DEPARTMENT OF HEALTH.

REPORT FOR THE WEEK ENDING OCTOBER 4, 1913.

FOOD INSPECTION.

Section 46 of the Sanitary Code in its new form demands the protection of certain classes of foodstuffs from contamination by flies and dust, whether they be displayed inside or outside of any premises. A number of offenders against this provision have been fined in court and many new cases have been instituted.

Food Inspectors have been instructed to enforce vigorously the provisions of the Sanitary Code relating to the sale of foodstuffs colored with copper salts. Where this material is found in the possession of importers the Inspector embargoes it and raises such embargo only upon official notice from headquarters that the importer has filed a written notice stating that he has withdrawn such material from sale within New York City.

All goods containing copper sulphate and found to be on sale in the City of New York will be condemned and destroyed forthwith. This latter course must be preceded by the taking of a sample for analysis and the embargoing of the material pending the result of such analysis. Such a course is necessary, as the burden of the proof that copper sulphate is present rests on the department, and not on the holder of such goods.

DETECTION OF IMPURE FOODSTUFFS BY DEPARTMENT INSPECTORS.

In Part 5, First Division, of the Court of Special Sessions there were heard on Monday, September 29, 1913, sixty-four cases in which violations of the Sanitary Code were charged by Inspectors attached to the food section of the Division of Food Inspection. These cases were all from the Boroughs of Manhattan and The Bronx, as the jurisdiction of this Court does not extend beyond these boroughs. A summary of the sixty-four cases shows the disposals to have been as follows:

Cases disposed of	21
Cases adjourned	43
Fines assessed	$1,255 00

Subdivided, these cases may be classified as follows:

Violations relating to candy	2
Violations relating to meat and fish	20
Violations relating to butter, eggs and cheese	20
Violations relating to fruits and vegetables	12
Violations relating to preservatives in foodstuffs	10
Total	64

The following are the details of some of the more interesting cases:

1. In an ice cream and candy manufacturing plant on upper 8th ave., Borough of Manhattan (case No. 2627), the Inspector found extremely unsanitary conditions. He stated that "the room where said manufacturing is carried on is about 18 by 35 feet and has a shelving on two sides. All of this shelving was filled with dirty boxes, some of which were full of or partly filled with melted and worm eaten candy, which, on being disturbed, caused a swarm of small flies and moths to fill the air. Within five feet of these shelves was a machine in which all the ice cream used on the premises was made. The shelving and other woodwork and closets were slimy and filthy. All corners were filled with rubbish and clothing." The Inspector condemned and destroyed 85 pounds of assorted candy, 10 pounds of peanut butter, 25 pounds of wormy figs, 30 pounds of gelatine, "all of which were wormy, mice eaten, dirty and unfit for food." The owner stated that he seldom visited this part of the premises and was unaware of the existing conditions. This case was adjourned.

In the basement of a large Broadway restaurant (case No. 1214) the Inspector found 14 dozen unsound eggs, which he destroyed. The owner of this restaurant had no satisfactory explanation to offer. He pleaded guilty to the offense and was fined $50.

In the basement of a Spring st. restaurant (case No. 10765) the Inspector found 217 cans of vegetables which were unfit for food, all of which he destroyed. The owner of this restaurant first stated that these vegetables were good and then admitted that they were bad and that he was holding them for return to the wholesaler, but he refused to state from whom he had bought them. In court he pleaded "guilty" to the offense and was fined $50.

On the premises of a large supply company in W. 14th st. (case No. 1806) who make a specialty of selling to the restaurant and hotel trade fine grades of game and poultry, a squad of Inspectors found that fully 75 per cent. of the stock on hand was putrid and unfit for food. The offending corporation pleaded "guilty" and was fined $500.

At a restaurant in Allen st. (case No. 1986), where manufacturing of cheese cake is a specialty, there were seized and condemned 30 dozen putrid eggs. The owner of this restaurant refused to state from whom he had bought these eggs. The Court fined him $100.

At a candy factory in Pitt st. (case No. 2634) the Inspector seized 480 pounds of assorted candy, some of which he describes as being "dirty, containing flies, dust, etc." One bowl of this was covered with a dirty shawl. A quantity of soiled clothing and rags were in this manufacturing room, some of which were used as a covering for two casks of fermented and wormy orange juice. The owner of this candy factory pleaded "guilty" and was fined $25.

In an ice cream factory in upper 1st ave. (case No. 2541), which adjoins a stable and a poultry slaughter house, the Inspector describes conditions as being "filthy in the extreme." He seized and destroyed about 100 pounds of mixtures which was about to be frozen into ice cream and which "was contaminated with dust, dirt and flies." This defendant was fined $20.

ISSUANCE OF BIRTH CERTIFICATES FOR ENTRANCE TO SCHOOL.

During the eight days immediately preceding the opening of the school term the Bureau of Records of the Department of Health issued 20,834 copies of certificates of birth to children about to enter school. During these eight days 13,591 persons applied to the Bureau of Records of the Borough of Manhattan for records of birth, and the number of certificates issued exceeded those of the corresponding period of last year by more than forty per cent. Much inconvenience was experienced by the public on account of the large crowds and resulting delays, but this inconvenience was entirely unnecessary. The bureau is open every working day in the year for the purpose of issuing certificates of birth to children who enter school for the first time, and if parents will apply at any time during the summer months, either in person or by mail, they can obtain these necessary certificates without unnecessary delay. The great majority of people applying for certificates are poor and are compelled to bring their little ones with them, and these children, as well as their mothers, are occasioned much discomfort while waiting in the crowded corridors of the department building. It is hoped that in the future applicants will realize that these certificates can be procured at any time during the year prior to the admission of the child to school, and that it is not necessary to wait until immediately before admission in order to make their applications.

