The Committee on Law Department respectfully

REPORT:

For such action as the Board may deem best, and without any recommendation on the part of the Committee, the annexed resolution:

Resolved, That section 244 of article 24 of chapter 8 of the Revised Ordinances of the Mayor, Aldermen, and Commonalty of the City of New York, in force January 1, 1881, be and the same is hereby repealed, rescinded, and annulled.

Which was laid over.

The Committee on Law Department having ascertained the accuracy of the statements contained in the annexed petition, respectfully

REPORT:

For your adoption, the following resolution:

Resolved, That the resolution approved March 9, 1877, permitting licensed vendors to stand with their wagons in the carriageway, close to the curb-stones, on the west side of Third avenue between One Hundred and Sixteenth and One Hundred and Seventeenth streets, in the evening, be and the same is hereby annulled, rescinded and repealed.

J. W. HAWES, } Committee
FERDINAND LEVY, } on
DONALD MCLEAN, } Law Department.

The President put the question whether the Board would agree to accept the report and adopt the resolution.

Which was decided in the affirmative.

The Committee on Ferries and Franchises, to whom was referred the annexed preamble relating to "the exorbitant charge being received by the company known as the 'East River Ferry Company,'" with resolution "that the above named company should not be allowed to charge or receive as passage money on their boats, while crossing the East river between Thirty-fourth street, New York City, and Borden avenue, Long Island City, a sum not exceeding two cents for every adult passenger;" respectfully

REPORT:

That your committee having investigated the subject so referred, are convinced that the sum named in the resolution is ample to remunerate the company for the service rendered.

The subject has been agitated for some time, but as the company operated the ferry under a lease, it was not in the power of the city to interpose in favor of the people who patronize this ferry, until the expiration of the lease, which will occur November 1, 1882.

When a new lease is made, it should contain a stipulation that the rate of ferriage shall not exceed two cents each for adult foot passengers. The time has now arrived, when action looking to this end should be taken by the Common Council.

The following resolution is, therefore, offered for your adoption:

Resolved, That in disposing of the lease of the ferry from the foot of East Thirty-fourth street, after the expiration of the present lease, November 1, 1882, the Commissioners of the Sinking Fund be and they are hereby instructed to include a stipulation in the new lease that the ferriage for each adult person crossing upon the boats of said ferry, each way, shall not exceed two cents, and that the same Commissioners give notice before the sale of said ferry franchise, that the stipulation above named will be one of the conditions of the new lease.

RICHARD A. STORRS, Deputy Comptroller.

The President laid before the Board the following communication from the Department of Public Works :

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, September 25, 1882.

GENTLEMEN—In compliance with section 112 of the Charter, I transmit herewith a duplicate of my estimate of the amounts required to conduct the public business under the charge of this Department for the year 1883.

Very respectfully,
HUBERT O. THOMPSON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, September 18, 1882.

SIR—In accordance with section 112 of the Charter, and with the circular letter of the Comptroller, dated the 16th ult., I respectfully submit the following estimate of the amounts required to conduct the public business under the charge of this Department for the year 1883 :

In my estimate for 1882, I asked for the sum of \$400,000 for this appropriation—\$175,000 being required for the ordinary maintenance and repairs of the aqueduct, reservoirs, pumping machinery, and other structures, and property connected with our water supply (excepting the distributing system), and \$225,000, to be applied to the work of improving and strengthening the aqueduct. I also stated that the expense of completing the improvements adopted by my predecessor for reinforcing the aqueduct was then estimated at \$450,000.

The Board will therefore see the necessity of making allowances for the appropriation for a more rapid prosecution of that work, so that the safety of the one conduit upon which the city depends for its water supply may be assured as early as possible. The city cannot afford to run the risk of a breach in the aqueduct which would interrupt the water supply even for a few days, because we are now consuming from day to day every drop of water which the aqueduct can carry, and if we were compelled to draw down the city reservoirs, there would be so much loss of pressure or head of water in the distributing pipes, that some parts of the city would probably have their supply entirely cut off.

