessels must be provided for, as far as it is possible to do so; and there

is no other way to provide for it except to build high level bridges, or to take the bridges out of the creek entirely. The average time this bridge is now closed to traffic during the year, excluding Sundays and holidays, is 8 hours and 30 minutes. Three-fourths of the openings take place between 5 A. M. and 6 P. M., or during 13 hours. The bridge is closed for traffic 6 hours, and, naturally, when the navigation increases the interruption to traffic increases with it. Thus the delays and annoyance to the land traffic, pedestrian and vehicular, need no illustration to understand.

6th. Ought not the railroad to contribute toward the construction of the bridge, and if so, can it be compelled to do so?

Ans. From my former answer it seems to me that there can be but one reply to this, and that is in the negative.

7th. What are the objections of those who are opposed to the high level bridge?

Ans. So far as I have heard, there are but two. One comes from the persons owning property on the line of the proposed improvement, the other from people who imagine that the work is to be done in the interests of the Long Island Railroad Company. As to the first, I can only say that some property must be taken, and in a public improvement a person whose property is taken sometimes necessarily suffers inconvenience, but not loss, as the value of the property to be taken will be paid for in proceedings instituted for that purpose. As to the second, I can only say that persons who imagine that this work is to be built in the interests of the railroad company are mistaken, for the railroad company's interest is not being considered one way or the other in the matter.

8th. Which of the two propositions is most apt to benefit the taxpayers and residents in the neighborhood of the bridge?

Ans. The petition of the taxpayers and business concerns of the Borough of Queens hereinbefore mentioned sets forth the fact that it is for the best interests of the community at large, and for the interests of the business and manufacturing population in the boroughs of Brooklyn and Queens to construct a high level bridge at this point; and I have no hesitation in saying that the building of a low level bridge at this point on the creek would be a serious injury to every interest having to do with Newtown creek and its surroundings.

9th. Is the location of the proposed bridge the best and most economical that can be selected?

Ans. Yes. The present bridge was built by the counties of Kings and Queens at this location under an Act of the Legislature.

10th. Are there not adjacent streets which if used would result in material saving to the City in condemnation proceedings, etc.?

Ans. No; and if there were necessity for building a bridge at another place, there would be no power to remove the bridge from its present location without legislative authority.

Respectfully,

JOHN L. SHEA, Commissioner of Bridges.

The President then put the question whether the Board would agree with said report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected having failed to vote in favor thereof:

In connection with the foregoing report, Alderman McGrath submitted the following communication from the Commissioner of Parks for the Borough of The Bronx, asked that the same be read and made a part of the record:

No. 2675.
THE CITY OF NEW YORK—DEPARTMENT OF PARKS,
OFFICE OF COMMISSIONER FOR THE BOROUGH OF THE BRONX,
ZEROWSKI MANSION, CLAREMONT PARK,
April 22, 1901.

To the Honorable the Board of Aldermen:

GENTLEMEN—I beg to again call your attention to the immediate necessity for the passage of the resolution authorizing the appropriation of \$15,000 for preliminary surveys, soundings, etc., for a bridge over Eastchester Bay in Pelham Bay Park.

The matter has been before your Honorable Body for nearly four months.

The Chief Engineer of this department has to-day reported that the old bridge is in a very bad condition—in fact, dangerous to life and limb. This bridge is one of the main arteries to Westchester County and Western Connecticut. Its enforced closing would result in serious inconvenience to thousands of people, and to possible complications with the Federal authorities.

I cannot too earnestly impress upon you the necessity of immediate action.

I am, very respectfully yours,

AUGUST MOEBUS, Commissioner of Parks, Borough of The Bronx.

The President then put the question whether the Board would agree with said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Alt, Bridges, Burrell, Cronin, Culkin, Delano, Dowling, Downing, Flinn, Gaffney, Gass, Geiger, Geiser, Gledhill, Goodman, Hennessy, Holler, Holmes, Kennedy, Kenney, Ledwith, Mathews, McCaul, McEneaney, McGrath, McInnes, McMahon, Muh, Murphy, Neufeld, Oatman, Otten, Parsons, Porges, Rottmann, Schneider, Twomey, Vaughan, Velten, Wacker, Wafer, Wentz, Wirth, Wolf, the Vice-President, and the President—46.

