BOARD OF ESTIMATE AND APPORTIONMENT—CITY OF NEW YORK,
MAYOR'S OFFICE, CITY HALL,
FRIDAY, October 31, 1890—2 o'clock P. M.

The Board met in pursuance of an adjournment.

Present—All the members, viz.:

Hugh J. Grant, the Mayor; Theodore W. Myers, the Comptroller; John H. V. Arnold, the President of the Board of Aldermen; Michael Coleman, the President of the Department of Taxes and Assessments.

The minutes of the meeting held October 30, 1890, were read and approved.

The Comptroller presented the following Departmental Estimates for the year 1891:

ESTIMATES OF THE DEPARTMENTS, BOARD OF EDUCATION, JUDICIARY, AND OFFICERS OF THE CITY OF NEW YORK, INCLUDING VARIOUS CHARITABLE INSTITUTIONS, FOR THE YEAR 1891.

CITY DEPARTMENTS.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 24, 1890, the following preamble and resolution were adopted, to wit:

Whereas, section 189 of the New York City Consolidation Act of 1882 provides as follows:

"The Mayor, Comptroller, President of the Board of Aldermen, and the President of the Department of Taxes and Assessments, shall constitute the Board of Estimate and Apportionment.

"The said Board shall, annually, between the first day of August and the first day of November, meet, and by the affirmative vote of all the members, make a Provisional Estimate of the amounts required to pay the expenses of conducting the public business of the City and County of New York, and each department and branch thereof, and of the Board of Education, for the then next ensuing year.

"For the purpose of making said Provisional Estimate, the Heads of Departments and the Board of Education shall, at least thirty days before the said Provisional Estimate is required to be made, as herein provided, send to the Board of Estimate and Apportionment an estimate in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates.

"The same statement as to salaries and expenditures shall be made by all other officers, persons and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller requests the Heads of all the Departments, and the officers of the City and County of New York, to send their Departmental Estimates for the year 1891, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 10, 1890."

You are particularly requested to send your Departmental Estimate to the Board of Estimate and Apportionment, on or before the 10th day of September, 1890.

The Departmental Estimate should state specifically the objects and purposes of all the appropriations required to pay the expenses of conducting the public business of your Department in and for the year 1891. The amount required should be specified for each item of expense, including the salaries paid all officers, clerks and subordinates employed in the Department, giving the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above cited provisions of law. Full explanations should accompany the estimates, stating the reasons for any increase or decrease in the amounts, as compared with the appropriations made for 1890.

You are particularly requested to refer in your estimates to the provisions of law under which the amounts of salaries, and of appropriations of specific sums for special objects and purposes, are authorized.

A separate comparative statement, in tabular form, showing, in one column, the amounts of all appropriations made to your Department for the year 1890, for different objects and purposes, with additions and deductions therefrom for any transfers which may have been made from one appropriation to another; and showing, in another column, the amounts of appropriations asked for in your Departmental Estimate, for the year 1891, is also required to be appended to said Departmental Estimate.

You are also requested to state the amount which may probably remain unexpended of any appropriations for 1890 at the end of the year.

Every item of expense not absolutely necessary for conducting the public business should be excluded, and every item included in the estimates should be reduced to the lowest amount of expenditure consistent with efficient service, in order to secure the utmost economy in the administration of city affairs, and make the burthen of taxation as light as possible; and your co-operation with the Board of Estimate and Apportionment in accomplishing these important objects is earnestly requested.

Respectfully,

THEO. W. MYERS, Comptroller

THE JUDICIARY, ETC.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 24, 1890, the following preamble and resolution were adopted, to wit:

writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates.

"The same statement as to salaries and expenditures shall be made by all other officers, persons, and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller requests the Heads of all the Departments, and the Officers of the City and County of New York, to send their Departmental Estimates for the year 1891, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 10, 1890."

In accordance with the foregoing resolution I respectfully request you to prepare and send to the Board of Estimate and Apportionment, as soon as practicable, and before the 10th day of September, 1890, without fail, an estimate in detail of the amounts required to pay the expenses of conducting the business of your office, in and for the year 1891. The purpose and object of every appropriation should be stated, and the amounts of the salaries of all officers, clerks, employees and subordinates, should be specified; also the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above provisions of law.

If the estimates for 1891 differ in amount from the appropriations for the year 1890, you are requested to explain the reason of any increase or decrease.

You are particularly requested to refer in your estimates to the provision of law under which the amounts of salaries, and of appropriations of specific sums for special objects and purposes, are authorized.

Every item of expense not absolutely necessary for conducting the public business should be excluded, and every item included in the estimates should be reduced to the lowest amount of expenditure consistent with efficient service, in order to secure the utmost economy in the administration of city affairs, and make the burthen of taxation as light as possible; and your co-operation with the Board of Estimate and Apportionment in accomplishing these important objects is earnestly requested.

Reference should be made to the provision of law authorizing the amount to be appropriated and paid from the treasury of the City of New York for the benefit of your institution, annually, or as a per capita allowance of money.

Respectfully,

THEO. W. MYERS, Comptroller.

The Departmental Estimates for the year 1891 are as follows:

THE LEGISLATIVE DEPARTMENT.

OFFICE OF THE BOARD OF ALDERMEN,
No. 8 CITY HALL,
NEW YORK, August 27, 1890.

Hon. THEODORE W. MYERS, Comptroller:

DEAR SIR—In reply to your circular letter of the 6th instant, requesting me to prepare and transmit to the Board of Estimate and Apportionment, on or before the 10th day of September, 1890, estimates, in writing, of the amounts required to pay the expenses of conducting the public business in this office, in and for the year 1891, together with other information, I have the honor to state that the salaries fixed by law are as follows:

President of the Board of Aldermen.....	\$3,000 00
Twenty-five members of the Board, other than the President, at \$2,000 each per annum.....	50,000 00

(Section 52, New York City Consolidation Act of 1882; chapter 74, Laws of 1884; chapter 292, Laws of 1887.)

By section 79 of the New York City Consolidation Act of 1882, the sum to be appropriated for salaries for clerks and other officers of the Board of Aldermen, including the Clerk, is limited to \$25,000. The Board of Estimate and Apportionment, in 1888 and 1889, specified the officers and fixed their salaries at \$22,100, which will be ample for the ensuing year, and is as follows:

Clerk of the Board, and ex-officio Clerk of the Common Council.....	5,000 00
Deputy Clerk of the Board of Aldermen.....	2,500 00
Five Clerks, at \$1,200 each.....	6,000 00
Four Clerks, at \$1,000 each.....	4,000 00
Librarian for City Library.....	1,000 00
Sergeant-at-Arms, Board of Aldermen.....	900 00
Three Messengers, at \$900 each per annum.....	2,700 00
City Contingencies.....	1,500 00
Contingencies, Clerk of Common Council.....	200 00

Total for the year 1891..... \$76,800 00

—and is an exact duplicate, both as to the objects and the amount of expenditures, asked for and allowed for each of the past two years.

Until after the organization of the Board of Aldermen for the year 1891 and the appointment of its officers, their names and designations cannot be given.

As all the appropriations are made to pay fixed salaries, with the exception of the items of contingencies, it is more than probable they will be all expended. The balance unexpended from the appropriation for "Contingencies" cannot, with any degree of certainty, be estimated at this time.

Very respectfully,

FRANCIS J. TWOMEY, Clerk Common Council.

THE FINANCE DEPARTMENT.

CITY OF NEW YORK—FINANCE DEPARTMENT, }
COMPTROLLER'S OFFICE, }
October 13, 1890. }

To the Board of Estimate and Apportionment:

As provided by section 189 of the New York City Consolidation Act of 1882, I submit herewith, in writing, the Departmental Estimate of the amount of expenditure required for conducting the public business in the Finance Department of the City of New York for the year 1891, stating in detail the objects and purposes of such expenditure, and including a statement of the salaries of each of the officers, clerks and subordinates employed in the Department, and the compensation of temporary clerks engaged during a portion of each year.

Statements in detail are presented of stocks and bonds of different kinds and classes, which become due and payable in the year 1891, and the redemption of which is provided for as stated, under their several heads and classification, as follows:

1. Statement of stocks and bonds, amounting to \$2,467,600, which, by the laws authorizing their issue, were made payable from taxation at maturity, but which may be provided for by payment from the Sinking Fund for the Redemption of the City Debt, pursuant to the provisions of sections 176 and 177 of the Consolidation Act, without in any way impairing the preferred claims on that fund, as provided by section 175 of said act, thereby rendering it unnecessary to include the amount in the Annual Estimates to be raised by tax in 1891. In the year 1891 there are no stocks and bonds becoming due which have a preferred claim upon the Sinking Fund.

2. Statement of bonds and stocks payable in the year 1891 from the Sinking Fund, as provided by section 192 of the New York City Consolidation Act, amounting to \$1,154,500, which were issued after June 3, 1878, for the redemption of which at maturity installments were raised by tax annually and paid into the Sinking Fund, from which fund they are now payable, under the provisions of chapter 178 of the Laws of 1889.

3. Statement of the estimated amount of installments to be raised in 1891 for the redemption at maturity of stocks to be issued for the supply of water, pursuant to the provisions of article 8, section 11 of the State Constitution, from a special Sinking Fund formed for the purpose, amounting to \$1,049,434.67.

4. Statement of the bonds and stocks which have been issued since June 3, 1878, and prior to September 1, 1890, and will be issued, as estimated, during the remainder of the year 1890, amounting to \$1,327,283.57. The payment of such bonds and stocks has heretofore been provided for by taxes levied annually in installments of the amount issued, sufficient with the accumulation of interest thereon to redeem them at maturity, as provided by section 192 of the New York City Consolidation Act of 1882; this provision of law, however, was amended by chapter 178 of the Laws of 1889, making all such bonds and stocks redeemable from the income, revenues and accumulations of the Sinking Fund for the Redemption of the City Debt, until other provision therefor may be hereafter made by law.

5. Statement in detail of revenue and other bonds, amounting to \$24,000, payable by special laws from taxation in 1891, to be provided for in the Annual Estimates by the Board of Estimate and Apportionment, and of bonds issued by the towns of Morrisania and West Farms, prior to their annexation to the city in 1874, becoming due in 1891, amounting to \$28,000. Interest becoming due in 1891 on bonds of the towns of Morrisania and West Farms, amounting to \$40,810, is included in the statement of interest on stocks and bonds outstanding, exclusive of the funded debt held by the Sinking Fund.

Statements in detail are also presented showing the amounts of interest becoming due and payable on stocks and bonds in 1891, as follows:

1. Statement of stocks and bonds outstanding September 1, 1890, exclusive of the Funded Debt held by the Sinking Fund as investments, showing interest becoming due thereon in 1891, amounting to \$4,790,233.37.

2. Statement of the estimated amount required to be raised by tax for interest payable in 1891 on stocks and bonds to be issued in 1890, after August 31, 1890, and in 1891, amounting to \$134,250.

3. Statement of interest to be paid on Revenue Bonds to be issued in 1891, in anticipation of the collection of taxes, to meet the current expenses of the City Government, amounting to \$190,000.

The State taxes payable in 1891, as the quota of the County of New York for the State fiscal year, commencing October 1, 1890, amount to \$3,923,698.92, as shown by a communication from the State Comptroller. The amount required to be raised for the salary and expenses of the Shore Inspector is \$12,555.10, making a total of \$3,936,254.02, to be included in the Estimate for 1891.

The amount of the quota of State taxes for 1890 was \$5,685,660.41. The Board of Estimate and Apportionment deducted from this amount the sum of \$1,178,607.06, as follows:

Deduct the proportion of the State tax imposed on the City and County of New York for and on account of the several items of appropriation in the State Supply Bill which were vetoed by the Governor, amounting to \$1,808,550.13, which proportion is the sum of	\$818,767 41
Deduct also that portion of the State tax imposed on the sum of \$119,425,063, added by the State Board of Equalization to the assessed valuation of real estate in the City of New York, which said portion is	359,839 65
	<u>\$1,178,607 06</u>

The State Board of Equalization has added the sum of \$122,061,343 to the valuation of real estate in the City of New York, and deducted the same amount from some other counties in the State, as shown by the State Equalization Table for 1890.

The Board of Estimate and Apportionment made a reduction on State taxes in the Final Estimate for 1890 of the sum of \$359,839.65, on account of the addition by the Board of Equalization of the sum of \$119,425,063 to the assessed valuation of real estate in the City of New York, on which the State taxes were levied; and a reduction also of the sum of \$818,767.41 for items contained in the State Supply Bill for 1889-90, which were vetoed by the Governor.

Actions have been brought by the State against the City for the amount of these reductions from the State taxes in the appropriation therefor in 1890, amounting to \$1,178,607.06, and the cases are now pending.

Statements are also presented with the Departmental Estimate of the Finance Department of the amount of rents payable in the year 1891, on leases to the City of premises for the use of various Departments and Public Offices, the Civil and Police Courts, Armories and Drill-rooms for the National Guard, together with estimates of miscellaneous expenses chargeable upon the City Treasury, and on account of judgments against the Corporation, and a number of items of necessary expenditure, including the wages of Armorer, Janitors, Engineers and Laborers for armories, etc., which are not included in any Departmental Estimate.

Respectfully submitted,

THEO. W. MYERS, Comptroller.

THE DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, September 22, 1890.

Hon. HUGH J. GRANT, Mayor and Chairman, Board of Estimate and Apportionment:

SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, I have the honor to present the following estimate of the appropriations required to conduct the public business of this Department for the year 1891:

AQUEDUCT—REPAIRS, MAINTENANCE AND STRENGTHENING.

Final Estimate for 1890—	
General account	\$349,000 00
Salary account	27,000 00
Total	\$376,000 00
Departmental Estimate for 1891—	
General account	\$270,000 00
Salary account	28,000 00
Total	\$298,000 00

The estimate provides for an expenditure of \$25,000 for the repairs of the old Aqueduct, in addition to the ordinary care and maintenance. For over ten years it has been impossible to close the Aqueduct for the purpose of making repairs from the interior. Such repairs as have been made were made from the exterior at greatly increased cost, and without giving assurance of the stability of the structure. All the water which the Aqueduct is capable of delivering has been needed for daily consumption, and to close it even for a few days would have caused serious interruption of the supply. The estimate also includes \$70,000 for concreting and facing with masonry the old Central Park reservoir, where additional excavation has been made and will be completed under the present contract under the special appropriation of \$150,000 made for that purpose. This will leave the estimate for general maintenance and repairs the same as for the year 1890—\$175,000.

