MESSAGES FROM THE MAYOR.

No. 1494.

His Honor the Mayor—Requesting Approval of Issue of Special Revenue Bonds, \$250,000, to Be Used to Promote the Safety and Protect the Lives and Property of the People of the City of New York During the War.

City of New York, Office of the Mayor, April 17, 1917.

To the Honorable the Board of Aldermen:

Sirs—The existence of a state of war between the United States and Germany makes it incumbent upon the City of New York to place itself in a position to meet

promptly any emergency which may arise. Already, preliminary measures have progressed under the direction of the Mayor's Committee on Defense, and various City departments have put themselves in a position to render effective service as the occasion may demand.

It is imperative, however, that every step be taken at this time in anticipation of later needs. It is proposed to prepare the City government to assist the National and State governments in every way within its power, to organize New York for the most efficient participation in the conduct of the war. This work will involve unforeseen expenditures, which will necessarily be made, and which will oftentimes be demanded promptly. In order that the government may be in a position of readiness to act without delay, you are respectfully requested to approve the accompanying resolution requesting the Board of Estimate to authorize the Comptroller to issue special revenue bonds to the amount of \$250,000, as specific need arises.

Very truly yours, JOHN PURROY MITCHEL, Mayor.

In connection with the foregoing communication, the President offered the following resolution, and the same was made a Special Order for the day:

Resolved, that, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of Two Hundred and Fifty Thousand Dollars (\$250,000), the proceeds whereof to be placed at the disposal of the Mayor and to be used by him in such manner as in his judgment will promote the safety and protect the lives and property of the people of the City of New York and the property of the City of New York during the war.

The Vice-Chairman then put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Burden, Browne, Carroll, Cardani, Cassidy, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kenney, McCann, McCourt, McGarry, McGillick, McKee, McManus, Molen, Moore, Mullen, O'Rourke, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Sullivan, Stevenson, Tolk, Trau, Walsh, Williams, Wirth; Presidents Connolly, by Albert C. Benninger, Assistant Commissioner of Public Works; President Mathewson, by John G. Borgstede, Commissioner of Public Works; President Marks, by Ralph Folks, Commissioner of Public Works; the Vice-Chairman—63.

PETITIONS AND COMMUNICATIONS.

No. 1495.

Local School Board, District No. 21—Request for Designation of the Space at the South Approach of the 3rd Avenue Bridge as "Kuyter Park."

Department of Education, The City of New York, Local School Board, District No. 21, Borough of Manhattan, April 16, 1917.

Board of Aldermen, City Hall, New York City:

Gentlemen—At the last meeting of the Local School Board, District 21, the following resolution was presented and unanimously adopted:

Whereas, the little park at the south approach to Third Avenue Bridge is without a name; and

Whereas, the said park is a portion of the old farm of Captain Jochem Pietersen Kuyter, and near where he fell a victim of Indians, over two and a half centuries ago, and the only portion dedicated to the use of the public as a park; and

Whereas, Captain Kuyter was the most notable of the pioneers in the territory included in the old town and village of Harlem; and

Whereas, Kuyter's efforts to subdue the Harlem wilderness and more especially his fight (the first in America) for free speech have never been given the recognition they merit; and

Whereas, the naming of this park in honor of Captain Kuyter will be some recognition of Harlem's early hero and of his bold defense of popular rights; now, therefore, be it

Resolved, that the Local School Board of District No. 21 earnestly urge those in authority in such matters to give the name of Kuyter Park to the space at the south approach to Third Avenue Bridge; and be it further

Resolved, that a copy of this resolution be sent to each member of the Aldermanic Committee having matters of this kind in consideration.

We beg to be informed of your favorable consideration of this matter.

Respectfully yours,

SARA LEWINSON, Secretary.

Which was referred to the Committee on Public Thoroughfares.

The following coal, wood and kerosene supplies chargeable to this appropriation will be needed to maintain the seven interior public baths, the seven comfort stations, the various public buildings, and the Bureaus of Highways and Sewers for the remainder of the year:

1,930 tons egg coal, at \$7.50 per ton.....	\$14,475 00

—which will leave a deficit in this appropriation of..... \$30,598 35

There are no available balances in any of our other appropriations from which we could transfer to meet this deficit.

I would therefore respectfully request that your Board adopt a resolution as early as possible providing for the issue of revenue bonds in the amount of \$30,598.35, in order to meet the deficit in the fuel appropriations of my office for the year 1917.

Yours very truly,

L. H. POUNDS, President, Borough of Brooklyn.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 1500.

Board of Estimate and Apportionment—Resolution to Establish the Position of Architectural Draftsman in the Board of Estimate and Apportionment.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, April 16, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment April 13, 1917, recommending the establishment of the grade of position of Architectural Draftsman at \$1,740 per annum for one incumbent in the Board of Estimate and Apportionment.

I also transmit copy of report of the Committee on Salaries and Grades relative thereto. Respectfully,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Architectural Draftsman	\$1,740 00	One

A true copy of resolution adopted by the Board of Estimate and Apportionment April 13, 1917.

JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, March 29, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—On March 20, 1917, the Director of the Bureau of Contract Supervision requested the establishment of a position for his office. The Bureau of Personal Service reports thereon as follows:

The request is to establish the position of Architectural Draftsman at \$1,740 per annum, in accordance with the provisions of section 56 of the Greater New York Charter. After the establishment it is proposed to modify the schedule and to transfer to the position Louis W. Feldman, now an Architectural Draftsman at \$1,680 per annum, in the Department of Public Charities. There is money available in the schedule of the Bureau for this purpose. The work to be performed by Mr. Feldman falls within Grade 2 of the specifications for Municipal Examiner, with a minimum salary of \$1,980 per annum. The acting Director states as follows: "Mr. Feldman is engaged in assisting engineers and examiners and also at times working without supervision at examining and preparing contracts, plans and specifications, estimates of cost for alterations to buildings and for special equipment; or in obtaining data regarding requests for funds, and in preparing reports thereon. The work of the Bureau for the first three months of this year as indicated by the number of matters assigned show a ten per cent. increase over the same period of last year, although a new method of assigning and reporting now in force results in several matters being considered as one assignment. The services of this man are necessary."

Recommendation—In view of the foregoing, we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, Mayor; E. W. VOORHIES, Acting President, Borough of Brooklyn; Committee on Salaries and Grades.

Which was referred to the Committee on Salaries and Offices.

Board of Estimate and Apportionment—Request for Special Revenue Bonds for Various Purposes Within Jurisdiction of Given City Departments.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, April 16, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment on April 13, 1917, requesting that the Board of Aldermen recommend the issue of special revenue bonds in the amounts and for the purposes specified in said resolution, for various departments.

I also transmit copy of report of the Committee on Corporate Stock Budget relative thereto. Respectfully,

JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—Among the requests for authorization of corporate stock now pending before the Committee on Corporate Stock Budget, are the following:

Armory Board.

- | | |
|---|-------------|
| (1) January 19, 1917—For the completion of fire exits and alterations to theatre at the 71st Regiment Armory..... | \$36,000 00 |
| (2) January 17, 1917—For equipment for the Outpatient Department, Gouverneur Hospital..... | 17,500 00 |
| (3) February 6, 1917—For new equipment and for removing and relocating present equipment, Kings County Hospital Laundry..... | 30,000 00 |
| (4) February 9, 1917—For alterations and modifications to the Kings County Hospital Power House..... | 136,594 00 |
| (5) March 20, 1917—For the development of site at First Avenue and 68th street for use as a playground..... | 36,000 00 |
| (6) April 12, 1917—To construct a bridge across Gouverneur Slip connecting Gouverneur Hospital with the new Out Patient Department..... | 7,000 00 |
- The Bureau of Contract Supervision, to which these requests were referred, reports thereon as follows:

"(1) *Fire Prevention Work, 71st Regiment Armory*—

"This armory is used about forty-five times each year for reviews, social functions and public school games, at which time it is filled to capacity.

"Pursuant to orders of the Fire Department, temporary exits have been provided. It is necessary to make these permanent, to provide additional exits from the second balconies and to enlarge the present exits. All the necessary work, it is estimated, can be done for \$19,000.

"There is available approximately \$13,000 in two corporate stock funds for the construction and for the alteration of this building. It is necessary that \$6,000 additional be provided for this purpose.

"(2) *Equipment, Outpatient Department, Gouverneur Hospital*—

"The building is practically completed and the necessary equipment must be provided if it is to be operated. The sum requested includes two items as follows: Engineer's equipment, \$4,000; clothing and bedding, \$5,000.

"The Bureau of Contract Supervision has recommended to the Board of Trustees that the boiler plant in this building be not operated, but that a tunnel be constructed to the main hospital and that power service be obtained from the plant in the latter building. Although no action on this suggestion has come to the knowledge of the bureau, it is fair to assume that, as it is very economical in effect it will be adopted. There will therefore be no need of furnishing equipment for an engineer. If the building is conducted for the purpose intended in its authorization, there will be no need of furnishing bedding.

"Owing to increases in costs about \$10,000 will be necessary for the purposes of the request.

"(3) *Equipment of Kings County Hospital Laundry*—

"In 1913, \$75,000 was authorized for the construction and equipment of a laundry at Kings County Hospital. It was originally proposed to construct a building that would be adequate only for the reasonable needs of the staff work at this hospital, but after an investigation it was decided that a new general laundry could be provided for but a small additional sum, \$5,000, and plans were accordingly prepared for a laundry, designed not only to accommodate Kings County Hospital, including both staff and general, but of sufficient size to do the entire laundry work for all the hospitals under the jurisdiction of the Department of Public Charities in Brooklyn.

"A contract for the erection of a laundry building, for the purposes as outlined above, was approved by your Board, contracted for and is now nearing completion.

"In order to equip this building for the purposes intended an additional appropriation of \$30,000 is requested. The increased cost for completing this building is due primarily to the advance in prices in labor, material and equipment, since it was first projected.

"It will be necessary to purchase some new equipment and provide for the moving and relocating of old equipment from the existing laundries, which can be used in the new building.

"The estimated cost has been examined by items by the Bureau and the entire amount requested found to be necessary.

"The new central laundry will effect the discontinuance of the laundries, now part of the following institutions: Greenpoint Hospital, Cumberland Street Hospital, Coney Island Hospital, and will be adequate to take care of the needs of the proposed Bradford Street Hospital, East New York Clinic.

"(4) *Alterations to Kings County Hospital Power House*.

"The proposed expenditure of \$136,594 includes the installation of additional boilers and the construction of an extension to the boiler house; the installation of a new electric generating unit; construction of a service tunnel to Kingston Avenue Hospital; the installation of a three-wire electric feeder system and steam and hot water systems between the two institutions. The object was the discontinuance of the operation of the present power plant at Kingston Avenue Hospital, and to provide cheaper electric current of a proper voltage for these institutions.

"The changes are desirable, both from an operating and economic standpoint.

"Owing to the extent of the work involved and the high cost of labor and materials, especially in mechanical and electrical work, the time is inopportune for making all the improvements herein contemplated and for which funds have been requested. In place thereof, this Bureau recommends that the following equipment only be provided for at this time:

"1st—For a complete three-wire feeder distribution system between the buildings of the Kings County Hospital and the Kingston Avenue Hospital.

"2nd—For the modification of the switchboard in the power house of the Kings County Hospital to properly connect the feeders and distribute the load.

"3rd—For the removal of one 50-K.W., 125-volt generating unit and foundation.

"4th—For the installation of one new 200-K.W., 250-volt generator unit and two balancer sets.

"5th—For the substitution of two 125-K.W., 250-volt generators in place of the present 125-volt generators.

"This installation should be made as soon as possible, not only on account of the saving which will be effected in the cost of current at both institutions, which will approximate \$2,500 per annum, but also because of the following facts:

"The present generating plant at the Kings County Hospital produces current at 110 volts, and, owing to the new extensions to this institution, it is found that it is no longer economical to produce current at that voltage, and, further, that the increased demands for light and power will be such that it will be necessary to increase the size of the plant by installing 250-volt generators and balancer sets. Further, the new electric machinery in the new central laundry at the Kings County Hospital, which is now nearing completion, was designed to operate on 250 volts, direct current, in anticipation that this new generating equipment would be installed and ready to supply current at that voltage for power purposes when required. Also the new electric equipment in the Kingston Avenue Hospital, which is also nearing completion, was designed for 250 volts on the same supposition.

"The estimated cost of the recommended work is \$25,000. There is at present a balance approximating \$9,800 in the corporate stock fund entitled 'C. C. H.—26D, Additional Electric Lighting Facilities at Kings County Hospital,' which is properly chargeable to this work, leaving a balance of approximately \$15,000 to be provided.

"*Improvement of Site for Playground, 68th Street*—

"This site is a plot 200 feet by 300 feet, located on First Avenue, between 67th and 68th streets.

"The adjoining neighborhoods are densely populated and three schools are nearby, and, although a small playground is located at 59th street and another at 77th street, there appears to be need for this improvement.

"It is proposed to grade the entire site, construct walks and fences, surface

playground sections, provide mould and sod for grass borders, construct water supply and drainage, a comfort station and shelters and to plant trees.

"This work is estimated to cost at least \$36,000.

"*6th Bridge Across Gouverneur Slip*.

"The construction of this bridge is necessary in order to permit the transfer of convalescent patients from the hospital proper to a proposed roof ward on the Out Patient Building for the immediate transfer of cases between the buildings and to permit better access for Doctors and Nurses during inclement weather. The Bridge will cost, approximately, \$7,000."

The Committee has considered the above requests and believes that the sums recommended as necessary should be provided for the purposes stated, but from the proceeds of special revenue bonds instead of corporate stock.

We, therefore, recommend the adoption of the attached resolution requesting the Board of Aldermen to ask this Board for authorizations of special revenue bonds in the amounts and for the purposes recommended above and directing the Secretary to present such requests, when made by the Board of Aldermen, to this Board for action, without further report. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; President, Borough of The Bronx; Corporate Stock Budget Committee.

Resolved, That the Board of Aldermen is hereby requested to recommend to the Board of Estimate and Apportionment authorizations of special revenue bonds for the following purposes:

No. 1502.

President, Borough of Queens—Request for Special Revenue Bonds, \$3,500, for Alterations Contemplated in the Queens County Court House.

The City of New York, Office of the President of the Borough of Queens, Long Island City, April 16, 1917.

To the Hon. Board of Aldermen, New York City:

Gentlemen—Due to the fact that the business of the Queens County Court has increased materially, and the quarters originally laid out for the use of the jurors, clerks, county detectives, attendants and other attaches of the Court are cramped and insufficient for the official needs of the Court, it is necessary to enlarge these quarters to relieve the conditions now existing.

The best and most economical way in which this may be done is by making use of the unoccupied space which lies between the Court House proper and the City Prison, which additional space will assist the County Judge, Hon. Burt J. Humphrey, very much in transacting business of the County Court, located in the Queens County Court House, Long Island City, N. Y.

Request is therefore made, in accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter, for your approval of an issue of Special Revenue Bonds to the extent of \$3,500 to provide for the alterations contemplated in the said building. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Thence westerly for 276.141 feet along the center line of 31st Road (Umland Avenue), as said road is laid down upon aforesaid map to the center line of 130th (Urania) Street;

No. 1506.