Another complication results from the fact that a large number of persons apply to this department for certificates of birth not only for children born in other parts of the United States, but also for those born in all parts of the world, not realizing, apparently, that only births occurring within the limits of the City of New York are reported to and recorded by this department.

DEATH RATE FOR THE WEEK.

There were 1,248 deaths and a rate of 12.12 per 1,000 of the population reported during the week just past, as against 1,274 deaths and a rate of 12.85 for the corresponding week of 1912, a decrease of 26 deaths in absolute figures and a relative decrease of 79 deaths.

There were only 2 deaths reported from measles and 2 from scarlet fever during the week. Diphtheria showed an increase of 7 deaths, whooping cough 5 deaths and typhoid fever 6 deaths over the corresponding week of last year. There were 105 deaths reported from diarrhœal diseases under five years of age, a decrease of 25. Pneumonia showed exactly the same number of deaths in each of the weeks under comparison. There were 124 deaths reported from tuberculosis, a decrease of 21 deaths. The greatest decrease was shown in the mortality from Bright's disease and nephritis, 77 deaths being reported, as against 115 deaths for the corresponding week of last year. There were 95 deaths reported from violence, an increase of 30, 19 of this increase being due to accident. Heart diseases showed an increase of 20, the figures being 195, against 175 for the corresponding week of last year.

There were 14 fewer deaths of children under five years of age, which was exactly counterbalanced by 14 more deaths of adults over sixty-five years of age; between five and sixty-five years there was a decrease of 26 deaths.

The death rate for the first forty weeks of 1913 was 14.09, as against 14.34 during the corresponding period of 1912, a decrease of .25 of a point.

Whereas, The Board of Estimate and Apportionment is considering the advisability of amending the proceeding relating to Southside boulevard, from Parkinson avenue to Rosebank avenue, in such a way as to make it relate to Southside boulevard, from Rosebank avenue to the land heretofore acquired for this street distant about 1,050 feet south of Parkinson avenue, and of placing 75 per cent. of the entire cost and and expense of the proceeding, including the expense of the Bureau of Street Openings, maps for use in the proceeding, and any damages allowed for intended regulating, upon a local district of benefit and to include the following area:

Beginning at a point on the southwesterly right of way line of the Staten Island Rapid Transit Railway, distant 1,000 feet easterly from the easterly line of Southside boulevard, the said distance being measured at right angles to Southside boulevard, and running thence southwardly along a succession of lines each of which is distant 1,000 feet easterly from and parallel with the successive tangents in the easterly line of Southside boulevard or their prolongations, the said distance in each case being measured at right angles to the respective tangents, to the intersection with a line at right angles to Southside boulevard, and passing through a point on the prolongation of its westerly side distant 1,000 feet southerly from its southerly terminus opposite Monument No. 37, the said distance being measured along the prolongation of the westerly line of Southside boulevard; thence westwardly along the said line at right angles to Southside boulevard to the intersection with the prolongation of a line distant 1,000 feet westerly from and parallel with the westerly line of Southside boulevard as laid out south of Clove road, the said distance being measured at right angles to Southside boulevard; thence northwardly along the said line parallel with Southside boulevard and along the prolongation of the said line, to the intersection with a line midway between Neckar avenue and Weser avenue, as these streets adjoin Pierce street; thence northwardly along the said line midway between Neckar avenue and Weser avenue, and along the prolongation of the said line to a point distant 1,000 feet westerly from the westerly line of Southside boulevard, the said distance being measured at right angles to Southside boulevard; thence northwardly and always distant 1,000 feet westerly from and parallel with the westerly line of Southside boulevard and its prolongation as laid out in the first tangent south of Rosebank avenue to the intersection with the southwesterly line of Rosebank avenue; thence northeastwardly and parallel with Norwood avenue to the intersection with a line distant 100 feet northeasterly from and parallel with the northeasterly line of Talbot place, as this street adjoins Norwood avenue on the southeast, the said distance being measured at right angles to Talbot place; thence southeastwardly along the said line parallel with Talbot place, and along the prolongation of the said line, to the intersection with the easterly right of way line of the Staten Island Railway; thence northwardly and southeastwardly along the respective easterly and southwesterly right of way lines of the Staten Island Railway, and of the Staten Island Rapid Transit Railway, to the point or place of beginning. (The lines of the streets hereinbefore referred to which have not been incorporated upon the City plan, are intended to be those as in use and as commonly recognized.)

The remaining 25 per cent of the entire cost and expense of the amended proceeding, excluding such proportion of the cost of buildings that may be placed upon the City at large, under the provisions of section 980 of the Charter, is to be borne and paid by the Borough of Richmond.

Resolved, That this Board consider the proposed apportionment of the cost and expense of the amended proceeding and the proposed modified area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 23d day of October, 1913, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