Negative—Aldermen Byrne and Diemer—2.

At this point, on motion of Aldermen Velten, G. O. 274 was made a special order for the next meeting at 2.30 o'clock.

Alderman Alt called up S. O. 198, being a report of the Committee on Water Supply, as follows:

No. 2372.

The Committee on Water Supply, to whom was referred on March 12, 1901, the annexed ordinance and report of the Council in favor of laying water-mains in Jefferson avenue, Brooklyn, respectfully

REPORT:

That, having examined the subject, they believe the proposed improvement to be necessary. They therefore recommend that the said report and ordinance be concurred in.

WILLIAM H. GLEDHILL, OWEN J. MURPHY, GEORGE A. BURRELL, JOHN J. VAUGHAN, JR., LOUIS F. CARDANI, Committee on Water Supply.

(Papers referred to in preceding Report.)

The Committee on Water Supply, to whom was referred the annexed ordinance in favor of laying water-mains in Jefferson avenue, Borough of Brooklyn (page 41, Minutes, January 8, 1901), respectfully

REPORT:

That, having examined the subject, they believe the proposed improvement to be necessary. They therefore recommend that the said ordinance be adopted.

AN ORDINANCE to lay water-mains in Jefferson avenue, Borough of Brooklyn.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in pursuance of section 413 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 19th day of December, 1900, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, viz.:

Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of water-mains in Jefferson avenue, between Hamburg and Knickerbocker avenues, Borough of Brooklyn, and the making of a contract for the same by the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the issue of Corporate Stock of The City of New York, heretofore authorized and designated as "Water-main Fund, Borough of Brooklyn."

THOMAS F. FOLEY, EUGENE A. WISE, WILLIAM A. DOYLE, ADOLPH C. HOTTENROTH, Committee on Water Supply.

BOARD OF PUBLIC IMPROVEMENTS—CITY OF NEW YORK,
NO. 21 PARK ROW, BOROUGH OF MANHATTAN,
NEW YORK, December 24, 1900.

To the Honorable the Municipal Assembly of The City of New York:

SIRS—In accordance with the recommendation of the Commissioner of Water Supply, a form of ordinance was approved by this Board on the 19th instant providing for the laying of water-mains in Jefferson avenue, between Hamburg and Knickerbocker avenues, Borough of Brooklyn, and the same is inclosed herewith for the action of your Honorable Body.

There are forty-two houses in course of construction along the line of the proposed main, and the estimated cost is \$1,100.

Respectfully,

JOHN H. MOONEY, Secretary.

PETITION.

No. 2679.

By Alderman Kennedy—

No. 111 FIFTH AVENUE,
NEW YORK CITY, April 23, 1901.

To the Municipal Assembly of The City of New York:

I respectfully petition, on behalf of the Treasury Department of the United States, that the City Council and Board of Aldermen will authorize the Department of Highways to remit all charges for vault space under the sidewalks surrounding the site of the new United States Custom-house, New York.

The United States Government has authorized the construction of a building which it is proposed shall be first class in every respect, and which is presumed to be incidentally beneficial to The City of New York. It would, therefore, seem proper that the City, by its duly constituted authorities, should make all reasonable concessions to the Government in matters pertaining to this construction, and that especially it should not demand that the Government be at the heavy additional expense of purchasing vault privileges ordinarily required under the rulings of the New York City authorities.

The construction of the vaults under the sidewalks, which are desired, does not affect the use or convenience of the public highways, either in the streets or on the sidewalks.

This petition is made at the desire of the Honorable Secretary of the Treasury.

Respectfully,

CASS GILBERT, Architect.

Which was referred to the Committee on Streets and Highways.

Boroughs of Manhattan and The Bronx.

SEALED BIDS OR ESTIMATES FOR ABOVE-mentioned Supplies and Repairs, in conformity with samples and specifications, will be received at the office of the Department of Public Charities, foot of East Twenty-sixth street, in The City of New York, until 12 o'clock noon, on

MONDAY, MAY 6, 1901.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Engineers' Supplies and Miscellaneous Repairs to Buildings and Apparatus," with his or their name or names and address and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, and read.

