By action of the Commissioner of Docks of December 10, 1902, a section of the bulkhead or river wall was authorized in the vicinity of Cedar street, extending from about opposite the middle of the block between Carlisle and Albany streets northerly to a point 40 feet southerly of the northerly line of Cedar street, and is in accordance with the new plan for the improvement of the water front, as determined by the Commissioner of Docks, November 25, 1902, and approved by the Commissioners of the Sinking Fund, December 3, 1902. The work includes the removal of the old structures, including Piers, old 12, 13 and 14, together with the sheds thereon. The Committee was thereupon discharged.

The Committee on Catalogue of Works of Art belonging to the City presented the following report:

"Your Committee upon Catalogue of Works of Art belonging to The City of New York begs to submit the following report:

"Immediately after the reorganization of the Art Commission in January, 1902, following the adoption of the present Charter, it became manifest that in order properly to pass upon the designs of new public structures and especially upon the propriety of proposed locations for new works of art, a complete catalogue, including the precise location of existing works of art, was necessary. Application for the needed data was made to the various Departments, and it immediately became evident that not only was there no catalogue in existence, but that the material from which one could be compiled was widely scattered and in many instances wholly lacking.

"A summary inquiry further showed that the number of works of art acquired by the City from time to time, by gift, purchase or otherwise, including paintings, statues, monuments, busts, tablets and other sculptures intended for ornament or commemoration, was very much larger than had been imagined. Many were unknown to the public and, scattered through various public buildings, had almost been lost sight of by the City authorities themselves.

"These facts were placed before the Art Commission, and this Committee was thereupon appointed with power to secure the preparation of a catalogue as rapidly as circumstances would permit.

"In preparing the list submitted herewith, recourse has been had to the records of the various Departments, supplemented by a thorough canvass of the Borough of Manhattan. It is not expected that the list is free from errors, for in many instances the data secured were not only incomplete but very vague and uncertain. Even the works of art themselves do not in all instances bear the names of the artists or dates of completion. In a number of instances, owing to the changes and alterations that have been made, the name of the artist has partially or wholly been obliterated, and the authorship is consequently open to question. The catalogue is, however, as complete as the material at hand at present will permit, and if those into whose hands this catalogue may come shall be able to supply the deficiencies and correct such errors as may unavoidably have crept in, it will be appreciated not only by the Committee, but by those who are constantly applying at the office of the Commission for information regarding the City's art works.

"In determining whether a painting, sculpture or structure is a work of art, the definition used in the Charter in defining the powers of the Art Commission has liberally been construed. Section 637 provides: 'The term "work of art" as used in this title shall apply to and include all paintings, mural decorations, stained glass, statues, bas-reliefs, or other sculptures, monuments, fountains, arches or other structures of a permanent character intended for ornament or commemoration.'

"All inscriptions have been copied verbatim, and where it has been possible to decipher the signature of the artist, this has been indicated by the use of quotation marks. Where the artist's name is not inclosed in quotation marks, it is to be understood, therefore, either that there is no signature or that the signature is in doubt. The asterisk (*) is used to indicate the fact of official approval by the Art Commission, before acquisition by the City. The items under each division are classified first alphabetically and again geographically to facilitate easy reference.

"To provide a correct record of the location of all works of art, maps of the entire City have been prepared, mounted and placed in the office of the Commission. The location of every work of art and structure approved by the Commission has been plotted. A system of notation has also been adopted which shows at a glance whether the designs and location of a work of art or a public structure have been approved in whole or in part, or have not been passed upon by the Commission. A number has been assigned to each structure and a card catalogue prepared which enables one to find in a moment all of the data in the records of the Commission or its files relating to it. The system is capable of indefinite expansion, and as matters are acted upon by the Commission, the records will be extended so that the catalogue and index will be kept up to date from month to month."

The report was received and ordered placed on file.

On motion, the matter was referred back to the Committee with instructions and full power to print 1,000 copies of the catalogue and take such steps as may seem advisable toward the preservation of the report in permanent form.

MUNICIPAL CIVIL SERVICE COMMISSION.

