With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- *Win More Contracts at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)

Statement of Basis and Purpose of Proposed Rules

The Department of Environmental Protection (“DEP” or the “Department”) is proposing rules to amend Title 15 of the Rules of the City of New York (RCNY) by adding a new Chapter 56 that would establish penalties for violations of Chapter 5 and 5-A of Title 24 of the Administrative Code of the City of New York (Administrative Code), Chapter 19 of Title 15 of the RCNY, and Chapter 19.1 of Title 15 of the RCNY.

The proposed rules would establish the Sewer Control Rules Penalty Schedule, to be found at a new Chapter 56 of Title 15 of the RCNY. The proposed rules are, in part, needed to comply with the New York City municipal separate storm sewer system permit (NYC MS4 permit), issued by the New York State Department of Environmental Conservation (NYSDEC) on August 1, 2015 pursuant to the Federal Clean Water Act.

The NYC MS4 permit requires the City to develop and implement a number of programs to reduce pollutants in certain stormwater discharges to local waterbodies. To that end, DEP has proposed a new

Chapter 19.1 of Title 15 of the RCNY, which enables the Commissioner to protect waters of the state by establishing the following two new regulatory programs required by the NYC MS4 permit:

- (i) an inspection and enforcement program to ensure that industrial stormwater sources are in compliance with State and Local stormwater requirements; and
- (ii) a permitting, inspection and enforcement program for covered development projects, as defined in the rule, including requirements for construction and post-construction stormwater controls, standards for such controls, and penalties for non-compliance with the rules and permit conditions.

The proposed Sewer Control Rules Penalty Schedule is intended, in part, to enforce the program described in (i) above. The program described in (ii) above will have a separate penalty schedule.

The existing Sewer Control Rules Penalty Schedule, which is located in the rules of the Office of Administrative Trials and Hearings' Environmental Control Board (OATH ECB) at 48 RCNY§ 3-123, will be repealed by OATH ECB on the same day that these proposed rules take effect. The proposed Sewer Control Rules Penalty Schedule is unchanged from the existing rule, except for additional penalties to enforce the following new sections in the proposed new Chapter 19.1 of Title 15 of the RCNY and Chapter 5-A of Title 24 of the Administrative Code:

- 15 RCNY 19.1-02.1 - Discharge in excess of interim or final limits for toxic parameter under SPDES Multi-Sector General Permit
- 15 RCNY 19.1-02.1 - Discharge in excess of interim or final effluent limits for non-toxic parameter under SPDES Multi-Sector General Permit but less than 10x the limit / Unauthorized discharge
- 15 RCNY 19.1-02.1 - Discharge in excess of interim or final effluent limits for non-toxic parameter under SPDES Multi-Sector General Permit and equal to 10x the limit or greater / Significant unauthorized discharge
- 15 RCNY 19.1-02.3 - Refusal to allow inspection/tampering with sampling or testing device
- A.C. 24-573/15RCNY 19.1-02.4 - Failure to maintain/submit required record/report
- A.C. 24-585 - Failure to comply with Comm's Order
- 15 RCNY 19.1-02.1 - Failure to comply with terms of permit reporting requirements
- 15 RCNY 19.1-02.1 - Failure to comply with terms of permit other than reporting requirements
- 15 RCNY 19.1-01.4 - Failure to comply with Storm Water Pollution Prevention Plan
- 15 RCNY 19.1-02.1 - Providing false or misleading information
- 15 RCNY 19.1-01.4 - Failure to protect against accidental discharge
- A.C. Title 24, Ch.5-A and 15 RCNY Ch. 19.1 - Miscellaneous Administrative Code/Rule violation
- A.C. Title 24, Ch.5-A and 15 RCNY Ch. 19.1 - Any serious Administrative Code/Rule violation

The proposed version of Sections 19.1-01 through 19.1-02 of these rules has been published and is expected to be in effect when this penalty schedule goes into effect. These sections relate to the general administration, and enforcement of the industrial and commercial stormwater control program.