First Deputy and Acting Commissioner of Public Charities—Requesting an Issue of Special Revenue Bonds, \$180,000, to Meet an Anticipated Deficiency in Account, Code 1952, Fuel Supplies, for the Present Year.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, April 12, 1917.

Re Authorization of Special Revenue Bonds in the Sum of \$180,000.

To the Honorable the Board of Aldermen, City Hall, N. Y.:

Gentlemen—I respectfully request that an authorization of special revenue bond funds in the sum of \$180,000 be made to this Department to meet an anticipated deficiency in account, Code 1952, Fuel Supplies, for the present year.

When the budget was made in 1916 no such high prices as we are obliged to pay at the present time were anticipated and the money that we will need is all due to the excessive prices.

I shall appreciate it if you will give this matter your early and favorable attention.

Very sincerely yours, HENRY C. WRIGHT, First Deputy and Acting Commissioner.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Parks, Borough of The Bronx:

No. 1507.

Commissioner of Parks, The Bronx—Request for Authority to Repave the Eastern Boulevard Without Public Letting.

The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, April 13, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Sir—I have the honor to request that authority be given me, pursuant to the provisions of section 419 of the Greater New York Charter, to enter into a contract, without public letting, for furnishing all labor and materials for repaving with sheet asphalt and asphalt blocks on concrete foundation the roadway of the Eastern Boulevard, from a point 500 feet north of the centre of Split Rock Road to the northern boundary of Pelham Bay Park, in the Borough of The Bronx, in the City of New York, at a cost not to exceed the sum of \$47,699.50.

On June 9, 1916, the Board of Estimate and Apportionment authorized \$45,500 for the purpose of repaving the Eastern Boulevard in Pelham Bay Park, from Split Rock Road to the northerly boundary of the park, under the jurisdiction of the Department of Parks, Borough of The Bronx.

On October 6, 1916, this resolution was amended by adding after the words "northern boundary of the park" the following: "and the Bronx and Pelham Parkway, from Butler Street to White Plains Road."

The resolution was amended so as to permit of the repaving with asphalt a portion of Bronx and Pelham Parkway, inasmuch as the authorization for that purpose was insufficient to award a contract, for which bids were received.

The amount charged against the \$45,500.00 authorization for the above purpose was \$2,533.35, leaving at the present time an unencumbered balance of \$42,966.65, from which the sum of \$600.00 will be required for inspection, leaving the available balance \$42,366.65.

On March 15, 1917, the following bids were received for repaving with sheet asphalt and asphaltic blocks on concrete foundation the roadway of the Eastern Boulevard, from a point 500 feet north of the center of Split Rock Road to the northern boundary of Pelham Bay Park, the bids being as follows:

Davney Asphalt Co., Inc.	\$51,221 50
The Uvalde Asphalt Paving Co.	52,650 00
The Asphalt Construction Co.	52,825 00

The lowest bid exceeded the unencumbered balance in the sum of \$8,254.85.

The question of the cause of the excessive high unit price was taken up by the Bureau of Contract Supervision of the Board of Estimate and Apportionment with the bidders, and, in order to obtain lower bids, the following modifications were proposed in the contract form and specifications:

"The clause in the contract requiring the retention of ten per cent. of the cost to be changed so as to reduce the retained percentage to one per cent.

"The specifications in concrete to be changed from a mixture composed of one part cement, three parts of sand and five parts of broken stone of a maximum size of one inch to call for a concrete composed of one part cement, three parts sand and six parts of broken stone of a maximum size of one and one-half inches."

On the contract and specifications, as revised, the three bids were received by the Park Board on April 12, 1917, the lowest bidder being Davney Asphalt Co., Inc., \$47,699.50.

The Board of Estimate and Apportionment, at a meeting held Friday, April 13, 1917, authorized an additional sum of \$5,336.00, and at the same time approved the plans, specifications and estimate of cost in an amount not to exceed \$47,699.50.

I believe that, on account of the constantly increasing cost of labor and material, the low bid for this work is reasonable and that it would be to the advantage of the City to enter into a contract at this time without public letting.

Respectfully, THOMAS W. WHITTLE, Commissioner of Parks, Borough of The Bronx.

In connection with the foregoing communication Alderman McCann offered the following resolution, and moved that the same be made a Special Order for the day. Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Parks for the Borough of The Bronx be and he is hereby authorized and empowered to enter into contract, without public letting, for furnishing all labor and materials for repaving with sheet asphalt and asphalt blocks on concrete foundation, the roadway of the Eastern Boulevard from a point five hundred feet north of the center of Split Rock Road to the northern boundary of Pelham Bay Park, at a cost not to exceed forty-seven thousand six hundred and ninety-nine dollars and fifty cents (\$47,699.50).

The Vice-Chairman then put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Delaney, Diemer, Dixon, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Hatch, Haubert, Heyman, Hilkemeier, Kenney, McCann, McCourt, McGarry, McGillick, McKee, McManus, Martin, Molen, Mullen, O'Rourke, Post, Quinn, Roberts, Robitzek, Ryan, Schweickert, Shields, Silberstein, Smith, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; the Vice-Chairman—62.

The Vice-Chairman laid before the Board the following communication from the Commissioner of Parks, Borough of Brooklyn:

No. 1508.

Commissioner of Parks, Brooklyn—Request for Authority to Enter Into Contract for the Paving and Improvement of the Eastern Parkway Extension Without Public Letting.

City of New York, Department of Parks, Borough of Brooklyn, Litchfield Mansion, Fifth Street and Prospect Park West, April 13, 1917.

Pavement on Eastern Parkway Extension.

To the Honorable Board of Aldermen of The City of New York: Gentlemen—Application is hereby respectfully made under section 419 of the City Charter for permission to make a contract without further advertising, and without formal public letting for the paving and improvement of the Eastern Parkway Extension in the Borough of Brooklyn, between Ralph avenue and Bushwick avenue. Authorization is desired to make such a contract for the sum of one hundred thirty-eight thousand eight hundred forty-six dollars and twelve cents (\$138,846.12).

On July 27, 1916, an appropriation was made for doing this work, amounting to one hundred twenty thousand dollars (\$120,000). On January 26, 1917, the form of contract, plans and specifications were approved by the Board of Estimate at an estimated cost of one hundred fourteen thousand one hundred seventy eight dollars and forty cents (\$14,178.40). The contracts were advertised and the bids were opened on March 15, 1917. The lowest of three bids received at that time was one hundred forty-seven thousand nine hundred seventy-six dollars and sixty-five cents (\$147,976.65). On March 23, 1917, the Board of Estimate approved a slightly amended form of contract. The work was readvertised and the lowest of three bids received on April 5, 1917, was one hundred and thirty-eight thousand eight hundred forty-six dollars and twelve cents (\$138,846.12).

It is extremely important that this work should be done soon. The Eastern Parkway Extension runs through a crowded section of Brownsville and East New York. The old pavement has completely gone to pieces and cannot be further maintained.

On this date the Board of Estimate and Apportionment has made a further appropriation of twenty-four thousand six hundred dollars (\$24,600) so as to increase the fund to meet the amount of the lowest bid.

It is my understanding in view of a recent court decision this application should be made to your Honorable Board in spite of the fact that there are now sufficient funds to let the contract.

It is highly important that action should be taken soon as the bids made at the public letting hold good for only thirty days.

Hoping that this will have your early and favorable consideration, I am

Very truly yours, RAYMOND V. INGERSOLL, Commissioner.

In connection with the foregoing communication, Alderman McCann offered the following resolution, and moved that the same be made a Special Order for the day. Which was adopted.

No. 1509.

President of the Borough of Manhattan—Requesting Permission to Expend \$35,000 for the Renovation and Preservation of the City Hall Without Public Letting.

City of New York, President of the Borough of Manhattan, Municipal Building, April 16, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, Manhattan:

Dear Sir—I respectfully petition your Honorable Board to grant permission, by resolution, for the expenditure of funds for the work required in the renovation and preservation of the City Hall Building covered by the resolution adopted by the Board of Estimate and Apportionment under date of December 28th, 1916, to the amount of \$35,000, without public letting. I also request that permission be given, pursuant to Chapter 419 of the Greater New York Charter, to enter into contracts, without public letting. The character of the work required in the renovation and refinishing of the stone work is such that specifications cannot be written therefor without serious loss to the City because of the existing conditions, which cannot be foreseen until the work in question is uncovered and the obvious possibility of obtaining work of inferior quality to that which has already been done under conditions which have given satisfaction in the past making it both necessary and desirable that an exemption from public letting should be granted. Sincerely yours,

MARCUS M. MARKS, President, Borough of Manhattan.

Which was referred to the Committee on Public Letting.

That, having examined the subject, it believes the proposed resolution to have sufficient merit to make it advisable to recommend it to the Board for favorable action, and it so recommends.

Whereas, the United States of America has heretofore declared war on the German Empire; and

Whereas, by reason of this the cost of the necessities of life have been greatly enhanced and increased; and

Whereas, by reason of the increase in the necessities of life it appears from the daily press that considerable of our citizens are suffering; and

Whereas, it is the opinion of the Board of Aldermen of the City of New York that some measure be taken by the City of New York with a view of relieving as much as possible the aforesaid situation; now therefore be it

Resolved, That it is the consensus of opinion of the Board of Aldermen of the City of New York that the Mayor of the City of New York should, through his various commissioners, devise ways and means with a view of planting vegetables upon idle grounds owned by the City of New York as well as upon park property owned by the City of New York and to that end should cause the park commissioners to devise ways and means therefor and thereupon call upon this Board to authorize the City of New York to issue bonds to cover any expense necessary therefor.

Reports of the Committee on Finance—

No. 1300 (G. O. 299).

Report of the Committee on Finance in Favor of Filing Resolution Recommending That a Public Bath Be Constructed in 143rd Street, Borough of The Bronx.

The Committee on Finance, to which was referred on February 20, 1917 (Minutes, page 546), the annexed resolution recommending that a public bath be constructed in 143d street, Borough of The Bronx, respectfully

REPORTS:

That the Committee, being advised of the insufficient funds available for this purpose, believes the time inopportune for such a recommendation, and recommends the said resolution be placed on file.

Whereas, It has been the policy of The City of New York to take precautionary measures at every opportunity to preserve and maintain the health of the community by such methods as mosquito extermination, the building of Public Baths and other means, that was deemed to be necessary for the purpose, and for which money had been appropriated to carry out the work; and

Whereas, In the Borough of The Bronx, corporate stock had been issued to the extent of \$320,000 for the specific purpose of "interior public baths in the Borough of The Bronx," and was authorized by the Board of Estimate and Apportionment on the following named dates:

June 6, 1902	\$15,000 00
July 1, 1903	155,000 00
May 20, 1904	75,000 00
March 16, 1905	75,000 00

Total.....\$320,000 00

—and of which there remained on December 23, 1909, an unencumbered balance of funds for the aforesaid purpose amounting to \$140,000; and

Whereas, The City of New York did on September 21, 1909, purchase a site of land, situate on the south side of 143rd St., 140 feet west of Brook Avenue, in the Borough of The Bronx, for the specific purpose of building an interior public bath thereon, for the sum of \$14,000 for aforesaid site of land; and

Whereas, Plans were prepared for the construction of an interior public bath on aforesaid site purchased for the purpose. The estimated cost of which, including architect's fees was \$140,000; and

Whereas, Honorable John F. Murray, President of the Borough of The Bronx, under date of December 14, 1909, and again on December 18, 1909, in an amended form, requested authority from the Board of Estimate and Apportionment, to proceed with the contract for the construction of said interior public bath on aforesaid site; and for the reapproval of the issue of corporate stock heretofore made for the purpose of interior public baths, in the Borough of The Bronx, in order that the unencumbered balance thereof may become available. The amount specified being \$140,650.64; and

Whereas, The Board of Estimate and Apportionment, at a meeting held on Dec. 23, 1909, adopted a resolution, approving the request of the President of the Borough of The Bronx; and

Whereas, A different set of officials were elected to office and assumed the duties of same on Jan. 1, 1910, who failed to carry out the provisions of the resolution relating to the construction of the bath on 143rd St., 140 feet west of Brook Avenue, Borough of The Bronx, and without any public record of any objection to the bath at the place selected, or of any record of any proceeding leading up to the date of June 3, 1910, when the Board of Estimate and Apportionment, approved by resolution, the recommendation of its corporate stock committee, Hon. William A. Prendergast, Comptroller; Hon. John Purroy Mitchel, President of the Board of Aldermen, and Hon. George McAneny, President of Borough of Manhattan, rescinding the issues of corporate stock of dates May 20, 1904 and March 16, 1905, and which was approved by the Board of Aldermen at a meeting held on June 21, 1910; and

Whereas, There are at present absolutely no facilities for bathing in the lower end of the Borough of The Bronx, it was wrong to deprive the people of this congested section of the city of the opportunities afforded other sections of the city; and

Whereas, The City has lost the taxes which it would have received had the land not been bought because the plot has remained idle and unused up to the present time, thereby placing an additional burden on the taxpayers of the city, due to a lack of prudence of the officials intrusted with the faithful discharge of their duties for the past eight years; and

Whereas, The people of The City of New York are suffering enough from conditions over which they have no control, without the men they elect to office heaping burdens upon them. Therefore be it

Resolved, That the Board of Aldermen disapproves of the policy of purchasing property for any specific purpose, unless that purpose is carried out; and be it further

Resolved, That the Board of Aldermen of The City of New York recommends to the Board of Estimate and Apportionment that an interior public bath be constructed on the site of land bought by the City for \$14,000, known as Lots 42 and 43, Block 2287, located on the south side of 143d St., 140 feet west of Brook Ave., in the Borough of The Bronx, for the reason that it is essentially necessary for the health of the people residing in that section of the city.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:
No. 1300—Resolution Recommending That Public Bath Be Constructed in 143d Street, Borough of The Bronx.

Sir—As you requested in your communication of February 23, 1917, I give you below the facts in relation to the above mentioned matter.

The Board of Estimate and Apportionment authorized funds for interior public bath purposes on the following dates:

June 6, 1902	\$15,000 00	For the construction and equipping of interior public baths and the acquisition of sites therefor.
June 16, 1903	2,500 00	To pay the expense of preparing the necessary plans and specifications for the construction of interior public baths.
July 1, 1903	155,000 00	For the acquisition of sites and the construction of buildings for interior public baths.
May 20, 1904	75,000 00	To pay for the acquisition of site and the construction of a building for an interior public bath.
Mar. 16, 1905	75,000 00	For the acquisition of site and the construction of a building for an interior public bath.

\$322,500 00

On June 3, 1910, the resolution of May 20, 1904, was amended by reducing the amount of the authorization to \$17,000 and the resolution of March 16, 1905, was rescinded. This made the net amount of corporate stock authorized \$189,500. With the premiums the amount of funds available was \$192,982.61.

