Whereas, Great inconvenience is caused to the people in certain wards and sections of the Borough of Brooklyn during the months of November, December, January, February and March, because of the system now in vogue of collecting the ashes but once every week; and

Whereas, This system of collection is inadequate for the needs of the people, because of the rapid accumulation of ashes during the period named; and

Whereas, The department having charge of this matter is at times dilatory in the collection of the ashes, oftentimes permitting them to accumulate from one week to eight, nine and ten days, thereby causing the overflowing of barrels and receptacles, and an unnecessary expense upon the city because of a filthy condition of the streets, besides being unsightly and a source of great inconvenience to the people, whose persons are often covered with the dust blown from these receptacles, and detrimental to their health because of the inhalation of the dust; be it therefore

Resolved, That the Commissioner of Street Cleaning is hereby respectfully requested to give this matter his attention, and arrange if possible for the collection of ashes every Monday and Thursday during the months of November, December, January, February and March, in the Twenty-third Ward, and other wards in the Borough of Brooklyn that in his judgment warrant the collection of ashes twice every week during the aforementioned months.

Which was adopted.

No. 365.

Resolved, That the Commissioner of Public Buildings, Lighting and Supplies be and he is hereby authorized and requested to supply the Clerk of the Board of Aldermen with twenty-one copies of the Greater New York Charter for distribution among and use of the newly-elected members of the Board of Aldermen, and to provide the City Clerk with a sufficient number of copies of any and all amendments to the Charter as now are or may be passed by the State Legislature, for the use of the members of the Municipal Assembly and the respective offices thereof.

No. 369.

Hon. RANDOLPH GUGGENHEIMER, Municipal Council Chamber, City Hall, New York City:

MY DEAR SIR—Inclosed herewith we send you resolution passed at the regular meeting of our association, held on the evening of February 6, 1900.

Will you kindly present the same to the Council, and advise us whether any action is taken by your Honorable Board in connection with this matter, which is of such vital importance to all of us in this section, being the only unpaved street west of Broadway up to One Hundred and

Sixteenth street, and being all built up, with the exception of 75 feet frontage, with handsome residences.

Whereas, One Hundred and Seventh street, between Broadway and the Riverside drive, has never yet been paved, although handsomely built up on both sides with private residences of a superior character, and although the cost is estimated by the Department of Highways to be less than five thousand dollars, while the assessed valuation of the property upon which the cost must be levied is more than three hundred and fifty thousand dollars; and

Whereas, Great inconvenience and loss is caused the residents and property-owners by the omission of the City to make this very necessary improvement; and

Whereas, All necessary legal forms have long since been complied with to bring this matter before the Municipal Council, where it now rests; and therefore

Resolved, That the Municipal Council and Board of Aldermen be respectfully requested to pass the resolution ordering this work as reported from the Board of Public Improvements, with as little delay as possible, and that his Honor the Mayor be requested to approve the same.

That the Secretary be directed to forward copies of these resolutions to the Councilman and Alderman, respectively, of the Twenty-first Assembly District, to the presiding officers of the two branches of the Municipal Council, and to his Honor the Mayor.

Which was ordered on file.

No. 382.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,  
Nos. 13 TO 21 PARK ROW,  
NEW YORK, March 2, 1900.

Hon. RANDOLPH GUGGENHEIMER, President, Municipal Assembly:

DEAR SIR—In consequence of a fire which occurred early in January last, the one-story brick and frame building at the pipe-yard of this Department, foot of East Twenty-fourth street, used as a storehouse and repair shop, was badly damaged. The Commissioner of Buildings for the boroughs of Manhattan and The Bronx has served legal notice on the Commissioner of Public Buildings, Lighting and Supplies, requiring the reconstruction of this building, at an estimated cost of \$5,000. This is an entirely unforeseen expenditure, not provided for in any existing appropriation. It is proper, therefore, that provision for it be made by the issue of revenue bonds under subdivision 8 of section 188 of the City Charter, which requires authorization by concurrent vote of all the members of the Board of Estimate and Apportionment, upon a joint resolution requesting such authorization by the affirmative vote of three-fourths of all the members elected to each branch of the Municipal Assembly.