Although OATH ECB is empowered to impose penalties under the City Charter and has until now promulgated penalty schedules, the regulatory and enforcement agencies have the necessary expertise to

determine appropriate penalties for violations of the rules and of the laws within their jurisdiction based on the severity of each violation and its effect on City residents. Moving the penalty schedule to DEP's rules will also make it easier for the public to find the penalties, which will be located within the same chapter as the rules supporting the violations alleged in the summonses. Finally, the proposed rule relocation will speed up the rulemaking process by eliminating the need for OATH ECB approval of proposed or amended penalties for agency rules that have already been established by the legislature and/or that have already undergone the City Administrative Procedure Act (CAPA) process by the enforcement agency. The public will still have the opportunity to comment on proposed penalties during that process.

Working with the City's rulemaking agencies, the Law Department, the Mayor's Office of Management and Budget, and the Mayor's Office of Operations conducted a retrospective rules review of the City's existing rules, identifying those rules that will be repealed or modified to reduce regulatory burdens, increase equity, support small businesses, and simplify and update content to help support public understanding and compliance. The proposed repeal of 48 RCNY §3-123 was identified as meeting the criteria for this initiative.

New material is underlined.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of the department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1: Title 15 of the Rules of the City of New York is amended by adding a new Chapter 56 to read as follows:

A COPY OF THE CIP CAN BE OBTAINED FROM THE NEW YORK CITY DEPARTMENT OF ENVIRONMENTAL PROTECTION BUREAU OF WASTEWATER TREATMENT, DIVISION OF POLLUTION CONTROL AND MONITORING. Statement of Basis and Purpose of Proposed Rule

The Department of Environmental Protection (“DEP or the “Department”) is proposing a new Chapter 55 to amend Title 15 of the Rules of the City of New York (RCNY) that would establish penalties for violations of Chapter 19.1 of Title 15 of the Rules of the City of New York. The proposed Chapter 19.1 rules are needed to comply with the New York City municipal separate storm sewer system permit (NYC MS4 permit), which requires the City to reduce pollutants in stormwater runoff that discharge to the local waterbodies. The NYC MS4 permit was issued by the New York State Department of Environmental Conservation (NYSDEC) on August 1, 2015, in accordance with the Federal Clean Water Act.

Chapter 19.1, which is being promulgated under separate rulemaking, enables the Commissioner to protect waters of the state by establishing two new regulatory programs:

- (i) an inspection and enforcement program to ensure that industrial stormwater sources are in compliance with state and local stormwater requirements; and
- (ii) a permitting, inspection and enforcement program for covered development projects, as defined in proposed Chapter 19.1, including requirements for construction and post-construction stormwater controls, standards for such controls, and penalties for non-compliance with the rules and permit conditions.

The proposed Chapter 55 penalty schedule is intended to enforce the program described in (ii) above. The fine range is based on the lowest possible permit fee- \$3000.00 (1-acre of development) - and the highest allowed by the MS4 legislation. The program described in (i) above will have a separate penalty schedule.

The proposed rules are authorized by Section 1043 of the Charter of the City of New York and Chapter 5-A of Title 24 of the Administrative Code.

New material is underlined.
[Deleted material is in brackets.]

“Shall” and “must” denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

The text of the Rule follows.

Section 1. Title 15 of the Rules of the City of New York is amended by adding a new Chapter 55 to read as follows:

- (b) A second offense occurs when a respondent is found to be in violation of the same section of the rules twice within two years. A third offense occurs when a respondent is found to be in violation of the same section of the rules for the third time within two years.
- (c) Mitigation is available for first offenses where respondent has satisfied the conditions set forth in the “Mitigation” column of the penalty schedule set forth below.

Statement of Basis and Purpose

Section 421-a of the Real Property Tax Law (RPTL) provides real property tax exemptions for eligible new multiple dwellings. In New York City, HPD determines eligibility for these exemptions and is responsible for ensuring that applicants for the exemption comply with eligibility requirements, including the requirement that the applicant's building service employees receive a prevailing wage.

