PETITIONS AND COMMUNICATIONS.

No. 644.

State of New York,
Public Service Commission for the First District,
Tribune Building, No. 154 Nassau Street,
New York, April 21, 1908.

P. J. SCULLY, Esq., Clerk of the Board of Aldermen, City Hall, New York:

Dear Sir—I transmit herewith a certified copy of Order No. 426, adopted by the Commission at its meeting to-day, in the matter of service on the Second avenue elevated line of the Interborough Rapid Transit Company, between 1 and 5 a. m., as to which the Board of Aldermen filed a complaint with this Body.

The complaint was dismissed, on the recommendation of Commissioner Eustis, before whom a hearing was had and from whose report, based upon that hearing, it appears that the number of passengers offering themselves for transportation at the hours above mentioned on the Second avenue line did not warrant the issuance of an order requiring the company to run trains at that time, especially in view of the fact that for the greater part of the distance the Third avenue train service is but one block distant from Second avenue.

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

Which was ordered on file.

No. 85 Clinton Street, Brooklyn, N. Y.,
April 25, 1908.

Mr. TRAVIS H. WHITNEY, Secretary, Public Service Commission, No. 154 Nassau Street, New York City:

Dear Sir—Answering your favor of the 17th inst., inclosing certified copy of Order No. 417, upon the complaint of the Board of Aldermen in this city, in the matter of traffic conditions at Graham and Flushing avenues and Broadway, I beg to say this point is covered by three traffic officers of the Police Department from 8.30 a. m. to 6.30 p. m., and the companies operating through this intersection employ a special inspector in the evening rush hours from 5 to 7 o'clock, whose duty is to regulate traffic and avoid congestion. In our opinion, the present arrangement takes care of the situation in good shape.

In compliance with Rule No. 8 of the Commission, copy of this letter has been forwarded to complainant.

Yours truly,

J. F. CALDERWOOD, Vice-President and General Manager.

No. 647.
New York, April 9, 1908.

To the Honorable Board of Aldermen of The City of New York:

Sirs—The undersigned rent payers and property owners respectfully ask that the part of Edgecombe avenue commencing at the southerly end of Colonial Park, at One Hundred and Forty-fifth street, and running north past the Jumel Mansion, the old fort, and other colonial points of interest, be designated and hereafter known as Colonial parkway.

The commanding location of this parkway in respect to the historic Washington Heights and its direct relation to the new Colonial Park, now under construction, seem to indicate the propriety of the change and the benefits likely to accrue to the properties bordering on and near the new parkway.

Begging your favorable consideration of the petition, we are,

Very respectfully,

NICHOLAS C. BENZIGER,
ERNEST D. CONDIT, No. 369 Edgecombe avenue;
—and many others.

In connection herewith Alderman Mulcahy offered the following:

Resolved, That the name of that part of Edgecombe avenue commencing at the southerly end of Colonial Park at One Hundred and Forty-fifth street and running north past the Jumel Mansion, the Old Fort, and other colonial points of interest, in the Borough of Manhattan, be and the same is hereby changed to and shall hereafter be known and designated as Colonial parkway, and the President of the Borough is hereby authorized and requested to make the necessary changes on the maps and records of The City of New York in accordance therewith.

Which was referred to the Committee on Streets, Highways and Sewers. Subsequently Alderman Dowling moved a reconsideration of the vote by which this resolution was referred.

Which motion was adopted.

The Vice-Chairman then put the question whether the Board would agree with said resolution of Alderman Mulcahy.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Bent, Beyer, J. W. Brown, Cole, Colgan, Davis, Delaney, Diemer, Doull, Dowling, Drescher, Emener, Finnigan, Flanagan, Flynn, Gaynor, Goldschmidt, Grimm, Hickey, Hines, Johnson, Kenneally, Kenney, Linde, Martyn, Marx, McAleer, McCann, McDonald, Morrison, Moskowitz, Mulcahy, Mulligan, Mulvaney, Nugent, O'Reilly, Potter, Reardon, Rendt, Schloss, Schneider, Smith, Stormont and the Vice-Chairman—45.

No. 648.

The Woman's Democratic Club of The City of New York,
April 28, 1908.

Hon. PATRICK F. McGOWAN, President of the Board of Aldermen, City Hall, New York City:

Dear Sir—I have the honor to transmit herewith copy of preamble and resolution adopted by the Woman's Democratic Club in regard to changing the name of Seventh avenue north of Central Park, and would respectfully bespeak your kind offices in submitting the same for consideration and, as it is hoped, favorable action by the honorable body over which you preside.

Very respectfully,

MRS. JOHN S. CROSBY, President.

At a regular meeting of the Woman's Democratic Club of The City of New York, held at the Hoffman House, April 24, 1908, the following resolution was adopted:

Whereas, There has been for a number of years a very general desire on the part of taxpayers and residents of upper New York City to have the name of Seventh avenue north of Central Park changed to one of more characteristic, as well as of some historic, significance, said thoroughfare being very different in character and appearance from that of the same name south of said Park, by which the two are widely separated; and

Whereas, The Woman's Democratic Club of The City of New York purposes, through popular subscription, to erect a befitting monument to Thomas Jefferson at such suitable place upon said Seventh avenue as may by proper authority be permitted; and

Whereas, To give the thoroughfare upon which such monument shall be erected the name in whose honor it is raised, would be no undue recognition of the services and worth of the first Secretary of State and third President of the United States of America; therefore be it

Resolved, That the Honorable Board of Aldermen be and is hereby petitioned and respectfully requested to change the name of Seventh avenue north of Central Park, from "Seventh avenue" to "Jefferson boulevard."

MRS. JOHN S. CROSBY, President.

Lucy A. Yendes, Recording Secretary.

Resolved, That the name of the public thoroughfare extending from One Hundred and Tenth street to the Harlem River, in the Borough of Manhattan, and known as Seventh avenue, be and the same is hereby changed from "Seventh avenue" to "Jefferson boulevard," by which latter name such thoroughfare shall be hereafter designated and known, and that the President of said Borough is hereby authorized to make the consequently necessary changes on the maps and records of The City of New York.

