Approving and ratifying the action of the Committee on Care of Buildings in increasing the compensation of John Lawlor, Janitor of Public School 97, Borough of Brooklyn, for the temporary care of Public School 81, Borough of Brooklyn, to $50 per month, taking effect July 1, 1909, the compensation of the building less the rent allowance as heretofore fixed (see Journal, page 1208) being insufficient for the proper cleaning of the same.

Approving and ratifying the action of the Committee on Care of Buildings in assigning Charles Boyle, Janitor of Public School 6, Borough of Queens, to the care of the Astoria Athletic Field, taking effect September 1, 1909, with compensation at the rate of $100 per month.

Approving and ratifying the action of the Committee on Care of Buildings in reducing the compensation for the temporary care of Public School 55, Borough of Manhattan, from $80 to $45 per month, taking effect October 1, 1909, the pupils of this school having been transferred to other schools.

Approving and ratifying the action of the Committee on Care of Buildings in increasing the compensation attached to the position of Janitor of Public School 127, Borough of Manhattan, from $1,404 to $1,632 per annum, to take effect November 1, 1909, in order to allow the Janitor to secure living apartments outside the school building.

Approving and ratifying the action of the Committee on Care of Buildings in reinstating Zuccaro Nazzareno as a Cleaner and in assigning him to duty in Public School 188, Borough of Manhattan, taking effect September 30, 1909, with compensation at the rate of $480 per annum, his reinstatement having been approved by the Municipal Civil Service Commission on September 24, 1909.

Approving and ratifying the action of the Committee on Care of Buildings in assigning the following named Janitors to the temporary care of public school buildings as indicated below:

Thomas Owens, assigned to Public School 36, Manhattan; compensation of the building less rent allowance, taking effect October 1, 1909.

James Sullivan, Public School 135, Brooklyn; $50 per month, taking effect October 1, 1909.

John Maher, assigned to Public School 23, Manhattan; $140 per month, taking effect October 1, 1909.

George Morgan, assigned to Public School 7, Manhattan; compensation of the building less rent allowance, taking effect October 5, 1909.

James Gallagher, assigned to Public School 91, Brooklyn; $130 per month, October 1, 1909.

Eugene P. Albie, assigned to Crotona Athletic Field; $115 per month, taking effect September 20, 1909.

Approving and ratifying the action of the Committee on Care of Buildings in accepting the resignations of the following named persons as indicated below:

Charles D. Gulliford, Janitor-Engineer, Public School 183, Manhattan, taking effect September 18, 1909.

Theodore Balbe, Cleaner, Morris High School, taking effect September 23, 1909.

The following preamble and resolutions were adopted:

Whereas, On July 14, 1909 (see Journal, page 1168), the Board of Education adopted a resolution requesting the Commissioners of the Sinking Fund, subject to financial ability, to approve of and consent to the execution of a renewal of the lease to the City of the front and rear rooms on the second floor of the Maxwell House, No. 245 Concord street, Borough of Brooklyn, with the lessors, Brooklyn Guild Association, Mr. Hamilton Holt, President; and

Whereas, It now appears that the said Association has been succeeded by the United Neighborhood Guild, Inc.; therefore be it

Resolved, That the above mentioned resolution be, and it is hereby, amended by striking out the words "Lessors, Brooklyn Guild Association, Mr. Hamilton Holt, President," and inserting in lieu thereof the words "Lessors, United Neighborhood Guild, Inc.;" and be it further

Resolved, That the Commissioners of the Sinking Fund be, and they are hereby respectfully requested to amend the resolution adopted on July 26, 1909, relative to the renewal of the above mentioned lease, by striking out the words "Brooklyn Guild Association, Hamilton Holt, President," and inserting in lieu thereof the words "United Neighborhood Guild, Inc."

Whereas, On September 22, 1909 (see Journal, page 1674), the Board of Education adopted a resolution directing that the services of three Inspectors be dispensed with on September 25, 1909, among whom was Jenkin Jones; and

Whereas, Mr. Jones has submitted a claim that for the years 1908 and 1909 he was entitled to a vacation of four weeks, which he did not receive, and which he now requests be granted him; and

Whereas, On investigation your Committee finds that this request is an equitable one; therefore be it

Resolved, That the date of cessation of service in the case of Jenkin Jones, Inspector, be changed from September 25, 1909, to October 25, 1909, the intervening period between said dates to be regarded as a vacation with pay.

Whereas, Miss Elizabeth L. Reilly was appointed as a Clerk in the Bureau of Audit and Accounts, in connection with the preparation of the annual financial and statistical report of the transactions of the Board of Education for the year 1908 on April 5, 1909 (see Journal, page 547), to serve for a temporary period not to exceed three months; and

Whereas, The above mentioned temporary appointment was extended for three months from July 5, 1909 (see Journal, page 1058), the extension being approved by the Municipal Civil Service Commission (see Journal, page 1308); and

Whereas, In connection with the annual report and attendant matters, Miss Reilly has proven herself of great value in certain directions, and it is very necessary for some time to have the services of some person familiar with the real estate records, in order that they may be recorded and arranged in the permanent books of the Bureau of Audit and Accounts; and

Whereas, The Municipal Civil Service Commission at a meeting held on October 6, 1909, authorized the continuance of the temporary appointment of Miss Elizabeth L. Reilly; therefore be it

Resolved, That the action of the Committee on Supplies in extending the appointment of Miss Elizabeth L. Reilly, as a Clerk in the Bureau of Audit and Accounts for an additional temporary period from October 5, 1909, to January 4, 1910, be, and the same is hereby, approved and ratified.

The Committee on Finance respectfully reports financial ability to pay the salary of the above mentioned person from the proceeds of the issue of Special Revenue Bonds of The City of New York, to the amount of $3,000, authorized by the Board of Estimate and Apportionment on April 2, 1909.

Whereas, The death of Adolph Maisch, Janitor of Public School 4, Borough of The Bronx, occurred on September 20, 1909; and

Whereas, Mr. Maisch had been in the employ of the Department of Education since November 27, 1896, and rendered satisfactory services in the school buildings to which he was assigned; therefore be it

Resolved, That the Board of Education hereby places on record an expression of its appreciation of Mr. Maisch's long and valuable services and of regret at his decease.

Approving and ratifying the action of the Committee on Care of Buildings in granting consent to the transfer of Frank C. Donigan, Janitor-Engineer of Public School 7, Borough of Manhattan, to the Department of Docks and Ferries, and of the President of the Board of Education in signing said transfer.

Approving and ratifying the action of the Committee on Care of Buildings in granting a leave of absence, without pay, to George W. Van Demark, Janitor of Public School 33, Borough of The Bronx, on account of serious personal illness, for six months from November 1, 1909, subject to the approval of the Municipal Civil Service Commission.

Approving and ratifying the action of the Committee on Care of Buildings in increasing the temporary compensation attached to the position of Janitor of Public School 100, Borough of Manhattan, from $100 to $265 per month, taking effect August 1, 1909, the increase being necessary on account of cleaning for the opening of the school, and in fixing the regular compensation attached to the position of Janitor at the rate of $5,916 per annum, taking effect September 13, 1909, on which date the building was fully occupied by pupils.

Approving and ratifying the action of the Committee on Care of Buildings in discontinuing the compensation allowed to James Gartland, Janitor of Public School 8 (new), Borough of Brooklyn, for the care of Public School 8 (old), Borough of Brooklyn, namely, $30 per month, from and after June 11, 1909, on which date the last mentioned building was accepted by the Commissioners of the Sinking Fund.

Approving and ratifying the action of the Committee on Care of Buildings in discontinuing the compensation attached to the position of Janitor of Public School 16, Borough of The Bronx, namely, $1,599 per annum, and also the temporary compensation for the care of the new addition to said school, namely, $30 per month, from and after September 13, 1909, and in fixing the temporary compensation for the care of Public School 16, The Bronx, at the rate of $200 per month, from and after September 13, 1909, until such time as additional rooms are occupied for school purposes.

Approving and ratifying the action of the Committee on Care of Buildings in appointing the following named persons as indicated below, their names having been selected from eligible lists submitted by the Municipal Civil Service Commission:

John J. Smith, Janitor-engineer, Public School 135, Brooklyn; annual compensation, $720; taking effect, October 11, 1909.

John F. Keegan, Janitor-engineer, Public School 36, Manhattan; annual compensation, $1,740; taking effect, October 16, 1909.

John McCall, Janitor-engineer, Public School 23, Manhattan; annual compensation, $2,388; taking effect, October 16, 1909.

Robert Lowrie, Cleaner, Morris High School, annual compensation, $480; taking effect, October 11, 1909.

Approving and ratifying the action of the Committee on Care of Buildings in extending the temporary assignment of Charles Doering, Janitor of Public School 68 (old), Borough of Queens, to the care of Public School 68 (new), Borough of Queens, to October 1, 1909, with compensation at the rate of $140 per month.

Approving and ratifying the action of the Committee on Care of Buildings in fixing the compensation attached to the position of Janitor of Public School 41, Borough of Brooklyn, at the rate of $1,320 per annum, taking effect September 20, 1909, and in discontinuing the compensation for the care of Public School 41, annex, Brooklyn, namely, $804 per annum, and in allowing $10 per month for the care of said annex, from and after September 20, 1909.

Recognizing the loyal devotion of all those who particpated in making the commemorative exercises in connection with the Hudson-Fulton celebration so successful.

Extending thanks to the Committee on Care of Buildings, to the Committee on Lectures and Libraries, to the lectures and presiding officers of the meetings, to the District Superintendents, to the Principals, the Directors of Music, the Director of Physical Training, the Special Teachers and Supervisors of Music and of Physical Training, the regular Teachers, and to the pupils themselves, for the credit that reflected on the Department of Education of The City of New York in the exercises attendant on the Hudson-Fulton celebration, 1909.