Chapter 20 of the Laws of 2015 amended the 421-a Statute to add enforcement oversight over the building service employees' prevailing wage requirements by designating enforcement authority to the fiscal officer, which, in New York City, is the Comptroller. Chapter 20 of the Laws of 2015 also articulated the fiscal officer's enforcement powers, which include conducting investigations to determine the prevailing wage for building service employees, holding related hearings, and issuing rules necessary for the proper execution of the duties, responsibilities, and powers conferred upon the fiscal officer by Chapter 20.

Chapter 20 additionally adopted a new extended benefit, provided in subdivision 17 of RPTL 421-a, that is available to multiple dwellings that commenced construction prior to July 1, 2008, and that had been granted either 25 or 20 years of Section 421-a benefits prior to June 15, 2015, for making at least 20% of their dwelling units affordable to persons or families of low income. The Comptroller is also the designated enforcement authority over the building service employees' prevailing wage requirements for buildings receiving the Section 421-a (17) extended benefits.

Chapter 59 of the Laws of 2017 amended RPTL Section 421-a(16) and provided for Affordable New York Housing Program tax exemption benefits for buildings that commenced construction after December 31, 2015, and on or before June 15, 2022, and who completed construction no later than June 15, 2026. Chapter 59 of the Laws of 2017 requires compliance with the prevailing wage requirements for building service workers and also provides enforcement authority to the Comptroller.

Certain buildings are exempt from the prevailing wage requirement for building service workers based upon a designated percentage of affordable units at a prescribed Area Median Income and, in the situation of a rental building, the maintenance of the affordability of such units for the duration of the respective restriction period ("Affordability Exception"). By statutory fiat, HPD must decide whether or not a building is eligible for the Affordability Exception.

HPD's proposed rule amendments clarify that any decision that HPD renders regarding the Affordability Exception is not a final determination until HPD either (a) issues an Order pursuant to this Chapter 50, or (b) issues an Applicant a letter indicating that such Applicant is ineligible for the real property tax exemption associated with such prevailing wage for building service workers requirement. The proposed rule amendments also make some technical corrections to Chapter 50.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation

Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Final Environmental Impact Statement (FEIS) has been prepared for the action described below. Copies of the FEIS are available for public inspection, at the office of the undersigned. The proposal involves actions by the City Planning Commission. A public hearing on the FEIS, was held on October 17, 2018. Written comments on the DEIS were requested and received by the Lead Agency until 5:00 P.M., on Monday, October 29, 2018. The FEIS incorporates responses to the public comments received on the DEIS and updated analysis conducted subsequent to the completion of the DEIS.

Cherry Street Owner, LLC, Two Bridges Associates, LP and LE1 Sub LLC (the Applicants) are requesting discretionary approvals (the "proposed actions") to facilitate a mixed-use development, on several parcels within the Two Bridges Large Scale Residential Development (Two Bridges LSRD). The Two Bridges LSRD is bounded by the midblock area between Clinton Street and Montgomery Street; Cherry, Clinton, and South Streets; and mid-block between Rutgers Slip and Pike Slip, within the Lower East Side neighborhood of Manhattan in Community District (CD) 3.

The three project sites — Sites 4 (4A/4B), 5, and 6A — are located in a C6-4 zoning district. (The numbering of the sites in this document corresponds with that used in the Two Bridges LSRD.) Site 4 (4A/4B), controlled by Cherry Street Owner, LLC, occupies the northeast corner of Block 248, Lots 15, 70, and 76. Site 5, owned by Two Bridges Associates, LP, occupies Block 247, Lots 1 and 2. Site 6A is owned by LE1 Sub LLC and occupies Block 246, Lot 5. C6-4 districts are commercial districts that permit a maximum floor area ratio (FAR), of 10.0 for commercial, community facility, or residential uses (or up to 12.0 FAR with inclusionary housing).

