**Article VII
 Chapter 4
 Special Permits by the City Planning Commission**

**74-74
 Large-Scale General Development**

* * *

**74-743
 Special provisions for bulk modification**

- (a) For a #large-scale general development#, the City Planning Commission may permit:
 - (1) distribution of total allowable #floor area#, #rooming units#, #dwelling units#, #lot coverage# and total required #open space# under the applicable district regulations within a #large-scale general development# without regard for #zoning lot lines# or district boundaries, subject to the following limitations:
 - (i) no distribution of #bulk# across the boundary of two districts shall be permitted for a #use# utilizing such #bulk# unless such #use# is permitted in both districts;
 - (ii) when a #large-scale general development# is located partially in a #Residence District# or in a C1, C2, C3 or C4-1 District and partially in other #Commercial# or #Manufacturing Districts#, no transfer of commercial #floor area# to a #Residence District# or to a C1, C2, C3 or C4-1 District from other districts shall be permitted, except that for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, a transfer of commercial #floor area# from a C6 District to a C2 District may be permitted;

- (2) location of #buildings# without regard for the applicable #yard#, #court#, distance between #buildings#, or height and setback regulations;

* * *

- (8) in an #Inclusionary Housing designated area# in a C4-7 District within the boundaries of Manhattan Community District 7, for the purpose of applying the Inclusionary Housing Program within such #Inclusionary Housing designated area#, as set forth in a restrictive declaration:

- (i) modification of the base and maximum #floor area ratios# specified in Section 23-952 (Floor area compensation in Inclusionary Housing designated areas), not to exceed the maximum #floor area ratios# permitted by the underlying district, based on a proportionality between #affordable floor area#, as defined in Section 23-911, and #residential floor area# in #buildings# containing multiple #uses#; and
- (ii) modification of the requirements regarding distribution of #affordable housing units#, as defined in Section 23-911, specified in paragraph (b) of Section 23-96 (Requirements for Generating Sites); ~~or~~

- (9) within the boundaries of Community District 3 in the Bronx, portions of any #building#, at any level, that contain permitted or required #accessory# off-street parking spaces, to be excluded from the calculation of #lot coverage#; or

- (10) for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, waiver of the planting requirements of Section 23-892 (In R6 through R10 Districts), provided the area between the #street line# and the #street walls# of the #building# and their prolongations is to be improved as a publicly accessible widened sidewalk.

- (b) In order to grant a special permit pursuant to this Section for any #large-scale general development#, the Commission shall find that:

- (1) the distribution of #floor area#, #open space#, #dwelling units#, #rooming units# and the location of #buildings#, primary business entrances and #show windows# will result in a better site plan and a better relationship among #buildings# and open areas to adjacent #streets#, surrounding development, adjacent open areas and shore lines than would be possible without such distribution and will thus benefit both the occupants of the #large-scale general development#, the neighborhood and the City as a whole;
- (2) the distribution of #floor area# and location of #buildings# will not unduly increase the #bulk# of #buildings# in any one #block# or unduly obstruct access of light and air to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks# or of people using the public #streets#;
- (3) where a #zoning lot# of a #large-scale general development# does not occupy a frontage on a mapped #street#, appropriate access to a mapped #street# is provided;
- (4) considering the size of the proposed #large-scale general development#, the #streets# providing access to such #large-scale general development# will be adequate to handle traffic resulting therefrom;
- (5) when the Commission has determined that the #large-scale general development# requires significant addition to existing public facilities serving the area, the applicant has submitted to the Commission a plan and timetable to provide such required additional facilities. Proposed facilities that are incorporated into the City's capital budget may be included as part of such plan and timetable;
- (6) where the Commission permits the maximum #floor area ratio# in accordance with the provisions of paragraph (a)(4) of this Section, the #open space# provided is of sufficient size to serve the residents of new or #enlarged buildings#. Such #open space# shall be accessible to and usable

by all residents of such new or #enlarged buildings#, have appropriate access, circulation, seating, lighting and paving, and be substantially landscaped. Furthermore, the site plan of such #large-scale general development# shall include superior landscaping for #open space# of the new or #enlarged buildings#;