Expressing thanks to the Department of Police for the protection afforded to the meetings held in public school buildings on the evening of September 29 and to the children's parades on Saturday, October 2, and expressing thanks to the Fire Department for placing a Fireman in each of the public school buildings in which a lecture was given on the evening of September 29.

Approving the suspension of Mary G. Ferguson, a Teacher in Public School 116, Borough of Manhattan, by District Superintendent Stitt on June 23, 1909.

Approving and ratifying the action of the Committee on Elementary Schools in finding the said Mary G. Ferguson guilty of the charges of neglect of duty preferred against her by District Superintendent Stitt and ordering the said Mary G. Ferguson to report for duty on Monday, October 18, 1909, and that she receive no pay during the period of her suspension.

Approving the suspension of F. Inez Baldwin, a Teacher in Public School 108, Borough of Brooklyn, by District Superintendent McCabe on May 21, 1909.

Approving the action of the Committee on Elementary Schools in holding in abeyance the final disposition of the charges of neglect of duty preferred against the said F. Inez Baldwin by District Superintendent McCabe, and restoring the said F. Inez Baldwin to duty as of the date September 13, 1909, and that she receive no pay from May 21 to September 12, 1909.

On motion, all absent members were excused for non-attendance at this meeting.

On motion, the Board adjourned at 6.10 o'clock p. m.

A. EMERSON PALMER, Secretary.

August 12, 1909.

Hon. LOUIS F. HAFFEN, President:

Dear Sir—I submit herewith reports of work done in this office and in the various bureaus under your control in the Borough of The Bronx, for the year ending December 31, 1908.

In this office, reports, miscellaneous communications and recommendations have been prepared and forwarded to the number of 7,275 during the year.

Topographical Bureau.

This bureau reports very considerable progress having been made during the year in the preparation of maps showing the design of the street systems in definite form for filing.

8 sections of the final maps of the borough have been changed to conform to the new United States triangulation.

11 maps amending the street system in various sections of the borough have been prepared and forwarded.

The map or plan of City Island street system was completed and forwarded.

4 of the sections of final maps west of the Bronx River have been retraced and corrected to date, and the other maps of this section which have been changed, due to modification in the street system and are much worn, are being retraced and corrected as rapidly as possible.

346 orders for testing, setting, resetting and referencing street monuments have been attended to.

A vast amount of field and office work has been done, details of which will be found in the Bureau report.

The surveys and co-ordinates east of the Bronx River are all based on the United States Coast and Geodetic Survey, the origin being fixed so as to have all co-ordinates in the northwest quadrant.

The street opening section of this Bureau has produced very satisfactory results in the making of surveys and preparation of the necessary maps for these proceedings. There have been prepared and forwarded:

Rule maps in triplicate in 25 proceedings.
Damage maps in 79 proceedings.
Draft damage maps in triplicate in 41 proceedings.
Draft benefit maps in 21 proceedings.
Final copies of damage maps in triplicate and benefit maps in quadruplicate in 21 proceedings.
Profiles showing grades, surface, etc., in 56 streets.
Maps and catalogues of buildings, etc., encroaching on streets, etc., acquired by the city on 7 streets.

Attendance before the various commissioners by the Engineers in charge and assistants to give testimony relative to the various proceedings occurred frequently during the year.

Thirty-two maps and plans which were adopted by the Board of Estimate and Apportionment and ordered filed were filed in this office.

Examination of applications for building permits were examined as to location and reports made thereon in 1,702 cases.

An interesting description of the triangulation and precise measurements in the Borough with photographs will be found in the Bureau report, and maps showing the status of the street opening proceedings.

Highway Bureau.

The Engineer of Highways supervises all construction of new highways and improvements pertaining thereto, consisting of regulating, grading, curbing, flagging, laying crosswalks, building drains and paving; designing and building bridges, tunnels, viaducts and steps or stairways, surface railways and sub-surface conduits, etc., under permits.

On all assessable highway improvements estimates of cost and assessed value of land benefited as required by the Charter are reported by this bureau.

A large amount of work is thus required in addition to the supervision of the construction work.

Regulating and Grading.

The streets regulated and graded during the year amount to 12.7 miles, making a total of 229.86 miles in the Borough at the end of the year.

Paving and Repaving.

There were paved with permanent pavements during the year 9.7 miles of streets, making in the Borough a total of 114.25 miles (not including macadam).

The amount of paving and repaving done in the Borough to December 31, 1908 (excepting macadam), is 140.4 miles. There is also 1.5 miles of paving work under contract.

Macadam.

The macadam pavement laid by contract and paid for by assessment during the year is about 3.20 miles, making a total laid in this manner of 17.73 miles.

The mileage of the various kinds of pavement have changed as follows:

Trap block	—0.157
Granite block	+1.118
Sheet asphalt	+0.912
Block asphalt	+6.592
Wood block	+1.079
Brick	—0.471
Medina stone	.....
Iron slag block	+0.628
Net increase	9.701
Paving contracts under guarantee	151

Statement of Contracts.

In force January 1, 1908	58
Executed during year	69
Completed during year	79
In force December 31, 1908	48

The regulating, grading and paving contracts in force December 31, 1908, represent a length of 15 miles in all stages of progress, which mileage is not included heretofore in statement of work completed during the year.

Summary of Principal Items of Work.

185,911 cubic yards of earth excavation.
161,760 cubic yards of rock excavation.
665,172 cubic yards of filling.
97,197 linear feet of new curbstone.
66,219 linear feet of old curbstone.
296,818 square feet of new flagging.
63,747 square feet of new bridgestone crosswalks.
13,625 cubic yards dry rubble masonry.
53,578 square yards new granite block pavement.
16,014 square yards sheet asphalt pavement.
164,877 square yards block asphalt pavement.
23,889 square yards wood block pavement.
92,917 square yards macadam pavement (by contract assessable).
13,878 square yards iron slag block pavement.
372,259 pounds of iron and steel.
15,877 pounds of reinforcing steel bars.
37,249 cubic yards of concrete.
3,800 cubic yards of cyclopea masonry.
28 receiving basins built and rebuilt.
8,188 linear feet of vitrified pipe drains.
1,834 cubic yards of masonry in mortar.
1,300 linear feet of surface railroad construction supervised.
3,673 linear feet new iron railing.
80 catch basins built.
79 manholes built.
114 scows of broken stone measured.
6,577 linear feet piles.
33,817 square feet cement flagging.
15,164 square yards paved gutters.
7,957 briquettes of cement made.
7,585 briquettes of cement broken.

Field Work.

Construction—
127 works.
1,296 examinations.
172,841 linear feet of bench levels run.
123,584 linear feet of cross sections.
209,598 linear feet of curb stakes.
19,768 linear feet of wall stakes.
367,247 linear feet of grade stakes.

Preliminary—
170 works.
322 examinations.
187,555 linear feet of bench levels.
132,912 linear feet of cross section.
233,110 linear feet of surveys (center line).
22,151 borings for rock and foundation.
48,549 linear feet of borings.

196 Seventy per cent. payments.
143 payments on acceptance, etc.
166 preliminary estimates made and forwarded.
94 plans completed
77 assessment lists completed.

The value of work done and certified during the year on 70 per cent. and final payments, etc., is $1,783,611.26.

The table showing the value of work done by years from 1902 to 1908, inclusive, which also shows the estimated cost and the actual cost compared by years, will be found very instructive and interesting. It shows that $19,318,424.93 of work was completed in the above period, on a total of 574 contracts, and the actual cost averaged on all contracts was 58-100 of 1 per cent. less than the estimated cost.

The work of elimination of grade crossings on the Harlem River Branch of the New York, New Haven and Hartford Railroad is very nearly completed—small details on a few of the bridges only remaining to be completed.

With the exception of the three crossings of the New York and Putnam Branch of the New York Central lines at Kingsbridge Road, West Two Hundred and Thirtieth street and West Two Hundred and Thirty-first street all grade crossings on the trunk railroad lines have been eliminated. It is to be hoped that these crossings will be taken up for treatment during 1909.

The transverse roads at the Grand Boulevard and Concourse have progressed with fair rapidity, and there are now three practically complete and two others under contract and well advanced.

Interesting data will be found among the various tables and statements in the Bureau reports.

The photographs submitted show some of the improvements made under the direction of this Bureau.

SEWER BUREAU.

The supervision of the work of construction and maintenance of sewers and appurtenances and drains, etc., devolves upon the Engineer in charge of sewers, also the designing of the sewerage systems in the Borough and the surveys and investigation for all sewer improvements.

The work on the designing of the drainage plans has been pushed as rapidly as possible during the year, and an area of about 1,700 acres has been completed. The remaining portion is in various stages of completion.

Modifications have been prepared of the drainage plans in seven (7) of the old districts.

Statement of Contracts.

Contracts in force December 31, 1907	33
Completed during the year	42
Contracts in force December 31, 1908	13

The sewers completed during the year amount to 10.52 miles, and receiving basins number 112, making the total length of sewers in the Borough 269.482 miles, and 3,003 receiving basins.

The sewer work in progress and under contract at the end of the year amounts to about 4 miles and 17 receiving basins.

The value of works authorized in 1908	$391,500.00
Amount contracted for in 1908	665,204 08
Contract work completed in 1908	430,731 66
Contract work certified to the Board of Assessors	387,590 38
Contract work in progress December 31, 1908 (estimated cost)	2,083,016 63
The payments of all kinds prepared number 196 and amount to	956,871 43

6,682 cement tests were made, representing about 58,000 barrels.
31 preliminary estimates and plans were prepared.
31 contract plans were prepared.
40 assessment lists were prepared.
1,972 borings made, making in all 16,309 linear feet.

The detailed reports of the Bureau give much other interesting data.

The photographs submitted with the reports show some of the more important work in progress during the year. A map is also submitted which shows the completed sewers.

The reports of the other Bureaus furnish detailed information in great volume and will be found interesting and instructive.

Respectfully submitted,
JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx.

TOPOGRAPHICAL BUREAU.