There was paid out of these funds \$14,000 for a site in 143d Street near Brook Avenue, \$700 to an architect in adjustment of claim for services in preparing preliminary plans, for the construction of a building on the site referred to and \$48.75 for other incidental expenses. With the exception of the amounts specified approximately \$171,000 was spent for an interior public bath at Elton Avenue and 156th Street. There is at present an available balance of \$6,901.89 in this fund.

No request is pending before the Board of Estimate and Apportionment for additional funds to construct a building on the site at 143d Street, near Brook Avenue. Such a request would originate with the President of the Borough of The Bronx. Very truly yours,

TILDEN ADAMSON, Director.

Which, on motion of Alderman Drescher, was laid over for one week.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$990, for Purchase and Installation of an Automatic Blue Printing Machine—President, Borough of Queens.

The Committee on Finance to which was referred on March 13, 1917 (Minutes, page 660) the annexed request of the President of the Borough of Queens for Special Revenue Bonds, \$1,540, for the purchase and installation of an automatic blue printing machine, respectfully

REPORTS:

That after hearing Mr. Brock, and Mr. Moore, Consulting Engineer, Borough of Queens, the Committee believes their is need of such machine and recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of nine hundred and ninety dollars (\$990), the proceeds whereof to be used by the President of the Borough of Queens for the purpose of the purchase and installation of an automatic blue printing machine. All obligations contracted for hereunder to be incurred on or before December 31, 1917.

FRANCIS P. KENNEY, WM. P. KENNEALLY, JOHN DIEMER, F. H. STEVENSON, JOHN T. EAGAN, MICHAEL STAPLETON, ROBERT L. MORAN, FRANK A. CUNNINGHAM, CHARLES DELANEY, Committee on Finance.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 21, 1917.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—In accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter, I hereby request your approval of the issue of Special Revenue Bonds to the extent of one thousand five hundred and forty dollars (\$1,540), to provide for the purchase and installation of an automatic blue printing machine.

There was installed several years ago such a machine in the Topographical Bureau of this department, but it has become in such condition of disrepair as to require almost a complete reconstruction in order to render it useful and it is my judgment that the purchase of a new machine of a modern type would be to the best interest of the City.

The request for such installation was made in the departmental estimate for 1917 but the provision therefore was not recommended at the time by the Budget Committee.

Very truly yours, MAURICE E. CONNOLLY, President of the Borough of Queens.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 24, 1917.

No. 1350—President, Borough of Queens, Requesting Issue of Special Revenue Bonds, \$1,540, for the Purchase and Installation of an Automatic Blue Printing Machine.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen: Sir—It is proposed to purchase an Automatic Blue Printing, Washing and Drying Machine for the Topographical Bureau, situated in the Hirschman Building, on 12th Street, Long Island City.

Reference to the fund ledgers in the Department of Finance discloses that in the early part of February, 1917, an open market order was issued in the amount of \$990 to the Revolute Machine Company for a Blue Printing and Drying Machine to be used by the engineering division of the Bureau of Sewers and Highways, situated in the Queens Borough Building, on Hunterspoint Avenue, Long Island City. This building is only a short distance from the Hirschman Building and messengers are available and in use between them.

A few years ago the President of the Borough of Queens included in his annual budget estimate a request for a Blue Printing Machine for the Bureau of Sewers and Highways. After considerable discussion, it was decided that one machine, which was then being operated in the Topographical Bureau, was sufficient for the needs of the entire office of the President of the Borough, messengers being employed carrying back and forth the tracings and the finished prints.

The Revolute Blue Printing Machine which has recently been purchased is capable of doing 1,800 square feet of blue printing per hour, an amount considerably in excess of the requirements of the entire three bureaus—Sewers, Highways and Topographical.

The need for the additional machine is not apparent. Very truly yours,

PETER J. MCGOWAN, Acting Director.

Report of the Committee on Finance in Favor of Filing Request of the President of the Borough of Richmond for Special Revenue Bonds, \$2,200, for the Purchase of Fuel.

The Committee on Finance, to which was referred on March 20, 1917 (Minutes, page 748), the annexed request of the President of the Borough of Richmond for Special Revenue Bonds, \$2,200, for the purchase of fuel, respectfully

REPORTS:

That, basing its conclusion on the annexed report of the Bureau of Contract Supervision, the Committee recommends the said request be placed on file.

The City of New York, Office of the President of the Borough of Richmond, Bureau of Public Buildings and Offices, Borough Hall, New Brighton, New York City, March 14, 1917.

To the Honorable Board of Aldermen, City Hall, New York:

Gentlemen—Owing to the high cost of coal, the money allowed for fuel for public buildings and offices is insufficient to heat and operate public buildings under my jurisdiction the remainder of the year; I, therefore, kindly request your Honorable Board to adopt the necessary resolutions instructing the Comptroller to issue special revenue bonds to the amount of \$2,200.00 to enable us to purchase sufficient fuel to carry us through the remainder of the year 1917.

As this matter is very urgent I respectfully ask that immediate action be taken regarding same. Yours very respectfully,

HENRY P. MORRISON, Acting President, Borough of Richmond.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, March 26, 1917.

No. 1386—President of the Borough of Richmond—Request Dated March 14, 1917, for Special Revenue Bonds, \$2,200, for Purchase of Fuel for the Remainder of the Year 1917.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—The request is based on the assumption that additional coal will be required for the year, as follows:

Stove Coal, 53 tons at \$8..... \$424 00
Buckwheat Coal, 300 tons at \$7.33 1/3..... 2,200 00

\$2,624 00

Balance on Hand for Bureau of Public Buildings and Offices..... 424 00

Requested \$2,200 00

These quantities appear approximately correct. The estimated price is, however, problematical, it being very probable that if the coal is contracted for in May a considerable reduction will be obtained.

There is now available a balance of \$3,328.24 in the account for all the Bureaus, and it is therefore recommended that action upon this matter be deferred pending more definite information as to the probable requirements of all the bureaus of the Borough, at which time accruals in personal service accounts may be utilized.

Respectfully, PETER J. MCGOWAN, Acting Director.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$22,865.01, for the Replenishment of Fund for the Purchase of Coal—Fire Department.

The Committee on Finance, to which was referred on April 10, 1917 (Minutes, page 65), the annexed request of the Fire Commissioner for special revenue bonds, \$22,865.01, for the replenishment of fund for the purchase of coal, respectfully

REPORTS:

That this request is due to the great increase in the cost of coal, and, basing its conclusions on the annexed report of the Bureau of Contract Supervision, the Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-two thousand eight hundred and sixty-five dollars and one cent (\$22,865.01), the proceeds whereof to be used by the Fire Commissioner for the purpose of replenishing fund for the purchase of coal for the year 1917.

Fire Department of the City of New York, April 2, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Sir—This department was allowed in the 1917 budget \$111,130.00 for the purpose of purchasing 18,820 tons of coal, all grades. To date 7,894 tons have been purchased at a cost of \$47,193.01. Of the quantity already contracted for 4,895 tons are semi-bituminous coal for fireboats, the cost ranging from \$3.85 to \$5.69 per ton.

There will be required in addition to the quantity already purchased 10,836 tons to meet the tonnage allowed in the budget. Of this quantity 8,301 tons are anthracite, which costs more than coal for fireboats.

Based on the needs for the balance of the year, this department will require, in addition to the funds now available in the fuel account, \$22,865.01 or contracts about to be advertised cannot be awarded. It is requested, therefore, that an issue of revenue bonds in the sum of \$22,865.01 be authorized by your board.

Respectfully, ROBERT ADAMSON, Fire Commissioner.

No. 1467—Request dated April 2, 1917, from the Fire Commissioner of the City of New York for an issue of Special Revenue Bonds, \$22,865.01, for the Purchase of Coal.

Sir—The Bureau of Contract Supervision, to which this request was referred, reports thereon as follows:

In the 1917 budget \$111,130 was provided for the purchase of 18,820 tons of coal; to date 7,884 tons have been contracted for at a cost of \$47,193.01.

A study of the requirements of the amount of coal for the balance of the year indicates that 10,936 tons, at a total estimated cost of \$90,940, will be required.

There is a balance in the budget funds of \$68,074.99, leaving the sum of \$22,865.01 to be provided, which appears necessary.

Very truly yours,

TILDEN ADAMSON, Director.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$4,130, for the Replenishment of Fund for the Purchase of Coal—Department of Plant and Structures.

The Committee on Finance to which was referred on April 10, 1917, (Minutes, page 65) the annexed request of the Commissioner of Plant and Structures for Special Revenue Bonds, \$4,130, for the replenishment of fund for the purchase of coal, respectfully

REPORTS:

That this request is due to the great increase in cost of coal and basing its conclusions on the annexed report of the Bureau of Contract Supervision, it recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of four thousand dollars (\$4,000), the proceeds whereof to be used by the Commissioner of Plant and Structures for the purpose of replenishing fund for the purchase of coal for the year 1917.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., April 4, 1917.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—The amount of coal needed to be purchased by this Department for the balance of the year will be approximately 800 gross tons. The price paid for some coal purchased last month was \$8.33 per gross ton, and at this price the cost will amount to \$6,664. The balance in this Department's account "2764 TB, Fuel Supplies," is \$2,433.08, of which \$2,402.41 is credited to bridge revenue allowance, and \$30.67 is credited to tax levy allowance. It is assumed that approximately \$100.92 will be needed for the purchase of kerosene, gasoline, etc. There will therefore be needed for the purchase of coal in addition to the funds authorized the sum of \$4,130 (\$6,664 minus \$2,534). I beg to request that your Honorable Board recommend to the Board of Estimate and Apportionment that the Comptroller be authorized to issue Special Revenue Bonds in the amount of Four Thousand One Hundred and Thirty Dollars for the purpose of increasing the allowance under said schedule, in order that this coal may be purchased when required. Respectfully,

F. J. H. KRACKE, Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 9, 1917.

Request of \$4,130 Special Revenue Bonds, Department of Plant and Structures for Purchase of Coal.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—On April 4, 1917, the Commissioner of Plant and Structures, I have been informed, requested special revenue bonds to the amount of \$4,130 for the purchase of coal. I submit herewith the facts in reference to this matter.

The budget for the year 1917 provides \$7,500 for fuel supplies which is the amount requested by the commissioner in his departmental estimate for this year. Of this amount \$1,565 was to be provided by tax levy and the balance, \$5,935, from revenues of the Brooklyn Bridge. At the present time there is a total balance in these two funds of about \$2,534.

The request of the commissioner is based on estimated requirements for the balance of the year of 800 tons of coal at an average price of \$8.33 per ton, or \$6,664. This amount, less the available balance, indicates a deficit of \$4,130.

The statement below shows the allowances made for coal in the 1917 budget, which is exclusive of the amounts provided for charcoal and fuel oil. It also shows the coal consumption in 1916 and the cost thereof:

	Estimate for 1917.			Consumption in 1916.	
	Tons.	Price.	Amount.	Tons.	Amount.
Broken coal	12	\$5 75	\$69 00	5	\$31 58
Pea coal	48	5 50	264 00	40.7	232 64
Blacksmith's coal	340	6 75	2,295 00	354.7	2,573 50
Nut and stove coal	313.5	1,179 39
Buckwheat coal	975	4 50	4,387 50	711.4	3,159 36
Bituminous	1,375		\$7,015 50	1,425.8	\$7,179 03

Since the first of the year the department purchased 205.79 tons of stove and nut coal at an average price of \$9.89 per gross ton, 398.55 tons of bituminous coal at an average price of \$6.87 per ton and 11 tons of blacksmith's coal at an average price \$9.61 per ton, a total of \$4,877.60. This is an excess in cost of \$1,635.95 over the prices on which the departmental estimate was based. These prices were the same as those then prevailing. Based on present prices, the estimated tonnage of coal still to be delivered, there is an apparent additional deficit of \$2,360, or a total of \$3,995.95. Part of this deficit is in the bridge revenue fund already referred to.

Notwithstanding the fact that a very large part of the coal still to be delivered is to be used for the Brooklyn Bridge Division of this department which is operated and maintained out of the revenues of the Brooklyn Bridge, it appears advisable at this time to provide the entire deficit out of special revenue bonds as the revenues of this bridge have been declining for some time past with a probable further decrease upon the completion of the Broadway-Fourth Avenue Subway.

The sum of \$4,000 should be sufficient to meet the coal requirements for the balance of the year. Respectfully,

TILDEN ADAMSON, Director.

The Committee on Finance, to which was referred on April 10, 1917 (Minutes, page 65), the annexed request of the Board of Trustees of Bellevue and Allied Hospitals for Special Revenue Bonds, \$7,760, for repairs and alterations to the day camp boat, "John H. Huddleston," respectfully

REPORTS:

That these repairs are necessary in order to obtain full use, both day and night, of this boat as a tuberculosis camp.

The Committee is heartily in favor with the purpose, and recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seven thousand seven hundred and sixty dollars (\$7,760), the proceeds whereof to be used by the Board of Trustees, Bellevue and Allied Hospitals for the purpose of providing for repairs and alterations to the day camp boat "John H. Huddleston," all obligations contracted for hereunder to be incurred on or before December 31, 1917.

Bellevue and Allied Hospitals, office of the Board of Trustees, 1st Avenue and 26th Street, New York, April 4, 1917.

Hon. FRANK DOWLING, President, Board of Aldermen, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize an issue of special revenue bonds in the sum of \$7,760 to make much needed repairs and changes in the tuberculosis day camp boat "John H. Huddleston," located at the foot of Corlears Slip. The boat "John H. Huddleston" serves as a tuberculosis day camp for the Gouverneur district, and in order to obtain the full use and proper benefits of this very important service the following repairs and changes are necessary:

Plumbing work	\$500 00
Hot water system	775 00
Roofing on hurricane deck	200 00
Carpenter work—	
Item 1, all repairs and new work on main deck	625 00
Item 2, complete enclosure on promenade deck	1,536 00
Item 3, dividing partitions between class rooms and main deck	288 00
Item 4, ladies' winter cabin on promenade deck	470 00
Item 5, railings on hurricane deck	284 00
Item 6, enclosures around children's playground, promenade deck	164 00
Painting, two coats	1,800 00
Electric wiring, lower and main decks	662 00
Electric wiring, promenade and hurricane decks	450 00

\$7,760 00

This request is made on account of the fact that the Budget for Bellevue and Allied Hospitals for 1917 allowed only \$4,000 for Gouverneur Hospital in appropriation No. 2087, General Repairs, and most of these are for prescribed items.

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$120, to Pay for Employment of a Temporary Clerk—Board of Coroners, Manhattan.

The Committee on Finance, to which was referred on April 10, 1917 (Minutes, page 66), the annexed request of the Board of Coroners, Manhattan, for special revenue bonds, \$120, to pay for employment of a temporary Clerk, respectfully

REPORTS:

That this request is due to two Clerks being taken ill, necessitating the employment of a temporary Clerk. There being no funds from which said temporary Clerk may be paid, the Committee recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred and twenty dollars (\$120), the proceeds whereof to be used by the Board of Coroners, Borough of Manhattan, for the purpose of paying for employment of a temporary Clerk. Board of Coroners, Borough of Manhattan, New York, Municipal Building, April 6, 1917.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—I respectfully request the issuance of special revenue bond funds in the amount of \$120 to pay for the employment of a temporary Clerk in this office. Two of the Clerks being sick and this office being open at all hours, day and night, for the transaction of the public business, it was necessary to appoint a Clerk for this purpose. Respectfully yours,

ISRAEL L. FEINBERG, President of the Board.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, April 16, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—Your letter of April 12, 1917, in relation to the request of the Board of Coroners, Borough of Manhattan, for an issue of special revenue bonds in the sum of \$120 to pay the salary of a temporary Clerk, has been received.