- (7) where the Commission permits the exclusion of #lot area# or #floor area# in accordance with the provisions of paragraph (a)(5) of this Section or modification of the base and maximum #floor area ratios# or requirements regarding distribution of #affordable housing units# in accordance with paragraph (a)(8) of this Section, such modification will facilitate a desirable mix of #uses# in the #large-scale general development# and a plan consistent with the objectives of the Inclusionary Housing Program and those of Section 74-74 (Large-Scale General Development) with respect to better site planning;
- (8) where the Commission permits portions of #buildings# containing #accessory# parking spaces to be excluded from the calculation of #lot coverage# in accordance with the provisions of paragraph (a)(7) of this Section, the exclusion of #lot coverage# will result in a better site plan and a better relationship among #buildings# and open areas than would be possible without such exclusion and therefore will benefit the residents of the #large-scale general development#; and
- (9) a declaration with regard to ownership requirements in paragraph (b) of the #large-scale general development# definition in Section 12-10 (DEFINITIONS) has been filed with the Commission.

The Commission may prescribe additional conditions and safeguards to improve the quality of the #large-scale general development# and to minimize adverse effects on the character of the surrounding area.

For a phased construction program of a multi-#building# complex, the Commission may, at the time of granting a special permit, require additional information, including but not limited to a proposed time schedule for carrying out the proposed #large-scale general development#, a phasing plan showing the distribution of #bulk# and #open space# and, in the case of a site plan providing for common #open space#, common open areas or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

- (a) #Use# modifications
 - (1) Waterfront and related #commercial uses#

 - (ii) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.
 - (2) Automotive sales and service #uses#

For #large-scale general developments#, previously approved by the City Planning Commission, in a C4-7 District within the boundaries of Manhattan Community District 7, the City Planning Commission may modify applicable district regulations to allow automotive sales and service establishments that include repair services and preparation for delivery, provided the Commission shall find that:

 - (i) the portion of the establishment used for the servicing and preparation of automobiles is located entirely in a #cellar# level and below grade or established #curb level#, and the ground floor level of such establishment is used only for showrooms and sales;
 - (ii) sufficient indoor space for storage of vehicles for sale or service has been provided; and

For a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, the City Planning Commission may modify applicable district regulations to allow Use Groups 10, 11A and 12A except for arenas or auditoriums, skating rinks, public auction rooms, trade expositions and stadiums, provided the Commission finds that:

- (i) such #uses# will not impair the character of future #uses# or development of the surrounding area; and
- (ii) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.

(b) Location of #commercial uses#

For any #large-scale general development#, the City Planning Commission may permit #residential# and non-#residential uses# to be arranged within a #building# without regard for the regulations set forth in Section 32-42 (Location within Buildings), provided the Commission shall find:

- (1) the #commercial uses# are located in a portion of the #mixed building# that has separate access to the outside with no opening of any kind to the #residential# portion of the #building# at any #story#;
- (2) the #commercial uses# are not located directly over any #story# containing #dwelling units#; and
- (3) the modifications shall not have any adverse effect on the #uses# located within the #building#.

(c) Modifications of #sign# regulations

(1) In all #Commercial# or #Manufacturing Districts#, the City Planning Commission may, for #developments# or #enlargements# subject to the provisions of paragraphs (a)(1), (a)(2) or (a)(3) of Section 74-743 (Special provisions for bulk modification), permit the modification of the applicable provisions of Sections 32-64 (Surface Area and Illumination Provisions), 32-65 (Permitted Projection or Height of Signs), 32-66 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways), 42-53 (Surface Area and Illumination Provisions), 42-54 (Permitted Projection or Height of Signs), 42-55 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) and the limitations on the location of #signs# in Sections 32-51 and 42-44 (Limitations on Business Entrances, Show Windows or Signs), provided the Commission finds that such modification will result in a better site plan.

(2) For a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, the City Planning Commission, by authorization, may make the #sign# regulations of a C6-1 District applicable to those portions of such #large-scale general development# within a C2 District, and in addition, may modify the provisions of Section 32-68 (Permitted Signs on Residential or Mixed Buildings) to allow #signs accessory# to non-#residential uses# above the level of the finished floor of the third #story#, provided such #signs# do not exceed a height of 40 feet above #curb level#. In order to grant such authorizations, the Commission shall find that such modifications are consistent with the amount, type and location of #commercial uses# that the Commission finds appropriate within such #large-scale general development#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the development.

Special Purpose DistrictsChapter 1
Special Downtown Brooklyn District

101-01
Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS), Section 101-302 (Definitions Specific to the Atlantic Avenue Subdistrict) or in this Section.