Office of the President of the Borough of The Bronx,
New York, January 2, 1909.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

Sir—I beg to transmit herewith the general recapitulation of the work done in the Topographical Bureau during the year 1908, compiled from the quarterly reports.

The Topographical Bureau of the President of the Borough of The Bronx is charged with the following duties:

I. To Make the Topographical Surveys, Computations, Maps or Plans and Profiles and Reports in Connection with the Following Three (3) Divisions of Work:

A. The preparation of a design for the street system in those parts of the Borough where a design is not adopted as yet, and the making of surveys, maps, etc., showing changes of adopted street systems and grades; also the preparation of three copies for filing of all matters which have been adopted by the Local Boards or approved by the Board of Estimate and Apportionment.

B. The actual demarcation on the ground by monument stones and copper bolts of the lines of adopted avenues, streets, public squares, places, etc., and the protection of same when improvements are being made.

C. The making of surveys, searches, maps, technical descriptions, profiles, etc., for the Commissioners of Estimate and Assessments in the matter of acquiring title by the City to avenues, streets and other public propery.

II. To Keep in Custody the Records and Maps of all Matters Pertaining to Work Under the Jurisdiction of the Topographical Bureau; Also Keeping in Custody of all Maps Filed in Relation to the Borough of The Bronx Under the Department of Public Parks, the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards and the President of the Borough of The Bronx.

III. To Make Examinations, Maps and Reports on Miscellaneous Matters Referred by the Chief Engineer of the Borough of The Bronx.

I-A. Preparation of the Design of a Street System, Maps Showing Changes of Adopted Street Systems, etc.

Surveys, computations, block dimensions and grade studies were progressed during the year on those sections of the final maps of the street system of that part of the Borough of The Bronx lying easterly of the Bronx River, which were not filed as yet, and on those which had to be re-filed on account of the completed triangulation.

Section 29 of the final maps, re-calculated in accordance with the United States Triangulation co-ordinates, was forwarded for adoption to the Board of Estimate and Apportionment July 15, 1908, and was adopted by the said Board December 4, 1908.

Section 30 of the final maps, recalculated in accordance with the United States Triangulation co-ordinates, was forwarded to the Board of Estimate and Apportionment August 27, 1908, for adoption.

Section 38, in accordance with the United States Triangulation, was forwarded for adoption to the Board of Estimate and Apportionment November 25, 1908.

Section 47 of the final maps, recalculated in accordance with the United States Triangulation co-ordinates, was forwarded for adoption to the Board of Estimate and Apportionment July 9, 1908, and was adopted by said Board November 20, 1908.

Section 48 of the final maps, in accordance with the United States Triangulation, was forwarded for adoption to the Board of Estimate and Apportionment March 4, 1908; was adopted by said Board May 8, 1898; three copies for filing were forwarded June 17, 1908, and said section was filed in the office of the President of the Borough of The Bronx November 10, 1908.

Section 39 of final maps, in accordance with the United States Tiangulation, which was forwarded for adoption to the Board of Estimate and Apportionment November 25, 1907, was adopted by said Board March 13, 1908; three copies for filing were forwarded March 31, 1908, and said section was filed in the office of the President of the Borough of The Bronx November 10, 1908.

Section 49 of the final maps of the Borough of The Bronx, in accordance with the United States Triangulation, for which three copies for filing were forwarded November 29, 1907, was filed in the office of the President of the Borough of The Bronx February 19, 1908.

Section 54 of the final maps of the Borough of The Bronx, in accordance with the United States Triangulation, which were forwarded for adoption to the Board of Estimate and Apportionment November 7, 1907, was adopted by said Board February 28, 1908; three copies for filing forwarded April 21, 1908, and said section was filed in the office of the President of the Borough of The Bronx July 16, 1908.

All the final sections were drawn on a scale of 150 feet to the inch, and the maps have a size of 31 inches by 53 inches.

A map or plan of the street system in the Throgg's Neck District was approved by the Board of Estimate and Apportionment June 5, 1908, and filed in the office of the President of the Borough of The Bronx November 28, 1908.

A tentative plan of the street system in the Lohbauer Tract was forwarded for adoption to the Board of Estimate and Apportionment June 11, 1908, and was adopted by said Board June 26, 1908.

Tentative plans for a street system in the following sections were made and forwarded during the year 1908:

Map or plan amending and modifying the street system east of the Bronx River, within the area bounded by Bear Swamp road, Wallace avenue, Pelham Parkway, South, Bogart avenue, Radcliffe avenue and Rhinelander avenue, dated January 22, 1908 (Amendment "H").

General map or plan amending and modifying the street system east of the Bronx River, within the area bounded by Bear Swamp road, Bronx Park, East, Bronx and Pelham Parkways, Hering avenue, Van Nest avenue, Newport avenue and the New York, New Haven and Hartford Railroad, dated April 29, 1908 (Amendment "J").

General map or plan amending and modifying the street system east of the Bronx River, within the area bounded by Walker avenue, Ponton avenue, Blondell avenue, McAlpin avenue, Libby avenue, Pelham road, Balcom avenue and an unnamed street, dated May 18, 1908 (Amendment "K").

General map or plan amending and modifying the street system east of the Bronx River, within the area bounded by Morris Park avenue, Westchester avenue, Wilkinson avenue, land of the New York, New Haven and Hartford Railroad, Bronx and Pelham Parkway, Pelham Bay Park and Eastern Boulevard, dated June 16, 1908 (Amendment "M").

General map or plan amending and modifying the street system east of the Bronx River, within the area bounded by Bear Swamp road, Morris Park avenue, White Plains road, Unionport road and Bronx Park, dated August 24, 1908 (Amendment "N").

A map or plan of the street system in City Island completed and forwarded to the Board of Estimate and Apportionment for adoption.

The revision of the Spuyten Duyvil, Riverdale and Mount St. Vincent districts, in connection with the plans for the approaches to the Henry Hudson Memorial Bridge, and the proposed wide boulevards, was amended and is now before the Board of Estimate and Apportionment.

A perspective view of the Grand Boulevard and Concourse near East One Hundred and Sixty-first street, showing proposed location for a monument, was made.

A plan for a transverse road under the Grand Boulevard and Concourse at East One Hundred and Sixty-first street and plan for the rearrangement of East One Hundred and Sixty-first street, including all land owned by the City from the Grand Boulevard and Concourse to Jerome avenue, was prepared and forwarded to the Board of Estimate and Apportionment.

Work of revising and improving the nine sheet map of the Borough of The Bronx for re-printing was continued.

The work of revising and retracing the twenty-eight final sections of the street system west of the Bronx River was progressed; sections 6, 13, 15 and 16 were finished.

Maps in seventy-eight (78) cases were prepared and submitted for adoption during the year 1908.

Maps in twenty-two (22) cases were prepared in triplicate and forwarded for filing during the year 1908.

In connection with the laying out, etc., and preparing maps for adoption, the following additional work in relation to computing and draughting was done:

Property points calculated	16
Other points calculated	35
Monument co-ordinates calculated	1,294
Total length of final side and monument lines, feet	765,289
Or 144.89 miles.	
Courses checked by traverses	77
Length of traversed courses, feet	1,095,417
Or 207.46 miles.	
Length of streets involved, feet	15,490
Or 2.93 miles.	

I-B. The Actual Demarcation on the Ground by Monument Stones and Copper Bolts of the Lines of Adopted Avenues, Streets, Public Squares, Places, etc., and the Protection of the Same When Improvements are Being Made.

Being Made.

During the year 1908 two hundred and sixty-three (263) orders were received for setting, resetting, testing and accurately referencing monuments and one hundred and ninety-five (195) orders brought over from 1907, making in all four hundred and fifty-eight (458) orders.

Two hundred and seven (207) orders of 1908 were attended to and one hundred and thirty-nine (139) orders brought over from 1907 were also attended to, making in all three hundred and forty-six (346) orders.

The following is a tabulated statement of the office work and field work in relation to monumenting during the year 1908:

OFFICE WORK.

Borough of The Bronx, West of the Bronx River.

Work to connect the lines of avenues and streets with the United States Coast and Geodetic stations has progressed. This work is being pushed as rapidly as possible to facilitate the calculations for the final maps in the new system, according to section 439 of Chapter 466 of 1901, the amended Greater New York Charter.

The co-ordinates furnished by the United States Coast and Geodetic Survey and accompanying the report of the triangulation of the Borough of The Bronx were based on the true meridian at Parkway Station, which maintained the co-ordinates in four quadrants. It was decided, however, to shift this origin parallel and south and east, so as to have all co-ordinates in the northwest quadrant.

I-C. The Making of Surveys, Searches, Maps, Technical Descriptions, Profiles, etc., for the Commissioners of Estimate and Assessment in the Matter of Acquiring Title by the City to Avenues, Streets and Other Public Property.

This work consists of making (a) rule maps, (b) surveys for damage maps, (c) draft damage maps, (d) draft benefit maps, (e) final copies of damage and benefit maps, (f) franchise maps, (g) profiles of avenues and streets, (h) inspection and testimony, and (i) auction sale maps.

"a" Rule maps, in quadruplicate, were prepared and forwarded with technical descriptions, in triplicate, in twenty-five (25) street opening proceedings for thirty-eight (38) streets.

"b" Damage map surveys were made in seventy-nine (79) proceedings.

The amount of work which was done and completed on the above surveys is as follows:

1,417 houses, 2,960 fences and 279 stone walls were located; 116,791 linear feet of avenue chained, 890,399 feet taped in location and cross-section measurement and 728 angles turned.

"c" Draft damage maps, in triplicate, were prepared and forwarded in forty-one (41) proceedings, comprising 2,157 plots covering 7,319,557.90 square feet or 2,935,816 city lots.

"d" Draft benefit maps were prepared and forwarded in twenty-one (21) proceedings covering 7,164 plots.

"e" Final copies of damage maps, in triplicate, and benefit maps, in quadruplicate, were forwarded in twenty-one (21) proceedings comprising 614 maps.