There are no funds within the 1917 appropriation to the Board of Coroners from

which the services of a temporary Clerk may be paid. In the Salary and Wage Accruals Account there are at present no balances available for a transfer. The employment of a temporary night Clerk was made necessary from March 28, 1917, by reason of the fact that the regular night Clerk has been sick with rheumatism for about three weeks and is now employed only occasionally during the day time. The day force is handicapped by reason of the fact that one of their staff was hurt by an automobile last summer and is still suffering from the effects of the accident and cannot be assigned to night work. The Board of Coroners applied to the Civil Service Commission for certification of a list from which to appoint a Clerk. None of the Clerks on the list would accept the employment. The Board of Coroners were then permitted by the Civil Service Commission to make an emergency appointment of any one who would accept the position. An allowance of \$120 in special revenue bonds will provide the necessary funds for the employment of the temporary Clerk for thirty nights at \$4 per night. Very truly yours.

GEORGE L. TIRRELL, Director.

Report of the Committee on Finance in Favor of Adopting Resolution Amending Special Revenue Bond Issue, \$118,352, for Equipment, Etc., of Aqueduct Emergency Police, so as to Reimburse Police Department Contingent Account in the Sum of \$62,000.

The Committee on Finance, to which was referred on April 10, 1917 (Minutes, page 67), the annexed request of the Police Commissioner for amendment of Special Revenue Bond issue, \$118,352, for equipment, etc., of Aqueduct Emergency Police, so as to reimburse the Police Department contingent account in the sum of \$62,000, respectfully

REPORTS:

That, since the adoption of the previous resolution the Federal Authorities have taken over the guarding of the Aqueduct, relieving the Police from said duty. The contemplated resolution is for the purpose of reimbursing the Police Department contingent fund for expenses incurred.

It, therefore, recommends the adoption of the accompanying resolution.

Resolved, That the resolution adopted March 27 requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the amount of one hundred and eighteen thousand three hundred and fifty-two dollars (\$118,352), the proceeds whereof to be used by the Police Commissioner for equipment, maintenance, supplies and operation necessary for the Emergency Aqueduct Police, as provided by chapter 64 of the Laws of 1917, is hereby amended to read as follows:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of sixty-two thousand dollars (\$62,000), the proceeds whereof to be used by the Police Department for the purpose of reimbursing the Contingent Account because of emergency expenditures which could not be anticipated at the time of the preparation of the budget.

City of New York, Police Department, Office of the Commissioner, April 9, 1917. The Honorable the Board of Aldermen, City Hall, New York City:

Gentlemen—On March 27 your Board adopted a resolution requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the amount of \$118,352, the proceeds of which were to be used by the Police Commissioner for the purpose of providing equipment, maintenance, supplies and services necessary for the Emergency Aqueduct Police, as provided by chapter 64 of the Laws of 1917.

Subsequent to the adoption of the above resolution the Federal authorities took over the policing of the Aqueduct, so that it is not necessary for the Police Department to go ahead with this service. So far as possible, orders for equipment have been cancelled and further purchases were stopped. The equipment which has been obtained will, however, be needed for Special Policemen within the City or for the regular service of the Department.

It is respectfully requested therefore that your Board amend the resolution of March 27 so as to provide that special revenue bonds in the amount of \$62,000 be authorized, the proceeds to be used for reimbursement of the Police Department Contingent Account (Code No. 1634), in which a deficit is anticipated. The above amount will meet the emergency expenditures for equipment and supplies necessary for the organization of the Aqueduct Force and also for emergency service within the City; it provides only for actual needs up to this time and does not include amounts estimated for future needs.

An itemized statement of the requirements is attached hereto.

Respectfully, A. WOODS, Police Commissioner.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$88,389.12, for Payment of Salaries of Additional Force—Fire Department.

The Committee on Finance, to which was referred on April 10, 1917 (Minutes, page 67), the annexed request of the Fire Commissioner for Special Revenue Bonds, \$88,389.12, for payment of salaries of additional force, respectfully

REPORTS:

That these funds are for the purpose of providing additional companies to meet possible emergencies, and as under existing conditions the need is urgent, the Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of eighty-eight thousand three hundred and eighty-nine dollars and twelve cents (\$88,389.12), the proceeds whereof to be used by the Fire Commissioner for the purpose of payment of salaries of additional force as follows:

100 Firemen at \$666.56.....	\$66,656 00
2 Engineers at \$1,133.28.....	2,266 56

Fire Department, City of New York, April 10, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City of New York:

Sir—In order that this department may be able to meet possible emergencies, we are organizing ten additional fire companies for service during the period of the war in important sections of Manhattan and Brooklyn. To organize these companies requires 18 officers, 2 engineers and 100 firemen. We have enrolled a very large number of volunteer firemen, consisting principally of retired members of the department who are still able to do fire duty, and retired volunteers, but in view of the likelihood that the present war may continue for many months, and possibly a year or two years, I do not feel that we should call upon volunteers to give us their services for so great a length of time. I therefore request that your Board authorize an issue of revenue bonds to provide for the following addition to the force:

100 Firemen at \$666.56.....	\$66,656 00
2 Engineers at \$1,133.28.....	2,266 56
17 Lieutenants at \$1,400.....	23,800 00
1 Captain at \$1,666.56.....	1,666 56

\$94,389 12

Less saving on account of promotions..... 6,000 00

\$88,389 12

When this force is no longer needed, it will require but a short time to reduce the force to its present strength by omitting the filling of vacancies as they occur. I would respectfully ask prompt action upon this request.

Respectfully yours, ROBERT ADAMSON, Fire Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, April 16, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—In the matter of item No. 1478, relating to a request of the Fire Department for special revenue bonds for the purpose of manning ten additional fire companies, I would ask that you defer action for one week, as data which I am collecting cannot be had in time for your meeting.

Very truly yours, GEORGE L. TIRRELL, Director.

Which, on motion of Alderman Kenney, was made a Special Order for the day. The Vice-Chairman put the question whether the Board would agree with said resolution.

No. 1406 (S. O. 246).

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Plant and Structures to Purchase Certain Supplies Without Public Letting.

The Committee on Public Letting to which was referred on March 27, 1917, (Minutes, page 786) the annexed request of the Commissioner of Plant and Structures for authority to purchase certain supplies for repaving and reconstructing the roadways of the Brooklyn Bridge without public letting, respectfully

REPORTS:

That owing to the unusual conditions prevailing, it will be many months before delivery by contract could be made, and as it is the desire of the department to commence work soon and sufficient materials can be purchased in the open market, the Committee recommends the adoption of the said resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Plant and Structures be, and he is hereby authorized and empowered to purchase certain supplies for repaving and reconstructing the roadways of the Brooklyn Bridge in the open market without public letting, to wit, as follows:

Structural Steel, Rivets, Bolts, Washers, etc., to an amount not exceeding..	\$31,500 00
Yellow Pine Lumber, to an amount not exceeding.....	7,000 00

Total amount..... **\$38,500 00**

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., March 23, 1917.

To the Honorable the Board of Aldermen of the City of New York:

Gentlemen—Funds to the amount of \$80,000 have been authorized by the Board of Estimate and Apportionment for Repaving and Reconstructing the Roadways of the Brooklyn Bridge, between the Anchorages. For the prosecution of the work various supplies will be purchased, including structural steel, rivets, bolts, washers, lumber and wood blocks. The supplies first needed will be the structural steel, rivets, bolts, washers etc., to be used in reconstructing the floor, and the lumber to be used under the wood blocks. If the steel is purchased on contract it would require many months before delivery could be made, as the steel plants are filled with orders. Similarly, if the lumber is purchased on contract, it would require much time for its cutting and shipment. I believe that considerable of the steel and lumber can be purchased in open market for early delivery, and, in view of the probable increase in prices, obtained as cheaply or cheaper than if purchased by contract. This would insure an early commencement of the work. It is proposed to purchase at this time the lumber required on one roadway and the structural steel, etc. required for both roadways. I therefore beg to request your Honorable Board to grant me permission to purchase in the open market, without public letting, the following supplies, for use in repaving and reconstructing the roadways of the Brooklyn Bridge:

Structural Steel, Rivets, Bolts, Washers, etc., to an amount not exceeding.....	\$31,500 00
Yellow Pine Lumber, to an amount not exceeding.....	7,000 00

The wood blocks required later will be purchased in the usual manner by contract. Yours truly, F. J. H. KRACKE, Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Correction to Purchase Botanical and Agricultural Supplies Without Public Letting.

The Committee on Public Letting, to which was referred on April 3, 1917, (Minutes, page 10), the annexed request of the Commissioner of Correction for authority to purchase botanical and agricultural supplies without public letting, respectfully

REPORTS:

That past experience has proven that cheaper prices and quicker deliveries can be obtained by open market buying than by contract.

It, therefore, recommends the adoption of said resolution.

Resolved, That in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Correction be and he is hereby authorized and empowered to purchase botanical and agricultural supplies in the open market without public letting at a cost not to exceed three thousand five hundred dollars (\$3,500).

Department of Correction of the City of New York, Commissioner's Office, Municipal Building, Centre and Chambers Streets, New York, March 27, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall:

Dear Sir—I hereby respectfully request permission to purchase in the open market without public letting, quantities of botanical and agricultural supplies, in a sum not to exceed \$3,500.

It has been proven by experience that cheaper prices and quicker deliveries can be obtained in the vicinity of New Hampton, without entering into a contract, as the contractors on account of limited capital and lack of familiarity with city procedure, as a rule, do not care to enter into a formal contract, although they are willing to deliver on an open market order.

I trust your Honorable Board will take favorable action on this request as the fertilizer, etc., is urgently needed for spring planting and the consequent delay, if we are forced to advertise, would seriously embarrass us. Yours respectfully,

BURDETTE G. LEWIS, Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Correction to Purchase Blankets Without Public Letting.

The Committee on Public Letting to which was referred on April 10, 1917, (Minutes, page 66) the annexed request of the Commissioner of Correction for authority to purchase blankets without public letting, respectfully

REPORTS:

That inasmuch as market conditions make it impossible to obtain these supplies in quantity by contract and the Commissioner has stated he can purchase sufficient in small lots from various shops, the Committee believes it advisable to grant the permission and recommends the adoption of said resolution.

Resolved, That in pursuance of the provision of section 419 of the Greater New York Charter, the Commissioner of Correction be and he is hereby authorized and empowered to purchase blankets in the open market without public letting, at a cost not to exceed three thousand five hundred dollars (\$3,500).

Department of Correction of the City of New York, Commissioner's Office, Municipal Building, New York, April 9th, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City:

Dear Sir—I hereby respectfully request permission to purchase in the open market blankets for inmates' use, not to exceed \$5,000. State's Prison Industry is unable to furnish us blankets and has given us a release.

It is practically impossible to get any large quantity of blankets. We are able to purchase a few in job lots from different dealers in the open market.

I hope your honorable Board will take favorable action on this request, as the blankets are urgently needed to supply the increased census and deterioration.

If forced to advertise it will cause a delay and chances are against us getting them in the quantity needed is quite remote. Yours respectfully,

BURDETTE G. LEWIS, Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Street Cleaning to Purchase Certain Articles Without Public Letting.

The Committee on Public Letting, to which was referred on April 10, 1917 (Minutes, page 74), the annexed request of the Commissioner of Street Cleaning for authority to purchase certain articles without public letting, respectfully

REPORTS:

That due to the congested market conditions the Committee believes that better results can be had by granting the permission sought.

It, therefore, recommends the adoption of the said resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase in the open market without public letting the following articles:

500 heavy pipe collars at \$7.70 each	\$3,850 00

Department of Street Cleaning of the City of New York, Municipal Building, 12th Floor, New York, April 9, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Sir—Pursuant to section 419 of the Greater New York Charter, I respectfully request permission to purchase in the open market, without public letting, the following articles:

500 heavy pipe collars at \$7.70 each.....	\$3,850 00
200 saddles for cart harness, at \$13.50 each.....	2,700 00
300 sides of harness leather, about 6,750 pounds, at 67 cents per pound....	4,522 50

25 sole leather backs, about 500 pounds, at 75 cents per pound.....	375 00
	\$12,872 50

I make this request for the reason that due to the large orders being placed by the United States Army for harness leather and harness it is impossible to wait for a contract for the above materials if the City is to be sure of securing the same at reasonable prices, in fact it is questionable if the same can be secured at all if not ordered immediately. Respectfully yours,

CHAS. B. LARGY, Acting Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Fire Commissioner to Purchase Fire Hose Without Public Letting.

The Committee on Public Letting, to which was referred on April 10, 1917, (Minutes, page 74), the annexed request of the Fire Commissioner for authority to purchase fire hose without public letting, respectfully

REPORTS:

That as the need of this hose is urgent and it will take several months for delivery if purchased by contract.

The Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of provisions of section 419 of the Greater New York Charter, the Fire Commissioner be and he is hereby authorized and empowered to purchase fire hose in the open market without public letting, at a cost not to exceed ninety-two thousand two hundred and sixty dollars (\$92,260).

Fire Department, City of New York, April 10, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City of New York:

Sir—On May 29, 1916, request was made by me of your Board for \$152,976.00 for revenue bonds to supply hose to this Department. Of this sum only \$75,000 was

granted. Some months ago I made a further request for a revenue bond issue of \$92,260.30, which request was granted by your Board and is now pending before the Board of Estimate and Apportionment. I am advised that a favorable request will be submitted at the meeting of the Board of Estimate and Apportionment on Friday, and that at that time a report will also be made recommending that I be permitted to purchase this hose without public letting.

In view not only of the serious need of this hose to supply the normal requirements of the Department, but in view of the organization of ten emergency companies for service during the war period, I request permission of your Board to purchase hose from this appropriation without public letting. It will take several months to secure deliveries of hose if it is to be purchased by public letting and manufactured according to our specifications.

I urgently request that prompt action be taken upon this matter.

Very truly yours,

ROBERT ADAMSON, Fire Commissioner.

Fire Department, City of New York, April 17, 1917.

Hon. JOHN McCANN, Chairman, Committee on Public Letting, Board of Aldermen, City of New York:

My Dear Alderman—You have before your Committee my request for permission to buy, without public letting, hose amounting in cost to \$92,260, and fire apparatus costing \$194,500. This hose and apparatus, as I stated to your Committee, is wanted because of the emergency created in the Department by the war. We are organizing ten additional companies which require hose and equipment.

