

WELCOME TO THE NEW SOLID WASTE MANAGEMENT PLAN SCOPING MEETING

FOR THE PROPOSED NORTH SHORE CONVERTED MARINE TRANSFER STATION

To support the approval of the City of New York Comprehensive Solid Waste Management Plan for the next 20-year planning period (New SWMP), the City will prepare a Draft Environmental Impact Statement (DEIS) that will evaluate the environmental impacts of the New SWMP proposed action. Among other things, the DEIS will evaluate the impacts associated with the proposed conversion of the eight existing City Marine Transfer Stations (MTS Conversion Program), including the North Shore MTS in Flushing, NY, into state-of-the-art waste containerization facilities from which waste will be barged for disposal. The DEIS will evaluate alternatives to the proposed action, including alternatives to the MTS Conversion Program.

DSNY intends to obtain as much public input as possible on the impacts associated with the proposed North Shore MTS project. We are prepared to listen to your comments and concerns on the issues to be addressed in the EIS.

Please review the displays and then provide us with your comments to help focus our environmental study.
