74-932 Self-service storage facilities in designated areas within Manufacturing Districts

On #zoning lots# in designated areas within #Manufacturing Districts# as shown on the maps in APPENDIX J (Designated Areas Within Manufacturing Districts) of this Resolution, the City Planning Commission may permit, for a #self-service storage facility#, a modification, or waiver of the #industrial ground floor#, as required in Section 42-121 (Use Group 16D self-service storage facilities), provided the Commission finds that:

- (a) the #zoning lot# is appropriate for such #self-service storage facility use#, considering the economic development objectives of the City; and
(b) it is impractical to provide an #industrial ground floor# as defined in Section 42-121 (Use Group 16D self-service storage facilities) on such #zoning lot#.

In making this determination, the Commission may consider the following:

- (1) the size and configuration of the #zoning lot# and its suitability to establish an #industrial ground floor# as defined in Section 42-121;

- (2) the design and layout of loading berths, interior column spacing, floor to floor height and other relevant physical characteristics in an existing #building# and its suitability for #industrial ground floor uses#;
(3) the accessibility of the #zoning lot# to an arterial highway, or a designated truck route; the width of the existing #streets# providing access to the #zoning lot# and the ability of such #streets# to handle the traffic generated for such #industrial ground floor uses#;
(4) recent trends and levels of investment in the surrounding area for such #industrial ground floor uses# within the last five calendar years;
(5) the potential for conflict between such #industrial ground floor uses# and existing #uses# in the surrounding area;
(6) the proximity of the #zoning lot# to rail and bus transit to serve employees; and
(7) the need to undertake environmental remediation work on the #zoning lot#.

The Commission may impose additional terms and conditions to ensure the compatibility of a #self-service storage facility# with the surrounding area.

NOTICE

On Wednesday, August 23, 2017, at 9:30 A.M., in Spector Hall, located at 22 Reade Street, New York, NY 10007, a public hearing is being held by the City Planning Commission in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP). DCP proposes a zoning text amendment to establish restrictions on new self-storage facilities within Industrial Business Zones to ensure that their development does not unduly limit future siting opportunities for industrial uses. The proposed restrictions would apply within newly established "Designated Areas" in Manufacturing districts, which largely coincide with Industrial Business Zones (IBZs).

The public hearing will also consider a modification to the zoning text amendment (ULURP No. 170425 (A) ZRY). Written comments on the DEIS are requested and will be received and considered by the Lead Agency until Tuesday, September 5, 2017.

This hearing is being held, pursuant to the State Environmental Quality Review Act (SEQR) and City Environmental Quality Review (CEQR), CEQR No. 17DCP119Y.

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the Second Amended Urban Renewal Plan for the Milbank Frawley Circle East Urban Renewal Area.

NOTICE

On Wednesday, August 23, 2017, at 9:30 A.M., in Spector Hall, at the Department of City Planning located at 22 Reade Street, New York, NY 10007, a public hearing is being held by the City Planning Commission in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP) and the Department of Housing Preservation and Development (HPD). DCP, together with HPD, is proposing a series of land use actions—including zoning map amendments, zoning text amendments, and amendments to the Milbank Frawley Circle-East Urban Renewal Plan (collectively, the “Proposed Actions”). The Proposed Actions are intended to facilitate the development of affordable housing, preserve existing

neighborhood character, improve the pedestrian experience, and create new commercial and manufacturing space to support job creation adjacent to existing and future transit nodes. The Proposed Actions would affect an approximately 96-block area of the East Harlem neighborhood of Manhattan.

In addition to the above-referenced Proposed Actions, the DEIS considers a series of actions needed to facilitate an HPD-sponsored affordable housing development located on a property bounded by East 111th Street, Madison Avenue, East 112th Street, and Park Avenue (the “Sendero Verde Site”). The land use actions necessary to facilitate the development of the Sendero Verde Site, subject to a concurrent related application proposed by HPD (the “Sendero Verde – East 111th Street” Proposal), include: a zoning map amendment, zoning text amendment, UDAAP designation, disposition of City-Owned property, acquisition of a portion of the disposition area by the City, a large-scale general development (LSGD) special permit, and a City Planning Commission certification to waive retail continuity requirements.

The public hearing will also consider a modification to the zoning text amendment (ULURP No. N 170359 (A) ZRM).

Written comments on the DEIS are requested and would be received and considered by the Lead Agency until Tuesday, September 5, 2017.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 17DCP048M.

For frontages beyond 50 feet of the #shore public walkway#, such #street wall# shall rise to at least the minimum base height specified in Section 87-322 (Base heights and transition heights), or the height of the #building#, whichever is less. Along all frontages, up to 30 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along any #street#, or deeper than 15 feet along #shore public walkway#, are located within an #outer court#.