1 Resident Engineer	\$4,000 00
1 Clerk	1,500 00
1 Messenger	1,000 00
1 Rodman, at \$3.00 per day	936 00
1 Inspector, at 3.50 "	1,092 00
2 Inspectors, at 3.00 "	1,872 00
1 Inspector, at 2.50 "	780 00
1 Keeper	1,200 00
7 Keepers, \$1,000 each	7,000 00
1 Engineman	1,200 00
1 Engineman	1,100 00
4 Enginemen, \$1,000 each	4,000 00
1 Engineman	950 00

During the present year Fifth avenue, from One Hundred and Tenth street to One Hundred and Twentieth street, has been macadamized, increasing the length of macadam roadways to be maintained from this appropriation to twenty-six and a half miles, and the area to 665,678 square yards.

Though it was not originally intended to do more sprinkling than is necessary for the preservation of the road surface and to prevent annoyance to persons driving on the roads, this request is reasonable, and should be complied with.

1 Clerk	\$1,500 00
1 Messenger	600 00

The very large increase in the business transacted by the Department causes greater outlay for traveling expenses of officers and employees, postage, telegraphing and other incidentals, and a liberal margin should be allowed in this appropriation for emergencies which cannot be foreseen and otherwise provided for.

The new bath mentioned in last year's estimate was completed and put in commission last June, making nine public baths to be maintained during the ensuing year.

In addition to the ordinary expenses of towing the baths to and from their stations, storage when not in use, rent of docks for two of the baths, painting and repairs, repairs and utensils, mooring the bath at the Battery, wages of Superintendent, Assistant Superintendent, keepers, attendants and watchmen, a large outlay will have to be incurred in reconstructing the two oldest baths, built in 1870, and so much worn that they have to be almost entirely rebuilt. I feel certain that your Board will not hesitate to grant the above amount, which is necessary to maintain these useful and popular institutions in efficient condition.

1 Superintendent, 5 months, at \$100.....	\$500 00
1 Assistant Superintendent, 142 days, at \$3.00.....	426 00
18 Keepers, each 142 days, at \$2.50.....	6,390 00
18 Female Attendants, each 142 days, at \$2.00.....	5,112 00
9 Watchmen, each 142 days, at \$2.50.....	3,195 00
5 Watchmen, each 223 days, at \$2.50.....	2,787 00

This estimate is based on the present contract prices for lighting and maintaining the public lamps and supplying gas to public buildings and offices. On the 1st of January, 1883, there will be 23,770 gas-lamps and 140 electric lights in use in the streets, avenues, parks and places of the city, and allowance is made for 898 additional lamps to be erected during the ensuing year, including 68 lamps in Reservoir square, where no lamps have been lighted for a number of years past, the park being closed to the public after 9 o'clock P. M.

If the Gas Commission should decide to further extend the use of the electric light in the streets, parks and places of the city, it will probably be necessary to make a supplementary estimate for this appropriation.

1 Clerk.....	\$1,400 00
1 Inspector, \$3.00 per day.....	936 00
4 Inspectors, \$870 each.....	3,480 00

By chapter 381, Laws of 1879, the annual appropriation and expenditure for extending and improving the distribution of water by laying additional pipes, with hydrants and stop-cocks, and erecting other fixtures or structures for that purpose, is limited to the above amount. It is not sufficient to meet the demand of property owners for the extension of the water service into new streets and districts, and of the Fire Department for larger mains, and more hydrants in the lower and central part of the city, to furnish increased facilities for extinguishing fires. In connection with this matter I would invite the attention of the Board to the letter addressed to me by the President of the Fire Department under date of May 11th ult., and my reply thereto, both of which are published with my last quarterly report in the CITY RECORD of 15th inst., from which you will see that the Fire Department asks not only for additional twelve-inch pipes in various streets below Canal street, and for additional fire-hydrants throughout the city, involving together an expenditure of over \$600,000, but also for what may be called an entire duplicate of the present pipe system, and for cisterns in certain parts of the city which would cost many millions of dollars.

1 Assistant Engineer, one-half time.....	\$1,500 00
1 Assistant Engineer, full time.....	2,200 00
1 Rodman.....	1,200 00
1 Superintendent of Pipe-yard, \$5.00 per day..	1,560 00
1 Inspector of Manufacture of Pipes, \$5.00 per day.....	1,560 00
6 Inspectors on Laying Pipes, \$3.50 per day each.....	6,552 00

This amount is \$2,000 less than the appropriation for 1882, and will be needed for the ordinary repairs of the public buildings under the care of the Department and for special repairs and improvements which will have to be made in Washington and Clinton Markets to keep those structures in tenable condition.