No hose or equipment is to be purchased except the best. Your Committee doubtless would like to be advised as to the prospect of securing this hose and equipment in the open market and the prices we will have to pay. I have communicated with every manufacturer of fire apparatus of standing and I find that very little equipment is available. From the replies which I have received from these companies it is indicated that we can obtain immediate deliveries on not more than half a dozen pieces of apparatus. The companies are so crowded with work and have experienced so much difficulty in obtaining materials and in securing labor that they are trying rather to finish up the orders they have than to secure new orders. They carry very little ready-made equipment on hand.

The Waterous Engine Works, of St. Paul, Minn., which furnished us our first large gasoline pumping engine, state that they believe they can furnish us a 750 gallon motor propelled fire engine, with hose box to carry 1,200 feet of 2½-inch fire hose, for \$9,000 f.o.b.

The South Bend Motor Car Works report that they can furnish us the following apparatus:

1 City service hook and ladder truck	\$6,300 00
1 Combination pumper	7,700 00
1 Combination chemical and hose wagon	3,100 00
1 Combination chemical and hose wagon	4,150 00

This apparatus they can deliver at once, provided, of course, it has not been purchased by some other city before I can take up the matter with them.

The Front Drive Motor Company, I am also advised, can furnish a hose wagon, although they have not made a price on it. This company states that they have no aerial trucks or other apparatus on hand, but can manufacture and have ready for delivery five trucks in about 90 days. The same company states "We can make rapid deliveries of tractors at the rate of six per month of our latest type construction with a full ball bearing crankshaft motor, price \$3,800, applicable to fire engines or trucks."

The International Motor Company states that they have no equipment ready for delivery.

The Ahrens-Fox Fire Engine Company states that they have three old steam fire engines, which would have to be rebuilt and which could not be delivered for some time. These would not be suitable to this department. Mr. Ahrens of this firm came here from Cincinnati, and stated that he thought he would be able to sell us four or five fire engines which were being built, under contract, for other cities, but that he would have to get releases from those cities. I have this morning received a letter from Mr. Ahrens stating that "After canvassing the situation thoroughly, even going so far as to call on some of the officials of cities with whom we have contracts to furnish them some of our auto engines, but have been unsuccessful to get permission to give you the engines intended for them. In each and every case they claimed that they were in urgent need of the apparatus and could not grant us any extension of time. We are indeed sorry that we cannot assist you in your present condition."

The Seagrave Company states that they have no apparatus suitable for our purposes which they can deliver at the present time.

We are investigating a small triple combination fire engine of a type never before used in this Department, and manufactured by the American Fire Apparatus Company. I am not able to say at this time whether it will be suitable for our use. If so, we can obtain reasonably short deliveries of this apparatus.

I am also investigating the practicability of purchasing the Ford engine and specially made chassis, and have constructed for this a special body, for use as a hose wagon. If our engineers report that this machine is strong enough to bear the weight of the men and the apparatus, we can buy this type of apparatus and secure deliveries in a comparatively short time and at less than one-half the cost of the regular type of hose wagon. These hose wagons could, of course, only be used in the outlying districts where the work is very light.

While we cannot get immediate deliveries of the apparatus we want, we can, if given the permission to purchase it in the open market, secure at least some of it by this method much quicker than if we had to go through the routine of advertising.

As to hose, we have already obtained a considerable number of proposals from the leading firms, but before making any purchases we will again ask every firm which manufactures the kind of hose we want, for proposals. If the Board acts favorably upon my request I will send at once the same letter to every reliable firm manufacturing hose, asking them to submit prices and stating the conditions and tests which the hose must meet.

The Companies which have so far presented proposals are:

The Gutta Percha & Rubber Mfg. Co., 5,000 feet of 2½ inch four ply Baker hose, to be delivered at once, and 20,000 feet within twenty days, in lots of 2,000 feet per day, at \$1.25 net per foot, including couplings.

The Fabric Fire Hose Company, 10,000 feet of 2½ inch fire hose; 5,000 feet to be delivered the day following receipt of order and 5,000 feet two days after receipt of the order, \$1.20 per foot.

The B. F. Goodrich Company—

Construction No. 1—

2½ inch, coupled with standard brass expansion ring couplings, 75½ cents per foot.

2½ inch, coupled with fittings to New York Fire Department specifications, 76½ cents per foot.

Construction No. 2—

2½ inch, coupled with standard brass expansion ring couplings, 69 cents per foot.

2½ inch, coupled with fittings to New York Fire Department specifications, 70 cents per foot.

Special grade to our specifications—

2½ inch, coupled with standard brass expansion ring couplings, 90½ cents per foot.

2½ inch, coupled with fittings to New York Fire Department specifications, 91½ cents per foot.

Hose to the specifications of the New York Fire Department—

2½ inch, coupled with standard brass expansion ring couplings, \$1.45¼ per foot.

2½ inch, coupled with fittings to New York Fire Department specifications, \$1.46¼ per foot.

On hose made under their specifications this company could start deliveries on May 1 and ship 2,000 feet daily. On New York Fire Department specifications they can make shipments of 1,500 feet daily.

The Manhattan Rubber Mfg. Co.—10,000 feet, more or less, 2½ inch double jacket, cotton, rubber lined fire hose, 76 cents per foot, net, couplings, and delivered. They will deliver 2,000 feet per day; make initial delivery within 48 hours. The hose and couplings, however, not strictly within our specifications.

The Eureka Fire Hose Company—10,000 feet of 2½ inch fabric fire hose, \$1.20 per foot. Delivery, 15 days.

New York Belting and Packing Co.—10,000 feet of 2½ inch rubber hose, \$1.25 per foot. Delivery, 30 days.

These proposals were made, some in response to telephone inquiries, others to letters, and may be modified to some extent by the later proposals which we will secure. It is my intention to purchase the hose which substantially meets the requirements of the New York Board of Fire Underwriters. I believe this will insure us good and reliable hose. Chief Kenlon concurs in this opinion.

While I do not believe we will be able to purchase in the open market anything like all of the apparatus involved in the request to your Committee, I would nevertheless like to have this permission so that I will be able to take advantage of any opportunity which may arise for the purchase of apparatus. I think I will be able to obtain all of the hose we need in the open market.

I would point out to your Committee that the conditions with respect to securing these supplies are getting constantly more difficult, and I am afraid that when the pinch of the war begins to be felt by these industries that we will find it very difficult, indeed, to get deliveries in anything like reasonable time. It is because I wish to be on the safe side in this important matter of fire protection that I am making this important request to your Committee.

Very truly yours, ROBERT ADAMSON, Fire Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Fire Commissioner to Purchase Motor Fire Apparatus Without Public Letting.

The Committee on Public Letting, to which was referred on April 10, 1917 (Minutes, page 75), the annexed request of the Fire Commissioner for authority to purchase motor fire apparatus without public letting, respectfully

REPORTS:

That as the need of these machines is urgent and it will take several months for delivery if purchased by contract.

The committee recommends the adoption of the accompanying resolution.

(For explanation see communication from Fire Commissioner attached to preceding report No. 1477).

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Fire Commissioner be and he is hereby authorized and empowered to purchase 5 gasoline pumping engines, 5 hook and ladder trucks, 15 tractors and 10 hose wagons, in the open market without public letting, at a total cost not to exceed one hundred and ninety-four thousand five hundred dollars (\$194,500).

JOHN McCANN, JOHN F. McCOURT, WM. P. MCGARRY, PETER SCHWEICKERT, JAMES J. BROWNE, EDWARD W. COX, MICHAEL J. HOGAN, ALEXANDER S. DRESCHER, PATRICK H. SULLIVAN, C. AUGUSTUS POST, Committee on Public Letting.

Fire Department, City of New York, April 10, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City of New York:

Sir—In order that this Department may be prepared to meet any emergency which may arise, we are placing in service ten additional fire companies for duty during the period of the war. Apparatus for the equipment of these companies is being withdrawn from our reserve supply of apparatus, and I desire to replace this reserve with as little delay as possible. I therefore request permission of your Board to purchase in the open market, and charge to the account of C. F. D. 10 E, Fire Department, Motor Fire Apparatus for all Boroughs, at a cost not to exceed \$194,500, the following fire extinguishing equipment:

Five gasoline pumping engines, 5 hook and ladder trucks, 15 tractors, 10 hose wagons.

By purchasing this apparatus in the open market, we will be able to secure the delivery of a part of it at least almost immediately. If it is to be purchased under contract, after public letting, and manufactured according to our specifications, many months must elapse before it can be delivered. It is becoming increasingly difficult to secure fire apparatus within a reasonable time, because of the increasing demand. Labor and the price of materials are also causing the cost of apparatus to advance rapidly.

We have 31 fire engines under contract and have opened bids for 25 more. We are also advertising for 25 hook and ladder trucks. For the reasons mentioned, it will take several months before we can secure deliveries of any of this apparatus.

I believe that during the period of the war, it is important that our supply of reserve apparatus should be kept at full strength, and for this reason, I am desirous of purchasing and having delivered as soon as possible the equipment referred to in this request. I therefore respectfully ask your Board to act promptly upon this request. Very truly yours, ROBERT ADAMSON, Fire Commissioner.

Which, on motion of Alderman McCann, was made a special order for the day. The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Delaney, Diemer, Dixon, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Hatch, Haubert, Heyman, Hilkemeier, Kenney, McCann, McCourt, McGarry, McGillick, McKee, McManus, Martin, Molen, Mullen, O'Rourke, Post, Quinn, Roberts, Robitsek, Ryan, Schweickert, Shields, Silberstein, Smith, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; the Vice-Chairman—62.

Board of Standards and Appeals, Municipal Building, New York, March 19, 1917.

Honorable FRANK L. DOWLING, President of the Board of Aldermen:

Sir—Herewith please find enclosed a resolution for adoption by your honorable board, requesting the Board of Estimate and Apportionment to authorize the issuance of special revenue bonds to the amount of nine thousand one hundred forty-one dollars and fifteen cents (\$9,141.15), for the purpose of meeting the additional expenses necessary for the efficient prosecution of the work devolving on the Board of Standards and Appeals and the Board of Appeals for the period between April 1, 1917, and December 31, 1917.

An analysis of the work of these boards to date shows that appeals from decisions of the fire commissioner, or the superintendents of buildings, or under the building zone resolution, and petitions for variations of the labor law are being received at the rate of thirty-five per week since January 1, 1917. Experience shows that it is not possible, with the present force and equipment, to dispose of more than twenty-two such appeals and petitions per week. There is good reason to believe that the number of appeals and petitions will grow larger instead of smaller. It is manifest, therefore, that the work of both boards is falling behind.

In the preparation, last fall, of the budget for this year, it was assumed that the work might be kept up to date by holding one meeting of the Board of Standards and Appeals and one meeting of the Board of Appeals each week. It has been found necessary, however, not only to prolong the meetings of the Board of Appeals until a late hour in the afternoon or well into the evening, but also to hold an extra session of the board each week, in order that any progress whatever might be made with the work accumulating. This has necessarily increased the work falling on the office staff to such an extent that it has not been possible to keep it up to date.

In request made by this board for appropriation for the year 1917, \$6,240 was included to pay five appointed members of the Board of Appeals and the chief of the uniformed force of the Fire Department, who is ex-officio a member of that Board. As stated heretofore, it was assumed that, by holding one meeting a week of the Board of Standards and Appeals and of the Board of Appeals, the work might be properly handled. It has been already stated, however, that it has been necessary to hold practically every week this year at least two meetings of the Board of Appeals, as well as one meeting of the Board of Standards and Appeals.

In the estimate for appropriation for the year 1917 was included a request for \$1,040 to pay the chief of the uniformed force of the Fire Department for attendance at meetings of the Board of Appeals, the amount of compensation fixed by your Board for attendance being \$10 per session. The Board of Estimate and Apportionment, however, disapproved this request for payment of the chief of the uniformed force of the Fire Department for attendance at these sessions, and eliminated it from the estimate. The Corporation Counsel later advised the Comptroller that, under the law, the chief of the uniformed force of the Fire Department is entitled to compensation as a member of the Board of Appeals. In order to provide for the payment of the chief of the uniformed force of the Fire Department, it has been necessary to draw upon the amount allowed for the year for the five appointed members.

Request for appropriation for telephone service during the year 1917 was made by the board in preparing the budget for this year; this amount was eliminated from the appropriation on the understanding that provision for telephone service would be made in the appropriation for the office of the President of the Borough of Manhattan. The Borough President, however, has refused to provide the telephone service, and up to date it has been necessary for the Board to draw against the appropriation allowed for contingencies.

When the Board of Standards and Appeals was organized, in July, 1916, no office accommodations had been provided for its use. Finally, after considerable delay, the Sinking Fund Commission assigned to the use of the Board Rooms 914-919. The Board is seriously handicapped because there is no direct connection between Rooms 918-919, the meeting room and the secretary's office, and Rooms 914-916, the rooms of the chairman, assistant engineers and office force. In December last, I requested the Commissioner of Plant and Structures to cut a door from Room 914 to Room 918, but I have been advised, both by him and the Borough President of Manhattan, that there are no funds available for doing this work. It is absolutely imperative to have the rooms connected.

The amount requested for furniture is designed to provide necessary furniture for additional regular employees, and to replace furniture which was loaned to this Board by the Bureau of Public Buildings and Offices.

As to the atlases and maps of the various boroughs of the City, the Board has no equipment of this character, and the possession of such atlases and maps is necessary, especially in the consideration of appeals under the building zone resolution. Respectfully, RUDOLPH P. MILLER, Chairman.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, March 26, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—In the matter of Item No. 1393, relating to a request of the Board of Standards and Appeals for revenue bonds for an increase in force and for additional funds for fees and commissions, I would ask that you defer action for one week, as the data which I am collecting cannot be had in time for the coming meeting.

Respectfully yours, GEORGE L. TIRRELL, Director.
City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, April 2nd, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—Regarding item No. 1393, relating to a request for revenue bonds from the Board of Standards and Appeals, I wish to report as follows:

Fees and Commission.....	\$3,640 00
In my opinion, the items requested under this heading should be allowed. The Board of Appeals have been holding one more meeting a week than was planned at the time of the budget. If this continues the sum requested, \$2,600, will be needed. The Corporation Counsel has rendered an opinion the Chief of the Uniformed Force of the Fire Department is entitled to compensation for attendance at the meeting of the Board of Appeals, to cover which \$1,040 is required.	
Additional Force.....	\$3,600 00

The Chairman appears reluctant to furnish any more detailed information than is stated in his request to you. This information does not seem sufficient to report either for or against the increased force. Respectfully,

GEORGE L. TIRRELL, Director.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, April 9, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—Regarding item No. 1393, relating to a request for revenue bonds from the Board of Standards and Appeals, I wish to report that, in the matter of additional force, we have not specific information relating to the duties of the present employees or the proposed duties of the new employees. Cards were left for this pur-

pose with the Board two weeks and the information requested. We have not enough data relating to the volume of work done or on hand or to the amount of detail work required in the handling of the appeals that come before the Board.

In view of this, the Bureau of Personal Service is not in position to make a recommendation. Respectfully,
GEORGE L. TIRRELL, Director.

