DSNY Issues 'Snow Alert' for Thursday, January 6th, 2022, beginning at 7 p.m.

Alert continues until 7 p.m. Friday, January 7th

The New York City Department of Sanitation has issued a Snow Alert for Thursday, January 6th, beginning at 7 p.m. The alert is in effect for a minimum of 24 hours.

Based on current forecasts, the Department expects snowfall beginning Thursday evening, with up to 6 inches possible through the overnight hours and into Friday afternoon. All winter weather information and information about the City's response to the storm can be found by visiting the City's Severe Weather website at www.nyc.gov/severeweather, or by calling 311.

In a Snow Alert, the Department coordinates with NYC Emergency Management and the Department of Transportation on snow clearing protocol in accordance with each agency's written snow plan. All relevant city agencies have been notified of the snow alert.

Operations Update

The Department is preparing for the possibility of a plowable snowfall, and its Workers and equipment are prepared. Salt spreaders are filled and ready to go and will start pretreating roadways ahead of the snowfall on Thursday night. The forecast indicates that this is an appropriate event for the use of brine, and the Department will have pretreated all Tier 1 and Tier 2 bike lanes with the anti-icing liquid before midnight Friday. Additionally, the Department's collection trucks will be turned into snow plows, ready to plow once two inches of snow has fallen. The Department has more than 2,000 total vehicles equipped with plows, including salt spreaders. The Department has more than 330,000 tons of salt on hand.

Trash/Recycling Collection:

The Sanitation Workers who collect trash and recycling are the same Sanitation Workers who plow and salt the streets, therefore trash and recycling collection will be delayed during snow removal operations. While residents may put material out at the curb following their normal schedule, snow operations take priority and collection delays are to be expected. The Department will return to collection operations as soon as operations allow. We thank residents for their patience as we work to clear the streets.

Alternate Side Parking

In order to facilitate snow removal operations, Alternate Side Parking regulations are already suspended Thursday, January 6 due to Three King's Day. Parking meters will remain in effect.

Guidance for Open Restaurants

Open Restaurants roadway dining may operate as normal during this snow event if the business owner deems it is safe to do so. To prevent damage from the weight of snow, restaurants should remove the tops of structures if possible or regularly clear snow off, without putting it back into the street. Restaurant owners may find additional information to prepare their spaces for snow at <https://www1.nyc.gov/html/dot/html/pedestrians/openrestaurants.shtml>.

Protected Bike Lanes

The City takes the safe passage of our bicycle facilities seriously, especially for the essential workers who need to be out in any weather. While the Department's initial focus during an active snow event is to keep our roadways clear for emergency vehicles to ensure New Yorkers never lose access to critical medical, fire and police services, plowing and salting of bike lanes will begin after the emergency roadway work is underway. Protected bike lanes will be pretreated with brine and cleared as quickly as possible. Property owners may not move snow from sidewalks into bike lanes.

Snow Clearing Information

As a reminder, property owners, including restaurants with outdoor dining structures, may NOT push snow into the street, including bike lanes. This impedes snow clearing operations and is illegal. Snow may be moved against the building, to the curb line, or areas on private property. Sidewalks should be passable for all pedestrians, including a minimum 4-foot clear path, where possible.

New Yorkers are also encouraged to sign up for Notify NYC, the City's free emergency notification system. Through Notify NYC, New Yorkers can sign up to receive phone calls, text messages, and emails alerts about severe weather events and emergencies. To sign up for Notify NYC, call 311, visit www.nyc.gov or follow [@NotifyNYC](https://twitter.com/NotifyNYC) on Twitter.

About the New York City Department of Sanitation

The Department of Sanitation (DSNY) keeps New York City healthy, safe and clean by collecting, recycling and disposing of waste, cleaning streets and vacant lots, and clearing snow and ice. The Department operates 59 district garages and manages a fleet of more than 2,000 rear-loading collection trucks, 450 mechanical brooms and 705 salt spreaders. The Department clears litter, snow and ice from approximately 6,500 miles of City streets and removes debris from vacant lots as well as abandoned vehicles from City streets.