THE BOARD RESERVES THE RIGHT TO REJECT ALL BIDS IF IT DEEMS IT FOR THE INTEREST OF THE CITY SO TO DO.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, or of a guaranty or surety company duly authorized by law to act as a surety, and shall contain the matters set forth in the blank form of bid mentioned below.

No bid or estimate will be considered unless accompanied by either a certified check or money to the amount of five per centum of the amount of the security required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the materials, or the nature and extent of the work required, bidders are referred to the specifications on file in the Department.

The quantity and quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications.

Bidders must state the price of each article per lot (unless otherwise specified and grouped in a class), by which the bids will be tested. The extensions must be footed up, as the bids will be read and recorded from the total footing. Awards will be made to the lowest bidder on each class or item, as the case may be. All estimates not conforming to these requirements may be considered as informal.

All bids must be based upon the descriptions furnished or samples exhibited by this Department and not on samples furnished by the bidder.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Commissioners, a copy of which and also the proper envelope in which to inclose the same, together with the form of agreement, including specifications, in the form approved by the Corporation Counsel, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department of Public Charities.

25TH DAY OF APRIL, 1901,
indorsed "Proposal for Construction of the Steel Suspended Structure of the New East River Bridge," for furnishing the materials for and constructing the steel suspended structure of the New East River Bridge, in accordance with the proposed form of contract and the drawings and specifications therefor. All bids shall be inclosed in sealed envelopes, addressed to Lewis Nixon, President of the Board of Commissioners of the New East River Bridge, and presented to him on that day and at that hour at said office, and such bids will be opened in public meeting by the said Commissioners on that day at two o'clock in the afternoon.

Copies of the specifications and the general drawings for the work, with the proposed forms for the bid, bond and contract, may be obtained, and further information will be given at the office of the Chief Engineer, No. 84 Broadway, Borough of Brooklyn, City of New York, on and after the 8th day of April, 1901.

The Commissioners require that all bidders shall carefully examine the specifications, drawings and proposed form of contract, in order that no question as to their meaning may arise hereafter. It must be distinctly understood that no changes in the quality of the materials or of the workmanship will be allowed, and that the specifications will be adhered to strictly.

The contract is to be completely performed within eight months after the receipt by the contractor from the Engineer of written notice to begin the erection of the suspended structure.

Bids will be made upon a form provided therefor, and only those bids will be considered which are complete, in proper form, comply with the requirements herein stated, and are offered by parties of known reputation, experience and responsibility.

Each bidder will be required to deposit, with his proposal, in the office of the Commissioners, a certified check for Ten Thousand Dollars, payable to the order of Julian D. Fairchild, as Treasurer of the New East River Bridge Commissioners, as security for the execution by him of the contract and the giving of the required bond, if his bid is accepted, within two weeks after notice of the acceptance of his bid.

Bidders are required to state in their estimates, under oath, that such estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Municipal Assembly, head of a Department, School Commissioner, Chief of a Bureau, Deputy thereof or Clerk therein, or other public officer, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, as principal, surety or otherwise. The estimate must be verified by the oath, in writing, of the party making such estimate, that the several matters therein stated are in all respects true.

The Contractor will be required to give a bond in the sum of \$300,000, in the form annexed to the proposed form of contract, with an approved surety company doing business in The City of New York, conditioned for the prompt and faithful performance of the contract and its covenants and the work thereunder.

As by far the greater part of this work can be executed only by bridge establishments of the first class, bids will be received only from such parties as have the requisite plant and facilities. The bidders must be, in the opinion of the Commissioners, fully qualified both by experience and in appliances to execute work of this character and importance according to the highest standard of bridge work at the present time.

The Commissioners reserve the right to reject any and all of the proposals offered, and to accept any bid offered.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE,

To the Holders of Six Per Cent. Gold Consolidated Stock of the County of New York, Payable July 1, 1901.

THE FOLLOWING IS AN EXTRACT FROM the proceedings of the Commissioners of the Sinking Fund at a meeting held Tuesday, February 19, 1901:

The Comptroller presented the following report and accompanying resolution relative to the redemption of six per cent. Gold Consolidated Stock of the County of New York, maturing July 1, 1901:

CITY OF NEW YORK, DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, February 15, 1901.

