The action of the Secretary was approved.

The Secretary presented the following report:

"In the matter of the proposed classification, in the competitive class of the positions of Pilot, Quartermaster, Assistant Superintendent of Ferries and Supervising Marine Engineer, I desire to report that, although the Dock Commissioner is of the opinion that it would be impracticable to qualify men by competitive examination for the positions of Pilot and Quartermaster, I am led to believe, after conference with Captain Harris, the Supervising Inspector of Steam Vessels for the United States Government, that a competitive examination is entirely practicable.

"The examination usually set for the United States Civil Service Commission is a non-educational test, and is simply a scheme to bring out the competency of the candidate for the management of vessels within the rivers and harbors of New York City, and a candidate need not be an expert in the science of navigation. His qualifications as a commanding officer can be determined by his experience in the Department through the process of promotion from the initial appointment as Deckhand. The right of selection guaranteed to the appointing officer gives him sufficient latitude to choose men qualified to command. In addition, candidates for Quartermaster and Pilot could be appointed for a probationary period as is the custom now in the Fire Department for Engineer of Steamers.

"I would, therefore recommend that the following classification be adopted:

## The Ferry Service.

"Class I.—  
"Grade 1. Ticket Chopper.  
"Grade 2. Doorman, Bridgeman.  
"Grade 3. Gateman, Ticket Agent.  
"Class II.—  
"Grade 1. Mate.  
"Grade 2. Quartermaster.  
"Grade 3. Captain.  
"Grade 4. Assistant Superintendent of Ferries.  
"Class III.—  
"Grade 1. Marine Engineer.  
"Grade 2. Chief Marine Engineer.  
"Grade 3. Supervising Marine Engineer."

The matter was laid over.

On the recommendation of the Secretary, to whom the matter had been referred, the request of the Marine Plumbers' Union, that their trade be classified, was denied on the ground that in no branch of the City service was help under that title required.

A communication was presented from the Acting Labor Clerk, dated August 6, recommending that the reassignment of John Hart, Foreman of Laborers in the Bureau of Highways, Borough of The Bronx, be approved as of June 9, 1908, in view of the fact that Mr. Hart had been regularly reassigned to duty on that date, but that the notice of his reassignment had not been received at the office of the Commission. The reassignment was approved.

A communication was presented from the Acting Labor Clerk, dated August 31, requesting instructions as to the disposition to be made of the various preferred eligible lists, for the positions of Foreman of Laborers and Assistant Foreman, in view of the fact that the said positions had been included in the competitive class. After consideration of the matter, the Commission directed that the said preferred lists be forwarded to the Certification Bureau, to be treated as preferred lists in the competitive class, and that the regular lists of Foreman and Assistant Foreman, promulgated on July 1, 1908, be combined with the Laborers' lists in the order in which the respective applications had been filed.

A report was presented from the Chief Examiner, dated September 1, with reference to the request of the Deputy Commissioner of Water Supply, Gas and Electricity for permission to change the titles of John F. Bussing, Inspector of Lamps and Gas, Brooklyn; George Sheridan, Chief Inspector of Electrical Conductors, Richmond; Nicholas J. Clarkin, Inspector of Lamps and Gas, Queens; and Charles E. Keefe, Inspector of Lamps and Gas, Manhattan, to that of Inspector of Electricity and Gas, and recommending that the request be denied. The recommendation was adopted.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. All arches, doors or other openings in the adjacent wall of that portion of the building left standing shall be bricked up and permanently closed. #### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 230 of the Greater New York Charter.

The certified check or money should not be enclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the necessary envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
