Whereas, The Root Manufacturing Company of Cohoes, N. Y., has made application under sub-section 5 of section 8-a of the Labor Law, as amended by Chapter 648, Laws of 1915, for exemption for certain of its employees, permitting two boiler house employees to work not to exceed five hours on Sunday blowing out flues, this exemption to apply Dec. 1 to March 15, and for five mechanics to work seven days per week for about four months, during which time the plant is to be changed from water power to electric power; and

Whereas, On investigation of the Supervising Inspector of the district in which said industry is located, it is shown that such exemption is a proper one to be made under the provisions of the law already referred to; therefore be it

Resolved, That said application be and hereby is granted and that the West Virginia Pulp & Paper Company of Mechanicville be permitted to work its operators and the machine rooms to the number of about 550 employees not more than eight hours per day through the week, except when making shifts, then sixteen hours on one shift, then eight hours off and eight hours on, but not to work said employees more than eight hours on any shift except the sixteen-hour shift referred to above, and that this resolution shall become effective at once.

#### MUNICIPAL CIVIL SERVICE COMMISSION.

##### Notice of Public Hearing.

Proposed amendments to clauses 20, 21 and 22 of rule XV to read as follows:

Clause 20: The subjects of rating and the relative weights thereof in any competitive examination shall be as follows: For comparative conduct, seniority and efficiency in previous service, as may be determined from the transcript of the efficiency or service record (or as may be otherwise determined under paragraph 21 of this rule), between the date of the original appointment of the candidate and the final date for the receiving of applications for any stated examination, 50; and for mental examination on pertinent subjects, 50. (In cases where the candidate has obtained a promotion record as the result of a competitive examination, the record shall be a continuation of the last record furnished; but if the promotion is obtained without competitive examination, the record shall commence from the date of his promotion to the position or grade.)

In rating records where more than one grade is opened, such rating shall be based upon the service of the candidate in all of such positions or grades.

Clause 21: To provide a basis of rating for previous service, there shall be kept in each department or office continuous and permanent records of the efficiency, character and conduct of all persons employed in "positions in the competitive class." Such records shall be known as "efficiency records" or "service records," and the plans or sub-factors as the Commission may, by resolution duly recorded in its minutes, direct.

Clause 22: The entries upon an efficiency record or service record shall be made under the direction of a board to be known as the board of promotions or departmental personnel board to be established in each department, which shall consist of not less than three and not more than nine superior officers or employees of such department, who shall be designated by the appointing officer therein, subject to confirmation by the Commission. Such entries shall be based upon reports submitted by the administrative officer most closely in touch with the work of the officer or employee to be rated and shall be made three times a year on or about the tenth day of January, May and September of each year, and shall be a record for the four months' period immediately preceding. Such reports shall be made on a form to be prescribed by the Commission. After the board of promotions or departmental personnel board has passed upon the terms or percentages to be used to indicate the degree of efficiency of the several employees, the original reports and the recommendations made in accordance shall be transmitted to the Commission for its approval before any entries are made upon the efficiency or service record. Whenever, in the judgment of the Commission, more exact information is required than that given in such reports, the original records of the department may be consulted or such action taken as may be deemed advisable. The Commission shall have power to change or amend any of the recommendations made by the board of promotions or the departmental personnel boards as to the terms or percentages to be used to indicate degrees of efficiency where it shall find that such terms or percentages are not warranted by the report submitted or that such reports do not contain a fair and true account of the comparative efficiency of the several employees whose names appear therein. Where such changes are made, the reasons shall be given in writing to the department concerned. When the Commission has considered the recommendations made in the reports, it shall transmit an account of its findings to the several departments, after which the entries shall be made upon the efficiency records or the service records. The terms to be employed to indicate the degree of efficiency shall be such as the Commission may, by resolution duly recorded in its minutes, prescribe. For periods of service prior to the establishment or in the absence of any such record, such ratings shall be based on such certificates covering the several elements of service specified by the Commission in such forms as the Commission may require. The efficiency records or service records shall be open to either the Chief Examiner or to any examiner designated by him and at reasonable times to any of

feet or employee whose conduct is noted therein. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting bricks, etc., on the faces of such party walls are to be taken down and removed.