In order that the building may as soon as possible be restored to its necessary uses, I respectfully ask the adoption by both branches of the Municipal Assembly of such resolution, a draft of which I herewith submit.

Very respectfully,  
WILLIAM DALTON, Commissioner of Water Supply.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested to authorize the issue of revenue bonds of The City of New York, in pursuance of subdivision 8 of section 188 of the Greater New York Charter, to an amount not exceeding five thousand (\$5,000) dollars, to enable the Commissioner of Public Buildings, Lighting and Supplies to rebuild the one-story brick and frame building in the pipe-yard of the Department of Water Supply, in East Twenty-fourth street, which was damaged and partially destroyed by fire in January, 1900, and is required by said Department of Water Supply as a storehouse and repair shop.

Which was referred to the Committee on Water Supply.

The President laid before the Council the following communication from the Board of Public Improvements, together with ordinance:

## Meter Rates.

Water meters shall be placed, at the discretion of the Commissioner of Water Supply, for all stores, workshops, hotels, manufactories, office buildings, public edifices, on wharves, ferry-

houses, and in all places where water is furnished for business consumption, except private dwellings; the charge for water measured by meter to be ten cents per 100 cubic feet.

All charges not herein mentioned or fixed are reserved for special contract by and with the Commissioner of Water Supply.

DEPARTMENT OF WATER SUPPLY,  
NEW YORK, January 30, 1900.

To the Board of Public Improvements:

At your meeting on December 20th ultimo, the subject of a new and uniform scale of water rents for all the boroughs of the City was referred to a committee, consisting of the President of the Board, the Comptroller and the Commissioner of Water Supply, for report.

At the meeting on the 17th instant, the President, on behalf of himself and the Comptroller, presented a new scale for your consideration and approval.

As a member of the Committee and as head of the Department which will be charged with the duty of administering the new scale of water charges and enforcing it on the people of the City, I desire to present my objections to several features in the scale presented by the other two members of the committee.

First—I am opposed to any increase in the frontage rate in the boroughs of Manhattan and The Bronx by adopting the Brooklyn frontage rate, and adding from one to four dollars to the present old New York rate for about eighty per cent. of the houses. The Brooklyn rate would add two dollars to the present annual charge on every tenement-house in Manhattan and The Bronx, the very class of property which is least able to bear increased charges.

Instead of extending the higher Brooklyn rate to Manhattan and The Bronx, I am in favor of extending the lower old New York rate to Brooklyn and the other boroughs.

There is no ground for apprehension that this would impair the Brooklyn water revenue in its aggregate. The estimated annual loss of \$129,000 in frontage rate is offset by the estimated annual gain of \$130,000 from the meter rate of 10 cents, instead of 7½ cents, per 100 cubic feet, and the proposed charges for extra families and for water supplied to steam tugs and other shipping, leaving the total revenue unimpaired.

Second—I am opposed to the proposed increase from the present uniform charge of \$2 for all water-closets to the charge of \$5 for closets which are not provided with measuring tanks or other devices to limit the use of water. I am firmly in favor of the present uniform charge of \$2 per closet in every case.

The proposed additional charge of \$3 would again fall almost entirely on tenement houses. The modern five-story double-tenement house has two water-closets on each floor, ten in all, on nine of which the uniform rate of \$2 is now, and has for many years past been paid. The increase to \$5 would amount to an annual increase of \$27 on each of these five-story tenements. On the many five and six story tenements which have three to four families and the same number of water-closets on each floor, the additional charge would be from \$39 to \$60 per house.

The obvious object of this \$5 rate is to check waste of water by forcing the adoption and expense of the devices for limiting the use of water in all closets. I believe that so harsh a measure is unnecessary and uncalled for. It does not follow that water is wasted in every closet which is without these devices or checks. While I am in favor of any reasonable measure to stop wanton and useless waste of water where there is evidence of its existence, I am also in favor of its liberal use for flushing and cleansing closets and urinals, and I am emphatically opposed to the indiscriminate application of the exorbitant five-dollar rate per closet, regardless of the absence of positive evidence of waste. Where there is positive evidence of waste there is opportunity to check it by other sufficient and more equitable measures of prevention.

