## REPORTS OF STANDING COMMITTEES.

Report of the Committee on Finance—

No. 1926.

Report of the Committee on Finance on the Budget for 1918.

The Committee on Finance, to which was referred on November 13, 1917 (page 206), the proposed budget for the year 1918, respectfully

REPORTS:

That it has given this proposed budget the most careful consideration possible during the twenty days' limit imposed by the Charter. During this period it has given two days to hearings, one devoted to the public and the other to afford heads of departments an opportunity to make such explanations of increased appropriations as they individually desired.

Because of the pressing war conditions, the Committee has not attempted to analyze the allowances for food, fuel and other supplies and materials. In its opinion no accurate conclusion can be made concerning the volume and necessity of such expenditures during the coming year. These items are such as must be subject to the action of the several controlling commissions appointed by the federal authorities, together with an economical supervision by the incoming administration and its heads of departments.

There is no such restriction, however, in the matter of the higher salaries, particularly as City employees are free from the requirements of the national income tax. While it is uncontroversial that the cost of living has unavoidably jumped within the year in such fashion as to make it necessary to provide more adequate compensation for the lower paid employees, it is the judgment of the Committee that no salary over \$3,500 should be increased, nor should any salary below that figure be brought above it. The Committee has accordingly recommended decreases in proposed salaries of such character aggregating \$32,350 where no mandatory provisions prevent, except in the uniformed forces.

In the budget for 1918, as submitted to this Board, there appears a large number of new places of various descriptions scattered through the City and County departments, boards and commissions. The Committee has given thorough consideration to these proposed positions and believes that many of them may be dispensed with without detriment to the service. In its opinion no vital necessity exists for such as it has listed in the memorandum accompanying this report. Proper administration can easily consolidate professional, clerical and investigational duties so that the work which might have been entrusted to new employees may be performed by departments already capably equipped to conduct the governmental functions. A striking example of the manner in which some portions of this budget were compiled is shown in the denial of an additional force of patrolmen in the Police Department and at the same time an allowance of 80 additional sergeants asked for to supervise the extra force. This is so evidently an error that it demands no extended criticism. The principal item under the caption of new places is the allowance of 380 new teachers for the Department of Education. The deduction of this additional force is based upon the fact that the public school registration for the current school year is less than that for last year for perfectly obvious reasons, and the indications are that the average attendance will be less. If there is need for extra teachers through the year they can be obtained by placing those teachers now doing clerical work in the schools. There appears to be an unnecessarily large number of clerks now employed at the headquarters of the department, especially in the Bureau of Supplies. Certainly some of these can be assigned to the clerical work in the schools. The amount deducted by the elimination of the new places (over 250 in number, exclusive of the teachers already referred to) is \$651,237.

## Special Items.

In the Board of Estimate and Apportionment your Committee has found three positions which it believes to be unnecessary:

Engineer, Bureau of Franchises ..... \$7,500 00

This place is vacant, the incumbent having accepted an opportunity of retirement within the week.

Educational Consultant (William Wirt) ..... \$10,000 00

As the system advocated by Mr. Wirt was denounced by the administration which assumes office January 1st, 1918, his place may well be vacated.

Secretary of Recreation ..... \$4,000 00

This ornamental position has been suffered to exist during the life of the present administration without the slightest resultant value to the City or its citizens, and this Committee again presents it for elimination.

The allowance for contingencies for the Board of Estimate and Apportionment is \$75,000. It is the opinion of your Committee that an economical administration, under normal conditions, can get along with \$25,000, and it so recommends.

The Law Department is almost top heavy with the force of assistants on its payroll. It is difficult to believe that not only is there sufficient legal work to continuously occupy this staff, but that it is also necessary to secure so many high-priced special counsel and expensive experts to conduct the routine legal business of the City. It is apparent that a reorganization of this office is incumbent upon the new administration, and in the opinion of your Committee no large allowance should be made for outside help. For these reasons it recommends that the following items be stricken from the budget:

|                           |             |
|---------------------------|-------------|
| Services of Experts ..... | \$55,000 00 |
| Special Counsel .....     | 15,000 00   |

It also reports in favor of reducing the contingency account of this department from \$21,000 to \$15,000.

