> CITY OF NEW YORK-FINANCE DEPARTMENT, COMPTROLLER'S OFFICE, July 28, 1887.

To the Commissioners of the Sinking Fund:

GENTLEMEN-Herewith I submit a resolution approving of the alterations in the width of a new pier foot of West Thirty-seventh street, North river, according to the plans submitted by and a resolution of the Board of Commissioners of Docks, adopted June 25, 1887, referred to the Comptroller July 20, 1887, as requested by the said Dock Commissioners.

Respectfully, E. V. LOEW, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby consent to and approve of the alterations and changes in the width of the new pier located at the foot of West Thirty-seventh street, North river, from the lines therefor heretofore adopted and approved, by making the same sixty feet in width instead of eighty feet, as fixed and established by the Board of the Department of Docks by a resolution adopted on June 25, 1887, under and by authority of section 712 of chapter 410 of the Laws of 1882, and as shown upon the plans submitted by the Department of Docks.

The Comptroller presented the following protest by Seth Low and others against granting per mission to the North and East River Railway Company to erect a building in Burling slip:

NEW YORK, July 25, 1887.

To the Hon. EDWARD V. LOEW, Comptroller:

DEAR SIR—We, the undersigned, a committee appointed at a meeting of merchants, held at the office of Messrs. Seeley Brothers, No. 32 Burling slip, on the 14th instant, convened for the purpose of taking necessary measures to restrain the North and East River Railway Company from erecting a building, about 40 x 250 feet, in Burling slip, for the use of its cars, engines, dynamos, etc., do most respectfully protest against permission being granted for such (or any building whatsoever in said street), and the committee respectfully request a hearing previous to granting the said company any such privileges, believing they would be detrimental to our business and the shipping interests, obstruct light and air, and, furthermore, be an illegal use of the street.

Very respectfully.

Very respectfully,
SETH LOW, No. 31 Burling slip,
ALBERT SAG, No. 184 Front Street,
H. C. PARKE, No. 186 Front street, NATHAN SEELEY, No. 32 Burling slip, Committee.

Which was referred to the Comptroller.

The Comptroller presented the following communication from the Counsel to the Corporation relative to litigation in regard to wharf property on the North river, and a decision of the General Term of the Supreme Court in favor of the City:

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, June 28, 1887.

RICHARD A. STORRS, Esq., Secretary of the Commissioners of the Sinking Fund:

SIR—On June 18, 1887, the General Term of the Supreme Court in this Department handed down a decision reversing the judgment entered in May, 1886, in the case of William M. Kingsland, as surviving trustee, etc., against The Mayor, etc., and the Department of Docks of the City of

New York, on the report of Hamilton Cole, Esq., Referee, awarding damages against the City to the amount of \$142,842.11, as the value of certain wharf property on the North river, extending 104 feet southward from the foot of Charlton street, which property has been taken or appropriated by the Department of Docks in connection with the building of wharves and bulkheads under the new plan of improvement, and from which judgment an appeal had been taken by me on behalf of the defendants.

The same General Term, on the same day, handed down decisions in the cases of Walter Langdon and of Marian Langdon and another against the same defendants, upon a motion made on behalf of the respective plaintiffs to confirm reports of Augustus C. Brown, Esq., Referee, upon the value of their property rights taken or appropriated by said Department in connection with the same improvement, and on motions made by me to set aside such reports pursuant to the provisions of section 1232 of the Code of Civil Procedure, and upon exceptions filed to such reports. Under these reports, had they been confirmed by the Court, the respective plaintiffs would have been entitled to damages to the amount of about \$72,000 and about \$112,000, respectively.

The opinions in each of these cases were written by Mr. Justice Daniels and were concurred in by the Presiding Justice and by Mr. Justice Bartlett.

These cases were argued in January last, and have been since held under advisement by the Court. The question presented was substantially this, namely: whether, in assessing damages sustained by the owners of wharfage rights on the exterior streets of the city, namely, West and South streets, and others, there should be taken into consideration and the City should make compensation for such additional value as arose through the maintenance of sheds and platforms, or both, in connection with the bulkhead, or the chance or possibility of obtaining a license of right to erect such sheds or platforms; or, whether the compensations to be made should exclude such additional value and be confined to the value of a right to collect wharfage merely at the original bulkhead forming the edge confined to the value of a right to collect wharfage merely at the original bulkhead forming the edge

forms; or, whether the compensations to be made should exclude such additional value and be confined to the value of a right to collect wharfage merely at the original bulkhead forming the edge of the street.

