JOSEPH HAAG, Secretary.

DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING OCTOBER 17, 1914.

LOOK TO YOUR ROOF GUTTERS—DON'T BLAME THE PARK LAKES.

During August of this year numerous complaints reached the Department concerning the prevalence of mosquitos, especially on the upper west side of Manhattan. Many of the complaints specifically charged the lakes in Central Park with being responsible for the breeding of these annoying visitors.

Through the co-operation of Professor C. E. A. Winslow, of the American Museum of Natural History; Dr. Donald B. Armstrong, of the Bureau of Public Health and Hygiene of the A. I. C. P., and the Sanitary Bureau of this department, an extensive investigation was undertaken in order to discover the justification for the complaints, the breeding places of the mosquitoes and to suggest remedies. This investigation showed that the mosquitoes were indeed present in very large numbers, not only on the upper west side of Manhattan, but throughout the city. Contrary, however, to the popular impression, they did not come from Central Park except in a very small degree. An insignificant breeding place was found in some marshy land near the north meadow.

Almost invariably the investigation disclosed mosquito breeding places on or near the premises from which the complaints originated. Among the sources thus discovered, obstructed gutters and leaders conducting rain water from the roofs of houses, were uncommonly frequent. Owing to frequent rains at that time, these obstructions resulted in the collection of small pools of water which were almost immediately utilized by mosquitoes for breeding places.

To those familiar with anti-mosquito work in this city, the result of this investigation was not at all surprising. It should be a lesson to the people of this city to look first to their own premises before laying the blame on outside sources.

THE HIGH COST OF DYING.

It has come to our attention that certain undertakers in the city of New York have been charging the relatives of the deceased exorbitant prices for transcripts of certificates of death used to collect insurance money. In a recent case an undertaker charged the son of the deceased \$3.50 for four transcripts for which the Department of Health charged only \$1.25. This represents an extortion amounting to almost 200 per cent. on the cost price. We have also learned that some undertakers charge relatives of the deceased a fixed price of \$1.00 for a burial permit, issued to them free of charge by the Department of Health.

If artificially increasing the cost of dying could possibly decrease the number of deaths, these uncalled-for additions to the undertaker's bill could be viewed with complacency. As it is, the Department of Health believes that the public should know the facts here set forth.

ENFORCING THE NEW MILK REGULATIONS.

Country Milk Inspection.

During the month of September eighty dairies were excluded from business in this city for failure to comply with the minimum requirements for the production of Grade C milk.

Twenty dairies, hitherto excluded, were allowed to resume shipments after reinspection had shown improved conditions; six creameries were excluded from shipment, owing either to insanitary conditions or to the acceptance of excluded milk. Three of these were subsequently allowed to resume after compliance with departmental regulations.

Shipments from four creameries were ordered degraded from Grade B to Grade C, as the bacterial content of milk shipped from two of these creameries was found to be continually excessive, and the other two creameries were degraded owing to their improper pasteurizing apparatus. Upon subsequent inspection one of these creameries was later regraded.

Shipments from one creamery were ordered degraded from Grade A to Grade B because of the continued excessive bacterial content and because the dairies supplying this creamery would not conform to the requirements for Grade A.

Shipments from five creameries were ordered excluded on account of the fact that the pasteurizing apparatus was inadequate and that the milk was not held for a sufficient period of time. This milk was subsequently shipped to the City and pasteurized in the City at a plant approved by the Department.

Samples for bacterial examination were taken at forty-four pasteurizing plants during this month. Their examination showed that the process of pasteurization was conducted in a very satisfactory manner, and that in all but nine of the pasteurizing plants the regulations were being closely followed. In these nine the bacterial content of raw milk, before pasteurization, was found to be excessive. Notices were forwarded to the dealers operating these creameries and reinspections have been ordered.

Eleven new pasteurizing plants were approved during the month and permits recommended granted. Two permits to sell Grade A milk were also recommended granted.

City Pasteurizing Plants.