The proposed development would include a total of approximately 2,527,727 gross square feet (gsf) of new residential space (up to 2,775 new dwellings, of which 25 percent or up to 694 units would be designated as permanently affordable, including approximately 200 new units of low-income senior housing), approximately 10,858 gsf of retail space, approximately 17,028 gsf of community facility space, and approximately 33,550 square feet (sf) of publicly accessible open space, across three development sites. The three proposed projects have separate developers, approvals, and financing; however, they are being considered together for environmental review purposes since all three project sites are located within the Two Bridges LSRD, and would be developed during the same construction period. As such, the FEIS evaluates the potential environmental impacts of the three proposed projects cumulatively.

The proposed projects each require a minor modification to the previously approved Two Bridges LSRD (originally approved by CP-21885; last amended by M 120183 ZSM). The proposed modifications to the Two Bridges LSRD Special Permit, would enable the development of three new mixed-use buildings within the Two Bridges LSRD. The new mixed-use developments on each of the three project sites would comply with the underlying C6-4 district regulations applicable to the sites under the Zoning Resolution, and no discretionary use or bulk waivers would be required to facilitate the proposed projects. However, the previously approved Two Bridges LSRD site plans restrict the maximum developable floor area, lot coverage, location of buildings, and other features of development on the Two Bridges LSRD sites. The requested minor modifications would modify the approved site plans to enable the proposed developments to be constructed within the Two Bridges LSRD boundary, utilizing unused existing floor area.

Separate from the minor modification, and not subject to environmental review, the Site 6A project also would require a certification, pursuant to Section 32-435 of the Zoning Resolution of the City of New York to waive the ground-floor retail requirement along Clinton Street, a "wide street" as defined in the Zoning Resolution.

Absent the proposed actions, no changes would be made to the project sites. A future build year of 2021 is examined to assess the potential impacts of the proposed actions.

The FEIS identifies potential significant adverse impacts related to community facilities (child care and elementary schools), open space, shadows, transportation (traffic, pedestrians flows, and transit), and Construction (traffic and noise).

Mitigation measures for the potential significant adverse impacts related to child care will, if required, include the provision of funding to support adding capacity to existing or new facilities or the provision of a new child care facility within the project sites. The Restrictive Declarations for the proposed projects, will require the applicants to work with New York City Administration for Children's Services to consider the need for additional capacity within the 1½-mile study area and the implementation of measures, to provide additional capacity, if required, to mitigate the significant adverse impact to publicly funded child care facilities. Absent the implementation of such mitigation measures, if needed, the proposed projects would have an unmitigated significant adverse impact on publicly funded child care facilities.

Mitigation measures for the potential significant adverse impacts related to schools were explored by the applicant in consultation with

the New York City Department of City Planning (DCP), the New York City Department of Education (DOE), and the New York City School Construction authority (SCA). The Restrictive Declarations for the proposed projects will require the applicants to fund the increase in school seat capacity in CSD 1, if required. The mitigation measures reflect the nature and scope of the elementary school impact, taking into account the assessment in Chapter 4, "Community Facilities." DOE and SCA would continue to monitor trends in demand for school seats in the area. With the funding provided by the applicants, DOE and SCA responses to identified demand could take place in stages and include administrative actions and/or enlargement of existing schools. The CEQR Technical Manual lists potential mitigation measures for public school impacts, which may be implemented with these funds. These measures may include, but are not limited to, relocating administrative functions to another site, thereby freeing up space for classrooms; making space within the buildings in the school study area available to DOE; and/or restructuring or reprogramming existing school space within a district. Absent the implementation of such measures, if needed, the proposed projects would have an unmitigated significant adverse impact on public elementary schools.