Automated parking facility

An "automated parking facility" shall refer to an *accessory# off-street parking facility or public parking garage#* where vehicular storage and retrieval within such facility is accomplished entirely through a mechanical conveyance system, and shall not refer to a parking facility with parking lift systems that require an attendant to operate the vehicle that is to be parked.

Development or to develop

For purposes of this Chapter, "development" includes a *development#*, an *enlargement#* or an *extension#*. To "develop" is to create a *development#*.

* * *

101-50
OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

The provisions of Article II, Chapter 5 (ACCESSORY OFF-STREET PARKING AND LOADING REGULATIONS), and Article III, Chapter 6 (ACCESSORY OFF-STREET PARKING AND LOADING REGULATIONS), shall apply, except as modified in this Section 101-50, inclusive.

101-51

Minimum Parking Requirements in R7-1 Districts

In R7-1 Districts, the provisions of Article II, Chapter 5 (ACCESSORY OFF-STREET PARKING AND LOADING REGULATIONS), shall apply, except that

The provisions of this Section shall apply to all districts within the *Special Downtown Brooklyn District#*, except R6B Districts:

- (a) The *accessory# parking requirements* of Section 25-23 (Requirements Where Group Parking Facilities Are Provided) shall be modified to require *accessory# off-street parking spaces* for at least ~~50~~ 20 percent of the total number of new *dwelling units#*.
- (b) There shall be no minimum parking requirement for *affordable housing units#* as defined in Section 23-90 (INCLUSIONARY HOUSING), inclusive, or for *dwelling units#* eligible for reduced parking pursuant to Section 25-25 (Modification of Requirements for Public, Publicly-Assisted and Government-Assisted Housing or for Non-profit Residences for the Elderly).

However, existing *accessory# off-street parking spaces* that were required under the applicable provisions of the zoning

district regulations in effect prior to (date of adoption) may not be eliminated.

* * *

101-53
Reservoir Spaces

The provisions of this Section shall apply to parking facilities created after (date of adoption) or for parking facilities enlarged by 50 or more spaces after (date of adoption). For the purpose of determining required reservoir spaces, fractions equal to or greater than one-half resulting from the calculations in this Section shall be considered one reservoir space.

(a) Attended parking facilities

Attended *accessory# off-street parking facilities, public parking garages#* or *public parking lots#* with more than 25 off-street parking spaces shall provide the following amount of off-street reservoir space at the vehicular entrance:

- (1) for parking facilities with more than 25 parking spaces and up to 50 parking spaces: five percent of the total number of parking spaces;
- (2) for parking facilities with more than 50 parking spaces and up to 100 parking spaces: ten percent of the total number of parking spaces;
- (3) for parking facilities with more than 100 parking spaces and up to 200 parking spaces: ten parking spaces ; and
- (4) for parking facilities with more than 200 off-street parking spaces: five percent of the total number of parking spaces. However such number of reservoir spaces need not exceed 50.

(b) Automated parking facilities#

For *automated parking facilities#*, off-street reservoir space at the vehicle entrance shall be provided as set forth in paragraph (a) of this Section. Each individual parking location where a driver is permitted to leave a vehicle for transfer to a mechanized automobile storage and retrieval unit shall constitute one reservoir space. Additional reservoir spaces may be located where drivers queue to access such locations for vehicle transfer.

In addition, the number of reservoir spaces required pursuant to paragraph (a) of this Section may be reduced where the Commissioner of Buildings determines that the operational characteristics of such *automated parking facility#* warrant such a reduction.

(c) Self-parking facilities

For self-parking *accessory# off-street parking facilities, public parking garages#* and *public parking lots#*, where entering vehicles are required to stop before a mechanically operated barrier before entering the parking facility, such barrier shall be placed a minimum of 20 feet beyond the *street line#*.

101-54
Garages101-541
Public parking garages

Public parking garages# with 225 or fewer spaces shall be permitted as of right, provided that such garages are, except for entrances and exits, entirely below the level of any *street#* or *publicly accessible open area#* upon which such facility, or portion thereof, fronts. In addition to a maximum number of 225 public parking spaces, such garages may include required *accessory# parking spaces*, which may be provided at any level. Any *accessory# parking spaces* that are not required shall be included with all other public parking spaces in such *public parking garage#* for the purpose of applying any regulations in this Resolution relating to the number or location of parking spaces in such *public parking garage#*.