"f" No franchise maps were requested during the year 1908.

"g" Profiles, in duplicate, showing the present surfaces of the street at their center and house lines, and their relation to the intended regulation as well as to any previously established grades, giving the dates of the establishment of the grades as well as the authority under which they were established, were made for fifty-six (56) streets, and surveys for one hundred and one (101) avenues and streets in street opening proceedings were made.

"h" During the past year, considerable time of the Assistant Engineer in charge of the street opening matters was consumed in giving testimony before the Commissioners of Estimate and Assessment, and of the Assistant Engineer in charge of grades before the same Commissioners of Estimate and Assessments and the Change of Grade Damage Commission.

"i" Maps and catalogues of the buildings and encroachments on avenues and streets, to which the City has acquired title, were prepared and forwarded in seven (7) streets.

II. To Keep in Custody the Record and Maps of all Matters Pertaining to Work Under the Jurisdiction of the Topographical Bureau; also Keep in Custody all Maps Filed in Relation to the Borough of The Bronx Under the Department of Public Parks, the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards and the President of the Borough of The Bronx.

During the year 1908 the following maps, which were ordered to be filed by the Board of Estimate and Apportionment, were deposited in the vault of the Topographical Bureau:

1. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage District No. 37-AA; date of filing February 19, 1908.

2. Plan of drainage for temporary sewer for house sewage only in Kingsbridge road, between Two Hundred and Thirty-second street (Eighteenth street) and Two Hundred and Thirty-third street (Nineteenth street); date of filing February 19, 1908.

3. Map or plan of section 49 of the final maps of the Borough of The Bronx; date of filing February 19, 1908.

4. Map or plan amending sections 30 and 31 of the final maps by changing the lines of Rosewood street (Elizabeth street), from the Bronx River to White Plains road; date of filing February 19, 1908.

5. Map or plan showing the change of lines and grades of Kingsbridge avenue, from West Two Hundred and Thirtieth street to West Two Hundred and Thirty-eighth street, and the intersecting streets affected thereby; date of filing February 19, 1908.

6. Map of Henry Hudson Memorial Bridge over Harlem River, plan and elevation, scale 1 inch to 150 feet; date of filing February 29, 1908.

7. Map or plan showing the change of grades of Tremont avenue, from Devoe avenue to Rosedale avenue, and the intersecting streets affected thereby; date of filing April 20, 1908.

8. Map or plan showing the change of widening of Penfield street, from White Plains road to Wilder avenue; date of filing April 20, 1908.

9. Map or plan showing the change of grades of Johnson avenue, between Kappock street and West Two Hundred and Thirty-first street; Spuyten Duyvil road, between the New York Central and Hudson River Railroad and West Two Hundred and Thirty-first street, and the grades of the intersecting streets; date of filing April 20, 1908.

10. Map or plan showing the widening of East One Hundred and Sixty-first street, on its northerly side, between Elton avenue and Third avenue, and showing the change of the outlines of the block bounded by Third avenue, Brook avenue and East One Hundred and Sixty-first street; date of filing April 20, 1908.

11. Map or plan showing the locating, laying out and the grades of Randall avenue, from United States pier and bulkhead line of Bronx River to Leland avenue, and from Havemeyer avenue to United States bulkhead line of Westchester creek; Lacombe avenue, from United States pier and bulkhead line of Bronx River to St. Lawrence avenue, and from Castle Hill avenue to United States bulkhead line of Westchester Creek; Metcalf avenue, from Bronx River avenue to East One Hundred and Seventy-seventh street; Bronx River avenue, from Fteley avenue to Metcalf avenue; Patterson avenue, from Commonwealth avnnue to St. Lawrence avenue; Commonwealth avenue, from Lacombe avenue to Patterson avenue, and Taylor avenue, from Lacombe avenue to Ludlow avenue; date of filing April 20, 1908.

12. Map or plan showing the change of grades of Mott avenue, from northwest curb intersection of East One Hundred and Thirty-eighth street to a point 250 feet northerly thereof, and of Walton avenue, from northwest curb intersection of East One Hundred and Thirty-eighth street to a point 100 feet northerly thereof; date of filing April 20, 1908.

13. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage Districts Nos. 38-V and 33-Q4; date of filing April 20, 1908.

14. Map or plan showing the change of grade of Westchester avenue, from St. Peters avenue to Lane avenue; date of filing July 16, 1908.

15. Map or plan showing the change of lines of West Two Hundred and Thirty-first street, from Riverdale avenue to Kingsbridge avenue, and from Albany road to Bailey avenue; and changing the grade of West Two Hundred and Thirty-first street, from Riverdale avenue to Bailey avenue, and of the intersecting streets affected thereby; date of filing July 16, 1908.

16. Plan of drainage for temporary sewer for house sewage only in East Two Hundred and Thirty-seventh (Elizabeth) street, from White Plains road to Barnes avenue; date of filing July 16, 1908.

17. Map or plan of Section 54 of the final maps of the Borough of The Bronx; date of filing, July 16, 1908.

18. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage District Nos. 37-BB and 38-W; date of filing August 10, 1908.

19. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage District No. 42-X; date of filing, November 10, 1908.

20. Plan and profile showing the change of grade in East One Hundred and Forty-ninth street, between the New York, New Haven & Hartford Railroad and the East River; date of filing November 10, 1908.

21. Map or plan of Section 39 of final maps of the Borough of The Bronx; date of filing November 10, 1908.

22. Map or plan showing the reduction of width of Garfield street, between Morris Park avenue and the lands of the New York, New Haven & Hartford Railroad from 60 feet to 50 feet; date of filing November 10, 1908.

23. Map or plan of Section 48 of the final maps of the Borough of The Bronx; date of filing November 10, 1908.

24. Map or plan changing the line of Cabot street at the intersection with Leggett avenue, and the line of Leggett avenue, at the intersection with Cabot street; establishing grades in Cabot street, between the bulkhead line and Leggett avenue; Barry street, between Eastern Boulevard and Leggett avenue; Dupont street, between Eastern Boulevard and Legett avenue; discontinuing a portion of Cabot street; changing the grade of Eastern Boulevard, between Craven and Cabot streets; Leggett avenue, between Barry street and Whitlock avenue; Garrison avenue, between Leggett avenue and Grinnell place; Truxton street, between bulkhead line and Leggett avenue; date of filing November 10, 1908.

25. Map or plan of establishing the grade of Irvine street, between Seneca avenue and Garrison avenue; changing the grades of Barretto street, between Garrison avenue and Whitlock avenue; Manida street, between Lafayette avenue and Garrison avenue; Hunt's Point road, between Seneca avenue and Whitlock avenue; Faile street, between Garrison avenue and Whitlock avenue; Garrison avenue, between Barretto street and Faile street, and Seneca avenue, from Hunt's Point road to Faile street; date of filing November 10, 1908.

26. Map or plan showing the laying out and fixing grades for West Two Hundred and Thirty-first street where the said street crosses the tracks of the New York and Putnam Railroad; date of filing November 10, 1908.

27. Modified plan of drainage showing location, sizes and grades of sewer in Sewerage District No. 37-C2; date of filing November 10, 1908.

28. Modified plan of drainage showing location, sizes and grades of sewer in Sewerage Districts Nos. 36-AA and 42-Z; date of filing November 10, 1908.

29. Modified plan of drainage showing additional receiving basins on Kingsbridge terrace, between Windham place and Boston avenue, in Sewerage District No. 39-Q; date of filing November 10, 1908.

30. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage Districts Nos. 36-Z, 42-Y and 33-S4; date of filing November 10, 1908.

31. Map or plan showing the laying out and the grades of Jesup avenue from the intersection of Jesup place and Devoe street to Featherbed lane; date of filing November 10, 1908.

32. Map or plan showing the locating, laying out and the grades at Throgg's Neck, including the territory bounded by Fort Schuyler road, Eastern Boulevard, Layton avenue, Long Island Sound, Pennyfield avenue, Shore drive, United States bulkhead line of East River and prolongation of Fort Schuyler road; date of filing November 28, 1908.

III. To Make Examinations, Maps and Reports on Miscellaneous Matters Referred by the Chief Engineer of the Borough of The Bronx.

During the yer 1908, 993 communications were referred for report to the Topographical Bureau by the Chief Engineer and the Secretary of the President of the Borough of The Bronx and 913 reports and letters were required to be written on these subjects.

House Numbering in The Bronx.

A complete system of house numbers was established in 1906. The occupants or owners of all the houses in the Borough have been notified of the new number of their houses.

A map showing the house numbers for the Borough of The Bronx was prepared and photo-lithographed for distribution.

A record of the new house numbers is kept on atlasses on file in the Topographical Bureau.

Examination of Building Permits, Etc.

The President of the Borough of The Bronx directed that all applications for erection or moving of buildings shall be submitted to the Topographical Bureau for examination as to their proper location before the Building Department and the Permit Clerk issue permits and one thousand seven hundred and two (1702) applications were attended to as follows:

Number of new buildings	1,043
Number of alterations	626
Number of permits issued by the Superintendent of Highways for the removal of buildings	33
Total	1,702

This work occupied very considerable time of the Assistant Engineer in charge of grades.

MISCELLANEOUS.

Compilation of dates of filing of grades and vesting of titles to eighty-two (82) avenues and streets were furnished to the Bureau of Highways.

Compilation of grades of thirty-three (33) avenues and streets were made for the use of the Board of Assesors.

Eight (8) atlases of the final maps of the Borough of The Bronx, west of the Bronx River, have been corrected from time to time as changes therein have been filed; such atlases being in the various offices of the President of the Borough of The Bronx.

The maps in the vault of the Topographical Bureau are being indexed and cared for and the dates of the topographical surveys compiled and recorded on the topographical sheets.

The tax map volumes of the Borough of The Bronx, which are kept on file in the Topographical Bureau, are examined and compared from time to time with those in the Department of Taxes and Assessments.

