## BOROUGH OF BROOKLYN.

### ADJOURNED JOINT MEETING

Local Boards—The Heights District, Red Hook District, Prospect Heights District and Bushwick District.

Friday, August 1, 1902.

Meeting in Borough Hall at 3 p. m.

The roll was called, and the following members answered to their names:

Hon. J. Edward Swannstrom, President of the Borough, presiding; Alderman Downing, Forty-fifth Aldermanic District; Alderman Wafer, Forty-seventh Aldermanic District; Alderman Kenney, Fifty-third Aldermanic District; Alderman Gillen, Fifty-fourth Aldermanic District; Alderman Tebbetts, Fifty-sixth Aldermanic District; Alderman Bill, Sixty-fourth Aldermanic District; Alderman Alt, Sixty-sixth Aldermanic District.

No. 4.

Following communication from the Commissioner of Public Works and accompanying reports:

City of New York, Borough of Brooklyn,  
Office of Commissioner of Public Works,  
Borough Hall, July 2, 1902.

Hon. J. EDWARD SWANSTROM, President, Borough of Brooklyn:

Dear Sir—I beg to hand you herewith

1. Copy of report of the Chief Engineer of Sewers, dated 15th April, to the Superintendent of Sewers, on the subject of relief sewers, giving full details of their need, purpose and cost.

2. Copy of opinion of the Corporation Counsel of June 6 to the Comptroller, to the effect that relief sewers should be paid for by assessment.

3. Memoranda (bound in book) for your personal use, giving details in brief form of the relief sewers required.

4. Map showing said relief sewers in detail—attached to said book.

5. Report of the Chief Engineer of Sewers, dated June 11, to the Superintendent of Sewers, concerning alterations in sewers, necessary because of the construction of the Rapid Transit Subway to New York. A copy of the drawings mentioned in this report has been sent the Rapid Transit Commission and another is on file in the Bureau of Sewers. The report is, however, sent for the special purpose of calling attention to relief sewer from Dean street and Flatbush avenue to Gowanus canal, which is Item No. 2 on page 3 of the memoranda in book form herewith.

6. Tracing showing the proposed relief sewer from Dean street and Flatbush avenue to the Gowanus canal and its relation to the Rapid Transit Subway at and near the junction of Flatbush avenue and Atlantic avenue.

7. Copy of letter from this office to the Corporation Counsel of July 1, sending him duplicate of the memoranda in book form herewith, and inquiring as to the right of the City to use the old Vandervoort avenue sewer.

Your attention is specially asked to Items "A," "5" and "5A" in connection with the inclosed letter to the Corporation Counsel, from which it will appear that if the right of the City to the use of the abandoned sewer in old Vandervoort avenue still exists, this sewer can be so utilized, at small expense, as to do away with the constructions Items "A" and "5," and at the same time to relieve the flooded district in the Twenty-eighth Ward, an object greatly to be desired.

Kindly note also that if Item No. 2, the proposed sewer from Dean street and Flatbush avenue to Gowanus canal, can be authorized by the Local Board and the Board of Estimate and Apportionment before six months elapse from the time of signing of the Rapid Transit Tunnel contract, it will save the crossover that otherwise will be necessary at Ashland place, at a cost to the City of approximately \$25,000.

In connection with the old Vandervoort avenue sewer, which has, so to speak, been recently rediscovered, I hand you the following papers:

1a. Letter from the Superintendent of Sewers to me of June 17.

2a. Letter from the Chief Engineer of Sewers to the Superintendent of Sewers of June 16.

3a. Report of the Chief Engineer of Highways of May 21 to the Chief Engineer of Sewers.

I recommend that the old Vandervoort avenue sewer be utilized as promptly as possible, if the right so to do exists, and if not that the said right be obtained as quickly as may be; also that the relief sewer from Dean street and Flatbush avenue to Gowanus canal be constructed as soon as possible, and in general I beg to concur with the recommendations of the Superintendent of Sewers conveyed in his letter to me of 30th of June, which is also inclosed herewith, and recommend that Items Nos. 2, 3, 4 and 5 of said report of the Superintendent of Sewers (4a), dated June 30, be brought before the Local Boards as promptly as possible for their authorization, and that Items Nos. 1 and 6, in said letter, be also brought before the Local Boards, if it shall be found impracticable, for any reason, to use the old Vandervoort avenue sewer. But if the latter sewer is available or can be made so, that it be allowed to take the place of Items Nos. 1 and 6, which will then not be necessary.

I also concur with the suggestion made by the Chief Engineer of Sewers that the improvements be built under contract for the reason stated by him in his memoranda, and would point out that even if the said sewers are assessed upon the property owners the assessed valuation of the districts affected is so very much that the assessment will be quite small.

(Signed) WILLIAM C. REDFIELD, Commissioner of Public Works.

City of New York, Borough of Brooklyn,  
Office of Commissioner of Public Works,  
Bureau of Sewers, Chief Engineer's Office,  
Municipal Building, April 15, 1902.

Mr. JOHN THATCHER, Superintendent of Sewers:

Dear Sir—On the 17th day of March you referred to me a communication addressed to you by the Commissioner of Public Works. In said communication the following quotation of a letter in full to the Commissioner of Public Works from the President of the Borough was set forth:

"At the meeting of the Bushwick District, held March 12, Alderman Alt, representing the property owners and residents of Hamburg avenue, Palmetto street, Gates avenue and Linden street, stated that this section is continually flooded from the overflow of the sewer at the intersection of Hamburg avenue and Palmetto street, and requested that the Bureau of Sewers be instructed to immediately investigate the matter and see if something cannot be done to remedy the condition complained of."

I beg to report that a thorough investigation has been made, embracing an exhaustive study of existing main sewers draining from and to the intersection of Hamburg avenue and Palmetto street, both as to the number of acres of land drained by these sewers, and as to their gradient, because this intersection has been for years past the centre of a flooded district. The elevation of this intersection above mean high tide is 27.60 feet, said intersection being the centre of a basin into which surface water drains from all directions after heavy rainfalls. The limits of the flooded district extend to a contour elevation of about 32 feet, or embracing a territory within a radius of about 800 or 1,000 feet from Palmetto street and Hamburg avenue.

The sewer through this basin is of sufficient size to drain a rainfall falling at the rate of two inches per hour over the area south and east of this intersection now draining into same, amounting to 373 acres, without damage to any property,

but it will hereinafter more fully appear that certain conditions exist, both as to size, gradient and otherwise, in regard to this main sewer, distant toward the outlet of same from this intersection some seven thousand feet, which must be remedied, in order that the flooding of cellars shall cease in the flooded district above described, as well as in another flooded district adjacent to the intersection of DeKalb and Knickerbocker avenues.

Prior to the completion of the last section of the main relief sewer, 775 acres drained through the sewer passing under the street intersection in question, an amount surcharging said main by about 175 acres of rainfall during a 2-inch per hour storm.

The above relief sewer was completed in September, 1901, said sewer tapping the main in question (which is known by the "Knickerbocker Avenue Sewer," and for brevity will be so called in this writing, as will the relief sewer be called the "Green Avenue Sewer") at Evergreen avenue and Halsey street, and at Central avenue and Eldert street, thereby diverting 402 acres into the "Green Avenue Sewer," leaving a duty to be performed of 373 acres of drainage compared with a possible capacity of 602 acres of drainage. Thus, by this construction ample relief would have been afforded by the City, providing other conditions, as will be herein noted, did not exist. I speak in this communication at all times referring to a rainfall of two inches per hour, such rainfall being in volume all that the City should reasonably be expected to care for and drain through its sewers without damage to property.

In my annual report for the year 1901, and in a communication to you under subject "Recommended Relief Sewers," dated January 23, 1902, I stated that the City, by its completed relief system, had obtained a capacity in its existing sewers to care for a two-inch per hour rainfall, such statement being based on observations made subsequent to July 5, 1901, when an unprecedented rainfall, or, really, a cloud burst, occurred in this borough. Additional relief sewers were there recommended to obtain an efficiency somewhat greater than above rate of rainfall. A recent survey of the gradients of the Knickerbocker avenue sewer, the Johnson avenue sewer, and the South Fifth street sewer, and the Greene avenue sewer, made for review, has again proven this to be a fact, with the following exception, that is, the length of main sewer in Knickerbocker avenue, between George street and Johnson avenue, has been found to be too small in sectional area to be efficient. This is due to its existing grade, which is at the rate of one foot fall in about 16,900 feet, or practically a level sewer. The Johnson avenue sewer was found to have a rate of grade of one foot fall in about 7,000 running feet. Although of such flat grade its sectional area is sufficient, providing the sewer was clean and was kept continually cleaned of deposit.

The flat grades above noted have resulted in continual deposit of sludge, reaching depths varying from 40 inches to 20 inches, extending from Thames street and Knickerbocker avenue to Johnson avenue and Humboldt street. Another feature which causes this deposit is the horseshoe-shaped sewer, with practically a flat bottom, which extends from Thames street and Knickerbocker avenue to White street and Johnson avenue.

I submit a map with this writing for assistance in its interpretation, and to be used in locating sewers mentioned. The Knickerbocker sewer, within the above limits, has become the bugbear of all our sewers in cleaning, due to the difficulty in cleaning same, it being under streets upon which electric cars are operated. The cleaning forces for years past have been unable to reduce the deposit below twenty inches in depth.

If the Knickerbocker avenue sewer was perfectly clean, and kept so, even with its flat grades within the limits described, it would be capable of caring for a two-inch rainfall per hour, with the exception of that length between Johnson avenue and George street. Its efficiency is reduced in Johnson avenue, between Knickerbocker avenue and Waterbury street, by a deposit now existing of twenty-four inches in depth, from a possible capacity of 1,742 acres to an actual capacity of 1,177 acres. The area drained through this length is, however, only 1,470 acres, or a reduction in acres (or if you please, a surcharge of) 1,470 acres minus 1,177 acres, equal to 293 acres of drainage. The size of the sewer, in other words, is reduced from 144 inches in diameter to one 128 inches in diameter.

The surcharge of the length in Knickerbocker avenue, from Johnson avenue to George street, is 345 acres, viz.:

Due to insufficient size, acres.....	188
Due to present deposit of twenty-four inches, acres.....	157

Total, acres ..... 345

In other words, the acreage draining through same is 903, its capacity due to both causes above is 458. The sectional area of the sewer is reduced from a 120-inch sewer to a 105-inch sewer.

It is obvious that with the above length of sewer, reduced in efficiency by an amount approximating thirty-eight per cent., that flooding will continue in the districts complained of. Also, it is evident that the Greene avenue sewer will be subjected to a proportionate deficiency in its operation due to the Knickerbocker avenue sewer working under pressure, the two systems working conjointly during severe rainfalls. Both of these mains can be readily traced upon the map accompanying this communication by their large size, from the Gowanus canal to the foot of South Fifth street, through Fourth avenue, Greene avenue, Bushwick avenue, etc.; Halsey street, Central avenue, Woodbine street, Hamburg avenue, Knickerbocker avenue, Johnson avenue and South Fifth street.

To remedy this condition, it is apparent that the Knickerbocker avenue sewer, from Thames street to Johnson avenue, and the Johnson avenue sewer, from Knickerbocker avenue to Waterbury street, should be immediately cleaned; that the Knickerbocker avenue sewer, from George street to Johnson avenue, and the Johnson avenue sewer, from Knickerbocker avenue to Humboldt street, should be so altered in shape and gradient that it will be self-cleaning, and that the sewer be increased in size in Knickerbocker avenue, from George street to Johnson avenue. The increased gradient can be obtained, and the alteration in shape can be readily performed by placing concrete on the inner bottom or invert of the sewers in such manner as to secure a circular section at one side or in the centre of the sewer, thus obtaining a great depth of flow during dry weather. The velocity of discharge will be greatly increased by the greater depth of flow and by the increased gradient. Such procedure has been found necessary in the sewers of Paris, London, Washington and many other of the large cities on both hemispheres.

In order to accomplish this the arches of the sewers must be removed and rebuilt at a higher elevation and proportionate to the amount of concrete placed on the inverts. The arches of that length which it is necessary to increase in size to be built at such higher elevation to secure the said increase in size desired. Owing to the close proximity of the altered crown of the sewer to the surface of the street, it will be necessary to construct an I-beam covered sewer for a length of 1,740 feet in Johnson avenue, between White street and Knickerbocker avenue, and in Knickerbocker avenue, between Johnson avenue and Harrison street. The remaining arches to be rebuilt to full half circles. It will be necessary to place concrete only on the invert on that length of sewer extending from White street to Humboldt street in Johnson avenue.

I estimate the cost of this necessary, I should say imperative, improvement, at \$125,000, and recommend "altering, repairing and reconstructing the sewer in Knickerbocker avenue, from George street to Johnson avenue, and in Johnson avenue, from Knickerbocker avenue to Humboldt street," as soon as possible.

I repeat in substance my communication of January 23, relative to relief sewers, to secure an effectiveness in sewage system in excess of a two-inch rainfall per hour, and again recommend that they be constructed. The accompanying map will show their location, the area drained by the Knickerbocker avenue sewer and Greene avenue sewer.

## Recommended Relief Sewers.

On July 5, 1901, an unprecedented rainfall occurred of more than four inches an hour, whereby many cellars throughout the entire Borough were flooded. Of course it will be readily understood that to provide a sewerage system to care for such a rainfall would be unreasonable on the part of the City. Much experience was obtained, however, after this heavy storm, which had led me, after careful consideration, to recommend several additions to our relief system. The original system of the old City of Brooklyn was designed to care for a one-inch rainfall only. As the records kept at that time did not give that which fell in a short space of time, the devising of a system for a rainfall of one inch in an hour was considered sufficient. Subsequent study from the rainfalls recorded prove that the City of Brooklyn should have a system to care for at least a two-inch rainfall per hour. Our relief system was so designed, and by its construction the desired result was obtained. It was proved that such was obtained from observations made after the unprecedented rainfall of July 5.

First—The main relief sewer in Butler street, from a point between Third and Fourth avenues, to its outlet in the Gowanus canal, to provide for sufficient protective covering was originally built of a sectional area much smaller than the sewer immediately above it. The gradient was increased in this section, and it was supposed that this short length of reduced size would thereby be of sufficient capacity to care for the drainage that could be conducted to it. Such is not the case, however, therefore, recommendation is made that a sewer be connected with the main relief sewer at Fourth avenue and Butler street, to provide an additional outlet through Fourth avenue to Degraw street, to Gowanus canal, at an estimated cost of \$80,000.

Second—A relief sewer should be built from Dean street and Flatbush avenue, tapping the Flatbush avenue main at that point, for storm water only; thence through Dean street to Third avenue, to Baltic street, to Nevins street, to Butler street, and through Butler street, northerly side, from Nevins street to the Gowanus canal. The estimated cost of this improvement is \$71,000. It will divert about 400 acres of drainage from the present relief sewer, and it will relieve the Warren street sewer of about two hundred acres of drainage, also removing the condition which exists around Flatbush avenue and Atlantic avenue after exceeding heavy down-pours of rain.

The area shaded green on the map shows that which will be diverted by the construction under this heading.

Third—The sewer in Evergreen avenue, between Halsey street and Schaeffer street, should be enlarged at a cost estimated at \$6,000.

Fourth—An overflow sewer should be built from the Morgan avenue main sewer to the Newtown creek canal basin between Meadow and Stagg streets, and a piece of land about 100 feet square obtained at the head of said basin, all of which is estimated to cost \$17,000.

Fifth—A small overflow sewer, not over forty-eight inches in diameter, should be built from the Knickerbocker avenue sewer at Flushing avenue, to Porter avenue, to the basin of the Newtown creek canal opposite Porter avenue, and a piece of land 100 feet square there obtained, all of which is estimated at \$40,000. This small sewer is recommended, not as an overflow sewer alone, but that it may be made use of temporarily to divert the dry weather flow from the Knickerbocker and Johnson avenues main sewers, in order that they can be, from time to time, efficiently cleaned, the dry weather flow during such times to be trapped and purified in a suitable settling basin, to be built on the to be procured land at the head of the Newtown creek canal basin.

The land procured under Cases 4 and 5 can be used as store and repair yards by this Bureau, besides wharfage obtained to load scows from the deposits of sewers and basins to be towed to sea. The estimated cost of both pieces is \$30,000. Porter avenue should also be extended to the canal and legally opened.

The estimated cost of the six relief sewers above is.....	\$214,000 00
The alteration of Knickerbocker avenue and Johnson avenue sewers.....	125,000 00
Total .....	\$339,000 00

I believe that none of the cost of the above sewers can be assessed upon the people of the vicinities, they having paid for adequate sewerage facilities, which have not been afforded them, although the City authorities have endeavored from time to time to provide such, therefore the City at large must meet the expense.

I do not know, but I hope that this class of work can be paid for from the proceeds of bond issues provided for under the Greater New York Charter. If not, a further amendment of the Relief Sewer Laws for the Borough of Brooklyn, amending chapter 379 of the Laws of 1897, authorizing an addition to the limit of the \$2,000,000 issuance of bonds there provided for, will, I believe, be necessary. If this latter course is necessary it will not be out of place here to explain that permission for issuance of bonds exceeding the estimated cost (\$339,000) for the improvements mentioned in this writing may be necessary.

