Whereas, the Board is considering the advisability of further amending the said proceeding so as to conform to a map or plan adopted by the Board of Estimate and Apportionment March 31, 1916, in which the lines of said Lambertville avenue in the section adjoining Merrick Road are shifted southwardly a distance of about 20 feet; the amendment now proposed providing for the acquisition of title to Lambertville avenue (Pacific street and Packard avenue) from Sutphin road to Merrick road, subject to the easement of the Long Island Railroad Company for the operation of its railroad across this street, as said Lambertville avenue is now laid out upon the map or plan of the City of New York.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, as amended, hereby gives notice that the following is the proposed area of assessment for benefit in this proposed amended proceeding:

Beginning at a point on the prolongation of a line distant 950 feet northerly from and parallel with the northerly line of Lambertville avenue, as this street is laid out between New York avenue and Globe avenue, the said distance being measured at right angles to Lambertville avenue, distant 100 feet northerly from the northerly line of Lakewood avenue (Lincoln avenue), the said distance being measured at right angles to Lakewood avenue, and running thence eastwardly along the said line parallel with Lambertville avenue and along the prolongations of the said line to a point distant 800 feet easterly from the easterly line of Merrick road, the said distance being measured at right angles to Merrick road; thence southwardly and always distant 800 feet easterly from and parallel with the easterly line of Merrick road to the intersection with the prolongation of a line distant 950 feet southerly from and parallel with the southerly line of Lambertville avenue, as this street is laid out between New York avenue and Globe avenue, the said distance being measured at right angles to Lambertville avenue; thence westwardly along the said line parallel with Lambertville avenue and along the prolongations of the said line to a point distant 800 feet westerly from the westerly line of Sutphin road (Rockaway turnpike), the said distance being measured at right angles to Sutphin road; thence northwardly and always distant 800 feet westerly from and parallel with the westerly line of Sutphin road to a point distant 100 feet northerly from the northerly line of Lakewood avenue (Lincoln avenue), the said distance being measured at right angles to Lakewood avenue; thence eastwardly and always dis-

tant 100 feet northerly from and parallel with the northerly line of Lakewood avenue to the point or place of beginning.

(The lines of the streets hereinbefore referred to which have not been incorporated upon the City plan are intended to be those as in use and as commonly recognized.)

Resolved, that this Board consider the proposed area of assessment at a meeting of the Board to be held in the City of New York, Borough of Manhattan, in the City Hall, on Friday, May 12, 1916, at 10:30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, that the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to May 12, 1916.

##### FRANCHISE MATTERS.

**PUBLIC NOTICE IS HEREBY GIVEN THAT** at the meeting of the Board of Estimate and Apportionment held this day the following communication was received:

**PUBLIC SERVICE COMMISSION, April 17, 1916.**  
To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District herewith transmits for the approval of the Board of Estimate and Apportionment the following certificates to Hudson and Manhattan Railroad Company:

Form of certificate modifying the certificate of May 4, 1909, for extension to the Grand Central Station.

Form of certificate modifying the certificate of February 2, 1905, to New York and Jersey Railroad Company for Thirty-third Street Extension.

Form of certificate modifying the certificate of November 24, 1903, for Cortlandt and Fulton street tunnels.

The situation in respect of these modifications is as follows:

**Extension to Grand Central Station.**—Under date of May 4, 1909, the Commission granted a certificate to Hudson and Manhattan Railroad Company authorizing it to extend its line from its then authorized terminus at 6th avenue and 33d street under 6th avenue, Bryant Park and 42d street to a terminal station between Vanderbilt and Lexington avenues. The Railroad Company secured the necessary consents and approvals, but did not begin the construction of the line within the period prescribed by the certificate. The Railroad Company some time ago applied for an extension of two years, but the matter of a long extension was held in abeyance pending the development of the plans for certain of the municipal railroads to be operated under contracts Nos. 3 and 4 so that the precise effect of their construction upon the Hudson and Manhattan Line and vice versa could more definitely be ascertained. In lieu of the long extension applied for by the Company short extensions of time have been granted by the Commission and the time of the Railroad Company to begin construction now expires on May 1, 1916.

The construction of the Hudson and Manhattan Line affects and is affected by the construction of the City's Broadway Line at the intersection of Broadway, 6th avenue and 33d street and the construction of the City's Steinway Tunnel Line in 42d st. In order to safeguard the Broadway Line against the future construction of a subway under it at the 33d street intersection, a special floor design was developed whereby the floor of the City subway would also act as the roof of the future subway. This would require the extension of the third track in the Thirty-third Street station a short distance further north than would otherwise be necessary and some changes in levels.

The plans for the Steinway Tunnel Line have not been developed to a point where a precise location can now be given for the Hudson and Manhattan Line in 42d street. The certificate of May 4, 1909, provides "The tunnels of the Railroad, but not including the stations thereof, where the same shall be in 42d street shall be located south of the center line of said street unless the Commission shall expressly authorize the location of the tunnels elsewhere in the said street." The certificate also locates the terminal station in 42d street between Vanderbilt and Lexington avenues. Both these locations are apt to conflict with the location of the Steinway Tunnel Line and one of provinces of the proposed certificate is to place control of the entire situation in the Commission so that it may precisely locate the portion of the Hudson and Manhattan Line in 42d street so as to accommodate it to the location of the Steinway Tunnel.