Along other frontages, no #street wall# location provisions shall apply.

(b) Parcels 5, 6, 7, 8 and 9

On Parcels 5, 6, 7, 8 and 9, as shown on Map 1, for frontages along #visual corridors#, or #upland connections#, as shown on Map 2, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall rise to at least the minimum base height specified in Section 87-322, or the height of the #building#, whichever is less. Up to 30 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along any #street#, or deeper than 15 feet along #shore public walkway#, are located within an #outer court#.

For #street walls# fronting on, or within 50 feet of, the #shore public walkway#, the maximum base height shall be 85 feet, except that:

- (i) on Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, for #street walls# fronting on a #shore public walkway#, at least 30 percent of the #aggregate width of street walls# fronting on the #shore public walkway#, or a contiguous #street wall# width of 60 feet, whichever is greater, shall not exceed a maximum height of 45 feet. In addition to being applied along the #shore public walkway#, such lowered #street wall# may be applied along intersecting #streets# within 100 feet of the #shore public walkway#; and
- (ii) on Parcels 5 and 6, as shown on Map 1 in the Appendix to this Chapter, such maximum base height shall be 45 feet.

(2) Beyond 50 feet of the #shore public walkway#

Along all other frontages, beyond 50 feet of the #shore public walkway#, the #street wall# shall rise without setback to a minimum base height of 60 feet, or the height of the #building#, whichever is less, and may rise to a maximum base height of 105 feet.

(b) Required setbacks

Above such maximum base height, #street walls# shall be set back a minimum of 30 feet from the #street line# along the #shore public walkway# on Parcel 1, 15 feet from such #street line# on any other parcels, and a minimum of 10 feet from the #street line# along all other #streets#. Along all #streets#, such set back shall have a minimum depth of seven feet from any portion of the #street wall# below such maximum base height. However, the depth of such setback may include the depth of recesses or #outer courts# provided that the aggregate width of such portion of a #street wall# with a reduced setback shall not exceed 30 percent of the #street wall#.

In addition, on Parcels 1, 2, 3 and 4, in locations where the maximum base height is limited to 45 feet, #street walls# above such maximum base height shall be set back a minimum of 30 feet from the #street line#, and a minimum of seven feet from any portion of the #street wall# below such height.

Dormers provided in accordance with paragraph (c)(1) of Section 23-621 (Permitted obstructions in certain districts) shall be permitted obstructions in all setback areas, except along the #shore public walkway#. Such dormers shall not exceed the maximum transition height set forth in paragraph (c) of this Section.

(c) Maximum transition heights

For #street walls# fronting on, or within 50 feet of, the #shore public walkway#, #street walls# above a required setback may rise to a maximum transition height of 125 feet and, along all other frontages, #street walls# above a required setback may rise to a maximum transition height of 155 feet. Such transition heights may only be exceeded where towers are provided in accordance with the provisions of Section 87-323 (Tower provisions).

In addition, the roadbed material of a fire apparatus access road leading to a turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage.

At the time of certification pursuant to Section 87-62, the site plan shall demonstrate a suitable design for the dead-end fire apparatus access road that demonstrates both the approved turnaround area and the repurposed turnaround area outside of the roadbed upon the issuance of a notice of substantial compliance for the adjacent #zoning lot#. In addition, a conceptual site plan shall demonstrate that the proposed site plan and grading plan for required contiguous access pursuant to the provisions of paragraph (a) of this Section is compatible with future #development# on the adjoining #zoning lot#. Such site plans shall be included as an exhibit to the declaration of restrictions recorded pursuant to Section 87-64.

Repurposing a turnaround area and providing contiguous access in accordance with an approved conceptual site plan shall not necessitate a certification pursuant to Section 62-811, provided that there are no further modifications to an approved #waterfront public access area#.

[BELOW: Original provisions of Section 87-66 (Connection with Adjacent Zoning Lots)]

The following provisions apply to #developments#, #enlargements#, alterations or changes of #use#, pursuant to certification, pursuant to either Section 87-62 (Certification to Waive Supplemental Public

Access Area Requirement) or 87-63 (Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways).

On each of Parcels 2, 3 and 4, and only among Parcels 2, 3 and 4, a #development#, #enlargement#, alteration or change of #use#, shall provide a connection for bi-directional vehicular travel at an adjacent #zoning lot line# if such adjacent #zoning lot# has previously constructed a connection that terminates at the shared #lot line#. Any connection of fire apparatus access roads across a shared #zoning lot line# must meet the grade of, and maintain the street width of, the existing adjacent private street. In addition to such physical shared #lot line# connection, a #private road# declaration shall be provided pursuant to the provisions of Section 87-64. A connection need not be opened unless and until such declaration of restrictions, in accordance with Section 87-64, has been recorded against the adjacent #zoning lot#.