The estimate for salary account provides for the present force and salaries, with the addition of one Engineman at the high-service pumping station at Ninety-eighth street, where an additional pumping-engine will soon be brought into use. The salaries to be provided for are as follows:

1 Assistant Engineer.....	\$3,000 00
1 Leveler.....	1,400 00
1 Leveler.....	1,200 00
1 Rodman.....	1,000 00
1 Keeper.....	1,400 00
1 Keeper.....	1,200 00
6 Keepers, \$1,000 each.....	6,000 00
2 Enginemen, \$1,500 each.....	3,000 00
2 Enginemen, \$1,200 each.....	2,400 00
3 Enginemen, \$1,000 each.....	3,000 00
1 Clerk.....	2,000 00
1 Messenger.....	900 00
1 Inspector of Masonry, 338 days, at \$4 per day.....	1,350 00
Total	\$27,850 00

BORING EXAMINATIONS FOR GRADING AND SEWER CONTRACTS.

Final Estimate for 1890.....	\$3,600 00
Departmental Estimate for 1891.....	4,500 00

The increase of \$900 in this appropriation is required for boring examinations on regulating and grading contracts, especially where filling is required on marshy ground, so as to arrive at an approximately correct preliminary estimate of the work required to be done, including sinkage of filling.

BOULEVARDS, ROADS AND AVENUES, MAINTENANCE OF.

Final Estimate for 1890—	
General account.....	\$100,000 00
Salary account.....	2,500 00
Total	\$102,500 00
Departmental Estimate for 1891—	
General account.....	\$100,000 00
Salary account.....	2,500 00
Total	\$102,500 00

The appropriation for ordinary care, repairs and maintenance of the macadam roadways cannot be diminished without detriment to the roadways. They were originally designed for suburban drives with light wagon traffic, but are now extensively used for heavy carling and trucking in the transportation of building materials. This heavy traffic also causes increased cost for sprinkling to allay the dust in dry weather, and increased cost for cleaning to remove the mud in wet weather. In addition to this \$40,000 will be required for resurfacing Seventh avenue, north of One Hundred and Tenth street; \$40,000 for resurfacing Sixth avenue, north of One Hundred and Tenth street, and \$3,000 for resurfacing One Hundred and Twenty-fourth street, from Fifth to Pleasant avenue. If these special items are allowed the appropriation for general care and maintenance may be reduced \$25,000.

The estimate for salary account is for the salaries of

1 Clerk.....	\$1,500 00
1 Rodman.....	1,000 00
Total	\$2,500 00

BRONX RIVER WORKS—MAINTENANCE AND REPAIRS.

Final Estimate for 1890—	
General account.....	\$25,000 00
Salary account.....	2,400 00
Total	\$27,400 00

Departmental Estimate for 1891—	
General account.....	\$25,000 00
Salary account.....	2,400 00
Total	\$27,400 00

The estimate for general account is required for the force employed on the maintenance and repairs of the Bronx river conduit and reservoirs; for materials, tools and supplies, and for taxes on property connected with the Bronx river water supply.

The estimate for salary account is required for the salaries of the Keeper at the Kensico Reservoir and the Keeper at the Williamsbridge Reservoir, at \$1,200 each.

CONTINGENCIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1890.....	\$4,000 00
Departmental Estimate for 1891.....	4,000 00

This appropriation is for traveling expenses of officers and employees on official duty, where such expenses are not chargeable to some special work or appropriation; for postage, expressage, telegraphing and other incidental expenses.

FLAGGING SIDEWALKS AND FENCING VACANT LOTS IN FRONT OF CITY PROPERTY.

Final Estimate for 1890.....	\$3,000 00
Departmental Estimate for 1891.....	3,000 00

This amount is required for the ordinary repairs to sidewalks in front of City property, and for extra repairs or reflagging required on the sidewalks around Jefferson Market building.

FREE FLOATING BATHS.

Final Estimate for 1890—	
General account.....	\$22,000 00
Salary account.....	32,000 00
Total	\$54,000 00

Departmental Estimate for 1891—	
General account.....	\$20,000 00
Salary account.....	32,000 00
Total	\$52,000 00

The estimate for general account is required for the care and maintenance of the fifteen baths now in use, including towage to and from the respective berths; storage in winter quarters; dock rent; repairs, painting, carpenter work and roofing; fuel, gas, fixtures and general supplies and utensils. The estimate for 1891 is reduced by \$2,000 for the reason that the Department of Docks now supplies berths free of charge for the baths at the foot of Stanton street and One Hundred and Twelfth street, East river, where dock rent had heretofore to be paid.

The estimate for salary account is for the salaries of—

1 Foreman, 365 days, at \$5 per day.....	\$1,825 00
2 Assistant Foremen, 365 days, at \$3.50 per day each.....	2,555 00
1 Carpenter, 313 days, at \$3.50 per day.....	1,095 50
6 Male Attendants, 365 days, at \$3 per day each.....	6,570 00
40 Male Attendants, at \$2.50 per day each, and 30 Female Attendants, at \$2 per day each, for a bathing season of 126 days.....	20,160 00
Total	\$32,205 50

LAMPS AND GAS AND ELECTRIC LIGHTING.

Final Estimate for 1890—	
General account.....	\$700,000 00
Salary account.....	6,500 00
Total	\$706,500 00

Departmental Estimate for 1891—	
General account.....	\$826,000 00
Salary account.....	6,500 00
Total	\$832,500 00

The estimate for 1891 is for the cost of maintaining and lighting 27,456 gas-lamps, 138 naphtha lamps and 896 electric lights, which will be in use on January 1, 1891, at the present contract prices, and furnishing gas to public buildings and offices. The increase of \$126,000 over the appropriation for 1890 is called for by the following items:

Purchasing, placing and lighting 1,100 additional gas-lamps.....	\$18,000 00
15 electric lights to be placed in East River Park.....	2,464 00
Increased cost of electric lighting under the prices bid by the electric-light companies at the last letting.....	32,536 00
Relighting 465 electric lamps, at 43 cents per night each.....	73,000 00
Total	\$126,000 00

The 465 electric lamps to be relighted were discontinued on account of the cutting of electric wires. If the Gas Commission shall decide that they be relighted at 43 cents per night each, all of the above estimate will be required, and if they are not to be relighted the estimate may be reduced by \$73,000.

In the City of Buffalo electric lights of 2,000 candle-power are furnished at 40 cents per night each, and in the City of Rochester at 27 cents per night each under a five years' contract.

The estimate for salary account is for the present force and salaries, viz.:

1 Clerk.....	\$1,500 00
5 Inspectors, \$1,000 each.....	5,000 00
Total	\$6,500 00

LAYING CROTON PIPES.

Final Estimate for 1890—	
General account.....	\$232,000 00
Salary account.....	18,000 00
Total	\$250,000 00

Departmental Estimate for 1891—	
General account.....	\$230,290 00
Salary account.....	19,710 00
Total	\$250,000 00

The Consolidation Act, section 356, limits the expenditure under this appropriation to \$250,000 per annum. A larger amount could be profitably expended to extend and improve the water service, especially since the acquisition of the additional water supply through the New Aqueduct.

The increase of \$1,710 in the salary account is required for the services of an additional Rodman and an Inspector of Masonry in connection with work required to be done in laying water-pipes in consequence of the sinking of the tracks of the New York and Harlem Railroad.

The salaries to be provided for are:

1 Assistant Engineer.....	\$3,000 00
1 Leveler.....	1,200 00
1 Rodman.....	1,200 00
1 Rodman.....	1,000 00

1 Inspector on Masonry, 320 days, at \$4 per day.....	1,280 00
Total	\$19,710 00

PUBLIC BUILDINGS—CONSTRUCTION AND REPAIRS.

Final Estimate for 1890, including transfers.....	\$94,345 00
Departmental Estimate for 1891.....	85,000 00

This amount is required for repairs, roofing, painting, reconstruction of plumbing, drainage and ventilation, etc., in the public buildings, markets and armories, and the rearrangement of rooms occupied by courts and public offices under the charge of this Department, and to meet emergencies which may arise in consequence of fire or otherwise.

PUBLIC DRINKING-HYDRANTS.

Final Estimate for 1890—	
General account.....	\$3,000 00
Salary account.....	1,200 00
Total.....	\$4,200 00

Departmental Estimate for 1891—	
General account.....	\$3,000 00
Salary account.....	1,200 00
Total.....	\$4,200 00

The amount of \$3,000 is required for the maintenance and repairs of the public drinking-hydrants now in use, leaving possibly a small margin for placing a few additional drinking-hydrants. The estimate for salary account is required for the salary of one Inspector, at \$1,200 per annum.

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES.

Final Estimate for 1890—	
General account.....	\$40,000 00
Salary account.....	7,800 00
Total.....	\$47,800 00

Departmental Estimate for 1891—	
General account.....	\$40,000 00
Salary account.....	7,800 00
Total.....	\$47,800 00

The appropriation for the removal of obstructions cannot be diminished while the extra expense of removing electric wires and poles has to be met.

The estimate for salary account provides for the salaries of the present force, as follows:

2 Inspectors, \$1,200 each.....	\$2,400 00
6 Inspectors, \$900 each.....	5,400 00
Total.....	\$7,800 00

REPAIRING AND RENEWAL OF PIPES, STOP-COCKS, ETC.

Final Estimate for 1890.....	\$220,000 00
Departmental Estimate for 1891.....	220,000 00

This estimate includes, in addition to the labor and materials for the repairs and maintenance of the present system for distributing the water supply, \$50,000 for continuing the work of replacing water-mains and fixtures contiguous to the water-front, which have become corroded by contact with salt water, and \$10,000 for purchasing and placing water-meters in houses where waste of water is known to exist, and which are not subject to the compulsory use of water-meters. The expenditure under this appropriation will also be increased by the necessity of relaying water-mains in consequence of the sinking of the tracks of the New York and Harlem Railroad north of the Harlem river.

By the following letter from the President pro tem. of the Fire Department, that Department asks for the placing of 5,000 additional fire-hydrants, the cost of which the Chief Engineer of the Croton Aqueduct estimates at \$500,000:

"FIRE DEPARTMENT,
NEW YORK, August 25, 1890."

"Hon. THOMAS F. GILROY, Commissioner of Public Works:

"SIR—Referring to the discussion on Senate Bill 323, providing fire-hydrants for the use of this Department, at a meeting of the Mayor and heads of Departments held before the adjournment of the last session of the Legislature, I beg to remind you of the statement then made by the Mayor and others in authority that the only objectionable feature of the bill was the mandatory clause, and that there would be no opposition to providing all the fire-hydrants deemed to be necessary by this Department, through your Department.

"In consonance with the views and implied promises then expressed and given, I have the honor to request that you make provision for the fire-hydrants required in your Departmental Estimate for the coming year.

"The Chief of Department's estimate of the number of hydrants required to be placed during the coming year is 5,000.

(Signed)

"Very respectfully,
S. HOWLAND ROBBINS, President pro tem."

The Chief Engineer of the Croton Aqueduct states that in connection with the extension of the water service into new streets and districts, and the work of repairing and renewing pipes, stop-cocks, etc., only about 200 additional fire-hydrants can be placed next year by this Department out of the annual appropriations.

REPAIRS AND RENEWALS OF PAVEMENTS AND REGRADING.

Final Estimate for 1890—	
General account.....	\$350,000 00
Salary account.....	17,000 00
Total.....	\$367,000 00

Departmental Estimate for 1891—	
General account.....	\$350,000 00
Salary account.....	17,000 00
Total.....	\$367,000 00

While the old style square-block pavements and cobble pavement remain, and the streets are constantly torn up for the placing and repairs of underground structures, and the laying and relaying of rail-tracks, the appropriation and expenditure for pavement repairs cannot be diminished without serious detriment to public health and convenience. The Departmental Estimate for 1890 was \$400,000, but was cut down by your Board to \$350,000, which is the amount of the present estimate.

The area of pavements to be kept in repair under this appropriation has been increased this year up to date by the laying of 93,905 square yards of granite-block pavement and 1,500 square yards of trap-block pavement on new streets in the upper part of the city, and the total area of pavements to be maintained is now as follows:

Specification granite.....	2,301,065 square yards.
Square-block granite.....	671,430 "
Specification trap.....	1,250,029 "
Square trap-blocks.....	2,988,581 "
Cobble.....	89,586 "
Asphalt.....	96,465 "
Wood.....	510 "
Total.....	7,397,672 square yards.

The estimate for salary account provides for the salaries of the present force, with an increase from \$1,500 to \$1,800 per annum in the salaries of two clerks who have shown themselves faithful, capable and diligent, and whose work has been very much increased.

The following are the salaries to be provided for:

1 General Inspector.....	\$2,000 00
1 Permanent Inspector, 313 days, at \$5 per day.....	1,565 00
8 Inspectors, average time 293 days, at \$3.50 per day.....	8,235 00
2 Clerks, \$1,800 each.....	3,600 00
1 Clerk.....	1,200 00
1 Clerk.....	1,000 00
Total.....	\$17,600 00

REPAVING STREETS AND AVENUES.

Final Estimate for 1890—	
General account.....	\$400,000 00
Salary account.....	13,000 00
Total.....	\$413,000 00

Departmental Estimate for 1891—	
General account.....	\$400,000 00
Salary account.....	13,000 00
Total.....	\$413,000 00

There are now three classes of repavement work in progress:

1. Repavements made under the annual appropriation, under which there have been laid this year to date 54,360 square yards granite-block pavement, nearly all on concrete foundation, and 459 square yards of asphalt pavement.

2. Repavements under the \$1,000,000 appropriation, in pursuance of chapter 346, Laws of 1889, under which there have been laid this year to date 44,835 square yards granite-block pavement, also principally on concrete foundation, and 36,021 square yards asphalt pavement.