There are now 370 drinking-hydrants in use, the ordinary care and repairs of which will cost about \$6,000. To this must be added the expense of putting in ball-cocks or stop-valves to stop the flow of water when the troughs or basins of the hydrants are full, thus preventing a large waste of water which occurs while the hydrants are running continually, as at present.

This will leave only a moderate balance out of the above sum to be applied to the erection of new hydrants, for which there is a continual demand.

Removing Obstructions in Streets and Avenues	\$10,000 00
--	-------------

In determining the amount to be appropriated for this purpose I would ask the Board to consider that there are over 400 miles of streets to be looked after; that during last year the Bureau of Incumbrances received and attended to 3,094 complaints of obstructions, made 565 seizures, removed 4,043 cart loads of stone and other refuse material from streets, served 704 notices to repair defective sidewalks, and 125 notices to replace defective vault covers, and issued 7,146 permits to place building material on streets. The work of the Bureau is much increased in consequence of the unusual extent of building operations and other improvements, in the prosecution of which materials are deposited in the streets.

The duties imposed on the Department in regard to street obstructions cannot be properly discharged unless the full amount asked for in this appropriation is granted.

The salaries to be paid from the appropriation are as follows:

1 Inspector, at \$3.00 per day.....	\$936 00.
4 Inspectors, at \$2.00 per day each.....	2,400 00.

Total.....	\$3,432 00

Repairing and Renewal of Pipes, Stop-cocks, etc. \$300,000 00

Under the present circumstances regarding the city's water supply, the work to be done under this appropriation, viz.: The maintenance of the entire system for distributing the water supply and controlling the use and waste of water, must be considered as the most important of all the works and duties entrusted to this Department.

These circumstances may be briefly summarized by repeating what has been stated again and again in the Department's reports—that for ten years past we have received and used all the water which the aqueduct is capable of delivering—about 95,000,000 gallons per day; that years ago, when our population was several hundred thousands less than it is now, complaint of inadequate supply prevailed in certain parts of the city; that in thousands of buildings the water cannot now be delivered upon the first or parlor floor; that the present supply of 95,000,000 gallons must be so managed and husbanded that it will suffice for the rapidly growing population during the years in which it will take to complete conduits for bringing in an additional supply; and that the only way in which this can be accomplished is by maintaining the pipes and fixtures connected with the distributing system in the most perfect condition, and by applying all practicable means to stop leaks and to control and suppress waste of water. It is evident that even with the most abundant supply of water, the cost of maintaining the distributing system, which now comprises 525 miles of pipes, 6,840 fire-hydrants, and 5,484 stop-cocks, must increase from year to year, because it is being extended into new streets at the rate of over fifteen miles a year, and because the length of old pipes and number of hydrants and stop-cocks which become useless from wear and corrosion, and have to be replaced, grow larger from year to year. The Engineer-in-Chief of the Croton Aqueduct informs me that during the ensuing year it will be necessary to replace 12,000 lineal feet of 12-inch pipe and 38,000 lineal feet of 6-inch pipe, at a cost of about \$66,000, principally along the water front, where the salt water, which permeates the soil, has corroded the pipes to such an extent that they are no longer safe.

On the first of July ultimo there were 6,375 water meters in use in the city, and additional ones are being placed at the rate of about 1,200 a year. The supervision of these meters, and the reading and reporting of the indices, requires a larger force of skilled mechanics as Meter Inspectors. The inspection of plumbing arrangements in buildings to detect leaks and waste must be continued with increased vigor. I cannot impress too strongly upon your Board the great responsibilities involved in considering and determining the amount to be appropriated for these most important works, and I earnestly hope that the Department will be granted the means which it deems necessary to enable it to properly discharge its duties in the matter.

The salaries to be paid out of this appropriation are :

1	Assistant Engineer, one-half time, \$3,000 per annum	\$1,500 00
1	Clerk on Meter Accounts	1,400 00
1	"	1,000 00

1	General Inspector of Waste Water	1,800 00

Repairs and Renewal of Pavements, and Regrading. \$300,000 00

The present mileage and area of pavements to be kept in repair is:

Granite and trap-block.....	255 miles.	5,100,000 square yards.
Cobble.....	55 "	1,000,000 "
Asphalt and concrete.....	2 3/4 "	18,000 "

The great increase in street traffic not only causes greater wear of pavements and cost of repairs, but requires that the condition of the streets be improved as much as possible. Commerce and manufactures are continually extending to new streets and districts, and local transportation requires new channels and better facilities. The expense of maintaining the pavements is further enhanced by the innumerable excavations made in the streets by gas companies, steam companies, telegraph and telephone companies, electric light companies, builders, plumbers, etc. Though the Department uses its utmost endeavor and authority to have the pavements over such excavations replaced in the best possible manner, it is practically impossible to restore them so that there is the same equality of resistance over the surface of the street which existed before the pavement was removed; the consequence is that the pavement settles unequally and sooner or later repairs have to be made in the vicinity of the excavations.