To the Commissioners of the Sinking Fund:
GENTLEMEN—Six per cent. Gold Consolidated Stock, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), which was issued by the County of New York prior to its consolidation with the former City of New York, matures on July 1, 1901.

The said stock is all held by the public and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897.

Under an amendment to the Constitution of the State of New York adopted at the general election held in the year 1899, the said stock is exempted, for the debt-restrictive purposes of section 10 of article VIII, of the Constitution, from classification as a City debt.

In view of the present heavy demands upon the City's debt-incurring capacity, especially for rapid transit and bridge construction, it is desirable to retain the advantage gained by such exemption. This advantage would be practically lost as to the amount of said stock if it were to be redeemed out of the Sinking Fund, or if it were refunded by the issue of Corporate Stock of The City of New York.

I therefore propose to extend the maturity of a considerable proportion, if not the whole of such stock, for periods not exceeding twenty years, under the authority conferred upon me by chapter 630 of the Laws of 1900, upon the best obtainable terms for the City.

It is not unlikely, however, that it may prove impossible to extend certain portions of said stock upon advantageous terms, and I therefore recommend that a resolution be adopted authorizing the Comptroller to redeem from the Sinking Fund such portions of said stock.

Respectfully,

(Signed) BIRD S. COLER,
Comptroller.

Whereas, Six per cent. Gold Consolidated Stock issued by the County of New York prior to its consolidation with the former City of New York, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), matures July 1, 1901, and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897;

Whereas, the Comptroller proposes, under the authority of chapter 630 of the Laws of 1900, to extend for periods not exceeding twenty years the maturity of as much of said stock as he may be able to so extend upon terms advantageous to the City; therefore

Resolved, That the Comptroller be and is hereby authorized to pay out of the Sinking Fund for the Redemption of the City Debt (No. 1), such portion of the six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, as he may be unable to extend upon terms deemed by him to be advantageous to the City.

The report was accepted and the resolution unanimously adopted.

For the reasons set forth in the foregoing report to the Commissioners of the Sinking Fund, the Comptroller of The City of New York will avail himself of the provisions of chapter 630 of the Laws of 1900, which reads as follows:

CHAPTER 630.

AN ACT to authorize the extension of the funded indebtedness of the counties of New York, Kings, Queens and Richmond.

ACCEPTED BY THE CITY.

Became a law April 23, 1900, with the approval of the Governor. Passed, a majority being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. It shall be lawful for the comptroller of the city of New York, in his discretion, to provide for the extension of all or any part of the funded indebtedness of the counties of New York, Kings, Queens and Richmond, as the same may from time to time mature. Certificates of stock or bonds so extended shall bear interest at a rate not exceeding three and one-half per centum per annum, and shall be stamped across their face with the terms of such extension, which shall be for a period not exceeding twenty years.

Sec. 2. This act shall take effect immediately. Proposals will be received by the Comptroller at his office, No. 280 Broadway, New York City, from the holders of six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, for extending the maturity of all or any part of the respective amounts of such stock held by them to the following dates:

JULY 1, 1917,
JULY 1, 1918,
JULY 1, 1919,
JULY 1, 1920, and
JULY 1, 1921.

Stock so extended will be payable in gold and will bear interest from July 1, 1900, at the rate of three and one-tenth (3 1/10) per cent. per annum, payable, also in gold, semi-annually, on the first day of January and of July in each year. The Comptroller proposes to apportion the amount of stock thus extended so that, as nearly as practicable, one-fifth of the whole amount extended shall be redeemable at each of the five maturity dates above mentioned. Preference will, as far as possible, be given to the proposals received according to priority in the date of their receipt, the proposals first received being entitled to the privilege of the longest extension period, unless such proposal shall indicate a preference for the shorter terms. The stock which is to be extended in accordance with the terms of this circular must be delivered to the Comptroller upon demand, when the certificates will be stamped across their face with the terms of the extension, in accordance with the provisions of chapter 630 of the Laws of 1900, provided, however, that such stock now

outstanding in coupon form when presented for extension will be extended in the form of registered stock. Hereafter transfers may be made of such stock on the books of the Corporation in accordance with the general provisions of law and the rules of the Department of Finance in regard thereto. The right to discontinue the offer contained in this circular at any time without further notice is expressly reserved.