Which was referred to the Committee on Streets, Highways and Sewers.

No. 649.

The Merchants' Association of New York,
Nos. 66 to 72 Lafayette Street,
April 25, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, City:

Dear Sir—A contract for the construction of an addition to the Ridgewood pumping station was some time ago entered into by the Department of Water Supply, Gas and Electricity.

The Chief Engineer of the Department, for Brooklyn, has reported that the excavations for the foundations have developed quicksands, which make necessary a material modification of the plans, and a consequent increase of cost to the extent of about \$65,000. As you are aware, a material change in the terms of a City contract can only be made by agreement, and with the assent of the Board of Aldermen, and further, that any increase of outlay in such case is not protected by competitive bidding.

There is some question as to the necessity of this outlay, and we think that before it is authorized a further examination into the facts should be made. We therefore respectfully request that you will cause action by the Board of Aldermen upon the subject to be suspended for two weeks in order that this association may have a competent engineering examination made, the result of which will be duly submitted for your information.

Trusting that you will grant this request, we remain,

Yours very respectfully,

THE MERCHANTS' ASSOCIATION OF NEW YORK,

By HENRY R. TOWNE, President.

Which was referred to the Committee on Public Letting.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the resident, Borough of Brooklyn, transmitting two resolutions:

No. 650.

The City of New York,
Office of the President of the Borough of Brooklyn.
April 27, 1908.

To the Honorable Board of Aldermen:

Gentlemen—I forward to you herewith a copy of report of the Chief Engineer of the Bureau of Highways relative to the improvement of Coney Island avenue, from the Plaza to Neptune avenue, together with a form or ordinance regulating the use of the sidewalks on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue, and a form of ordinance reducing the width of sidewalks from the Plaza at Parkside avenue to Neptune avenue.

I would respectfully request that these ordinances be adopted.

Yours truly,

DESMOND DUNNE,
Acting President of the Borough.

April 14, 1908.

Hon. THOMAS R. FARRELL, Superintendent of Highways:

Dear Sir—In connection with the improvement and paving of Coney Island avenue, from the Plaza to Neptune avenue, I beg to forward form of ordinance to be introduced in the Board of Aldermen, reducing the width of sidewalks on Coney Island avenue, between the above limits, from 25 feet to 15 feet, so that the curb lines will be 15 feet from and parallel with the building lines.

I also forward form of ordinance covering the use of sidewalks on Coney Island avenue, between the same limits, prohibiting the erection or use of any portion of the sidewalk outside of the building lines, except for bay or show windows, and would recommend that arrangements be made to introduce these two resolutions in the Board at the earliest possible date, so that the new street lines may be legalized, and the Bureau be in a position to proceed with the preparation of plans and contracts for the work involved in paving this street.

Respectfully,

JNO. C. SHERIDAN, Chief Engineer.

AN ORDINANCE to reduce the width of the sidewalks on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That the width of the sidewalks on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue be reduced from twenty-five (25) feet to fifteen (15) feet so that the curb lines will be fifteen (15) feet from and parallel with the building lines.

No. 651.

AN ORDINANCE to regulate the use of sidewalks on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

All court yard and stoop privileges are hereby prohibited and withdrawn on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue, and that it will be unlawful to build, project or place any fence, stoop, piazza, projection or encumbrance whatever, with the exception of bay or show windows, beyond the property line of the said Coney Island avenue between the above mentioned limits.

Which were severally referred to the Committee on Streets, Highways and Sewers.

The Vice-Chairman laid before the Board the following communication from the Department of Health:

No. 652.

Department of Health,
Southwest corner of Fifty-fifth Street and Sixth Avenue,
New York, April 24, 1908.

Hon. P. J. SCULLY, City Clerk, City Hall:

Sir—At a meeting of the Board of Health of the Department of Health, held April 22, 1908, the following preamble and resolution were adopted:

Whereas, The Commissioner of Health has been notified by the Comptroller that it will be necessary to purchase fresh fruits and vegetables in future by contract through public letting instead of through departmental orders as heretofore; and

Whereas, Inquiries by both the Department of Health and the Trustees of Bellevue and Allied Hospitals have developed the fact that it is far more economical to purchase these supplies through the issuance of monthly departmental orders, inasmuch as contractors will not bind themselves to furnish supplies of a character subject to great fluctuations in price by reason of weather conditions, railroad situations, etc., for months in advance without demanding compensation sufficient to cover every contingency; therefore be it

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Board of Aldermen be and is hereby respectfully requested to authorize the Board of Health of the Department of Health of The City of New York, to purchase in the open market, without public letting, fresh fruits and vegetables as required in the institutions of said Department from time to time during the year 1908, at a total cost not to exceed the sum of \$5,000.

A true copy.

EUGENE W. SCHEFFER, Secretary.

Which was referred to the Committee on Public Letting.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 653.

Department of Street Cleaning,
Nos. 13 to 21 Park Row,
New York, April 24, 1908.

Hon. P. J. SCULLY, City Clerk, City Hall, New York:

Dear Sir—My attention has been called to the fact that there is a misunderstanding on the part of some Aldermen in regard to the import of the resolution now before your Honorable Board of Aldermen embodying my request for an issue of Revenue Bonds to provide for cleaning the streets of the City by the use of flushing machines.

The impression seems to prevail that the machines will render hand sweeping unnecessary, and that in consequence the street cleaning force is to be reduced.

This impression is entirely erroneous, for, on the contrary, the request, as you will observe, states that it is proposed to have the machine flushing supplemented by hand sweeping, and this will require a large number of additional Sweepers, so that the funds asked for are to be utilized to extend the work of cleaning and not as a substitute for the present method. The work performed by the hand Sweepers will be materially expedited.

In addition to the extra number of men to be employed by the Department will be the men employed by the contractor to drive and operate the machine.

It is greatly to be desired that the action taken by the Board of Aldermen in this matter should be prompt, as the time is slipping by and it is important to begin the work before the hot weather.