In 1899 and 1900 relief sewers and adjuncts thereto were authorized and constructed, the same being charged to the Street Improvement Fund or considered assessable work, as follows:

	Authorized.	Page. Min. B. P. I.	Cost.
First—Greene avenue, from Patchen avenue to Bushwick street, etc. ....	July 12, 1899	1559-60	\$168,203 66
Second—Reid avenue, from Putnam avenue to De Kalb avenue, etc. ....	Oct. 11, 1899	2171	21,903 50
Third—Sewer under westerly sidewalk, Bushwick avenue, from Greene avenue to Weirfield street.....	June 20, 1900	1884	5,882 57
Adjunct to No. 1.			
Fourth—Repaving asphalt strip over sewer trench, from Bushwick avenue, Greene avenue to Weirfield street..	Oct. 2, 1901	1950	2,375 00
Adjunct to No. 1.			
Cost estimated, work not yet performed.			
Total.....			\$198,364 73

On December 24, 1901, Relief Sewer No. 1, above, by a resolution of the Board of Public Improvements was made a charge upon the City at large (see page 161, "City Record," year 1902), chargeable to the Main Sewer Relief and Extension Fund. Such being the case, and rightfully so, the others should be so charged, but by the authority of the Board of Estimate and Apportionment.

To meet this expense, the authorization by the Board of Aldermen of Main Relief Sewer Extension Bonds yet available under the Relief Sewer Laws, will provide....	\$167,000 00
Balance of Main Relief Sewer Extension Bonds, as per our books .....	23,323 73

Total available..... \$190,323 73

Thus it will be seen that the money available is deficient to meet the expense of contracts already authorized by \$8,041. The probability is that the money available is deficient to a greater amount, because in the balance shown by our books no consideration has been given to moneys paid from the Main Sewer Relief and Extension Fund, and not audited from this office, but possibly paid by the Comptroller.

I have in mind the suit of James Moran & Co. against The City of New York, in which said Moran was successful. I believe he was awarded interest charges, which would not appear on our books. Other similar cases, of which this office has no knowledge, may exist also.

Therefore, if these necessary new sewers and alterations are to be built, and if to be built chargeable to the Main Sewer Relief and Extension Fund, and if the relief sewers already constructed are to be so charged, the Legislature must be requested to extend the limit of said fund to an amount as follows:

For the recommended new sewers and improvements considered in this writing.....	\$339,000 00
Plus deficiency for existing relief sewers, as above.....	8,041 00
Plus deficiency for existing relief sewers in excess of \$8,041 known by the Comptroller.....	?
Plus an amount for purchase of land, if estimated, of \$30,000 is insufficient, best determined by real estate appraisers or the Board of Assessors.....	?
Total.....	?

I believe that the limit of extension of the Main Sewer Relief and Extension Fund should be placed at \$500,000, thus covering all of the above exigencies, and providing for a balance for other small relief sewer work which the growth of the City may develop as necessary.

I sincerely hope that the Greater New York Charter provides for the issuance of bonds for the purposes herein described, and that action by the Legislature is not necessary.

Notice has certainly been given to the City, both directly and by implication, that the improvements herein mentioned are necessary, therefore I believe that immediate steps should be taken by its authorities to see that they are constructed, or the damage paid to citizens will in the near future amount to more than the cost of the work necessary.

Respectfully,  
(Signed) HENRY R. ASSERSON,  
Chief Engineer of Sewers, Borough of Brooklyn.

Law Department, Office of the Corporation Counsel,  
New York, June 6, 1902.

Hon. EDWARD M. GROUT, Comptroller:

Sir—I have received a letter from the Deputy Comptroller, dated May 22, 1902, in regard to the request made by the President of the Borough of Brooklyn, that the Board of Estimate and Apportionment authorize the issue of Corporate Stock to the amount of \$250,000 to pay for the construction of main relief sewers in the Borough of Brooklyn. The letter concludes as follows:

"This work was formerly carried out under the authority of chapter 379 of the Laws of 1894, which provided for the issue of bonds not to exceed in the aggregate the sum of \$2,000,000. This amount has been issued, or will be issued, to meet pending claims. I have been unable to find any authority in the Charter for issuing corporate stock to meet the expense of building main relief sewers.

"Will you kindly advise me whether there is such authority, and if not, whether the City has authority to provide funds in any other way to pay for this class of improvements?"

In my letter to you, dated May 7, 1902, in regard to certain resolutions of the Board of Estimate and Apportionment affecting the construction of relief sewers in the Borough of Brooklyn, I dealt with this subject to some extent, and with the Main Sewer Relief and Extension Fund of the City of Brooklyn, authorized by the Laws of 1889, chapter 354, and Laws of 1894, chapter 379.

So far as the statutes just referred to provide for the construction of relief sewers their terms have been complied with; the sewers have been built, and all the bonds authorized have been or will be issued.

I am aware of no provision of the Charter or of any other statute under which it could be claimed that there is authority to construct relief sewers at the public expense.

I see no reason, however, why such sewers could not be built and the cost thereof assessed upon the property benefited in the same manner and through the same procedure as in the case of any other sewer. In general the sewers in this City of all kinds have been paid for through local assessment.

Respectfully yours,  
G. L. RIVES, Corporation Counsel.

City of New York, Borough of Brooklyn,  
Bureau of Sewers, Office of Chief Engineer,  
Room 44, Municipal Department Building, June 11, 1902.

Mr. JOHN THATCHER, Superintendent of Sewers:

Dear Sir—I herewith return a communication, which has been referred to me, the same being from the Chief Engineer of the Rapid Transit Commission to the Commissioner of Public Works, dated June 9, 1902, transmitting two sets of blue-prints showing the proposed alterations in the sewers necessary to be made in the construction of the subway in the Borough of Brooklyn.

It is stated that these drawings are submitted in advance of the beginning of the work in order that they may be approved by the Commissioner of Public Works before contract is entered into for the construction of the subway. I have approved of all the drawings submitted, and return both sets in order that one may be returned to the Rapid Transit Commission when certified to, as requested. I suggest the advisability of filing the second set in the Bureau of Sewers.

Several conferences have been held between the Engineer of Sewers of the Rapid Transit Commission and myself during the preparation of these plans, and Mr. Parsons has been communicated with in relation thereto. I objected in the beginning to the crossing at Ashland place, until it was stated that the clause printed on the drawing showing said crossing was agreed upon to be placed in the specifications of the subway work.

You will remember that on April 15 a communication was submitted to you relative to relief sewers which should be constructed in this borough. I submit a copy of said communication, calling attention to the second recommendation for a relief sewer to be built from Dean street and Flatbush avenue to the Gowanus canal. If the sewers there recommended are constructed, no crossing under the tunnel will be necessary at Ashland place. The Rapid Transit Commission will have a clear field, and could, if desired, construct a branch tunnel in Flatbush avenue, from Fourth to Fifth avenue, for the storage of cars. The sewerage system would be relieved, as shown under Heading 2 of the report next attached. I know that this construction must be undertaken at some date, and believe that the City should, therefore, not now spend some \$25,000 for the crossing at Ashland place, which would be money ill spent when the relief sewer leading to Gowanus canal is constructed.

I have obtained an opinion from the Corporation Counsel to the Comptroller, a copy of which is herewith submitted, showing that this relief sewer can be built and assessed upon the property draining into and benefited thereby. As such is the case, I therefore recommend the construction of the following sewers:

- In Fifth avenue, from Atlantic avenue to Dean street;
- In Dean street, from Fifth avenue to Third avenue;
- In Third avenue, from Dean street to Baltic street;
- In Baltic street, from Third avenue to Nevins street;
- In Nevins street, from Baltic street to Butler street;
- In Butler street, north side, from Nevins street to Gowanus canal;
- In Flatbush avenue, east and west sides, from Atlantic avenue to Fifth avenue;
- In Atlantic avenue, south side, from Flatbush avenue to Fifth avenue,

—the estimated cost of which is \$75,000, and the assessed valuation of the real estate within the probable area of assessment is \$31,733,360.

I sincerely hope that the above recommended improvement may be authorized by both the Local Board and the Board of Estimate and Apportionment before six months elapse from the time of the signing of the subway contract.

I also submit herewith tracing showing the route of the sewers recommended.

Yours respectfully,  
(Signed) HENRY R. ASSERSON,  
Chief Engineer of Sewers, Borough of Brooklyn.

July 1, 1902.

G. L. RIVES, Esq., Corporation Counsel, New York City:

Dear Sir—I beg to hand you herewith copy of memoranda prepared by the Chief Engineer of Sewers of this borough for the use of the President of the Borough in connection with the important subject of relief sewers, attached to which is a map showing the relief sewers needed. I ask your special attention to the particular items marked "A", "5" and "5A", and especially to the last of these items.

Some weeks ago in building a new sewer we discovered, so to speak, the existing

sewer within the lines of old Vandervoort avenue, between Knickerbocker avenue and Newtown canal, about which please note the details given in the accompanying memoranda. It will be seen that this old abandoned sewer, which I may say is in perfect condition, ready for use, will, if it can be utilized, save the construction of the Porter avenue sewer, Item No. 5, costing \$40,000, and the Superintendent of Sewers reports to me to-day that in his opinion the use of this old sewer will save the construction of Item A, page 2, of the memoranda, costing \$125,000. All that is required to put the old sewer in use is to connect it at its inner end with the sewer on Knickerbocker avenue, and to purchase one hundred (100) feet square of land adjacent to the basin of Newtown creek canal for outlet purposes as is described in both Items Nos. 5 and 5A of the attached memoranda.

The use of this old sewer, furthermore, will relieve the seriously flooded district in the Twenty-eighth Ward of Brooklyn, and save a large sum to the City in damage suits. The sewer is ready for use and can be put into service far more quickly than either of the proposed items it will replace.

It is apparent, therefore, that from the business standpoint the use of this old sewer is most desirable, for it will save the City \$165,000 in direct cost and relieve a most difficult and dangerous situation in the flooded district.

I beg, therefore, to ask whether the City has an easement to the use of this sewer in view of chapter 400, Laws of 1873, and chapter 186, Laws of 1885, and if no easement exists as to what procedure is necessary to obtain the right to its use as promptly as possible.

I beg for the favor of your early consideration and report, returning the papers sent herewith.

Yours very truly,  
(Signed) WILLIAM C. REDFIELD,  
Commissioner of Public Works.

June 17, 1902.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith submit a communication from the Chief Engineer of Sewers, Borough of Brooklyn, relating to the proposed use of an old 90-inch sewer which is in perfect condition, but not in use, due to the closing of Vandervoort avenue, between Knickerbocker avenue and Newtown creek canal.

If this sewer can again be used, the recommendation of the Chief Engineer in the matter of relief sewers under Heading 5 of the report submitted to me on April 15, 1902, need not be built. I submit a copy of said report with this writing; also copy of communication from the Chief Engineer of Highways, and copy of opinion from the Corporation Counsel relating to the building of relief sewers.

I respectfully suggest the advisability of again using this sewer, providing the City has title to same. If not, that title should be acquired so that use can be made of the said sewer.

Yours respectfully,

Superintendent of Sewers, Borough of Brooklyn.

June 16, 1902.

Mr. JOHN THATCHER, Superintendent of Sewers:

Dear Sir—On April 15, 1902, I submitted to you a communication recommending the construction of certain relief sewers in the Borough of Brooklyn, in order to perfect our existing sewerage system, and to place same at a capacity to care for a rainfall slightly exceeding a rate of two inches per hour.

Under the fifth heading of said report I mentioned a recommended construction of a 48-inch sewer, to be built from the Knickerbocker avenue sewer at Flushing avenue, to Porter avenue, to the basin of Newtown creek canal, opposite Porter avenue.

Since writing said report I have made a personal examination of a 90-inch sewer which exists within the old lines of Vandervoort avenue, between Knickerbocker avenue and the Newtown creek canal. Said sewer has been found to be in perfect condition, but has been discontinued in use, because Vandervoort avenue, by an act of the Legislature, as set forth in the Laws of the State of New York (chapter 400, Laws of 1873, and chapter 186, Laws of 1885), was declared discontinued and stricken from the Commissioner's Map of the Borough of Brooklyn. This old sewer should again be placed in use, and if such can be done, the construction recommended under the fifth heading above mentioned should not be authorized.

In order to ascertain if the City still had right to the title of this sewer, I communicated with the Chief Engineer of the Bureau of Highways, asking the question whether the original opening proceedings, which were confirmed in 1872, provided for the title in fee, or whether an easement for usage was procured only for Vandervoort avenue. Mr. Tillson replied as set forth in the communication next attached. He seems to be of the opinion, in which I concur, that it would be well to refer the matter to the Corporation Counsel to ascertain if the City has any legal right in this sewer. If not, I recommend that proceedings be initiated to place Vandervoort avenue, between Knickerbocker avenue and Newtown creek canal, upon the Commissioner's Map of The City of New York, agreeing with the former lines of said avenue, and that title to sufficient additional property be procured by the City to obtain a piece of land 100 feet square adjacent to said canal, pursuant to section 396 of the Greater New York Charter.

It will be readily understood that by using this old sewer again, considerable money will be saved in the non-construction of the fifth recommendation set forth in my communication of April 15. The old lines of the street extend through undeveloped property excepting under the frame building at the southeast corner of Thames street and Knickerbocker avenue.

I submit herewith a copy of my communication of April 15, also a copy of an opinion from the Corporation Counsel relating to the construction of relief sewers.

As this sewer is built, of course it will be unnecessary to furnish the assessed valuation of the real estate within the area benefited, etc.

Yours respectfully,  
(Signed) HENRY R. ASSERSON,  
Chief Engineer of Sewers, Borough of Brooklyn.

Mr. HENRY R. ASSERSON, Chief Engineer of Sewers:

Dear Sir—Referring further to your communication of the 13th, asking certain questions about Vandervoort avenue, between Montrose avenue and Flushing avenue, I would say that Vandervoort avenue, from Montrose avenue to Knickerbocker avenue, was legally opened, the confirmation having been made on January 15, 1872. The map and report of the Commissioners are on file in the Map Room of this Bureau, but there is nothing to state whether the easement of the fee was acquired by the City.

By an act of the Legislature (chapter 400, Laws of 1873), Vandervoort avenue, between Grand and Johnson street, or avenue, was declared discontinued and stricken from the map. By a further act of the Legislature (chapter 186, Laws of 1885), Vandervoort avenue, lying south of Johnson avenue, was discontinued and closed.

Whether a simple act of the Legislature is sufficient to close a public street is a question which I do not consider that I can determine. I have given you all the facts that could be obtained on this matter, and if this is not satisfactory, I think the best thing to do would be to refer it to the Corporation Counsel.

Respectfully,  
(Signed) GEO. W. TILLSON, Chief Engineer.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—Referring to the contemplated construction of relief sewers in this

borough, and as the Corporation Counsel rendered an opinion to the Comptroller, dated June 6, 1902, stating that the cost of said sewers could be met by assessment proceedings, and as prior communications relating to these improvements have not contained technical descriptions, nor has the assessed valuation of the real estate within the probable area of assessment been given, I have deemed it advisable to give said necessary legal information in order that such could be placed before the legislative authorities of the City for authorization.

They are:

1st. Altering, repairing and reconstructing existing sewer in Knickerbocker avenue, from George street to Johnson avenue, and in Johnson avenue, from Knickerbocker avenue to Humboldt street.

Estimated cost, \$125,000; assessed valuation, \$175,403,760.

The items of work necessary are:

1,435 feet 144-inch brick sewer, modified, new concrete invert.

1,266 feet 144-inch brick sewer, modified, new concrete invert and one beam covering.

474 feet 120-inch brick sewer, modified to 132-inch brick sewer; new concrete invert and 1 beam covering.

580 feet 120-inch brick sewer, modified to 132-inch brick sewer; new concrete invert and brick arch.

460 feet 90-inch brick sewer, modified to 120-inch brick sewer.

2d. Sewer, west side of Fourth avenue, from Butler street to Degraw street; Degraw street, from Fourth avenue to Gowanus canal, with silt and trap basin at Degraw street and Gowanus canal.

Estimated cost, \$80,000; assessed valuation, \$175,403,760.

The items of work necessary are:

2,113 feet 90-inch brick sewer.

10 manholes.

1 trap basin.

3d. Sewer in Fifth avenue, from Atlantic avenue to Dean street; Dean street, from Fifth avenue to Third avenue; Third avenue, from Dean street to Baltic street; Baltic street, from Third avenue to Nevins street; Nevins street, from Baltic street to Butler street; Butler street, north side, from Nevins street to Gowanus canal; Flatbush avenue, east and west sides, from Atlantic avenue to Fifth avenue; Atlantic avenue, south side, from Flatbush avenue to Fifth avenue.

Estimated cost, \$75,000; assessed valuation, \$175,403,760.

The items of work necessary are:

2,250 feet 78-inch brick sewer.

1,660 feet 72-inch brick sewer.

450 feet 42-inch brick sewer.

45 feet 36-inch brick sewer.

26 manholes.