The close of this month marked the completion of a large up-to-date pasteurizing plant with a capacity for pasteurizing two thousand forty-quart cans daily, and representing an investment of several hundred thousand dollars.

City Milk Inspection.

During the month of September 131 inspections were made at the receiving platforms and ferries and in spite of the very warm days in September the temperature of the milk received in the City was found to be below 50 degrees F. Only a few cases of mislabeling were found, and examination of empty containers being returned to the country showed these, on the whole, to be clean.

Nearly 24,000 specimens of milk, as offered for sale in the City, were examined by our inspectors, and of this number only 63 specimens were found to be above the maximum temperature permitted by the Department's regulations. In addition to this 579 samples of milk were taken and upon chemical analysis 99 of these were found to be below the standard.

WHO IS THE PERSISTENT OFFENDER?

On December 18, 1911, F. E. Rosebrock and Company, a corporation dealing in bakery supplies at 325 Greenwich Street, Borough of Manhattan, of which Fred E. Rosebrock was president and a director, was fined \$500 for violation of Section 42 of the Sanitary Code, for offering for sale decomposed canned eggs.

On November 18, 1912, the same firm was fined \$250 for violation of Section 66a of the Sanitary Code, for using flavoring extracts containing methyl alcohol. About this time the old corporation of F. E. Rosebrock and Company discontinued business at 325 Greenwich Street, and a new corporation, incorporated under the laws of New Jersey, was formed under the name of the Fred E. Rosebrock Company. Fred E. Rosebrock was president and a director of this company which conducted a business in bakers' supplies at 360 Washington Street. On November 17, 1913, this firm was fined \$500 for violation of Section 42 for offering for sale putrid and decomposed eggs.

In August of this year the Fred E. Rosebrock Company discontinued business and a new corporation, known as the Rosebrock Butter and Egg Company, Inc., was formed, incorporated under the laws of New York. Fred E. Rosebrock was President and a Director of the new concern, and the business was conducted at 360 Washington Street. Within the past few days criminal prosecution has been commenced by the Department of Health against this firm for an alleged violation of Section 48a, relating to the breaking-out of eggs and the keeping of canned eggs without a permit. Who is the persistent offender?

FINES DO NOT DETER CORPORATIONS.

In its work to protect the public against unwholesome food, the Department is frequently hampered by the fact that successful prosecution of corporations can result only in fines. These, apparently, have but little deterrent effect, the officers of the corporations and others responsible for the carrying on of the business, evidently feeling that the occasional payment of even a large fine only slightly reduces the enormous profit to be made by corrupt and illegal business dealings. The Department is determined to continue its campaign against the dealers in dirty and unwholesome foods and will endeavor to prosecute the persons responsible for these illegal practices and ask for the imposition of jail sentences.

TIME TO CHECK THE PATENT MEDICINE FAKER.

According to an interesting article just published by the United States Public Health Service, there has been a notable increase in the consumption of patent medicines in the United States in the last few decades. It appears that while the increase in population in the United States from 1880 to 1910 was approximately 83.3 per cent., the increase in the value of patent medicines and related products was 740.5 per cent. In other words, the population of the United States was less than doubled, the value of the medicines manufactured and consumed was increased ninefold.

The mania, for such it almost seems to be, of the American public to dose themselves with drugs of all kinds, concerning which they know little or nothing, has frequently been commented on. In the article above referred to, the point is well made that all important or active medicaments must, of necessity, have harmful influences when taken indiscriminately or for a continued length of time. "It may be accepted as fact that whenever the activity [of a medicine] is sufficient to produce a decided therapeutic effect in disease it is also sufficient to produce a deleterious effect when improperly used, either as to time or quantity."

In England, the patent medicine evil has become so pronounced that in June of last year a select committee of the House of Commons was appointed to consider and inquire into the question of the sale of patent and proprietary preparations and appliances, and advertisements relating thereto, and to report on what amendments, if any, in the law, were necessary or desirable. The extent of the consumption of patent medicines in the United Kingdom may be estimated from the statement that more than two million pounds sterling is expended yearly in advertising matter.