When no connection for vehicular travel terminating at the opposite side of a shared #lot line# exists, a dead-end fire apparatus access road turnaround may be constructed, pursuant to Section 87-63, which may extend into the designated #shore public walkway#. Such certification is also contingent upon providing a declaration of restrictions, in accordance with Section 87-64.

[BELOW: Original provisions of Section 87-63 (Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways)]

On Parcels 2, 3 and 4, a dead-end fire apparatus access road turnaround, as defined in the New York City Fire Code, Section 503.2.5 (Dead-ends) may, by certification, extend into the designated #shore public walkway#, provided that:

- (a) a declaration of restrictions has been provided, pursuant to Section 87-64;
- (b) a fire apparatus access road abutting the shared #zoning lot line# between the #development#, #enlargement#, alteration or change of #use# seeking certification under this Section and Parcels 2, 3 or 4 does not exist; and
- (c) the fire apparatus access road serves as a segment of a bi-directional loop road along the #shore public walkway#, providing a connection to Exterior Street at the northeast corner of Parcel 2 and a connection to Exterior Street at the southeast corner of Parcel 4.

Such turnaround shall have a diameter of 70 feet and be located at the end of the fire apparatus access road, abutting the adjacent #lot line#. At no point may the turnaround extend into the #shore public walkway# for a distance greater than 23 feet. Sidewalks shall not be required adjacent to the turnaround. The portion of the turnaround that lies within a #shore public walkway# shall remain clear of obstacles, shall be composed of permeable materials, and shall meet all applicable requirements set forth in the New York City Fire Code Section 503.1.1 (Fire apparatus access roads), or its successor. In addition, the roadbed material of a fire apparatus access road leading to a vehicular turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage. In addition, the level of the area within the turnaround shall be raised to be flush with the level of adjoining sidewalks.

**87-64
Declaration of Restrictions**

[NOTE: Existing provisions, modified]

For any fire apparatus access road proposed for certification pursuant to Sections 87-62 (Fire Apparatus Access Roads), a declaration of restrictions shall be provided to guarantee the construction, improvement, operation, maintenance and repair of such road, and any sidewalk adjacent to such road, to guarantee that such road, and any sidewalk adjacent to such road, remains open, unobstructed and accessible to all members of the public, except as necessary to avoid public dedication, and to ensure compliance with all applicable provisions. Such declaration of restrictions shall be prepared in a form acceptable to the Department of City Planning, shall be filed and duly recorded in the Borough Office of the Register of the City of New York and indexed against the property. Filing and recording of the declaration of restrictions shall be a precondition for the Chairperson's certification under Sections 87-62 and 87-63, where applicable.

For certifications proposed pursuant to Section 87-6362 on Parcels 2, 3 or 4, where #developments# or #enlargements# on such parcels utilize the allowance for interim fire access turnaround, in accordance with paragraph (b) of Section 87-63 (Cross Access Connection with Adjacent Zoning Lots on Parcels 2, 3 and 4), any declaration of restrictions shall include that, at the time of the issuance of the notice of substantial compliance for the adjacent #development#, or #enlargement# pursuant to this Section, thereby permitting vehicular connection between #zoning lots#, the #zoning lot# containing a previously-constructed fire apparatus access road turnaround area shall be responsible for the following actions on the portion of the connection on such #zoning lot#:

- (a) repurposing the fire apparatus access road turnaround area pursuant to the requirements set forth in paragraph (b) of Section 87-63;
- (b) extending all required sidewalks that had remained short of the #lot line# to the shared #lot line# to connect to the required adjacent sidewalks and enable unobstructed pedestrian movement across parcels;
- (c) complying with all applicable waterfront rules, #street# regulations and the New York City Fire Code; and
- (d) providing a connection with the adjacent #zoning lot# pursuant to Section 87-63.

[BELOW: Original provisions of Section 87-64 (Declaration of Restrictions)]

For any fire apparatus access road proposed for certification pursuant to Sections 87-62 or 87-63, a declaration of restrictions shall be provided to guarantee the construction, improvement, operation, maintenance and repair of such road, to guarantee that such road remains open, unobstructed and accessible to all members of the public, except as necessary to avoid public dedication, and to ensure compliance with all applicable provisions. Such declaration of restrictions shall be prepared in a form acceptable to the Department of City Planning, shall be filed and duly recorded in the Borough Office of the Register of the City of New York and indexed against the property. Filing and recording of the declaration of restrictions shall be a precondition for the Chairperson's certification under Sections 87-62 and 87-63, where applicable.