3. Repavements within the limits of grants of land under water, in pursuance of chapter 449, Laws of 1889, the cost of which is assessed on the adjacent property. Under this 9,919 square yards of granite-block pavement on concrete foundation have been laid this year to date.

All the repavement work is in active progress, and will continue so until frost sets in.

While there is room for the improvement of the pavements, the city can profitably expend every year the limit of \$500,000 prescribed by the Consolidation Act for replacing old and worn-out pavements, and the amount of \$400,000, which is \$100,000 less than the limit, will be required for the replacement of old and defective pavements. The work under this appropriation is carried on in connection with and supplementary to the work under the \$1,000,000 appropriation and under the act relating to grants of land under water.

The estimate for salary account is for the salaries of—

2 Permanent General Inspectors, at \$1,500 each.....	\$3,000 00
Local Inspectors on contract work, at \$3.50 per day each, average.....	10,000 00
Total.....	\$13,000 00

ROADS, STREETS AND AVENUES UNPAVED—MAINTENANCE AND SPRINKLING.

Final Estimate for 1890.....	\$25,000 00
Departmental Estimate for 1891.....	30,000 00

While the length and area of unpaved streets and roads in the upper part of the city is being diminished from time to time by the paving of new streets, it is correspondingly increased by the opening of new streets. The increase in population and buildings in the upper part of the city causes rapid increase of wagon traffic over the unpaved streets and roads, and calls for larger appropriation and expenditure for labor and materials to keep them in fair condition. The most frequented of the roads are daily sprinkled in dry weather.

SALARIES—DEPARTMENT OF PUBLIC WORKS.

Final Estimate for 1890.....	\$92,000 00
Departmental Estimate for 1891.....	95,000 00

This appropriation is for the salaries of the Commissioner, Deputy Commissioner, Chief Clerk, heads of bureaux, and the regular Clerks and Messengers, whose salaries are not directly chargeable to some specific work or appropriation. The increase of \$3,000 called for in this estimate is required for the employment of two additional Clerks whose services are necessary to make out weekly pay-rolls for men employed at daily wages instead of semi-monthly pay-rolls, and for increasing the salary of the Cashier of Water Rents from \$2,000 to \$2,500 per annum, as recommended by the Water Register.

The salaries to be provided for are:

For the effective performance of these services an increase of the force is absolutely necessary. This estimate calls for one additional Clerk at \$1,500; one at \$1,200; one at \$1,000; 5 Inspectors of Meters, at \$3 per day each, and 3 Inspectors of Waste, at \$3 per day each.

The following are the salaries to be provided for:

STREET IMPROVEMENTS—FOR SURVEYING, MONUMENTING, ETC.

Final Estimate for 1890.....	\$3,000 00
Departmental Estimate for 1891.....	3,000 00

This amount is required to pay the expense of resetting and replacing obliterated monument stones on the lines of the public streets, and for surveys and service of notices for the allotment of house numbers on new streets and the rearrangement of the numbers on old streets.

For several years past, since the introduction of electric lights and the obliteration of street signs on gas-lamps, efforts have been made to replace the obliterated signs by street signs on corner houses. The question at issue is whether the City can place such signs on corner houses irrespective of the consent of the owners. Something should be done for the replacement of the obliterated signs, and the Superintendent of Street Improvements makes an estimate of \$7,000 for placing street signs on corner houses during the ensuing year, which would increase this estimate to \$10,000.

SUPPLIES FOR AND CLEANING PUBLIC OFFICES.

Final Estimate for 1890—	
General account.....	\$135,000 00
Salary account.....	18,920 00

Departmental Estimate for 1891—

Salary account.....	18,920 00
Total.....	\$155,420 00

The appropriation for general account is for the wages of Firemen and Cleaners employed in the public offices and courts under the care of this Department; and for fuel, steam-heating, furniture, carpets, window-awnings, ice, law books, directories and general office supplies for the various offices and courts. For a number of years past the appropriations have not been sufficient to meet the demands for office furniture and general supplies, though supplemented by transfers from other appropriations, and many requisitions have remained unfilled and held over from year to year.

The fixed charges against this appropriation for wages of Firemen and Cleaners, Cleaners' supplies, contracts for coal, wood, ice and steam-heating, winding and care of clocks, repairing, putting up and taking down stoves, telephone service, etc., amount to at least \$111,000, leaving only \$24,000 for new furniture, carpets, law books, and general supplies.

The estimate for salary account is required for the following salaries:

1 Clerk.....	\$1,800 00
1 Janitor.....	1,200 00

1 Attendant, Governor's Room.....	420 00
Total.....	\$18,920 00

SUPPLYING WATER TO SHIPPING AND FOR BUILDING PURPOSES—SALARIES.

Final Estimate for 1890.....	\$10,000 00
Departmental Estimate for 1891.....	10,000 00

This appropriation is required for the salaries of the force now employed in keeping the accounts and making the inspections for supplying water to shipping and for building purposes, and in order to secure to the City the full revenue from this service, the present force must be continued.

The salaries are as follows:

2 Clerks, \$1,500 each.....	\$3,000 00
1 Inspector, \$3.50 per day.....	1,155 00
5 Inspectors, \$3 per day.....	4,945 00
1 Messenger.....	900 00
Total.....	\$10,000 00

The five inspectors who now receive \$3 per day each ask for an increase of salary. If the Board should consider that they are entitled to \$3.50 per day, the appropriation will have to be increased by \$825.

SURVEYS, MAPS, ETC., FOR STREET OPENINGS AND NEW STREETS—SALARIES.

Final Estimate for 1890.....	\$7,100 00
Departmental Estimate for 1891.....	7,600 00

Total.....	\$9,000 00

The estimate for General Account, \$7,800, is required to pay for 6,000,000 cubic feet of water to be supplied by the City of Yonkers in the Riverdale District, on grounds which are above the elevation of the water supply from the Croton Aqueduct. The estimate is based upon the present contract price.

The estimate for Salary Account is required for the salary of one Inspector at \$1,200 per annum.

WELLS AND PUMPS—REPAIRING AND CLEANING.

Final Estimate for 1890.....	\$250 00

This small amount is required to keep in order the wells and pumps which are still used for water supply, in locations to which the regular water service has not yet been extended.

Amount asked for..... \$420,000 00

For Special Watering of Trees and Plants..... \$16,500 00

The completion of the New Aqueduct and the increased supply of water given the City affords an opportunity of obtaining a more luxuriant growth of grass and plants on the Central and City Parks. This would require special watering on an average of five days per week during five months, and in order to accomplish this work, for the purchase of plant and extra labor, the sum of \$16,500 is asked for.

For Completing the Asphalt Walks of Central Park..... \$168,795 00

The increased use of Central Park above Seventy-second street, owing to the number of buildings being erected and the consequent rapid growth of population in that section, renders it very important that walks should be provided which are capable of being maintained in a satisfactory condition. The gravel walks which have so long answered the demands of the public are unsatisfactory, and during wet weather very disagreeable. There are in Central Park 675,182 square feet of such walks, and it would cost, approximately, the amount asked for to properly surface them with asphalt.

For Reconstruction of the City Parks other than Central Park..... \$143,232 00

For Entrance to Central Park at West One Hundred and Sixth Street.....	\$22,000 00	
--	-------------	--

There is at present no entrance to the park on the west side north of One Hundredth street, and an additional entrance has been asked for by the residents of that section. Plans have been adopted for the construction of an entrance and drive at One Hundred and Sixth street, between Eighth avenue and the West Drive of Central Park, the estimated cost of which is the amount asked for.

For Improving the Plaza at One Hundred and Tenth Street and Fifth Avenue.....	\$34,000 00	
---	-------------	--

The City having acquired title to the property designated by law as a circle at One Hundred and Tenth street and Fifth avenue, it is proposed to proceed with the work of construction in accordance with the plans adopted. A carefully prepared estimate of the cost of this work is as follows:

5,300 square yards of granite pavement with joints filled with gravel and coal tar pitch, at \$3.75.....	\$19,875 00	
874 cubic yards concrete for foundation, at \$4.50.....	3,933 00

For Completion of the Inclosing Wall at Mount Morris Park.....	\$60,000 00	
--	-------------	--

During the present year a contract has been executed for the foundation for the inclosing wall at this park, and the amount now asked for is for the purpose of completing the inclosure. It is intended to erect a wall of Ohio sandstone, similar to that inclosing the Central Park. To fully complete this work, the sum of \$60,000 will be required.

For Riverside Park and Avenue, Improvement and Maintenance of.....	\$40,000 00	
--	-------------	--

With the increased growth of the city, and the demands of the public for opportunities for riding and driving, the proper maintenance of this drive is becoming more important. A liberal application of gravel is necessary for the drive and bridle-road, and provision must be made for washouts, which occur frequently in the park along the line of the railroad. The portion of the park between Seventy-second and Seventy-ninth streets has been constructed during the present year, and now becomes a part of the maintenance work.

During six months of the year Riverside Drive would require for cleaning, watering, cutting grass, caring for plants, etc., carting, general work, attending tool-house, and ladies' cottage:

1 Foreman, at \$125 per month.....		
2 Assistant Foremen, at \$75 per month.....		
4 Rockmen, at \$2 per day.....		
29 Laborers, at \$1.76 per day.....		
1 Driver, at \$55 per month.....		
9 Double teams, at \$4.50 per day.....		
1 Cottage Attendant, at \$35 per month.....		
The above force will cost \$111.69 per day, or \$20,383.42 for six months.		
During the remaining six months of the year, it would be necessary to clean the drives and walks, remove snow, cart rubbish to dump, and cart for tool-house and cottage. This would require a force of:		
1 Foreman, at \$125 per month.....

1 Rockman, at \$2 per day.....		
20 Laborers, at \$1.76 per day.....		
1 Driver, at \$55 per month.....		
7 Double teams, at \$4.50 per day.....

Second six months.....	14,755 12	

Cost for the year.....	\$35,138 54

Amount asked for.....	\$40,000 00	
-----------------------	-------------	--

For Morningside Park, Improvement and Maintenance of.....	\$25,000 00	
---	-------------	--

This park, within its boundaries, was nearly constructed a year ago, but during the present year, owing to the small appropriation, the Department has been unable to properly maintain it, being compelled to give attention in an unsatisfactory and incomplete way to the mowing of the lawns, repairs and washouts and the care of existing trees and shrubbery. The general maintenance of this park is similar to that of Central Park, in addition to which it will be necessary to do considerable watering on account of the dryness of the situation. This will involve the outlay of considerable money to introduce a system of pipes to convey water to the different parts of the park.

The items of proposed expenditures are as follows:

1 Foreman, at \$100 per month.....		
15 Laborers, at \$1.76 per day.....		
5 Gardeners, at \$60 per month.....		
2 Carts at \$3 per day.....		
This force would require an expenditure of \$45.73 per day, or per year.....	\$16,691 45	
1,000 tons manure, at \$3.....	3,000 00	
50,000 square feet sod.....	1,125 00	

15,000 plants, at 8 cents.....	\$1,200 00	
Blasting supplies, etc.....	1,000 00	
2 monitors for watering, six months, \$4.50 per day.....	1,642 50	
1 double team, \$4.50 per day, eight months.....	1,080 00	

	\$25,738 95	
--	-------------	--

Amount asked for.....	\$25,000 00	
-----------------------	-------------	--

For Care and Maintenance of Seventy-second, One Hundred and Tenth and One Hundred and Twenty-second Streets, and Fifth and Morningside Avenues.....	\$26,500 00	
---	-------------	--

These streets have been placed by law under the jurisdiction of this Department, and for their proper maintenance this sum is asked. The items are as follows:

It is the judgment of the Board of Parks that Fifth avenue should be paved, and an estimate for that purpose is included herein. In case an appropriation is allowed therefor this item of \$10,000 may be omitted.

For Alteration of the Roads, Walks, etc., in Washington Square in connection with the erection of the Washington Arch.....	\$17,422 56	
--	-------------	--

An appropriation for this purpose is asked for at the request of the Memorial Arch Committee. The items are as follows:

--	-------------	--

During nine months of the year would require for general work, maintenance, etc., 1 General Inspector, at \$2,500 per year; 3 Assistant Foremen, at \$75 per month; 20 Laborers, at \$1.76 per day; 8 Double teams, at \$4.50 per day; 1 Bridge-tender, at \$300 per year; \$86.04 per day.....

For the remaining three months, 1 General Inspector, 2 Assistant Foremen, 10 Laborers, 1 Double team, 1 Bridge-tender, \$34.44 per day.....	3,099 60	
Broken stones, supplies and repairs.....	23,239 40	
For building docks at Pelham Bay Park.....	25,000 00	

A number of applications have been made during the present year for the privilege of landing excursions at Pelham Bay Park; at present there are no facilities for that purpose. The erection of suitable docks would bring this park within reach of the public, and make it available for general use.

For Paving the Roadway of Fifth Avenue, from Ninetieth to One Hundred and Tenth street.....	\$100,000 00	
---	--------------	--

The roadway of Fifth avenue, from Ninetieth street, where the new pavement, to One Hundred and Tenth street, is in very bad condition, in some places dangerous, and should be repaved without delay. For Music—Central Park and the City Parks.....	\$35,000 00	
--	-------------	--

The amount asked for is an increase of \$10,000 over that allowed for the present year, and is intended for the purpose of providing concerts in Washington Square and Riverside Park, and an additional afternoon concert at Mount Morris Park. For the latter petitions have been received signed by thousands of the residents of Harlem. The great and increasing crowds attending these concerts prove them to be among the most popular attractions of the parks. The proposed arrangement of concerts is as follows:

Central Park—Saturday and Sunday afternoons, 42 concerts, at \$230.....	\$9,660 00	
Battery Park—Friday evenings, 20 concerts, at \$170.....	3,400 00	
Tompkins Square—Wednesday evenings, 20 concerts, at \$170.....	3,400 00	
East River Park—Thursday afternoons, 20 concerts, at \$170.....	3,400 00	
Mount Morris Park—Thursday evenings and Saturday afternoons, 40 concerts, at \$170.....	6,800 00	
Paradise Park—Monday evenings, 12 concerts, at \$110.....	1,320 00	
Washington Square—Thursday evenings, 20 concerts, at \$160.....	3,200 00	
Riverside Park—Wednesday afternoons, 20 concerts, at \$150.....	3,000 00	
Calcium lights, for 92 evening concerts.....	820 00	

For Harlem River Bridges—Repairs, Improvements and Maintenance.....	\$40,000 00	
---	-------------	--

The chief expense of these bridges consists in the wages of the employees who operate them. Aside from this main item must be considered the cost of coal, oil and necessary repairs to the structure and machinery. The bridges are required to be opened at all hours of the day and night, and the frequency of opening is a severe strain upon them, whereby the large rollers and tracks under the centre of the draw are quickly worn out.

