Which were adopted by the following vote:

Affirmative—The Mayor, the Comptroller, Commissioners Ten Eyck, Ryan and Windolph—5.

Commissioner Curtis excused from voting because he was not familiar with the subject matter.

The following was received from Messrs. Coleman, Breuchaud & Coleman, contractors for the New Croton Dam:

CROTON-ON-HUDSON, N. Y., September 29, 1902.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—We have received your letter of September 26, 1902.

You maintain that you have no statement from us that a reduction of the hours of work would cause us any injury. We beg to state that if we had to pay our men the same wages for a reduced number of hours, it follows that our financial loss would be large and easily estimated, causing us an obvious injury.

As regards facts for a basis of modification of our contract, we beg to hand you herewith a table of prices which we submit for your consideration.

We notice that you refer to an absence of sufficient reasons given by us why such a modification would be for the best interests of The City of New York. We respectfully submit the following reasons for your consideration:

The contract for the construction of the New Croton Dam was executed in 1892, before the eight-hour working day had been adopted by the Legislature as the policy of the State in all public works.

Since then the eight-hour day has been given the force of law in relation to public work by action of the Legislature, and has, as matter of fact, become universal for City work.

In the vicinity of the New Croton Dam an important contract is in force under the eight-hour law, and others have to be made in the Croton Reservoir upon the same basis.

Under these circumstances, there have already been, since the passing of the law of April 14, 1902, many delays in the construction of the dam, owing to our inability of securing a sufficient number of men for working on a ten-hour basis, and while these conditions remain unchanged more delays are certain to occur; and, as you are aware, the work is now stopped owing to the impossibility of keeping our men at work under the old conditions.

From what precedes it can be seen that the adoption of the eight-hour day would importantly hasten the completion of the dam, which is of vital consequence to the water supply system of New York.

Considering that the demands of the workmen are due to a Legislative act, approved by the Mayor of New York, which imposes upon us new conditions which were not contemplated in our contract, we do not consider that we can be held responsible for the delays which have already occurred. Although we know that the act of April 14, 1902, is not mandatory, we feel justified in representing that, in our opinion, our case calls for the exercise of discretion in accordance with its terms.

Yours very respectfully,

COLEMAN, BREUCHAUD & COLEMAN.

Resolved, That the communication of Coleman, Breuchaud & Coleman, contractors for the New Croton Dam, dated September 29, 1902, together with schedule of prices attached thereto, be and hereby is referred to the Chief Engineer of this Commission for examination and report, with instructions to confer with the Engineer of the Department of Finance and the Engineer of the Board of Estimate and Apportionment as to the subject matter therein contained. That pending such report the contractors for the New Croton Dam be requested to state in writing when the work on the dam could be completed at the rate which it was proceeding prior to the existing strike and how much it would shorten the time of completion if the contract was amended to make eight hours a day's work; also as to whether or not the contractors can assure the Commissioners

that upon their taking under serious consideration the matter of amending the contract to make eight hours a day's work at the New Croton Dam the work will meanwhile be resumed.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, Commissioners Ten Eyck, Ryan, Windolph and Curtis—6.

Report No. 411, dated September 30, 1902, was received from the Chief Engineer, being in relation to the subject matter of Report No. 397, and also a communication addressed to the Aqueduct Commissioners by Robert L. They are as follows: Bridge "A," Hunter's Brook Bridge across Hunter's brook; Bridge "B," Old Croton Dam Bridge across the Croton river and Bridge "C," Pines Bridge across Croton Lake. The other eleven bridge superstructures are to be erected on the remaining thirteen miles of highways yet to be constructed on the Croton River Division.

Yours respectfully,

W. R. HILL, Chief Engineer.

Which was referred to the Construction or Executive Committee.

The following communication was also received from the Chief Engineer:

REPORT NO. 413.