Respectfully,

FOSTER CROWELL, Commissioner.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 654.

Board of Estimate and Apportionment—City of New York,
Office of the Secretary, No. 277 Broadway,
April 27, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment April 24, 1908, authorizing the issue of \$100,000

Corporate Stock for the extension of the high-pressure water supply and irrigation system in Central Park, Borough of Manhattan (under the jurisdiction of the Commissioner of Parks, Boroughs of Manhattan and Richmond), together with copy of communication from the Commissioner of Parks, said Boroughs, and copy of report of the Comptroller relative thereto.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
JOSEPH HAAG, Secretary.

February 26, 1908.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—There is no doubt that one great assisting cause in the impoverishment of the soil in Central Park is lack of water to properly feed the earth to supply moisture to the grass, shrubs and trees, and I strongly advocate the immediate extension of the water system, as shown on accompanying map and indicated by green and yellow lines. I would propose making all the trenches and caring for the shrubs and trees, and laying the pipe with our own force of men; letting only the contract for the purchase of the pipe.

The total estimated cost of this work is \$135,000, and if early authorization is given by the Board of Estimate and Apportionment I believe this Department would have the work well under way and ready in part, at least, for the coming summer, and thereby stay, in a measure, the further deterioration of the soil, besides being prepared to protect and preserve any improvement that is made in reclaiming the soil by addition of earth and fertilizers, as it may be found wise to do later on.

The sum asked for to do sufficient amount of this work to carry us over this year is \$100,000.

Respectfully,
HENRY SMITH,
Commissioner of Parks, Boroughs of Manhattan and Richmond.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of \$100,000 for the extension of the high-pressure water supply and irrigation system in Central Park, Borough of Manhattan (under the jurisdiction of the Commissioner of Parks, Boroughs of Manhattan and Richmond).

Be it Ordained by the Board of Aldermen of The City of New York as follows:
Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 24, 1908, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one hundred thousand dollars (\$100,000), for the extension of the high-pressure water supply and irrigation system in Central Park, Borough of Manhattan and Richmond, and when authority therefor shall have been obtained from the Board of Aldermen the Comptroller be and is hereby authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred thousand dollars (\$100,000), the proceeds whereof to be applied to the purposes aforesaid.

No. 655.
Board of Estimate and Apportionment, City of New York,
Office of the Secretary, No. 277 Broadway,
April 27, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment April 24, 1908, authorizing the issue of \$100,000 Corporate Stock to provide means for laying water mains in the Borough of Queens, together with communication from the Commissioner of Water Supply, Gas and Electricity, and report of the Comptroller relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
JOSEPH HAAG, Secretary.

March 17, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John H. O'Brien, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of February 14, 1908, requests the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to the amount of \$150,000, for laying water mains in the Borough of Queens. I would report:

The proposed work includes the laying of about 46,000 feet of 8-inch pipe in Flushing, College Point, Whitestone, Bayside, Douglas Manor and Little Neck; 2,700 feet of 12-inch pipe, and 925 feet of 16-inch pipe in Flushing, and about 10,800 feet of 20-inch pipe in Broadway, from Bayside Pumping Station to Cemetery lane, Flushing.

The 8-inch and 12-inch pipe are to be laid in response to petitions filed with the Department of Water Supply, for the purpose of extending the distribution system to districts recently opened up, and as the development of this portion of the Borough is largely dependent on the supply of water for sanitary, fire and other purposes, I believe that it would be to the City's interest to grant this request, for the laying of the 8 and 12-inch pipe.

Regarding the 925 feet of 16-inch pipe to be laid on Murray lane, to supplement and improve the distribution service by providing a second distributing line from the stand pipe on High street, I believe that the cost of this item, about \$3,500, should also be included in the amount granted.

Regarding the 10,800 feet of 20-inch pipe, proposed to be laid on Broadway, between Bayside Pumping Station and Flushing, I would state that the necessity for this main is solely dependent on the completion of the Oakland Lake filtration plant and new pumping machinery connected therewith. As these works have not yet been advertised and since their construction will require at least a year, I believe that the granting of this item of a 20-inch main on Broadway, which will cost about \$50,000, may safely be withheld until next year; this will leave a net amount of \$100,000, which will be sufficient to cover the necessary work, and this amount I would recommend be appropriated.

I therefore suggest that you advise the Board of Estimate and Apportionment that, pursuant to section 178 of the Greater New York Charter, it may properly authorize the Comptroller to issue Corporate Stock to the amount of \$100,000, to be used for laying water mains in the Borough of Queens.

Respectfully,
CHANDLER WITHINGTON, Chief Engineer.

Approved:
H. A. Metz, Comptroller.

Department of Water Supply, Gas and Electricity, }
February 14, 1908. }

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, City:

Dear Sir—For lack of sufficient funds I am obliged to withhold the making of any further contracts for the laying of water mains in the newly built up sections of the Borough of Queens. Mains are now being extended under two contracts and the Department has completed surveys and estimates for another contract, which is about to be printed. This covers streets and avenues which have been improved by the erection of dwelling houses, and we have on file the petitions of the property owners and residents, demanding proper water service and protection to their property against fire.

The work outlined under the contract which has just been prepared will cost \$170,000. There will be a balance of about \$20,000 from the Water Fund Account,

which will be applied to this work, making the deficit \$150,000. This money will have to be provided for by an issue of Corporate Stock, pursuant to section 178 of the revised Charter.

This work is an absolute necessity, and several of the streets included under this new contract have been in readiness for this improvement for some time, and the people have been waiting patiently for the Department to extend its water service.

Respectfully,
JOHN H. O'BRIEN, Commissioner.

April 10, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of the request of the Metropolitan Sewerage Commission for an issue of \$5,000 Corporate Stock, referred to the Comptroller by the Board of Estimate and Apportionment, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Metropolitan Sewerage Commission was created by chapter 639, Laws of 1906, which provided for the appointment by the Mayor of five Commissioners to investigate and consider means for protecting the waters of New York Bay and vicinity against pollution. The law creating the Commission provides for the disbursement of a sum not to exceed \$15,000 to pay the expenses of the Commission.