The amount for wages is as follows:		
7 Engineers, at \$90 per month.....	\$7,560 00	
6 Firemen, at \$70 per month.....	5,040 00	
18 Bridge Tenders, at \$60 per month.....	12,000 00	

For coal, oil, cotton waste, cast-iron wheels, gearing for machinery.....	\$25,560 00	
For carpenter work and material, estimated.....	3,310 00	
For ordinary repairs, estimated.....	2,500 00	
For special repairs and alterations.....	1,030 00	
	5,000 00	

In explanation of the last item it is submitted that it is probable that the One Hundred and Fifty-fifth street viaduct will interfere with the westerly approach of the Central Bridge, and in order to keep the bridge open for public use, alterations, etc., to the approach and fixed span will be required, the estimated cost of which is \$2,500. A similar sum (\$2,500) will be required for surveys, plans, estimates, etc., for the alteration of the Third Avenue Bridge, which has been ordered by the United States Government.

For Telephonic Service.....	\$4,000 00	
-----------------------------	------------	--

This amount is required for the renewal of existing contract.

For Rents.....	\$6,500 00	
----------------	------------	--

The rental of the Department Office is provided for by this item.

For the Erection of a Monument in honor and memory of John Ericsson..... \$10,000 00

A communication has been received from a committee of citizens organized for the purpose of procuring the erection of a suitable monument in honor of John Ericsson on one of the public parks, requesting that this amount be included in the Departmental Estimate under the provision of chapter 266, Laws of 1880, and proposing to submit to the Department designs and specifications for such monument, and offering to provide for any expense of executing such designs, in excess of ten thousand dollars, which may be found to be necessary.

For Maintenance of Twenty-third and Twenty-fourth Wards, including all appropriations heretofore made to this Department for Maintenance of Streets, Roads and Avenues, Twenty-third and Twenty-fourth Wards; for Sewers and Drains; for Surveying, Laying-out, etc., Tax and Assessment Maps; for Surveys, Maps and Plans; for the Bronx River Bridges, and for the Cromwell's Creek Bridges..... \$1,000 00

The control and maintenance of these wards devolving, by act of Legislature, upon a new Commissioner, to take office on January 1 next, a pro forma estimate is made for the expenses of the annexed district, for such adjustment as may be deemed proper by your Honorable Board.

THE DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
COMMISSIONERS' OFFICE, 66 THIRD AVENUE,
NEW YORK, September 25, 1890.*Hon. HUGH J. GRANT,*
Mayor and Chairman, Board of Estimate and Apportionment, City of New York:

DEAR SIR—We respectfully submit to you our estimates for the "Construction of New Buildings," etc., for 1891, and ask your consideration of the following explanations:

BELLEVUE HOSPITAL.

The 500 windows need renewing and repairing, for which the sum of \$4,000 is asked.
The kitchen and wash-house absolutely require rebuilding. The boiler-house needs an addition, with new boiler, and an additional kitchen and laundry plant is necessary, for which we ask \$35,000.

The wards at present used for the treatment of alcoholic patients are entirely inadequate and unsuited for the purpose; we propose to erect a pavilion for the same, for the sum of \$30,000.
New flagging and curbing for Twenty-sixth and Twenty-eighth streets and First avenue, and grounds within the inclosure, will cost \$3,000.

Necessary repairs to Emergency Hospital will require \$1,500.

ESSEX MARKET, OR THIRD DISTRICT PRISON.

Reconstruction of the plumbing and furnishing pumping engine, water-closets, etc., will require \$7,000.

FIFTY-SEVENTH STREET PRISON.

Alterations and repairs to buildings, reconstruction of plumbing, engine, etc., will cost \$7,500.

HARLEM HOSPITAL.

Necessary alterations and additions will cost \$6,500.

TWENTY-SIXTH STREET DOCK-HOUSE.

Necessary plumbing, repairs and heating will require \$2,000.

FORDHAM HOSPITAL.

Rent for 1890-1891, \$2,250.

CHARITY HOSPITAL.

Advances in hospital treatment have been attributed largely to improved sanitary conditions. At Bellevue Hospital all the water-closets and bathing facilities have been removed from the wards to towers especially erected for this purpose, and we ask for \$17,000 to enable us to build two towers for this institution.

Necessary alterations to heating and ventilation will require \$2,500.

Resetting boilers will require \$1,600.

Repairs to Nurses' Home building, including plumbing and roofs, will cost \$3,000.

Storm-sash on north and west sides of Charity Hospital will cost \$1,600.

Steam-heating Maternity Building will require \$1,200.

Laundry boiler-house will require new boiler and extension of chimney, for which we ask \$3,000.

PENITENTIARY.

In the year 1884, Riker's Island was purchased for the purpose of erecting a penitentiary in place of the present one on Blackwell's Island, which is entirely inadequate to properly accommodate the increased number of prisoners, to say nothing of the objection of its close proximity to some of our most important charitable institutions.

We are always obliged to "double up," or put two prisoners in a cell, to which public opinion has always been opposed, and from those who devote their lives to reclaiming criminals we are ever receiving protests. A large number of the prisoners are at present lodged in an open dormitory over one of the workshops, which is not only unsafe, but in every way unfit for such a purpose.

To enable us to build a wing as a part of a new penitentiary on Riker's Island, and do other necessary preliminary work, \$100,000 will be required.

ALMSHOUSE.

To relieve this still very much overcrowded institution we ask for one two-story pavilion, which will cost \$35,000.

The present two one-story Pavilions for Incurables are of wood, and are in a very dilapidated condition. We ask for \$30,000 to replace same, to be built of brick and stone.

The roofs of the Almshouse building are in want of repairs, and the walls need pointing-up, for which the sum of \$1,500 is asked.

The laundry plant wants renewing, including hot-water tank, which will require \$2,700.

STOREHOUSE.

The present gas-plant was built to furnish light to about one half the number of buildings now on Blackwell's Island, and is in very bad repair. To enable us to make the required additions and alterations, \$12,000 will be necessary.

WORKHOUSE.

This extensive and very important institution requires new plumbing, flooring, ceilings and repairs to roofs.

Careful estimates have been made, and for these improvements \$2,500 will be needed.

The demands upon the laundry and kitchen plant have increased to such an extent that we shall require an additional \$2,500 to enable us to meet them.

A steam launch for the use of the Workhouse and Female Insane Asylum, Blackwell's Island, will cost \$3,500.

NEW YORK CITY ASYLUM FOR INSANE, BLACKWELL'S ISLAND.

The wooden pavilions now occupied by the female insane are in such a condition that they are unfit for human habitation, and we now ask for an appropriation to enable us to erect four two-story brick pavilions, to take the place of the present ones; estimated cost, \$100,000.

Additional amount for electrical communication is required, for which we ask \$2,000.

The Retreat needs improving in heating and ventilating; the doors need rehanging, as ordered by the Fire Department; all of which will cost \$3,500.

HOMOEOPATHIC HOSPITAL.

This large and important institution has had but little money expended upon it for many years, and repairs to plumbing, sewerage and laundry and kitchen apparatus are very much needed. These improvements will cost \$10,000.

NEW YORK CITY ASYLUM FOR THE INSANE, WARD'S ISLAND.

The entire roofs, gutters and conductors of this institution need repairing, which will cost \$8,000.

For remodeling return piping and ventilating system, \$5,000.

New ice-house, \$2,000.

Additional amount for electrical communication, \$2,500.

Cow stable, \$2,000.

Rent for Ward's Island Emigration Buildings, \$5,000.

RANDALL'S ISLAND.

It is absolutely necessary that the South Hospital should be reconstructed in the same manner as the North Hospital, now under contract, to meet the sanitary requirements of the Board of Health, and for this purpose, and to improve the heating system, \$5,000 is required.

The present stable, and buildings for horses, cows, pigs, wagons, etc., are of frame, very old, and in a dilapidated and unsanitary condition, and to replace them with suitable buildings we shall require \$5,000.

The Medical Board deems it most important, and this Board, after a careful investigation, concurs, that a pavilion particularly designed for the treatment of contagious diseases should be at once constructed. For this an appropriation of \$12,000 is asked.

The present gas-plant on this island was constructed at a time when the number of buildings requiring to be lighted was very much less than at present, and repairs and additions are indispensable, which will cost \$5,500.

For renewing the entire heating apparatus, including three new boilers and addition to boiler-house, Infant's Hospital, \$19,500.

NEW YORK CITY ASYLUM FOR INSANE, HART'S ISLAND.

Amount for Water Supply.

For a supply of fresh water it is estimated that it will cost \$45,000, and without this is granted the Board will be obliged to abandon the island, or the buildings occupied by 1,300 female insane.

To relieve the overcrowding on Blackwell's Island is still a matter of the greatest importance. The ever-increasing number of female insane makes it imperative that we should ask for an appropriation to enable us to erect a two-story building to accommodate 200 patients, which will cost \$62,000.

For enlarging boiler-house, 2 new boilers and additional radiators, piping, etc., will cost \$13,000.

Electrical communication, \$1,500.

Salt water condensers and building for same (the above is absolutely necessary, as the water at present is unfit to use either for drinking, cooking or steam-heating purposes), \$12,000.

BRANCH WORKHOUSE, HART'S ISLAND.

The present building occupied by employees is entirely unfit for occupancy, and we have asked for the sum of \$3,000 to erect a more suitable one.

Necessary repairs to present building will cost \$3,500.

NEW YORK CITY ASYLUM FOR THE INSANE, LONG ISLAND.

The improvement at the Farm at Central Islip, Long Island, has been so satisfactory to this Board, and the work has received such hearty commendation from the State Board of Charities, and from others who have visited and inspected the place, that we have no hesitation in asking for \$250,000 additional, to enable us to carry out our plans, to relieve overcrowding at the Ward's Island Asylum, and to provide out-door employment for those who appear to be proper cases to be benefited by this treatment. The work in progress and already completed has consumed the appropriation and transfer made for these improvements, and we feel assured that this application will meet with your favorable action.

For completing Medical Home, including heating and plumbing, will cost \$2,500.

CENTRAL OFFICE.

To make the absolutely necessary repairs and alterations to this building, and to comply with the sanitary requirements of the Board of Health, will require the sum of \$10,000.

It is a matter of so much importance, in view of the erection of buildings, with the necessary sewerage, that the Department should have maps of all the islands, that we have secured estimates for the same, which can be furnished for the sum of \$1,000.

Very respectfully,

H. H. PORTER, President.

THE DEPARTMENT OF STREET CLEANING.

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
STEWART BUILDING,
NEW YORK, September 16, 1890.

Hon. THEODORE W. MYERS, *Comptroller, etc.:*

GENTLEMEN—Pursuant to the provisions of section 189 of the New York City Consolidation Act of 1882, I have the honor to transmit herewith, for your consideration, a duplicate copy of the Departmental Estimate of the Department of Street Cleaning for the year 1891.

Very respectfully,

H. S. BEATTIE, Commissioner of Street Cleaning.

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
STEWART BUILDING,
NEW YORK, September 16, 1890.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In pursuance of the provisions of section 189 of the New York City Consolidation Act of 1882, and in compliance with the request of the Comptroller, transmitted to the undersigned, under date of August 6, 1890, the Commissioner of Street Cleaning has the honor herewith to forward for your consideration an estimate of the amount required for the proper conduct of the business of the Department of Street Cleaning for the year 1891.

DEPARTMENTAL ESTIMATE OF THE DEPARTMENT OF STREET CLEANING FOR THE YEAR 1891.

ADMINISTRATION—SALARIES.

Amount required (sections 52 and 705, chapter 410 of the Laws of 1882).....	
As follows:

	\$97,360 00
Office Roll, 21 in number.....	34,280 00
Total, Office Roll and for Supervision.....	\$131,640 00

As compared with the amount appropriated for the current year, there is an increase of \$13,640, \$12,820 of which is accounted for in the abolishment of the offices of twenty-nine Assistant Foremen, and an addition to the number of Foremen of thirty-one, whose salaries are respectively increased \$100 per annum. As these officers are charged with the supervision of the force which collects ashes, garbage and sweepings, and cleans the streets throughout an average area of 171,904 square yards, and are required to remain on duty in their districts an average of not less than eleven hours per diem, the Commissioner of Street Cleaning respectfully submits that their compensation, at the rate of \$1,000 per annum, is not excessive. The remaining difference between the amount asked for, for the ensuing year, and the amount appropriated for the current year, less than \$1,000, is made necessary by chapter 388 of the Laws of 1890, compliance with the provisions of which has imposed large additional clerical duties on the Department. It will be observed that additional clerical force is requested, and it will also be observed that the salaries of such additional force are more than offset by the abolishment of the offices of twelve Assistant Dump Inspectors.

SWEEPING THE STREETS.

Amount required (section 705, chapter 410 of the Laws of 1882).....	\$641,829 90
As follows:	
Labor (sweeping streets), 718 men, 313 days, at \$2 per diem.....	\$449,468 00
Drivers of 116 machines and 58 watering-carts, 174 men, 313 days, at \$2 per diem.....	108,924 00
Sundries—Mechanics, feed, hostlers, repairs, shoeing, etc.....	83,437 90
Total.....	\$641,829 90

The estimate provides for a force sufficient to sweep, as against 50,000 miles of streets (as set forth in the estimate of the Hon. James S. Coleman, under date of October 1, 1889), during the current year, 77,717.9 miles, or a daily average, for 313 working days, of 248.3 miles, or 4,371,648.2 square yards daily.

