Scope of Work

This project will reconstruct the playground, adjacent path system and sitting areas at the north end of Bensonhurst Park.

This project will construct a new skate park, basketball courts, fitness area and multi-purpose space in the northern parcel of Betsy Head Park.

This project will construct a new dog run in the Parade Ground.

This project will reconstruct the Willink Entrance to Prospect Park and construct two new entrances: a new grand entrance and pedestrian bridge at the existing berm separating Flatbush Avenue from the Rose Garden, south of Grand Army Plaza, and a new minor entrance connecting Flatbush Avenue to the internal pathway east of the Dongan Oak Monument.

This project will reconstruct the damaged sidewalk and fencing along Flatbush Avenue. The new sidewalk will have exposed aggregate concrete, new ornamental fencing, a double row of street trees, benches, and light poles.

This project will reconstruct stairs, handrails and landings in Sunset Park.

This project will reconstruct the basketball courts and construct a new skate park at Rudd Playground including a new accessible ramp to connect the two levels within the park and reconstruction of pavements, stairs, fencing, benches, plantings, drainage and water supply systems, and park security lighting.

This project will reconstruct the children's play area in Homecrest Playground, including the spray shower, play equipment, paving, site furniture, landscaping and utilities.

This project will reconstruct the sports courts and plaza (southern parcel) at La Guardia Playground.

This project will reconstruct the tennis courts in John J. Carty Park.

This project will reconstruct Penn Triangle.

This project will reconstruct the existing dog run to provide separate dog runs for both small and large dogs with new surface materials, drinking fountains for both dogs and their owners, and seating at Manhattan Beach Park.

This project will reconstruct Public Place Mall.

This project will reconstruct the playground at Jacob Joffe Fields.

This project will reconstruct the comfort station in Newport Playground.

This project will reconstruct the play equipment, safety surfacing, handball courts, basketball courts, pavements, fencing, site plumbing and general site work at various parks in Brooklyn.

This project will construct comfort stations at Yolanda Garcia Park, Lyons Square Playground, and Saw Mill Playground in the Bronx; Ten Eyck Playground in Brooklyn; and Luther Gulick Park in Manhattan, and reconstruct Saw Mill Playground with a basketball court, track and synthetic turf field, fitness and play equipment, and a spray shower.

This project will reconstruct the dog run at Corlears Hook Park, adding stable ground surface, water features and dog waste containers, and replacing fencing.

This project will reconstruct Adventure Playground and Sunken Playground, install park pathway lighting to the historic High Bridge, and construct a new synthetic turf practice field at Highbridge Park.

This project will reconstruct Bull Moose Dog Run in Theodore Roosevelt Park.