Last year over 2,600 complaints were received of local defects in pavements. These complaints are attended to as promptly as the means and force at the command of the department admit. But in addition to this class of repairs the Department should have more ample means to relay defective pavements from curb to curb. In many instances where such relaying is necessary, and would, in comparison with the results attained, be the most economical in the end, we have been compelled to resort to mere patchwork in order to retain sufficient means to the end of the year to meet necessities for local repairs as they arise from time to time, and to distribute the repairs as equitably as possible throughout the city.

The regrading of roadways for new pavements which are to be paid for by assessment on adjoining property forms a large item of expense under this appropriation, which is greatly increased in consequence of the unusually large amount of new pavements now being laid in response to the demand of property owners.

Taking all the circumstances into consideration, I think that the Board, as well as the tax-payers, will agree with me, that the beneficial results which will be derived from the improved condition of the pavements will be ample compensation for an expenditure of \$300,000 on pavement repairs during the ensuing year.

The salaries to be paid from the appropriation are as follows:

2 Inspectors \$3.50 per day each.....	\$2,184 00
3 " 3.00 " " ".....	2,808 00
Total.....	\$4,992 00

Repaving Streets and Avenues. \$500,000 00

The preceding remarks in favor of a liberal allowance for pavement repairs, apply with equal force in regard to the appropriation for repaving. No one will dispute the assertion that cobble pavement is unfit for any of the streets of this city, and that the 1,000,000 square yards which still remain, should be removed and replaced by smoother and more substantial pavements as rapidly as possible. No work or improvement which has ever been made in this city, or which could be suggested, meets with greater favor and produces more beneficial results than the repavement of the streets. The number and urgent applications for repaving streets continue without abatement. Year after year the Department has to deny or lay over more of such applications than it is able to satisfy with the appropriation granted.

The members of the Board are so familiar with the circumstances regarding this matter, from personal observation, as well as from the regular and special reports made by the Department on the subject, that I need not use further argument to show the necessity and expediency of granting the full amount of the above estimate.

The following salaries are to be paid from the appropriation:

1 Assistant Engineer.....	\$2,200 00
1 Rodman, at \$3.00 per day.....	936 00
1 Messenger, at \$3.00 per day.....	936 00
1 Inspector, at \$3.00 per day.....	936 00
1 Axeman, at \$3.00 per day.....	936 00
1 Axeman, at \$2.50 per day.....	780 00
15 Inspectors, average 100 days each, at \$3.50.....	5,250 00
Total.....	\$11,974 00

Roads, Streets and Avenues, Unpaved—Maintenance and Sprinkling. \$40,000 00

The roads, streets and avenues to be kept in repair under this appropriation are located in the upper part of the city, and comprise about ten miles of country roadways, and over fifty miles of unpaved streets. That part of the city is being built up very rapidly, and as there are many locations yet without paved streets, these roads and unpaved streets must be kept in fair condition for local travel. It is also the duty of the city to repair damages from rain storms on streets which have been graded at the expense of the property owners.

The roadways which are most frequently used have to be sprinkled during warm and dry weather. The appropriations heretofore made for this purpose have not been sufficient to make all needed repairs, and increased means are urgently needed to put and keep the roads and streets in fair condition.

Salaries—Department of Public Works. \$88,450 00

The salaries of the Commissioner, Deputy Commissioner, heads of bureaux, regular clerks, messengers and other permanent officers and employees engaged in the general administration of the Department are to be paid from this appropriation.

In considering this appropriation the fact that the work of the Department in every one of its branches is increased beyond precedent should be duly regarded. This increase of work is best illustrated by the statement that during the six months ending June 30, ult., 127 contracts, involving an expenditure of \$1,776,590 were made, nearly treble the average number and cost of contracts made during the same six months for the preceding six years.

It should also be remembered that during the recent years of depression, and in pursuance of an act of 1880, large reductions were made in the salaries of officers, clerks, and employees, and that in view of the increased cost of living, which the more prosperous times has brought about, simple justice suggests a moderate increase in salaries. I therefore trust that the above estimate will be approved by the Board.