On June 29, 1906, an issue of \$5,000 Corporate Stock was authorized for this purpose. On March 1, 1907, a second issue of \$5,000 Corporate Stock was authorized for the same purpose. The Commission, therefore, since its organization has received \$10,000 of the \$15,000 authorized for its expenditures. The premium derived from the sale of stock amounted to \$49.80. The total amount credited to the Commission was \$10,049.80.

The following schedule shows the expenditures and liabilities of the Commission: Expenditures for which vouchers have been issued, as per journal entries... \$10,343 37

897 25

Total expenditures and liabilities..... \$11,874 59

The debts contracted amount to \$1,824.79 in excess of the sum heretofore appropriated for the expenses of the Commission. This amount does not include compensation for the Commissioners. Section 6 of chapter 639, Laws of 1906, which relates thereto says:

"The members of the Commission shall receive no salary, but shall be paid their reasonable and necessary expenses actually incurred in the prosecution of their duties, and shall each be paid a just and reasonable per diem compensation, to be determined by the Mayor of The City of New York for the time actually and necessarily employed on the work of the Commission."

The Mayor has fixed the compensation of the Commissioners at \$5 per diem. It is estimated that the compensation due to members and former members of the Commission will amount to \$4,000. If such compensation is chargeable to the \$15,000 authorized by the legislative enactment of 1906 for the expenses of the Commission, the \$5,000 appropriation now asked for will not meet the liabilities of the Commission. There would be an apparent deficit of \$824.79.

The membership of the Commission changed by reappointments and new appointments by the Mayor, January 10, 1908. Its members are George A. Soper, President; James H. Fuertes, Secretary; Charles SooySmith, H. B. Parsons and Linsly R. Williams.

In a signed communication to the Mayor dated March 16, 1908, the Commissioners say:

"1. The harbor is now polluted and this pollution is increasing at a rapid rate.
"2. Sewage and other drainage is now being discharged into these waters without restriction by any legal authority.

"3. Sewers and sewerage systems, some of great magnitude, are being built in New York and its vicinity without reference to any general scheme or policy for protecting the public health and welfare. All of these will discharge into the harbor.

"4. The Metropolitan Sewerage Commission has been appointed to investigate these conditions, place the responsibility for safeguarding the harbor and outline a general plan or policy by which nuisance and injury to health from contamination can be prevented.

"5. Most of the work for which the Commission was appointed still remains to be accomplished, but there are no funds with which to complete it.

"6. In order to make an authoritative study of this subject in accordance with the requirements of the Act, we estimate that \$75,000 and about two years of time will be necessary."

The Commission is required to submit its report to the Mayor on or before February 1, 1909. Under the law creating the Commission, it will go out of existence May 1, 1909. However, it is reasonable to suppose that the great importance of the work entrusted to the Commission will influence the Legislature to extend the term of office of the Commissioners and also to authorize additional funds for the continuation of their investigations.

Your Examiner recommends that the request of the Metropolitan Sewerage Commission for an issue of \$5,000 Corporate Stock be granted.

Yours respectfully,
(Signed) CHARLES S. HERVEY,
Supervising Statistician and Examiner.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment, April 24, 1908, amending resolution adopted March 16, 1905, relative to an issue of \$850,000 Corporate Stock to provide means for the construction of the new Bellevue Hospital, by striking therefrom the words "the construction of the new Bellevue Hospital," and inserting in place thereof the words "the construction and equipment of the new Bellevue Hospital," together with a report of the Comptroller in reference thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,
JOSEPH HAAG, Secretary.

Hon. HERMAN A. METZ, Comptroller:

Sir—In a letter dated March 14, 1908, Mr. J. K. Paulding, Secretary of the Board of Trustees of Bellevue and Allied Hospitals, forwards to the Board of Estimate and Apportionment a request for an appropriation of \$50,000 to provide for the equipment of Pavilions "A" and "B" of the new Bellevue Hospital. I would report:

These new pavilions are fast approaching completion and should be ready for service within a few months. Mr. Paulding submits with his application to the Board, a detailed list of the proposed equipment of the hospital.

I have examined the list in detail and it appears that the prices there quoted are reasonable and proper and the list, as a whole, seems to be not extravagant and to contain nothing not properly called for in the equipment of a hospital of this character.

I find that there remains of the original appropriation of \$850,000 for the construction of Pavilions "A" and "B" of the new Bellevue Hospital an unexpended balance of something more than \$100,000 and in lieu of making an additional appropriation of \$50,000 for this purpose, it occurs to me that an amendment of the original resolution so as to permit of that authorization of \$850,000 being extended to cover the equipment of the hospital, would be sufficient to make the funds then authorized available for this purpose.

I therefore recommend that the resolution of March 16, 1905, appropriating \$850,000 to provide means for the construction of the new Bellevue Hospital be amended so as to include construction and equipment of the new Bellevue Hospital.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

To the Board of Education:

The Committee on Buildings respectfully reports that the following communication has been received from the City Superintendent of Schools:

"Gentlemen—Since I made my report to your Committee on the sites which it is most desirable to improve for the purpose of relieving existing congestion in the schools, the City has acquired title to the site at Park and Grinnell avenues and Randall street, North Corona, Borough of Queens. Had the Board owned this site at the time I made up my report last February, I should have placed the improvement of this site among the most urgent improvements to be made. If there is still time, I recommend that a building on this site be erected, and that, in order to find money for the purpose, the proposed building adjoining Public School 99, Avenue K and East Ninth street, Brooklyn, be postponed for the present. In support of this proposition, I beg leave to say that in Public Schools 16 and 19, Corona, there are at present 637 pupils on part time, and in Public School 15, North Corona, there are 635 pupils on part time.

"Those who know the district well, assure me that the new building now in course of erection for No. 16 will relieve the crowded condition for only about six months and that further relief is urgently needed.

"I therefore recommend that a forty-eight classroom building with a division of classrooms as per the enclosed plan, be erected on the site at Park and Grinnell avenues and Randall street, North Corona, Borough of Queens."