Many maps, sketches, tracings, black prints and blue prints were made auxiliary to preparing maps for adoption and in connection with various other works under the jurisdiction of the Topographical Bureau; also a considerable amount of copying and searching of records in the different city departments and the Register's office of New York City and Westchester County at White Plains.

Respectfully,

F. GREIFFENBERG, Topographical Engineer.

THE NEW PRECISE MEASUREMENT METHOD WITH SPECIAL LINE CLINOMETERS AND TAP STRETCHERS.

First Used in the Borough of The Bronx.

Designed by Edward H. Holden, Assistant Engineer in Charge of Surveys and Monumenting, Borough of The Bronx, New York City.

The relation of traverse work to triangulation is a most important one and one often misunderstood. The idea that traverse work connecting triangulation can be of an indifferent quality, because the triangulation is precise, is an erroneous one. It is

absolutely essential that the traverse work shall be systematically uniform, if the determinations of the traverse stations are to have a true and consistent relation to the triangulation. So that the only safe procedure in this class of work is to employ the most accurate method whereby the error will be minimized and will approach equal magnitude and equal sign.

In the Borough of The Bronx, New York City, the primary traverses, those connecting the triangulation stations, are made as accurately as possible, and nothing has been spared to secure this accuracy. Certain mechanical devices have suggested themselves to take the place of stakes, the driving of stakes being an expensive and a disadvantageous method and, at times, prohibitive. Portable tripods have generally been substituted for stakes, necessitating simultaneous leveling and a field force of from eight to ten men. By separating this force into two parties, namely, the transit party for the observation of angles and the chaining party for the measurement of lines, decided advantages are derived. The transit party consists of three men and the chaining party consists of five men, with a chief of party over all.

This separation of work suggested the application of a telescope to the portable tripod whereby the alignment and gradient of the tape lengths could be given, and the transit, level and rod eliminated from the chaining party. Following this suggestion a method of measurement has been devised which makes use of several novel instruments and which has proved very successful.

Tapes.

The steel tapes used have a cross-section of 1-4-inch by 1-50-inch, generally 150 feet long, and have only three graduated marks at the front, rear and middle points, repectively. The tape is supported at each end, and in case of the 150-foot tape at the middle. Thermometers are attached to the tape at each end, the metal back of the thermometer being in contact with the tape. The tape extends about 3 feet beyond the end graduations and terminates in loops which are put over the hooks of the tape stretchers. The tension applied is 15 kilograms (about 33 pounds). The determination of tape lengths is made by direct contact, no plumb bobs being used.

Invar tapes, made of an alloy of nickel and steel are also used. They have a coefficient of expansion extremely small, being one-thirtieth that of steel. They have a cross-section of 1-4 of an inch by 1-50-inch, and are used in the same manner as steel tapes. (For invar tapes see United States Coast and Geodetic Survey Report for 1907, Appendix No. 4, Engineering News, December 5, 1907, page 612.)

This instrument (Fig. 1), is a portable tripod with a plunging level giving alignment and grade. It consists of a level (wye form) which rotates vertically around horizontal arms forming part of the level bar, an arc and vernier measuring the vertical angle. The connecting piece between the level bar and the leveling head is U-shaped, with the "U" resting on one side, thereby permitting the tape to come directly in alignment at an index post set in the lower part of the "U." The index post carries at its side an eccentric cylinder which forms the support for the tape, the eccentricity allowing varying thickness of tape to have the upper surface at the same level with the index mark. The U-shaped piece rests on a sliding head which, by a slow motion screw, moves forward and backward in the direction of the line. Below this is the ordinary leveling head with a shifting center. The tripod is an extension one with telescopic legs. Where greatest precision is desired, a transit placed off at one side, on a right-angle, sets the tripod vertically over the point in the ground. A plumb-bob is suspended from the instrument as in a transit, for use in setting up in line, and can be used in setting the instrument over the station, and also determining the cut-off. A scale reading by vernier to 0.0001 foot measures the sliding motion. When the scale is set at zero, the index mark is at the center of the instrument, directly over the plumb-bob. The scale reads backwards and forwards from zero.

The advantages of the instrument are:

1. Separation of the lineal from the angular measurements, resulting in economy of time. The old method has the disadvantage that when the angles were being measured the chaining party was idle, and vice versa.
2. Reduction of the field force from eight to five men.
3. Ease of adjustments of the level versus those of the transit for vertical angles and collimation.
4. Check on the gradients, the vertical angle being observed by each instrument.
5. The observers, being responsible for the work, are most qualified to do the instrumental work and do so at no expense of time.
6. Elimination of the errors of plumb-bobs.
7. Avoidance of time and expense of driving stakes.
8. Availability where stakes are prohibited, e. g., parks, pavements, etc., etc.

Tape Stretchers.

The front stretcher (Fig. 3) consists of an upright (a twin bar of iron) hinging sideways at its lower end on a foot base and terminating at the top in a handle. On this upright, traveling up and down, is a block which supports the spring balance. The tension is applied by a half-wheel, centered in the block and working by a lever attached to its diameter. A strap connects the wheel motion to a rod which carries the spring balance. By means of the vertical motion of the block, the balance and front end of the tape is raised or lowered, while the hinge motion of the upright gives lateral motion for alignment. The rear stretcher is similar to the front stretcher, in that it has no spring balance. A clamp on the foot-base regulates the friction necessary for the upright to be self-supporting.

The advantages of the stretcher are:

1. Ease of manipulation.
2. Absolute control, the tension being maintained constant for a longer time than with other forms.
3. With the tension released it is self-supporting, allowing the operator to quickly ward off an approaching interference, thus protecting the tape from injury. These stretchers can be used in standardizing tapes and hold to a ten-thousandth of a foot.

Field Procedure.

The measuring or chaining party consists of two observers, two tape stretchers and one recorder, who attends to the middle support.

Suppose the line A-B is to be measured. One of the line-clinometers, which we will call No. 1, is set over the point A; the telescope is sighted to B and clamped horizontally; the rear stretcher is placed back of A and the rear graduation of the tape is brought to coincide with the index mark of instrument. The front stretcher is placed ahead with proper tension applied and the front graduation of tape is brought in line by instrument No. 1. Instrument No. 2 is brought up to the front graduation; the tripod is made firm and, by the shifting center, the index mark is brought approximately in contact with the front graduation of tape; in the meantime, the center support (which is a staff 1 inch square with a sliding target and having a wire nail projecting for the tape support) is being placed by instrument No. 1 in line and on grade of the two telescopes. Observer No. 2 brings, by the slow motion screw, the mark of the index post in contact with front graduation of the tape. As he approaches this, he calls "ready," and when the rear calls "right" he makes the contact and calls "right." Observer No. 1 has been watching his contact and instantly responds if the tape is steady; if not, he calls "steady," and the signals are repeated. Upon simultaneous signals of "right," each observer reads the thermometer and then the vertical angle. The tape is then carried forward, the rear holding at instrument No. 2, instrument No. 1 going forward. The telescope of No. 2 is taken out of the wyes and reversed, end for end, and sighted toward B. If not found on it, the slight movement to bring it on will not affect the position of the index mark. Instrument No. 2 gives the alignment for the second tape length and the operation is repeated for the whole line. Fig. 2 shows the party at work. In this view the tape has been shortened so that the whole operation could be shown clearly in one photograph.

Errors of line measurement are those due to (1) temperature, (2) tension, (3) grade and (4) those due to contact or mechanical errors. By confining these to certain limits, the accuracy of the work becomes known. With the use of invar tapes, the errors of temperature have been reduced from being the largest factor to one of the smallest.

The following table of error factors will illustrate:

Invar Tapes.

Classification of Errors.	Maximum Average Error per 150-foot Tape Length	Error per Mile.
Temperature	2° F.	.0026 feet
Tension	1 oz.	.0042 feet
Slope	20 sec.	.0175 feet
Mechanical	0.0002 ft.	.0070 feet
Total		.0313 feet

Steel Tapes.

Classification of Errors.	Maximum Average Error per 150-foot Tape Length	Error per Mile.
Temperature	2° F.	.0682 feet
Tension	1 oz.	.0042 feet
Slope	20 sec.	.0175 feet
Mechanical	0.0002 ft.	.0070 feet
Total		.0969 feet

These tables give a fair idea of the comparative values of the errors as applied to the foregoing field practice. The error of standardizing the tape lengths has not been introduced, as that is independent of the field errors and gives no values to the different field methods. The limits of error given are liberal. With invar tapes and this measuring outfit, there is no reason why measurements should not be made with an error less than 3-8-inch per mile.

The following results show the variation of the measurements of the same lines, the measurements being corrected for temperature and slope.

GENERAL REMARKS.

Supplementary to the preceding tabulations, the following is presented in relation to certain features of the work of the Bureau of Sewers, Borough of The Bronx, for the year 1908:

Storm Relief Tunnel Sewer, from Webster avenue to the Harlem River, etc.

Work on this contract was prosecuted during a portion of the year by the Williams Engineering and Contracting Company, to which company the contract was awarded for completing the original contract declared abandoned by the President on August 28, 1907, owing to the death of William J. Flanagan and the refusal of his estate to carry on the work.

The Williams Engineering and Contracting Company began work in December, 1907, and continued thereon until October 26, 1908, when the President declared their contract abandoned, owing to their failure to carry out certain provisions of the same.

The Williams Engineering and Contracting Company, during the portion of 1908 in which they were working, partially completed the full concrete lining of the tunnel for a distance of about 1,427 linear feet. In addition, they laid the concrete invert for a distance of about 274 linear feet, and built the concrete side-walls for a distance of about 531 linear feet, and the concrete arched roof for about 148 linear feet.

The approximate value of the work done on this contract by the Williams Engineering and Contracting Company during the year 1908 was $102,000.

The work of preparing the contract for completing the Williams Engineering and Contracting Company's contract was at once begun upon the abandoning of said contract, but the preparation of the necessary data for such reletting involved a great deal of labor by the Engineers assigned to such work and the new contract was not quite ready for letting at the close of the year 1908.