The following are the salaries to be paid from the appropriation:

Salaries—Department of Public Works.

1 Commissioner.....	\$8,000 00
1 Deputy Commissioner.....	5,000 00
1 Chief Engineer.....	7,000 00

Total.....	\$88,450 00

Sewers—Repairing and Cleaning. \$150,000 00

The sewerage system now comprises 387 miles of sewers, with 4,617 receiving-basins. A considerable force of men and carts have to be constantly employed in removing deposits from the basins and sewers. Upwards of 8,000 cart loads of such deposits are annually taken out of the sewers and basins and dumped on the scows of the Department of Street Cleaning. In previous estimates and reports of the Department it has repeatedly been stated that over 200 miles of the older sewers were built prior to the adoption of regular sewerage plans and the establishment of sewerage districts.

A large portion of these is so dilapidated that breaks frequently occur, and large sections have to be rebuilt. To prevent the pollution of the water and the atmosphere in the vicinity of most of the old sewer outlets along the water front, the outlets have to be rebuilt and extended into the tidal currents.

It is urged with much force, by many people who are specially qualified to speak on the subject, that the entire sewerage in the lower part of the city should be reconstructed without delay, though the work would involve an expenditure of several millions of dollars. Boston and other cities have found it necessary to reconstruct their old sewers at comparatively greater expense than would be needed here.

The moneys which your Board may appropriate for this purpose will therefore be applied to a most useful and important object, and it is hoped that you will grant the full amount of the above estimate.

The following salaries are to be paid from the appropriation:

1 Engineer-in-Charge, one-third time, at \$4,800 per annum.....	\$1,600 00
1 Assistant Engineer, one-third time, at \$2,500 per annum.....	833 33
1 Clerk.....	1,500 00
1 Temporary Clerk, \$3.50 per day.....	1,092 00
7 Inspectors, \$4.00 per day, \$1,248 per annum.....	8,736 00
1 Inspector, \$3.00 per day.....	936 00
Total.....	\$14,697 33

Sewerage System—Salaries. \$18,000 00

This appropriation is to cover so much of the compensation of engineers, assistants, clerks and draftsmen employed on surveys and plans for the sewerage system of the city, and the various works connected therewith as cannot be charged in the assessment for new sewers.

The rapid progress of private improvements has largely increased the demand for new sewers, and the work to be done under this appropriation.

The salaries to be paid from the appropriation are:

1 Engineer-in-Charge, one-third time, at \$4,800 per annum.....	\$1,600 00
1 Assistant Engineer, " 2,500 ".....	833 33
2 Assistant Engineers, one-half time, at 2,250 ".....	2,250 00
1 Assistant Engineer, " 1,800 ".....	900 00

10 Axemen, one-quarter time, at \$2.50 per day (\$780).....	1,950 00
1 Messenger, " 2.50 ".....	780 00

Street Improvements, Surveying and Setting Monuments. \$1,500 00

This amount will be necessary for surveys to establish the correct lines and grades of streets where the monuments and marks have been removed or obliterated, so that architects, builders and owners may be able to obtain the true lines and grades when desired.

Supplies for and Cleaning Public Offices. \$125,000 00

For several years past the appropriations for cleaning the public offices and keeping them supplied with office furniture, fuel, carpets, law books and the numerous other articles required in offices and courts, have been so inadequate, that many urgent requisitions had to remain unfilled and put off to another time, causing an accumulation of demands upon the appropriation, in addition to the usual current necessities. This year, after the expiration of six months, the means for purchasing fuel and other supplies were exhausted, after reserving a sufficient sum to pay the janitors, steam engineers, firemen, watchmen, and cleaners; the appropriation had to be supplemented by a transfer from other appropriations, and a further and larger transfer will be needed before the close of the year.

The general increase in the prices of all classes of supplies, the increase in the transaction of public business, and the necessity of meeting postponed requisitions require that the full amount of the above estimate be appropriated. Otherwise, many urgent needs will have to remain unsupplied, and public business will be seriously injured.