Your Committee concurs in the recommendation of the City Superintendent of Schools and submits for adoption the following resolution:

Resolved, That the report and resolution adopted by the Board of Education on April 8, 1908 (see Journal, pages 573 to 576), relative to requesting the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$4,107,075 for the general construction of new elementary school buildings and additions, and necessary expenses in connection therewith, be and it is hereby amended by striking out the following, which appears under the caption, "Borough of Brooklyn;" "36, No. 99 (new) East Ninth street, near Avenue K, twenty-six rooms, \$182,000;" by striking out the amount in the total for said Borough and inserting instead the amount "\$2,099,000;" by inserting immediately under the caption "Borough of Queens" the following: "42, No. 92 Park and Grinnell avenues and Randall street, North Corona, forty-eight rooms, \$182,000;" and by striking out the amount in the total for said last-mentioned Borough and inserting instead the amount "\$1,286,500."

A true copy of a report and resolution adopted by the Board of Education, April 22, 1908.

A. EMERSON PALMER,
Secretary, Board of Education.

April 9, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a communication from the Board of Education requesting the authorization of an issue of Corporate Stock during the balance of the year 1908 to the amount of \$11,306,809 for the construction, equipment and improvement of school buildings and premises, which matter has already been partially considered in a report from the Bureau of Municipal Investigation and Statistics to the Comptroller, adopted at a meeting of the Board of Estimate and Apportionment held March 13, recommending the immediate issue of \$2,164,704 of said amount, under the provisions of clause 9, section 169 of the Charter, for the purpose of equipping new school buildings already under roof, I beg to report further as follows:

The total amount requested by the Board of Education is distributed as follows:

Schedule A—For equipping school buildings now under construction with electric work, heating and ventilating apparatus, furniture, etc.	\$2,164,704 00
Schedule B—For new buildings and additions, elementary schools.	7,668,500 00
Schedule C—For additions to high schools in the Borough of Brooklyn	900,000 00
Schedule D—For improving lots for light and air, playgrounds, exits, etc.	39,950 00
Schedule E—For contingencies, including salaries of Draughtsmen and Inspectors, cost of surveys, borings, draughting room supplies, etc. .	533,655 00
Total.....	\$11,306,809 00

As hereinbefore stated, the amount requested for equipping school buildings now under construction (Schedule A) has already been authorized. In addition to this amount (\$2,164,704) the Board of Estimate and Apportionment has since authorized the issue of Corporate Stock to the amount of \$600,000 for the construction of a new building for the Washington Irving High School, Manhattan, and of \$1,000,000 for permanent betterments for fire protection in sundry schools which are considered unsafe, requests for said amount for the former purpose and for \$3,000,000 for the latter having been presented to the Board of Estimate and Apportionment, subsequently to the original report of the Board of Education asking for \$11,306,809 for school building purposes for the current year.

In addition to the need of an immediate appropriation for the construction of elementary schools, it would appear that provision should be made for additional high school accommodations in the Borough of Brooklyn without delay. The original report of the Board of Education requested \$900,000 for additions to the Girls' High School, Erasmus Hall and the Boys' High School in said Borough, and stated that two additional new buildings for high school purposes are imperatively needed—one in the Ridgewood section and one in South Brooklyn. The figures compiled by the Committee on High and Training Schools and transmitted to the Board of Estimate and Apportionment, subsequently to the request for \$11,306,809 show that nearly 2,000 high school pupils are now being accommodated in annexes in the Borough of Brooklyn, and that the high school registration in said Borough is increasing at the rate of approximately 2,500 pupils per year at the present time.

The high school congestion in Brooklyn is greatest in the Girls' High School and in Erasmus Hall High School, and your Examiner would therefore recommend that the amounts requested for additions to said schools, viz., \$100,000 for the former and \$400,000 for the latter, be authorized at this time. In addition to said amounts, your Examiner would also recommend the authorization of Corporate Stock to the amount of \$4,107,075 for the construction of elementary schools and necessary expenses in connection therewith, including salaries of Draughtsmen, surveys, borings, draughting room supplies, etc., according to the resolution attached hereto, the specific contracts

to be covered by said amount having been designated by the Board of Education at the request of the Comptroller.

Respectfully yours,
(Signed) CHARLES S. HERVEY,
Supervising Statistician and Examiner.

Approved:
(Signed) H. A. Metz, Comptroller.

To the Board of Education:

The Committee on Buildings respectfully reports that at a meeting held on April 6, 1908, consideration was had on the following communication:

"April 1, 1908.

"Hon. EGERTON L. WINTHROP, Jr., President of the Board of Education:

"Dear Sir—Concerning the recent request of the Board of Education for an issue of Corporate Stock during the balance of the year 1908 to the amount of \$11,306,809, for the construction, equipment and improvement of school buildings and premises, \$2,164,704 of which amount has already been authorized for equipment, permit me to say that I am ready to recommend the authorization of \$4,000,000 for the construction of elementary schools if you will kindly furnish me with data showing the specific purposes for which it will be used.

"Yours truly,
"H. A. METZ, Comptroller."

The matter has been taken up with the City Superintendent of Schools and the Superintendent of School Buildings. The City Superintendent states that school accommodations are more deficient in the Borough of Brooklyn than in any other Borough, as is indicated by the fact that on February 28, 1908, there were 38,107 children on part time instruction, and that the order of necessity by Boroughs is as follows:

Brooklyn, Queens, Manhattan, The Bronx, Richmond.

Your Committee has selected as most urgent the school buildings enumerated in the subjoined list, all of which were embodied in the report adopted by the Board of Education on February 26, 1908 (see Journal, pages 345-346), with one exception, viz., Public School 28, Borough of Brooklyn. This building has been closed pending the making of certain changes to diminish danger in case of fire. It is a very old and poorly arranged frame structure, which, in the judgment of the City Superintendent, should never be used again.

Your Committee concurs with the City Superintendent and believes that this building should be demolished and replaced with a new fireproof edifice of at least thirty-six classrooms, to be constructed on the present site.