Municipal Civil Service Commission, No. 61 Elm street, }
New York City, November 21, 1904. }

A meeting of the Municipal Civil Service Commission was held at the Commission's offices, No. 61 Elm street, on Monday, November 21, 1904, at 5 P. M. All the Commissioners were present.

On motion, the minutes of November 11, 1904, were approved as amended, and the minutes of November 16, 17 and 19 were approved as read.

On motion, it was

Resolved, That the mental examination for the position of Fireman held on November 15, 1904, be and the same hereby is canceled for the reason that in the opinion of the Commission the questions asked, more especially in the paper on "government," were too severe, and were not such a test as would be calculated to bring out the capabilities of candidates for the position of Fireman, and persons qualified to answer questions on constitutional law, such as were presented in this paper, are not such as would generally be seeking the position of Fireman; and further for the reason that such questions did not conform strictly to the provisions of section 3 of Rule XVII; and

Resolved, That the Chief Examiner be and hereby is directed to prepare another set of questions and to hold a mental examination for the position of Fireman at the earliest possible moment.

The Secretary presented a letter from the President of the Borough of The Bronx, dated November 21, 1904, requesting that the Commission authorize him to carry the names of persons employed in the out-door force of his department upon the pay-rolls with the words "No time" after their names during the period from December 1 to April 1 in each year, for the reason that the employment of such persons is impracticable during those months.

On motion, the request of the President of the Borough of The Bronx was denied for lack of power.

On motion, the action of the Secretary in issuing a certificate of reinstatement in the case of James Anderson, a Watchman in the Department of Docks and Ferries, who was dropped from the rolls of that department for the reason that his name had appeared thereon for more than thirty days without time, was approved.

The Secretary presented a report of the Labor Clerk on the case of one Carmine Sarlo, of No. 118 Jersey street, New Brighton, Staten Island, who was appointed a Foreman of Laborers in the office of the President of the Borough of Richmond on August 15, 1904, with six others. The report stated that three of the men were put to work, while the other four, including Sarlo, were dropped from the roll on September 28 for "failure to appear for work"; that Mr. Sarlo had called at this office and made an affidavit to the effect that he never was notified of his appointment.

On motion, the matter was referred to Examiner Byrne for investigation.

The Secretary presented a letter from the Chief Examiner, together with a letter from Medical Examiner Kene, with reference to the proposed transfer of Dr. William H. Walker from the position of Hospital Physician in the Department of Correction to that of Medical Inspector in the Department of Health, the question of the propriety of the said transfer having been referred to those Examiners for a report to the Commission. The letter of Dr. Kene set forth that in his opinion Dr. Walker's qualifications as a Medical Inspector were fully tested by the examination in which he competed for the position of Hospital Physician on April 27, 1903; the Chief Examiner stated that in his opinion the transfer would be a proper one.

On motion, the transfer was approved.

The Secretary presented a letter from the President of the Borough of Manhattan, dated November 14, requesting that the classification of positions in the exempt class in his department be amended by including therein the position of Confidential Inspector.

On motion, the Secretary was instructed to arrange a public hearing in the matter, in accordance with the provisions of Civil Service Rule III.

A letter was presented from the Department of Health, dated November 12, 1904, requesting the Commission to hold a non-competitive examination for Dr. Robert B. Gibson, Dr. Charles Bolduan and Miss Adele Oppenheimer, to qualify them for temporary appointment to the position of bacteriologist, pending the establishment of the eligible list for that position.

On motion, the request was granted and the Secretary was instructed to arrange the examination at an early date.

The President presented a report upon the case of John Schneider, Laborer in the office of the President of the Borough of The Bronx, which matter had been referred to him for investigation. The President stated that Mr. Schneider was absent from duty from August 22, 1903, to March 31, 1904, a period of over seven months, and therefore he was not entitled to have his name placed upon the preferred list at that time, and his reassignment to duty on March 31, 1904, was irregular. In view of these facts, the Secretary was instructed to communicate with President Haffen and state that the Commission is without power to authorize the restoration of Mr. Schneider's name to the pay-roll.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits, thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