The salaries to be paid from this appropriation, are as follows:

1 Clerk.....	\$1,750 00
1 Janitor.....	1,500 00
1 Janitor.....	1,400 00
7 Janitors, at \$1,000.....	7,000 00
1 Engineer.....	1,100 00
7 Engineers, at \$1,000.....	7,000 00
4 Watchmen, at \$800.....	3,200 00
3 Elevator Attendants, at \$600.....	1,800 00
1 Messenger, \$2.50 per day.....	780 00
1 Keeper Corporation Yard, \$3.00 per day.....	936 00
Total.....	\$26,466 00

Supplying water to Shipping and for Building Purposes. \$10,500 00

This amount is necessary to pay the salaries of the Superintendent, Clerks, and Inspectors engaged in supervising the supply of water to vessels and for use in the erection of new buildings. To insure to the city the full revenue to be derived from this source, two additional Inspectors are needed.

The salaries to be paid from the appropriation are:

1 Superintendent, 5 months at \$100 per month and 7 months at \$200 per month.....	\$1,900 00
1 Clerk.....	1,200 00
6 Inspectors, \$3 per day, \$936 each.....	5,616 00
3 Inspectors (additional), \$3 per day.....	2,808 00
1 Inspector (temporary).....	476 00
Total.....	\$12,000 00

Surveys for Street Openings. \$10,000 00

After the passage of the act of 1880, in reference to street openings, which provides that there shall be no assessment for surveyors' charges, and that the necessary surveyors' services shall be furnished by this Department, the opening of a number of streets was postponed in anticipation of a change in the law. Such change not having been effected it is necessary to make provision now for surveying expenses for a large number of street openings.

In fact all of the streets south of One Hundred and Fifty-fifth street, to which the city has not yet acquired title, should be legally opened as early as practicable, so that there may be no delay on that account in grading, sewerage and paving the streets, and laying water and gas pipes, when the necessity for such improvements arises. The above amount will be needed to meet the expense of the surveys.

Water Supply for the Twenty-fourth Ward. \$5,300 00

Of this amount \$3,300 will be needed for the water supplied in the Twenty-fourth Ward under a contract with the City of Yonkers, and the remaining \$2,000 will be required for inspection and repairs of the water-pipes, fixtures and service.

Wells and Pumps—Repairing and Cleaning. \$1,000 00

The repairs of pumps and wells in the suburban part of the city, where there is no Croton-water service, will require an expenditure of \$1,000 to enable the department to perform the duty imposed on it by law of supplying all the people of the city with pure and wholesome water.

In submitting this estimate I would ask the Board to take into consideration the changes in the conditions and circumstances affecting public works, which have taken place within the past two or three years.

During the recent period of depression, the desire to lighten taxation was so predominant that many necessary works were left undone, and appropriations, salaries, and wages were reduced to the lowest limit.

With the return of prosperous times we have had a steady advance in the price of labor and materials. The rise in the compensation of labor had to follow the increase in the cost of the necessities of life and in the demand for labor. Laborers' wages have been increased nearly fifteen per cent. since my estimate for 1882 was made, and the average advance in the cost of all kinds of materials and supplies required in the works conducted by the Department is probably no less.

The increase in the demand for new street improvements, extension of sewerage, water supply and street lighting, to which I alluded in my estimate for last year, continues with undiminished rate. I think that a proper conception of my duties as a public officer requires me to state to your Board plainly and without hesitation what means I deem necessary to conduct the public affairs committed to my charge to the best interests of the city, and it is with this single view that I have made the estimate now submitted.

I therefore sincerely hope that it will meet the full approval of the Board.

Very respectfully,

HUBERT O. THOMPSON, Commissioner of Public Works.
Which was referred to the Committee on Finance.

NO. 1. FOR BUILDING A RESERVOIR at Rye Ponds, in the Towns of Harrison and North Castle, Westchester County, New York.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate Box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or refuse, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Blank forms of bid or estimate, the proper envelope in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at the office of the Chief Engineer of the Croton Aqueduct, Room 10, No. 31 Chambers street.

—or any part thereof, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9:30 o'clock A. M., of Friday, September 29, 1882. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Flour, Groceries, Dry Goods, etc.," and with his or their name or names, and the date of presentation, to the head of said Department at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for the faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimates, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the prices for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate, in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

17,400 square yards of paving to be laid.
5,700 square feet of cross-walks to be laid.
75,360 gallons of paving cement.