It is also deemed necessary to ask for a sum equal to five per cent. of the actual cost of erecting the buildings deemed most urgent, the same to be used for salaries of Draughtsmen, surveys, borings, draughting room supplies, etc.

The list above referred to is as follows:

Department of Finance—City of New York, }
April 21, 1908. }

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics of the Department of Finance, dated April 21, 1908, relative to the communication of the Commissioner of Street Cleaning, requesting that the salary of the Stablemen in said Department be fixed at \$760 per annum, with extra pay for Sunday work at the rate of 25 cents per hour, which matter was referred to a Select Committee, consisting of the Comptroller and President of the Board of Aldermen, at a meeting held March 6, 1908.

In view of the facts contained in said report, the adoption of the attached resolution is recommended.

Yours respectfully,
H. A. METZ, Comptroller;
P. F. McGOWAN,
President, Board of Aldermen;
Select Committee.

April 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Regarding the matter of the proposed increase in the annual salary of Stablemen in the Department of Street Cleaning, from \$720 to \$760, with extra pay for Sunday work at the rate of 25 cents per hour, referred by the Board of Estimate and Apportionment to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, and by you to this Bureau for investigation, I beg to report as follows:

As pointed out by the Commissioner in his communication requesting the increase, provision was made in the 1908 Budget for similar increases to other classes of the uniformed force of the Department, while the application made on behalf of the Stablemen was ignored.

It does not appear, however, that this action was due to any misapprehension, as suggested by the Commissioner. The chief reason was undoubtedly the insistent demand for rigid economy made at the time of final consideration of the depart-

mental estimates, which necessitated the excision from the Budget of every item open to possible question.

A careful investigation of the subject, however, fails to show any ground upon which a continuance of this discrimination can justly be based. Your examiner is assured by the Commissioner of Street Cleaning that he can see no practical difference in the value or the difficulty of the work performed by the two classes of men. Both work the same number of hours and the advantages and disadvantages of the two positions are about equally divided. The objection, therefore, which has been made to equalizing the pay of Sweepers and Drivers, viz., that it would result in creating a dearth of the latter, whose work is more exacting, does not obtain in this case, nor is there any ground upon which the present increase to the Stablemen can be made the excuse for a further increase to the Hostlers at some future time.

The fact undoubtedly is that the small increase here proposed would be only a partial recognition of the greatly increased cost of living which has occurred within recent years, and it is therefore recommended that the request of the Commissioner of Street Cleaning that the Board of Estimate and Apportionment recommend to the Board of Aldermen that the annual salary of Stablemen in the Department of Street Cleaning be fixed at \$760, with extra pay for Sunday work at the rate of 25 cents per hour, be granted, said increased rates to take effect upon the action of the Board so fixing them.

Yours respectfully,
(Signed) CHAS. S. HERVEY,
Supervising Statistician and Examiner.

Approved:
(Signed) H. A. Metz, Comptroller.

Whereas, The Board of Estimate and Apportionment, at a meeting held April 24, 1908, adopted the following resolution:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment held April 24, 1908, a report was presented from the Commissioner of Docks and Ferries (to whom on April 10, 1908, was referred the resolution of the Board of Aldermen requesting the establishment of a recreation pier in the vicinity of East Forty-eighth and Forty-ninth streets, from Second avenue to the East River, Manhattan), stating that it is deemed inadvisable and unnecessary to set apart additional recreation piers in this vicinity, which was ordered on file, and in accordance with the direction of the Board I transmit herewith a copy of said report for the information of the Board of Aldermen.

Very truly yours,
WILLIAM M. LAWRENCE,
Assistant Secretary.

April 17, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

Sir—At a meeting of the Board of Estimate and Apportionment held April 10, 1908, a resolution was presented from the Board of Aldermen requesting the establishment of a recreation pier in the vicinity of East Forty-eighth and Forty-ninth streets, from Second avenue to the East River, Borough of Manhattan, a copy of the resolution of the Board of Aldermen being attached thereto, which was referred to the Commissioner of Docks for consideration and report.

Section 837 of the Greater New York Charter relative to recreation piers provides as follows:

"The Commissioner of Docks is hereby authorized to set apart * * * and such other piers along the Hudson River water-front and the East River water-front of the said city, as the said Commissioner of Docks shall deem, from time to time, necessary for the use of the inhabitants of The City of New York, as hereinafter provided." * * *

Requests have been made from time to time for the setting apart of piers at the foot of East Forty-ninth street as recreation piers, and the former Commissioners of the Department have deemed it inadvisable and unnecessary to set apart additional recreation piers in this vicinity. In this view I concur.

Yours respectfully,
(Signed) ALLEN N. SPOONER,
Commissioner.

The Vice-Chairman laid before the Board the following communication from the Trustees of the College of The City of New York.

No. 662.

The College of The City of New York,

New York, April 28, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City of New York, N. Y.:

Dear Sir—There is herewith submitted for consideration by the Board of Aldermen, a form of resolution requesting an issue of Special Revenue Bonds in an

amount not exceeding \$42,000, for the purpose of meeting deficiencies in the Salary and Fuel Appropriations of the College of The City of New York for the year 1908.

This request is made necessary owing to the fact that the Board of Estimate and Apportionment did not appropriate sufficient funds for the Salary and Fuel Appropriations for the above mentioned year. It is requested that early action be taken by the Board on this application, as it is most urgent that additional funds be appropriated as soon as possible so as to provide for the deficiencies in the payroll accounts and for the purchase of fuel at a very early date.

Yours truly,
THEO. F. MILLER,
Chairman, Finance Committee.

Resolved, That, pursuant to subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not exceeding forty-two thousand dollars (\$42,000), the proceeds whereof to be expended by the Board of Trustees of the College of The City of New York for the purpose of meeting the deficiencies in the Salary and Fuel Appropriations of the College for the year 1908, as follows:

No. 663.

Department of Public Charities.
Foot of East Twenty-sixth Street,
April 25, 1908.