The appropriation for the current year has not permitted of the employment of more than 350 laborers (sweepers), which is less than an average of one sweeper to a lineal mile of paved street; or, employed as such laborers are, in the making of a so-called gutter-stroke, one sweeper to two miles of paved gutter-stroke. The physical impossibility of an average able-bodied laborer being able to answer to any such requirement or exaction as this becomes immediately obvious the moment the fact is stated.

As an illustration of how utterly inadequate the force placed at the disposal of the Department of Street Cleaning for the special purpose of street sweeping is, it may be stated that, as the Department of Street Cleaning was, on the 8th of August last advised, there were 9.1 miles, or 209,975.8 square yards, of streets paved with asphalt in the city. There seems to be a popular impression that such pavement is more easily cleaned, and kept clean, than any other. As a matter of fact, a very much less quantity of dirt on asphalt, as compared with dirt on other pavement, is more offensive to the senses; and a contrast of its comparatively white surface with the matter which fouls it is much more quickly observed. This statement is so true that it has become the custom of the contractors who make a specialty of the laying of such pavement, for months after the performance of their contract, with a view of making the pavement popular, and of securing further contracts for the laying of it, of employing laborers or sweepers, to so far clean its surface as to keep them continually sweeping the deposits thereon into piles in the gutter; and, notwithstanding that, under the present administration of the Department of Street Cleaning, such piles of dirt are transferred from the gutters of such pavement to the public dumping places, by the carts of the Department, the aforesaid contractors rarely assign to one sweeper or laborer, an area exceeding 2,606 square yards, or a length of avenue not exceeding 1,040 feet, or about one-fifth of a mile. The compensation of the laborers employed by such contractors, the number of hours of employment, and the area or spaces to be cleaned, taken into consideration, is not less, but more than that which is now, and for many years past, has been paid to the employees of the Department of Street Cleaning engaged in the same kind of work. It is also proper to ask that the Board of Estimate and Apportionment shall specially note that laborers or sweepers, employed as the agents of the private enterprises herein referred to, do not remove the accumulations of dirt which they sweep together; that all such sweepings are removed by the Department of Street Cleaning, at an expense to the City Treasury, as ascertained and officially stated, in writing, by the immediate predecessor of the present Commissioner, to have been, for the past eight years, an average of sixty cents per load—forty-two cents for carting and eighteen cents for final disposition (see letter of Hon. Horace Loomis, Letter-Press Book No. 15, p. 658).

CARTING MATERIAL.

Amount required (section 705, chapter 410 of the Laws of 1882).....	\$326,364 04
As follows:	
232 drivers of trucks, and 232 helpers (laborers), at \$2 per diem, for 313 working days.....	\$290,464 00
Mechanics, feed, hostlers, repairs, shoeing, etc.....	35,900 04
	\$326,364 04

The experience of the past eight months of the current year shows that the estimate which was made of the loads to be carted in it, namely, 1,340,000, falls over 100,000 loads short of the work actually done and to be done. During the eight months just past 967,286 loads were carted. Assuming that the average increase will be maintained till the end of the year, the 31st of December next will show the total number of loads carted to be 1,450,920, an increase of 323,920 loads, as compared with the year 1889. Estimating that the relations of the past to the present year shall obtain between the latter and the ensuing year, the number of loads to be carted in 1891 would be 1,774,840.

It appears by the estimate for the year 1890 that the average price of carting for the year 1889 was 41 cents per load, and that the amount asked for the current year was based on such cost. The cost for the eight months which have transpired of the present year was an average of 37.6 cents per load. Assuming that this average shall be continued till the end of the year, and that the cost for carting, per load, during 1891 would not exceed that of the present year, the amount required would be \$667,339.84. The great disparity, not only between the cost of this item of service at the present time, as compared with the year 1889, and the early part of the present year, but also, and more impressively, between the cost for the present year and the estimated cost for 1891, is to be found in the fact that for the past three or four months the Department has owned more plant than it formerly did, and that this estimate is based on the assumption that during the year 1891, it shall become the owner of all of the plant which is necessary to perform its work, and the particular part of said work under this heading, referred to in such manner, that effect shall be given to the requirements of section 95 of the Sanitary Code, by preserving, in the making of its collections, the separation of garbage from ashes. Of course, the original cost (as to which reference is made under the head of "New Stock") of all such plant, and the life of such plant should be taken into consideration in connection with this item of the Department's requisition on the Board of Estimate and Apportionment. But the interest on the amount invested in such plant, added to the cost of carting, as given above, which includes the cost of repair and maintenance of it, would not materially change the favorable showing in behalf of the method suggested to be adopted, as against that which now obtains. The comparative ease with which the work of collecting ashes and garbage, especially if they are separated, can be effected through the employment of laborers as driver's helpers, charged with the duty of collecting matter from within the stoop-line or house-line, dumping it into a large truck and returning the ash or garbage receptacles, empty, to within the line from which they were taken, and the greater comfort insured by the adoption of such methods to pedestrians, by making it unnecessary to have such receptacles, full or empty, on the sidewalks, are obvious.

REMOVAL OF SNOW AND ICE.

Amount required (section 705, chapter 410 of the Laws of 1882).....	\$60,000 00
As follows:	
Laborers.....	\$35,000 00
Cartmen.....	25,000 00

FINAL DISPOSITION OF MATERIAL.

Amount required (section 705, chapter 410, Laws of 1882).....	\$263,000 00
---	--------------

As follows :

Wages of tug employees.....	\$19,303 50
Wages of Scowmen.....	34,726 78
Unloading deck scows.....	51,891 27
Hired scows.....	68,320 00
Extra towing.....	30,000 00
Repairs to tugs and scows.....	10,000 00
Repairs to dumps.....	10,000 00
Supplies to tugs.....	20,000 00
Supplies to scows.....	4,000 00
Dump expenses—Boardmen.....	5,500 00
Sundries.....	9,258 45
	<u>\$263,000 00</u>

The amount asked for is less than that which was requested to be given in the estimate of last year, notwithstanding that the business of the current year indicates an increase over that of the last year of 197,856 loads removed. Assuming that the natural increase of matter to be disposed of shall obtain, it will be necessary to finally dispose of 1,770,712 loads during the year 1891.

In connection with this item of the estimate, the attention of the Honorable the Board of Estimate and Apportionment is invited to the fact that his Honor the Mayor has referred various communications touching final disposition of garbage by cremation to this Department, for such action as might be proper to take. The subject is not new; but notwithstanding this fact the present Commissioner of Street Cleaning has hesitated to make an investigation, with the view of formulating any recommendation to the Board of Estimate and Apportionment, without the assistance and advice of the Board of Health. The attention of the President of said Board has been called to the matter, and the Commissioner of Street Cleaning is waiting until the Health authorities can find it convenient to join him in an effort to bring the results of the investigation of the various processes for the cremation of garbage now in operation before your Board. The estimate herein made for the final disposition of ashes, garbage and street sweepings is made on the assumption that the present method of disposing of the matter shall continue through the year 1891; but it is the intention of the Commissioner of Street Cleaning, if a proper investigation of the processes above referred to can be made before the Board of Estimate and Apportionment completes its consideration of this estimate, to submit to them the result of such investigation.

In the meantime, it may be stated that while by a letter of the Hon. Horace Loomis, already herein referred to, the cost of the final disposition of ashes, garbage and sweepings, to be removed during the year 1891, would be \$318,728.16, the amount actually asked for its disposition is \$55,728.16 less.

RENTALS AND CONTINGENCIES.

Amount required (section 705, chapter 410, Laws of 1882)..... \$30,000 00

As follows :

Rent of offices (lease).....	\$5,300 00
Rent of stables, foot of East Seventeenth street (agreement).....	3,000 00
Rent of stables (lease, east side, Harlem).....	4,500 00
Rent of stables (lease, west side, south of Fifty-ninth street).....	4,500 00
Rent of stables (lease, west side, north of One Hundred and Tenth street).....	4,500 00
Telephone service.....	3,105 00
Sundry contingencies.....	5,095 00
	<u>\$30,000 00</u>

The additional amount asked for, as compared with that which was requested in the estimate of last year, is to provide accommodation for such distribution of the force and equipment of the Department as will secure a more effective administration of the service, and avoid the loss of energy which is now wasted, by compelling the horses of the Department to haul, heavily weighted with sweeping machines and watering carts, long distances to and from the point at which they begin to turn such vitality as is left in them into serviceable results.

In view of the steady increase of population in the northern and western portions of the city, and the substitution, as in the case of the Western Boulevard, of paved for macadamized roadways, it would seem proper that the Department should be able to distribute and administer its equipment so that at least some of the causes for complaint which the people resident in the sections referred to have to make shall be removed.

NEW STOCK—PLANT.

Amount required (section 705, chapter 410 of the Laws of 1882)..... \$271,254 25

As follows :

232 trucks, of the capacity of 126 feet each, at an average of \$400.....	\$92,800 00
496 horses, at \$250 each.....	124,000 00
Harness and blankets.....	13,045 60
	<u>\$229,845 60</u>
89 horses (to maintain and complete the efficiency of plant now owned by the Department, and to be employed in the hauling of sweeping machines and sprinkling carts), \$250 each.....	\$22,250 00
Harness and blankets for same.....	2,358 65
35 double sweeping machines, at \$400 each.....	14,000 00
7 water carts, capacity 750 gallons each, at \$400 each.....	2,800 00
	<u>41,408 65</u>
	<u>\$271,254 25</u>

The last five items, amounting to \$41,408.65, are required, as already stated, for the completion and maintenance of plant which it is absolutely necessary for the Department to own, if the work of street sweeping is to be done directly by its own immediate employees; and the amount ought to be appropriated, even if the larger item for the supply of suitably constructed trucks, and the horses, etc., is not given.

If, with the other items asked, the amount required for the trucks, etc., be given, then it is the recommendation of the Department that the changes which are contemplated by the furnishing of such new plant shall not go into effect until the first of July, 1891. If this be approved, for the last six months of such year, the amount required for the item of carting will be \$163,182.02. For the first six months of 1891, operating under the restrictions and embarrassments of the present method of partly owning and largely hiring the plant necessary to do the work of carting, or that which is used in the collection of ashes, garbage and sweepings, to do the work effectively there will be required \$273,447.98; or, if the new trucks, etc., are not allowed, then the amount required for carting for 1891 will be \$546,895.96.

POLICE.

Amount required (see chapter 549 of the Laws of 1890)..... \$73,000 00

This amount is for the payment of the Board of Police for the service of 1 Sergeant of Police and 59 Policemen, detailed for the enforcement of the provisions of chapter 549 of the Laws of 1890.

Amount of estimate for 1890—Regular..... \$1,434,860 00

Extra (for plant)..... 215,000 00

Amount allowed for 1890..... \$1,255,835 00

Transfer from "Sweepings" to "Removal of Snow and Ice"..... 10,000 00

Amount of estimate for 1891, as follows :

ANALYSIS OF ESTIMATE.

Assuming that the Department had the trucks and other new plant with which to begin its work on January 1, 1891, the amount required would, for each item, be as follows :

Administration.....	\$131,640 00
Sweeping.....	641,829 90
Carting.....	326,364 04
Snow and Ice.....	60,000 00

	<u>\$1,452,833 94</u>

Deduct amount of estimate or requisition for 1890, for same items..... 1,409,860 00

Amount asked for in excess of that asked for 1890..... \$42,973 94

From this is still further to be deducted..... 13,500 00

Which amount is for the rent of three additional stables.

Which leaves, as the amount asked for the foregoing item over that which was asked in the estimate for the present year, only..... \$29,473 94

And that, notwithstanding that provision is made, under the item of sweeping, for the employment of more than twice the number of laborers or broom men employed in 1889 and 1890.

Add Salaries of Police (chapter 549, Laws of 1890)..... 73,000 00

Which, as matter of equity, is no more chargeable to the Department of Street Cleaning than it might be to the Board of Health, the Police, or any other department of the municipality whose work is affected by the violation of the corporation ordinances.

Assuming that the Department has the requisition for the trucks and other new plant filled, then the amount required would, for each item, for the year 1891, be as follows :

Administration.....	\$131,640 00
Sweeping.....	641,829 90
Carting (first six months).....	273,447 98
" (second six months).....	163,182 02

	<u>\$1,563,099 90</u>

Add Salaries of Police (chapter 549, Laws of 1890)..... 73,000 00

Total..... \$1,636,099 90

Assuming that the method of hiring such plant as is now in the market is to continue, the amount required for each item, for the year 1891, would be as follows :

Administration.....	\$131,640 00
Sweeping.....	641,829 90
Carting.....	546,895 96

The duties of the Bookkeeper have steadily increased, and while the necessity of providing an Assistant has been apparent for some years, other pressing needs have heretofore prevented this demand.

The two Engineers, as has been stated in former estimates, are required to run the "boilers, elevator and electric lighting apparatus in the Headquarters Building."

The Messenger is required for important service principally under the direction of the Chairman of the Committee on Buildings and Apparatus.

2 Messengers, at \$1,000 each.....	2,000 00
	<u>20,500 00</u>

Bureau of Combustibles Pay-roll—

The amount asked for in the estimate for the current year was \$20,300, but the amount allowed was only \$15,000. The reasons for the increase requested remain substantially the same as they were stated in the last Departmental Estimate, to wit: That the volume of business transacted by the Bureau has very materially increased, and that the new regulations for the use, etc., of explosives require a larger force to make them effective.

The increase over the appropriation for this year is in detail as follows:

Clerk.....	\$1,000 00
2 Surveyors, at \$1,200 each.....	2,400 00
2 Messengers, at \$1,000 each.....	2,000 00

6 Messengers, at \$900.....	5,400 00

106,900 00

The same amount was asked for the current year, only \$101,300, however, being allowed. The increase required is for an Inspector at \$2,000; three Inspectors, at \$1,100 each, \$3,300—\$5,300, and the additional force is necessitated by the constantly increasing business of the bureau.

Attorney to the Department Pay-roll.....(sec. 54, chap. 410, 1882)

The additional force is urgently needed, as was stated in the estimate for the current year—"to maintain the efficiency of the fire-alarm service and to make such improvements therein as are constantly found necessary."