In making the budget for the New York Public Library and the Brooklyn Public Library, the original recommendation of the reporting agency of the Board of Estimate and Apportionment of the amounts needed for the purchase of books was substantially raised by the Budget Committee. This is not the time for such additional appropriations, and the items which follow are reported for deduction:

|                                      |             |
|--------------------------------------|-------------|
| New York Public Library, Books ..... | \$26,414 00 |
| Brooklyn Public Library, Books ..... | 11,823 00   |

The proposed allowance of \$25,000 for the Henry Street Settlement is ingeniously but improperly grouped with the "payments to charitable institutions." The house of this society is not equipped to receive patients as do the hospitals and homes subsidized by the city. It is not the intention to so equip it. This generous donation is to pay the salaries and expenses of certain individuals who would visit such homes as were indicated by the directors of this social settlement, and do investigating, and, perhaps, in some instances, temporary nursing. This departure in the appropriation of city funds would open wide the doors for applications from all directions under the guise of furnishing aid and comfort to the needy, no matter how insignificant the proof of such assertions might be. This particular case seems to be one entirely out of the function of city government and should be most emphatically refused.

The proposed budget contains an item entitled, "Contingency Fund for Labor, \$1,500,000." This sum was placed in the budget on the theory that the demands upon wage earners by the cost of provisions, fuel, clothing, etc., would make it an act of justice and necessity to raise wages of the per diem laborers from \$2.75 to \$3.00 a day, with a corresponding increase in the salaries of those per annum employees in the labor class whose earnings averaged below the \$3.00 rate. Some further calculation was included as to the possible necessity of advances in wages to retain the services of absolutely necessary workers who might be attracted by higher rates in private or governmental employ. The Board of Aldermen requested the proper reporting agency to inform it as to the approximate amount required for the purposes of this fund and such information has been given in detail. No injustice can be done to any low paid employee, nor will the city suffer for lack of a proper reserve fund if the recommendation of this committee to strike \$800,000 from this allowance be adopted.

Another item, apparently based on an amount assigned to the Mayor during 1917, is entitled "National Defense Emergency Fund, \$250,000."

It is beyond question that no such wholesale distribution of city money will be required or countenanced by the new administration. Committees of every conceivable purpose, with office organizations which would compare with some of the largest private corporations, struggled to get out of each other's way. Busy brains continually found excuses for the spotlight and reams of paper were consumed in efforts to secure publicity for these independent bodies so blithely competing with each other on city funds. It may well be that emergencies may arise which require special co-operation with the federal and state authorities to the extent that some expenditure must be made other than the regular departmental appropriations. For this purpose the committee proposes to leave a balance of \$100,000 in this fund, deducting from the budget allowance \$150,000.

|                                       |                |
|---------------------------------------|----------------|
| The total deductions recommended are: |                |
| Increases in salaries .....           | \$32,330 00    |
| New positions .....                   | 652,077 00     |
| Useless places .....                  | 22,700 00      |
| Miscellaneous .....                   | 1,150,237 00   |
| Total .....                           | \$1,857,344 00 |

The Committee recommends that the accompanying resolution, amending the budget, be approved.

Resolved, That the Budget for 1918, as submitted to the Board of Aldermen by the Board of Estimate and Apportionment, be and the same is hereby reduced and amended as follows:

(For the Budget for 1918, including the supporting schedules, see the CITY RECORD of November 13, 1917, and the proceedings of the Board of Aldermen for Tuesday, November 13, 1917.)

Following the reading of the foregoing report the President, at the request of Alderman Squiers, laid before the Board the following communication from the Register of the County of New York:

No. 1970.

**Register, New York County—Recommending Reduction in Budget for 1918 by Eliminating Provisions for One Cashier and One Custodian.**

Register's Office, Hall of Records, County of New York, November 21, 1917.  
Code 3105—Reduction of Budget for 1918.

Board of Aldermen, City Hall, New York City:

Gentlemen—I recommend a reduction of \$2,340 in the 1918 budget appropriation for the Register of New York County (Code 3105) by eliminating the provisions for one cashier at \$1,500 and one custodian at \$840, as these places are no longer needed.

The general administration of this office has heretofore required the services of two cashiers because cash was received from the public at two places in the building, which were widely separated—one in the general receiving division on the second floor and the other in the mortgage satisfaction division on the third floor.