Hon. P. F. McGOWAN, President, Board of Aldermen, City Hall, City:

Dear Sir—On the afternoon of April 15, at about 1.15 o'clock, as the undersigned was going to luncheon in the automobile (Berliet No. 12924) of this Department assigned to this office for service, a southbound trolley car, No. 2015, of the Third avenue line, in charge of motorman No. 938, ran into the machine from behind at Twenty-first street and Third avenue, as we were going on the track from the westerly roadway, which was impeded by trucks, and smashed the machine against an iron pillar of the elevated railway in the middle of the street, causing much damage to the automobile.

The following statement has been received estimating the damages to the Department's Berliet automobile, from the American Locomotive Automobile Company, manufacturers of the said car:

"Following your communication of April 22, we have made an examination of your Berliet car No. 12924, which was damaged in collision, and herewith hand you our estimate to make the necessary repairs and renewals to put the car in first class condition:

"One new frame.
"One new dash.
"One new transmission case.
"One new driving shaft.
"One new speed shifter rod.
"One new motor crank case.
"One new front wheel.
"One new front spring.
"One new steering connection.
"One new body.

"In addition to this we will repair the top and make all necessary repairs and renewals to the chassis, and do whatever repainting necessary to put the car in first class condition for the sum of \$1,800, net."

I would respectfully request that permission be granted to this Department to have the repairs to this automobile made without public letting at a cost not to exceed \$1,800.

This matter has been called to the attention of the Corporation Counsel, with a view to having the railroad company pay for the damage to the machine, if possible,

Respectfully yours,
ROBERT W. HEBBERD, Commissioner.

Resolved, That the Commissioner of Public Charities be and he hereby is authorized and empowered, in pursuance of the provisions of section 419 of the Greater New York Charter, to enter into contract without public letting for the repair of one automobile, a Berliet car No. 12924, belonging to said Department, and which was damaged in collision, on April 15, with a car No. 2015 of the Third avenue line, at a total cost not to exceed \$1,800.

Which was referred to the Committee on Public Letting.

No. 24 to 24 J.

The Committee on Salaries and Offices, to which was referred (see minutes of January 6, 1908, page 50) resolutions adopted by the Board of Estimate and Apportionment fixing the schedules of positions and grades in

The Clerical Service,
The Engineering Service,
The Inspection Service,
The Attendance Service,
The Ferry Service,
The Prison Service and
The Medical Service

—of The City of New York, respectfully

REPORTS:

Realizing the importance of the subject the Committee has given it the most careful consideration. A public hearing was held March 19, 1908, and an opportunity given all persons interested to be heard.

Except for a few positions in the "Inspection Service," the rates of compensation set forth in each grade seemed to meet the approval of all the speakers, but a decided opposition was made to limiting increases of salaries to \$150 in any one year, on the ground that it provided for the service of one year in the grade only as the requisite for an increase of salary and was not based upon merit and fitness, which is contrary to the letter and spirit of the Civil Service Laws, a ground which your Committee considered not without merit, as it would place employees only one year in a grade, for the purpose of an increase of salary, upon the same footing with employees who had been years in the same grade, and would be unjust to many who have grown gray in the service of the City.

Limiting the increase of any salary in a grade to \$150 in any one year, would prevent the City from competing for the retention of the services of a particularly efficient employee when private individuals sought his services at a greater increase of salary.

While there may be some merit in limiting increases of salaries not to exceed \$150 at any one time, your Committee feel that the head of each department in the City government should have power to increase salaries within a grade, automatically increasing \$150 at a time, to the maximum of a grade in a year if an employee be worthy of such increase.

The placing of the position of Janitors of the Board of Education in "The Attendance Service," in a grade from \$540 to \$1,200 per annum, would paralyze the work of caring for school buildings. In that department a sum is fixed for the entire care of a school building, the amount being figured upon the size of the building, the floor and yard space, number of boilers, furnaces, stoves, steam and gas engines, pumps, dynamos, hot water heaters, etc. The moneys paid to a public school Janitor do not

constitute a salary, as he is responsible for the entire plant and fixes and defrays the cost of labor out of the moneys received from the Board of Education, receiving himself, as compensation, the differences between the sum of his disbursements and the total sum paid to him. It is obvious that the grades recommended, running from \$540 to \$1,200 for the position of Janitor are absurd as respects the Board of Education.

Your Committee disapproves of the schedule as herewith presented and recommends the following resolution for adoption:

Resolved, That the resolutions adopted by the Board of Estimate and Apportionment recommending the adoption by the Board of Aldermen of schedules of positions and grades in the Clerical Service, the Engineering Service, the Inspection Service, the Attendance Service, the Ferry Service, the Prison Service and the Medical Service of The City of New York be and the same are hereby returned to the Board of Estimate and Apportionment, and that Board is hereby respectfully requested:

To modify the schedules by striking from them the words: "No increase until after at least one year's service at this rate," or the words "six months" or "two years," whichever the length of time is, following the rate of compensation of the subdivision of a grade.

To omit from each schedule the following clause: "Such increase shall be subject to at least the period of service fixed in the schedule for each subdivision, and shall be limited to the next higher rate of compensation."

To exempt the position of Janitor in the Board of Education from the provisions of "The Attendance Service" schedule.

No. 583.

The Committee on Streets, Highways and Sewers, to which was referred on April 7, 1908 (Minutes, page 115), the annexed resolution in favor of permitting use of sidewalks in front of Nos. 766 to 822 First avenue by Schwarzschild & Sulzberger Company, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission will not interfere in any way with the convenience of the public, and will materially assist in the quick loading and unloading of wagons which might otherwise obstruct the street.

The Committee recommends that the said resolution be adopted.

(SUBSTITUTE.)

Whereas, Schwarzschild & Sulzberger Company has made an application to the Board of Aldermen of The City of New York for permission to use the sidewalk in front of from No. 766 First avenue to No. 822 First avenue.

