COMMUNICATION.

The President laid before the Council the following communication from the North Side Board

NORTH SIDE BOARD OF TRADE OF THE CITY OF NEW YORK, No. 278 ALEXANDER AVENUE, February 14, 1898.

No. 278 ALEXANDER AVENUE, February 14, 1898.)

This is to certify that at a meeting of the North Side Board of Trade of The City of New York, held this day, the following resolution was adopted:

Whereas, The abandoned and long disused burial ground in the Borough of The Bronx, known as "Bensonia Cemetery," in its present neglected condition, is a detriment and injury to the surrounding district in which it is located and is a menace to the further improvement of property in that vicinity; and

Whereas, In November, 1897, the Board of Street Opening and Improvement, voicing the sentiment of the entire community north of the Harlem river, in response to numerous petitions submitted by various persons and organized bodies, passed a resolution approving of the condemnation of said plot as a public park and playground; and

Whereas, Action on the part of our late city authorities was not finally consummated, owing to legal objection by the Corporation Counsel as to the power of the City under the "Small Parks" Act; and

Whereas, under the new Charter the municipal authorities have the power to lay out and

Whereas, under the new Charter the municipal authorities have the power to lay out and acquire lands for public parks in any part of the greater City; and

Whereas, By the cultivation, improvement and ornamentation of this plot into a public park the assessable value of the adjacent property will be so greatly enhanced as to repay the City in a very short time for any and all expenses incurred by so doing; and

Whereas, The condition of said property is such that unless the same be condemned by the municipal authorities and made into a public park it will thereafter remain in its present abandoned state, thereby preventing any improvement to the surrounding section by the construction of costly structures which have been erected up to and within a short distance of said plot; and

Whereas, Owing to the neglected and wasteful state of the cemetery, opportunities are continually afforded to its desecration by the lawless acts of vicious persons, who use it for improper purposes, and which has caused it to considered by the respectable residents in the vicinity as a public nuisance, and a menace to the safety and comfort of the citizens; and

Whereas, This Association has heretofore recommended that the necessary legislative action be taken to carry out the above stated objects; and therefore be it

Resolved, That the North Side Board of Trade, respectfully but urgently recommend to the Municipal Authorities of New York City the advisability and necessity of taking immediate steps for the laying out, acquisition, and condemnation of "Bensonia Cemetery" as a public park and playground.

JAMES L. WELLS, President.

COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS RESUMED. The President laid before the Council the following communication from the Coroners' office,

CORONERS' OFFICE—BOROUGH OF MANHATTAN, NEW YORK, January 19, 1898.

To the Honorable the Municipal Assembly, New York City:

GENTLEMEN—The Board of Coroners of the Borough of Manhattan submit for your consideration the annexed statement of salaries and expenses required for the Coroners' office for the year

The amount asked for the salaries of the Coroners is an increase over the salaries of last year.

The amount asked for the salaries of the Coroners is an increase over the salaries of last year. The salaries of last year and of years previous were fixed by the Legislature in 1878, and have, up to the present time, remained the same, although the work of the Coroners has more than doubled. The population of the Borough of Manhattan in 1878 was about one million; at the present time it is (resident and transit included) over two millions. In proportion to the population there are more Coroners' cases at the present time than there were in 1878. There are more homicides, suicides and suspicious cases; there are more deaths on the streets and in the rivers; there are more deaths by gas, electricity, and by use of explosives; there are more deaths by the negligent use of machinery, and by the criminal negligence of physicians, of midwives and of druggists; there are more night-calls; there are more ante-mortem statements taken, and there are more replevins and matters against the Sheriff

This increase in the number of Coroners' cases, and in the detail work incident to each case, demanded of the Coroners last year alone more labor, both mental and physical, than was demanded of the Coroners for the three years from 1878 to 1880 combined.

The office of Coroner is different from what it was in 1878. It is more comprehensive than it was then; its duties are more onerous; its responsibilities are greater, and it is more important to the public.

the public.

In 1878 the duty of the Coroner was to find the cause of death solely; to-day the Coroner is directed by law to examine into deaths caused by criminal means, to issue warrants and to commit

persons accused.

This law changed the character of the work of the coroner and imposed upon him extra duties and extra responsibilities for which he has received no extra compensation.

In view of this the Coroners believe that the amount asked for is reasonable and just.

The amount asked for Coroners' Physicians is the same as it was last year and previous years.

According to the Greater New York Charter (Ash's edition, appendix, page 1014) the law fixing the salary of the Coroners' Physicians has not been repealed.

The amount asked for the Clerk of the Board of Coroners is the same as it was last year and

previous years.

The amount asked for contingent expenses is the same as it was last year and previous years.

In it are included the salaries of the Special Clerks for each Coroner, whose duty it is to attend court, summon jurors, subpoena witnesses, take testimony in simple cases, accompany the Coroner day or night on investigations and on ante-mortem calls, and to perform all the work required of him by the Coroner. It includes, also, the expenses incurred by the Coroner in investigating homicides, suicides and suspicious deaths. It includes the necessary expenses for the jury, telephone service, interpreters, car-fare, postage and each Coroner's share of the incidental expenses of the general office.

The amount asked for post-mortem examinations is the same as it was last year and previous years.