4th. Sewer in Evergreen avenue, between Halsey street and Schaeffer street.

Estimated cost, \$6,000; assessed valuation, \$175,403,760.

The items of work necessary are:

780 feet 48-inch brick sewer.

6 manholes.

5th. Sewer from the basin of the Newtown creek canal, between Meadow and Stagg streets, to Morgan avenue sewer.

Estimated cost, \$17,000; assessed valuation, \$175,403,760.

The items of work necessary are:

125 feet 78-inch brick sewer.

2 manholes.

6th. Sewer in Flushing avenue, from Knickerbocker avenue to Porter avenue; Porter avenue, from Flushing avenue to basin of Newtown creek canal, opposite Porter avenue.

Estimated cost, \$40,000; assessed valuation, \$175,403,760.

The items of work necessary are:

1,600 feet 60-inch brick sewer.

9 manholes.

1 silt and trap basin.

It is recommended that all of the above matters be made the subject of one contract, to prevent unnecessary interest charges in the long time necessary in the preparation of assessment lists and maps, if undertaken separately.

No. 6 is, however, not recommended if the sewer now not in use within the old lines of Vandervoort avenue, between Knickerbocker avenue and Newtown creek canal, can be used. Vandervoort avenue within the above limits is closed by an act of the Legislature, chapter 400, Laws of 1873, and chapter 186, Laws of 1885; said avenue should again be placed upon the Commissioner's Map, title acquired to the same, and to a piece of land 100 feet by 100 feet adjacent to Newtown creek canal, and Vandervoort avenue be procured. See sections 396, 970 and 990 of the Greater New York Charter for the procurement of this strip of land otherwise than by purchase—the last two sections for the legal opening of the street. It is necessary to procure a piece of land 100 feet by 100 feet in improvement, under Heading 5, under the above sections of the Charter, or by purchase, said land situate adjacent to the basin of the Newtown creek canal, between Meadow and Stagg streets. All other streets are legally open.

In the estimates under Headings 5 and 6 \$15,000 is contained as a fair estimate for the purchase of land required in each case.

Yours respectfully,  
JOHN THATCHER,  
Superintendent of Sewers, Borough of Brooklyn.  
City of New York, Borough of Brooklyn,  
Bureau of Sewers, Office of Superintendent,  
Room 46, Municipal Department Building,  
July 21, 1902.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith return a communication, which you referred to me, the same being from the Secretary of the President of the Borough, addressed to you under date of July 15, 1902.

It is requested in said communication that a technical description be given for the necessary acquirement of two pieces of land to be used in the construction of the contemplated relief sewers in this borough, one piece of land to be adjacent to Newtown creek canal and Johnson avenue, near the lines of old Vandervoort avenue; the second adjacent to a basin of the Newtown creek canal and Morgan avenue, situate between Stagg and Meadow streets.

For a technical description of the first above-mentioned, I respectfully submit the following:

Acquire title to that piece or parcel of land in the Borough of Brooklyn, City of New York, situate between Johnson avenue and the Newtown creek canal, bounded and described as follows: On the east by a line parallel with Porter avenue, distant 380 feet westerly from the intersection of the northerly line of Johnson avenue with the westerly line of Porter avenue extended; on the north by a basin of the Newtown creek canal; on the west by a line parallel with Porter avenue, distant 480 feet westerly from the intersection of the northerly line of Johnson avenue with the westerly line of Porter avenue extended; on the south by the northerly line of Johnson avenue.

For the second:

Acquire title to that piece or parcel of land in the Borough of Brooklyn, City of New York, bounded and described as follows: Beginning at a point on the easterly side of Morgan avenue, 50 feet southerly from the intersection of the easterly line of Morgan avenue and Meadow street, and running thence easterly parallel with Meadow street 89 feet, more or less, to a basin of the Newtown creek canal; thence southerly along the westerly side of said basin of the Newtown creek canal 100 feet; thence westerly parallel with Meadow street 89 feet, more or less, to the easterly line of Morgan avenue; thence northerly along the easterly line of Morgan avenue 100 feet to the point or place of beginning.

I also append tracings showing the relation of this property to adjacent streets. Information there shown has been obtained from the maps of the Department of Assessment of the Borough of Brooklyn.

It appears that the basins are private property; such being the case, it may be necessary to acquire title to land under water, in order that the storm water from the sewers may be conducted to the Newtown creek canal proper; that is, if an easement cannot be procured from the owners of said land.

If the acquirement of the basin property is necessary, enough data is shown on the drawings for a technical description of the same, however, in this case, as well as the case in question.

I respectfully advise that the services of the Street Opening Bureau, or of a competent City Surveyor, be procured, and the land necessary to be procured surveyed before title is vested in the City.

Yours respectfully,  
(Signed) JOHN THATCHER,  
Superintendent of Sewers, Borough of Brooklyn.

The following resolution was offered:

Resolved, That the Local Boards of the Heights, Red Hook, Prospect Heights and Bushwick Districts, Borough of Brooklyn, after hearing had this 1st day of August, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to construct relief sewers in the following streets:

1st. Sewer, west side of Fourth avenue, from Butler street to Degraw street; Degraw street, from Fourth avenue to Gowanus canal, with silt and trap basin at Degraw street and Gowanus canal.

2d. Sewer in Fifth avenue, from Atlantic avenue to Dean street; Dean street, from Fifth avenue to Third avenue; Third avenue, from Dean street to Baltic street; Baltic street, from Third avenue to Nevins street; Nevins street, from Baltic street to Butler street; Butler street, north side, from Nevins street to Gowanus canal; Flatbush avenue, east and west sides, from Atlantic avenue to Fifth avenue; Atlantic avenue, south side, from Flatbush avenue to Fifth avenue.

3d. Sewer in Evergreen avenue, between Halsey street and Schaeffer street.

4th. Sewer from the basin of the Newton creek canal, between Meadow street and Stagg street, to Morgan avenue sewer, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—The President and Aldermen Downing, Wafer, Kenney, Gillen, Tebbetts, Alt and Bill.

Adjournment.

JUSTIN McCARTHY, Jr., Secretary.

## THE BOARD OF ALDERMEN OF THE CITY OF NEW YORK.

[Extract from Proceedings of the Board of Aldermen of September 18, 1902.]

### COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following Departmental Estimates:

No. 1113U.

#### PRESIDENT OF THE BOROUGH OF RICHMOND.

Office of the President of the Borough of Richmond,  
New Brighton, N. Y., August 30, 1902.

Hon. CHARLES V. FARNES, President of the Board of Aldermen, City Hall,  
New York:

Dear Sir—I take pleasure in sending you herewith, in accordance with circular letter of July 31, 1902, my estimate of appropriations needed for the year 1903.

Yours respectfully,

GEORGE CROMWELL, President of the Borough.

Departmental Estimates for 1903.

The Departmental Estimate for 1903, as presented herein, will be found in three divisions.

First—General Comments.

Second—Table, Recapitulation of Appropriations.

Third—Detailed Estimate.

#### A—General Administration—

George Cromwell, President.

Maybury Fleming, Secretary.

Public Works—

Louis L. Tribus, Commissioner.

William R. Hillyer, Assistant Commissioner.

#### B—Engineer Corps—

Theodor S. Oxholm, Principal Assistant Engineer in Charge.

#### C—Bureau of Highways—

H. E. Buel, Superintendent.

#### D—Bureau of Street Cleaning—

Richard T. Fox, Superintendent.

#### E—Bureau of Sewers—

L. W. Freeman, Acting Superintendent.

#### F—Bureau of Public Buildings and Offices—

John Timlin, Jr., Superintendent.

#### G—Bureau of Buildings—

John Seaton, Superintendent.

#### A—General Administration—

During the early part of 1902 many changes were made in the organization of public work in the Borough of Richmond. Most of these changes have proved to be successful from both administrative and operative standpoints; but in planning the work for the coming year some few additional ones seem desirable. As far as "General Administration" is concerned, however, the special change contemplated is establishing the "Engineer Corps" as an entirely independent branch of the borough's work.

The greatly increased amount of work in maintaining existing utilities and in construction and reconstruction makes the present clerical force inadequate, but the total increase asked for is but slight.

The notes with the detailed estimates explain each particular change. It is improbable that any balance will be left unused in the appropriations for 1902.

#### B—Engineer Corps—

Prior to 1902 the Engineer Corps was subdivided among the different bureaus, but it was thought best, as explained in the revised estimates of April, 1902, to keep it intact and assign men as needed to the different bureaus for specific work.

There is now being gradually organized a "Topographical Corps" in addition to men needed for the handling of routine maintenance, construction and reconstruction work. The result will be that a comparatively large organization will be formed, so that it seems best to maintain the whole Engineer Corps as a separate bureau. With that end in view, the desired appropriations herein asked for in detail are completely separated from those of General Administration or specific bureaus. As may be noted in the detailed estimates, an appropriation is not asked for to meet the scheduled salaries of a number of the Engineers, for their time will be charged directly to various bond accounts and assessment works.

One item needs, perhaps, special note here—the amount of work required from the Engineer Corps for reports and examinations, and time given to law cases, as witnesses, etc., for which, in the past, no specific appropriation has been made, is now estimated as at least \$4,000 needed.

Great difficulty has been experienced in securing suitable men for the enlarged Engineer Corps, men of special experience being required for much of the work. It seems scarcely necessary to more than refer at this time to the absolute necessity of the topographic work contemplated in preparing the map of Richmond Borough. The subject is familiar to each one of the Board of Estimate and Apportionment, and to many of the Board of Aldermen.

#### C—Bureau of Highways—

Within the limits of the borough there are in round numbers one hundred miles of earth roads and one hundred and ninety miles of macadam roads, and a growing proportion of streets paved with granite and asphalt. The maintenance of macadam is a very costly item wherever travel is heavy.

It is hoped, therefore, that in the business streets it can be replaced speedily with the more durable forms of street surfacing (but this can only be done by bond issues).

In the past years, and up to the present time, the general system of "maintenance" of highways in the Borough of Richmond has been semi-annual cleaning and light repairs; and radical repairs only when specifically needed, and rarely then, as funds were but seldom available. Many miles, therefore, of these macadam roads are suffering seriously from lack of the attention which it has been impossible to give. It is hoped, however, that the appropriations asked for, though very much smaller than could readily and wisely be used, will be granted, so as to carry out a part at least of these contemplated and needed radical repairs.

It has been thought wise also to rearrange the system of maintenance, adding to the Bureau of Street Cleaning the ordinary care of all of the macadam roads instead of simply sweeping and cleaning sixty miles, as at present. This will enable the Bureau of Highways to keep its force of men, with tools and rollers, concentrated in the places where large repairs and reconstruction are necessary, while the "section" system of maintenance carried on under the Bureau of Street Cleaning will permit of small repairs each day over all of the roads.

The Bureau of Highways has had the advantage this season of about \$20,000 worth of broken stone from contracts made in 1901, not delivered until 1902. In 1903 there will be no such balance, so that a larger item will have to be included for the purchase of broken stone for macadam repairs.

Another field of highway work of very considerable importance has been almost entirely neglected, only a few cases having been taken up. That is the regulation, repair and construction of sidewalks. It is strongly desired to establish a sidewalk division of the Highway Bureau—and push this most desirable work to the utmost. While some of the expense for inspectors, engineers and clerks can be assessed on the properties (in cases where the City is obliged to do the work itself); in most cases the property-owners will carry out themselves the orders of the Bureau, so that clerical and inspection service cannot be so charged; \$3,900 is asked, therefore, to partly cover this proposed expense.

#### D—Bureau of Street Cleaning—

It is planned to increase the work of this Bureau very largely by extending to the full extent of macadam roads the "section" system of sweeping and maintenance, giving to each man a definite length of street to keep in order, from curb to curb, making such light repairs as he can make with ordinary tools and small piles of broken stone kept at convenient places. In the thickly built-up portions of the borough it would be inconvenient to have such piles of stone in or adjoining the streets, so a system of properly equipped wagons would be maintained, to deliver, when required, the amount of material needed for each repair. Radical repairs, as mentioned under the Bureau of Highways, will continue to be made by that Bureau whenever and wherever needed. Careful estimates indicate that by this daily care the roads could and would be kept in better condition than under the periodic repair system, and, in the long run, at a less total cost. In absence of statistics from local experience the appropriation asked for this particular feature of street cleaning work is based on the expense of repairing the proposed mileage of roads as formerly handled by the Bureau of Highways.

It is also thought wise to extend the garbage collecting routes into territories not now covered at all and to have the driver or helper with each cart, remove the barrels or pails from inside the properties instead of having them stored, as at present, at the curb line. This will involve some additional expense, but it would seem to be fully warranted by the end to be reached, viz.: getting rid of outside nuisances in the public streets, and also a saving to a large number of property owners, who now pay private cartmen to remove their ashes and waste rather than have the annoyance of barrels and cans standing in front of their houses on the streets for the few hours they might have to remain there.

The final disposition of the street cleaning wastes, such as garbage and light refuse, is becoming a serious question. The existing crematory is pushed to its utmost capacity and should be either duplicated in another locality, so as to provide for the constantly increasing tonnage, or be replaced by a large modern equipment. The latter has been considered as decidedly the preferable plan, an approximate site has been selected and the inauguration of a system of closed pockets at certain points along the line of the railroads to which the carts could carry their loads and from which, once or twice a day, closed cars could remove it to the crematory has been planned for. A bond issue will be requested later to meet the main expense of construction, but the operation will need to be provided for by appropriation at this time.

The estimate asks for but a small addition to the "snow removal" appropriation, as the only work done along this line by the Bureau of Street Cleaning is to keep clean certain crossings and culverts and a few blocks where traffic is particularly congested, with, in case of great storms, some little additional cleaning away of drifts.

#### E—Bureau of Sewers—

There is but little necessary to say about the work in care of this Bureau other than as stated in the notes with the detailed estimate. The work is the constant one of cleaning catch basins, flushing sewers, and occasional reconstruction of culverts, outlets, box-drains, etc.

The appropriation desired for 1903 is needed because of the largely increased mileage of sewers to be maintained, due to taking over a number of contracts now approaching completion and the rebuilding of a number of culverts and catch basins which have been worn out in service, or have proved inadequate to meet present conditions.

#### F—Bureau of Public Buildings and Offices—

Considerable work has been done during the past eight months in renovating the various buildings in the care of this Bureau; consequently, the appropriation for "Supplies and Repairs" will be materially less for 1903, but the appropriation for salaries and wages will have to be greater, because of the taking over by the City of the care of the Richmond office building, which has in the past been rented by the Sinking Fund Commissioners with heat, light and janitor services included in the lease. The new lease was made at a very greatly reduced figure under the agreement that the Bureau of Public Buildings and offices would heat, light and maintain the building. The net cost to the City, based on the estimates, will be less at that than under the old system.

#### G—Bureau of Buildings—

The explanations as to changes desired and the larger appropriations needed are given very fully with the detailed estimates, so that special comment here is practically unnecessary. It should be borne in mind, however, that though the total cost of structures in the Borough of Richmond appears but small, in proportion to the cost in Manhattan, Brooklyn and The Bronx, yet the territory to be covered by the inspectors is larger and the facilities poorer, for transit to the different points where building operations are carried on; consequently the proportion of inspectors to number of buildings might well be greater even than in Manhattan. As a matter of fact, it is very many times less.

10 Foremen (200 days each), at \$2.50.....	7,500 00	5,000 00		\$2,500 00	By reason of light repairs transferred to Bureau of Street Cleaning.
Laborers (20,000 days), at \$2.....	52,500 00	40,000 00		12,500 00	By reason of light repairs transferred to Bureau of Street Cleaning.
Carts (2,500 days), at \$3.....	4,100 00	7,500 00	3,400 00		Appropriation for 1902 entirely too small, as carts were used 1,490 days in first half of year. For whole, therefore, 2,980 days at \$3 equals \$8,940, but as a part of the cart service for 1903 will be taken over by Bureau of Street Cleaning in light repairs, \$7,500 has been deemed sufficient.
Teams (1,300 days), at \$4.50.....	5,100 00	5,850 00	750 00		Teams used in first half of 1902, 631 days; for entire year, 1,262 days, at \$4.50 equals \$5,679.
Sprinklers (7,000 days), at \$5.....	25,000 00	35,000 00	10,000 00		Sprinklers in first half of 1902, 3,406 days; for entire year, 6,812 days at \$5, \$34,060.
Steam rolling (600 days), at \$13.....	5,220 00	7,800 00	2,580 00		Steam rolling in first half of 1902, 280 days; for entire year, 560 days at \$13, \$7,280.
Broken stone (15,000 yards), at \$2.25.....	16,900 00	33,750 00	16,850 00		Only 10,000 yards asked for in 1902, because of about 10,000 yards balance being left from 1901 and available for 1902.
Maintaining and repairing bridges (240 small road bridges).....	1,800 00	3,000 00	1,200 00		Many are old and need immediate attention. About 50 were repaired in first half of 1902 at a cost of \$1,175; for entire year, \$2,350. An increase is necessary.
Tools and repairs, horses, wagons, and care of same.....	5,000 00	5,000 00			
Steam roller.....		3,500 00	3,500 00		There is no steam roller in the plant of this Bureau at present, and as the rollers owned by contractors cost us \$13 per day, it seems that we could own one to good advantage. Present expense, \$13 per day for 200 days.....
					Estimated, owning our own roller—
					Engineer .....
					Watchman .....
					Fuel, oil and repairs.....
					\$9 per day for 200 days.....
					Net saving per year.....