Following the development of the special floor design for the Broadway Line at the 33d street intersection, application was made to the Board of Estimate and Apportionment for an appropriation to meet the increased expense due to the adoption of such a design which was estimated at Seventy-five Thousand Dollars (\$75,000). This matter was before the Board of Estimate and Apportionment for some time and after several conferences between the representatives of the Commission and the Controller and the President of the Board of Aldermen an understanding was reached that the Board of Estimate and Apportionment would appropriate the amount requested for the special floor design, but the Hudson and Manhattan Railroad Company should agree to reimburse the City for this expenditure if it extended its line and should generally agree to such relocation of its line as might be necessary to accommodate it to the construction of the City railroads, and that if these conditions were complied that an extension of two years to begin construction might be granted.

The Board of Estimate and Apportionment appropriated the sum of Seventy-five Thousand Dollars (\$75,000) for the special floor design at the 33d street intersection and the proposed certificate carries out the rest of the understanding. The amount to be repaid by the Hudson and Manhattan Company to the City when the Company begins the construction of its line is Seventy-five Thousand Dollars (\$75,000) with interest at six per centum (6%) per annum from the first day of June, 1916. By this modifying certificate the certificate of May 4, 1909, is further revised so as to include provisions for the responsibility of the Hudson and Manhattan Company for any damages that may be caused by it to the City rapid transit railroads. The extension of time proposed to be granted by this modifying certificate is up to and including the first day of March, 1918.

**Thirty-third Street Extension.**—The certificate of February 2, 1905, to New York and Jersey Railroad Company (of which the Hudson and Manhattan Railroad Company is the successor) authorized the construction of a railroad from the intersection of Greenwich, West 10th and Christopher streets in the Borough of Manhattan under Christopher street to 6th avenue, thence with one branch under 6th avenue to a terminal station at or near the intersection of 6th avenue and 33d street, and with another branch crossing diagonally under 6th avenue to 9th street, and thence easterly under 9th street to a terminal station at or near the intersection of 4th avenue and 9th street. The 6th avenue branch provided for in such certificate has been constructed and

put in operation, but the construction of the 9th street Branch has never been begun. Under the certificate as heretofore modified the time of the Company to construct the 9th street Branch begins to run from the time the Commission establishes certain levels. These levels have not been established.

Under the certificate of February 2, 1905, the City has the right to recapture either the 6th avenue Branch or the 9th street Branch or both after the expiration of twenty-five years from the date of beginning operation of any part upon paying an amount, based upon cost, to be ascertained as provided in the certificate. As a basis for this ascertainment the certificate provides that within a certain period after the completion of the 6th avenue Branch and the 9th street Branch the Company should file a statement of cost which, if agreed upon, should be the amount to be paid by the City upon recapture, and if not agreed upon the cost should be determined by arbitration. It seems advisable that this statement of cost of the 6th avenue Branch which is constructed and in operation should be furnished while the facts in regard to its construction are comparatively fresh in the minds of those connected with the work, and when evidence, documentary and otherwise, in regard thereto can be secured, and that this examination should not be deferred on account of the 9th street Branch, the construction of which is problematical. The second of the proposed certificates modifies the certificate of February 2, 1905, so as to provide that the statements of cost of the 6th avenue Branch shall be submitted by the Hudson and Manhattan Company within ninety days after the Commission shall notify it in writing to present such statement.

**Cortlandt and Fulton Street Tunnels.**—Under date of November 24, 1903, the former Rapid Transit Board authorized the Hudson and Manhattan Company to construct the portion of the Cortlandt and Fulton street tunnels within the State of New York. In connection with the authorization of the terminal station the Company was authorized to construct a passageway for foot passengers under Dey street from the terminal station to a connection with the present rapid transit railroad in Broadway. This passageway was never constructed and the purpose which it was intended to serve will be met by the construction of the new City subway in Church street. Although the time of the Hudson and Manhattan Company to construct this passageway has expired and the Commission by following the procedure set forth in the certificate, i. e., giving three months' notice, might declare the authorization in respect thereto vacated, it would seem to be preferable to eliminate the provision for this passageway by agreement. This is the province of the third of the modifying agreements transmitted herewith which provides for eliminating from the certificate of November 24, 1903, the provision for the construction of the Dey Street passageway.

Respectfully yours, JAMES B. WALKER, Secretary.

—and the following resolutions were thereupon adopted:

Resolved, That the communication be received and, pursuant to law, this Board hereby fixes Friday, May 5, 1916, at 10:30 o'clock a. m., as the time and place when and where such certificate will be considered, and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to publish notice of such consideration in the City Record.

The Long Island Railroad Company, General Office, Pennsylvania Station, New York, March 27, 1916.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The Long Island Railroad Company hereby makes formal application to your Honorable Board for a further extension of time to August 4th, 1916 (a period of three months), within which to complete the construction work and changes called for under a contract dated May 4th, 1914, granting to this Company a franchise to construct and operate certain railroad tracks across Hamilton Street, Farmers Avenue and South Street, in the Borough of Queens. Except as to time of completion, the contract or franchise to be and remain unchanged with respect to terms and conditions set forth therein.

Work has been in progress for a number of months and it is confidently expected that the petitioner's Main Line traffic will have been removed from the surface of Farmers Avenue by May 4th next, but for reasons beyond our control it will be impossible for us to complete the construction at Hamilton Avenue by that date.

Respectfully submitted,