Third—Concerning the use of water meters. Section 475 of the City Charter authorizes the placing of water meters only in houses where water is used for business consumption, and at the discretion of the Commissioner of Water Supply.

The scale presented in the report of two members of the Committee proposes to extend the compulsory use of meters to dwellings in the following paragraphs:

"Where the whole or part of a building is occupied for business purposes, the whole supply shall be metered."

"Where water is obtained by pumping from wells or by purchase from other parties, all buildings shall be metered at the rate of 10 cents per hundred cubic feet."

"Meters will be placed on all houses where there is an extra use of water; where required to ascertain the amount used, and where waste of water is found, and they will be charged at rates fixed for all the water passing through them."

The language of these paragraphs assumes to abrogate the discretionary power vested by the Charter in the Commissioner of Water Supply, and to abrogate the limitations placed by the Charter on the compulsory use of water meter.

Under the first of these paragraphs it would at once become necessary to extend the meter service and connections to the dwelling portion of nearly five thousand houses in which, under preceding administrations, the meters were placed to apply only to the business portion of the houses, generally the first floors and basements, while the frontage rate on these houses continues to be charged and paid.

I am aware that the meter charge on the lower part of a house, with frontage charge on the whole house, is apparently in conflict with the paragraph in section 473 of the Charter, which prohibits any other charge than the meter rate where there is a meter. This paragraph, however, is also in conflict with section 475, which virtually prohibits the compulsory use of meters and meter charges on the dwelling portion of houses. It presents one of the numerous cases in which different section of the Charter conflict with each other, but the remedy for this by amendments rests solely with the Legislature and not with the Board of Public Improvements or the Municipal Assembly.

Under the second paragraph, meters would have to be placed in every house in the First and Third Wards of the Borough of Queens (Long Island City, College Point, Flushing and Whitestone), where the entire water supply furnished by the City is obtained by pumping from wells and by purchase from the Citizens' Water Supply Company. This is also in conflict with section 475 of the City Charter, because it would enforce the compulsory use of meters in dwellings.

The same objection applies to the third paragraph.

I am firmly of the opinion that no scale of water rents which your Board and the Municipal Assembly may adopt can break down or extend the limitations placed by the Charter on the compulsory use of water-meters and the exaction of meter charges, as proposed in the scale reported to you by two members of the committee; neither can it abrogate the discretionary power vested by the Charter in the Commissioner of Water Supply.

In accordance with the foregoing views I present herewith, for the consideration and approval of the Board, a new and uniform scale of water-rents, as a substitute for the one now before the Board, embracing only such charges as are now in force in the boroughs of Manhattan and The Bronx.

To any objections or arguments against this scale, which may be advanced on the ground that the higher charges provided in the scale presented by the other two members of the committee are necessary as a measure of municipal finance, to reduce or make good a deficit in the debit and credit account of the City's water service, I have to say that I do not believe that there is a deficit or that there will be one under the scale which I recommend. There is substantial ground for the assertion that the water systems and service of the City, as a whole, are self-sustaining, both as to cost of maintenance and interest charges on the outstanding water debt, with a sufficient surplus for the Sinking Fund for the Redemption of the Debt.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

#### Meter Rates.

For all stores, workshops, hotels, manufactories, office buildings, public edifices, on wharves, ferry-houses, stables and places not enumerated, the rate shall be 10 cents per 100 cubic feet.

Where the whole or part of a building is occupied for business purposes, the whole supply shall be metered.

Where water is obtained by pumping from wells, or by purchase from other parties, all buildings shall be metered at a rate of 10 cents per 100 cubic feet.

Meters will be placed on all houses where there is an extra use of water, where required to ascertain the amount used, and where waste of water is found, and they will be charged at rates fixed for all the water passing through them.

All charges not herein mentioned or fixed are reserved for special contract by and with the Commissioner of Water Supply.