Electric pumping stations for salt water sprinkling.....	3,000 00	3,000 00	.....	During 1902, both salt and fresh waters have been used for street sprinkling. Comparing the sprinkling done with the two, it is very evident that salt water is far more efficient; its dampening effect upon the road surface being more lasting. The electric power pumping stations, which can be equipped for about \$600 each, promise to give us good service in filling wagons, and it is proposed to build five of these during 1903.
Laborers, 4,000 days, at \$2; Pavers, 2,000 days, at \$3.50; stone blocks, 750,000, at 4½ cents; sand for bedding.....	50,000 00	50,000 00	.....	Maintenance of macadam roads in the hill portions is difficult, because of the great damage done by storms; in the built up portions of the Island, streets have been curbed and guttered at private expense, but the paving is continually being washed out, with damage done also to the macadam. It has been found a great saving in maintenance to renew the gutters in such streets with stone blocks, and making the gutters wide enough to carry the storm flow. It is desired to continue this work on a more extensive scale this coming year, in full belief that it will be true economy in the end. As the property owners have already borne the expense once, they cannot be called upon for the change.

## New Stock or Plant (Bond Issue).

28 horses, at \$225.....	\$6,300 00			The horses and carts hired from day to day for the collection of ashes, garbage, etc., are not giving the satisfaction that could be obtained from a plant directly under our control, and the employees of which would be amenable to the rules of the Bureau. The drivers of these hired carts repeatedly cause the Bureau much annoyance by using their carts for the removal of prohibited material after hours, and in other ways cause trouble through lack of our proper control over them. This change would effect a saving of \$3,000 per year over the present method.

Note.—At the present rate of expenditure, there would be, at the close of this year (1902), a deficiency of \$2,600. The estimate of the amounts for the coming year is based on the knowledge of the necessary expenditures for the proper care and maintenance of the sewers and appurtenances during the current year, to which must be added the cost of maintenance that will attend 2½ miles of storm water sewers, 70 receiving basins, and 7 miles of sanitary sewers, which will be turned over to the City upon the completion of the Arietta Brook sewer system, the Tottenville system and other contracts under way and proposed for early construction.

Engineer.....		1,500 00	1,500 00	Note 5.
Driver.....		750 00	750 00	Note 6.
Total.....	\$11,650 00	\$19,000 00	\$7,350 00	

Note 1. This Bureau is now without a Stenographer, and the Secretary has been called upon to do all the stenographic work, beside that of secretary.

Note 2. The Borough of Richmond covers an area of fifty-seven square miles, only five miles less than Manhattan and The Bronx combined. During the seven months ending July 31 there were commenced in this borough 191 new buildings and 383 alterations, a total of 574. To cover this territory and inspect these 574 jobs and see that they are erected according to the Building Code we have only two Construction Inspectors. In addition to this, they must report violations of the law and serve violation notices, report unsafe buildings and serve unsafe building notices, report buildings requiring additional means of escape in case of fire, and serve notices for the same, examine now existing tenement houses for violations of the tenement-house law as regards fire-escapes, examine elevators and iron and steel beams. It can readily be seen, therefore, that the number of Construction Inspectors in this Bureau is too small and that the request for one more is a reasonable one.

Note 3. In asking for another Plumbing Inspector, I would state there is only one attached to this Bureau for the whole of Richmond. During the seven months ending July 31 there were commenced 179 jobs, each one of which must be tested twice, as well as being visited during the course of construction. This amount of work, spread over so large a territory, cannot be attended to by one man, so it is very necessary to have an appropriation made for another Plumbing Inspector.

Note 4. The clerical work of this Bureau is now being performed by one Clerk and a Secretary, who act as Chief Clerk, Plan Clerk, Violation Clerk, Fire-escape Clerk, Unsafe Clerk, Complaint Clerk, and Stenographer and Typewriter. This office force is utterly inadequate, for while the estimated cost of buildings erected in this borough does not compare favorably with those of other boroughs, still the number of plans filed does, and there is no more clerical work attached to a \$100,000 house than to a \$5,000 house, with the exception that a greater number of violations may occur. The number of new buildings and alterations filed in the Borough of Manhattan during the seven months ending July 31, 1902, is three times greater than the number filed in this borough,

while the number of Clerks employed there is twenty-one times greater. So that the request for an extra Clerk, for \$1,200 per annum, is both reasonable and necessary.

Note 5. An appropriation of \$1,500 for an Engineer to be attached to this Bureau is absolutely necessary for the proper performance of the duties. Prior to January 1, 1902, large plans were taken to the Borough of Manhattan, as all departments were under the Board of Buildings, with the heads of each department forming the Board. Under the amended Charter, we stand apart from the other Building Bureaus, who have Engineers, and have been constantly obliged during the seven months past to trespass upon the kindness of the Hon. Perez M. Stewart, by having plans from this borough examined by his Engineers, who have often on this account been obliged to work late at night without any extra compensation.

Note 6. In asking for an appropriation of \$750 for a Driver; not only is it customary for every head of a department, who has use for a horse, to have a Driver, but in this case it is also very necessary, as the Superintendent often has to leave his horse in the street for an hour at a time while in new buildings, and, again, is liable to be called out at night in cases of fires or accidents, when an Attendant or Driver is particularly important. There was a Driver in the Department of Buildings prior to January 15, 1902.

## BOARD OF ESTIMATE AND APPORTIONMENT.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, COUNCIL CHAMBER, CITY HALL, THURSDAY, AUGUST 28, 1902.

Board met in pursuance of an adjournment.

Present—Charles V. Fornes, Acting Mayor; James W. Stevenson, Deputy and Acting Comptroller; James H. McInnes, Acting President of the Board of Aldermen; George Livingston, Acting President of the Borough of Manhattan; William C. Redfield, Acting President of the Borough of Brooklyn; Joseph Cassidy, President of the Borough of Queens; Louis L. Tribus, Acting President of the Borough of Richmond.

The reading of the minutes of the meetings held April 9, 10, 11, 14, 15, 16, 17, 21, 23, 25, 30, May 9, 12, 16, 20, 26, June 6, 13, 20, 27, July 8, 11, 18, 25, 28, August 4, 7 and 21 was dispensed with.

The Secretary presented the following in relation to the collection and removal of garbage, Borough of Brooklyn:

DEPARTMENT OF STREET CLEANING,  
NEW YORK, August 28, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—On Monday, the 25th instant, in accordance with the advertisement in the "City Record" and the Brooklyn Corporation newspapers, I opened bids for the collection and removal of garbage in the Borough of Brooklyn, as follows:

James Mundy, No. 49 Court street, Brooklyn, \$8,250 per month.  
Brooklyn Utilization Company, No. 186 Remsen street, Brooklyn, \$9,583 per month.  
James Mundy being the lowest bidder, I transmit herewith his bid for approval by your Board, pursuant to section 544 of the Greater New York Charter, as amended, as a part of the terms and conditions of the contract.

Respectfully,

JOHN McG. WOODBURY, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the award by the Commissioner of Street Cleaning of the contract for the collection and removal of all garbage and kindred refuse in the Borough of Brooklyn, for the period of one year beginning on the first day of September, 1902, to James Mundy, at his bid of eight thousand two hundred and fifty dollars (\$8,250) per calendar month.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communication from the Department of Parks requesting the transfer of \$350 for music, Boroughs of Brooklyn and Queens:

DEPARTMENT OF PARKS—BOROUGH OF BROOKLYN AND QUEENS,

LITCHFIELD MANSION, PROSPECT PARK,

BOROUGH OF BROOKLYN, August 25, 1902.

Honorable Board of Estimate and Apportionment, Borough of Manhattan, New York:

GENTLEMEN—I would respectfully ask that your Honorable Body authorize the transfer of the sum of three hundred and fifty dollars (\$350) from the account of "Labor, Maintenance and Supplies for the Department of Parks, Boroughs of Brooklyn and Queens," to that of "Music" in the same Department, for the year 1902. This is made necessary by reason of the fact that we have just been notified that this Department has been in the habit of furnishing music for the celebration of Antietam Day, September 13, in Prospect Park. This music will cost \$215, and the balance asked to be transferred will be used in a large German singing concert to be held in Prospect Park in the latter part of September or October.

There is only the sum of \$62.50 left in the Music account, as I have deemed it wise to use all the money available for supplying music in the small parks of the City.

Yours very truly,

RICHARD YOUNG, Commissioner.

The following resolution was offered:

Resolved, That the sum of three hundred and fifty dollars be and the same is hereby transferred from the appropriation made to the Park Department for the year 1902, entitled "Labor, Maintenance and Supplies, Boroughs of Brooklyn and Queens," the same being in excess of the amount required for the purposes thereof, to an appropriation made to the Park Department for the same year entitled "Music, Boroughs of Brooklyn and Queens," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communication from the Corporation Counsel requesting a transfer of \$8,000 to "Supplies and Contingencies, Including Deficiencies."

LAW DEPARTMENT,

OFFICE OF THE CORPORATION COUNSEL,

NEW YORK, August 25, 1902.

The Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The appropriation made to this Department for "Supplies and Contingencies, including Deficiencies for the year 1902" is exhausted.

The balance on hand at this date is \$1,649.14; but against this are unpaid bills which I am ready to certify, amounting to \$3,362.12. The expenditures under this head are, as the name of the appropriation indicates, uncertain and not wholly within my control.

I find that there will be a balance in the appropriation for salaries of assistants, clerks, etc., which will enable the departmental expenses to be met for the next few weeks. I request, therefore, that the following transfer be made at the earliest possible date:

From the appropriation of the Law Department for the year 1902, entitled "Salaries of Assistants, Clerks and Employees in all offices and bureaus of the Department, except the Bureau of Street Openings, and including the Tenement House Branch," to the appropriation entitled "Supplies and Contingencies, including Deficiencies," \$8,000. It is proper to add that it will be necessary for me, later in the year, to ask for a further transfer from some other account.

Yours respectfully,

G. L. RIVES, Corporation Counsel.

The following resolution was offered:

Resolved, That the sum of eight thousand dollars (\$8,000) be and the same is hereby transferred from the appropriation made to the Law Department for the year 1902, entitled "Salaries of Assistants, Clerks and Employees in all offices and bureaus of the Department, except the Bureau of Street Openings, and including Tenement House Branch," the same being in excess of the amount required for the purposes thereof, to an appropriation made to the Law Department for the same year, entitled "Supplies and Contingencies, including Deficiencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The following resolution was offered:

Resolved, That the sum of thirty-two dollars and thirty-one cents (\$32.31) be and hereby is transferred from the appropriation made to the County of New York for the year 1901, entitled "County Contingent Fund," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the said county for 1901, entitled "Supreme Court, First Department—Maintenance of Appellate Division Court House," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following resolution from the Board of Education requesting transfer of \$2,500 for "Special School Fund—Incidental Expenses":

Resolution offered by Mr. Frissell:

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the sum of twenty-five hundred dollars (\$2,500) from the appropriation contained within the Special School Fund for the year 1902, entitled "Supplies," which appropriation is in excess of its requirements, to the appropriation for the same year, also contained within the Special School Fund, entitled "Incidental Expenses," which appropriation is insufficient for the purposes thereof.

A true copy of resolution adopted by the Executive Committee of the Board of Education at a meeting held August 20, 1902.

FRED H. JOHNSON, Assistant Secretary, Board of Education.

The following resolution was offered:

Resolved, That the sum of two thousand five hundred dollars (\$2,500) be and hereby is transferred from the appropriation made to the Department of Education for the year 1902, "Special School Fund—Supplies," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the said Department for 1902, entitled "Special School Fund—Incidental Expenses," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communication from the District Attorney requesting an appropriation of \$20,000 for the payment of necessary expenses for the proper conduct of various criminal actions:

DISTRICT ATTORNEY'S OFFICE,  
COUNTY OF NEW YORK,  
August 21, 1902.

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—I hereby certify that the public interests demand, for the proper conduct of the following criminal actions, which are of exceptional difficulty, that an additional appropriation be made:

People vs. John D. Herlihy.  
People vs. George Bissert.  
People vs. Albert J. Adams.  
People vs. Daniel Myers.  
People vs. Samuel J. Kennedy.  
People vs. William M. Hahn.  
People vs. Stephen J. Regan.  
People vs. George R. Kane.  
People vs. Minnie Kurtz.  
People vs. Florence Burns.  
People vs. James McAuliffe.

It is estimated that the sum of twenty thousand dollars will be required for the proper conduct of these cases.

In view of the fact that exceptional expenses have been incurred in the conduct of the said cases, and that the appropriation of thirty thousand dollars annually granted for "Contingencies, Including Arrearages," has been insufficient to meet the ordinary expenses of this office, as stated in my Departmental Estimate, wherein I called the attention of your Honorable Board that it was absolutely essential that the sum of fifty thousand dollars should be appropriated for contingencies for 1902, including arrearages, I respectfully request that your Honorable Board grant the desired appropriation of twenty thousand dollars at your earliest convenience.

Yours very truly,

WM. TRAVERS JEROME, District Attorney.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 1542 of the Amended Greater New York Charter, the Board of Estimate and Apportionment hereby appropriates the sum of twenty thousand dollars (\$20,000) for the payment of the necessary expenses for the proper conduct of the following criminal actions, as requested in the certificate of the District Attorney of New York County, dated August 21, 1902, viz:

People vs. John D. Herlihy.  
People vs. George Bissert.  
People vs. Albert J. Adams.  
People vs. Daniel Myers.  
People vs. Samuel J. Kennedy.  
People vs. William M. Hahn.  
People vs. Stephen J. Regan.  
People vs. George R. Kane.  
People vs. Minnie Kurtz.  
People vs. Florence Burns.  
People vs. James McAuliffe.

—and that for the purpose of providing means for the payment therefor the Comptroller is hereby authorized to issue Special Revenue Bonds of The City of New York to the amount of twenty thousand dollars (\$20,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communication from the Fire Commissioner consenting to the transfer to the Department of Water Supply, Gas and Electricity of \$18,679.28:

HEADQUARTERS FIRE DEPARTMENT CITY OF NEW YORK,  
157 AND 159 EAST SIXTY-SEVENTH STREET,  
BOROUGH OF MANHATTAN, August 22, 1902.

To the Honorable Board of Estimate and Apportionment, 280 Broadway, City:

GENTLEMEN—Upon request of the Hon. R. G. Monroe, Commissioner of Water Supply, Gas and Electricity, I hereby consent to the transfer of the following amounts to the appropriation of the Department of Water Supply, Gas and Electricity, the money thus transferred to be expended for lighting the public buildings of the Fire Department in the Boroughs of Manhattan and The Bronx and the Boroughs of Brooklyn and Queens for the remainder of the year 1902.

From the appropriation "Apparatus, Supplies, etc.," for the year 1902, Boroughs of Manhattan and The Bronx..... \$10,859 78  
From the appropriation "Apparatus, Supplies, etc.," for the year 1902, Boroughs of Brooklyn and Queens..... 7,819 50

Total ..... \$18,679 28

Respectfully,

THOS. STURGIS, Fire Commissioner.

The following resolution was offered:

Resolved, That the sum of seven thousand eight hundred and nineteen dollars and fifty cents (\$7,819.50) be and hereby is transferred from the appropriation made to the Fire Department for the year 1902, entitled "Apparatus, Supplies, Etc., Boroughs of Brooklyn and Queens," the same being in excess of the amount required for the purposes thereof, to the following appropriations made to the Department of Water Supply, Gas and Electricity for the year 1902 and as follows:

Borough of Brooklyn—Lamps and lighting..... \$6,917 50  
Borough of Queens—Lamps and lighting..... 902 00

—the amounts of said appropriations being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The following resolution was offered:

Resolved, That the sum of ten thousand eight hundred and fifty-nine dollars and seventy-eight (\$10,859.78) be and hereby is transferred from the appropriation made to the Fire Department for the year 1902, entitled "Apparatus, Supplies, Etc., for the Boroughs of Manhattan and The Bronx," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Water Supply, Gas and Electricity for the year 1902, entitled "Lamps and Lighting, Boroughs of Manhattan and The Bronx," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following resolution from the Board of Education, requesting the transfer of \$24,369.28 to the Public School Library Fund:

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the sum of twenty-four thousand three hundred and sixty-nine dollars and twenty-eight cents (\$24,369.28), being the aggregate required by law to be apportioned by the City for school libraries for the current year, together with the equivalent sum of twenty-four thousand three hundred and sixty-nine dollars and twenty-eight cents (\$24,369.28) allowed by the State, and together aggregating forty-eight thousand seven hundred and thirty-eight dollars and fifty-six cents (\$48,738.56), to the Special or Trust Accounts, entitled "Public School Library Fund."

A true copy of resolution adopted at a meeting of the Executive Committee of the Board of Education held August 20, 1902.