101-542
Off-site accessory parking spaces in public garages

Section 36-57 (Accessory Off-Street Parking Spaces in Public Garages) shall be modified to allow *accessory# off-street parking spaces* in any *public parking garage developed#* after (date of adoption) provided such off-site spaces comply with the provisions of Sections 25-50 (RESTRICTIONS ON LOCATION OF ACCESSORY OFF-STREET PARKING SPACES) or 36-40 (RESTRICTIONS ON LOCATION AND USE OF ACCESSORY OFF-STREET PARKING SPACES), as applicable.

101-543
Pedestrian safety

The provisions of this Section shall apply to parking facilities created after (date of adoption) or for parking facilities enlarged by 50 or more spaces after (date of adoption). For all *accessory# parking garages* and *public parking garages#*, the following safety features shall be provided at all vehicular exit points:

- (a) a 'stop' sign which shall be clearly visible to drivers. Such signage shall comply with the standards set forth in the Manual of Uniform Traffic Control Devices (MUTCD) issued by the Federal Highway

Administration (FHWA) for a conventional single lane road; and

- (b) a speed bump, which shall be located within the exit lane of the parking facility. Such speed bump shall:
- (1) span the entire width of such exit lane;
- (2) have a minimum of two inches in height, as measured from the adjoining grade of the exit lane and shall have a maximum depth of 12 inches; and
- (3) be located a minimum of four feet beyond the *street line#*, as measured perpendicular to the *street line#*.

101-544
Stackers in garages

Within an enclosed attended parking facility with parking lift systems, for individual lifted trays upon which a vehicle is stored, each tray upon which a vehicle is stored shall be considered 153 square feet of *floor area#*, except for portions exempt from the definition of *floor area#* pursuant to Section 12-10 (DEFINITIONS).

101-545
Automated parking facilities

For an *automated parking facility#*, the minimum size of spaces regulated in Sections 25-62 (Size and Location of Spaces) and 36-351 (Size of spaces) shall not apply.

For the purpose of calculating parking spaces in *automated parking facilities#*, each tray upon which a vehicle is stored shall constitute one off-street parking space. However, auxiliary parking trays may be exempted from constituting a parking space where the Commissioner of Buildings determines that such auxiliary parking trays are needed to routinely store and retrieve vehicles for the efficient operation of such *automated parking facility#*.

Within an *automated parking facility#*, each tray upon which a vehicle is stored shall be considered 153 square feet of *floor area#*, except for portions exempt from the definition of *floor area#* pursuant to Section 12-10 (DEFINITIONS).

101-546
Special permit for public parking garages

Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas) shall not apply to *public parking garages#*. In lieu thereof, the following provisions shall apply.

The City Planning Commission may permit:

- (a) a *public parking garage#* that does not comply with the provisions of Section 101-541 (Public parking garages) provided that such garage complies with all other applicable regulations set forth in Section 101-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS); and
- (b) floor space on one or more *stories#*, up to a height of 23 feet above *curb level#*, to be exempted from the definition of *floor area#* as set forth in Section 12-10 (DEFINITIONS).

In order to grant a special permit for such *use#* or for *floor area#* exemption, the Commission shall find:

- (1) that such *use#* will be compatible with the surrounding area, and will not adversely affect the growth and development of *uses#* comprising vital and essential functions in the general area within which such *use#* is to be located;
- (2) the proposed materials and articulation of the *street wall#* of the parking facility are compatible with *buildings#* in the surrounding area;
- (3) the ground floor level of such parking facilities that front upon *streets#* with a width of 60 feet or more, or that front upon public access areas, is occupied by *commercial#, community facility#* or *residential uses#* that generate activity on all such adjoining *streets#* or public areas, except at the entrances and exits to the parking facility. Where site planning constraints make such *uses#* infeasible, the parking facility shall be screened from such adjoining *streets#* or public access areas with a strip at least five feet deep, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen at least six feet high within three years. Where such screening is not desirable, a total of at least 50 percent of the exterior building wall with adjacent parking spaces shall consist of opaque materials that include graphic or sculptural art, or living plant material;
- (4) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind *commercial#, community facility#* or *residential floor area#*, so as to minimize the visibility of the parking facility from adjoining *streets#* with a width of 60 feet or more, or public access areas. Any exterior wall of the parking facility visible from an adjoining *street#* or public access area shall be articulated in a manner that is compatible with *buildings#* in the surrounding area;

- (5) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow and that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;
- (6) that such #use# and its vehicular entrances and exits are so located as to draw a minimum of vehicular traffic to and through residential #streets# in nearby areas; and
- (7) that, if any floor space is exempted from the definition of #floor area#, such additional floor space is necessary to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, or locations of entrances and exits.