135 cubic yards of broken stone to be removed.
39,500 square feet of plank roadway and walks to be removed.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract, and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and the entire work is to be fully completed on or before the 20th day of December, 1882, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, Sundays and holidays not to be excepted, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said existing plank roadways, and the broken stone to be removed under this contract, will be relinquished to the contractor, and the bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved plan of agreement, and the specifications thereon set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work. The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of a service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York, any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned, shall be accompanied by the oath or affirmation, in writing of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and with the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the national banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation. The right to decline all the estimates is reserved, it deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

New York, April 22, 1882.

RULES AND REGULATIONS ESTABLISHED for the government and proper care of piers, bulkheads, slips, and other wharf property, under the provisions of subdivision 7 of section 6 of chapter 574 of the Laws of 1871, by the Board of the Department of Docks, and published, to take effect on and after

MAY 1, 1882.

The said subdivision 7, among other things, provides as follows:

"The violation of or disobedience to any rule, regulation, or order of said Board shall be a misdemeanor, punishable by a fine not exceeding five hundred dollars, or by imprisonment not exceeding thirty days, or by both such fine and imprisonment, on complaint of said Board."

And every person guilty of a violation of or disobedience to any of the following rules or regulations, in addition to the penalties thereby fixed and imposed, to be recovered in civil actions, is liable to be prosecuted for a misdemeanor and to be punished by such fine and imprisonment, or by both.

No. 1.—No piles shall be driven, nor shall any platform be erected, nor shall any filling of any kind be made on any part of the water-front of the city, without a written permit therefor being first had and obtained from the Board, under a penalty of two hundred and fifty dollars, for every such offense, to be recovered from the owner, lessee, or occupant of any pier or bulkhead, or of any water-front property or right, who shall cause or permit any such work to be done upon his premises before such permit therefor has been obtained, and under the further penalty of fifty dollars for each and every day which shall elapse before any such piles are driven, or platform so erected, or material so filled-in, without such permit being first obtained, shall be removed, after the expiration of the time which may be allowed for such removal, by a notice served upon such owner, lessee, or occupant, by the Corporation Wharfing for the district, to be also recovered from such owner, lessee, or occupant.

No. 2.—No shed, building, office, tally-house, or other structure shall be erected, nor shall any derrick, hoisting-mast, coal-hopper, sign, or advertising device, or other erection or obstruction of any kind be placed or

maintained upon any pier, bulkhead, or other wharf structure, nor upon any reclaimed land, without a written permit therefor being first had and obtained from the Board; and if the owner, lessee, or occupant of any such structure, erection, or obstruction, shall fail to comply with a notice served by the Corporation Wharfing for the district to remove any such structure, erection, or obstruction, after the expiration of the time allowed by such notice for the removal, such owner, lessee, occupant or agent, shall forfeit and pay a penalty of twenty-five dollars per day for each and every day, which shall elapse before any such structure, erection or obstruction, shall be removed, after the expiration of the time for the removal thereof specified in said notice.

No. 3.—No cargo shall be discharged from any vessel upon any bulkhead or wharf structure, at which such vessel is being unladen, after service by the Corporation Wharfing for the district, upon the owner, consignee, master, or other officer, or stevedore, of such vessel, of a notice that such bulkhead or structure will be endangered by the placing of additional cargo thereon, under a penalty of two hundred and fifty dollars for every such offense, and a further penalty equal in amount to the damages of every description which shall be caused by the further discharging of cargo upon such bulkhead or wharf structure, after the service of the said notice, both of such penalties to be recovered from such owner, consignee, master or other officer or stevedore, severally and respectively.

No. 4.—All goods, merchandise, and materials of every kind, landed or placed on any pier, bulkhead, or other wharf structure, or upon reclaimed land, must be removed therefrom without unnecessary delay, and within twenty-four hours after the Corporation Wharfing for the district shall have served upon the owner, shipper or consignee, of such cargo, a notice to remove the same, under a penalty of fifty dollars per day for each and every day, during which any part of said cargo shall remain upon such pier, bulkhead, structure, or land, after the expiration of the said twenty-four hours, to be recovered from such owner, shipper, or consignee, severally and respectively.

No. 5.—All goods, merchandise and materials of every kind encumbering any pier, bulkhead or other wharf structure, or reclaimed land, after the time designated for the removal thereof shall have expired, will be liable to be removed by the Board to any warehouse or yard, at the sole risk and expense of the owner of any such property, and all expense incurred for such removal and storage or otherwise, shall be and become a lien thereon, and such goods, merchandise and materials will not be delivered to the owner until the expense of such removal and storage has been paid.