Whereas, It appears that the east side of First avenue is entirely devoted to the packing house industry, and that between Forty-third and Forty-sixth streets on the east side of the said avenue there are no dwelling houses whatsoever, and all the loading and unloading of meats and packing house products is done in front of the various plants there situated, and there are no yards or other places adjacent or contiguous to the said plants, including the plant of the said Schwarzschild & Sulzberger Company, where the loading and unloading can be done; and

Whereas, For years past such loading and unloading has been done and conducted without material inconvenience to the public on the said First avenue between the said streets, and such work of loading and unloading in such places is an absolute necessity, caused by the congested conditions prevailing in the said section of this City; and

Whereas, There is practically no pedestrian traffic on the east side of the said First avenue between Forty-second and Forty-sixth streets, except the passing of people engaged in the pursuit of the business in whose interest the permission to use the sidewalk is hereby applied for; now therefore be it

Resolved, That permission be and the same is hereby given to the Schwarzschild & Sulzberger Company to place and keep platforms within the stoop line in front of its several premises, No. 766 to No. 822 First avenue, in the Borough of Manhattan; the said platforms to be used in facilitating the receipt and delivery of merchandise, and to be constructed so as to leave a free passageway for pedestrians at all times; the work to be done at the expense of the said Schwarzschild & Sulzberger Company, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE BRIDGE Commissioner, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale, at public auction, the buildings now standing on property owned by The City of New York, acquired for bridge purposes in the

Borough of Queens.

Being the one-story frame building and a portion of another one-story frame building in the neighborhood of Jane street and Hunter avenue, in the Borough of Queens, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Room 141, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held April 14, 1908, the sale of the above described buildings will be held, by direction of the Comptroller, on

WEDNESDAY, MAY 13, 1908,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS:

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regu-

lations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Queens, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above-mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids. And it is further Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

INVITATION TO CONTRACTORS.

(FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET, MANHATTAN BRIDGE, NO. 1.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at the northerly side of Nassau Street and runs thence under said Flatbush Avenue Extension to a point about 20 feet north of the centre line of Willoughby Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. A station between Tillary Street and Johnson Street will be constructed; and suitable cross-overs, turn-outs and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by open excavation unless otherwise provided in the contract or directed by the Commission; such portions of the street, however, where the work may not be completed and the backfill is not placed at the expiration of fifteen months from the time of executing the contract, must be substantially boarded over to permit freedom of traffic, if so ordered by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad. The buildings standing within the lines of the said Flatbush Avenue Extension are being, or are to be, demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this Invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908, at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FLATBUSH AVENUE EXTENSION, NASSAU STREET TO WILLOUGHBY STREET," and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

INVITATION TO CONTRACTORS.

WILLOUGHBY STREET TO ASHLAND PLACE.

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point about 20 feet north of the centre line of Willoughby Street and runs through Flatbush Avenue Extension, private property and Fulton Street to and under Ashland Place to a point about 40 feet south of the south line of Fulton Street.

on the detailed plans of construction. (FOURTH AVENUE AND ASHLAND PLACE—FULTON STREET TO SACKETT STREET.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn which begins at a point under Ashland Place about forty (40) feet South of the South line of Fulton Street and runs through and under Ashland Place and private property on the West side of Ashland Place, under the present Subway structure in Flatbush Avenue, and along and under Fourth Avenue and private property on the Easterly side thereof to Pacific Street, thence continuing Southerly along and under Fourth Avenue to a point about sixty (60) feet North of the North line of Sackett Street.

In the detailed plans for construction, provisions for pipe galleries along the line of the railroad are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Commission reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions along the line of the proposed railroad.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Commission, No. 154 Nassau Street, in the Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this Invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-four months from the date of delivery of the contract.

Sealed bids or proposals will be received at the said office of the Commission, at No. 154 Nassau Street, in the Borough of Manhattan, The City of New York, until

FRIDAY, THE 8TH DAY OF MAY, 1908,

at 12 o'clock noon, at which time or at a later date to be fixed by the Commission the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

The proposal must contain a statement, in the form prescribed, of the quantities and unit values upon which the bid is based. Such statement shall be merely for the information of the Commission to enable it to determine upon what basis the proposal is made and for no other purpose whatsoever, and the Commission shall not be bound in any way to make payments or value work done, upon the basis of such quantities and unit values contained in such statement.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Commission.

The award of the contract or contracts (if awarded) will be made by the Commission within twenty days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of two hundred thousand dollars. At the op-

tion of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which Savings Banks may invest their funds and must be approved by the Commission. The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Bidders whose proposals are otherwise satisfactory to the Commission may, in case the sureties or securities named by them are not approved by the Commission, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Commission; but such substitution must be made within five days after notice of disapproval by the Commission, unless this period is extended by the Commission.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to the defaulting bidder. And the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "PROPOSAL FOR CONSTRUCTING RAPID TRANSIT RAILROAD—FOURTH AVENUE AND ASHLAND PLACE FROM FULTON STREET TO SACKETT STREET" and must be delivered to the Commission or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State Bank or Trust Company within The City of New York, and satisfactory to the Commission, payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

PROPOSALS FOR CONSTRUCTION OF RAPID TRANSIT LINES IN BROOKLYN.

INVITATION TO CONTRACTORS.

(FOURTH AVENUE, SACKETT STREET TO TENTH STREET.)

THE City of New York, acting by the Public Service Commission for the First District, by this advertisement invites proposals to construct that part of the proposed Fourth Avenue Subway in the Borough of Brooklyn between points on Fourth Avenue 60 feet north of the north line of Sackett Street and 10 feet north of the north line of Tenth Street.

The general plan of construction calls for a four-track subsurface Railroad, but the Contractor will not be required under the contract proposed to provide or lay tracks, ties or ballast. Two stations, one between Union Street and President Street, and one between Eighth Street and Ninth Street, will be constructed; and suitable cross-overs, turnouts and sidings are also to be provided, all as indicated on the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the stations are intended to be placed within private property, rights in which will be acquired for the purpose, or on the streets, or on the sidewalks adjacent to private property, as indicated on the plans.

The manner of construction shall be by excavation under cover, unless otherwise provided in the contract or directed by the Commission.

In the detailed plans for construction, provisions for pipe galleries along the line of the tunnel are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond.