FRED H. JOHNSON,  
Assistant Secretary, Board of Education.

The following resolution was offered:

Resolved, That the sum of twenty-four thousand three hundred and sixty-nine dollars and twenty-eight cents (\$24,369.28) be and hereby is transferred from the appropriation made by The City of New York for school libraries for the year 1902, together with the sum of twenty-four thousand three hundred and sixty-nine dollars and twenty-eight cents (\$24,369.28) allowed by the State, aggregating the sum of forty-eight thousand seven hundred and thirty-eight dollars and fifty-six cents (\$48,738.56), to the Special or Trust Accounts, entitled "Public School Library Fund."

Which was adopted by the following vote:

Affirmative—The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communication from the Board of Education, requesting a transfer of \$21,100 to General School Fund, Boroughs of Brooklyn and Queens:

To the Executive Committee:

The Committee on Finance respectfully report that, in the settlement of the bonus payrolls of May and June, 1900, the General School Funds of the respective boroughs require some adjustment, the funds applicable to some boroughs exhibiting a surplus, while others are insufficient, the total balance, however, of all the boroughs being adequate to meet the teachers' claims beforementioned.

The Comptroller has recently transmitted arrearage claims of certain janitors in Brooklyn, amounting to about \$25,000 in the aggregate, of which sum there is applicable to the year 1900 about \$8,500, and to the year 1901 about \$8,000. In further explanation it should be stated that these claims are due to action taken at various times by the former School Boards, and also to Civil Service and court decisions, and were not anticipated or known of by the present authorities. It should also be stated that until the year 1901 janitors' et al. salaries were paid from the General School Fund, the same as the teachers. In 1901 the janitors commenced to receive their compensation from the Special School Fund.

It will therefore be necessary to include a sufficient sum in the adjustment as will cover the janitors' claims for 1900-1901.

Resolved, That the action of the Executive Committee on June 18, 1902, in relinquishing the sum of one hundred and fifty-one thousand eighty-seven and 13-100 dollars (\$151,087.13) from the General School Fund of the Boroughs of Manhattan and The Bronx for the year 1900 be and the same is hereby amended by substituting the sum of one hundred and thirty thousand eighty-seven and 13-100 dollars (\$130,087.13) for the aforesaid sum, one hundred and fifty-one thousand eighty-seven and 13-100 dollars (\$151,087.13).

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the undermentioned amounts from the following-named appropriations, which are in excess of their requirements, to the appropriations also named, which are insufficient for their purposes:

From General School Fund, 1900, Boroughs of Manhattan and The Bronx, \$15,000, to General School Fund, 1900, Borough of Brooklyn, \$15,000.  
From General School Fund, 1900, Boroughs of Manhattan and The Bronx, \$6,100, to General School Fund, 1900, Borough of Queens, \$6,100.

Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the sum of eight thousand dollars (\$8,000) from the General School Fund of the Borough of Brooklyn for the year 1901, which fund is in excess of its requirements, to the appropriation contained within the Special School Fund for same year and same borough, entitled "Salaries of Janitors in Public Schools," which appropriation is insufficient for its purposes.

A true copy of report and resolutions adopted at a meeting of the Executive Committee of the Board of Education, held August 20, 1902.

FRED H. JOHNSON,  
Assistant Secretary, Board of Education.

The following resolution was offered:

Resolved, That the sum of twenty-one thousand one hundred dollars (\$21,100) be and hereby is transferred from the appropriation made to the Department of Education for the year 1900, entitled "General School Fund, Boroughs of Manhattan and The Bronx," the same being in excess of the amount required for the purposes thereof, to the following appropriations made to the Department of Education for the year 1900, entitled and as follows:

"General School Fund: Borough of Brooklyn"..... \$15,000 00  
"General School Fund: Borough of Queens"..... 6,100 00

Total ..... \$21,100 00

—the amount of said appropriations being insufficient.

Which was adopted by the following vote:

The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen, and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Secretary presented the following communications from the Commissioner of Bridges and from the Principal Assistant Engineer of the Department of Finance, in regard to the purchase of property No. 191 South Fifth street, Brooklyn, for the use of the Williamsburg bridge, \$10,500.

DEPARTMENT OF BRIDGES, CITY OF NEW YORK,  
COMMISSIONER'S OFFICE, PARK ROW BUILDING,  
MANHATTAN, NEW YORK CITY, N. Y.,  
August 26, 1902.

To the Honorable, the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—I transmit herewith for your approval contract in triplicate, duly executed, for conveyance to The City of New York of the property of Betty Strauss, at No. 191 South Fifth street, Brooklyn, purchased for the use of the Williamsburg bridge for \$10,500.

Respectfully,

G. LINDENTHAL, Commissioner of Bridges.

CITY OF NEW YORK,  
DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,  
August 27, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Gustav Lindenthal, Commissioner, Department of Bridges, in a communication under date of August 26, 1902, transmits to the Board of Estimate and Apportionment for approval contract in triplicate, duly executed, for conveyance to The City of New York the property of Betty Strauss, at No. 191 South Fifth street, Brooklyn, purchased for the use of the Williamsburg bridge for \$10,500.

Would report that the property in question is within the lines of the plaza of the new East river bridge. The price asked, \$10,500, I consider just and reasonable, hence I would advise the purchase, and I think the Board of Estimate and Apportionment, pursuant to chapter 652 of the Laws of 1899, can properly give its approval to same, subject to the consent of the Comptroller, as required, to comply with the provisions of section 149 of the Amended Greater New York Charter.

Respectfully,  
CHANDLER WITHINGTON,  
Principal Assistant Engineer.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 652 of the Laws of 1899, the Board of Estimate and Apportionment hereby approves of the purchase by the Commissioner of Bridges, with the assent of the Comptroller, as required by section 149 of the Greater New York Charter, of the premises known as No. 191 South Fifth street, Borough of Brooklyn, from Betty Strauss, for the sum of ten thousand five hundred dollars (\$10,500).

Which was adopted by the following vote:

The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen, and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment at meeting held August 21, 1902, which reads as follows:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of the following-described property in the Borough of Brooklyn as a school site:

"Beginning at a point on the westerly side of Albany avenue, distant forty feet northerly from the northwest corner of Albany avenue and Bergen street, and running thence northerly along the westerly side of Albany avenue one hundred and seventy-four feet five inches; thence westerly along the southerly side of Dean street two hundred feet; thence southerly, and parallel to Albany avenue, two hundred and fourteen feet five inches; thence easterly along the northerly side of Bergen street one hundred feet; thence northerly, and at right angles to Bergen street, forty feet; thence easterly and parallel to Bergen street one hundred feet to the point or place of beginning, at a price not to exceed forty-two thousand dollars (\$42,000), and authorizes the Board of Education to enter into the necessary contract (approved as to form by the Corporation Counsel) for the purchase of said site, which is to be presented to the Comptroller for his consent, pursuant to the provisions of section 149 of the Greater New York Charter,"

—be and the same is hereby rescinded.

Which was adopted by the following vote:

The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen, and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The Commissioner of Public Works and Acting President of the Borough of Brooklyn requested the transfer of \$20,000 to repaving streets and avenues, Bureau of Highways, in accordance with the following communication:

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF COMMISSIONER OF PUBLIC WORKS, BOROUGH HALL,  
August 27, 1902.

J. W. STEVENSON, ESQ., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—I beg respectfully to ask the consent of the Board of Estimate to the transfer of \$20,000, from the respective funds and for the respective amounts stated, to the fund for Repaving Streets and Avenues, Bureau of Highways.

The funds from which the transfers are asked are as follows:

Sewers—Repairing and cleaning .....	\$5,000 00
Bureau of Sewers—Contracts at public letting .....	5,000 00
Bureau of Encumbrances and Permits—Fund for removal of encumbrances .....	5,000 00
Bureau of Public Buildings and Offices—Fund for salaries and repairs .....	5,000 00
Total .....	\$20,000 00

These amounts have been saved by economy throughout the year, and the present purpose is to apply them to the greatest need of the borough, in getting their value in new pavements at the present low prices.

Yours very truly,

WILLIAM C. REDFIELD,

Commissioner of Public Works, and Acting President, Borough of Brooklyn.

The following resolution was offered:

Resolved, That the sum of twenty thousand dollars (\$20,000) be and hereby is transferred from the following-named appropriations made to the President of the Borough of Brooklyn for the year 1902, and as follows:

Bureau of Highways—"Labor, maintenance and supplies"....	\$5,000 00
Bureau of Sewers—"Sewers, repairing and cleaning, payrolls and supplies" .....	5,000 00
Bureau of Sewers—"Sewers, repairing and cleaning, contracts at public letting" .....	5,000 00
Bureau of Public Buildings and Offices—"Supplies and repairs" .....	5,000 00
Total .....	\$20,000 00

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the said Department for the year 1902, entitled "Repaving Streets and Avenues," Bureau of Highways, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen, and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

The President of the Borough of Queens presented the following resolution:

Resolved, That the sum of ten thousand dollars (\$10,000) be and the same is hereby transferred from the appropriation made to the President of the Borough of Queens for the year 1902, entitled "Salaries, Bureau of Sewers," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said office for 1902, entitled, "Labor, Maintenance and Supplies," Bureau of Sewers, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

The Acting Mayor, Deputy Comptroller, Acting President of the Board of Aldermen, and the Acting Presidents of the Boroughs of Manhattan, Brooklyn and Richmond, and the President of the Borough of Queens—15.

On motion, the Board adjourned. The meeting was continued for the consideration of public improvement matters, the record of which will appear in separate minutes of this date.

J. W. STEVENSON, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, COUNCIL CHAMBER, CITY HALL, FRIDAY, SEPTEMBER 5, 1902.

The Board met in pursuance of an adjournment.

Present—Seth Low, Mayor; Edward M. Grout, Comptroller; Charles V. Fornes, President, Board of Aldermen; Jacob A. Cantor, President, Borough of Manhattan; William Redfield, Acting President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Cassidy, President, Borough of Queens; Louis L. Tribus, Acting President, Borough of Richmond.

Reading of the minutes of meetings held April 9, 10, 11, 14, 15, 16, 17, 21, 23, 25, 30, May 9, 12, 16, 20, 23, 26, June 6, 13, 20, 27, July 8, 11, 18, 25, 28 and August 4, 7, 21, 28, were dispensed with.

Acting President, Borough of Brooklyn, presented the following report relative to the final disposition of ashes, sweepings and rubbish in the Borough of Brooklyn.

HOTEL WESTMINSTER, WESTMINSTER PARK,  
ALEXANDRIA BAY, N. Y., September 1, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—The inclosed amended proposition of Matthew T. Meagher for the removal of street sweepings, etc., in the Borough of Brooklyn was submitted to me to-day and is herewith submitted to your Honorable Board for such action as to it may seem proper.

Respectfully,

J. EDW. SWANSTROM,  
President Borough of Brooklyn.

HOTEL WESTMINSTER, WESTMINSTER PARK,  
ALEXANDRIA BAY, N. Y., August 30, 1902.

Hon. SETH LOW, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—In the matter of awarding the contract for the final disposition of street sweepings, ashes and rubbish (other than garbage) in the Borough of Brooklyn, which was referred to me by your Honorable Board at a meeting held on July 28 last, I respectfully report as follows:

Two bids were received, one from Matthew T. Meagher, at 8 cents per cubic yard, and one from H. Milton Kennedy, at 35 cents per cubic yard.

The Commissioner of Street Cleaning, after a careful consideration of the respective bids and of the plans accompanying the same, decided to award the contract to Mr. Kennedy, subject to the approval of the Board of Estimate and Apportionment.

The grounds for his decision were stated by him in his argument before the Board substantially as follows:

First—That the cost to the City would be less under the Kennedy plan than under the Meagher plan, because of the shorter hauls required.

Second—That the Kennedy plan offers a permanent solution of the problem of disposing of City refuse.

The specifications require that the contractor shall provide certain locations known as receiving stations wherein he shall receive the street sweepings, ashes and rubbish collected by the Street Cleaning Department, and finally dispose of them in such manner as shall not be prejudicial to the public health.

The City assumes the duty, at its own cost, by means of the Department of Street Cleaning, of hauling such sweepings, etc., to the receiving stations provided by the contractor.

It is obvious, therefore, that the cost of hauling must be added to the estimate for final disposition in order to determine the total cost to the City of collecting and disposing of street refuse.

Under the plan of Mr. Meagher six points of collection, or receiving stations, are provided. Two of these are respectively located at Coney Island and Bath Beach.

The Superintendent of Final Disposition in his report of August 26, 1902, to Commissioner Woodbury, states that the Coney Island and Bath Beach stations are not needed at the present time. The plan of Mr. Meagher therefore provides for but four receiving stations within the congested territory of the Borough of Brooklyn.

The Kennedy system provides for thirteen receiving stations within such territory, each station being located in the centre of the collection district.

It requires no argument to prove that the greater the number of receiving stations the less the cost of haul.

Under the Meagher system the cost of haul (as computed by the Superintendent of Final Disposition) is 51¾ cents per cubic yard, while under that of Kennedy the cost per cubic yard is but 19 cents.

The comparative cost of the two systems may be tabulated as follows:

Meagher Plan.

Amount of bid per cubic yard.....	\$0 08
Cost of haul per cubic yard.....	51¾
Total cost to City per cubic yard.....	\$0 59¾

Kennedy Plan.

Amount of bid per cubic yard.....	\$0 35
Cost of haul per cubic yard.....	19
Total cost to City per cubic yard.....	\$0 54

It will be seen therefore that, while the bid of Meagher is on its face lower than that of Kennedy, the actual cost to the City is greater under the former than under the latter plan.

Aside from the question of cost Mr. Kennedy's plan presents certain advantages to the City which are well worth considering.

Each of the thirteen receiving stations contemplated by his plan is to be constructed of stone and iron, with sanitary appliances and adequate facilities for handling the materials and sending them by railroad cars in the night time to the lowlands on the outskirts of the borough.

Each station is to contain hoppers of sufficient capacity to hold the entire refuse

of any given section for twenty-four hours. The stations are to be cleanly and of pleasing architectural appearance. The railroad cars required to convey the refuse collected are to be of special construction equipped with air-braking and air-dumping apparatus.

The installation of such a system will, it seems to me, result in cleaner streets and a general improvement in the sanitary conditions of the Borough of Brooklyn. The aggravating annoyance to citizens caused by the frequent rattling of dusty carts for long distances over the City pavements will be greatly lessened by the substitution of smooth-running cars operated upon railroad tracks.

With the haul reduced fifty-four per cent. over that of the present system there will be a corresponding reduction in the wear and tear of City pavements, the repairs to which are borne by taxpayers.

It is obvious also that by an increase in the number of receiving stations and the consequent reduction in the size of each district to be cleaned personal inspection by the Commissioner of Street Cleaning will be greatly facilitated.

Then, too, the present system of filling in depressed lots with street refuse is not only unsanitary but expensive, and a positive nuisance to the neighborhoods in which the dumps are located. One of the advantages of Mr. Kennedy's plan is the extinction of this dumping system and the substitution therefor of a system which contemplates the filling in of the low meadow lands in the outlying sections of the City so that they may be reclaimed and made tax-producing.

For the reasons above set forth I concur in the recommendation of Commissioner Woodbury that the contract for the removal of street sweepings, etc., in the Borough of Brooklyn be awarded to H. Milton Kennedy.

It seems proper that I should add that at the hearing on July 28 before your Honorable Board counsel for Mr. Meagher stated that his client was willing to amend his proposal so as to increase the number of receiving stations, but up to the date of the making of this report no such amended proposal has been brought to my attention.

Respectfully submitted,

J. EDW. SWANSTROM,  
President, Borough of Brooklyn.

The following communication from Mr. W. T. Meagher, submitting amended statement of dumps and receiving stations, in connection with his bid for the final disposition of ashes, sweepings and rubbish in the Borough of Brooklyn, was presented:

Hon. J. EDWARD SWANSTROM, President of the Borough of Brooklyn:

The undersigned respectfully submits for your consideration the following statement of reasons why the contract for the final disposition for the Borough of Brooklyn of ashes, sweepings and rubbish should be awarded to him as the lowest formal bidder in response to public advertisement upon written proposals, understanding that the matter has been referred to you for examination and report by the Board of Estimate of The City of New York.

First—I submit for your consideration twenty-one (21) dumps and three (3) receiving stations for the disposal of rubbish. These dumps take in the entire Borough of Brooklyn, and the average haul of any of these dumps is about a mile and an eighth.