No. 6.—No person shall construct or maintain any engine-house, tally-house, or other small structure, under a permit of the Board, on any unshedded pier, or other wharf structure, unless the same be placed on wheels, so as to admit of easy removal thereupon when required, and to prevent the accumulation of dirt or refuse thereunder, under a penalty of twenty-five dollars per day for each and every day which may elapse before the discontinuance of such offense.

No. 7.—No vessel of any kind shall be loaded or discharged by horse power, nor shall stones or similar cargo be discharged from any vessel, upon any pier, bulkhead or other wharf structure, unless proper planking be provided to protect the surface of such pier, bulkhead or other wharf structure from injury consequent upon the travel of the horse, or the throwing of the stones or similar cargo thereupon, under a penalty of five dollars a day for each horse so employed, and of twenty-five dollars for each offense of discharging such stones or like cargo, upon such pier, bulkhead, or other wharf structure, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively; and if such penalty be recovered for using horses, or discharging stones or similar cargo, upon wharf property belonging to the Corporation, it shall be paid to the owner thereof.

No. 8.—No sand shall be discharged from any vessel unless canvas or similar material be extended from the vessel's side to the bulkhead or wharf structure at which such vessel is being unladen, to prevent the falling of the sand into the water, and if the surface of any such wharf structure is not sufficiently tight to prevent the sand dumped thereon from going through into the water, then no sand shall be discharged thereon from any vessel, unless canvas or similar material be first laid thereon to receive the sand, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively; and if such penalty be recovered on account of sand discharged upon wharf property belonging to the Corporation, under lease, it shall be paid to the lessee thereof, but if such penalty be recovered on account of sand discharged upon wharf property not owned by the Corporation, it shall be paid to the owner thereof.

No. 9.—The owners, lessees and occupants of every pier, wharf and bulkhead in the City of New York shall keep the same in good repair, and the slips adjacent thereto properly dredged; and whenever, in the judgment of the Board, it shall be necessary so to do, written notices, signed by the President or Secretary of said Board, shall be served upon the owners, lessees or occupants, or collector of wharfage of any such pier, wharf or bulkhead, or the slip adjoining the same, on or in which repairs or dredging are required by said Board, specifying the nature and extent of the repairs or dredging so required, and the time within which such repairs must be made, or such dredging done; and in case the owners, lessees or occupants so notified, fail to comply with the terms and requirements of such notice, they shall forfeit and pay a penalty of fifty dollars per day for every day which shall elapse before they comply with such notice.

No. 10.—No ashes, refuse, offal, fruit, vegetables or any other substances, shall be thrown into the waters surrounding or adjacent to any pier or bulkhead, or any other part of the water-front of the city, under a penalty of twenty-five dollars for every such offense, to be recovered from the owner, lessee, or occupant, severally and respectively, of any pier, bulkhead, wharf structure, or other property, from which any such substance shall be thrown, or from the person actually throwing the same; or if any such substance be thrown from any vessel lying in waters within the jurisdiction of the Department, whether berthed or not, then such penalty to be recovered from the owner, consignee, or master of such vessel, severally and respectively.

No. 11.—No snow or ice shall be dumped into the waters adjacent to the water-front of the city, except from the piers, bulkheads and other places designated from time to time, by the Board, for such dumping, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, lessee or occupant of any pier, bulkhead or other wharf property, from which any such snow and ice shall be dumped, or from the person actually dumping the same, severally and respectively.

No. 12.—All lumber, brick, or other material in bulk discharged on any bulkhead not shedded, shall be at once removed, or, if not so removed, shall be placed at least twenty feet from the edge of the bulkhead, pending removal, under a penalty of fifty dollars per day, for each and every day such lumber, brick or other material shall remain on the bulkhead, to be recovered from the owner or consignee of such lumber, brick or other material, or from the person placing, or causing the same to be placed, on such bulkhead, severally and respectively.

No. 13.—The charges for wharfage and dockage of all vessels admitted to any of the piers or bulkheads constructed under the new plans adopted by the Department, shall be at the same rates as are now, or shall hereafter be, fixed and established by laws of this State, until otherwise ordered by the Board.

No. 14.—The term "Board," when used in the foregoing rules and regulations, shall be taken to mean "The Board of the Department of Docks of the City of New York," and the term "Corporation," when so used, shall be taken to mean "The Mayor, Aldermen and Commonalty of the City of New York."