The Vice-Chairman put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Donnelly, Dostal, Dunn, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gilmore, Glennon, Goetz, Gutman, Hatch, Hilkemeier, Kenney, McCann, McCourt, McGillick, McManus, Molen, Mullen, O'Rourke, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Smith, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; President Van Name; President Connolly, by Albert C. Benninger, Assistant Commissioner of Public Works; the Vice-Chairman—56.

Negative—Aldermen Bassett, Dixon, Drescher, Haubert, Heyman, McGarry, Martin, Moore, Quinn, Silberstein; President Mathewson—11.

On motion of Aldermen Delaney the vote by which the foregoing resolution was lost was reconsidered and the paper restored to the list of Special Orders.

On the foregoing question, Aldermen Haubert and Heyman voted in the negative.

No. 1404—Queens Borough Public Library Board, Request for Special Revenue Bonds, \$1,000, to Meet Deficit in Appropriation for Fuel, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Sir—I have caused an examination to be made into this request and find that the appropriation for Fuel Supplies allowed in the 1917 Budget amounted to \$2,260, on the basis of 350 tons of coal at an average of \$6.14, and an allowance for wood.

An Administration Building with Circulating Branch Annex and 12 independent branch libraries located in various parts of the Borough, have to be supplied with fuel from the Budget Allowance, but owing to the unforeseen fluctuation in the price of coal during the months of January, February and March, the average unit cost per ton paid was \$8.50; the number of tons purchased was 232, and the total expenditure to March 31, 1917, was \$1,972.04.

The unencumbered balance remaining in the code is \$285.21, which will be needed during this month. The estimated amount required to supply the buildings under the jurisdiction of the Library Board for the period beginning May 1, 1917, and ending December 31, 1917, is 136 tons. The estimated cost for this supply, based upon bids received by the Queens Borough Public Library Board on April 4, 1917, is \$1,052.75, at an average unit cost per ton of \$7.74, indicating that the sum requested will be needed.

No funds of the library are available for transfer. Very truly yours,

TILDEN ADAMSON, Director.

The Vice-Chairman put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$1,500, to Provide for Certain Changes in the Aquarium—Parks, Manhattan and Richmond.

The Committee on Finance, to which was referred on March 27, 1917 (Minutes, page 790), the annexed request of the Commissioner of Parks, Manhattan and Richmond, for special revenue bonds, \$1,500, to provide for certain changes in the Aquarium, respectfully

REPORTS:

That these changes are in accordance with orders issued by the Fire Department and according to the annexed report of the Bureau of Contract Supervision, the Committee recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand five hundred dollars (\$1,500), the proceeds whereof to be used by the Park Commissioner, Manhattan and Richmond, for the purpose of providing for certain changes in the Aquarium. All obligations contracted for hereunder to be incurred on or before December 31, 1917.

City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Municipal Building, Tenth Floor, March 16, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall:

Dear Sir—Request is hereby made on behalf of the New York Aquarium for an authorization of the issue of special revenue bonds to the amount of \$1,500 in

accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter.

The money is necessary in order that the Aquarium authorities may comply with an order issued by the Fire Department under date of February 6, 1917, which requires certain changes in their plant to conform with the Fire Department's regulations.

There is no provision in the Budget for 1917 for the change in the refrigerating machinery room which will cost approximately \$1,500. This machinery is now located in a position which makes impossible enclosure necessary to comply with the requirements of the Fire Department. It is therefore necessary to relocate the machinery on top of the main wall on the south side of the building and enclose same with fireproof construction. Very truly yours,

CABOT WARD, Commissioner of Parks.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 9, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen: No. 1411—Request Dated March 16, 1917, from Commissioner of Parks, Borough of Manhattan and Richmond, for an Issue of Special Revenue Bonds, \$1,500, to Provide Certain Changes in the Aquarium.

Sir—This matter has been investigated and the following facts have developed:

On February 6, 1917, the Fire Department issued an order to the Aquarium authorities stating that, in order to have the refrigerating plant conform with the Fire Department regulations, it would be necessary to provide, together with other minor changes, separate refrigerating machinery room or rooms by tight partitions and tight self-closing doors and windows, to prevent the passage of gas throughout the building, or to rooms in which open flames are used; such separation to be made so that proper ventilation to the open air will be obtained and such partitioning to be placed in such a manner that it will not prevent the proper attention to the refrigerating plant.

The Fire Department would not permit the further operation of the machinery in its location at that time, consequently the Aquarium authorities removed the machinery and located it on top of the main wall on the south side of the building.

The entire plant is now dismantled and before it can be operated it will be necessary to erect a foundation, enclose it with fireproof walls and connect it up with the necessary piping.

This plant is used in the warm weather to cool the City water used in tanks for certain of the exhibits of northern fish.

The estimate of cost, \$1,500, is reasonable and necessary.

Very truly yours,

TILDEN ADAMSON, Director.

Report of the Committee on Finance in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$300,000, to Defray Expenses of Operation and Maintenance of the Water Supply System of the City.

The Committee on Finance, to which was referred on April 3, 1917 (Minutes, page 11), the annexed request of the Commissioner of Water Supply, Gas and Electricity for Special Revenue Bonds, \$300,000, to defray the expenses of the operation and maintenance of the water supply system of the City, respectfully

REPORTS:

That, in the preparation of the 1917 Budget, it was agreed to provide funds for this purpose by allotments from Brooklyn water revenues. This has been found to be impracticable on account of charter provisions, and it, therefore, becomes necessary to correct this action by issuing Special Revenue Bonds for the maintenance and operation of the water system.

The Committee, therefore, recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of Subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred thousand dollars (\$300,000), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of enabling his department to meet the expenses of operation and maintenance and to assume control of the Catskill water supply system, funds for which were not wholly provided in the budget for 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Dear Sir—I respectfully ask that the Board of Aldermen formally request, pursuant to the provisions of subdivision 8 of section 188 of the City Charter, the Board of Estimate and Apportionment to authorize the issuance of \$300,000 of revenue bonds, the proceeds to be used to defray the expenses of the operation and maintenance of the water supply system of New York City. This request is made by reason of the fact that the department is about to assume control of the Catskill water supply system, funds for the operation and maintenance of which were not wholly provided in the 1917 budget. Respectfully,

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, March 31, 1917.

Hon. FRANCIS P. KENNEY, Chairman Finance Committee, Board of Aldermen, City of New York:

Dear Sir—Last October, when the appropriations for the Department of Water Supply, Gas and Electricity for the year 1917 were being considered by the Board of Estimate and Apportionment, certain allotments were made from the fund created by Brooklyn water revenues to pay the expenses of maintaining and operating the Catskill system and a part of the Croton system. This action, as I am informed, was based upon the assumption that substantially all of the reduction in the operating and maintenance expenses of the city's existing water supply plants affected through the operation of the Catskill system would be found in connection with the Brooklyn system.

The Tax Budget Committee of the Board of Estimate and Apportionment has recently given special consideration to this subject. As a result thereof, it has been found to be impracticable to use the Brooklyn water revenues to fund the cost of the operation and maintenance of the Catskill and Croton systems as was designed when the budget was approved. The provisions of the charter of the former City of Brooklyn, pledging to the Brooklyn Water Sinking Fund the revenues from the sale of water in Brooklyn, after the payment of all interest, operating and maintenance charges, has been held by the Comptroller to be a legal bar to the using of any of these revenues for the supply of water to any part of the city other than the Borough of Brooklyn. Even if this were not so, section 242 of the city charter in its present form would seem to make such a course as contemplated by the 1917 budget allotments of doubtful legality. It, therefore, becomes necessary to correct the action taken at the time the budget was made and to otherwise provide, in part at least, through the issuance of special revenue bonds, to be authorized pursuant to subdivision 8 of section 188, for those expenses of maintenance and operation of the Department of Water Supply, Gas and Electricity for 1917, which it was proposed to finance out of Brooklyn water revenues.

The Tax Budget Committee has suggested to the Commissioner of Water Supply, Gas and Electricity, that he ask the Board of Aldermen to approve a resolution requesting the Board of Estimate and Apportionment to authorize the issuance of special revenue bonds, at this time, to the extent of \$300,000, for purposes herein previously referred to.

A memorandum, for your information, is being prepared in the Bureau of Personal Service, of the Board of Estimate and Apportionment, setting forth in some detail the amounts that will be required for the several purposes of the department. Yours very truly,

WM. A. PRENDERGAST, Comptroller, Chairman Committee on Tax Budget.

April 2, 1917.

Mr. ROBERT B. MCINTYRE, Supervising Statistician and Examiner, Bureau of Municipal Investigation and Statistics:

Sir—In compliance with your request for a statement of the amount of special revenue bond funds which will be necessary to replace Brooklyn water revenue in certain schedules of the Department of Water Supply, Gas and Electricity, in accordance with the new policy of financing the Catskill system, I inform you as follows:

The total amount required, on the basis of a nine months period of expenditures, for personal service is \$183,876.44. This amount is to be replaced in Codes 2155TW, 2157TW, 2182TW, 2184TW, 2194TW and 2198TW.

The Bureau of Contract Supervision has submitted a statement indicating that \$311,247.25 is necessary in other than personal service accounts. This makes a total necessary for all purposes of \$495,123.69. The other than personal service items are made up as follows:

Code 2219	Chloride of Lime, etc.	\$42,740 00
Code 2244	General Repairs	14,886 00
Code 2308	Taxes	172,477 00
	Catskill Watershed	42,532 25
	Manhattan Pumping	28,802 50
	Sundry Accounts	9,809 50

Total \$311,247 25

The item of \$42,532.25 for the Catskill system represents 50 per cent. of the appropriation for the other than personal service cost of the system for 1917. This is on the basis that 150,000,000 gallons daily of the Catskill supply will go to Brooklyn out of a total yield daily running from 250,000,000 to 350,000,000 gallons. The personal service cost was apportioned in the same manner, but the tax levy funds were appropriated at the meeting of the Board of Estimate and Apportionment, held last Friday, out of the General Accrual Fund. Very truly yours,

Director.

Report of the Committee on Finance in Favor of Adopting an Ordinance Rescinding Selection of Sites for Refuse Destructors at Flushing and Jamaica, Borough of Queens.

The Committee on Finance, to which was referred on March 27, 1917 (Minutes, page 787), the annexed requests of the President of the Borough of Queens for rescission of selection of sites for refuse destructors at Flushing and Jamaica, respectfully

REPORTS:

That these requests are made on account of the designations being in conflict with the provisions of the building zone restrictions, hence the request for rescission. The Committee, therefore, recommends the adoption of the accompanying ordinance. AN ORDINANCE to repeal certain provisions of "An Ordinance selecting sites for use as refuse destructors in the Borough of Queens."

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

The City of New York, Office of the President of the Borough of Queens, Long Island City, March 21, 1917.

To the Honorable the Board of Aldermen, City of New York:

Gentlemen—On the 1st day of March, 1917, your Board adopted a resolution approving of the selection of a site for a refuse destructor at Flushing, 3d Ward of the Borough of Queens.

The resolution was adopted upon a request from this office requesting such action.

Since the site was selected, attention has been called to the fact that the erection of a plant on the site designated would conflict with the zone rules adopted for buildings; furthermore, the closeness of the site to park land has brought forth a protest which I regard as substantial enough to justify the location of the plant at a less undesirable place.

I therefore request that your Board adopt a resolution rescinding the following portion of the said resolution, as follows:

"The first, located in Flushing, is bounded and described as follows:

"Beginning at a point at the intersection of the westerly line of Eastport

Street and the northerly line of Connorton Avenue, as said street and avenue are laid down upon a map establishing the lines and grades of that portion of the Third Ward, Borough of Queens, City of New York, and bounded by Uhland Avenue, Whitestone Avenue, Jackson Avenue, Tallman Avenue, and Fork Street and of Wakefield Street, from Uhland Avenue to the old Village Line, adopted by the Board of Estimate and Apportionment on the 13th day of June, 1912, and filed at Jamaica on August 21, 1912.

"Thence westerly 272.50 feet along the northerly line of Connorton Avenue, as said avenue is laid down on above map, adopted by the Board of Estimate and Apportionment, to the easterly line of Chesterfield Boulevard, the said easterly line of Chesterfield Boulevard, being 10 feet measured at right angles and westerly of the easterly line of Chesterfield Boulevard as laid down on above adopted map.

"Thence northerly deflecting to the right 89 degrees, 42 minutes, 07 seconds for 303.57 feet along the easterly line of Chesterfield Boulevard to the southerly line of Cadiz Place prolonged westerly, said line of Chesterfield Boulevard being parallel to and 10 feet westerly, measured at right angles from the easterly line of Chesterfield Boulevard, as laid down upon adopted map above referred to.

"Thence easterly deflecting to the right 90 degrees, 00 minutes, 00 seconds for 366.53 feet along the southerly line of Cadiz Place, and prolongation thereof, to the westerly line of Eastport Street.

"Thence southerly deflecting to the right for 319.16 feet along the westerly line of Eastport Street to the northerly line of Connorton Avenue, the point or place of beginning." Very truly yours,

RICHARD S. NEWCOMBE, Acting President of the Borough of Queens.
Office of the President of the Borough of Queens, Long Island City, March 23, 1917.

To the Honorable the Board of Aldermen, City Hall, N. Y. City:

Sirs—On March 1, 1917, your Board adopted a resolution in accordance with the provisions of section 1436 of the Charter, approving of the selection of several sites for refuse destructors in the Borough of Queens. Since the selection of the sites, it has come to my attention that the location of the site at Jamaica will conflict with the Building Zones restrictions, and for that reason I have determined to select, if possible, one which will remove that objection.

I therefore request your approval of a resolution rescinding your previous action in so far as it relates to the following:

Beginning at a point on the northerly line of Sampson Street, as said Sampson Street is defined by stone monuments upon five foot offsets measured at right angles southerly from the northerly line of Sampson Street distant 103.56 feet easterly on the easterly line of Highview Avenue, as said avenue is defined by a monument line situated 5 feet westerly measured at right angles from the easterly line of said Highview Avenue.

Thence northerly along a line distant 100.08 feet easterly measured at right angles from said Highview Avenue and parallel thereto for a distance of 512.04 feet.

Thence easterly deflecting to the right 90 degrees, 0 minutes, 0 seconds for 154.32 feet.

Thence southerly deflecting to the right 89 degrees, 29 minutes, 50 seconds for a distance of 152.70 feet.

Thence southerly, deflecting to the right 7 degrees, 46 minutes, 0 seconds for a distance of 47.02 feet.

Thence southerly deflecting to the right 14 degrees, 38 minutes, 10 seconds for a distance of 159.62 feet.

Thence southerly deflecting to the right 58 degrees, 0 minutes, 45 seconds, for a distance of 1.89 feet.

Thence southerly, deflecting to the right 59 degrees, 42 minutes, 0 seconds, for a distance of 64.55 feet.

Thence southerly deflecting to the left 27 degrees, 58 minutes, 0 seconds for a distance of 83.93 feet.

Thence westerly, deflecting to the left along the northerly line of Sampson Street as defined by a monument line upon a five foot offset southerly measured at right angles from the northerly line of Sampson Street for 79.97 feet to the point or place of beginning.

I will submit to your Honorable Board for approval, a substituted site, as soon as I am able to determine a location. Very truly yours,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The President put the question whether the Board would agree with said report and adopt such ordinance.