101-55 Restrictions on Use of Accessory Off-Street Parking Spaces

The provisions of Section 36-46 (Restrictions on Use of Accessory Off-Street Parking Spaces) shall apply, provided that all #Commercial Districts# within the #Special Downtown Brooklyn District# shall be considered a C6 District for the purposes of such Section, inclusive. However, the provisions of this Section shall not apply within the Atlantic Avenue Subdistrict.

However, the City Planning Commission may, by authorization, permit a curb cut, on a #street# specified on Map 5, for parking facilities and loading berths on a #zoning lot# that does not have access or egress on another #street#, provided that such curb cut will not unduly inhibit surface traffic or result in conflict between pedestrian and vehicular circulation, and will result in a good overall site plan.

101-53 Reservoir Spaces

The provisions of this Section shall apply to parking facilities created after (date of adoption) or for parking facilities enlarged by 50 or more spaces after (date of adoption). For the purpose of determining required reservoir spaces, fractions equal to or greater than one-half resulting from the calculations in this Section shall be considered one reservoir space.

with #buildings# in the surrounding area;

(3) the ground floor level of such parking facilities that front upon #streets# with a width of 60 feet or more, or that front upon public access areas, is occupied by #commercial#, #community facility# or #residential uses# that generate activity on all such adjoining #streets# or public areas, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from such adjoining #streets# or public access areas with a strip at least five feet deep, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen at least six feet high within three years. Where such screening is not desirable, a total of at least 50 percent of the exterior building wall with adjacent parking spaces shall consist of opaque materials that include graphic or sculptural art, or living plant material;

(4) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area#, so as to minimize the visibility of the parking facility from adjoining #streets# with a width of 60 feet or more, or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;

(5) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow and that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

(6) that such #use# and its vehicular entrances and exits are so located as to draw a minimum of vehicular traffic to and through residential #streets# in nearby areas; and

(7) that, if any floor space is exempted from the definition of #floor area#, such additional floor space is necessary to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, or locations of entrances and exits.

customary tax counsel services in connection with City notes and bonds, including, without limitation, performing capital project review (for Federal tax purposes), providing advice to the City on related tax issues, and providing guidance and interpretation on compliance with Federal tax law over the life of bond issues.

Contract award will be by the Negotiated Acquisition method of source selection, pursuant to City of New York Procurement Policy Board Rules ("PPB Rules") §§ 3-04(b)(2)(iv)(A) and 3-04(b)(6), because it has been determined that it is not practical or not advantageous to award the proposed contract by competitive sealed bids or competitive sealed proposals, and that award of the proposed contract by the Negotiated Acquisition method of source selection is in the City's best interest.

It is anticipated that the contract to be awarded through this Negotiated Acquisition will have an initial two-year term commencing on or about November 1, 2012 and ending on or about October 31, 2014; the Law Department will have an option to renew for up to two additional years.

As a result of a recent publicly advertised RFP for bond counsel, the Department has identified seven law firms that it believes may be qualified to act as municipal finance tax counsel to the City, and these firms will be solicited for this procurement. The firms are: (1) Fulbright and Jaworski LLP, (2) Hawkins Delafield and Wood LLP, (3) Nixon Peabody LLP, (4) Orrick, Herrington and Sutcliffe, LLP, (5) Pugh, Jones and Johnson, P.C. (6) Sidley Austin LLP, and (7) Winston and Strawn LLP. Only these seven firms will be solicited for this procurement.

Any other law firm with similar expertise that wishes to express interest in being considered for future procurements of this kind (if any) is invited to so indicate by sending a letter to Anita Fajans, Deputy Agency Chief Contracting Officer Senior Counsel, New York City Law Department, 100 Church Street, Room 5-207, New York, NY 10007, or by sending an e-mail to her at afajans@law.nyc.gov. Firms having questions may e-mail Ms. Fajans or call her at (212) 788-0970.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above. READER'S GUIDE

The City Record (CR) is published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