It is interesting to note that the Committee findings regarding so-called "medicated wines" agree closely with the report recently made by the United States Commissioner of Internal Revenue and published in our Weekly Bulletin of August 22nd, 1914. The English Committee found that in many cases these wines contained a large amount of alcohol, often twenty per cent., and in one instance as much as twenty-three per cent. "Inasmuch as these wines are largely consumed by women, many of whom profess themselves as strictly temperate persons, it must come as a distinct shock to those who have been taking the recommended doses of some of these widely advertised wines, to learn that they have been consuming daily an amount of alcohol equal to a wineglassful of whiskey." The Committee believes that grave injury is caused to the public by the existing large sales of medicated wines.

The report recommends that the duty of controlling the sale and advertisement of proprietary medicines in the United Kingdom be administered by the Local Government Board until a Ministry of Public Health is created, when the administration should be transferred to that department; that there be furnished to the government department an exact and complete statement of the ingredients and their proportions in these remedies, and a statement of the alcoholic strength of medicated wines and a specimen of every appliance for the cure of ailments, other than recognized surgical instruments; that a special court or commission be constituted with power to permit or prohibit in the public interest or on the ground of non-compliance with the law, the sale and advertisement of any patent, secret or proprietary remedy or appliances. It is further recommended that the sale and advertisement should be prevented by law of remedies purported to cure certain diseases and ailments, including consumption, cancer, lues, fits, deafness, rupture, other diseases, etc.

When will the American people awake to the need for checking the unscrupulous patent medicine faker?

TEACHABLENESS OF THE CONSUMPTIVE PATIENT.

Some years ago a most discouraging report published in the Johns Hopkins Hospital Bulletin, concluded that a considerable majority of the tuberculosis patients seen by the tuberculosis nurses in Baltimore could not be taught either hygiene or prophylaxis and that the practical outcome of home visiting supervision was not encouraging.

In the October number of the American Journal of Nursing an interesting resume of the work of the visiting nurses of the Gouverneur Clinic is given by Winifred W. Allen and Elizabeth McConnell. The basis of the report were the patients who attended the clinic during the year 1912 and who had been under clinic care or nursing supervision for six months or more. Despite difference in race, religion and language, the overwhelming majority of the patients proved to be teachable in the essentials of personal hygiene and prophylaxis and most of those whom the clinics trained for six months or more, both learn and practice what is taught them.

The conclusion is drawn, therefore, "that no class can be looked upon as wholly unteachable and that time and persistence yield a surprising percentage of good results even with the least promising cases."

This is distinctly encouraging for all who are engaged in public health education and holds out promise for excellent results.

REVISION OF THE SANITARY CODE.

A letter in the following terms has been addressed by the Commissioner of Health to each member of the Advisory Council and of the Medical Advisory Board:

"A general revision of the Sanitary Code has been undertaken, with the purpose of bringing the Code into conformity with the great body of municipal ordinances recently remodeled by the Codification Committee of the Board of Aldermen.

"This occasion affords an opportunity for improving the Code by the redrafting of existing sections, by the omission of superfluous contents, and by the inclusion of desirable new matter.

"A copy of the existing Code will be forwarded to each advisory member, and the co-operation of all is solicited. The revised Code should represent a consensus of expert opinion on the best measures for the protection and improvement of the City's health."

WORK OF THE BUREAU OF INFECTIOUS DISEASES.

A new edition of the Hand Book of the Bureau of Infectious Diseases has just come from the press, and is now ready for distribution. Its scope has been considerably widened and the booklet now embraces a description of the varied activities of the Bureau of Infectious Diseases in all its details. It is at one and the same time a manual of instruction for employees of the Bureau, and a book of information to students of this brand of public health work.

On request, copies will be forwarded to those interested.

—signed by P. M. Sayford, Treasurer, a copy of which is hereto annexed and made a part of this contract.