70,814 00

The amount allowed for the current year was \$61,878. The following additions to the mechanical force are needed to keep pace with the increasing repairs required to the apparatus of the Department:

6 Machinists, at \$3 per day.....	\$5,606 00
Machinist's Helper and Messenger.....	780 00
Wheelwright's Helper.....	702 00

The allowance for the current year was \$6,250; the increase requested is only \$543, and the entire amount called for is necessary for the proper conduct of this useful branch of the Department's service.

Repairs to fire steamers.....	6,000 00

\$453,000 00

\$406,000 were asked and \$360,000 allowed for the current year; the increase over the Departmental Estimate of last year is mainly in the item "Buildings and Repairs," the amount being \$29,300. The Superintendent of Repairs to Buildings has submitted an estimate in detail of necessary repairs to buildings occupied by the Department, specifying the several kinds of work required and the estimated cost thereof for each building, which aggregates the amount asked therefor. In general it may be said that the appropriations allowed for repairs to buildings have for years been inadequate, and the result is that the houses of the Department are now in a condition requiring very extensive repairs. The remaining increase is upon the following items:

Apparatus and repairs.....	\$5,000 00
General supplies.....	5,000 00
Horse-feed and straw.....	2,000 00
Telegraph supplies and repairs.....	4,200 00
Repairs to fire steamers.....	1,000 00

In all cases the additions are rendered necessary by the growth of the Department and the increasing demands upon it.

For Placing Fire-alarm Electrical Conductors Underground.....(chap. 499, 1885)

100,000 00

The completion of the subway work now under contract will exhaust the present appropriation, and the amount asked for can be judiciously used during the coming year. It is believed that \$100,000 can be used with much better advantage to the service during one year, than if its expenditure is made to cover two years, as has been the policy heretofore.

For New Houses for Engine and Hook and Ladder Companies, etc., as follows.....

100,000 00

Engine Company 18 at No. 132 West Tenth street.
New company in the vicinity of One Hundred and Tenth street and Fifth avenue.

New company in the vicinity of One Hundred and Forty-fifth street and Seventh avenue.

New company in the vicinity of One Hundred and Eighty-first street and Tenth avenue.

New company in the vicinity of One Hundred and Thirty-seventh street and Willis avenue.

The house for Engine Company 18 at No. 132 West Tenth street is old, having been built for the Volunteer Department in 1863, and its condition is such as to make it more economical to build a new one in its place than to expend money in making extensive repairs and alterations to it. The location is a very important one, the house being occupied by a double company.

The new houses are to be erected upon some of the new sites asked for in another part of this estimate, and the necessity for new companies in these localities is set forth under that head.

New Sites for Apparatus Houses.....

In a report dated February 11, 1890, the Chief of Department invited attention to the extraordinary growth of the city north of One Hundred and Tenth street, in which section no new companies have been organized since 1874, while the number of fires has increased more than one hundred per centum.

Total.....\$2,414,117 00

The foregoing estimate, amounting to two millions four hundred and fourteen thousand one hundred and seventeen (\$2,414,117) dollars, is adopted as the sum of money which will be required for the expense, necessary to the administration and conduct of the Fire Department of the City of New York, for the year 1891.

THE CITY RECORD.

OFFICE OF THE CITY RECORD, No. 2 CITY HALL,
NEW YORK, October 9, 1890.

Hon. THEO. W. MYERS, Comptroller:

SIR—By direction of the Board of City Record, I send you an estimate of the amounts required to pay the expenses of this office for the year 1891, prepared by me, in accordance with the directions contained in your circular, dated August 6, 1890, and approved by the said Board at its meeting on October 8. With it, and forming an explanatory part, I send a copy of my report to the Board.

Yours respectfully,
W. J. K. KENNY, Supervisor City Record.

NEW YORK, October 1, 1890.

To the Honorable HUGH J. GRANT, Mayor; WILLIAM H. CLARK, Counsel to the Corporation, and THOMAS F. GILROY, Commissioner of Public Works:

GENTLEMEN—The request made by the Comptroller to the Mayor, as Chairman of the Board of City Record, for an estimate, in detail, "of the amounts required to pay the expenses of conducting the business" of the office of the City Record, "in and for the year 1891," was referred to me last month. As you know, I have been busy with work which should have been done years ago, and have, therefore, been unable to prepare such an estimate until now.

In making his estimate for 1889, my predecessor, Supervisor Costigan, said, under date of August 22, 1888:

"I respectfully call attention to the condition of the present appropriations for 'Printing, Stationery and Blank Books,' and 'Publication of the CITY RECORD.' Both are insufficient for the necessary demands on them, a condition of things not exceptional this year, but the prevailing rule for many years."

I am happy to be able to refer you to my report of August 18 last, respecting the outstanding bills from 1886 to January 1, 1890, as a proof that the rule above mentioned did not prevail last year, and as a verification of the prediction I made in my report of October 2, 1889, that there would be a surplus of the appropriation for "Printing, Stationery and Blank Books." The surplus is small, but it is better than a continuance of the old "prevailing rule."

The appropriation for "Printing, Stationery and Blank Books" was, in 1886, \$144,500, in 1887, \$151,000, and in 1888, \$160,000, making an annual average of \$151,833. The aggregate of the deficiencies in those years being \$72,000, as shown by my report of August 18, and the average annual deficiency being, apparently, \$24,000, it is evident that the appropriation for each year, to keep the accounts even, should have been \$175,833. For the year 1889 the appropriation was \$200,000, which included \$40,000 for the payment of arrearages, leaving \$160,000 available for the purposes of the year. According to my report of last month we used only \$155,633.60, leaving a surplus of \$4,366.40; but among the bills presented to me as charges against the appropriation for 1890, are several which are properly chargeable against that of 1889. They are small, but as I may find a few more, it seems to me proper to set aside a sum sufficient, without doubt, to meet all that may be discovered. I estimate that sum at \$2,366.40, and so increase the expenditure for 1889 to \$158,000, which shows the surplus for the year to be \$2,000.

The current appropriation for "Printing, Stationery and Blank Books" is \$164,000, including \$9,000 for arrearages. There was \$155,000 available for the purposes of the year. I have no doubt that this sum—although more than \$20,000 less than the sum necessary in each of the years 1886, 1887 and 1888—would have been large enough to leave a surplus, if the Legislature had not put on the appropriation burdens that could not be foreseen. The Weekly Payment Law, the Ballot Reform Law and the law compelling the Health Department to bring suits in judicial districts in which violations of health ordinances are alleged to have occurred, instead of in the district in which is situated the headquarters of that Department, have all been factors of expenditure which could not be anticipated. It must also be borne in mind that the special work of paving the streets has made it necessary for me to expend more than twice as much for contract and specification and estimate forms for the Department of Public Works as was ever expended before. The usual entire appropriation for that Department is about \$3,200,000. Of this \$400,000 is the regular appropriation for paving. This year the Department has incurred for paving, under the regular appropriation and the law permitting the expenditure of \$1,000,000 a year additional—and the special work of two years having, by force of circumstances, run together—charges to the amount of about \$2,500,000; and for the many contracts let by it, I have had to supply contract and estimate forms. Thus far they number 400, against 167 contract forms supplied in 1888, and 179 in 1889. The excess in expenditure for contracts alone is \$10,000 over that in 1889. The special estimate forms cost nearly \$4,000 more. Had not Commissioner Gilroy repeatedly put into one contract the work of paving several streets, the expenditure would necessarily have been five times as large, instead of more than twice.

Considering everything, I have thus far supplied \$20,000 worth of printing, etc., not needed in former years. Out of the appropriation of \$155,000 bills to the amount of \$68,000 have already been paid, and I have now bills, for work ordered or contracted for up to September 30, representing \$70,000. There is, therefore, a remainder of \$17,000. The fixed charges against it are as follows: Salaries of Storekeeper, etc., Expressman, and seven Bookbinders, for four months, \$3,600; printing Court Calendars, for four months, \$1,333.33; printing and binding indices to Vital Statistics, for five months, \$2,700. Total, \$7,533.33. Taking out this sum there yet remains \$9,466.67. It seems sufficient to me to supply things absolutely necessary.

Respecting next year there is more to say. The new laws, of which I have spoken, necessitate a further expenditure than that of this year; and, besides, it is incumbent upon you to supply the Sheriff and the new Commissioner of Street Improvements with printing, stationery and blank books, and, I believe, many books to the Register, under the new Block Indexing Law. I do not know, and have no means of ascertaining, the cost of the purchases you will have to make additional to those of the past; but it seems to me that \$15,000 more, or \$170,000 altogether, is not too high a sum at which to fix the appropriation, bearing in mind that the McKinley Bill will increase the cost of paper for letter copying books and of leather and thread for binding. It must be remembered that \$175,000—without considering transfers made to the CITY RECORD appropriation—was the least sum expended prior to 1889.

The appropriation for the "Publication of the CITY RECORD" this year is \$68,000. For 1889 it was \$73,000, including arrearages estimated at \$4,233.42, but which were found to amount to more than \$7,000. All but about \$500 of these arrearages were paid before I entered office, leaving a remainder of only \$66,047.67 for the work of the year. Included in the cost of publishing the CITY RECORD is that of publishing the lists of registered voters as supplements. I find that this averaged \$9,000 in 1886, 1887 and 1888. In 1889 it was less than \$7,000, having been lowered by a reduction in the cost of compiling the names according to streets and street numbers. To print the CITY RECORD, with the supplementary registry lists, in 1888, cost \$67,471. To be added to this is the cost of printing indices for and binding the quarterly volumes, which was about \$950, making the entire cost \$68,421. The appropriation having been \$66,800, the deficiency for 1888 alone was \$1,621. To print the CITY RECORD and supplementary registry lists in 1889 cost \$65,980.02. The payment of nearly all the old arrearages having reduced the appropriation to \$66,047.67, there was a surplus of \$67.65; but, as the cost of printing the indices for and binding the quarterly volumes was \$953.20, the full sum necessary for the year was \$66,933.22. Had the past arrearages been as estimated when the appropriation was made we would have had a small surplus for 1889. As it is there is a deficit of \$85.55.

I can see no reason why the appropriation for 1890, \$68,000, should not be sufficient. Up to September 1, I spent \$41,394.27. This is \$1,381.52 more than was expended in the same period of 1889. The extraordinary number of advertisements of contracts to be let by the Department of Public Works this year is one cause of the excess. Should the bills of the last four months of the year be as large, in proportion, as those of the past eight months, the cost for the year would be \$62,091.29. But experience shows that they will not be. The bills of the last four months of 1889 amounted to \$18,552.75. Assuming that the excess of those of the same period of this year will be three and one-half per cent.—the percentage by which those of the past eight months exceed the bills from January to August, inclusive, in 1889—the result will be \$60,651, leaving \$7,349 to pay for compiling and printing the registry lists, and printing indices for and binding the quarterly volumes. This is \$348.85 less than will be needed, as things now appear, but I am certain that a deficit will not be present at the close of the year, as several costly reports which were not printed until within the last four months of previous years have already been published, and as the number of advertisements of contracts to be let has begun to decrease. I think that the sum of \$68,000 will be sufficient for the "Publication of the CITY RECORD" in 1891.

Last year I declined to make an estimate of an appropriation for "Advertising." It seemed to me that this bureau was not the proper place for such an appropriation, but I adopted the sum, \$7,500, which had been regularly fixed upon by the Supervisor of the City Record, and left the matter to be settled later. It is now apparent that that sum has always been ridiculously low, and that the Supervisor had no means to ascertain what was a proper one, inasmuch as his only duty in connection with advertising is to present to the Board of City Record requests for authority to advertise, and inform the departments of the grants of such authority. Opinions to this effect have been given by the Counsel to the Corporation, and the Comptroller has agreed to make a proper estimate for a general appropriation for "Advertising."

Respecting "Salaries and Contingencies," I have no change to propose excepting that the Examiner, John J. McGrath, be paid \$1,400 in 1891. He has proved himself a hard working and intelligent assistant, and should be encouraged. The proposed addition to his salary would not increase the appropriation. The sum now set apart for "Contingencies" is \$500, but I think \$300 is ample.

I append the estimates for 1891, compared with those for 1889 and 1890.

Respectfully submitted,

W. J. K. KENNY, Supervisor City Record.

Owing to the fact that a considerable portion of the amount annually expended by this Bureau is composed of items which are liable to variations, because of the uncertainty regarding the number and character of examinations necessary to be held and the amount of expert employment required to properly meet the demands of the service, it has been the custom of your Honorable Board to make our appropriation in a lump sum, and I respectfully request that such custom be continued for the reasons stated.

Very respectfully yours,

To the Honorable the Board of Estimate and Apportionment:

In compliance with the circular letter of the Comptroller of date August 6, 1890, we submit as the amount necessary to conduct the office of the Commissioners of Accounts during the year 1891—For salaries of two Commissioners as fixed by chapter 516, Laws of 1884..... \$10,000 00
For salaries of assistants and to pay for contingencies necessary in the discharge of the duties devolving on the Commissioners of Accounts..... 25,000 00

This is the same amount that we asked for last year and was denied, and in consequence we have been much embarrassed during the present year in the discharge of our duties, being deprived of the services of stenographers and other experts necessary to properly conduct this office.

Each year demonstrates that the work of this office is increasing, and if sufficient appropriation is granted, it can be advantageously spent in the interest of the taxpayers and the betterment of the City Government.

SHERIFF'S OFFICE.

SHERIFF'S OFFICE, COUNTY COURT-HOUSE,
CITY AND COUNTY OF NEW YORK,
NEW YORK, September 6, 1890.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I have the honor to transmit herewith, in compliance with a communication from the Comptroller, dated August 6th ultimo, an estimate in detail of the amounts required to pay the expense of conducting the business of the Sheriff's Office in and for the year 1891.

In explanation of the increase in the amount now asked for over and above the appropriations heretofore made for this office I have to state that chapter 523 of the Laws of 1890 reorganized this office, providing salaries for the Sheriff, Under Sheriff, Counsel, Deputy Sheriffs, Assistant Deputy Sheriffs and other employees heretofore paid by fees, or by the Sheriff out of fees and emoluments received by him. In this relation reference is particularly made to sections 1, 2, 3, 4, 5 and 11 of said act.

