BOARD OF EXAMINERS.

September 2, 1902.

Present—Messrs. Francis C. Moore, William C. Smith, Warren A. Conover, Cornelius O'Reilly and William J. Fryer, Acting Chairman.  
 Meeting called to order at 2 p. m.  
 Minutes of meeting of the 26th ultimo read, and, on motion, approved.  
 On motion, duly seconded and approved, Mrs. M. M. D. Clark was designated and authorized to act as Secretary to the Board.

Appeal No. 245 of 1902, New Building No. 430 of 1902, Nos. 254, 256 and 258 West Forty-second street, Manhattan. George Keister, Esq., architect and appellant. Laid over at last meeting; amended August 29th ult., as follows:  
 All walls running around pent house will be carried up to proper height.  
 Floors will be made of cement.  
 Wire glass will be used wherever glass is necessary.  
 Proper skylights will be provided.  
 All woodwork for window frames, sash, doors and trim, also base of pent house, will be fireproof or covered with metal.  
 The highest point of the roof will not exceed 150 feet from the curb level.  
 All woodwork entering into the construction of the pent house will be fireproof, as approved and accepted by the Department of Buildings.  
 The entire pent house will be constructed entirely of fireproof material.  
 Standpipe with an outlet for hose connection will be provided in hall of pent house.  
 Pent house will not cover more than 50 per cent. of the roof area.  
 On motion, approved on condition that the standpipe be carried to the roof of the pent house, with outlet thereon for hose connection.

Appeal No. 247 of 1902, Alteration No. 3094 of 1902, Brooklyn, west side of Third avenue, northwest corner Nineteenth street. Messrs. Pohlmann & Partrick, architects and appellants. Laid over August 26th ult.  
 Mr. Pohlmann appeared before the Board.  
 On motion, laid over.

Appeal No. 248 of 1902, Alteration No. 3133 of 1902, Borough of Brooklyn, No. 166 Harrison avenue (Williamsburgh). Messrs. Louis Berger & Co., appellants. Laid over August 26th ult.  
 Mr. H. G. Little appeared before the Board.  
 On motion, approved on condition that all new outside stud partitions be filled in with brick on edge, laid in mortar.

Appeal No. 252 of 1902, Alteration No. 1250 of 1902, No. 39 Rutgers street, Manhattan, William B. Tuthill, Esq., architect and appellant.  
 It is intended to use the building as an industrial school, and permission is asked to do this, although the building is somewhat more than the legal height, 35 feet.

The height of the third story (top floor) above ground is 29 feet, and although the legal height of the structure as it exists is 40 feet 6 inches, measured according to the Building Code, a large proportion of the excess is in an unusable roof space.  
 The distance traveled by the scholars in getting out of the building is slight, and would not be varied by making the building fireproof. A school fire escape has already been provided, in accordance with a permit received from the Bureau of Buildings.

Mr. William B. Tuthill, architect, and Mrs. Weeks, representing the society, appeared before the Board.  
 On motion, laid over.

Appeal No. 253 of 1902, Alteration No. B369 of 1902, Bronx, Nos. 968, 970 and 972 Southern Boulevard, Herrm. Horenburger, Esq., architect and appellant.  
 It was intended to place one freight elevator, running from the floor of first story to the second story. Size of the freight elevator platform 7 feet 2½ inches by 4 feet 4 inches; carrying capacity, 1,500 pounds. Framing for hatchway in second story floor will consist of two spruce beams 3 inches by 12 inches, spiked together, thus forming the trimmers; the headers will consist of 3-inch by 12-inch spruce beams, also spiked together and to be hung in bridle irons, as required by law. The machinery under third tier of beams will be supported by suitable frame work.  
 The hatch in second floor will be provided with automatic self closing and opening hatchway covers.

Respectfully ask that the above form of construction be allowed, on the ground that it is equally as good and more desirable in this case than that required by law, in that the elevator is for connecting only the two floors, as stated, and not to extend all through the building, and is only to be used for transferring goods.  
 Mr. Horenburger appeared before the Board.  
 On motion, laid over.

Appeal No. 254 of 1902, New Building No. 380 of 1902, One Hundred and Sixty-fourth street, west of Third avenue, Bronx, Messrs. Hamilton & Mercereau, architects and appellants.  
 The building is 50 by 115, and under the technical reading of the law should have three stairways.

We have two stairways arranged at the front of the building and these each have a separate entrance or door to street.

The fire escape at the rear we have changed to make same virtually an exterior stairway, and the platforms are made four feet wide and take in two windows on each story, as indicated by the drawings. The stairs are two feet wide, have wide cast-iron treads and strings and railings, being placed at the outer edge of platforms and thus two feet away from wall, and stairs extended over the wire-glass glazed skylight to area wall of extension, to point where a light drop ladder will properly reach the ground at rear.

The exits are thus well scattered and fully provide for safety of the occupants of the building, and the sense and spirit of the law being thus complied with we respectfully ask that this fire escape as thus arranged be considered and approved as the third stairway.

On motion, laid over.

Appeal No. 255 of 1902, New Building No. 463 of 1902, northeast corner University place and Eleventh street, Manhattan, G. Starrett, Esq., architect and appellant.

The law requires four stairways in this building, but as each floor is to be rented as a whole, or in two sections, with no partitions to obstruct the free access to the stairs, we consider that the arrangement shown, together with the fire escapes, is sufficient in case of fire. We, therefore, ask to be allowed to put in three stairways, in accordance with the accompanying sketch, instead of four, as the fourth stairway would materially interfere with the purposes for which the building is to be used.