NEW YORK, October 1, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Relating to the application of Edward E. de Lancey, Assistant Engineer, for an increase of salary from \$1,800 to \$2,250 per annum, I beg to report that he is employed on the New Croton Dam Division and has charge of the office work and estimate work in connection with the dam. He was appointed Chairman February 1, 1885; since then he has received four promotions, the last being on February 1, 1900, when he was promoted to his present position. He has been attentive and faithful in the discharge of his duties.

Yours respectfully,

W. R. HILL, Chief Engineer.

Which was referred to the Construction or Executive Committee.

The following communication was also received from the Chief Engineer:

REPORT NO. 414.

NEW YORK, October 2, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Again referring to the communication received from the Municipal Civil Service Commission, dated September 13, 1902, certifying a list of names from which four Axemen could be appointed, I beg to report that Thomas P. White, Edward Pfortner and John H. Moebus declined to accept an appointment; Frank Berbert and John C. Guion failed to respond to the communication asking if they would accept an appointment. By the appointment of Frank X. Fish the list is exhausted. Therefore I recommend that you request the Civil Service Commission to certify a list from which three Axemen can be appointed.

Yours respectfully,

W. R. HILL, Chief Engineer.

The recommendation of the Chief Engineer was approved and adopted and the Secretary was directed to procure the eligible lists desired.

The following communication was also received from the Chief Engineer:

REPORT NO. 415.

NEW YORK, October 2, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Relating to a communication received from Messrs. Robertson & Barrett, dated September 8, 1902, transmitting bill of Clark & Avery, for \$28.50, and of Arthur S. Avery, for \$58, for removing bodies from the Katonah Cemetery, which communication was referred to me, I would report that I instructed Mr. Edward Wegmann, Division Engineer, to investigate the matter and he writes me as follows:

"In answer to your favor of the 24th inst., I have to report as follows about the removal of bodies referred to in your letter:

"The Mr. Avery, of the firm of Clark & Avery, is Mr. A. S. Avery, since May 9, 1901, Axeman on this division. He informs me that in December, 1899, before entering the service of The City of New York, he moved, as a member of the firm of Avery & Smith, three bodies, with stones, etc., from the Katonah Cemetery to Oakwood, Mt. Kisco, for Mrs. Amelia Deacon, of Katonah, New York, for which he was paid \$58. Before doing this work he wrote to Mr. H. T. Dykman to get his consent to the removal and received an answer of which I inclose a copy.

"In April, 1902, while employed by the City, Clark & Avery, of which firm he is a member, moved one body, with stones, etc., from Katonah to Bedford Union Cemetery, for Miss E. A. Reynolds, of Mount Vernon, N. Y., for which they received \$28.50. In this case Clark & Avery did not communicate with Mr. Dykman, as they thought his letter of October 6, 1899, of which a copy is inclosed, covered this case.

"I have, therefore, to report that the two bills mentioned in your letter are correct, and were actually paid by owners of lots in Katonah Cemetery for moving bodies, stones, etc. As far as I can learn, no promise was given to the plotters that the City would reimburse them for the expenses incurred in moving the bodies and monuments, but they wished to have the work done without any delay and did it, therefore, on their own account.

"The bill seems reasonable, though the work might probably have been done for

somewhat less if let in a big contract. The prices charged per body and stone are in one case \$19.33 and in the other \$28.50. Smith & Godwin last fall moved bodies and stones from the Katonah Cemetery for from \$14 to \$24 per body.

"The above facts will give you all the information I have in connection with these bills."

The following is a copy of the letter of Mr. H. T. Dykman to which Mr. Wegmann refers:

"October 6, 1899.

"Messrs. AVERY & SMITH, Katonah, New York:

"GENTLEMEN—I do not think the removal of the body before any award is made can have any serious effect on the award. You must bear in mind the fact, however, that Judge Barnard has decided that the City must remove these bodies and, of course, pay the expenses.

"Yours truly,

"H. T. DYKMAN, "C."

All of which is respectfully submitted.

Which was laid over.