Second—The dumps are located as follows:

- No. 1. Calyer and Jewell streets.
- No. 2. Provost, India, Java streets, and Whale Creek canal.
- No. 3. Meeker avenue and Newtown creek.
- No. 4. Maspeth avenue, from Varick avenue to Stewart avenue.
- No. 5. Maspeth avenue, bounded by Gardner and Scott avenues.
- No. 6. Metropolitan avenue and Scott avenue.
- No. 7. Bounded by Myrtle avenue, Central and Tompkins avenues and Valentine street.
- No. 8. Wortman avenue and Barbey street.
- No. 9. New Lots road and Watkins street.
- No. 10. Utica avenue, Carroll and President streets.
- No. 11. Dock foot of Keap street and Wallabout canal.
- No. 12. Dock at Sixth street basin.
- No. 13. Hamilton avenue, Second avenue, Nineteenth street and the bulkhead line.
- No. 14. Halleck street, Hicks street, Columbia street and the schooner dock.
- No. 15. Bounded by Mermaid avenue and Neptune avenue, West Twentieth and West Twenty-first streets.
- No. 16. Fifteenth avenue and Eighty-sixth street.
- No. 17. Bounded by Sixtieth, Sixty-first streets, Seventh and Eighth avenues.
- No. 18. Coney Island avenue, East Fourteenth street, Avenue D and Newkirk avenue.
- No. 19. Neptune avenue, Coney Island avenue and Coney Island creek.
- No. 20. Maspeth avenue, from Vandervoort to Gardner avenues.
- No. 21. Ashford street and New Lots road.

Other dumps will be added when maps are submitted to the Board of Estimate. The permanent burning station for rubbish only to be located at Bush, Dwight and King streets.

The receiving station for rubbish, Nostrand avenue, between Crown and Montgomery streets; also Varick street, corner of Johnson avenue.

The average haul from all these dumps is about one mile and one-eighth.

If this contract is awarded to me I will be able to start on the first day of October, 1902, excepting that the burning station could not be erected before the first day of January next.

If the contract is awarded to me the saving to the City within the term of this contract will be about \$1,401,888.30, the aggregate amount of my bid being \$416,263.20, or \$83,252.64 per annum, and the aggregate of the bid of the only other contestant being \$1,821,151.50, or \$364,230.30 per annum.

The bond required on this contract, \$60,000, or any other amount required, I am well qualified to furnish.

I have at my disposal some twenty-two (22) scows and the necessary tugs in which the ashes will be removed from the foot of Keap street and Sixth street basin. The furthest haul submitted by me is the dock at the foot of Keap street. If the City will lease me its dock at the foot of Gold street or foot of Clinton avenue, which it controls, I will use either of those in place of the Keap street dock, making the haul in that instance very much shorter.

I have been engaged in the public contracting business for the last eighteen years, and have done and am doing now considerable work for the City, and have never defaulted in any instance. I am thoroughly familiar with this ash contract, having been a subcontractor under former contractors.

In relation to the bid of H. Milton Kennedy I respectfully present the following suggestions that should be applied to the consideration of his bid:

It was claimed that he intended to fill in the dumps known as the Harway basin property at Gravesend bay, and thus increase the assessed valuation of taxable property. The same may be said of my dumps, with the additional force, that they are in the built-up portions of the City, where the land would be more valuable for manufacturing and business purposes. One of the dumps submitted by me is also immediately adjacent to the Harway basin property submitted by Mr. Kennedy, to wit: at Mermaid and Neptune avenues, on Harway basin.

There is herewith submitted a map showing the location of the dumps by numbers, hereinbefore referred to.

Respectfully submitted,

MATTHEW T. MEAGHER.

No. 1127 Willoughby avenue, Brooklyn, N. Y.

Mr. Luke D. Stapleton, counsel for Mr. Meagher, made statement to the Board relative to Mr. Meagher's bid.

The Commissioner of Street Cleaning also made oral statement, and the Mayor moved that the Commissioner be permitted to withdraw both bids for the purpose of readvertising the contract.

Which was adopted by the following vote:

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, requesting an appropriation of \$40,000 for laying

large distributing mains in the Fourth Ward, Borough of Queens; also report of Mr. A. J. Provost, Jr., Assistant Engineer, Finance Department, relative thereto.

August 23, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—From report made to me by the Deputy Commissioner of this Department for the Borough of Queens, I find that there is very urgent necessity for laying larger distributing mains in the First Ward of the borough, formerly Long Island City. He states that the population is suffering from want of water at desirable pressures on account of the small size of the mains leading from the several points at which the water is delivered by the City's pumping stations, and by the Citizens' Water Supply Company, and that material and immediate relief can be given by expending about \$40,000 for larger mains. The necessity for such relief is urgent.

I therefore respectfully ask that your Board, under section 178 of the Greater New York Charter, authorize the issue of bonds or Corporate Stock of The City of New York, to the amount of \$40,000 for the purpose of laying these mains.

Permit me to say that by the prompt action of your Board the Department will be enabled to enter into a contract and begin to lay the mains before winter.

I inclose herewith draft of resolution, authorizing the bond issue.

Very respectfully,

R. G. MONROE,

Commissioner of Water Supply, Gas and Electricity.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 29, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Commissioner of Water Supply, Gas and Electricity addressed to the Mayor on August 23 a request to the Board of Estimate and Apportionment to authorize the issue of bonds or Corporate Stock of The City of New York to the amount of \$40,000, for the purpose of laying larger distributing mains in the First Ward, Borough of Queens, the necessity of which he states is urgent.

I find that a considerable portion of this ward is now provided with water in part from City Pumping Station No. 2, and part from the Pumping Station of the Citizens' Water Supply Company, by means of an 8-inch supply main in Flushing avenue, from Bowery Bay road to Carver street, from which point it reduces to 6 inches. The mains leading from the pumping stations to the Flushing avenue main are 10 inches and 12 inches, respectively. I am informed by the Deputy Commissioner of Water Supply, Borough of Queens, that the distribution through the Flushing avenue main amounts on the average to about 950 gallons per minute. This rate is maintained entirely by pump pressure, which is barely sufficient to move the column at that rate.

There can be no question that the attempt to force water in this quantity through mains of the present size will result in a prohibitive loss of head and an entirely useless expenditure of fuel under a direct system of pumping, such as obtains in this borough. The remedy formulated by the Deputy Commissioner of Water Supply, viz., the construction of a 16-inch main in Flushing avenue, from Bowery Bay road to Steinway avenue; a 14-inch main between this point, at Carver street, and a 12-inch main from this point to Mill street, together with a 12-inch main from Station No. 3, through Grove and Luyster streets, to Newtown road, is, in my opinion, a proper one, and entitled to favorable consideration by the Board of Estimate and Apportionment.

Respectfully,

A. J. PROVOST, Jr., Assistant Engineer.

The following resolution was offered:

Resolved, That pursuant to the provisions of sections 169 and 178 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter to the amount of forty thousand dollars (\$40,000), to provide for the expense of laying additional water mains in the First Ward of the Borough of Queens.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of The Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, requesting authority to employ a Consulting Hydraulic Engineer for his Department.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, 13-21 PARK ROW,  
CITY OF NEW YORK, August 30, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I respectfully make application, in pursuance of section 455 of the Greater New York Charter, for authority to employ a Consulting Hydraulic Engineer to this Department. Since my appointment as Commissioner of Water Supply, Gas and Electricity, on July 15, I have very carefully considered the necessity of applying to your Board for authority to employ a Consulting Hydraulic Engineer, and have reached the conclusion that such an Engineer should be constantly in the employ of the City; that no private corporation, with such great material interests at stake, would hesitate for a moment in securing the best possible technical advice.

I believe this application to be most reasonable and unquestionably in the interest of the City, and I therefore ask for favorable action.

Yours very respectfully,

R. G. MONROE,

Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That in pursuance of section 455 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized, with the concurrence of the Board of Aldermen, to employ a Consulting Hydraulic Engineer to his Department, of at least fifteen years' experience as a civil engineer, at a salary of \$7,000 per annum.

Which was adopted by the following vote:

The Mayor, Comptroller, President of The Board of Aldermen and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity, requesting authority to charge to the account of "Bronx River Works, Maintenance and Repairs, 1902," the expense for pumping water from the old Aqueduct into the mains of the Bronx System, under a contract made in 1901, to the amount of \$3,000.

On motion, the request was referred to the Comptroller.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity, requesting the issue of Corporate Stock for various improvements:

COMMISSIONER'S OFFICE, 13-21 PARK ROW,  
CITY OF NEW YORK, August 20, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—For the proper conduct of the business of this Department, it is urgently necessary that the following bond issues be authorized:

To pay the awards already made and about to be made for land taken and damages accruing in carrying out the provisions of the Sanitary Protection Act, chapter 189, Laws of 1893..... \$250,000 00

From the Water Funds, Boroughs of Manhattan and The Bronx, under Section 178 of the Greater New York Charter.

To pay for lands taken and expenses incurred in connection therewith... \$100,000 00

I bespeak the early and favorable action of your Board on this request.

Very respectfully,

R. G. MONROE,

Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That, pursuant to the provisions of sections 169 and 178 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of two hundred and eight thousand dollars (\$208,000), the proceeds whereof to be applied to the following purposes:

BOROUGH OF MANHATTAN AND THE BRONX.

For furnishing and laying water mains..... \$150,000 00  
For additional fire hydrants called for by the Fire Department ..... 50,000 00

BOROUGH OF RICHMOND.

For new boiler and appurtenances, and for enlarging the boiler room, and for the erection of a storehouse at Tottenville Pumping Station..... 8,000 00  
\$208,000 00

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, The Bronx and Queens and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following report (No. 398, from the Engineer of the Board of Estimate and Apportionment), relative to the property of the New York and Westchester Water Company:

BOARD OF ESTIMATE AND APPORTIONMENT,  
NEW YORK, August 28, 1902.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In the matter of the communication from the Commissioner of Water Supply, bearing date of June 16, 1902, requesting the Board of Estimate and Apportionment to determine what part of the property of the New York and Westchester Water Company is "necessary and advantageous for the City's public use" and should be acquired under the provisions of chapter 617 of the Laws of 1902, which communication was referred to me on June 21, 1902, I beg to report that the subject matter has been given careful consideration, that the law of reference has been examined, that conferences have been held with one of the receivers of the Water Company, the Corporation Counsel, and the Commissioner of Water Supply, and that an examination of the plant has been made.

The act of reference provides for the acquisition of the property by condemnation proceedings only, and under its terms the title to so much of it as the Board of Estimate and Apportionment shall deem it proper to acquire vests in the City upon the filing of the oaths of the Commissioners of Appraisal appointed by the Court.

The Corporation, originally known as the New York and Westchester Water Company, has, since its incorporation, acquired the stock of the New York City District Water Supply Company, and of the Upper New York City Water Company, the total outstanding stock of the company, now operated as the New York and Westchester Water Company, being \$10,000,000; the old New York and Westchester Water Company, and the Upper New York City Water Company have a bonded debt of \$1,000,000 each, while that of the New York City District Water Supply Company is \$1,075,000. I have not accurately ascertained the corporate relations now existing between these three companies, nor the exact bounds of the property which they now control, or in which they have interests, as I am convinced that the only portion of their works which it would be desirable for the City to acquire are those within the Chester District of The City of New York; this opinion coincides with that of the Commissioner of Water Supply, who states that "the purchase by the City of the company's property and plant, outside of the boundaries of the City, which are used for supplying towns and villages in Westchester County, appears to be out of question." The pipe laid in the old village of East Chester belongs to the Upper New York City Water Company; the remainder of the plant within the limits of the City is the property of the original New York and Westchester Water Company, which also owns the pumping stations just beyond the City Line at Glen Park and Pelham, and the distribution system through a small adjoining area outside of the City.

All of the companies are now in the hands of receivers. The supply for the Glen Park station is taken out of the Bronx river conduit, and probably averages 1,000,000 gallons per day; the supply at the Pelham station probably averages slightly more than the one at Glen Park, and is obtained from some fourteen (14) four (4) inch wells driven in the valley of and adjoining the Hutchinson creek. The original supply of the Glen Park station was from a small brook joining the Bronx river, just below the pumping station, but it has now been abandoned, partly because of its inadequacy and partly owing to its objectionable quality. The analysis of the Pelham station supply gives unmistakable evidence of infiltration of salt water, the same being slightly noticeable in taste; it is therefore evident that the capacity of this plant cannot be increased. The machinery at both stations is not of an economical type, is old, and has not been kept in proper repair; the buildings are of frame and are of the simplest possible construction. The pipe lines within the City limits comprise about fifty-one (51) miles of mains, ranging from four inches to twenty inches in diameter, about forty-two per cent. being of the former size. The itemized list of the various sizes of pipe, together with the gates and hydrants and all tangible property within the limits of The City of New York, as presented by the Commissioner of Water Supply, shows a value estimated by him as \$353,980. I am informed that in making up this estimate there has been made an allowance of ten per cent. for depreciation, the works now being about nine years old. Insufficient data is at hand for making a careful analysis of this valuation, but I believe that it is a very fair one.

The report of the Commissioner of Water Supply for the year 1898 shows that the Chester District is supplied with water under the following contracts made by the towns and villages of the district prior to their annexation to the City:

Territory.	Date of Contract.	Date of Expiration of Contract.
Town of Pelham.....	July 20, 1891	July 20, 1896
Town of Westchester.....	Sept. 7, 1893	Sept. 7, 1903
Village of Wakefield.....	1895	1905
Village of Williamsbridge.....	June 5, 1895	June 5, 1905
Village of East Chester.....	May 17, 1895	May 17, 1905

Assistant Corporation Counsel Whitman has made an examination of these contracts and informs me that there is no evidence to show that any contract now exists for the Village of Wakefield, and that in none of the cases cited is the franchise an exclusive one. He also informs me that he interprets the act authorizing purchase to apply only to the property of the old New York and Westchester Water Company, as he lacks any proof to show that the New York City District and the Upper New York City Company have been legally absorbed. This being the case, the act fails to include in its scope that portion of the system now supplying East Chester.

Under agreement between the water company and the old towns and villages the City is required to pay an annual rental of \$40 for each of the 438 hydrants maintained, or an aggregate of \$17,520 yearly. Under the agreement between the water company and the City the latter should receive \$100 per million gallons furnished from the Bronx conduit, or say, about \$36,500 per year. The company is therefore actually indebted to the City a net amount of about \$19,000 each year, but I am informed that no settlement has ever been made by either party. The probabilities are very strong that the water is sold to consumers at a lesser rate than it is purchased for, and I believe that in case settlement were made there would be some doubts as to whether the operation of the water company's plants would be found to constitute an asset or a liability. The Commissioner of Water Supply states in his communication that the Department proposes to supply the mains of this district by two forty-eight-inch mains from a pumping station near the Jerome Park Reservoir, and that, pending the completion of the station, the district will be taken care of by one of the forty-eight-inch pipes to be connected with the Croton Aqueduct and which will be ready for use next month. As the elevation to which water is now delivered in the district ranges from 100 to 205 feet above tide and the elevation reached by the Croton Aqueduct is only 110 feet, it is apparent that the needs of the district will not and cannot be taken care of prior to the completion of the new pumping station, which the Chief Engineer of Water Supply estimates will be in 1904.

The Commissioner indicates that his advocacy of the proposed purchase of the property of the water company within the limits of The Bronx is due to a desire to remedy what is now undoubtedly an inadequate service, and he states that "the streets in which the company's mains exist have not yet been improved or graded, or legally established on permanent lines, and it would be less expensive to acquire these mains, even with allowance of possible collateral damages to the company's other property and franchises, than to proceed now to parallel and displace the company's system by City mains and incur the expense of relaying as street improvements on legal lines and grades progress."

I have already shown that relief cannot be granted this district until 1904, so that the acquisition of the plant at this time will necessitate the continued operation of the works as at present and the purchase or rental of the water company's pumping stations to give the desired pressure. I cannot agree with the Commissioner as to the comparative expense involved for the laying of new mains or the purchase of those now existing, for in case new mains are laid on the present system of street lines and grades the expense of lowering or relaying them to suit the final street layout of the section will involve no greater cost than to do the same work for those now in use. I believe, furthermore, that if commissioners are appointed to appraise this plant they will force the City to pay for at least the whole of the property of the old New York and Westchester Water Company, for the reason that the portion outside of the City is of too small magnitude to pay operating expenses. I also believe that under condemnation proceedings undertaken at this time the company would make a strong effort to secure a large compensation for unexpired contracts. That they are prepared to demand a large payment is clearly exhibited by the estimated value of their property as submitted by Mr. W. H. Ellis, one of the receivers of the company, to former Commissioner Dougherty under date of May 19, 1902, and which is as follows:

Franchise within New York City, and good will.....	\$1,500,000 00
Contract with the Village of Westchester.....	300,000 00
Contract with the Village of Williamsbridge.....	100,000 00
Contract with the Town of Pelham.....	50,000 00
Contract with the Village of Wakefield.....	50,000 00
Contract with New York City by which we furnish it with hydrants.....	200,000 00
Contract with N. Y., N. H. & H. R. R.....	50,000 00
Contract with U. S. Government, Fort Schuyler.....	30,000 00
Contract with the N. Y. Catholic-Protector.....	60,000 00
Contract with the gas company.....	5,000 00

—thus making, outside of the valuation of our pipes, pumping stations, reservoirs, stand-pipes, machinery, etc.....	\$2,345,000 00
The Glen Park property, including the land, reservoirs, building, stand-pipe, boilers, engines, pumps, horses and wagons, stock of coal on hand, stock of pipe and tools.....	100,600 00
The Pelhamville Pumping Station, including the land, buildings, pumps, engines, wells, stock of coal on hand and supply of water.....	222,000 00
The pipes of all sizes that are in The City of New York belonging to the New York and Westchester Water Company, including gates, hydrants and all connections.....	996,000 00
Office fixtures, safes, etc.....	1,000 00

—thus making the total cost of the entire property of the New York and Westchester Water Company, including its franchises, good will, pipes, pumping stations, and in fact all property as owned by it.....\$3,664,600 00

While the pipe lines of the company are of small size there is no doubt but that when reinforced by the new mains, as proposed by the Department of Water Supply, they will meet the needs of the district for a long period in the future; if they could be acquired by direct negotiation for a sum not to exceed \$350,000, title dating from the time when the Jerome Park Pumping Station is completed, the purchase might be advisable, otherwise it seems to me desirable to at once begin work on laying an entirely new distribution system.