The President explained that the principal object of this revision was to comply with an urgent demand of the residents of the several boroughs for uniformity of water charges. He further explained that in the preparation of the schedule the sub-committee were confronted with this situation: If uniformity was established by reducing all the rates under each head to that which prevails as the lowest in any particular borough, the aggregate existing deficit in annual receipts would be greater by over \$300,000 than it was last year. On the other hand, by adopting the higher prevailing rates the annual deficit would be reduced \$178,500. The unanimous disposition of the Committee was in favor of reducing rather than increasing rates, but at the same time they felt that in providing uniformity of charges, which after all was the main object, it would not be wise at this time to reduce the revenues to so great an extent. Therefore this revision was considered the most intelligent and equitable that could be devised. While the aggregate net increase proposed will reduce the annual deficit, the change of rates do not very materially add to the tax burden of any individual property-owner.

At present the water meter rate in the boroughs of Manhattan and The Bronx is 10 cents per 100 cubic feet, 7½ cents in the Borough of Brooklyn, and ranges from 15 to 20 cents in the Borough of Queens. The proposed revision makes a uniform rate of 10 cents.

For the purpose of ready comparison, a table of the present frontage rates in all the boroughs is herewith submitted. For the purpose of uniformity, the rate prevailing in Brooklyn is adopted in the new classification.

In the boroughs of Manhattan and The Bronx it has been customary to charge one dollar extra for each family more than one in dwelling houses. The new schedule provides that this rate shall be extended to the other boroughs.

The rate at present charged in Manhattan and The Bronx for building purposes—that is, brick, plastering, etc.—is made the uniform rate throughout.

In the charge for extra baths there is no change from the rates now prevailing in the boroughs of Manhattan, The Bronx and Brooklyn.

For water-closets no change is made in the rates as they now exist in the three boroughs above-named, except that this condition which has been in vogue in the old City of New York since 1890, is made the rule throughout all the boroughs.

Water-closets and urinals of every description that are supplied with water from a measuring tank or system from which only a limited quantity can be drawn, viz.: about three gallons at each pull, \$2. When supplied with water from a tank, other than a measuring tank, from which an unlimited quantity can be drawn by holding or fastening the valve open, or when the supply is received from the water supply, \$5.

The rates for water to shipping in the new schedule are made uniform by adopting the rates at present prevailing in the boroughs of Manhattan and The Bronx. They are slightly in excess of the rates collected in the old City of Brooklyn.

If this new schedule is adopted by the Board of Public Improvements and the Municipal Assembly, it will affect the boroughs as follows:

#### Increase in Manhattan and The Bronx.

On frontage rates.	\$175,000 00
Decrease in rates in Twenty-fourth Ward.	\$3,500 00

#### Increases in Brooklyn.

On metered water.	87,000 00
On extra families.	30,000 00
On tugboats, etc.	13,000 00

Decrease in Queens. \$23,000 00

Increase.	\$305,000 00
Decrease.	26,500 00

Total increase. \$278,500 00

Which was referred to the Committee on Water Supply.

The President laid before the Council the following communication from the Department of Public Charities:

Which was ordered on file.

"In accordance with this action I am directed to request that you will kindly investigate this matter, and advise the Board fully as to what steps should be taken to proceed with the grading and paving."

"Inclosed are (1) copy of communication from President of Brooklyn, and (2) copy of report of Commissioner of Highways."

In reply thereto I would say that by chapter 30 of the Laws of 1897, the Commissioner of City Works of the City of Brooklyn was authorized to grade, pave and otherwise improve the foot of Grand street in said city whenever the Common Council and the Mayor of said city should alter the Commissioner's map thereof by widening the approaches to the ferries at the foot of said street by including in said street certain property described in the act. The Commissioner of City Works was also authorized to purchase this property, and if no agreement could be reached as to the price to be paid therefor, the law provided that such property might be condemned under the provisions of the Condemnation Law.

Acting under this statute the Commissioner of City Works of the City of Brooklyn and the Mayor of said city altered the Commissioner's map thereof in the manner authorized by the act. It having been found impossible to agree with the owner of the property required, as to the price to be paid therefor, a condemnation proceeding was begun to acquire the same. The final order in this proceeding was confirmed by the Supreme Court on the 19th day of July, 1898. An appeal was taken from this order to the Appellate Division of that Court, which was argued and a decision was rendered affirming the order. No further appeal has been taken, and the amount awarded by the Commissioners has been duly paid to the persons entitled thereto and has been accepted by them. On the 15th day of August, 1899, the said City took possession of this property, and since that time has been receiving the rents therefor. There is now no legal obstacle to the carrying out of the improvement contemplated and authorized by the act above cited.