W. R. HILL, Chief Engineer.

The following communication was received from the Secretary:

NEW YORK, September 30, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—This is to report that the sum of \$110 has been received at this office from Division Engineer Wegmann, being rents collected on the Croton River Division of the New Aqueduct, which amount has been transmitted to the City Chamberlain for the credit of the "Additional Water Fund," and his receipt therefor is on file.

Respectfully,

HARRY W. WALKER, Secretary.

Which was approved and ordered filed.

The following communication was also received from the Secretary:

NEW YORK, October 2, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—This is to report that the sum of \$182.20 has been received from Charles A. Berrian, Auctioneer, being the net proceeds of auction sale of apples, held August 29, 1902, on the New Croton Dam Division and the Croton River Division of the New Aqueduct. Said amount has been transmitted to the City Chamberlain for the credit of the "Additional Water Fund," and his receipt therefor is on file.

Respectfully,

HARRY W. WALKER, Secretary.

Which was approved and ordered filed.

The Secretary verbally stated that, by direction of the President, he had transmitted to the Mayor the following communication of the Chief Engineer relative to the New Croton Dam:

NEW YORK, September 29, 1902.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commission:

DEAR SIR—For the week ending Friday, September 26, 1902, I would report as follows in regard to the New Croton Dam:

Which action was approved.

The following communication was received from the Law Department:

NEW YORK, September 30, 1902.

Hon. WILLIAM H. TEN EYCK, President, Board of Aqueduct Commissioners:

SIR—A communication from your Honorable Board, by its Secretary, dated September 27, was received which reads as follows:

"We transmit herewith resolutions adopted at a meeting of the Aqueduct Commissioners, held September 26, 1902, granting an extension of time until November 1, 1903, to Williams & Gerstle, contractors, in which to complete their contract with said Commissioners for building the Muscote Dam; and ask to be informed as to whether or not it is necessary, in your opinion, that a form of amended contract be executed by the Aqueduct Commissioners, the contractors and their sureties to make operative the terms and conditions set forth in the resolutions herewith submitted; and, if so, will you kindly prepare such a form of amended contract (in triplicate) as you may deem proper in the premises."

In my opinion it is not necessary to prepare and execute an amended form of contract to embody the terms under which the time has been extended for the completion of the Muscote Dam. The said resolution is a matter of record, and if the contractor has obtained the consents of the sureties, as therein provided, and continues the work with the knowledge and under the terms of the said resolution, he will be bound thereby without subscribing to a formal contract.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

Which was ordered filed.

The following was received (in triplicate):

"The undersigned, The United States Fidelity and Guaranty Company and The City Trust, Safe Deposit and Surety Company of Philadelphia, sureties on bond of Williams & Gerstle, in the sum of seventy-five thousand dollars (\$75,000) running to The City of New York, acting by its Aqueduct Commission, guaranteeing the faithful performance of contract for building Muscote Dam on Croton river, bearing date May 10, 1901, hereby consent and agree to a modification extending time for completion of said contract until November 1, 1903, without in any manner impairing our liability as sureties on said bond.

Dated New York City, September 29, 1902.

[Seal] "THE UNITED STATES FIDELITY AND GUARANTY COMPANY,

By SYLVESTER J. O'SULLIVAN, Manager.

Attest:

Which were ordered attached to the contract for building the Muscote Dam.

The following circular letter was received from the Mayor:

September 29, 1902.

To the Heads of Departments of The City of New York:

Your attention is called to the following section of the Civil Service Law, forbidding the levying or collection of assessments upon public employees for political purposes.

You will be kind enough to see that the men in your Department fully understand this law and to assure them that they will have your support in resisting any attempts to make such collections should any such efforts be made.

Yours very truly,
SETH LOW, Mayor.

The Secretary was directed to call the attention of the employees in his office to the above letter, and to transmit a copy thereof to the Chief Engineer, to communicate to the employees under his jurisdiction.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