I would therefore recommend that the Commissioner of Water Supply be authorized to open negotiations for the direct purchase of all of that portion of the plant within the Bronx, and that he be requested to submit the results of such negotiations to the Board at an early date. This course should be fair to both parties interested, for I have no doubt but that the Water Company could dispose of all of its interests outside of the city at a reasonable figure to rival water companies operating in the same territory.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
June 21, 1902.

N. P. LEWIS, Esq., Engineer, Board of Estimate and Apportionment:

DEAR SIR—At a meeting of the Board of Estimate and Apportionment, held June 20, 1902, a communication from the Commissioner of Water Supply, Gas and Electricity, calling attention to the insufficiency of the water service of the New York and Westchester Water Company to the people in the Borough of The Bronx, and requesting the Board of Estimate and Apportionment to determine whether the

acquisition of the plant of said company, or any part thereof, is necessary for the public use, was presented, and, in accordance with the direction of the Board, I inclose you herewith a copy of the same for your consideration and report.

Respectfully yours,

J. W. STEVENSON, Deputy Comptroller.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
CITY OF NEW YORK, June 16, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—The insufficiency of the water service of the New York and Westchester Water Company to the people of the Borough of The Bronx, in the section east of the Bronx river, became apparent soon after that section was annexed to The City of New York in 1895, and the discomforts, and even dangers, from such inadequate supply have grown to such an extent as to demand the most speedy and efficacious measures of relief, for the accomplishment of which the superseding of the Water Company's service by the City's own service appears to be the best practicable plan.

The application of the former Department of Public Works and of the Department of Water Supply, for authority and funds to build a high service pumping station near the site of the Jerome Park Reservoir (still in course of construction under the direction of the Aqueduct Commissioners), resulted in a grant of the requisite funds and authority in 1899 and 1900, for the construction of the pumping station and of two lines of 48-inch water mains from the stations to different sections of the borough. While the several contracts for foundations, buildings, engines and boilers for the pumping station will not be completed until next year, the work under the contract for one of the two 48-inch mains will be finished by the close of September next, and under the other, before the end of the year. These mains will be connected with the old Croton Aqueduct in advance of the completion of the pumping station, and will at once become available for additional water supply to the Borough of The Bronx, west of the Bronx river, and will also furnish sufficient quantity for distribution east of the Bronx river (to supersede the service of the New York and Westchester Water Company), as soon as the City shall have either acquired or laid the necessary distributing mains in the section now served by the Water Company.

Recognizing the necessity of the early introduction of the City's own service east of the Bronx river, I drafted and caused to be introduced in the last Legislature a bill to authorize the City to acquire the property and franchises of the New York and Westchester Water Company. This bill has been enacted as chapter 617, Laws of 1902. It authorizes the Commissioner of Water Supply, Gas and Electricity, with the approval of your Board, to acquire for the public use of the City, all the real estate, reservoirs, wells, streams, pumping stations, pumps, machinery, pipes, franchises and other property of the New York and Westchester Water Company, and of its receivers, and provides that upon application of said Commissioner the said Board of Estimate and Apportionment is authorized to determine whether the acquisition of the above, "or any part thereof, and if so, what part or parts thereof, are necessary for the public use."

It is for your Board to determine what part of the company's property, if any, is necessary and advantageous for the City's public use. To this end and in conformity with the duty imposed upon me by the Act of the Legislature, I recently sought and obtained from the receivers of the company a description of its property, plants and franchises, accompanied by maps, and have caused an investigation to be made by Department Engineers, from all of which I present the following results:

The company's system and plant extend beyond the boundaries of the City and of the Borough of The Bronx, to towns and villages in Westchester County, and for consideration of the subject in hand may be divided into three sections:

1. The district outside the boundaries of the City, including Yonkers, Dobbs Ferry, Tarrytown, etc., supplied from the pumping station at Glen Park, Yonkers, with water from the Pocantico river, through about forty-four miles of water main.
2. The southeasterly district of the Borough of The Bronx, supplied from the company's pumping station at Pelham, through about eight miles of water mains.
3. The district in the northeasterly section of the Borough of The Bronx, supplied in part from the Glen Park Pumping Station, but principally with water furnished to the company by the City, at the rate of about one million gallons per day, through a 6-inch connection with the Bronx river conduit, under a contract made by the Commissioner of Public Works in 1897. In this district the company has about fifty miles of water mains, ranging from 20 inches down to 4 inches in diameter.

Investigations of the company's plant and property included analysis of the water by the City Department of Health, in March last, at four different points of the company's system, which showed the water to be considerably inferior in quality to that from the Croton and the Bronx river.

The purchase by the City of the company's property and plant, outside of the boundaries of the City, which, as stated above, are principally used for supplying towns and villages in Westchester County, appears to be out of the question, and the acquisition of any of the company's sources of supply is undesirable, because of the inferior quality of the water.

As already stated, a new 48-inch main will, by the close of September next, be connected with the Croton Aqueduct, and another 48-inch main by the close of this year. Through the first of these mains the Department will be able not only to furnish the needed increase of supply and pressure through the City's distributing mains west of The Bronx, but to deliver into mains east of the Bronx, when laid or acquired, from eight to ten million gallons of water per day, which is more than the New York and Westchester Water Company ever has furnished or is likely to furnish. With the additional supply obtainable from the aqueduct through the second 48-inch main, by the close of this year, an ample supply will be had in all parts of the borough, except the very high locations, which, for full relief, will have to await the completion of the high service pumping station next year.

Under these circumstances it would be advantageous to the City to acquire only so much of the company's property as is comprised in the system of its distributing mains, with stopcocks, fire hydrants and drinking hydrants, as lies within the boundaries of the City and the Borough of The Bronx. The advantages to the City for condemning these mains and appurtenances, in place of laying its own mains, are:

1st. The streets in which the company's mains exist have not yet been improved or graded on legally established and permanent lines, and it would be less expensive to acquire these mains, even with allowance of possible collateral damage to the company's other property and franchises than to proceed now to parallel and displace the company's system by City mains and incur the expense of relaying as street improvements on legal lines and grades progress.

2d. If your Board determines upon the acquisition of the mains and the institution of legal proceedings, Commissioners of Appraisal may be appointed and may qualify, giving opportunity to the City to take possession of the mains in time to use them for distributing the available supply from the Croton Aqueduct this year, as soon as the 48-inch mains, already alluded to, are completed and connected, thus assuring better supply by the City's own service far in advance of the time which would be consumed in duplicating or displacing the company's system by new City mains.

By the terms of the act, the City may acquire title immediately upon the appointment and qualification of Commissioners of Appraisal in condemnation proceedings.

If your Board should approve of the proposed acquisition and should at once authorize the commencement of appropriate proceedings, the people of the city east of the Bronx river would soon reap the benefit of your action, and the contract between the City and the company, under which the company draws water from the City, be at once terminated. The inhabitants of the district would be relieved from the company's excessive charge for scant supply and would obtain a full and adequate supply of better water, direct from the City's mains.

I inclose herewith a list of the water mains, stopcocks, drinking hydrants and fire hydrants proposed to be acquired, and submit also a draft of a resolution for the consideration of your Board. In view of the supreme importance of prompt relief to the people concerned, I bespeak your early action upon this subject.

Very respectfully,

(Signed) J. HAMPDEN DOUGHERTY,  
Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That the Commissioner of Water Supply, Gas and Electricity be authorized to enter into negotiations with the New York and Westchester Water Company for the purchase of such part of their plant as The City of New York may desire, the result of such negotiations to be reported to this Board for its action.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, The Bronx and Queens and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented a communication from the Department of Docks and Ferries, recommending that the salary of Francis J. Ryan, Clerk, be increased to \$2,100 per annum.

On motion, the communication was referred to the Corporation Counsel for opinion as to whether this Board and the Board of Aldermen can increase the salary of any employee in the graded schedule until the promotion has been approved under the rules of the Civil Service Commission.

The Secretary presented a resolution from the Board of Education, recommending the increase in salary of Arthur D. Dunn, Electrical Inspector in the Building Bureau, from \$21 to \$27 per week.

Referred back to the Board of Education for a statement of the reasons for such increase.

The Secretary presented a communication from Hon. E. B. Hinsdale, Presiding Justice, Court of Special Sessions, First Division, recommending that the salary of William L. Trafford, Clerk in the office of the Clerk of the Court of Special Sessions, be increased to \$1,500 per annum.

Communication referred back for a statement of the reasons for such increase.

The Secretary presented the following communication from the Commissioner of Water Supply, Gas and Electricity in regard to the salary of John T. Ballau, Keeper of the Ridgewood Reservoir.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, 13-21 PARK ROW,  
CITY OF NEW YORK, August 5, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I am in receipt of the favor of Mr. Stevenson, Deputy Comptroller, dated July 31, inclosing communication from my predecessor, Mr. Dougherty, to the Board of Estimate and Apportionment, recommending an increase in the salary of the Keeper of the Ridgewood Reservoir to one thousand dollars per annum.

I am advised that it will not be necessary for Mr. Ballau to pass a Civil Service promotion examination, for the reason that the position of keeper of aqueducts or reservoirs is classified in Schedule "E" (positions of a miscellaneous kind), and that all that is necessary are concurrent resolutions of the Board of Estimate and Apportionment and of the Board of Aldermen.

I return herewith Mr. Dougherty's letter of July 15.

Yours respectfully,

R. G. MONROE,

Commissioner of Water Supply, Gas and Electricity.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, 13-21 PARK ROW,  
CITY OF NEW YORK, July 15, 1902.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

DEAR SIR—Allow me to call to the attention of your Board the fact that John T. Ballau, Keeper of the Ridgewood Reservoir, is receiving as a salary only \$750 per year, whereas the Keepers of the Croton Dam, Ossining, Tarrytown, Dobbs Ferry, Yonkers and Van Cortlandt Reservoirs receive \$1,000 per year, and the Keepers of the High Bridge and the Central Park Reservoirs receive \$1,400 each.

I request that your Board will raise the salary of Mr. Ballau to \$1,000, as his work is equally important with that of the keepers of reservoirs this side of the river.

Yours very respectfully,

J. HAMPDEN DOUGHERTY,

Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the amended Greater New York Charter, that the salary of John T. Ballau, Keeper of the Ridgewood Reservoir, in the Department of Water Supply, Gas and Electricity, be fixed at one thousand dollars per annum (\$1,000).

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following communication from the Commissioner of Public Charities, requesting that the salary of the Assistant Chemist in the Department of Public Charities be fixed at \$1,500.

DEPARTMENT OF PUBLIC CHARITIES,  
BOROUGH OF MANHATTAN AND THE BRONX,  
COMMISSIONER'S OFFICE, FOOT OF EAST TWENTY-SIXTH STREET,  
NEW YORK, August 30, 1902.

To the Honorable the Board of Estimate and Apportionment:

SIRS—I beg respectfully to recommend that the Board of Estimate and Apportionment recommend to the Board of Aldermen that the salary of the Assistant Chemist in this Department be fixed at \$1,500. The Assistant Chemist is in general charge of the testing and analysis of samples of food and other supplies furnished to this Department, including milk. He also is in full charge of the General Drug Department in the absence of the Chemist. The present salary of this position is \$900 and is insufficient to retain the services of a person competent to perform the duties of the position.

I have the honor to remain,

Yours very truly,

HOMER FOLKS, Commissioner.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the amended Greater New York Charter, that the salary of the Assistant Chemist in the Department of Public Charities be fixed at fifteen hundred dollars (\$1,500) per annum.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented a communication from the Police Department, containing a preamble and resolution requesting the issue of Corporate Stock to the amount of \$100,000 for the erection and equipment of a station-house, prison and stable at No. 135 West Thirtieth street, Borough of Manhattan, together with a recommendation of the Principal Assistant Engineer of the Finance Department relative thereto.

On motion, the matter was laid over for further information from the Police Commissioner.

The Secretary presented the following report from the Principal Assistant Engineer of the Department of Finance, relative to a request of the Board of Education for an appropriation of \$205,971 for improvements to schools in the boroughs of Manhattan and The Bronx and the erection of Public School 130, Borough of Brooklyn.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 26, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Executive Committee of the Board of Education, held August 20, 1902, the attached resolution was adopted appropriating, subject to the approval of the Board of Estimate and Apportionment, the sum of \$205,971 from the proceeds of Corporate Stock to be issued by the Comptroller for the purpose of entering into contracts for the several purposes mentioned in the resolution. The contracts were duly advertised and awarded to the lowest bidder in each case.

The work on the two high schools named for sanitary work is most extensive in character, hot and cold water being furnished throughout the building, many laboratories being equipped, besides shower baths on the gymnasium floor and aquarium tanks.

The new school in Brooklyn is to be a two-story, basement and cellar brick building, about 60 feet 8 inches by 142 feet 4 inches, so constructed as to permit of two additional stories being added when necessary.

I am of the opinion that the appropriation as made may be properly approved by the Board of Estimate and Apportionment.

Respectfully,

CHANDLER WITHINGTON, Principal Assistant Engineer.

PUBLIC SCHOOL 130, BROOKLYN.

This new building is to be erected on a plot situated on the corner of Fort Hamilton avenue, Ocean parkway and East Fifth street, Borough of Brooklyn.

The structure will be 142 feet 4 inches long by 68 feet in width, two stories and basement high, with a cellar under the entire building, in which will be installed the heating and ventilating apparatus.

The fronts of the building will be faced with gray and red front brick, buff Indiana limestone and gray terra cotta trimmings.

The building will be of wall bearing construction and fireproof throughout. The floor supports to be cast iron columns and steel beams, with fireproof arches. The roof will be of slag or gravel roofing material.

The walls and steelwork of the building are so designed that two more stories may be added to the height when conditions are such as to require additional accommodations.

The sidewalks and yards about the building will be concreted and the playground in basement, the outside water closets and the halls (except those of the assembly room; also the half stories) will be surfaced with rock asphalt. Portions at the front and rear of the lot will be seeded and shrubbery will be placed about the plot.

The main entrance hall and all stairs are to have tile wainscot on wall surfaces following the rake of stairs, with mosaic floor at the foot of the front entrance stairs.

The playgrounds in basement and the water closets in yards are to be wainscoted with vitrified glazed brick.

The basement is designed for use as inside playrooms, physical and manual training.

There are to be sixteen classrooms, eight each on the first and second floors. Ample wardrobes, Teachers' retiring rooms and other necessary closets have been provided for.

The system of heating will be hot air, with steam as an auxiliary.

The contract for the building (general construction) is \$111,805.

August 29, 1902.

The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented a communication from the Department of Docks and Ferries, recommending that the salaries of Frederick T. Eland and Thomas B. Blyth, Stenographers and Typewriters, be fixed at the rate of \$1,050 per annum.

On motion, the request was laid over.

The Secretary presented a communication from the President of the Borough of Manhattan, requesting the Board to increase the salary of John A. Broderick, Messenger, from \$1,200 to \$1,500 per annum.

On motion, the request was laid over for an opinion of the Corporation Counsel as to whether or not this increase is a promotion under the Civil Service rules.

The Secretary presented the following consent of the Department of Correction to the transfer of \$9,366.05 to the Department of Water Supply, Gas and Electricity, "Lamps and Lighting," Boroughs of Manhattan and The Bronx, and \$2,271.63 to the same Department, "Lamps and Lighting," Borough of Brooklyn.

DEPARTMENT OF CORRECTION,  
COMMISSIONER'S OFFICE, 148 EAST TWENTIETH STREET,  
NEW YORK, August 27, 1902.

Hon. SETH LOW, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—I would respectfully request your Honorable Board to transfer from the appropriation made to the Department of Correction, entitled "Supplies and Contingencies, Borough of Manhattan, 1902," to the Department of Water Supply, Gas and Electricity, the sum of nine thousand three hundred and sixty-six dollars and five cents (\$9,366.05).

Also, that from the appropriation made to the Department of Correction, entitled "Supplies and Contingencies, Borough of Brooklyn, 1902," be transferred to said Department of Water Supply, Gas and Electricity the sum of two thousand two hundred and seventy-one dollars and sixty-three cents (\$2,271.63).

The transfers above asked for are made necessary by the provisions of the amended Charter, which place the water supply, the lighting, etc., of the institutions of this Department under the charge of the Department of Water Supply, Gas and Electricity.

Very respectfully yours,

THOMAS W. HYNES, Commissioner.