In answer to your request that I advise the Board as to what steps should be taken to proceed with the grading and paving of this street, I would say that by section 527 of the Charter, all powers and duties conferred upon the corporation known as the City of Brooklyn, or upon any board or officer thereof in any way relating to the regulating, grading, regrading, curbing, flagging and guttering of streets, the laying of crosswalks, the constructing and repairment of public roads, paving, repaving and repairing of all streets and the relaying of all pavements removed for any cause, the filling of lots and all matters directly relating thereto are vested in The City of New York as constituted by the Charter; and as matter of administration devolved upon the Commissioner of Highways, to be executed pursuant to the provisions, directions and limitations of this act. A devolution of powers and duties upon The City of New York is in effect a devolution of such powers and duties upon the officers and departments upon whom is placed the exercise of said powers and duties. By section 413 of the Charter it is provided that "except as herein otherwise provided, any public work or improvement within the cognizance and control of any one or more of the departments of the commissioners who constitute the board of public improvements, that may be the subject of a contract must first be duly authorized and approved by a resolution of the board of public improvements and an ordinance or resolution of the municipal assembly. \* \* \* When a public work or improvement shall have been duly authorized as aforesaid, then, but not until then, it shall be lawful for the proper department to proceed in the execution thereof in accordance with the provisions and subject to the limitations of this act."

The Commissioner of Highways is one of the Commissioners who constitute the Board of Public Improvements.

I am of the opinion, then, that this improvement must first be authorized by the Board of Public Improvements and by the Municipal Assembly, in accordance with the provisions of the Charter just cited, and that upon such authorization the Commissioner of Highways shall proceed to carry out the improvement as other improvements of a like nature are now carried out in the city, pursuant to the provisions, directions and limitations of the Charter. The provision of the Law of 1897 as to the means of payment for the improvement is still effective (Charter, section 170), and the Comptroller may be called upon from time to time to issue the necessary amount of bonds to meet such payments.

Respectfully,  
JOHN WHALEN, Corporation Counsel.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH,  
February 27, 1900.

Municipal Assembly:

GENTLEMEN—The Local Boards of the Fifth and Eighth Districts, Borough of Brooklyn, after hearing had at a joint meeting held on February 23, 1900, duly advertised, adopted the following:

(Copy.)

BROOKLYN, January 10, 1900.

To the Local Board of Improvements of the Fifth District, Borough of Brooklyn:

GENTLEMEN—We herewith respectfully petition to change the boundaries of the Twenty-ninth, Thirtieth and Thirty-second Wards of the Borough of Brooklyn, City of New York.

You will notice from map inclosed that the ward lines of above-mentioned wards are on very confusing intersecting lines. We might mention that the ward lines were about to be changed just before consolidation, but was lost sight of since annexation.

These changes of lines are absolutely necessary, as the section shown by map is about to be developed, and the lines divide many lots into two distinct wards, and make the payment of taxes, assessments, etc., very confusing.

We therefore pray that part of the Thirty-second, Thirty-first and Thirtieth Wards be annexed to the Twenty-ninth Ward by the following description: Beginning at the centre line of Foster and Coney Island avenues; thence along the centre line of Coney Island avenue to the centre line of Avenue G; to the centre line of Ocean avenue to Avenue F; thence along the centre line of Avenue F to the centre line of Flatbush avenue; thence along Flatbush avenue to where it meets the Twenty-ninth Ward line.

Respectfully,

(Signed) HENRY A. MEYER, President,  
Germania Real Estate and Improvement Company.