During the present year the work of satisfying mortgages has been put into the general office routine and the separate satisfaction division has been abolished, so that at present satisfactions are handled in the same way as other instruments, with a yearly saving of several thousands of dollars.

The high cost of maintaining a separate satisfaction division (with a reducing volume of satisfactions) has been the subject of just criticism in the past. This is now corrected.

When my budget estimates for 1918 were made in August, the position of cashier at \$1,500 was retained because, under the revised floor plans, the chattel mortgage division was removed from the second floor to the first floor and it was planned to receive the chattel papers and the fees therefor on the first floor, as well as the satisfaction fees. A cashier's cage on the first floor was provided for that purpose.

Since that time we have actually moved the divisions, and it has been found, in practice, that the convenience of both the public and the office is best served by having all papers and fees received in one place.

We have, therefore, concentrated all receiving work and cash collections in the general receiving division on the second floor, so that one cashier only is now needed.

The custodian's place at \$840 became vacant November 1, 1917, by resignation. Because of the reduced floor space fewer custodians are needed, so that this place need not be filled.

I am addressing this letter to the Board of Aldermen because I understand that your Board now has the budget under consideration and may reduce it in proper cases. Yours truly, JNO. J. HOPPER, Register, New York County.

Which was ordered on file.

Alderman Haubert moved that the Board take a recess for ten minutes to enable the members to peruse the report of the Committee on Finance.

Which motion was lost.

The President then laid before the Board the following message from the Mayor:

No. 1971.

**His Honor the Mayor—Requesting Board of Aldermen to Reduce Appropriation of Department of Education in Budget for 1918 by the Sum of \$829,206.98.**

City of New York, Office of the Mayor, November 30, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I am to-day in receipt of an opinion of the Corporation Counsel, according to which it appears that the school funds appropriated by the State for the uses of this City will be at the disposal of the Board of Education of this City and not payable into the general fund for the reduction of taxation, as heretofore.

Accordingly, there is an overappropriation in the Department of Education of approximately \$2,000,000, the equivalent of the amount usually appropriated by the State for the City's school purposes. The provisions of the new educational law which fixes a minimum appropriation equal to the product of .0049, however, makes

it impossible to reduce the budget as transmitted by the Board of Estimate by any sum larger than \$829,206.98.

Accordingly, I now request your Honorable Board to reduce the appropriation of the Department of Education by the sum of \$829,206.98.

Very truly yours,

JOHN PURROY MITCHEL, Mayor.

Which was ordered on file.

Alderman Kenney then moved that the Board agree with the report of the Committee on Finance and adopt the accompanying resolution.

The President put the question whether the Board would agree with said motion. Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burden, Browne, Cassidy, Collins, Cox, Cunningham, Curley, Daly, Delaney, Dickstein, Dixon, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Florea, Gilmore, Glennon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McManus, Martin, Molen, Mullen, O'Rourke, Palitz, Post, Quinn, Roberts, Ryan, Schmitz, Schweickert, Shields, Silberstein, Sullivan, Stapleton, Tolk, Walsh, Williams, Wirth, Wise; President Van Name; President Connolly, by James A. No. 1972.

**Resolution Reducing Appropriation to Department of Education in Budget for 1918.**

By Alderman Kenney—

Resolved, That, in pursuance of an opinion rendered by the Corporation Counsel, under date of November 28, 1917 (copy of which is hereto annexed), the Budget for 1918, as submitted to the Board of Aldermen by the Board of Estimate and Apportionment, be and the same is further reduced and amended, as follows:

By striking out under the heading "Department of Education," in "Code No. 850," from the total sum of \$36,219,711.87, the amount of \$553,089.98, in addition to the amount of \$276,117 deducted for salaries of new teachers and other miscellaneous items.

November 28, 1917.

Hon. WILLIAM A. PRENDERGAST, Comptroller:

Sir—You have orally requested advice as to whether the amount of the apportionment to the City of school funds appropriated by the State may, under Laws of 1917, chapter 786, be paid into the general fund for the reduction of taxation, as in the past, or should be allotted to the Board of Education for school purposes.