## The following resolution was offered:

Resolved, That the sum of nine thousand three hundred and sixty-six dollars and five cents (\$9,366.05) be and is hereby transferred from the appropriation made to the Department of Correction, for the year 1902, entitled "Supplies and Contingencies, Borough of Manhattan," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Water Supply, Gas and Electricity, for the year 1902, entitled "Lamps and Lighting, Boroughs of Manhattan and The Bronx," the amount of said appropriation being insufficient.

## Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

## The following resolution was offered:

Resolved, That the sum of two thousand two hundred and seventy-one dollars and sixty-three cents (\$2,271.63) be and hereby is transferred from the appropriation made to the Department of Correction, for the year 1902, entitled "Supplies and Contingencies, Borough of Brooklyn," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Department of Water Supply, Gas and Electricity, for the year 1902, entitled "Lamps and Lighting, Borough of Brooklyn," the amount of said appropriation being insufficient.

## Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following communication from John W. Devoy, Treasurer of the Brooklyn Public Library:

TREASURER'S OFFICE, BROOKLYN PUBLIC LIBRARY,  
NO. 26 BREVOORT PLACE.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—In submitting to your Department bill and voucher for rental of the branch library known as the Bushwick Branch, situated corner Montrose avenue and Humboldt street, Brooklyn, I desire to call your attention to the fact that the owners of the property, Louisa Maurer and Rosa Huberty, did not present the rental bill for the last quarter of 1901 until two weeks ago. This rental bill amounts to \$150. The Brooklyn Public Library has to its credit for 1901 appropriation the sum of \$112.54. There is therefore a difference between the amount appropriated by the Honorable Board of Estimate for 1901 and the expenditures, including above rental bill, due by the City, amounting to \$37.46.

In order to pay this bill, which has been properly approved by the officers of the Public Library, it will probably be necessary to obtain permission from the Board of Estimate to transfer such sum of \$37.46 from such unexpended balance appropriated by such Board either to the Public Library or other Department, and apply such sum to the 1901 appropriation.

I would respectfully ask that you will take whatever action you deem best in order that this rental bill be paid and advise me accordingly.

Very respectfully,

JOHN W. DEVOY, Treasurer.

## The following resolution was offered:

Resolved, That the sum of thirty-seven dollars and forty-six cents (\$37.46) be and is hereby transferred from the appropriation made to the Department of Finance, for the year 1901, entitled "Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to Public Library, Brooklyn, for the year 1901, the amount of said appropriation being insufficient.

## Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following communication from the Municipal Civil Service Commission relative to the increase in salary of Thomas E. Vermilye, Transmitter, Finance Department, to \$1,650 per annum.

Laid over.

## The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen that the salary of an additional stenographer and typewriter to be appointed in the Department of Finance be fixed at seven hundred and fifty dollars (\$750) per annum.

## Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—16.

The Secretary presented the following communication from the Corporation Counsel, relative to protest of Horgan & Slattery, in the matter of the County Courthouse, also protest, which were ordered on file:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, September 4, 1902.

To the Board of Estimate and Apportionment:

GENTLEMEN—I have received a letter from J. W. Stevenson, Esq., Deputy Comptroller, dated August 5, 1902, inclosing a communication from Horgan & Slattery, regarding the County Courthouse plans, and stating that the communication had been presented to your Board and referred to me for consideration and action. The document is a protest against certain acts of the Board of Estimate and Apportionment, and requires no attention at the present time.

Respectfully yours,

THEODORE CONNOLLY, Acting Corporation Counsel.

HORGAN & SLATTERY, ARCHITECTS,  
1 MADISON AVENUE, NEW YORK,  
July 31, 1902.

The Board of Estimate and Apportionment, New York City:

GENTLEMEN—The undersigned protests against your attempted rescission and rejection of their contract with the City in relation to the repair, alteration, extension and rearrangement of the County Courthouse. It is illegal and without cause. We shall hold both the City and the members of your Board personally liable for any damages resulting from such unauthorized breach of the contract with us.

Yours very truly,

HORGAN & SLATTERY.

Which was ordered on file.

The Secretary presented a communication from the Police Department, requesting the Board to designate an architect to prepare plans and specifications for the erection of a station house, prison and stable for patrol wagons for Seventy-fifth Precinct, Borough of Queens.

Laid over.

The Mayor brought up the matter of the offer of the Misses Caroline Phelps Stokes and Olivia E. Phelps Stokes, to sell to the City for Municipal purposes, at \$100,000 less than the average appraised valuation, the property Nos. 35 and 37 Madison avenue, and Nos. 38 and 40 East Twenty-sixth street, Borough of Manhattan, and submitted appraisals, as follows:

(1) George R. Reed.....	\$500,000 00
(2) E. H. Ludlow & Co.....	410,000 00
(3) Douglas Robinson, Charles H. Brown & Co.....	400,000 00

The Mayor moved that the matter be referred to the Mayor, Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan.

The Secretary offered the following:

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING, CROTONA PARK,  
August 16, 1902.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—In view of the fact that the contract for the construction and improvement of Boscobel place has been let and is now ready for execution I beg to call your attention to the provisions of chapter 640 of the Laws of 1897, which provides that the cost and expense of the construction and improvement of said public place shall be paid by the issue of Revenue Bonds.

I hereby respectfully request that Revenue Bonds of The City of New York be authorized and issued in the sum of twenty-five thousand dollars (\$25,000) for the purpose of providing for the cost and expense of the construction and improvement of Boscobel place, pursuant to section 2, chapter 640, Laws of 1897.

Yours truly,

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
August 27, 1902.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Louis F. Haffen, President of the Borough of The Bronx, in a communication under date of August 16, 1902, requests that Revenue Bonds of The City of New York be authorized and issued in the sum of \$25,000 for the purpose of providing for the cost of the construction and improvement of Boscobel place, pursuant to section 2, chapter 640, of the Laws of 1897.

For the completion of the construction of Riverside Park and Drive, between Viaduct, in the Borough of Manhattan.

Would report that the improvement of Boscobel place was the subject of a report by Mr. McLean, Engineer, Department of Finance, on November 21, 1901. At that time \$57,000 was requested "for the construction and improvement of Boscobel place, in the Borough of The Bronx, together with adjoining and connecting areas, under authority of chapter 640, Laws of 1897."

In said report Mr. McLean stated that in his judgment no other improvement can be done, pursuant to chapter 640 of the Laws of 1897, except that which lies within the limits prescribed in section 1 of said act.

The present plans and specifications have been modified to comply strictly with the limits prescribed in section 1 of said act, and on estimates of quantities furnished by the Department, the following bids were received and opened by the President of the Borough of The Bronx on July 21, 1902:

F. V. Smith Contracting Company.....	\$19,242 50
D. W. Moran.....	23,281 50
J. H. Devlin.....	19,165 00
W. G. Leason.....	20,195 00

The bid of J. H. Devlin for \$19,165 being the lowest, or \$5,835 less than the amount (\$25,000) asked for, some of this balance will be necessary for engineering, inspection, etc., and a certain amount may be required to provide for any increase in the estimated quantities.

While the amount, \$25,000, requested, is a little in excess of the actual amount that will be required to complete the improvement, I do not consider it of a sufficient amount to warrant a deduction of the requisition.

Hence I think Revenue Bonds to the amount of \$25,000 can properly be issued, as prescribed by chapter 640 of the Laws of 1897, for the purpose of the construction and the improvement of Boscobel place, in the Borough of The Bronx.

Respectfully,

CHANDLER WITHINGTON, Principal Assistant Engineer.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 640 of the Laws of 1897, and sections 169, 170 and 187 of the Greater New York Charter, the Comptroller be and hereby is authorized to issue Revenue Bonds of The City of New York to the amount of twenty-five thousand dollars (\$25,000), redeemable from the tax levy of the year succeeding the year of their issue to provide means for the construction and improvement of Boscobel place, in the Borough of The Bronx.

Which was adopted by the following vote:

The Mayor, Comptroller, the Presidents of the Boroughs of Manhattan, The Bronx and Queens, and the Acting Presidents of the Boroughs of Brooklyn and Richmond—13.

On motion, the Board adjourned to meet Friday, September 12, 1902, at 11 a. m.

(The meeting of this Board was continued for the consideration of public improvement matters, the record of which will appear in separate minutes of this date.)

J. W. STEVENSON, Secretary.

MILLARD H. ELLISON, Acting Secretary.

September 9, 1902.

Messrs. HULL, GRIPPEN &amp; CO., No. 308 Third avenue, City:

Gentlemen—Your proposition of September 6 to do the following work at the Almshouse, Borough of Richmond, S. I., is accepted:

"Woman's Pavilion. We will furnish and set in dining room a 32-inch Fire King double heater, this heater to set on large sheet zinc and to have an American-Russia iron casing, and to have two 8-inch tin connection hot air pipes out of top and to connect to two 9-inch by 12-inch registers, borders and boxes, also casings, one in floor of each room of the rooms above where heater sets. Will also furnish new galvanized iron smoke pipe with proper regulating damper.

"The furnace in dining room needs a new 8-inch connection pipe to run through first and second floors and connect to 8-inch by 12-inch register, border, box and casing to heat room on top floor. This room is the next room to where the smoke pipe passes through chimney. The smoke pipe of this furnace passes through a hot air pipe that is inserted in chimney to the third floor and is all gone, and has to have a new 7-inch heavy galvanized pipe with proper shut-off and damper. We will also clean and cement all pipes to this furnace; also clean, repair and oil all registers and furnish new where needed.

"The furnace in bake shop is to have connected to it three extra pipes, one a 10-inch pipe to run through foundation wall and then branch into two 8-inch tin pipes to connect to two new 8-inch by 12-inch register borders, boxes and casings to heat the room where partition is to be removed on first floor; the other two pipes are to heat two new 8-inch by 12-inch register borders, boxes and casings, and to connect to a new 8-inch tin hot air pipe running through first and second floors, and connect to furnace to heat the top floor sleeping room. Clean all pipes attached to furnace and cement furnace thoroughly. The two 8-inch pipes where passing through floor beams will be double pipe, as required by law. Clean, repair and oil all registers and furnish new where needed.

"The large brick furnace in cellar needs to have a complete new grate, repair the ash pit and mouth-piece of feeder section, and new 8-inch tin connection pipes in place of the present broken ones. There are two large pipes and registers connected to this furnace that draw away most of the heat. We intend to reduce these by placing reducing rings in register boxes and also reduce them in furnace. The black iron smoke pipe to kitchen stock kettle and boiler also needs to have new 5½-inch smoke pipe, elbows and dampers. Clean and cement furnace, and all pipes attached to same, and leave furnace in good condition.

"The furnace in Male Ward needs a new fire pot, as the old one is all broken, and part new 7-inch galvanized iron smoke pipe. The hot air pipes where broken to be replaced by new 8-inch tin hot air pipes, one new 9-inch by 14-inch register. Furnace thoroughly cleaned and repaired; also furnish and put in new registers where needed.

"We will do this work in a first-class manner for the sum of three hundred and ten dollars (\$310)."

You are hereby directed to proceed with the work.

By direction of the Commissioner.

Yours very truly,

J. McKEE BORDEN, Secretary.

September 11, 1902.

P. H. KENNEDY, Esq., No. 28 Lexington avenue, City:

Dear Sir—Your proposition of July 23 to do the following work at the office of the Outdoor Poor, Twenty-sixth street, is accepted:

"I propose to furnish all the labor and material necessary to complete the alterations for the Outdoor Poor office, according to the specification and under the direction of the Supervising Engineer, and to the satisfaction of the Commissioner of Public Charities, for the sum of eight hundred and ninety-nine dollars (\$899)."

You are hereby directed to proceed with the work.

By direction of the Commissioner.

Yours truly,

MILLARD H. ELLISON, Acting Secretary.

## DEPARTMENT OF FINANCE.

## NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

## EIGHTH WARD.

SEVENTH AVENUE SEWER, between Fifty-first street and Fifty-second street. Area of assessment: Both sides of Seventh avenue, from Forty-third street to Fifty-second street; east side of Sixth avenue, from Fifty-first street to Fifty-second street; north side of Fifty-second street, from Sixth avenue to Seventh avenue; both sides of Forty-third street, extending 350 feet west of Seventh avenue, and both sides of Forty-fourth street, Forty-fifth street, Forty-sixth street, Forty-seventh street, Forty-eighth street, Forty-ninth street, Fiftieth street and Fifty-first street, from Sixth avenue to Seventh avenue.

## TWENTY-SIXTH WARD.

WATKINS STREET GRADING, CURBING AND PAVING WITH ASPHALT PAVEMENT, between East New York avenue and New Lots road.

Area of assessment includes both sides of Watkins street, from East New York avenue to New Lots road, and to the extent of half the block at the intersecting and terminating streets.

That the same were confirmed by the Board of Assessors on August 7, 1902, and entered on August 8, 1902, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter. Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before October 7, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

## NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE "Greater New York Charter," the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following-named streets in the BOROUGH OF THE BRONX:

## TWENTY-FOURTH WARD, SECTION 11.

EAST ONE HUNDRED AND EIGHTY-SEVENTH STREET—OPENING, from Grand Boulevard and Concourse to Marion avenue; also STEVENS PLACE—OPENING, from East One Hundred and Eighty-seventh street to East One Hundred and Eighty-ninth street. Confirmed August 4, 1902; entered September 17, 1902. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of the Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line drawn parallel to the southerly side of East One Hundred and Eighty-fourth street and distant 100 feet southerly therefrom with the easterly side of Jerome avenue; running thence northerly along said easterly side of Jerome avenue to its intersection with a line drawn parallel to the southerly side of Fordham road and distant 100 feet southerly therefrom; thence easterly along said parallel line to its intersection with a line drawn parallel to the southerly side of Fordham road; thence easterly along the southerly side of Fordham road to its intersection with a line drawn parallel to the northerly side of East One Hundred and Eighty-ninth street and distant 100 feet northerly therefrom; thence easterly along said parallel line and its prolongation easterly to the westerly side of Park avenue (formerly Vanderbilt avenue, West); thence southerly along said westerly side of Park avenue (formerly Van-

derbilt avenue, West) to its intersection with a line drawn parallel to that part of East One Hundred and Eighty-seventh street lying easterly from Webster avenue, from the middle point of a line parallel to Marion avenue and distant 100 feet easterly therefrom, said point being equally distant from East One Hundred and Eighty-seventh street and from the intersection of said line parallel to Marion avenue prolonged southwardly with the easterly prolongation of a line drawn parallel to the southerly side of East One Hundred and Eighty-fourth street and distant 100 feet southerly therefrom; thence westerly along said line parallel to East One Hundred and Eighty-seventh street to its intersection with the aforesaid line drawn parallel to Marion avenue and distant 100 feet easterly therefrom; thence southerly along said parallel line and its prolongation southwardly to its intersection with the easterly prolongation of a line drawn parallel to the southerly side of East One Hundred and Eighty-fourth street and distant 100 feet southerly therefrom; thence westerly along said easterly prolongation and parallel line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon, on or before November 17, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

## NOTICE TO TAXPAYERS.

DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF TAXES, NEW YORK, September 1, 1902.

TAXPAYERS WHO DESIRE TO OBTAIN bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map Number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax. Each requisition should be accompanied by an envelope bearing the proper address of the applicant and with return postage prepaid.

In case of any doubt in regard to Ward, Section, Block or Lot Number, taxpayers should take their deeds to the Department of Taxes and Assessment and have their property located on the maps of that Department, and forward to the Deputy Receiver of Taxes, with the requisition, a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessment.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines as is required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

John J. McDonough, No. 57 Chambers street, Borough of Manhattan, New York.

John B. Unerhill, corner Third and Tremont avenues, Borough of The Bronx, New York.

Jacob S. Van Wyck, Municipal Building, Borough of Brooklyn, New York.

DEPARTMENT OF STREET CLEANING, MAIN OFFICE NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN.

### TO CONTRACTORS.

**CONTRACT FOR THE FINAL DISPOSITION OF ASHES, STREET SWEEPINGS AND RUBBISH AND LIGHT REFUSE IN THE BOROUGH OF BROOKLYN.**

**SEALED BIDS OR ESTIMATES FOR THE** above work, indorsed with the title, also the name of the person or persons making the estimate and the date of presentation, will be received at the Main Office of the Department of Street Cleaning, Nos. 13-21 Park Row, Borough of Manhattan, until 1 o'clock p. m. of

MONDAY, OCTOBER 13, 1902,

at which time and place the bids will be publicly opened by the head of the Department and read. The amount of the security will be sixty thousand (\$60,000) dollars.

The period of the contract will be for five years from the date of the execution of the contract and the completion of the work.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller, for five per centum of the amount for which the work bid for is proposed in any one year to be performed.

The check should be enclosed in the envelope. From the bids so received the Commissioner may select the bid or estimate, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of the said bids, as provided by section 544 of the Greater New York Charter as amended.

The plant must be complete, and the work must begin within nine (9) months from the execution of the contract, and bidders must specify in their bids the time within which they will be ready to begin the work.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commission, a copy of which, with the proper

envelope in which to enclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel and containing the terms approved by the Board of Estimate and Apportionment, can be obtained upon application therefor at the office of the said Commissioner.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICES TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any service, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings of construction work may also be seen there.