The amount asked for post-mortem examinations is the same as it was last year and previous

The amounts asked for the Stenographer, the Replevin Clerk and the two Assistant Clerks are the same as they were last year and previous years. The duty of the Assistant Clerks is to be in attendance at the Coroners' office from 4 o'clock in the afternoon until 9 o'clock the following

morning.

The salary of the three Record Clerks were last year and previous years paid out of the amount appropriated for contingent expenses. The amount appropriated for contingent expenses is not sufficient to pay the contingent expenses of the office and the salaries of the Record Clerks. For this reason a separate appropriation to pay the salaries of the Record Clerks is asked.

Respectfully,

JACOB E. BAUSCH,

EDWARD W. HART,

Board of Coroners.

PETITIONS. No. 285.

No. 285.

By Alderman Schneider—
To the Honorable Board of Aldermen:
We, the undersigned, residents and taxpayers of East One Hundred and Fifth street, respectfully petition your Honorable Body to have asphaltum paving laid on said street, from Third to to Fifth avenue. The following reasons are urged for the proposed change:

1. The street is the point of junction of the Lexington avenue cable cars with the Lexington and Lenox avenues trolley cars. The former come to a stop at the south side of One Hundred and Fifth street and the latter at the north side. This gives unimpeded and safe passage for vehicles and pedestrians, and the street at this point has become an important artery for travelers to and fro between the east and west side, and the traffic is consequently great, all wheelmen preferring the comparative safety of this route.

2. Grammar School No. 72 and the parsonage of St. Cecelia's Church abut on this street; both buildings are devoted to objects which render freedom from clamor and dust not only desirable but essential.

We therefore pray your Honorable Body to give this matter your careful consideration and favorable action.

PUBLIC HACK OWNERS' UNION, (NEW YORK, March 1, 1898.

To the Honorable Members of the Municipal Council:

GENTLEMEN—The following petition is from the Public Hack Owners' Union of New York

City.

No. 1. Whereas, The courts of this State having decided the private permit system unconstitutional, whereby a public hack business is done at hotels, clubs and restaurants, we ask your

Honorable Body to pass some measure for the abolition of this unfair privilege, and that the Chief of the License Bureau be requested to refrain from granting any more permits until your Board has passed opinion on the question.

No. 2. That public hack drivers shall not be compelled to wear their badges only at ferries and railway depots, steamboat landings, and that no soliciting be permitted at any place of public amusement only while on the box of the vehicle or at their cabs, and that each and every driver shall be on his box five minutes before the place of amusement closes.

No. 3. We also urgently beg of the Department to have our rigs publicly examined by a competent person, so that the riding public shall have a clean, respectable conveyance, the rig to be stamped for the year of passing so that it can be seen that said hack has been passed by the Carriage Inspector. riage Inspector.

No. 4. We recommend that a more rigid examination be enforced in regard to licensing new drivers, that the license should give full description of the applicant. None but citizens of well-known repute should be accepted as persons recommending applicants as a fit and proper person to hold an owner or driver's license.

We furthermore suggest that all cases of conviction should be indorsed on the back of licenses

we furthermore suggest that all cases of conviction should be indersed on the back of incenses by the presiding magistrates, for information of the License Bureau.

No. 5. We ask for the revision of section 98 of Hack Ordinance, by striking out that portion referring to numbers inside carriages, and that it shall not be required to have said numbers placed in a conspicuous place inside public carriages, as already numbers are on both lamps.

No. 6. We furthermore recommend that all persons requiring a driver's license as journeyman, shall be required to obtain a badge numbered according to his license. Said license to be retained

by owner of the vehicle while driver is in his employment.

No. 7. Should you, in your wisdom, consider that the permit system should be continued, we ask that the license of same be raised to \$100 per carriage for all special permits, and that all such vehicles be numbered accordingly, so that they can be known as legally permitted carriages

such vehicles be numbered accordingly, so that they can be known as legally permitted carriages or vehicles by the License Bureau.

No. 8. We are willing, should the foregoing changes become law, to agree for a raise in the license fee (for hack departments only) to read: \$3 yearly for hansoms, coupes, cabs, etc.; \$5 for coaches. To become due each year from the date of issue.

We also desire to say that owing to the increased demand for cabs and hansoms by the public in the upper sections of the city about Fifty-ninth street, east and west—

It would be advisable for your Board to recommend the appointment of more hack stands at points most needed, viz.: Fifty-ninth street and Eighth avenue; Seventy-second street and Eighth avenue; Eighty-first street and Eighth avenue; between Sixty-third and Sixty-fifth streets on Columbus avenue; Amsterdam avenue, from Seventy-second to Seventy-third street; Boulevard, between Sixty-seventh and Seventieth streets; Columbus avenue, between Seventy-seventh and Eighty-first streets, and at Eighty-first street on side of park facing west.

On east side from Fifty-ninth to Ninety-second street, on Park avenue side of Grand Central Tunnel.

We furthermore think it necessary that a Superintendent of Hacks should be appointed, with assistants, for the better supervision of hacks and the management thereof.

PUBLIC HACK OWNERS' UNION.

On motion of Alderman John McCall the further reading of the petition was dispensed and the same was referred to the Committee on Streets and Highways.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects lair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested. Each bid or estimate shall contain and state the name

parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

Such check or money must NOT be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or cierk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded.