## No. 265.

The Committee on Fire, to whom was referred the annexed resolution of the Council in favor of Senate Bill No. 70, relating to promotions in Fire Department (page 171, Minutes of February 13, 1900), respectfully

## REPORT:

That, having examined the subject, they recommend that the said resolution be concurred in. Whereas, The uniformed members of the Fire Department stand ready, by day and night, to face death in the performance of their duty, not as soldiers in response to the summons of the bugle, but at the ringing of a gong, which calls them to fight for the preservation of life and property; and

Whereas, Examples of superb heroism have, from time to time in the history of The City of New York, been displayed by the uniformed members of the said Department, far surpassing the gallantry of combatants on the field of battle, although the names of such heroes are unknown to fame and unheralded except in the records of said Department; and

Whereas, The people of this municipality are under a debt of gratitude to the uniformed members of said Department for the alert fidelity with which they perform their perilous and arduous duties, and desire to express their appreciation of the efficiency with which, during the twenty-four hours of the day, they stand as a protection to the homes of our fellow-citizens; and

Whereas, Bill No. 70, Introductory No. 60, has been introduced in the Senate of this State authorizing the Fire Commissioner of The City of New York to promote, without competitive examination, any uniformed member of the Fire Department of The City of New York who, at any time or at any fire in The City of New York, and at personal risk, saved one or more lives; therefore be it

Resolved, That the Municipal Assembly of The City of New York most earnestly appeals to the members of the Senate and Assembly in Albany to adopt the said bill; and be it further

Resolved, That copies of this resolution, when approved by his Honor the Mayor, be transmitted by the City Clerk to the Senate and Assembly, urging speedy and favorable action, and to his Excellency the Governor of this State, requesting him to attach his signature to the said bill when it comes before him for approval.

EDWARD F. McENEANEY, CHARLES ALT, FRANCIS J. BYRNE, THOMAS F. McCAUL, Committee on Fire.

On motion of Alderman McEneaney, the report was moved to immediate consideration.

Which was decided in the affirmative.

By Alderman Goodman—

Whereas, The subject matter to which appended letter refers is not only deserving of consideration, but should receive prompt attention; therefore Resolved, That our Committee on Street Cleaning be and it is hereby instructed to confer with the Department of Street Cleaning, and with such other interests as may be deemed necessary—notably the Board of Health and the Board of Public Improvements—with a view of preparing suitable legislation, for consideration and action by the Municipal Assembly, or by the Legislature if needs be, that will adequately and equitably meet the conditions as set forth in the appended communication.

GRIFENHAGEN BROS. & CO.,  
Nos. 550 AND 552 WEST TWENTY-FIFTH STREET,  
NEW YORK, March 3, 1900.

Hon. ELIAS GOODMAN, City:

DEAR SIR—Complying with your suggestion we herewith transmit a statement of the conditions which prompted us to claim that some legislation is necessary to provide relief for the many in commercial circles who, like ourselves, must have an outlet for accumulated refuse.

In our line of business there is considerable waste, and constantly, in consequence, barrels of refuse encumber our premises. We have tried to find a place for this matter, being willing to remove it to the dumps of the Street Cleaning Department at our own expense and with our own wagons. We have tried but failed to obtain permit to do so. It is contended by the Department that no authority in law exists for the permission sought; that the refuse contemplated by the laws governing the Department is waste of the household and such as is produced by business concerns in the management of their affairs. In other words, not the destroyed or the accumulated useless merchandise known as trade waste.

It must be obvious that some relief is not only advisable but necessary. We cannot dump this matter in our back-yard, cannot store it with others, and must remove it somewhere for final disposition.

It seems that some arrangement might be entered into whereby the city could afford the relief asked for, and the business man obtaining such relief be required to pay a just sum for the service rendered.

Hoping you may be able to secure some legislation that will adequately meet this pressing want, we are,

Very truly yours,  
GRIFENHAGEN BROS. & CO.

## DEPARTMENT OF HEALTH.

DEPARTMENT OF HEALTH,  
SOUTHWEST CORNER FIFTY-FIFTH STREET AND  
SIXTH AVENUE,  
February 28, 1900.

## TO CONTRACTORS.

**SEALED BIDS OR ESTIMATES FOR FUR-**  
nishing Five Hundred Tons of White Ash Coal,  
egg size, for the Willard Parker and Reception Hos-  
pitals, under the charge of the Board of Health, will be  
received at the office of the Department of Health,  
in The City of New York, until 10 o'clock A. M.,

**MARCH 14, 1900.**

The person or persons making any bid or estimate  
shall furnish the same in a sealed envelope, indorsed  
"Bid or Estimate for Furnishing Coal for the Willard  
Parker and Reception Hospitals," and with his or their  
name or names, and the date of its presentation, to the  
head of said Department, at the said office, on or before  
the day and hour above named, at which time and  
place the bids or estimates received will be publicly  
opened by the President of said Board and read.