It is proper to point out that the aggregate of expenditures required for the execution of the act of June 6, 1890, above mentioned, will be in part reimbursed by the county's share of the fees collected and paid over by the Sheriff to the Comptroller, pursuant to section 3 of the act aforesaid.

Summarizing this estimate, in comparison with former appropriations, it will be seen that the increase for the year 1891, amounting to \$52,432, is accounted for as follows:

Amount appropriated for the Sheriff's Office in 1890.....	\$42,900 00
Salaries of Warden and other officers of the County Jail.....	12,800 00
Support of prisoners in County Jail, including wages of cooks, cleaners, etc.....	10,000 00
	\$65,700 00
Amount of estimates for 1891.....	118,132 00

Increase for 1891, in consequence of the provisions of the act of June 6, 1890, making this a salaried office..... \$52,432 00

Very respectfully,

D. E. SICKLES, Sheriff.

COURT OF GENERAL SESSIONS OF THE PEACE,
CITY AND COUNTY OF NEW YORK,
CLERK'S OFFICE, September 23, 1890.

To the Honorable the Board of Estimate and Apportionment:

Laws of 1888, chapter 81, requires that the three Stenographers of the Court of General Sessions be paid for certain services out of the public funds.

In pursuance thereof I estimate that the sum of \$5,000 will be required for that purpose for the year 1891.

Respectfully,

JOHN SPARKS, Clerk.

SURROGATE'S COURT.

CHAMBERS OF THE SURROGATE—CITY AND COUNTY OF NEW YORK,
NEW YORK, September 11, 1890.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I submit herewith an estimate of the amount of expenditure required for my court and office for the year 1891:

I again renew the application contained in the estimates submitted last year for the current year and in the communication of October 12, 1888, presenting my estimates for the succeeding year, for the appointment of two additional clerks at a salary of \$1,000 each, to act as examiners and comparers of the records required by law to be copied and recorded. The necessity for the procurement of these clerks is set forth in these communications as well as in my communication of February 28 ultimo to Mr. Barker, one of the Commissioners of Accounts. He, at the instance of your Board, investigated the matter and was satisfied that these clerks were necessary and so reported. A transfer of \$824.31, an unexpended balance of appropriations to my credit for the year 1889, was made at my request, June 24, 1890, to enable me to secure additional assistance, but this amount was entirely insufficient to provide for more than the employment of a Recording Clerk until January 1 proximo, who is now being paid the same salary as the other recording clerks.

I repeat my request that provision be made for securing the two Examiners as well as for continuing in employment the said Recording Clerk. On the 20th day of May, 1890, an act, chapter 367 of the Laws of 1890, amending chapter 372 of the Laws of 1887, was passed, requiring the recording of all bonds filed in my office. From the number of bonds filed during the first six months of the present year, two thousand one hundred and ninety-seven (2,197), there is no doubt that the whole number of bonds that will have been filed at the expiration of the year will be double that number, or four thousand three hundred and ninety-four (4,394), containing twenty-nine thousand six hundred and fifty-nine (29,659) folios, or an average of six and three-quarters (6¾) folios to each bond. Having in mind the constant increase in the business of the office, the figures mentioned will fall short of the number of bonds which will be filed the ensuing year. It is manifest that two additional Clerks will be required for this work, and they will not, even with extraordinary labor and diligence, be able to keep abreast of it. I ask that an appropriation of \$1,000 be made for each of two Clerks to be employed for this purpose. Since the submission last year of my estimates for the current year, chapter 57 of the Laws of 1883, An Act for the preservation of the public records, has been amended by chapter 467 of the Laws of 1890. In pursuance of the authority vested in me by this amendment, I have examined and certified as to the necessity of the copying and transcribing of thirty-two other libers of wills and five libers of indices. My certificate is hereto annexed. These, with such of the libers directed to be copied by previous orders of a Justice of the Supreme Court as have not yet been completed, will probably leave unfinished at the end of this year about fifty-three libers. Eleven libers will be needed for this work for next year at a cost of \$330. For stationery for this work \$100 will be needed. I have employed nine Clerks upon the work. I ask that appropriation be made to pay them the following salaries, as heretofore fixed by your Board, viz.: One Examiner at rate of \$1,500 a year and eight other Clerks at \$1,200 a year each. The service in which these Clerks are engaged is a very important one, and exacts special care and diligence in its proper performance.

I repeat my request for an increase of the salaries of the women employed in making copies of papers and records. These copies are paid for by those ordering them, and the labor expended in supplying them thus secures a return in fees to the City Treasury. Of all these serving in the office none have been more faithful, more efficient, more hard working than they. Their services entitle them to \$1,000 a year each, and I strongly urge a recognition of the justness of their claim.

For contingencies an allowance of \$1,200 is requested.

RASTUS S. RANSOM, Surrogate.

NEW YORK ASYLUM FOR IDIOTS.

NEW YORK ASYLUM FOR IDIOTS,
SYRACUSE, NEW YORK, September 10, 1890.

To the Board of Supervisors of the County of New York:

By the existing provisions of law the Supervisors of any county from which State pupils are admitted into the New York Asylum for Idiots are required to raise the sum of (\$30) thirty dollars a year for each pupil so admitted. See chapter 739 of the Laws of the State of New York for 1867.

As the Trustees of the Asylum have no disposition to charge the counties for clothing State pupils anything more than the actual cost of the clothing furnished, they have decided to reduce the charge to twenty-two dollars each for male pupils, and sixteen dollars for females. They are enabled to do this only by purchasing the supplies by wholesale and by making a portion of the garments with the labor of the inmates.

The following pupils have been received into the Asylum from your county upon the proper legal certificates, as required by the law relating to the admission of pupils:

NEW YORK INSTITUTION FOR THE BLIND,
NEW YORK, September 6, 1890.

Hon. THEO. W. MYERS, Comptroller:

DEAR SIR--In reply to your letter of inquiry, I would state the number of pupils in the New York Institution for the Blind from the County of New York in the year ending September 30, 1891, pursuant to chapter 166, section III., Laws of 1870, is estimated to be 175. Estimated appropriation requisite, at fifty dollars (\$50), is eight thousand seven hundred and fifty dollars (\$8,750).

Very respectfully, your obedient servant,

NEW YORK CATHOLIC PROTECTORY.

OFFICE OF THE NEW YORK CATHOLIC PROTECTORY,
No. 415 BROOME STREET,
NEW YORK, August 12, 1890.

Hon. THEODORE W. MYERS, Comptroller, City and County of New York:

SIR--In compliance with the requirements contained in the resolutions of the Board of Estimate and Apportionment, embraced in your communication under date of August 6, 1890, duly received, the Managers of the New York Catholic Protectory hereby respectfully submit the following statement and requisition:

By section 1, chapter 428 of the Laws of 1867, the sum of one hundred and ten dollars (\$110) per capita on the average number of persons annually maintained in said institution, was authorized and directed to be raised in the same manner and applied in the same way as is required by section 1, chapter 647 of the Laws of 1866.

Considering the provisions of said acts, and the number of children now in the institution, there will be required for the year 1891 the sum of two hundred and sixty-four thousand dollars (\$264,000).

This requisition is based on an estimate of two thousand four hundred (2,400) children as the average number to be maintained during the year 1891.

The managers beg leave to assure you that they have carefully considered their estimate for 1891, and that any reduction of the sum therein asked for will be attended by serious inconvenience to the institution and render impossible the reception by it of all the children committed to its care by the magistrates of this City.

Respectfully submitted, for the Board of Managers,
RICHARD H. CLARKE, President.

Resolved, That the Counsel to the Corporation be requested to furnish his opinion upon the legality of the action of the Board of Estimate and Apportionment, as follows:

First—In deducting from the appropriation for the State taxes in the Final Estimate for 1890, the sum of \$818,767.41, for that portion of the State tax imposed on the City and County of New York on account of the items included in the State Supply Bill aggregating \$1,808,550.13, which were vetoed by the Governor.

Second—In deducting from the appropriation for the State taxes in the Final Estimate for 1890, the sum of \$359,839.65, for that portion of the State tax imposed on the City and County of New York, on account of the addition of \$119,425.063, by the Board of Equalization, to the assessed valuation of real estate in the City of New York.

Third—In deducting from the appropriation for State taxes in the Provisional Estimate for 1891, that portion of the State tax imposed on the City and County of New York, amounting to \$285,623.55, on account of the addition of \$122,061.343, by the Board of Equalization, to the assessed valuation of real estate in the City of New York.

Fourth—In deducting, pursuant to the provisions of chapter 178 of the Laws of 1889, from the appropriations in the Final Estimate for 1890, and the Provisional Estimate for 1891, the amount of interest on bonds and stocks held in the Sinking Fund, and of installments of bonds and stocks issued after June 3, 1878, to be raised by tax annually, as provided by section 9 of chapter 383 of the Laws of 1878; the opinion under this head being requested with reference to the constitutionality of the said Act of 1889, about which a question has been raised.

MANUFACTURERS OF PAINTS, VARNISHES, BRUSHES AND ARTISTS' MATERIALS,
CORNER FULTON AND WILLIAM STREETS,
NEW YORK, October 31, 1890.

Hon. THEODORE W. MYERS, Comptroller:

DEAR SIR—It is important that the Board of Estimate and Apportionment should act on the resolution of the Board of Education, dividing the appropriation of \$16,000 for the lots in One Hundred and Thirty-eighth and One Hundred and Thirty-ninth streets, adjoining Grammar School No. 85, and adding \$330.10 to the one-half appropriated for the two lots on the easterly side of the school, as soon as possible, as the owner of said two lots insists upon the matter being closed by November 1. The amount added is for taxes and interest, which the owner insists upon receiving when the title is closed. The property was offered in March, reported upon in May, adopted in June, and approved by the Board of Estimate and Apportionment in September.

Hoping that you will have the matter acted upon without delay, I am,

Yours truly,

F. W. DEVOE,
Of Committee on Sites and New Schools and Finance Committee.

And offered the following preamble and resolution :

Whereas, The Board of Education adopted a resolution on October 22, 1890, presented to the Board of Estimate and Apportionment on October 24, 1890, requesting this Board to approve of the division of the sum of \$16,000, the appropriation of which sum was approved on June 24, 1890, for the purchase as a site for school purposes of four lots of land situate on the northerly side of One Hundred and Thirty-eighth street and the southerly side of One Hundred and Thirty-ninth street, between Willis and Brook avenues, in the Twenty-third Ward of the City of New York, adjoining the Grammar School No. 85, described in the resolution adopted by the Board of Education, May 7, 1890, the one-half of said sum to be applied to the purchase of two lots of land adjoining the westerly side of the site of said Grammar School, as described in said resolution, and one-half thereof to the two lots of land adjoining the easterly side of said site ; and

Whereas, By the same resolution the Board of Education requests the Board of Estimate and Apportionment to approve of the appropriation of the sum of three hundred and thirty-dollars and ten cents (\$330.10) from the premiums received on the sale of School-house Bonds heretofore issued, under the act, chapter 136, Laws of 1888, to be applied, in addition to the one-half of the said sum of sixteen thousand dollars (\$16,000), to the purchase of the said two lots of land adjoining the easterly side of the site of said Grammar School, as described in said resolution ;

Resolved, That the Board of Estimate and Apportionment hereby approves of the division of the sum of sixteen thousand dollars (\$16,000) for the purchase of said lots adjoining the site of Grammar School No. 85, as described in said resolution adopted by the Board of Education October 22, 1890, and the foregoing preamble, and also of the appropriation of three hundred and thirty dollars and ten cents (\$330.10) from the premiums of School-house Bonds heretofore issued, to be applied in addition to the one-half of said sum of sixteen thousand dollars (\$16,000), to the purchase of the said two lots of land adjoining the easterly site of said Grammar School, as described in said resolution, and as requested by the Board of Education.

Which were adopted by the following vote :

Absent—John H. V. Arnold, the President of the Board of Aldermen.

The minutes of the meeting held October 31, 1890, were read and approved.

The Comptroller presented the following :

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
STEWART BUILDING,
NEW YORK, November 3, 1890.

Hon. HUGH J. GRANT, President of the Board of Estimate and Apportionment :

SIR—I respectfully request a transfer of the sum of twenty-six thousand dollars from the appropriation for cleaning streets, account of "Sweeping," 1890, to the appropriation for cleaning streets, account of "Carting," 1890, for the reason that the amount appropriated for the collection of ashes, garbage and street sweepings is not sufficient to complete the business of the year.

The appropriation for the year was..... \$500,000 00
The expense of carting, for the ten months which ended on October 31, was..... 440,950 64

which leaves for the remainder of the year (sixty-one days)..... \$59,049 36

The average daily cost of carting at the present time is \$1,400.

The cost of carting, per month, for the past ten months, was as follows :

January.....	\$53,619 40
February.....	47,491 66
March.....	52,061 18
April.....	50,085 09
May.....	45,962 25
June.....	41,283 27
July.....	38,455 02
August.....	35,667 42
September.....	37,179 40
October.....	39,145 95
Total.....	\$440,950 64

I also respectfully request a transfer of the sum of twenty-nine thousand dollars from the appropriation for cleaning streets, account of "Sweeping," 1890, to the appropriation for cleaning streets, account of "Final Disposition," 1890, for the same reason as is hereinbefore assigned for the transfer requested to be made from the account of "Sweeping," to the account of "Carting."

The appropriation for the year was..... \$200,000 00
The expense for the ten months last past were..... 198,502 43

—which leaves for the remainder of the year (sixty-one days)..... \$1,497 57

The average cost, daily, of final disposition, at the present time, is \$500.

The cost of final disposition, per month, for the past ten months was as follows :

January.....	\$22,956 71
February.....	23,381 64
March.....	23,768 38
April.....	22,229 78
May.....	18,890 26
June.....	18,718 63
July.....	18,728 11
August.....	15,631 72
September.....	16,307 29
October.....	17,889 91
Total.....	\$198,502 43

The number of loads finally disposed of during the past ten months was 1,366,433, or 114,126 in excess of the quantity finally disposed of for the corresponding ten months of 1889.