Both of the referees who had considered the question ruled in favor of the former theory of compensation, and found damages in favor of the plaintiffs at the rate of \$1,000 per running foot, little or no effort having been made by me to controvert this rate of damages upon the theory adopted by the referees, the defense having been principally confined to attacking the theory upon which these damages were based. Upon the theory advanced by me, namely, that the value arising from the sheds or platforms should be excluded, I introduced evidence to show both the income and principal value of wharfage rights, such as those in question; and in all the cases, but more especially in the Kingsland case, it was practically conceded that the principal value of the property-right upon this basis was about the sum of \$100 per running foot, and that the income value was practically equivalent to simple interest at the legal rate upon this amount.

The General Term in all of the cases sustained the view advanced by me, and, in the Kingsland case, reversed the judgment entered upon the report of the referee and ordered a new trial; and, in the two Langdon cases, set the report of the referee and ordered a new trial; and, in the two Langdon cases, set the report of the referee and ordered a new trial; and, in the two Langdon cases, set the report of the referee and ordered a further reference to ascertain damages upon a theory which should exclude sheds and platforms.

You will appreciate the great value and importance of these decisions establishing the law as to the compensation to be paid for wharf property, in connection with the plan of improvement. I should estimate that the total amount which will thereby be saved in making compensation for such property, either through condemnation or by purchase, will amount to

(3.) Contract for the conveyance by Goldsborough Banyer, as executor and trustee, etc., and others, of wharf property on the North river, extending fifty feet northward of Morton street, dated

January 8, 1887.

In that letter of December 13, 1886, I referred to these litigations and to the undesirability of approving contracts for the purchase of wharf property at rates which were evidently based upon and included shed or platform licenses, or the possibility of obtaining them. And you will remember that the subsequent approval by your Board of the contract of the Old Dominion Steamship Company, as based apon my letter of December 27, 1886, with respect thereto, was put solely upon the ground that there had been a previous approval by you in 1884 of the same contract before these questions as to the value of wharlage rights arose in the courts at all; and that it was a grave question whether the City was not bound by such contracts; and that it was not desirable to become involved in liti-

as to the value of wharlage rights arose in the courts at all; and that it was a grave question whether the City was not bound by such contracts; and that it was not desirable to become involved in litigation with respect thereto.

There may have been other such contracts, but these are all that have come to my knowledge that present solely the question presented by the decisions to which I refer, uncomplicated or unrelieved by any other consideration. The consideration in these several contracts, one of which is calculated at the rate of \$650 per running foot, and the other two at the rate of \$600 per running foot, are manifestly and, I think, concededly based upon the theory of compensation which was rejected by the General Term as erroneous, and is referred to in my letter of December 13 beforementioned. It is obvious to any one acquainted with the value of wharfage rights of this character, that their value, estimated upon a basis which should exclude these erroneous elements, would be only a very small part of this sum, and probably would not exceed \$100 per running foot. In my several communications to your Board and to the Comptroller, to which I have referred, I called your attention to these contracts until a decision by the Court should have been had upon this question, the matter being then pending and undecided. And for the purpose of your information in dealing with them, I now announce to you the result of these litigations to which I at that time referred, which result has sustained my views and has become the law upon the subject.

I consider that the City is to be congratulated upon the result of these cases, which will so greatly lessen the cost of the pending improvement to the water-front, and which establishes a rule by which the compensation required to be made is placed at a sum equivalent to the real value of the rights granted by the City, and which it is necessary for it to buy back, excluding every element of speculative value, especially such as arise through a speculation upon privi

The subject of the improvement of the water-front of the Harlem river, between One Hundred and Fifty-ninth street and the High Bridge, upon the plans submitted by the Department of Docks, and referred to the Comptroller and the Chairman of the Finance Committee of the Board of Aldermen at the last meeting of the Commissioners of the Sinking Fund, was introduced. Mr. Stark, the President of the Board of Commissioners of Docks; Mr. Marshall, Commissioner, and Mr. George S. Greene, Jr., Engineer-in-Chief of the Department of Docks, were present, and explained some of the ares of the proposed plan of improvement of the water-front at that locality on the Harlem

Further consideration of the subject was deferred until reported upon by the Committee which has it in charge.

NOTICE TO CROTON WATER CONSUMERS.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of water pents, no allowance will be made on account of water pents, no allowance will be made on account of water pents, no allowance will be made on account of water pents, no allowance will be made on account of water pents, no allowance will be made on account of water pents, no allowance will be made on account of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.