On motion, denied.

Appeal No. 256 of 1902, New Building No. 354 of 1902, Nos. 4 and 6 White street, Frederick C. Zobel, Esq., architect and appellant.

The amendment relating to the use of the party wall having been disapproved, the appellant respectfully requests your Honorable Board to permit the erection and construction of the wall as proposed.

Mr. F. C. Zobel appeared before the Board.

On motion, laid over.

Appeal No. 257 of 1902, Fireproof Shutter Case No. 21, Nos. 497 and 501 Pearl street, Manhattan, W. Wheeler Smith, Esq., architect and appellant.

On motion, referred to Mr. Conover for examination and report.

The Acting Chairman presented a communication relative to salary of Messenger, from the Secretary of the Board of Estimate and Apportionment, which was ordered on file.

Adjourned.

## LOCAL BOARD—BUSHWICK DISTRICT.

Thursday, June 12, 1902.

Meeting in Borough Hall, at 3 p. m.

The roll was called, and the following members answered to their names:

William C. Redfield, Commissioner of Public Works, presiding; Sixty-fourth Aldermanic District, Alderman Bill; Sixty-fifth Aldermanic District, Alderman Bennett; Sixty-sixth Aldermanic District, Alderman Alt.

The Commissioner submitted the following:

No. 86.

Petition to rescind the opening proceedings of Malta avenue or street, between New Lots road and Vandalia avenue.

A petition having been received for the construction of a sewer in Malta street, between New Lots road and Vienna avenue, the following resolution was offered:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 12th day of June, 1902, deeming it for the public interest so to do, hereby requests the Board of Estimate and Apportionment to amend the proceedings for opening Malta street, between New Lots road and Vandalia avenue by omitting that part of the street from Vienna avenue to Vandalia avenue, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Bill, Bennett and Alt.

No. 26.

Petition to close that part of Eldert's lane, and also that part of the old South road which lies between Blocks 4222 and 4223 on the Land Map of the County of Kings, which is between the southerly side of Glenmore avenue and the northerly side of Pitkin avenue, and the easterly side of Enfield street and the westerly side of Sheridan avenue, and to deliver a proper deed to the abutting property owners as their interests may appear.

Following report from the Engineer of the Bureau of Highways:

(Copy.)

City of New York, Borough of Brooklyn,  
Office of Commissioner of Public Works,  
Bureau of Highways, Chief Engineer's Office,  
February 18, 1902.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return herewith two separate petitions, one asking for the closing of a part of Eldert lane and old South road; the other asking for the closing of Eldert lane only. The petitions, however, appear to ask for the same thing. To one of them is attached a tracing and another one a blueprint of the same tracing.

In connection with them I beg to report as follows:

Both Eldert lane and the old South road are old streets. The use of this portion of Eldert lane has now been obviated by the throwing open to use of Grant avenue, shown upon the sketches submitted. The old South road is the only road leading easterly at this point, and is in good condition for travel.

Proceedings were initiated for opening Grant avenue, from Liberty avenue to Conduit avenue, on February 20, 1901; and rule map has been requested. While it might be wise to close that portion of Eldert lane between the old South road and the northerly side of Pitkin avenue, such closing should not take effect until the City has acquired title to Grant avenue, between Glenmore and Pitkin avenue, either by cession or the consummation of the opening proceedings already begun.

The old South road is at present a valuable connection, and should not be ceded until Forbell avenue, between Glenmore and Pitkin avenues, shall have been legally opened.

Respectfully,  
(Signed) N. P. LEWIS, Chief Engineer, Bureau of Highways.

Affidavits were presented by two property owners, showing that Grant street, between Glenmore avenue and Liberty avenue, is legally open through public usage.

The following resolution was offered:

Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, after hearing had this 12th day of June, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to close and discontinue that part of Eldert's lane lying between the centre lines of blocks bounded by the southerly side of Glenmore avenue and the northerly side of Pitkin avenue, the easterly side of Enfield street and the westerly side of Sheridan avenue, as shown by the red lines on the accompanying map; and to deliver proper deed to the abutting property owners as their interests may appear.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Bill, Bennett and Alt.

The matter of closing the old South road, as described in the petition, was laid over.

City of New York, Borough of Brooklyn,  
Municipal Building, April 22, 1902.

Mr. H. R. ASSERSON, Chief Engineer, Bureau of Sewers:

Dear Sir—Regarding your communication of April 16, referring to the opening of Williams avenue, Livonia avenue and Alabama avenue, I would say that none of these streets are opened, but are laid down on the map. No buildings are on the line of these streets.

Opening proceedings are pending for Williams and Alabama avenues, rule map having been furnished October 9, 1901, but nothing has been done toward the opening of Livonia avenue, between Williams and Alabama avenues. I will see that the rule maps of these two first-named avenues are completed at once.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith the petition for regulating, grading and paving with granite block Magenta street, between Railroad avenue and Euclid avenue. The items are:

2,000 cubic yards of grading.  
2,030 linear feet of bluestone curb.  
2,710 square yards of granite pavement.  
10,000 square feet of cement walk.  
Total estimated cost, \$9,700; assessed valuation, \$19,400.

There is no record of the street ever having been opened, although sewers and sewer basins have been constructed. Water mains are under contract, and gas mains have been laid.