Radical changes appear to have been made upon this subject by article 33-A of the Education Law (added thereto by chapter 786 of the Laws of 1917). By section 877 of the Education Law, introduced by this amendment, it is provided as follows:

"The board of education in each city having a population of less than one million shall prepare annually an itemized estimate for the current or ensuing fiscal year of such sum of money as it may deem necessary for the purposes stated in this section, after crediting thereto the amount anticipated in the next apportionment of school funds from the state and the estimated amount to be received from all other sources. Such itemized estimate in such cities shall be filed at such times and in such manner as city departments or officers are required to submit estimates for such departments or officers. The board of education in each other city shall prepare annually an itemized estimate for the ensuing fiscal year and file the same on or before the first day of September. Such estimate shall be for the following purposes: \* \* \*

You will observe that the provision with respect to cities having a population of less than one million, for crediting to the annual itemized estimate the amount anticipated in the next apportionment of school funds from the state is entirely omitted from the provision for the annual itemized estimate of all other cities. This section further provides the purposes of the estimates referred to in the above quotation, which purposes embrace not only those covered by the general school fund as it existed under section 1060 of the Charter prior to the amendment, but also those covered by the special school fund under said section of the Charter. It also makes the following provision in subdivision 7:

"In a city which had, according to the federal census of nineteen hundred and ten, a population of one million or more such estimate shall be filed with the board of estimate and apportionment. If the total amount requested in such estimate shall be equivalent to or less than four and nine-tenths mills on every dollar of assessed valuation of the real and personal property in such city liable to taxation, the board of estimate and apportionment shall appropriate such amount. If the total amount contained in such estimate shall exceed the said sum of four and nine-tenths mills on every dollar of assessed valuation of the real and personal property in such city liable to taxation, such estimate shall, as to such excess, be subject to such consideration and such action by the board of estimate and apportionment, the board of aldermen, and the mayor as that taken upon departmental estimates submitted to the board of estimate and apportionment."

The amount thus required to be raised appears to be for general school purposes without maintaining the former distinction between the purposes of the general and special school funds. Prior to the amendment the Board of Estimate and Apportionment was, by section 1064 of the Charter, required annually to raise an amount equivalent to not less than three mills on every dollar of assessed valuation of real and personal estate in the City liable to taxation, but such amount was for the general school fund.

The sections of the Charter above referred to, together with others, pertaining to the general subject covered by other provisions of the new article of the Education Law are expressly repealed by the statute enacting that article.

Section 1102 of the Charter, which provided that the amount of the apportionment to the City of school funds appropriated by the State should be placed in the City Treasury to the credit of the general fund for the reduction of taxation, was not expressly repealed, but said act contains a general clause repealing all acts or parts of acts, general or special, inconsistent with its provisions.

Section 880 of the new article of the Education Law provides:

"§880. Funds; custody and disbursement of. 1. Public moneys apportioned to a city by the state and all funds raised or collected by the authorities of a city for school purposes or to be used by the board of education for any purpose authorized in this chapter, or any other funds belonging to a city and received from any source whatsoever for similar purposes, shall be paid into the treasury of such city and shall be credited to the board of education."

Upon a careful examination of the amendatory statute and especially in view of the provisions to which I have referred, it seems to me that a new scheme has been created with respect to funds raised for school purposes, under which it would not be proper to pay into the general fund for the reduction of taxation the amount of the appropriation to the City from school funds appropriated by the State, and, in my judgment, the course suggested by the second alternative of your question should be pursued. Respectfully yours, LAMAR HARDY, Corporation Counsel.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

During the past quarter, under section 951 of the Charter, 132 claims, in 23 proceedings, were filed. The Board made and transmitted 58 awards in 6 proceedings, the awards with interest aggregating \$19,595.14, which amount was added to the cost of the work and apportioned among the several assessment lists affected. During the

quarter 26 claims were disallowed and dismissed. In addition to the above, in connection with claims filed under chapter 516 of the Laws of 1916, amending section 951 of the Charter, the Board, during the past quarter, dismissed 9 claims and made 32 awards, aggregating \$51,400.

The Board of Assessors has received 11 certificates, aggregating \$1,855,244.77, from the President of the Borough of Brooklyn for the storm water relief sewers. It is not expected that the remainder of the certificates will be received until about July 1, 1918, and until they are received this assessment list cannot be apportioned.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery of purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