Which was decided in the affirmative by the following vote:

Report of the Committee on Finance in Favor of Adopting an Ordinance Establishing a Special Fund for All Moneys Realized by the Sale of Firewood by the Department of Parks, Manhattan and Richmond.

The Committee on Finance, to which was referred on March 27, 1917 (Minutes, page 789), the annexed ordinance providing for the establishment of a special fund for all moneys realized by the sale of firewood by the Department of Parks, Boroughs of Manhattan and Richmond, respectfully

REPORTS:

That as a similar fund has been in successful operation in the Department of Parks, Queens, the Committee believes this request desirable and to the best interests of the City.

It therefore recommends the adoption of the accompanying ordinance.

AN ORDINANCE providing for the establishment of a special fund for all moneys realized by the sale of firewood by the Department of Parks, Boroughs of Manhattan and Richmond, in the City of New York.

Be it ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby, in accordance with subdivision 2 of section 23 of article 2a of chapter 26 of the Laws of 1909, as amended by chapter 247 or the Laws of 1913, and in accordance with subdivision 19 of section 20 of article 2a of the same law, approves the establishment of a fund to be known as "Firewood Fund of the Department of Parks, Boroughs of Manhattan and Richmond," and authorizes and directs the Comptroller of The City of New York to place in such fund all moneys received or realized through the sale of firewood by the Department of Parks, Boroughs of Manhattan and Richmond.

Section 2. The Comptroller of The City of New York is hereby authorized to charge against such fund any voucher received from the Department of Parks, Boroughs of Manhattan and Richmond, for hire of labor, teams and horses and carts used by said department in the production of firewood for sale.

Section 3. The Comptroller of The City of New York is hereby further authorized and directed to transfer to the General Fund of The City of New York at the end of each calendar year any sums remaining in the "Firewood Fund of the Department of Parks, Boroughs of Manhattan and Richmond," in excess of Fifteen Hundred Dollars (\$1,500).

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, March 23, 1917.

To the Board of Aldermen, The City of New York:

Gentlemen—In a communication dated February 6, 1917, addressed to the Board of Estimate and Apportionment and referred to the Comptroller, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested the establishment in the Department of Parks, Boroughs of Manhattan and Richmond, of a special fund of \$1,500.

This communication, which explains the reasons for the establishment of the fund, reads as follows:

"You are hereby requested to establish for the Department of Parks, Boroughs of Manhattan and Richmond, a special account of \$1,500 for the production of firewood under the same conditions as that established for the Department of Parks, Borough of Queens, and the Department of Correction.

"During 1916, this department turned into the General Fund \$444.25, which was the total received from the sale of wood which was supplied to the Department of Water Supply, Gas and Electricity. The department now has on hand active orders from that department and also inquiries from the Board of Education as to future supplies.

"This request does not involve the appropriation of any funds, but simply permits this department to make use of monies received by it from any department that has use for the wood in payment for a quantity of that commodity delivered.

"The department is in possession of the necessary equipment for sawing and chopping this wood and the current expense in handling the same is for the labor used in reducing the wood to the sizes which make it available for the use of the department requiring the same. The production of the wood sold in 1916 involved a considerable burden upon the department because of the fact that the work was performed by the regular laboring force.

"It is desirable, therefore, that the department be allowed to use the money received for this commodity in the production of the same which will of course leave a considerable balance which will produce sufficient capital to carry the work forward without encroaching upon the regular departmental appropriation for maintenance, and further at the end of the year a surplus which may be turned over to the General Fund for the reduction of taxation."

An examination of this request was made by the Bureau of Municipal Investigation and Statistics of the Department of Finance, and the particulars stated in the above communication were found to be substantially correct.

A similar fund, known as the "Firewood Fund of the Department of Parks, Borough of Queens," has been in successful operation for the past two years.

It is believed that it will be for the best interests of the City generally, and in particular for the Department of Parks, Boroughs of Manhattan and Richmond, that the Commissioner's request be granted, and that a special fund be set up, to which all receipts from the sale of wood made by that department shall be credited, and to which shall be charged all vouchers for labor, teams and horses and carts used in connection with the production and sale of firewood, any surplus arising in the fund in excess of the \$1,500 mentioned to be periodically transferred to the General Fund. Whenever the fund is no longer required, the resultant credit balance will be similarly transferred.

An ordinance has been drafted, a copy of which is attached hereto, which will authorize the establishment of this special fund described as "Firewood Fund of the Department of Parks, Boroughs of Manhattan and Richmond."

In the establishment of the "Firewood Fund of the Department of Parks, Borough of Queens," the opinion of the Corporation Counsel was asked regarding the legality of the procedure, in view of the provisions of section 216 of the Greater New York Charter, which provides for the payment of "All revenues of said corporation not by law otherwise specifically appropriated into the General Fund," and in his opinion, he stated, in part, as follows:

"An ordinance was passed on March 17, 1914, which provided for the establishment of a Special Fund for all money realized by the sale of articles manufactured by the Department of Correction in the City of New York.

"As recognition has been given to the procedure in the manner indicated, I think the same course may be followed in the present instance."

It is, therefore, recommended that the attached ordinance, granting the establishment of the fund referred to, be approved by your Board. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The President put the question whether the Board would agree with said report and adopt such ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Kenney, McCann, McCourt, McGarry, McGillick, McKee, McManus, Martin, Molen, Moore, Mullen, O'Rourke, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; President Van Name; President Mathewson, by John G. Borgstede, Commissioner of Public Works; President Marks, by Ralph Folks, Commissioner of Public Works; the Vice-Chairman—70.

BUREAU OF BUILDINGS.

Bulletin No. 8, 1917—Application No. 63, New Buildings, 1917, Premises 95-97 Wall St.

In erecting a seven-story fireproof office building, 105 feet in height, having a floor area within fire walls of about 1,200 square feet, it is proposed to omit the fire tower required in business buildings over 85 feet in height and to substitute in lieu thereof a stairway and vestibule enclosed with 8-inch brick or reinforced concrete walls. The building is to be used exclusively as offices, and there will not be more than 12 persons on each floor. The maximum distance from any point on a floor to the stair exit is only 30 feet.

A modification of Section 152, subdivision 3d, of the Building Code is requested and hereby granted, to permit the erection of this building without a fire tower, inasmuch as a strict compliance with the requirements of the Building Code is impracticable on account of the small size of the building, as it would entail the loss of a large percentage of the rental space, making the building practically useless for commercial purposes, and, furthermore, the safety of the occupants is well provided for by the one enclosed stairway and vestibule.

Dated, April 10, 1917.

a19 ALFRED LUDWIG, Superintendent.

Whereas, the Board of Estimate and Apportionment, under resolutions adopted on November 19, 1909, April 20, 1911, and June 11, 1915, authorized a proceeding for acquiring title to Kinsella street, between Matthews (Rose) avenue and Bear Swamp road; and Van Nest (Columbia) avenue, between West Farms road and Bear Swamp road, Borough of The Bronx, City of New York, and directed that the entire cost and expense of the proceeding be assessed upon a local area deemed to be benefited by the improvement and described in the resolution authorizing the proceeding; and

Whereas, the Board of Estimate and Apportionment is considering the advisability of reconsidering its action with respect to the distribution of the cost and expense of the proceeding and of making a new determination concerning the same, pursuant to the provisions of Section 247 of the Greater New York Charter, as amended, by placing upon the Borough of The Bronx 12½ per cent. of that portion of the entire cost and expense of the proceeding relating to the acquisition of title to Van Nest (Columbia) avenue between West Farms road and Bear Swamp road, and 87½ per cent. of that portion of the entire cost and expense of the proceeding relating to the acquisition of title to Van Nest avenue between the aforesaid limits upon the local area of benefit already defined and more particularly described as follows:

Beginning at a point on the northerly line of West Farms road where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Morris Park avenue and the northeasterly line of Van Nest avenue, as these streets are laid out between East 180th street and Adams street; and running thence northeasterly along the said bisecting line to the intersection with the prolongation of a line midway between Morris Park avenue and Van Nest avenue, as these streets are laid out between Garsfield street and Taylor avenue; thence northeasterly along the said line midway between Morris Park avenue and Van Nest avenue and along the prolongations of the said line to the intersection with the prolongation of a line midway between Morris Park avenue and Van Nest avenue, as these streets are laid out between White Plains road and Cruger avenue; thence easterly along the said line midway between Morris Park avenue and Van Nest avenue and along the prolongations of the said line to the intersection with a line midway between Matthews avenue and Barnes avenue; thence northwardly along the said line midway between Matthews avenue and Barnes avenue to the intersection with the prolongation of a line midway between Morris Park avenue and Kinsella street; thence easterly along the said line midway between Morris Park avenue and Kinsella street and along the prolongations of the said line to a point distant 100 feet easterly from the easterly line of Bronxdale avenue, the said distance being measured at right angles to Bronxdale avenue; thence southwardly and always distant 100 feet easterly from and parallel with the easterly line of Bronxdale avenue to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the southerly line of Baker avenue, as this street is laid out between Barnes avenue and Wallace avenue, and the northerly line of West Farms road, as this street is laid out east of the first angle point east of Unionport road; thence westwardly along the said bisecting line to the intersection with the prolongation of the southerly line of Baker avenue and the northerly line of West Farms road, as these streets are laid out immediately adjoining White Plains road on the west; thence westwardly along the said bisecting line to the intersection with the northerly right-of-way line of the New York, New Haven and Hartford Railroad Company; thence westwardly along the said right-of-way line to a point distant 100 feet southerly from the southerly line of West Farms road, the said distance being measured at right angles to West Farms road; thence southwardly from and parallel with the southerly line of West Farms road to the intersection with a line at right angles to West Farms road and passing through the point of beginning; thence northwardly along the said line at right angles to West Farms road to the point or place of beginning.

—and by placing upon the afore-mentioned local area of benefit all of the cost and expense of the acquisition of title, in said proceeding, Kinsella street between Matthews (Rose) avenue and Bear Swamp Road.

Resolved, That this Board consider the proposed action at a meeting of the Board to be held in Room 16, City Hall, Borough of Manhattan, City of New York, on Friday, April 27, 1917, at 10.30 o'clock a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to Friday, April 27, 1917.

Dated, April 14, 1917.

Notices of Public Hearings.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held March 23, 1917, the following resolution was adopted:

Whereas, The Union Railway Company of New York City has, under date of January 11, 1917, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railway extension to its existing system upon and along Amsterdam and Nagle avenues and Dyckman street from West 207th street to the right of way of the New York Central Railroad Company at or near the foot of said Dyckman street, Borough of Manhattan; and

Whereas, Section 172 of the Railroad Law and Sections 72, 73 and 74 of the Greater New York Charter, as amended by Chapters 629 and 630 of the Laws of 1905, and Chapter 467 of the Laws of 1914, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws this Board adopted a resolution on February 23, 1917, fixing the date for a public hearing thereon as March 23, 1917, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in "The New York Times" and "Evening Post," newspapers designated by the Mayor, and in the "City Record" for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Union Railway Company of New York City, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Union Railway Company of New York City, containing the form of the proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Union Railway Company of New York City the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of the City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made and executed in duplicate this day of 1917, by and between THE CITY OF NEW YORK (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and UNION RAILWAY COMPANY OF NEW YORK CITY, a domestic corporation (hereinafter called the Company), party of the second part, witnesses:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

SECTION 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track street surface railway as an extension to its existing railway, with the necessary wires and equipment, for the purpose of conveying passengers only in the Borough of Manhattan, in The City of New York, upon the following route, to wit:

Beginning at and connecting with the existing tracks of the Company in West 207th street at or near its intersection with Amsterdam avenue, thence southerly upon and along Amsterdam avenue to Nagle avenue, thence southwesterly upon and along Nagle avenue to Dyckman street, thence northwesterly upon and along Dyckman street to the easterly line of the right of way of the New York Central Railroad Company at the foot of said Dyckman street.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

The said route, with turnouts, switches and crossovers, hereby authorized, is shown upon a map entitled:

"Map showing proposed extension of the Union Railway Co. of New York City in the Borough of Manhattan, to accompany petition dated January 11, 1917, to the Board of Estimate and Apportionment."

—and signed by Edward A. Maher, Vice-President, and T. F. Mullaney, Chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, and is to be substantially followed; provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

SECTION 2. The grant of this right and privilege is subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of the railway hereby authorized shall be obtained by the Company within three (3) months from the signing of this contract by the Mayor, and copies of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said three (3) months or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right and privilege to construct, maintain and operate the railway hereby authorized shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor, until June 10, 1925, with the privilege of renewal of said contract for the further period of twenty (20) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The time within which such application for renewal must be made is of the essence of this contract, and a failure of the Company to present its application within the time fixed shall be considered as an election on the part of the Company not to take advantage of the renewal privilege, and as a relinquishment of its right to such renewal, in which event the franchise shall terminate on the last day of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day nine (9) months before the expiration of the original term of this contract, then the parties hereby agree that the annual rate for the renewal term shall be determined by three disinterested persons selected in the following manner:

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of the original term of this contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained and agreed to by any two of such appraisers shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The entire expense of such appraisal shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for this right and privilege during the original term of this contract expiring June 10, 1925, the following sums of money:

- The sum of one thousand dollars (\$1,000) in cash within three (3) months after the date on which this contract is signed by the Mayor and before anything is done in exercise of the right and privilege hereby granted.
- During the first term of five (5) years, an annual sum which shall be equal to three (3) per cent of its gross annual receipts, but which sum shall not be less than one thousand dollars (\$1,000). During the remaining term expiring June 10, 1925, an annual sum which shall be equal to five (5) per cent of its gross annual receipts, but which sum shall not be less than two thousand dollars (\$2,000).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from whatever source derived, either directly or indirectly, in any manner, out of or in connection with the operation of its railway, as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation.

The annual charges shall commence on the date upon which the Company obtains the permission and approval of the Public Service Commission, as required by Section 53 of the Public Service Commission Law. The Company hereby agrees to file its application with the Public Service Commission for such permission and approval within ten (10) days from the date upon which this contract is signed by the Mayor.

The annual charges, as above, shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

The annual charges herein provided for the original term and those which may be hereafter fixed for the renewal term of this contract are intended to include the percentages of gross receipts now required to be paid by railway companies to the City, pursuant to the Railroad Law, as amended, and such charges as are required under Chapter 340 of the Laws of 1892 to be paid by the Company for the extension hereby authorized, if said act applies to or controls the Company in relation to the right and privilege hereby granted.

The City does not and shall not demand or require the payment by the Company of a percentage of gross receipts under the provisions of Chapter 340 of the Laws of 1892 on the gross receipts earned on the extension hereby authorized.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for similar rights or franchises at a different rate.