For certifications proposed pursuant to Section 87-63, at the time a declaration of restrictions has been provided by the adjacent #development#, #enlargement#, alteration or change of #use#, pursuant to this Section, permitting vehicular connection between #zoning lots#, the #zoning lot# containing a previously-constructed fire apparatus access turnaround shall be responsible for the following actions on the portion of the connection on such #zoning lot#:

- (a) deconstructing the fire apparatus access road turnaround;
- (b) re-landscaping the area that had extended into the #shore public walkway#, so as to create the conditions of the immediately surrounding #shore public walkway#, which may include any combination of tree planting, laying sod, removing pavers, or any other required landscaping action;
- (c) extending all required sidewalks that had remained short of the #lot line# to the shared #lot line# to connect to the required adjacent sidewalks and enable pedestrian movement across parcels; and
- (d) complying with all applicable waterfront rules, #street# regulations and the New York City Fire Code.

To "develop" shall mean to create such #development#.

- (a) #Shore public walkways#
 - (1) The #shore public walkway# shall be provided in the location designated on Map 3 (Waterfront Access Plan: Public Access Elements) and constructed at an elevation of two feet above not lower than the highest level of the train track bed of the Oak Point Rail Link, except that:

 - (ii) on Parcel 5, if commercial or public utility vehicle storage, as listed in Use Group 16C, is #developed# or #enlarged# as the primary #use# on the #zoning lots#, such the elevation requirement shall not apply. However, for any other #use#, such the elevation requirement shall only apply along the westernmost section of the #shore public walkway# to a depth of 40 feet.

(iii) on all #zoning lots#, a #shore public walkway# shall be required to meet the grade of an existing adjacent #street#, which may include deviating from such elevation requirement where necessary.

- (2) An approved turnaround area in a dead-end fire apparatus access road turnaround area, as defined in the New York City Fire Code, Section 503.2.95 (Dead-end turnarounds), or its successor, may, by certification extend into a designated #shore public walkway# pursuant to paragraph (b) of Section 87-63 (Certification to Allow Fire Apparatus Access Road Turnaround Area in Shore Public Walkways Contiguity of Fire Apparatus Access Road with Adjacent Zoning Lots on Parcels 2, 3 and 4).
 - (3) In the event that a portion of a #waterfront zoning lot# is within 40 feet of the #shoreline# yet does not abut the #shoreline# because of an intervening #zoning lot#, a #shore public walkway# shall be provided on such upland portion. The width of the #shore public walkway# on such portion shall be 40 feet measured from the #shoreline# of the intervening #zoning lot# and shall include the width of the intervening #zoning lot#. The portion of such #shore public walkway# located upland of the intervening #zoning lot# shall be improved with a circulation path at least ten feet wide, and any required planted screening buffer shall have a width of at least four feet.
 - (4) On Parcel 5, if a commercial or public utility vehicle storage #use# is #developed# or #enlarged# as the primary #use# on the parcel, the #shore public walkway# requirements set forth in Section 62-62 shall apply, except that:
 - (i) the required width of the #shore public walkway# may be reduced to a minimum of 20 feet along the northern edge of the inlet and may be reduced to a minimum of 30 feet along the eastern edge of the inlet;
 - (ii) the circulation path required in paragraph (a)(1) of Section 62-62 shall be modified to a minimum width of 10 feet along the northern and eastern edge of the inlet; and

- (b) #Upland connections#
- #Upland connections# shall be located on Parcels 1, 3, 4, 5 and 6 and 11, as designated on Map 23 in the Appendix to this Chapter. The applicable provisions of Sections 62-50, inclusive, are modified, as follows:
- (1) On Parcel 1, for an #upland connection# required along the northern boundary of a mapped park, the additional open area requirement of paragraph (a)(2) of Section 62-561 (Types of upland connections) shall not apply;
 - (2) Parcel 3 may provide the #upland connection# at either of the two optional locations indicated on Map 2. Parcel 3 shall provide an #upland connection# at the designated location shown on Map 3. In addition, such #upland connection# shall be provided as specified below:
 - (i) On Parcel 3, an #upland connection# is required at the designated location as shown on Map 3. The additional area requirements of paragraph (a)(2) of Section 62-561 shall not apply;
 - (ii) In the event that Parcel 3 is developed with Parcels 2 or 4, an #upland connection# shall be provided within the flexible location zone shown on Map 3. The additional area requirements of paragraph (a)(2) of Section 62-561 shall apply.

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- [Win More Contracts at nyc.gov/competetowin](http://nyc.gov/competetowin)

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)

Office of the Criminal Justice Coordinator (CJC)