For a general description of the Storm Relief Tunnel Sewer project, reference should be made to the annual reports of 1905 and 1906.

Illustrations accompanying this report and numbered 1 to 9, inclusive, show the condition of the work at various points and at various times during the year 1908, as noted thereon.

Unionport Sewer System.

The contract for the construction of the outlet sewer and appurtenances in Avenue E, between East One Hundred and Fifty-second street and Westchester avenue (John J. Hart Company, contractors), was carried on vigorously during the entire year, and the contract was nearly completed at the close of 1908.

The approximate value of the work done during the year 1908 was $226,740, and included among other items the putting in place of 13,477 cubic yards of concrete in sewer sections and 1,273,890 pounds of steel bars of various sizes for reinforcing such concrete.

Illustration No. 10, accompanying this report, shows a considerable portion of the completed sewer before the protecting embankment was placed thereon.

The contract for the construction of the outlet sewer and appurtenances in Lafayette avenue (East One Hundred and Fifty-sixth street), between Westchester Creek and Avenue A, and in Avenue A, between Lafayette avenue and Green lane, etc., was vigorously prosecuted during the year 1908 by the contractors (F. V. Smith Contracting Company), and the approximate value of the work done during the year was $258,057, and the work done embraced among other things the putting in place of 8,310 cubic yards of concrete in sewer sections and 650,530 pounds of steel bars of various sizes for reinforcing the same.

Illustrations accompanying this report and numbered 11 to 20, inclusive, show the condition of the work at various times and places as noted thereon.

For a general description of the Unionport sewer system and the two contracts for the outlet sewers in Avenue E, between East One Hundred and Fifty-second street and Westchester avenue; and in Lafayette avenue, between Westchester Creek and Avenue A; and in Avenue A, between Lafayette avenue (East One Hundred and Fifty-sixth street) and Green Lane, etc., reference should be made to the annual reports for the years 1905, 1906 and 1907.

The matter of the outlet sewer in White Plains road, betwen East River and East One Hundred and Fifty-second street; in East One Hundred and Fifty-second street, between White Plains road and Avenue B; in Avenue B, between East One Hundred and Fifty-second street and Lafayette avenue (East One Hundred and Fifty-sixth street); and in Lafayette avenue, (East One Hundred and Fifty-sixth street) between Avenue B and Avenue A has been held in abeyance until the question of closing Pugsley's Creek at East One Hundred and Fifty-second street shall be finally decided. Upon this decision depends the question as to whether the sewer across Pugsley's Creek shall be on grade or in the nature of a siphon. Plans for both methods have been begun and the preparation of the contract for this main outlet sewer can be completed soon after this matter, which is now being considered by the War Department of the United States, is settled definitely.

Truxton Street Sewer.

For the general description of this sewer and the plans for the work reference should be made to the reports for the years 1906 and 1907.

The contract for this work was let on January 7, 1908, and Mr. James Pilkington was the lowest bidder and the contract was awarded to him and executed on the 24th day of March, 1908, and the work was ordered ahead on the 13th day of April, 1908.

The contractor has made rapid progress with this work, the approximate value of the work done by him during the year being $162,800.00. It is expected that the contract will be completed during 1909, unless unforeseen obstacles arise.

Illustrations accompanying this report and numbered from 21 to 25 show the condition of the work at various times and places as noted thereon.

Drainage Plans for Territory East of Bronx River.

The work on the drainage plans for the portion of the borough lying east of the Bronx River has been vigorously prosecuted and the following has been accomplished.

Drainage plans have been completed for the following sewerage districts:

No. 43 F, which comprises that section lying east of the Bronx River, and bounded on the north by Ludlow avenue, east by Pugsley avenue and Pugsley Creek, south by the East River and west by the Bronx River and Metcalf avenue. The area of this drainage district is 656 acres.

No. 43 G. This district comprises that section lying east of the Bronx River, and is bounded on the north by East One Hundred and Eightieth street and East One Hundred and Seventh-seventh street; on the east by Beach avenue and Metcalf avenue; on the south by Story avenue and the Bronx River; and on the west by the Bronx River. The area of this drainage district is 740 acres.

The above districts include the Metcalf avenue main sewer, which is the outlet for all the section lying on the east slope of the Bronx River to the north boundary line of The City of New York, and they include also the Woodlawn Heights section on the west of the Bronx River. The water shed to be drained by this sewer is about 2,800 acres. The large area made it necessary to adopt a plan of storm overflows. These, together with the low street surface elevations of the section lying south of Bronx River avenue, made it necessary to design special shapes for all sewers above a certain size throughout both of the sewerage districts Nos. 43-F and 43-G.

Drainage plan for the relief drain in Morris Park avenue, between the existing drain at Victor street and at Bronx Park avenue, and from the latter junction to Downing Brook. This district comprises an area of 335 acres.

Modified sewerage district No. 43-1, 43-D1 and 43-F1. This is a refiling of certain parts of sewerage districts No. 43, 43-D and 43-F. The main modifications are in that part of the Unionport outlet sewer, (sewerage district No. 43) located in Lacombe avenue, between Havemeyer avenue and White Plains road; and in White Plains road, betwen Lacombe avenue and the East River; and the feature of the refiling is that it provides for a syphon under Pugsley Creek. The refiling was made necessary by the proposition to maintan Pugsley Creek as a waterway beyond East One Hundred and Fifty-second street.

The work of designing the system of lateral sewers in that section lying on the east slope of the Bronx River, between East One Hundred and Eightieth street and the north line of The City of New York is progressing rapidly.

Drainage Plans for Territory West of the Bronx River.

The following plans have been completed:

Modified Sewerage District No. 36-X, comprising the section bounded on the north by the Putnam division of the New York Central and Hudson River Railroad;

on the east by Tiffany street; on the south by East River; and on the west by Cabot street.

Modified Sewerage District No. 39-T, comprising that section bounded on the north by West Two Hundred and Thirty-second street; on the east by Broadway; on the south by Spuyten Duyvil Creek; and on the west by Spuyten Duyvil road.

Modified Sewerage District No. 39-R: This district comprises the section bounded on the north by West Two Hundred and Sixty-first street; on the east by Broadway; on the south by West Two Hundred and Fifty-ninth street; and on the west by Von Humboldt avenue.

Modified Sewerage District No. 39-P, which is bounded on the north by West Two Hundred and Thirty-eighth street; east by Bailey avenue; south by West Two Hundred and Thirty-fourth street; and on the west by the Putnam division of the New York Central and Hudson River Railroad.

Modified Sewerage District No. 37-C2, comprising the section bounded by Tremont avenue on the north; on the east by Jerome avenue; on the south by Belmont avenue; and on the west by Aqueduct avenue.

Modified Sewerage District No. 33-T4, which is bounded on the north by Wendover avenue; on the east by Park avenue; on the south by East One Hundred and Seventieth street and on the west by Webster avenue.

All of the above refilings were made necessary by changes in the street layout and by modification of street grades.

Respectfully,

CHARLES H. GRAHAM, Engineer in Charge of Sewers.

Communications Transmitted.

To the Comptroller—Asking if funds are available, and if, after contracts are let, certificates will be attached to such contracts, for the following work: New steamboat, length 166 feet, to take the place of old "Minnahanonck"; new steam heating plant at Workhouse, Blackwells Island; new single screw steamer to ply between One Hundred and Thirty-eighth street and Rikers Island; construction, alterations, etc., buildings on Harts Island.

To the Comptroller—Transmitting the following proposals for action on the sureties: Albert Winternitz, new steam heating plant, Workhouse, Blackwells Island; James Shewan & Sons, new single screw steamer. Contractors notified.

To Civil Service Commission—Asking for new list from which to appoint one Resident Physician on Harts Island. All on last list declined.

To Public Service Commission—Stating that stone boundary wall on Franklin street, about 75 feet from Centre street, has separated at least three-fourths of an inch, caused, no doubt, by excavating for subway. Something should be done at once to avoid the possibility of an accident.

To Chief Engineer, Department of Water Supply, Gas and Electricity—Commissioner has indicated to Engineer of the Department of Water Supply, Gas and Electricity the line to be followed in laying water pipes on Harts Island, and which seemed satisfactory to him. Expedition urged in order to give Harts Island a better water supply.

Appointed.

William H. Reynolds, Keeper, on Rikers Island, at Branch Workhouse, at a salary of $800 per annum, to date from October 8, 1909. Certified by Civil Service Commission, on eligible list of October 2, 1909.

Resigned.

TERMS AND CONDITIONS OF SALE.

All expense of removing, storing, advertising and selling such trucks, wagons, carts, etc., will be deducted from the purchase price paid, and any remainder of such purchase price over and above said expense will be held by the Commissioner of Docks in trust for the owner or owners thereof for a period of twelve months from the receipt of same; and if not claimed within said twelve months the Commissioner of Docks will pay such remainder over to the Commissioners of the Sinking Fund.

The purchase price must be paid immediately at the time of sale.

In case of failure to pay the purchase price, the property for which such purchase price is not paid will be immediately resold, and if the price paid on such resale is less, the difference will be charged against the person or persons failing so to pay.

Upon the payment of the purchase price a receipt will be given to the purchaser by the Auctioneer, and upon the production of such receipt at the pound the trucks, wagons, carts, etc., therein described, will be delivered to the purchaser.

All property purchased at the sale must be removed from the pound within five days after the sale, or within any extension of time beyond such period which the Commissioner of Docks may grant.

In case of failure to remove the same within the time specified, or in case of failure to remove the same within any extended time which may be granted by the Commissioner of Docks, the purchaser will be deemed to have abandoned the property sold to him, the purchase price paid by him will be forfeited and the property will be resold.

Parcel No. 10—Part of one-story frame extension adjoining and north of Parcel No. 9, 3 feet on north and south sides, by 13.3 feet front.