The Board of Health reserves the right to reject all  
bids or estimates, as provided in section 419, chapter 378,  
Laws of 1897, if deemed to be for the public interest.  
No bid or estimate will be accepted from, or contract  
awarded to, any person who is in arrears to the Cor-  
poration upon debt or contract, or who is a defaulter, as  
surety or otherwise, upon any obligation to the Cor-  
poration.

The award of the contract will be made as soon as  
practicable after the opening of the bids.

The Coal to be of good quality, and the quantity that  
will be required will be about Five Hundred (500) Tons  
of White Ash Coal, egg size, to be well screened and in  
good order, each ton to be 2,240 pounds, in accordance  
with the specifications attached to and which form a  
part of the contract aforesaid.

Delivery to be made at the Willard Parker and Re-  
ception Hospitals, near the foot of East Sixteenth street,  
at the time required by the Board of Health; any  
changes in the time or place of delivery, however, may  
be made, in writing, by the Board of Health.

The above quantity is estimated and approximated  
only, and bidders are notified that the Board of Health  
reserves the right to increase or diminish said quantities  
by an amount not exceeding fifteen per cent. of the  
estimated quantities, and the contractor will be paid  
therefor only at the rate or price named in the contract,

and that in case the above-named quantity shall not be  
required by the Department, no allowance will be made  
for any real or supposed damage or loss of profit.

The person or persons to whom the contract may be  
awarded will be required to give security for the per-  
formance of the contract by his or their bond, with two  
sufficient sureties, each in the penal sum of One  
Thousand Two Hundred Dollars.

Each bid or estimate shall contain and state the name  
and place of residence of each of the persons making the  
same, the names of all persons interested with  
him or them therein, and if no other person  
be so interested it shall distinctly state that fact;  
also that it is made without any connection with any  
other person making an estimate for the same  
purpose, and is in all respects fair and without  
collusion or fraud, and that no member of the  
Municipal Assembly, head of a department, chief of  
a bureau, deputy thereof, or clerk therein, or other  
officer of the Corporation, is directly or indirectly in-  
terested therein, or in the supplies or work to which it  
relates, or any portion of the profits thereof. The  
bid or estimate must be verified by the oath, in writing,  
of the party or parties making the estimate that the  
several matters therein stated are in all respects true.

Where more than one person is interested, it is  
 requisite that the verification be made and subscribed  
by all the parties interested.

Bidders will be required to furnish testimonials that  
they are engaged in the coal business in The City of  
New York, and have the plant necessary to carry out  
promptly and regularly the contract, if it be awarded,  
to the entire satisfaction of the Board of Health, and  
must furnish an undertaking for the faithful perfor-  
mance of all the provisions thereof in the manner pro-  
vided by law, executed by two householders or free-  
holders of The City of New York, each justifying in the  
penal sum of One Thousand Two Hundred Dollars and  
agreeing that if he shall omit or refuse to execute  
the said contract, they will pay to the Corporation  
any difference between the sum to which he would be  
entitled on its completion and that which the Cor-  
poration may be obliged to pay to the person or persons to  
whom the contract shall be awarded at any subsequent  
letting, the amount in each case to be calculated upon  
the estimated amount of the work by which the bids are  
tested. The consent above mentioned shall be  
accompanied by the oath or affirmation, in writ-  
ing, of each of the persons signing the same, that  
he is a householder or freeholder in The City  
of New York, and is worth the amount of the security  
required for the completion of this contract, over and  
above all his debts of every nature, and over and above  
his liabilities as bail, surety or otherwise, and that he  
has offered himself as a surety in good faith and with  
the intention to execute the bond required by law. The  
adequacy and sufficiency of the security offered is to  
be approved by the Comptroller of The City of New  
York.

Should the person or persons to whom the contract  
is awarded neglect or refuse to accept the contract  
within five days after written notice that the same has  
been awarded to his or their bid or estimate, or if he  
or they accept, but do not execute the contract and give  
the proper security, he or they shall be considered  
as having abandoned it and as in default to the Cor-  
poration, and the contract will be readvertised and relet  
as provided by law.