Should District Number 1 be extended as hereinbefore provided, then the terms and conditions of this contract shall apply to such extended district; provided that the Company shall without further consent of the Board and at the present time have the right and hereby agrees to construct, maintain and operate in and through District Number 2 such conduits and pipes as may be necessary to supply with refrigeration the premises of the Steel Drake Baking Company, known as Nos. 42-43-44-45-159-160 and 162 Wallabout Market, and to supply such premises. The Company shall also have the right to supply such other applicants as may have premises abutting on streets in which said conduits and pipes may be laid for the purpose of supplying said premises of the Steel Drake Baking Company.

SECTION 3. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—That said right to construct, maintain and operate said pipes and conduits shall be held and enjoyed by the Company for the term of fifteen (15) years from November 1, 1914, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

Such right and privilege to be valued as if the Company had not exercised the same for the said period of fifteen (15) years, and no allowance shall be made to the Company in such valuation by reason of such exercise.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Second—The Company shall pay to the City

for the privilege hereby granted the following sums of money:

(a) The sum of two hundred and fifty dollars (\$250) in cash within one (1) month after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five years an annual sum which shall be equal to two (2) per cent. of its gross annual receipts, but which sum shall not be less than five hundred dollars (\$500).

During the second term of five years, an annual sum which shall be equal to three (3) per cent. of its gross annual receipts, but which sum shall not be less than six hundred dollars (\$600).

During the third term of five years, an annual sum which shall be equal to three (3) per cent. of its gross annual receipts, but which sum shall not be less than seven hundred dollars (\$700).

The gross annual receipts mentioned above shall be the total receipts from all business of furnishing refrigeration to consumers.

(c) In addition to the above payments the Company shall pay to the City an annual payment of ten cents (\$0.10) for each linear foot of pipe (where separately constructed), or conduit constructed within the limits of any street, avenue, highway or other property belonging to the City, excepting, however, such pipes or conduits as are constructed within the vault space or vault spaces of any building or buildings used or occupied exclusively by the Company for the purpose of its business.

An annual payment of two dollars (\$2) for each manhole constructed within the limits of any street, avenue, highway or other property belonging to the City.

The annual charges shall commence from November 1, 1914.

All annual charges as above shall be paid into the Treasury of the City on February 1 of each year and shall be for the amount due to December 31 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between November 1, 1914, and December 31, 1914, shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the streets and avenues mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all conditions of this contract, and that the assignee or lessee as same or will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual, firm or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, or within the districts hereinbefore described.

Fifth—The rights and privileges hereby granted shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything therein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination or forfeiture of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the pipes, conduits and appurtenances of the Company constructed pursuant to this contract within the streets, avenues or other property of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its pipes, conduits and appurtenances constructed pursuant to this contract and the said streets, avenues or other property of the City shall be restored to their original condition at the sole cost and expense of the Company.

Should the Company at any time discontinue the use of any pipes or conduits at any time constructed or used by it within either of the districts specified in this contract, the Company shall, at its own expense, immediately on such discontinuance remove such pipes or conduits from the streets and restore the surface of the streets to its original condition.

Seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said pipes or conduits, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues or other property of the City in which the Company is hereby authorized to operate.

Ninth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the pipes or conduits of the Company, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Tenth—It is agreed that the right hereby granted shall not be in preference or in hindrance

to public work of the City and should the said pipes or conduits in any way interfere with the construction of public works in the streets, avenues or other property of the City, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the pipes, conduits and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Eleventh—The Company shall bear the expense of keeping in repair for one year after it has been replaced, all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipes or conduits and the appurtenances thereof.

Twelfth—The Company shall bear the expense of inspection which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, and of all work of construction.

Thirteenth—The Company shall cause a test to be made of the pipes hereby authorized whether laid within conduits or separately when ever required by and under the supervision of the Commissioner of Water Supply, Gas and Electricity. The conditions of such test shall be as follows:

(a) If the test be made in the foundry where the pipes are manufactured, such pipes shall be subjected to a pressure of three hundred (300) pounds per square inch.

(b) If the test be made in the field, of pipes in use or ready for use, such pipes shall be subjected to a pressure of two hundred (200) pounds per square inch.