Fifth—The rights and privileges hereby granted shall not be assigned or transferred, either in whole or in part, whether by consolidation, merger, reorganization or otherwise, or leased or sublet in any manner, either in whole or in part, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation, merger or reorganization of corporations or otherwise, unless the proposed successor in title to the rights of the Company shall file with the Board an instrument under seal, agreeing to assume and be bound by each and all of the terms and conditions of this contract and agreeing to waive any more favorable conditions created by its charter or any statute relating to the consolidation, merger or reorganization of corporations or otherwise. The filing of such agreement shall constitute a condition precedent to the passing to or vesting in such proposed successor in title to the rights of the Company of the rights and privileges hereby granted, or of any portion thereof, or of any right, interest or property therein. In case of the failure of such proposed successor in title to the rights of the Company to file such agreement within sixty (60) days after the date on which such succession in title is to take effect, the right and privilege hereby granted may be forfeited, or the consent of the City provided for herein may be revoked by resolution of the Board.

Sixth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any other corporation or to any individual a similar right and privilege upon the same or other terms and conditions over the route hereinbefore described, and the Company shall not at any time oppose, but shall consent to the construction and operation of any street surface railway by any such other corporation or individual which may receive a grant therefor from the City, and which may necessitate the use of any portion of the railway which shall be constructed or operated by the Company pur-

suant to this contract; provided, however, that nothing in this clause contained shall estop the Company from appearing before the Board and being heard on any application for rights upon or along said route.

Should the City at any time during the term of this contract grant to any other corporation or to any individual the right or privilege to operate a railway upon the tracks of the Company on the route herein described, or any portion thereof, then the City shall, within thirty (30) days thereafter, give notice to the Company that such right has been granted and of the name of the corporation or individual to which such right has been granted.

At the expiration of ninety (90) days after the giving of such notice, such individual or corporation shall have the right to begin the operation of cars upon the tracks of the Company upon the route, or any portion thereof, over which such corporation or individual may receive a grant, and to use therefor the tracks, equipment, power and all other property of the Company which shall be necessary in the operation of the cars of such individual or corporation upon the tracks of the Company, and shall have the right to continue such operation and use of such property during the term of this contract or until the right to use such property under the terms of the right and privilege granted said corporation or individual by the City shall expire, provided such expiration is prior to the expiration of this contract or its renewal thereof; but such corporation or individual shall, before beginning such operation, give a good and sufficient bond to the Company guaranteeing the payment of any sum or sums which such corporation or individual may be required to pay to the Company for the use of its property. Provided, however, that the Board shall be the judge as to whether the bond is good and sufficient, in case there is a dispute with respect thereto between the Company and such corporation or individual. Such corporation or individual shall pay to the Company for the right to use such tracks, equipment, power and other property above described such sum or sums as may be agreed upon in writing by such corporation or individual and the Company within said ninety (90) days, or in the event that such agreement cannot be reached within said ninety (90) days, such sum or sums shall be determined in the manner hereinafter provided for.

If the Company and such corporation or individual cannot, prior to the expiration of said ninety (90) days, agree upon the compensation for the use of such tracks, then such compensation shall be fixed by three arbitrators selected in the following manner:

One disinterested person shall be chosen by the Company, one disinterested person shall be chosen by such corporation or individual and the two so chosen shall choose a third disinterested person. The decision under oath of any two of said persons who shall be so selected shall be final and conclusive, but the amount or amounts determined by said arbitrators shall not be less with due regard to the extent and duration of use than shall be sufficient to cover the proportionate cost of the tracks, wires and other equipment or structures used, including paving and additions and betterments thereto and of the proportionate current expenses of maintenance, depreciation and renewal, of regulation of traffic, of removal of snow and ice, of the sprinkling of streets, of the use of power and of the performance of such other duties and obligations as are imposed upon the Company in respect to the said railway, other than the payments to the City pursuant to this contract.

The compensation and expenses of the persons selected as arbitrators in the determination of such sum or sums shall be borne by the individual or corporation to which such right may be granted.

Within thirty (30) days after an agreement shall have been reached between said parties, or in case said agreement cannot be reached before the time specified herein, then within thirty (30) days after the determination of the arbitrators as herein provided, should two of such arbitrators agree, the said parties shall file a duplicate copy of a written agreement with the Board, which shall specify the sum or sums which shall have been agreed to by the said parties or determined by said arbitrators as the sum or sums which such corporation or individual shall pay to the Company for said privilege. If the Company fails to file the same with the Board within said thirty (30) days, then the right herein granted shall cease and determine.

If either party fails to appoint an arbitrator as herein provided or should the first two arbitrators fail to agree on the selection of a third arbitrator within thirty (30) days after the expiration of said ninety (90) days, or if no two of said arbitrators so selected agree upon the sum or sums to be paid by such individual or corporation within sixty (60) days after they shall have been so selected, then such sum or sums shall be fixed by the Appellate Division of the Supreme Court, First Department, upon the application of either party, and the decision of that court shall be final. In the event that said Appellate Division of the Supreme Court, First Department, should decline to assume jurisdiction in the matter, then and in such event such sum or sums shall be fixed by the Board, and such fixation by the Board shall be final and conclusive.

Seventh—Upon the termination of the original term of this contract, or if the contract be renewed, then at the termination of the said renewal term, or upon the termination or forfeiture of the right and privilege hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and other property of the Company constructed or existing pursuant to this contract, within the streets and avenues, shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at any time preceding the date upon which this contract shall terminate the Board shall so order by resolution and give notice to the Company, the Company shall, upon the termination of this contract, remove any and all of its tracks and other property constructed or existing pursuant to this contract, and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway hereby authorized within thirty (30) days from the date upon which the copies of the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court made pursuant to section 174 of the Railroad Law confirming the determination of the Commissioners appointed thereunder, that such railway ought to be constructed, and shall complete the construction and place the same in full operation within three (3) months from the date of filing the copies of such consents or the date of such order; otherwise this right and privilege shall cease and determine, and all sums which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City as liquidated damages for failure of the Company to comply with the terms of this contract; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods

shall not exceed in the aggregate six (6) months; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Ninth—The railway hereby authorized shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtenances, from time to time as such additions and improvements are necessary in the opinion of the Board.

Tenth—The railway hereby authorized shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and for the proper restoration of such streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway hereby authorized, whether such electrical equipment be upon streets and avenues or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—The portion of the railway hereby authorized on Amsterdam and Nagle avenues may be operated by overhead electric power substantially similar to the system now used by street surface railways in the Borough of The Bronx, provided that such motive power may be changed at any time during the term of this contract to any other motive power, except cable, locomotive, steam or horse power, upon the approval of the Board and in accordance with the provisions of law.

The portion of the railway hereby authorized on Dyckman street may be operated during the original term of this contract, expiring June 10, 1925, by overhead electric power substantially similar to the system now used by street surface railways in the Borough of The Bronx. From and after June 10, 1925, the date on which said original term expires, said portion of the railway hereby authorized on Dyckman street shall be operated by underground electric power substantially similar to the system then used by street surface railways in the Borough of Manhattan, or by any other motive power except cable, locomotive, steam, horse or overhead electric power, upon the approval of the Board and in accordance with the provisions of law.

The work of reconstructing said portion of the railway hereby authorized on Dyckman street for operation by underground electric power or by such other motive power as may be approved by the Board shall be commenced by the Company at least six (6) months prior to June 10, 1925, and shall be completed on or before said date.

Twelfth—Upon six (6) months' notice by the Board to the Company all wires for the transmission of power, except trolley wires for the operation of the railway, upon all or any portion of the route hereby authorized shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts, not less than three (3) inches in diameter, for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—No wires for the transmission of power shall, from and after June 10, 1925, be permitted on that portion of the railway hereby authorized on Dyckman street unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed, the Company shall provide two (2) ducts, not less than three (3) inches in diameter each, for the exclusive use of the City. Such conduits shall be used only by the Company for the operation of its railway and by the City, as above.

Fourteenth—The rate of fare for any passenger upon the railway hereby authorized shall not exceed five (5) cents, and the Company shall not charge any passenger more than five (5) cents for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control, to any other point thereof, or any connecting branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fifteenth—No cars shall be operated upon the railway hereby authorized other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Sixteenth—All cars operated upon the railway hereby authorized shall be equipped with proper fenders or wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated upon the railway hereby authorized shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Eighteenth—All cars operated upon the railway hereby authorized shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Nineteenth—Cars on the railway hereby authorized shall be operated each day during the term of this contract at intervals of not more than thirty (30) minutes, both day and night, and as much oftener as reasonable convenience of the public may require, or as may be required by resolution of the Board.

Provided, however, that the Company during the first five (5) years of this contract shall not be required to operate cars between the hours of one (1) o'clock a. m. and five (5) o'clock a. m. each day, unless the Board shall determine after a hearing had thereon that public convenience requires the operation of cars during said hours.

Twentieth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall when and as often as directed so to do by the President of the Borough, sprinkle the pavement or space between its tracks, the rails of its track, and for a distance of two (2) feet beyond the rails on either side thereof.

Twenty-first—The Company shall at all times keep the streets and avenues upon which the railway hereby authorized is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-second—The Company shall pave and keep in permanent repair during the entire term of this contract that portion of the surface of the streets and avenues in which the railway hereby authorized is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of the Company to make pavement or repairs after the expiration of twenty (20) days' notice to do so from the President of the Borough, said President may make the same at the expense of the Company. The City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-third—Any alteration to the sewerage or drainage systems or to any other subsurface or to any surface structures in the streets, required on account of the construction, maintenance or operation of the railway hereby authorized, shall be made at the sole cost of the Company. During any work of construction, reconstruction or repairs of the said railway, the Company shall also, at its own cost and expense, protect any and all existing structures belonging to the City. All work to be done by the Company pursuant to this provision shall be done in the manner prescribed by the proper City officials.

Twenty-fourth—The right and privilege hereby granted to operate the railway hereby authorized shall not be in preference or in hindrance to the right of the City to perform or carry on any public works and should the said railway in any way interfere with the construction or maintenance of such public works, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or remove its tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public works.

Twenty-fifth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-sixth—Upon one (1) year's notice from the Board, the Company shall, if the Board shall so determine by resolution, cease the operation of the stub-end terminal hereby authorized in Dyckman Street at or near the easterly line of the right of way of the New York Central Railroad Company, and shall, within sixty (60) days from the date of such notice, make application to the Board for the right to construct, maintain and operate a loop terminal upon streets to be designated by the Board, and shall, on or before the expiration of said one (1) year, enter into a contract for such loop terminal in substitution for the stub-end terminal hereby authorized.

Twenty-seventh—The Company shall submit to the Board a verified report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.

Such deduction shall be made by the Comptroller upon the direction of the Board.

(b) Should the Company, within ten (10) days after demand has been made upon it, fail to pay to the City the cost of any alterations to the sewerage or drainage systems, occasioned by the construction, maintenance or operation of the railway hereby authorized, or fail to repay to the City any damages caused to persons or property which the City shall be compelled to pay by reason of the construction, maintenance or operation of the said railway, or by reason of any acts or defaults of the Company in connection therewith, the City shall have the right to collect such costs or damages, with interest, by deducting the amount of the same from the security fund hereinabove provided for. Such deduction shall be made by the Comptroller upon the direction of the Board.

(c) Should the Company fail to pay to the City the annual charges required to be paid by this contract within the time fixed for the payment thereof, the City shall have the right to collect the amount of such charges, with interest, by deducting the same from the security fund hereinabove provided for. Such deduction shall be made by the Comptroller without further or other direction.

(d) Should the Company fail to comply with the provisions of this contract, or with the orders of the Board or of the officials of the City herein named or referred to, then the Company may be required to pay to the City, as liquidated damages for each breach or violation, the following sums:

For failure to maintain the headway as herein prescribed or to properly heat or light its cars, or to equip its cars with proper fenders or wheel guards, the sum of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car which shall not be operated, heated, lighted or equipped in compliance with this contract, or with the orders of the Board or of the officials of the City having jurisdiction.

For failure to give efficient public service at rates not exceeding those herein fixed, or to maintain its structures and equipment in good condition throughout the whole term of this contract, the sum of two hundred and fifty dollars (\$250) for each day during which the default or defect remains.

For failure to comply with any other provision of this contract as to which liquidated damages are not fixed herein, the sum of fifty dollars (\$50) per day for each day during which such failure or default shall continue.

All of such sums shall be collected by deducting the same from the security fund hereinabove provided for.

The procedure for the collection of such liquidated damages shall be as follows: Whenever the Board shall have knowledge of any such breach or violation on the part of the Company, the Board shall give notice to the Company, specifying the nature of such breach or violation and the amount of liquidated damages which it is proposed to collect therefor, and directing its President or other officer to appear before the Board on a certain day, not less than ten (10) days after the service of such notice.

to show cause why the Company should not be required to pay such liquidated damages in accordance with the foregoing provisions. If the Company fail to make an appearance, or, after a hearing, appears in the judgment of the Board to be in fault, the Board shall forthwith direct the Comptroller to collect such liquidated damages by deducting the amount of the same from the security fund hereinabove provided for.

(e) Should the right and privilege hereby granted be forfeited pursuant to the provisions of this contract, or should such right and privilege be terminated upon the dissolution of the Company, as herein provided, the sum of five thousand dollars (\$5,000) shall be forfeited to the City as liquidated damages, for failure of the Company to perform this contract pursuant to the terms hereof, and the Comptroller upon the direction of the Board, shall collect such liquidated damages by deducting the sum named from the security deposit hereinabove provided for.

Should the Company fail to deposit such sum, the right and privilege hereby granted may be forfeited by the City as in this contract provided.

(g) Should any of the sums going to make up the security fund of nineteen thousand five hundred dollars (\$19,500), heretofore deposited with the Comptroller as hereinabove stated, be forfeited to the City or should any deductions be made therefrom pursuant to the provisions of any of the ordinances or contracts under which said sums were deposited, or pursuant to the provisions of any other contract heretofore or hereafter entered into with the Company for the performance of which said fund of nineteen thousand five hundred dollars (\$19,500) has been or shall be made to stand as security, the Company shall, upon ten (10) days' notice from the Comptroller, deposit with the Comptroller a sum, either in money or securities, which shall be sufficient to restore said security fund to its original amount of nineteen thousand five hundred dollars (\$19,500). Should the Company fail to deposit such sum, the right and privilege hereby granted may be forfeited by the City as in this contract provided.

(h) Should any of the rights and privileges granted by any of the ordinances or contracts hereinabove specified expire by limitation prior to the date fixed for the expiration of the right and privilege hereby granted, the sum or sums deposited with the Comptroller under and pursuant to the said ordinances or contracts, or any of them, shall not be returned to the Company, but shall be held and retained by the Comptroller to the end that the security fund of nineteen thousand five hundred dollars (\$19,500), hereinabove provided for, shall be continued intact until the date of the termination of this contract.

(i) No action or proceeding or right under the provisions of this subdivision shall affect any other legal rights, remedies or causes of action belonging to the City.

The provisions for the reimbursement of the City for work done by it or amounts expended by it on behalf of the Company, or amounts paid by it to any person by reason of any act or default of the Company, or for the collection by it of the annual charges, or of liquidated damages, are and shall be in addition to the City's right, as herein reserved, to forfeit the right and privilege hereby granted.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described premises, shall be torn down and removed from the premises. None of the dirt, debris or waste remaining on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions, as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may be seen there.
