

REDUCE YOUR RISK

Do you know the hazards that
affect you and your property?

Find out more at
[NYC.gov/ReduceYourRisk](https://www.nyc.gov/ReduceYourRisk)

NYC

New York City's dense population and geographic location make it especially vulnerable to emergencies.

Learn what you can do to reduce your risk from hazards by protecting yourself and your property.

Visit **NYC.gov/ReduceYourRisk** or call 311 to:

- Understand the hazards that affect New York City, from coastal storms to extreme heat.
- Learn about hazard mitigation – cost-effective steps you can take to reduce your property's long-term risk from hazards.
- Get a **Ready New York: Reduce Your Risk** guide with additional tips and information.
