STATEMENT FROM MAYOR DE BLASIO ON THE GOP TAX PLAN

“It appears Congressional Republicans and President Trump are in full agreement: what the country needs right now is tax cuts for the wealthy and the world’s biggest corporations. Never mind rampant wealth inequality or stagnant wages. All that matters to the GOP is increasing corporate profits and setting the stage for cuts to Social Security, Medicare and Medicaid.

“Now is the time to get even louder. In the coming days, Republicans will continue their unprecedented rush to stick middle class taxpayers with the bill. Make your voices heard and remind your congressional leaders who they work for.”