As an additional reason for the transfer here requested, reference is respectfully made to the Departmental Estimate for the year 1891, and to the verbal statements of the Commissioner of Street Cleaning to the Honorable the Board of Estimate and Apportionment, on the 25th ult., when the Board had the aforesaid estimate under consideration. Notwithstanding that there has been a large increase over the estimate which was made for the present year of the quantity of matter to be collected and finally disposed of, there has been a perceptible reduction in the aggregate cost per month of the items to which attention is invited.

Very respectfully,

H. S. BEATTIE, Commissioner of Street Cleaning.

And offered the following resolution :

Resolved, That the sum of forty thousand dollars (\$40,000) be and the same is hereby transferred from the appropriation made to Department of Street Cleaning for the year 1890, entitled

"Cleaning Streets, Department of Street Cleaning—Sweeping," the same being in excess of the amounts required for the purposes and objects thereof, to the following appropriations made to the same Department for 1890, viz. :

"Cleaning Streets, Department of Street Cleaning—Carting".....	\$20,000 00
"Cleaning Streets, Department of Street Cleaning—Final Disposition of Material".....	20,000 00
Total.....	\$40,000 00

—the amounts of said appropriations being insufficient.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller and President of the Department of Taxes and Assessments—3.

The Comptroller offered the following resolution :

Resolved, That the sum of one thousand five hundred dollars (\$1,500) be and is hereby transferred from balance of unexpended appropriations for the year 1889, entitled as follows :

Finance Department—For "Cleaning Markets".....	\$500 00
Department of Taxes and Assessments—For "Salaries, Board of Assessors".....	1,000 00
Total.....	\$1,500 00

which are in excess of the amounts required for the objects and purposes thereof, to the appropriation made to the Law Department, entitled "Contingencies, Law Department—Contingent Counsel Fees," for 1890, which is insufficient for the purposes thereof.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, and President of the Department of Taxes and Assessments—3.

The President of the Department of Taxes and Assessments called up the matter of the purchase of land on Fourteenth and Fifteenth streets as a part of a site for the Ninth Regiment Armory, laid over at a meeting of the Board held October 15, 1890.

After discussion, the Chairman moved that it be referred to the President of the Department of Taxes and Assessments.

The Comptroller offered the following resolution :

Resolved, That the Provisional Estimate made by the Board of Estimate and Apportionment on the 31st day of October, 1890, of the amount required to pay the expense of conducting the public business in the City and County of New York, in each department and branch thereof, and the Board of Education, for the ensuing financial year, to wit, for the year eighteen hundred and ninety-one (1891) be submitted to the Board of Aldermen, with the reasons for it in detail, as required by section 189 of the New York City Consolidation Act of 1882, as follows :

THE LEGISLATIVE DEPARTMENT.

The amount appropriated for the Common Council in the Provisional Estimate for 1891 is \$76,800, being the same as the appropriation in the Final Estimate for the year 1890, and as to the amounts and the objects and purposes specified in the Departmental Estimate for 1891, all of which are allowed as reasonable and necessary, including \$50,000 for salaries of Aldermen, at \$2,000 each per annum, and \$3,000 for the President of the Board, as provided and fixed by law.

THE MAYORALTY.

The amount appropriated is \$26,000, the same as that of the Departmental Estimate of the expenses required by the Mayor's Office in 1891, for the objects and purposes specified, and as the appropriation made for 1890, including the salary of the Mayor, fixed by law at \$10,000 per annum. For the Mayor's Marshal's Office the sum of \$13,000, asked for in the Departmental Estimate and appropriated for 1890, is allowed as reasonable and necessary.

THE FINANCE DEPARTMENT.

The sum of \$292,419 was asked for in the Departmental Estimate, as required for the several objects and purposes specified therein, and is allowed as reasonable and necessary, including the salary of the Comptroller fixed by law at \$10,000 per annum, and the compensation of the Chamberlain also provided for by law at \$25,000 per annum, and including the sum of \$40,000 appropriated for Cleaning Markets.

INTEREST ON THE CITY DEBT.

In accordance with the statements submitted by the Comptroller with the Departmental Estimate, the amount appropriated for interest becoming due and payable in 1891 on bonds and stocks of the City of New York, exclusive of interest on bonds and stocks in the Sinking Fund, made payable therefrom, by chapter 178 of the Laws of 1889, and including interest on bonds of the Towns of Morrisania and West Farms issued prior to their annexation to the city, and also interest on the estimated amount of Revenue Bonds to be issued in 1891, amounting in all to \$5,109,583.37 (less by \$5,000 than the Departmental Estimate), and included in the Provisional Estimate, to be raised by tax in 1891.

THE REDEMPTION OF THE CITY DEBT.

The sum of \$52,000 is included in the Provisional Estimate for the Redemption of Revenue Bonds, made payable, 1891, by special acts of the Legislature, and also the sum of \$1,049,434.67, pursuant to article 8, section 11 of the State Constitution, as amended in 1884, requiring installments to be raised by tax, annually, for the redemption, at maturity, of bonds issued after December 31 of that year, for the supply of water to the city.

Stocks and bonds amounting to the sum of \$2,476,600 become due in 1891, which were made payable by law from taxation, at maturity, for which no appropriation is included in the Provisional Estimate, as the amount can be paid from "The Sinking Fund for the Redemption of the City Debt," pursuant to the provisions of sections 176 and 177 of the Consolidation Act of 1882, without in any way impairing the preferred claims on that fund.

THE STATE TAXES.

The amount of the State Tax imposed upon the City and County of New York, to be raised in 1891, is \$3,923,698.92, from which has been deducted from the appropriation for State Taxes the sum of \$285,623.55, levied on the sum of \$122,061,343, added by the State Board of Equalization to the assessed value of real estate in the City of New York, leaving the sum of \$3,638,075.37 appropriated in the Provisional Estimate for State Taxes, to which is added \$12,555.10 for compensation and expenses of the Shore Inspector, as provided by law.

RENTS.

The sum of \$131,322 is appropriated for rents of premises leased to the city of various departments, public offices, court-rooms, etc., other than armories and drill-rooms, and such premises as are leased for the use of certain departments, the rents of which are paid out of their own appropriations.

The rents of armories and drill-rooms for regiments and armories not provided with quarters belonging to the city is \$42,050, besides the sum of \$15,000 appropriated annually for the Seventh Regiment Armory Fund, in lieu of rent of an armory, as provided by chapter 57, Laws of 1879, and the amount appropriated for wages of Armories, Janitors, Engineers and Laborers required for military organizations is \$54,312.

JUDGMENTS.

The sum of \$100,000 is deemed to be required and is appropriated for the payment of judgments in 1891, that amount being \$50,000 less than the appropriation for 1890.

SPECIAL APPROPRIATIONS.

The sum of \$3,000 is appropriated for necessary expenses of real estate, and the same amount for necessary expenses of the Commissioners of the Sinking Fund.

THE LAW DEPARTMENT.

The sum of \$199,650 is appropriated for the necessary expenses of the Law Department, and offices connected therewith as Bureaus, including the amount of salaries fixed by law of the Counsel to the Corporation, the Public Administrator and the Attorney for the Collection of Arrears of Personal Taxes, a reduction of \$10,100 being made from the amount of the Departmental Estimate.

THE DEPARTMENT OF PUBLIC WORKS.

The sum of \$2,992,220 is appropriated for all objects and purposes, being \$365,150 less than the amount of the Departmental Estimate, and \$223,995 less than the appropriation for 1890, reductions being made in various items considered more than necessary.

THE DEPARTMENT OF PUBLIC PARKS.

The sum of \$1,206,405 is appropriated as necessary and sufficient for all objects and purposes, including the sum of \$233,500 for Street Improvements in the Twenty-third and Twenty-fourth Wards, being \$85,705 more than the appropriation for 1890.

THE DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

The sum of \$2,100,137 is appropriated as necessary and sufficient for all objects and purposes, being \$1,015,568 less than the amount of the Departmental Estimate and \$151,037 more than the appropriation for 1890.

THE HEALTH DEPARTMENT.

The sum of \$405,400 is appropriated as necessary and sufficient for all objects and purposes, reductions being made in various items in the Departmental Estimate amounting in all to \$7,080, and additions to the appropriations of \$5,000 for the enumeration of the population of the city in 1891, and \$10,000 for the Burial of Soldiers, Sailors and Marines.

THE POLICE DEPARTMENT.

JURORS.**NOTICE OF COMMISSIONER OF JURORS IN REGARD TO CLAIMS FOR EXEMPTION FROM JURY DUTY.**

ROOM 127, STEWART BUILDING,
No. 280 BROADWAY, THIRD FLOOR,
NEW YORK, June 1, 1890.

CLAIMS FOR EXEMPTION FROM JURY duty will be heard by me daily at my office, from 9 A. M. until 4 P. M.

Those entitled to exemption are: Clergymen, lawyers, physicians, surgeons, surgeon-dentists, professors or teachers in a college, academy or public school, editors, editorial writers or reporters of daily newspapers, licensed pharmacists or pharmacists, actually engaged in their respective professions and not following any other calling; militiamen, policemen, and firemen; election officers, jury non-residents, and city employees, and United States employees; officers of vessels making regular trips; licensed pilots, actually following that calling; superintendents, conductors and engineers of a railroad company other than a street railroad company; telegraph operators actually doing duty as such; Grand, Sheriff's, and Civil Court jurors; stationary engineers; and persons physically incapable of performing jury duty by reason of severe sickness, deafness, or other physical disorder.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only, under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States jurors, are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement and every case will be fully prosecuted.

CHARLES REILLY,
Commissioner of Jurors.

ARMORY BOARD.

ARMORY BOARD—OFFICE OF THE SECRETARY,
STAATS ZEITUNG BUILDING, TRYON ROW,
NEW YORK, November 8, 1890.

PROPOSALS FOR ESTIMATES FOR SUPPLYING THE FURNITURE FOR AN ARMORY BUILDING ON THE BLOCK BOUNDED BY BOULEVARD AND COLUMBUS AVENUE, SIXTY-SEVENTH AND SIXTY-EIGHTH STREETS, NEW YORK CITY.

PROPOSALS FOR ESTIMATES FOR SUPPLYING THE FURNITURE for an Armory Building on the block bounded by Boulevard and Columbus avenue, Sixty-seventh and Sixty-eighth streets, New York City, will be received by the Armory Board at the MAYOR'S OFFICE, CITY HALL, UNTIL 2 P. M. OF THE 20TH DAY OF NOVEMBER, 1890, at which time and place they will be publicly opened and read by said Board.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the President of said Armory Board, indorsed "Estimate for Supplying the Furniture for an Armory Building on the block bounded by Boulevard and Columbus avenue, Sixty-seventh and Sixty-eighth streets," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the amount of TWO THOUSAND (\$2,000) DOLLARS.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This

notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ONE HUNDRED DOLLARS (\$100). Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation. Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be seen upon application at the office of the Architect, John P. Leo, No. 38 Park Row.

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest. Specifications and blank forms for bids or estimates obtained by application to the ARCHITECT, at his office, No. 38 PARK ROW, Potter Building, New York City.

This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the parties making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ONE HUNDRED DOLLARS (\$100). Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the person making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be seen upon application at the office of the Architect, John P. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

PROPOSALS FOR ESTIMATES FOR DREDGING FOR PROPOSED BULKHEAD-WALL AT EAST ONE HUNDRED AND SECOND STREET SECTION, ON THE HARLEM RIVER.

ESTIMATES FOR DREDGING AT THE ABOVE-named place on the Harlem river will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

FRIDAY, NOVEMBER 21, 1890,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above-named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of One Thousand Seven Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged in order to secure at the premises mentioned the depth of water set opposite thereto in the specifications is as follows:

For proposed bulkhead-wall at East One Hundred and Second Street Section, Harlem river..... 16,000 cubic yards.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

(1.) Bidders must satisfy themselves, by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at

any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 30th day of December, 1891; and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per cubic yard for doing such dredging in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

2. Labor and material for painting and glazing the shed and offices, and supplying all the paints, oils, varnishes, glass, putty and material of every description necessary therefor, as set forth in the specifications.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1. Bidders must satisfy themselves, by personal examination of the location of the proposed work and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for each class of the work before mentioned, which shall be actually performed, at the price therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced on the sixteenth day of December, 1890, and all the work to be done under the contract is to be fully completed on or before the first day of March, 1891, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in all the classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful

bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number, of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOMAS F. GILROY,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, June 2, 1890.

TO THE PEOPLE OF THE CITY OF NEW YORK:

It becomes my duty as Commissioner of Public Works and custodian of the many and immense interests involved in the City's water supply, to briefly present to the people of the City the present condition of the supply, and the extreme necessity for care and economy in the use of the water.

For a number of years past and up to the present time, the old Aqueduct and the Bronx river conduit have delivered in the City all the water which they are capable of carrying, the supply thus remaining stationary when the City has been constantly growing in population, buildings, manufactures and commerce, creating new and additional demands upon the water service. The consequence is that at certain seasons of the year, notably in extreme cold weather, when the habit of wasteful water from faucets to prevent freezing in the pipes prevails, and in warm and dry weather, when various methods of waste are in vogue, the daily consumption exceeds the supply which can by any possibility, be received through the old Aqueduct and the Bronx river conduit, the excess of consumption being drawn from the city reservoirs, diminishing the depth of water and the pressure in the distributing mains. There is no possibility of increasing the water supply received in the City until the new Aqueduct is brought into operation, and in the meantime the only reliance for a fair and equal distribution of water throughout the city is care and economy in its use on the part of the people. Already the depth of water in the reservoirs is being diminished at the rate of one inch per day, and if this should continue for any length of time, the pressure in the distributing mains would be so reduced that it would be impossible to deliver water in thousands of houses located on high ground, and in some other locations even in the basements or cellars.

I, therefore, most earnestly appeal to all citizens, residents and people carrying on business in this city to be careful and economical in the use of water, in justice to themselves, to the people at large, and especially to those who are so located as to be already suffering inconvenience from insufficient supply of water.

Commissioner of Public Works.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which

the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the same has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and let as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.