No bid or estimate will be received or considered  
unless accompanied by either a certified check upon one  
of the National or State banks of The City of New York,  
drawn to the order of the Comptroller, or money to the  
amount of five per centum of the amount of the security  
required for the faithful performance of the contract.  
Such check or money must not be inclosed in the  
sealed envelope containing the estimate, but must be  
handed to the officer or clerk of the Department who  
has charge of the estimate box, and no estimate can be  
deposited in said box until such check or money has  
been examined by said officer or clerk and found to be  
correct. All such deposits, except that of the success-  
ful bidder, will be returned to the persons making the  
same within three days after the contract is awarded.  
If the successful bidder shall refuse or neglect, within  
five days after notice that the contract has been awarded  
to him, to execute the same, the amount of the deposit  
made by him shall be forfeited to and retained by The  
City of New York as liquidated damages for such neg-  
lect or refusal; but if he shall execute the contract  
within the time aforesaid the amount of his deposit will  
be returned to him.

Bidders are cautioned to examine the form of con-  
tract and the specifications for particulars before mak-  
ing their estimates. Bidders will write out the amount  
of their estimate in addition to inserting the same in  
figures.

Payment for the Coal will be made by requisition on  
the Comptroller, and as more specifically and particu-  
larly is set forth in the contract form.

Bidders are informed that no deviation from the con-  
tract and specifications will be allowed unless under the  
written instruction of the Board of Health.

The form of the agreement, including specifications,  
showing the manner of payment, will be furnished at  
the office of the Secretary of the Department, fourth  
floor, corner of Fifty-fifth street and Sixth avenue.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or estimate for Materials for the Manufacturing Bureau, for the Kings County Penitentiary," with his or her name or names, and the date of presentation, to the head of said Department, at the said office, on or before the date and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner of Correction, or his duly authorized agent, and read.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1892.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or

in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the Kings County Penitentiary, or, in the absence of samples, to the specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine. The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department, No. 148 East Twentieth street, or John M. Gray, Deputy Commissioner, Room 22, Borough Hall, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

FRANCIS J. LANTRY,  
Commissioner.

## Workhouse.

192. 4 rooms in Warden's Apartments to be furnished with Metallic Ceilings.

No bonds or deposit required on bids under One Thousand Dollars. Awards will be made on the lowest items.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioner.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will state the price for each article, by which the bids will be tested.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller in accordance with the terms of the contract, or from time to time as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment and other details, will be furnished at the office of the Department, No. 148 East Twentieth street, New York City, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

#### PROPOSALS FOR ESTIMATES OR BIDS.

**SEALED ESTIMATES FOR FURNISHING THE** Police Department with Plumbing Supplies will be received at the Central Office of the Department of Police, in The City of New York, until 2 o'clock P. M. of **FRIDAY, THE 16TH DAY OF MARCH, 1900.**

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed "Estimate for Furnishing Plumbing Supplies," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the estimates received will be publicly opened by the head of said Department and read.

For particulars as to the quality, kind and quantity of each article required, reference must be made to the specifications, blank forms of which and of the approved form of agreement and blank form of the estimates or bids may be obtained at the office of the Chief Clerk in the Central Department.

The attention of bidders is called to the following provisions of the contract, and it is hereby expressly agreed by and between the parties to this contract, that the said parties of the second part may, and they are hereby authorized, to increase or diminish the amounts of plumbing supplies required to be furnished herein, by an amount not to exceed 20 per cent., without compensation to the said parties of the first part, other than the price per article herein agreed upon to be paid for the amount actually furnished under this agreement.

Bidders will state the price for the entire schedule, as well as for each item, for which they will contract to supply the articles of supplies, in accordance with the specifications therefor. The Police Department reserves the right to purchase by the entire schedule or to contract for each item.

Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the head of said Department to reject all bids should it be deemed to the public interest so to do.

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, in the manner prescribed by law, in the sum of Three Thousand Dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested.

The consent above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract for all or any part of said supplies may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Samples of all goods, materials, supplies, etc., estimated on and for which bids are submitted must be delivered at the office of the Chief Clerk, when required by the Department.

By order of the Board.

Chief Clerk.