Potential mitigation measures for the open space impacts were explored by the applicants in consultation with DCP and the New York City Department of Parks and Recreation (NYC Parks), between the DEIS and FEIS. As partial mitigation for the open space impact, the existing approximately 15,868 sf (approximately 0.36 acres) of private open space on Site 4 (4A/4B) would be dedicated as publicly accessible open space. In addition, the renovation of existing open spaces in the vicinity of the project sites has been identified as a practicable mitigation measure. Coleman Playground, Captain Jacob Joseph Playground, and Little Flower Playground have been proposed as potential resources to be reconstructed, as described below in "Open Space." Given that these improvements would improve the quality but not quantity of open space available in the study areas, the significant adverse impacts on open space would not be fully mitigated and therefore the proposed projects would result in unmitigated significant adverse impacts on open space.

Potential mitigation measures for the shadows impacts were explored by the applicants in consultation with DCP and NYC Parks, and were refined between the DEIS and FEIS. The proposed mitigation measures include dedicated funding for enhanced maintenance at the Cherry Clinton Playground and the Lillian D. Wald Playground to mitigate the significant adverse impact to the users, and the trees of the Cherry Clinton Playground, and the users of the Lillian D. Wald Playground. With the implementation of these mitigation measures, the impacts would be considered partially mitigated. As the significant adverse shadows impact would not be fully mitigated, the proposed projects would result in unmitigated significant adverse shadows impacts to these resources.

The majority of the locations where significant adverse operational traffic impacts are predicted to occur could be fully mitigated with the implementation of standard traffic mitigation measures (e.g., signal timing changes and lane restriping), as described below. The proposed traffic mitigation measures have been reviewed by the New York City Department of Transportation (NYCDOT) and deemed practicable for future implementation. The significant adverse traffic impacts at the South Street and Montgomery Street, and at the Chatham Square and Worth Street/Oliver Street intersections could not be mitigated; these intersections are projected to experience unmitigated significant adverse traffic impacts. The same or similar traffic mitigation measures identified to mitigate the operational impacts could be implemented early at the discretion of NYCDOT to mitigate the temporary impacts during construction.

Several potential options were explored in consultation with DCP and New York City Transit (NYCT) to mitigate the identified transit impacts. The mitigation measures considered for the proposed projects include building a new street-level subway entrance at the south end of the station (on the northeast corner of Rutgers Street and Madison Street), and widening the platform-level stairway and adjoining mezzanine level stairway. These measures would fully mitigate the identified significant adverse impacts. Coupled with these stairway improvements would be two new elevators that would make the station ADA-compliant for vertical circulation. These elevators would be located at the north end of the station (on the east side of Rutgers Street just south of East Broadway), as the platform at the south end has a column structure that precludes the elevators being built next to the new street and mezzanine stair at the south end of the station. NYCT has confirmed the feasibility of the mitigation measures at a conceptual engineering level, and NYCDOT has determined that these mitigation measures are practicable. If during later engineering phases these measures are deemed infeasible and no alternative mitigation measures can be identified, then the significant adverse stairway impacts would be unmitigated.

The potential pedestrian mitigation measures consist of signal timing changes and crosswalk widening, and widening the north sidewalk at the northeast corner of Rutgers Street and Madison Street (in connection with the proposed subway station mitigation), to facilitate increased

pedestrian space. Similar to traffic, the proposed pedestrian mitigation measures have been reviewed by NYCDOT and deemed practicable.

No feasible and practicable mitigation measures have been identified that would fully mitigate the construction-period noise impacts. The construction-period noise impacts would remain unmitigated.

The FEIS identifies potentially unavoidable significant adverse impacts in the areas of community facilities (child care and elementary schools), open space, shadows, transportation, and construction. The FEIS evaluates three alternatives to the proposed action: a No Action Alternative, a Limited Height Alternative, and a No Unmitigated Significant Adverse Impact Alternative.

Copies of the FEIS may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Olga Abinader, Acting Director (212) 720-3493; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Hilary Semel, Director (212) 788-9956; and on the New York City Department of City Planning's website, located at <https://www1.nyc.gov/site/planning/applicants/eis-documents.page>.