A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, and endorsed by the Commissioner of Water Supply, Gas and Electricity, and filed with the Board.

Fourteenth—The Company shall not charge consumers more than the following rates for refrigeration to be furnished to boxes properly insulated at a temperature not lower than 32 degrees Fahrenheit:

Four (4) cents per month per cubic foot for boxes of not over 500 cubic feet.

Two (2) cents per month per cubic foot for boxes of over 500 cubic feet, but less than 1,500 cubic feet.

One (1) cent per month per cubic foot for boxes of 1,500 cubic feet and over.

These rates shall not apply to boxes located above the first floor of any building.

During the term of this contract the Board shall have absolute power to regulate the minimum and maximum rates, provided that such rates shall be reasonable and fair.

Fifteenth—The Company, upon the application for refrigeration of any person, firm or corporation whose premises are located within District Number 1, or if such district be extended as hereinbefore provided, then within such extended district, shall extend its pipes or conduits to such premises and furnish to said applicant refrigeration at the rates herein prescribed or at such rates as may be hereafter fixed by the Board as herein provided. The Company shall not be required, however, to furnish refrigeration to applicants whose premises are located above the first floor of any building.

Nothing contained in this subdivision shall affect the obligations of the Company, as hereinbefore contained, to extend its conduits and pipes outside the present boundaries of District Number 1, so as to furnish refrigeration to the premises of the Steel-Drake Baking Company, known as 42, 43, 44, 45, 159, 160 and 162 Wall-about Market.

Sixteenth—A correct map shall be furnished to the Board by the Company on the first day of February, 1915, showing the exact location of all pipes, conduits and manholes constructed, with reference to the street lines, the curb lines and the street surface, together with a statement of the total length of such pipes and conduits. On the same date of each succeeding year, during the term of this contract, a supplementary map shall be furnished the Board showing all pipes and conduits laid during the preceding year.

Seventeenth—The pipes and conduits hereby authorized shall be used only by the Kings County Refrigerating Company, and for no other purpose than supplying refrigeration.

Eighteenth—The Company shall submit a report to the Board not later than February 1, in each year, for the year ending December 31 next preceding, and at any other time, upon request of the Board, which shall state:

In case the Company fails to appear, action may be taken by the Board forthwith. Any false entry in the books of the Company or false statement in the reports to the Comptroller as to a material fact knowingly made by the Company shall constitute such a violation or breach or failure to comply with the provisions herein contained as to warrant the forfeiture of the franchise.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its pipes, conduits and appurtenances as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of fifty dollars (\$50) as fixed or liquidated damages, or the Board in case such pipes, conduits or appurtenances which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Twenty-second—The Company shall assume all liability for damages to persons or property occasioned by reason of the construction or operation of the pipes or conduits authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-third—This grant is upon the express condition that the Company, before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five hundred dollars (\$500), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board, acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street pavement and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions, or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract, or its neglect or refusal to comply with any notice or direction of the Board, or other municipal officials, given or made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, the Company shall pay to the City a penalty of one hundred dollars (\$100) for each violation, which sums may be deducted from said fund.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five hundred dollars (\$500), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or rights under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. These provisions for the recovery of penalties are in addition to the right to forfeit the franchise conferred by Section 3, Twentieth, of this contract.

Twenty-fourth—The grant of this franchise, so far as it shall affect the Wallabout Market lands, is and shall be subject to such further conditions, restrictions, agreement or consent as the Comptroller may see fit to impose or require, pursuant to the authority and control over the lands of the Wallabout Market vested in him by the Charter of the City.

Twenty-fifth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-sixth—The words "streets or avenues" and "streets and avenues" wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," included in the districts hereinabove described, and under the surface of or in which authority is hereby given to the Company to construct or maintain its pipes or conduits.

Twenty-seventh—If at any time the powers of the Board or any other authorities herein mentioned or intended to be mentioned shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

SECTION 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, con-

ditions and requirements in this contract fixed and contained.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but not finished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in

the street and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bid or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