Parcel No. 11—Part of two-story frame hotel, with part of frame extension, on the southwest corner of St. Lawrence avenue and West Farms road, 5.1 feet on north and south ends, by 84.2 feet on east side.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 12th day of November, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened November 12, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than 2 feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb, the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight, where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Parcel No. 3. Part of two and one-half story frame house on the southerly side of West Two Hundred and Thirty-first street, about 50 feet east of the southeast corner of Broadway and West Two Hundred and Thirty-first street, 18.1 feet front and rear by 20.5 feet on west side by 20.7 feet on east side.

Parcel No. 4. Part of two-story frame house and stoop east of and adjoining Parcel No. 3, 18.2 feet on west side by 18.1 feet on east side by 32.3 feet front.

Parcel No. 5. Part of two-story frame house east of and adjoining Parcel No. 4, 16.3 feet front by 7.9 feet on west side by 8.1 feet on east side.

Parcel No. 6. Shanty east of and adjoining Parcel No. 5.

Parcel No. 7. Part of one-story frame extension and picket fence east of and adjoining Parcel No. 6, 9.9 feet front by 7.8 feet on east and west sides.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 11th day of November, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened November 11, 1909," and must be delivered or mailed in time for their delivery prior to 11 a. m. of that date to the "Collector of City Revenue," Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 9th day of November, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened November 9, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to the purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than 2 feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb, the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property, not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

CORPORATION SALE OF TAX CERTIFICATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

WEDNESDAY, NOVEMBER 10, 1909,

at 12 o'clock m., at the Comptroller's Office, No. 280 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York in and to a certain tax sale certificate, recorded in the office of the Collector of Assessments and Arrears in and for the Borough of Brooklyn, in Liber 83, by the certificate number 6335, the premises being then known as Ward 25, Block 54, Lot No. 5, now known as Lot No. 55, Block 1674, section 6, on land maps of the Borough of Brooklyn.

The minimum or upset price at which the certificate is to be sold is hereby appraised and fixed at five hundred dollars ($500), and the Comptroller is hereby authorized to take the necessary steps for making such sale upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay the full amount of said certificate as purchase money at the time of the sale, which sum shall not be less than five hundred dollars ($500).

The assignment of the certificate of sale for taxes duly executed by the proper officer will be delivered to the purchaser at the time of sale and shall be taken by the purchaser without recourse.

The Comptroller may, at his option, resell the certificate if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for the cost and expense of any such resale.

The right to reject any bid is reserved.

By order of the Commissioners of the Sinking Fund under resolution adopted at a meeting of the Board held September 22, 1909.

H. A. METZ, Comptroller.

City of New York, Department of Finance, Comptroller's Office, October 1, 1909.

BOARD OF ESTIMATE AND APPORTIONMENT.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN that at the meeting of the Board of Estimate and Apportionment held this day, the following proceedings were had:

Whereas, The New York and Queens County Railway Company has, under date of April 14, 1908, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate an extension to its existing street surface railway system, beginning and connecting with the tracks of the company in Jackson avenue, opposite the Queensboro Bridge plaza, in the Borough of Queens; thence in and upon the Queensboro Bridge plaza to the easterly bridge approach to the Queensboro Bridge; thence upon and along said approach and across intersecting streets and avenues to the Queensboro Bridge; thence upon and along the Queensboro Bridge to the westerly approach; thence upon and along said westerly bridge approach to the westerly terminus thereof at Second avenue, in the Borough of Manhattan; and

Whereas, Section 92 of the Railroad Law, and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on May 1, 1908, fixing the date for a public hearing thereon as June 12, 1908, at which citizens were entitled to appear and be heard, and publication was made for at least fourteen days in the Long Island City "Daily Star" and the Flushing "Evening Journal," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly had on such date; and

Whereas, At the meeting of this Board held September 17, 1909, the Select Committee to whom the matter had been referred submitted a report recommending certain amendments in the form of contract previously presented, and the Chief Engineer was thereupon directed to prepare a contract in accordance with such recommendations, which amended contract was presented to this Board September 24, 1909; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the New York and Queens County Railway Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the New York and Queens County Railway Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York and Queens County Railway Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract, made this day of 1909, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York and Queens County Railway Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree, as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to operate passenger cars, upon two tracks only, upon and across the Queensboro (Blackwells Island) Bridge, as an extension to its existing lines in the Borough of Queens, upon the following route, to wit:

Beginning and connecting with the tracks of the Company in Jackson avenue, opposite the Queensboro Bridge plaza, in the Borough of Queens; thence in and upon the Queensboro Bridge plaza to the easterly approach to the Queensboro Bridge; thence upon and along said approach and across intersecting streets and avenues to the Queensboro Bridge; thence upon and along the Queensboro Bridge to the westerly bridge approach; thence upon and along said westerly bridge approach to the westerly terminus thereof at Second avenue, in the Borough of Manhattan, all in The City of New York.

Sec. 2. The grant of this right or privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege shall be held and enjoyed by the Company for a term of ten (10) years from the date upon which this contract is signed by the Mayor, and may continue for a further term not exceeding in any case fifteen (15) years, which further term shall

be terminable at the option of the Board at any time during the said fifteen (15) years, upon six months' notice by the Board to the Company.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of two thousand five hundred dollars ($2,500) in cash within thirty days after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five years an annual sum which shall in no case be less than one thousand two hundred dollars ($1,200), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand two hundred dollars ($1,200).

During the second term of five years an annual sum which shall in no case be less than two thousand two hundred dollars ($2,200), and which chall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of two thousand two hundred dollars ($2,200).

During the third term of five years, or during such portion of said term as this contract shall be in force, an annual sum which shall in no case be less than two thousand four hundred dollars ($2,400), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand four hundred dollars ($2,400).

During the fourth term of five years, or during such portion of said term as this contract shall be in force, an annual sum which shall in no case be less than two thousand six hundred and seventy-five dollars ($2,675), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand six hundred and seventy-five dollars ($2,675).

During the remaining term of five years, or during such portion of said term as this contract shall be in force, an annual sum which shall in no case be less than two thousand nine hundred dollars ($2,900), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two thousand nine hundred dollars ($2,900).

The gross receipts mentioned above shall be that portion of the gross earnings of the Company from all sources as shall bear the same proportion to such gross earnings as the length of the route hereby authorized shall bear to the entire length of the railway of the Company in operation.

The payment of such minimum sums shall begin from the day on which this contract is signed by the Mayor.

(c) For the use of the bridge structure and approaches thereto, the sum of five cents for each round trip, or the sum of two and one-half cents for each single trip of each and every car operated upon the bridge.

The number of such cars shall be certified by the Commissioner of Bridges to the Comptroller once each month, in such form as shall be designated by the Comptroller.

(d) For the use of the tracks owned by the City upon the bridge and approaches, a sum equal to four (4) per cent. per annum upon the valuation of thirty thousand dollars ($30,000) per mile of single track used—provided, however, that if such tracks are used by any other company or companies, then the Company shall pay only such portion of such four (4) per cent, per annum upon the cost thereof as shall be proportionate to the use of such tracks by the Company. The Commissioner of Bridges shall compute the sums due the City for the use of such tracks and certify the same to the Comptroller.

(e) For the use of terminal loops and other terminal facilities which are the property of the City a sum equal to four (4) per cent. upon the cost of the tracks in the terminals, and all overhead equipment necessary for the operation of the cars, provided, however, that if such terminal loops and other terminal facilities are used by any other company or companies, then the Company shall pay only such portion of four (4) per cent. per annum upon the cost thereof as shall be proportionate to the use of such facilities by the Company. The Commissioner of Bridges shall compute the sums due the City for the use of such terminal facilities and overhead equipment and certify the same to the Comptroller.

All such sums as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law, as it now exists or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract shall be strictly complied with.

Any and all payments to be made by the terms of this contract to the City by the Company, except the payment of three (3) per cent. of the gross receipts during the first five years of the contract, and five (5) per cent. of the same thereafter, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The Company shall use only such tracks and terminal facilities as shall be assigned to the Company by the Commissioner of Bridges, and nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilige upon the same or other terms and conditions, or to affect the right of the Commissioner of Bridges to assign the same or other tracks and terminal facilities to such individual or other corporation.

Such tracks, terminal facilities and all electrical equipment necessary for the operation of cars thereon shall be installed at the expense of the City, and shall remain the property of the City, but the Company shall pay the cost of keeping and maintaining such tracks and electrical equipment in good order and repair, and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars. If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars; such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, sidings or platforms on the bridge in order to facilitate operation of cars by the Company, said Company must do all the work and furnish all the labor and tools necessary for effecting such changes, which shall all be made under the control and direction of the Commissioner of Bridges, and no such changes, or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

If, however, the tracks, terminal facilities, electrical equipment or signal system are used by any other company or companies, and should any change in the layout of such tracks, curves, switches, sidings or equipment be made necessary while used by any other company, then, and in that event, the Company shall bear only that proportion of the cost of such signal system and the cost of making such changes in the layout of the tracks, curves, switches, sidings or platforms as the use of such track, electrical equipment and signal system by the Company shall bear to the entire use of such appliances.

Sixth—Before beginning the operation of the cars the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate, and a sketch showing clearance dimensions, weight on axles and wheel spacing, or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company, and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution therefor of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement of headway thereof, the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platforms and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Seventh—A sufficient number of cars from the lines of the Company operated in the Borough of Queens shall at all times be operated across the bridge to accommodate passengers desiring to ride upon such cars. Nothing in this contract shall be construed as permitting the Company to operate local bridge cars back and forth upon the bridge between the bridge plaza in the Borough of Queens and the bridge approach in the Borough of Manhattan.

Eighth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on said railway or line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City when such employees are in full uniform, and shall carry free upon the bridge and its approaches such employees of the Department of Bridges as may be designated by the Commissioner of Bridges.

Ninth—All cars operated on said railway shall be well lighted by electricity or by some lighting system equally efficient, or as may be required by resolution of the Board.

Tenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eleventh—The Company shall at all times keep accurate books of account of the gross earnings from all sources, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, the total miles in operation and the total miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twelfth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or equity.

Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day, not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirteenth—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make any alterations or changes in the construction, operation or management of the bridge, or to affect in any way the control of such Commissioner over such bridge, as provided by the Charter of the City.

Fourteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or shall fail to maintain the structures and equipment, as herein provided, in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250), as fixed or liquidated damages; or the Board, in case such structures or equipment shall not be put in good condition within a reasonable time, after notice by the Board as aforesaid, shall have the right to make all the needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Fifteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Sixteenth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of five thousand dollars ($5,000), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, and the repair and maintenance of tracks and equipment upon the bridge, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or, after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice in writing to the Company; or, in case of failure to keep the said terms and conditions of this contract relating to the rules and regulations made by the Commissioner of Bridges and the heating and lighting of cars, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated or lighted in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its president, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or, where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and, without legal procedure, direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of five thousand dollars ($5,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Seventeenth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction and shall be deemed to have been given at the time of delivery or mailing.

Eighteenth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. This grant is also upon the further and express condition that the provisions of the Railroad Law applicable thereto shall be strictly complied with by the Company.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the New York and Queens County Railway Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Friday, November 12, 1909, in the CITY RECORD, and at least twice during the ten (10) days immediately prior to Friday, November 12, 1909, in two daily newspapers to be designated by the Mayor therefor and published in The City of New York, at the expense of the New York and Queens County Railway Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the New York and Queens County Railway Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, November 12, 1909, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

No. 5. FOR ERECTING A BUILDING FOR STOREHOUSE AND SHOP AT THE ONE HUNDRED AND SEVENTY-NINTH STREET PUMPING STATION, LOCATED NEAR AMSTERDAM AVENUE AND ONE HUNDRED AND SEVENTY-NINTH STREET, BOROUGH OF MANHATTAN.

The time allowed for doing and completing the work will be one hundred and fifty (150) working days.

The security required will be Five Thousand Dollars ($5,000).

The attention of bidders is particularly called to the following requirements, i. e.:

Each bidder shall submit with his bid or estimate evidence that will prove to the satisfaction of the Commissioner that he is prepared to furnish all the necessary materials, and possesses the necessary plant to complete all the work in the manner and time herein specified.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the specifications and lists of materials, supplies and apparatus to be furnished, and to the plans on file at the office of the Department.

Any bid which fails to name a price, both in writing and in figures, per unit of measurement for each and every item where quantities are given, may be held to be informal and may be rejected, and in case of any discrepancy between the price written in the bid and that given in figures, the price in writing will be considered as the bid.

Bidders are paritcularly cautioned that a provision in the contract requires the maintenance of all construction work in good condition for a period of one year, and the maintenance of the roofing, flashing, etc., in good condition for a period of three years.

The bids will be compared and the contract awarded for all the work, articles, materials and supplies contained in the specifications or schedule attached thereto.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Department, a copy of which, with the proper envelope in which to inclose the bid or estimate, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, may be obtained upon application therefor at the office of the Department, Bureau of Chief Engineer, Room 922, No. 21 Park row, New York City, where the plans, which are made a part of the specifications, may also be seen, and any further information obtained from the Chief Engineer.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of HULL AVENUE and NORWOOD (DECATUR) AVENUE (although not yet named by proper authority), between Mosholu Parkway North and Woodlawn road, across the lands of the former Jerome Park Branch of the New York and Harlem Railroad, now the property of the New York City Railway Company, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 23d day of November, 1909, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 26th day of November, 1909, at 2 o'clock p. m.

Second—That the undesigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 23d day of November, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 26th day of November, 1909, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the day of , 190 , and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

The area bounded on the southwest by the northeasterly side of Mosholu parkway, on the northeast by the southwesterly side of Woodlawn road, on the northwest by a line midway between Perry avenue and Hull avenue, and on the southeast by a line midway between Norwood avenue and Webster avenue.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit together with the damage and benefit maps and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 30th day of November, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 24th day of February, 1910, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, October 25, 1909.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of November, 1909, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 12th day of November, 1909, at 11 o'clock a. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of November, 1909, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 12th day of November, 1909, at 12 o'clock m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 6th day of December, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the intersection of a line 125 feet distant southerly from and parallel with the southerly line of Oak Tree place, the said distance being measured at right angles to the line of Oak Tree place, with the southeasterly side of Quarry road, and running thence northwestwardly at right angles to the line of the Quarry road to a point distant 100 feet northwesterly from the northwesterly side of the said road; thence northeastwardly and parallel with the Quarry road to the intersection with a line drawn at right angles to the said road from a point on its northwesterly side where it is intersected by a line distant 200 feet northerly from and parallel with the northerly line of Oak Tree place, the said distance being measured at right angles to the line of Oak Tree place; thence southeastwardly to the last mentioned point on the northwesterly side of the Quarry road; thence eastwardly along a line parallel with the northerly side of Oak Tree place, and along the prolongation of the said line, to the intersection with a line 100 feet distant easterly from and parallel with the easterly line of La Fontaine avenue, the said distance being measured at right angles to the line of La Fontaine avenue; thence southwardly along a line parallel with La Fontaine avenue to the intersection with a line distant 125 feet southerly from and parallel with the southerly line of Oak Tree place; thence westwardly along the said line parallel with Oak Tree place to the point or place of beginning.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 12th day of November, 1909.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 14th day of December, 1909, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated, Borough of Manhattan, New York, October 15, 1909.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to WEST TWO HUNDRED AND SIXTEENTH STREET (although not yet named by proper authority), from Broadway to the Harlem River, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of November, 1909, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 12th day of November, 1909, at 3 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 12th day of November, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the United States channel line of the Harlem River with the southeasterly prolongation of the middle line of the blocks between West Two Hundred and Fifteenth street and West Two Hundred and Sixteenth street; running thence northwesterly along said prolongation and middle line and its northwesterly prolongation to its intersection with a line parallel to and 100 feet northwesterly from the northwesterly line of Kingsbridge road (Broadway); thence northeasterly along said parallel line to its intersection with the northwesterly prolongation of a line parallel to and 100 feet northeasterly from the northeasterly line of West Two Hundred and Sixteenth street; thence southeasterly along said last-mentioned prolongation and parallel line to its intersection with the United States channel line of the Harlem River; thence southerly along said channel line to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 21st day of December, 1909, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated, Borough of Manhattan, New York, September 24, 1909.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of GRAND AVENUE (although not yet named by proper authority), from Steinway avenue to Old Bowery Bay road, in the First Ward, Borough of Queens, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, Long Island City, Borough of Queens, in The City of New York, on or before the 17th day of November, 1909, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of November, 1909, at 3 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, Long Island City, in the Borough of Queens, in said City, there to remain until the 17th day of November, 1909.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the intersection of the easterly line of Steinway avenue with the centre line of the blocks between Vandeventer avenue and Grand avenue and running thence easterly along said centre line to its intersection with the centre line of Old Bowery Bay road; thence southerly along said last mentioned centre line to its intersection with the centre line of the blocks between Jamaica avenue and Grand avenue; thence westerly along said last mentioned centre line to its intersection with the easterly line of Steinway avenue; thence northerly along the easterly line of Steinway avenue to the point or place of beginning, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 18th day of January, 1910, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to any of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, October 20, 1909.

WILLIAM E. STEWART, Chairman;
THOMAS J. DOOLEY,
FELIX FRITSCHE,
Commissioners.

JOHN P. DUNN, Clerk.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to amending its application heretofore made in the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of UNNAMED STREET, extending from the northerly terminus of Gray street to Gordon street, in the Second Ward, Borough of Richmond, City of New York, by including therein that portion of Gray street from Unnamed street to Hudson street, in the Second Ward, Borough of Richmond, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held for the hearing of motions, in the County Court House, in the County of Kings, in the Borough of Brooklyn, in The City of New York, on the 5th day of November, 1909, at the opening of Court on that day, or as soon thereafter as counsel can be heard thereon, for an order amending the proceeding entitled "In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of unnamed street, extending from the northerly terminus of Gray street to Gordon street, in the Second Ward, Borough of Richmond, City of New York"; and the petition and order appointing Commissioners of Estimate and Assessment heretofore duly entered and filed in the office of the Clerk of the County of Richmond, on the 7th day of January, 1909, by including therein that portion of Gray street extending from unnamed street to Hudson street, in the Second Ward, Borough of Richmond, City of New York. Said lands to be included are bounded and described as follows:

Beginning at a point on the northerly line of unnamed street 100.10 feet easterly from the intersection of said northerly line of unnamed street and the easterly line of Gordon street;

1. Thence southerly along the easterly terminus of unnamed street 60 feet to the southerly line of unnamed street;

2. Thence westerly deflecting 90 degrees to the right along said southerly line of unnamed street 12.91 feet;

3. Thence southerly deflecting 120 degrees 54 minutes 56 seconds to the left 333.80 feet to the northerly line of Hudson street;

4. Thence easterly along said northerly line of Hudson street and deflecting 89 degrees 44 minutes 11 seconds to the left 50 feet;

5. Thence northerly parallel to the third course and deflecting 90 degrees 15 minutes 49 seconds to the left 374.02 feet to the easterly prolongation of the northerly line of unnamed street;

6. Thence westerly along said easterly prolongation 9.43 feet to the point of beginning.

Gray street is shown on a map entitled: "Lay-out, grades and changes of grade of Gray street, extending from Hudson street to unnamed street, in the Second Ward, Borough of Richmond, The City of New York"; which map was approved by the Board of Estimate and Apportionment April 23, 1909, and filed in the office of the President of the Borough of Richmond July 19, 1909, and in the offices of the Clerk of the County of Richmond and the Counsel to the Corporation of The City of New York on or about July 19, 1909.

Dated New York, October 19, 1909.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
